Guidelines for Subcommittee Reports

The legislative mandate that led to the creation of the Genetic Task Force indicated that the GTF must consider information provided to it on:

- a) The incidence of discriminatory actions based upon genetic information
- b) Strategies to safeguard civil rights and privacy related to genetic information
- c) Remedies to compensate individuals for inappropriate use of genetic information
- d) Incentives for further research and development on the use of DNA to promote public health, safety and welfare.

Therefore, the Subcommittees may want to consider the following suggested outline for their reports. The Subcommittee Reports due on June 10, 2002 should be no longer than 2 pages. The content may be presented in 'bulleted'/outline format or paragraph form.
