---

It is absurd for COER to whine about the Island County Public Health taking up a resolution based on federal court rulings and Island County Health Staff and months of deliberation to tell COER no. It is absurd for COER to demand the State of Washington to interfere with a current US Navy EIS with a draft due out 10 November 2016. It is absurd for COER to demand the closure of an OLF that has had jets since January 1967 use the field and wait until July 2015 to request a judge - thankfully denied - close OLF Coupeville to Field Carrier Landing Practice. I need say no more. Please send me a copy of my comments for my files.
