~ Optional ~

Please consider completing this optional section, which will give the Board a sense of why this review has been requested.

NOTE: When conducting a health impact review, the Washington State Board of Health will consider various ways that a proposal might exacerbate or ameliorate health disparities. Completing this section will give the Board a head start by helping it understand the reasons why a review is being requested.

Briefly describe how you think the proposal might impact health disparities and whether you believe the impact will be in a positive or negative direction.

It will likely positively impact health outcomes, because more people will seek care and social supports.

Are there specific organizations or community groups you would like the Board to contact as part of this review if time allows?
