3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Rubin, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit

analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Thank You,

Hannah Kilcup

DO NOT enact a covid vaccine mandate for children of any age. If you do you will be responsible for the deaths and injury of hundreds to thousands of children. Don't be fooled by the federal government's propaganda. If you do your research, you'll understand that the covid vaccines are responsible for tens of thousands of deaths worldwide and over 1 million adverse effects. They are causing more harm than good. The vaccines have been proven to be ineffective. There are more people getting covid who have been "fully" vaccinated than those who are unvaccinated. There is no point other than for financial reasons for greedy pharmaceutical companies and state and local government agencies clambering for federal funds to get vaccinated.

Keep the government at all levels out of the family decision making process and out of the doctor patient relationship. Family decisions and medical decisions are personal and private.

What you should be spending your time on is enabling early treatment solutions that are widely available to all Washingtonians. The biggest crime of this century is that the government at all levels and medical administrations at all levels have failed to recognize that Covid can be treated early with existing medications that are already widely available.

DO NOT MANDATE VACCINES FOR CHILDREN OF ANY AGE.

Please do not make our children INNOCENT VICTIMS of a misguided, intellectually dishonest GOVERNMENT BOONDOGGLE. First, the Pfizer vaccine has only been approved for Emergency use, not for on-going application to the general populace. Our current circumstances are difficult but they do not constitute an Emergency. They are longer lasting than that. Second, Science has shown that there is VERY LOW RISK to children from Covid. Do you really want to try to vaccinate them against the sniffles? Third, the original research behind the Pfizer vaccine was SCIENTIFICALLY FLAWED. They mixed groups of 'control' and 'active' groups so there was no control group. Any beginning statistics student knows that is wrong. Fourth, recent reports show that both vaccinated and unvaccinated people are getting infected. This indicates that the vaccine is ineffective in preventing infection. Fifth, the idea of government mandates is contrary to the founding principles of this state and country.

For all these reasons and more please do not further terrorize and victimize our children by mandating an unnecessary and ineffective vaccine on them.

Covid shots should absolutely NOT be a requirement for our children to attend school or childcare. Children are not dying from COVID-19; however, they ARE dying, and they ARE being injured, from the CVOID-19 vaccines.

Choice is required when the risk is so much larger than the benefit of being vaccinated with the COVID-19 vaccines for our precious children.

Thanks for listening.

Washington State Board of Health

We highly object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents. This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90 percent of the population. Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been fully vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines.

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. This is not about +our +health; it is an unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

Subject: No Mandate for COVID Shots To Children

External Email

I am writing to you asking you NOT to approve the mandatory COVID vaccination shots to our children in order to attend school.

Children are at extremely low risk for COVID and vaccines are still status of Emergency Use Authorization.

This is a completely unnecessary mandate to require with all our children. I know of too many people in my area of Eastern Washington and my 54 year old cousin who have all died only days and weeks after receiving their vaccination shots!

We do not know enough about the vaccination effects long term and we are putting our country and children at high risk not knowing what could result in 5-10-15 or even 20 years?

I do not yet know of any children who have contracted COVID 19 or any of its variants and they have been exposed to their parents living in the same household while recovering from COVID.

Thank you,

External Email

Good Morning,

I would like to express my opinion that we should absolutely not have a Covid vaccine mandate for schools. Let me explain that my husband and I and all 3 of our children are fully vaccinated. But I do believe in this case, this vaccine should be a choice for families to make. Just like we don't mandate a flu vaccine and people die from that every year as well.

Please don't cause more divide in our communities. Help us come together not apart. Don't mandate the vaccine.

Subject: Natural families represented at today's meeting

External Email

Dear DOH,

We love WA, because it's conducive to healthy, natural living. My large circles of friends are pleading with you to please vote against WAC 246-100-070, WAC 246-100-045, and WAC 246-105.

Regarding WAC 246-105: If we crunchy folks wouldn't even put these ingredients into our deodorant, we certainly would not put these new ingredients into our children's veins. Freedom of choice must exist with anything still in an experimental phase, and especially. if it carries any health risks and scarcely benefits children - our future. We are highly educated, understand science and immunity, and carry higher loads of antibodies than those given these vaccines. If you enact this policy, we will all have to find different avenues to educate our children away from WA public schools.

Regarding WAC 246-100-045: My father was born in the Soviet Union, and this sounds eerily familiar to their forced psychological tests and terror. Why would anyone want to create intense fear and terrorize families throughout WA? All I can say is "Karma." Someday this can be turned against the other side. Loving our neighbor - no matter their beliefs - is the best choice and always the right choice.

Regarding WAC 246-100-070: We don't want WA to be a police state. Police states always fall. Think about how you want to be remembered in the history books that will be written. Good always wins in the end. The truth will be revealed. Be a hero.

Don't do the bidding of greedy Pharma and big corporations. Please chose humanity and reject all these.

Thank you for your honest and thoughtful efforts!

Crunchy Mama

Subject: NO MANDATORY COVID-19 "VACCINES"

External Email

Attention: WSBOH and TAG Members

Regarding your proposed move to force Covid-19 "vaccination" on our children, students and general population, let me remind you of Amendment 34 (1957) Art.1 Section II of the Washington State Constitution:

..."no one shall be molested or disturbed in person or property on account of religion."

The only EUA shot that is approved by the FDA is the Comirnaty-which isn't available to the public. Shame on you for suppressing information to the public that you are supposed to be protecting. This so-called "vaccine" is in fact mRNA technology that alters one's DNA. My body is the temple of the Holy Spirit and so are those of our children. Besides that, it doesn't work. Per CDC director Walensky, "What the vaccines can't do anymore is prevent transmission." Dr. Fauci says, "We know now as a fact that vaccinated people with Covid-19 are capable of transmitting the infection to someone else."

Are you aware that the CDC's own VAERS (Vaccine Adverse Event Reporting System), has documented 21,002 vaccine reported deaths? There have also been 1,859,633 reports of vaccine adverse events. You should be on top of that as a health department, why aren't we hearing about it from you? Why haven't there been safety panels since the roll-out of these shots?

Fifty-three people reportedly died after getting the swine flu vaccine in 1976.

That vaccination program was shut down.

In addition, these shots are not medically necessary. Children have a robust God-given immune system such that their survival rate from Covid-19 is 99.9% without treatment.

Alternative early treatment with drugs such as Hydroxychloroquine and Ivermectin are well documented by a number of highly credentialed doctors, including world renowned cardiologist Dr. Peter McCullough and Nobel Prize nominee Dr. Zev Zelenko.

You need to be held accountable, as well as others for suppressing alternative treatments to the public.

Do your homework.

Sincerely,
Kristy Welles

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee famously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-

benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors

Subject: No COVID Vaccine Requirement for Children

External Email

✉ Write to you this evening to urge you NOT to institute a COVID vaccine requirement for school aged children. I am a fully vaccinated adult, but I am not comfortable putting a vaccine in my four young childrens' bodies that has not yet received full FDA approval.

The short-term effects of the vaccine are not particularly troubling for me. What is VERY troubling are the vast unknowns about this vaccine on young children's immune system development, nervous system development, reproductive system development and brain development. Until we have definitive studies that extend beyond the 3100 children that were initially evaluated in Pfizer's study presented to the FDA, it seems premature to mandate that our most vulnerable children should receive a vaccine where there are still so many unanswered long-term consequences that are possible and still being evaluated for its safety.

Please do not take action from fear, but rather, move with the intention of the best scientific data. We must not short cut this. Anyone who is pragmatic would note the lack of data that exists over long-term studies on children. This is why our own FDA has not given it full approval for this age group. As a governmental entity there is no plausible way that you can mandate a vaccine that is still under emergency use authorization with our own government. Doing so would be reckless and irresponsible and would frankly go against your own process which states "Advisory Committee on Immunization Practice recommends a fully FDA approved immunization against a specific antigen for the school aged population."

I write this to you as a concerned mother, tax paying citizen, and community volunteer who obeys Covid protocols and cares very deeply about public health and safety of our communities.

Thank you,
Jamie Huynh

We, as constituents and community members of this great State of Washington, DEMAND the Washington State Board of Health (WSBOH) REFUSE to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission. Due to the following reasons:

1. COVID vaccines remain under Emergency Use Authorization
2. Children under the age of 18 have a 99.995% survival rate from COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

Subject: NO Covid vaccine requirements for kids!

External Email

Dear Board of Members,

I'm writing today to let it be known that I oppose the requirement of the Covid vaccine on my children. This is a choice that should be left up to individual families and not the government. No CDC guidelines, OSHA regulations or health officer order can suspend our rights. "We the People" do not consent. We do not give you the authority to force any medical procedures on our children, elderly, or on any human being that does not choose of their own free will your offerings of "public health" in a vaccine trial.

Your chapter 246 - 100 and rule making petition for 246 -105 try to confuse, coerce, intimidate, threaten and harass us. This is called retaliation and discrimination, and that is against the law.

We have the right to determine what is the best for our families and what is done with our body and it doesn't matter whether the vaccine only has an "emergency authorization" or not.

The masks and the testing are also "emergency use authorization" but even if they weren't, we cannot be forced into complying. Only a licensed medical doctor can suggest a medical treatment such as a mask, covid testing or a vaccine. You or school administrator has no authority to do so.

We have the constitutionally-protected and GUARANTEED right to life and the right to determine what it's done to our body.

We are covered under ADA laws and our needs would have to be accommodated by law.

You are not a medical professional and, therefore, you are unlawfully practicing medicine by prescribing, recommending, and using coercion to insist on this experimental medical treatment.

Whereas:

1. The Nuremberg Code, codified into US Federal Law, prohibits forcing or coercing anyone, under any circumstances, to participate in a medical experiment; and the Code states "the voluntary consent of the human subject is absolutely essential."

2. Phase 3 clinical trials of COVID-19 vaccines are not yet completed. C4591007—the main clinical trial in children and young adults with BNT162b2—has an estimated completion date of May 5, 2026 and hence qualify as medical experiments. People taking these treatments are enrolled in clinical trials.

3. The vaccine formulation now being given to U.S. children aged 5-11 is NOT the same formulation used in the clinical trials, and NOT the same formulation that has been

administered to all other age groups under EUA. So even when current ongoing clinical trials are complete, the results cannot be assumed to be relevant to the safety or effectiveness of the new formulation.

"The vaccine that is authorized for use in children 5 through 11 years of age includes the same mRNA and lipids but different inactive ingredients compared to the vaccine that has been used under EUA in individuals 12 years of age and older and that has been studied in clinical trials." Source: <https://www.fda.gov/media/153717/download>

4. Most vaccines are trialed for at least 5-10 years and COVID-19 vaccines have been in trials for less than one year.

5. No previously attempted coronavirus vaccines (ie. MERS, SARS-1) has been approved for market, due to antibody-dependent enhancement resulting in severe illness and deaths in animal models. The participants in clinical trials involving children aged 5-11 received "two doses of 10 µg BNT162b2 or placebo (saline)", not the new formulation. Source: <https://www.fda.gov/media/153447/download>

6. Numerous doctors, scientists and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 vaccines, including but not limited to death, infertility, miscarriages, Bell's palsy, blood clots, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, myocarditis, and antibody dependent enhancement leading to death.

7. Children and youth are at virtually no risk of dying from COVID-19 or transmitting it to others, but deaths and injuries to children and youth have already occurred in the COVID-19 injection clinical trials.

8. FDA admits safety unknown. Children are being used as test subjects, with their parents acquiescing under fraudulent marketing pressure. Public Health messaging does not match the reality of the current knowledge base. At the October 26 VRBPAC meeting, FDA Advisor Dr. Eric Rubin admitted: ". . . but we're never going to learn about how safe this vaccine is unless we start giving it."

Source: @6:52:33
https://youtu.be/laaL0_xKmmA

9. International Alliance of Physicians and Medical Scientists has declared that children should be excluded from vaccine mandates:
"Consensus is clear among MDs and medical PhDs: following 20 months of exhaustive research, millions of patients treated, hundreds of clinical trials performed and scientific data shared worldwide, they conclude that healthy children and the COVID-recovered should be excluded from restrictions and vaccine mandates."

Source: <https://globalcovidsummit.org/news/thousands-of-physicians-and-scientists-reach-consensus-on-vaccinating-children-and-natural-immunity>

10. There have been more deaths from COVID-19 vaccines, as reported to the Vaccine Adverse Events Reporting System (VAERS), than death
www.fda.gov
Lisette

Lisette Caire

10. There have been more deaths from COVID-19 vaccines, as reported to the Vaccine Adverse Events Reporting

System (VAERS), than deaths in the last 10 years from all vaccines combined and only 1% -10% of vaccine injuries are reported to VAERS. The full extent of adverse events from the COVID vaccines is unknown as there is a significant delay in uploading reports to the VAERS database.

The risk associated with COVID-19 vaccinations is extremely dangerous to the health and well-being of all children and this form of treatment unnecessary.

Any coercion or pressure tactics used for students to be vaccinated contravenes the Nuremberg Code, the Helsinki Declaration and Federal Law.

Any use of "implied consent" by any minor child under the age of 18 is defined in law as gross, contributory, and culpable criminal negligence.

Any party found to be involved in vaccination coercion when entrusted with the care of our children such as all school staff, school board members and executive, and any other adults who may have access to our children while under their care. This includes the assistance of outside school staff, contractors, public health nurses, or health officials could be prosecuted to full extent of law and you may be held personally and criminally liable for any injuries or deaths that may occur.

The 1st Amendment of the constitution has protected these exact claims before the Supreme Court on many occasions. Even State governments have faced this glaring truth during the Covid crisis as they attempted to pass mandates and laws that violated this basic principle only to have their wrong decisions righted before the Courts, with financial penalties.

Thank you for your time, please consider the long term effects of your decisions and the health and well being of our children.

Thank you,

Larissa Ranz

Subject: No mandatory vaccines!

External Email

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Rubin, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA

product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org

)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

I strongly do NOT support covid vaccine mandate for children to attend school or to be added to the list of required child vaccines. The safety has not been proven. A healthy child has very little risk from covid. Vaccine injuries are real. I had a close relative get severe autoimmune disease after a mandated vaccine. Please do not risk the children.

Subject: No mandate for covid vaccine in children

External Email

DO NOT enact a covid vaccine mandate for children of any age. If you do you will be responsible for the deaths and injury of hundreds to thousands of children. Don't be fooled by the federal government's propaganda. If you do your research, you'll understand that the covid vaccines are responsible for tens of thousands of deaths worldwide and over 1 million adverse effects. They are causing more harm than good. The vaccines have been proven to be ineffective. There are more people getting covid who have been "fully" vaccinated than those who are unvaccinated. There is no point other than for financial reasons for greedy pharmaceutical companies and state and local government agencies clambering for federal funds to get vaccinated.

Keep the government at all levels out of the family decision making process and out of the doctor patient relationship. Family decisions and medical decisions are personal and private.

What you should be spending your time on is enabling early treatment solutions that are widely available to all Washingtonians. The biggest crime of this century is that the government at all levels and medical administrations at all levels have failed to recognize that Covid can be treated early with existing medications that are already widely available.

DO NOT MANDATE VACCINES FOR CHILDREN OF ANY AGE.

I oppose the forced vaccination of children as a requirement to attend school. As a pediatric Emergency Room nurse at Seattle Childrens hospital. I have hands on, first hand knowledge and experience caring for teens with myocarditis and endocarditis after the Pfizer Covid vaccine. In the first month of the release of the Covid vaccine for ages 12 and up, I cared for 6 pediatric patients, 5 boys and 1 girl. Mind you, I only work 2 days per week. This vaccine is not safe for children and teens. And since it is the only option in this age group, it is morally and ethically wrong to force parents to give this to their children, without any other options for vaccination.

Studies have shown that the likely hood of myocarditis/endocarditis after Covid vaccine in children is higher than that of serious Covid complications in children in multiple scientific studies! It is more dangerous for children to get the vaccine than to get sick! And the risk is greater the younger the age! How can you take the choice of vaccinate or don't vaccinate away from parents with this knowledge??

With the new variant omicron, the vaccine has shown to not be effective against the Covid virus, thousands of people who are vaccinated are still testing positive. The virus will keep mutating, the vaccine, will continue to loose its effectiveness. So by forcing a vaccine, you are forcing significant risks, with little to know protection for the virus. It is a completely unnecessary risk.

I beg you to see reason and don't make decisions out of fear or frustration. Please allow parents to do what they feel is safe and right for our own children.

Respectfully,
Jennifer Fuller RN BSN BC

To whom this may concern,

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

Dear Health Officials,

As passionately as I can say it, no forced detention.

The delta between one dose and fully vaccinated is closing.

>70% is fully vaccinated

7 Day rolling average Jan 2021 was 34;

Dec 4 2021- 7 day rolling death average is down to 12

Washington State is winning this war.

Please do not authorize this draconian practice.

Sincerely,

John Shuffield

To Whom It May Concern:

My name is Nicholas Hooge and I am the father of 3 small children. As a parent, I am abhorred by the ideas currently being proposed to legislation to FORCE "vaccination" on my children.

Dr. Robert Malone who is the creator of the gene therapy - not vaccine - strongly advises parents NOT to inject the covid "vaccine" into our children due to the dangerous toxic spike proteins the injection causes, resulting in possible permanent damage to my child's critical organs, such as the brain, nervous system, heart and blood vessels, reproductive system and immune system.

The rate at which this "vaccine" has rolled out is alarmingly fast, and suggests cause for concern based on the lack of testing over time. As a person holding a Bachelors Degree in Science, the lack of testing, of knowing exactly what risks we are potentially ignoring is completely unacceptable to me as a parent. I should be able to look at research and decide for myself if the benefits outweigh the risks to an injection and, as it stands, this is a no brainer for me, as a parent. So far, it seems children have very mild systems due to COVID-19. I understand this is not always the case, but it does appear to be the majority, so my kids are at no increased risk to their lives or safety without this "vaccine."

It is not legislation's right to FORCE my child to receive an injection I do not feel is in his best interest; not only that, one in which could cause IRREVERSIBLE HARM to his body as he continues to grow.

If COVID-19 vaccination becomes a requirement (without allowing exemptions) for school enrollment, you can be sure my 3 children will be unenrolled instantly. My wife will homeschool or we will move out of state before I put my children's lives in jeopardy.

I hope you will truly consider my words as a concerned parent; America has always afforded us the right to CHOOSE for ourselves. It is my right as a parent to choose wisely

for my children and not your right as a government official.

Thank you for supporting us parents when you vote NO for a covid vaccine requirement for school.

Sincerely,

Nicholas Hooge

Dear Washington State Board of Health-

I implore this Board to NOT force medical care on our children. ALL medical decisions should be held in conference with a child's parent and medical providers. Because of our physiological differences, there cannot be a "one-size-fits-all" approach to medical treatment- including vaccinations. I remind you that children are at extremely low risk for COVID19. Furthermore, the shots have only received Emergency Use Authorization- and still need much research, data, time, & vetting to determine the real benefit over risk to this young and vulnerable population.

Please, DO NOT make the COVID19 shot a requirement for enrollment in our schools and childcare facilities!!!

Sincerely,

Lauri & James Harper

Subject: No COVID-19 vaccines for our children!

attachments\009DF676FFC7447B_UK data Office for National Statistics.png

External Email

Dear Sir or Madam,

Please consider my petition to not add the COVID-19 "vaccine" to our school vaccination requirements. Healthy children and young adults are not at high risk of suffering complications from COVID-19, whereas serious side effects and death have been reported from the vaccines. VAERS data shows 709,083 adverse events and 9,623 deaths in the US following vaccination with COVID-19 from mid-December, 2020 through December 24th, 2021. The long term effects on our children's health are yet unknown.

My daughter, who is attending 8th grade, shared that a lot of her vaccinated friends are coming down with COVID. Clearly the vaccines are ineffective in preventing COVID or stopping the transmission of the virus. Some studies indicate that vaccinated individuals are actually more likely to become ill. Please see the attachment. All currently available COVID-19 vaccines are under Emergency Use Authorization and can legally not be mandated.

Our children have suffered enough through the pandemic and we will not allow them to become subject to an experimental medical treatment manufactured by the disgustingly greedy and fraudulent pharmaceutical industry. These vaccines should remain optional for families who choose to take them, and not be required for in person school attendance.

Sincerely,

Monika Oberholtzer

PLEASE, on behalf of a Mother who has a vaccine injured child DO NOT make Covid vaccines required for children. Please. My family has already lost their income from being fired for not getting the vaccine, even though my husband has a very deep religious conviction (as well as a medical reason). Mandating this vaccine for children is a huge scare for so many parents. Myself one of them. I watched my son stop talking and nearly die from vaccines as a child, and can't even imagine him being forced to have this vaccine, or any others.

Many in this state are not granting exemptions, as in my husbands position, so I am not confident I could even get an exemption for my son.

It should be voluntary. Personal choice is so important in this county!!!

And the thought that WA is even discussing detaining children, and/or families over their personal choice is SICKENING. I have thrown up thinking about all of this. I love this state, but I'm terrified for the future of this state if this goes through.

Thank you for hearing my words.

Please be blessed.

-Heather

Hello,

I'm voicing my concern over proposed policies regarding emergency measures dealing with Covid & the use of law enforcement. This is a snapshot of the subjects I'm addressing. See below.

Why wasn't the information about this meeting available and planned much earlier to at least give adequate time for input by Wa. residents that it will directly effected? This doesn't look good for Wa. DOH, or it's board members honestly. It looks like a political agenda being approved without any acknowledgment of those you are suppose to represent. It casts a tremendous shadow of doubt on any real and true " good faith " procedures and duties that this board oversees & carry's out from here on out. If this seems like an exaggeration, it's not.

The exaggeration to this situation might only be seen in the proposed policies below. These are radical, unsubstantiated, fear-based responses to further muddle the Covid pandemic waters. They are no more appropriate than cloth masks on kindergarteners. They were deemed unnecessary & medically useless recently but somehow we continue to promote their use.

I'm just a mom of grown children in Des Moines, Wa. & I care about our state and the citizens here. I will fight for our freedoms, because I know how hard they were fought for in our past. American Indians suffered as well as our African American citizens, from our past negligence. If we have learned anything from that, I hope you convey it in your vote against these new policy proposals.

We don't need more mandates and regulations. We need some people to stand with the science and medical hero's against Covid and fight to regain the trust of our citizens. This is not the road to take to do this. This is the road a German health board may have taken, back in the day, and we all know how that ended. Please don't approve these proposals & leave our citizens at the mercy of an unknown future of lost freedoms. Once they are gone, it's a lot more difficult to restore.

Thank you for your time & your service.

Sincerely,
Laurie Sherwin
(Wa. Resident)

I disagree with mandatory vaccines, especially for school age children in grades K-12.

I am vaccinated, have had COVID-19. Why isn't there credit for people who have the antibodies??

I am not an expert or a doctor, yet have read many, many articles written by doctors and experts in the medical field regarding the benefits and harms of the vaccine.

Subject: No Child C19 vaccine

External Email

I am writing this on behalf of my children and all children in this great state and nation. Also protected by the Constitution of the United States of America.

This is a new vaccine. It is NOT FDA approved. The version that legally is, is NOT available in the USA.

You cannot mandate this vaccine because it is in EAU. Furthermore, this is not in the children's best interest. The children have been out of harms way since the beginning. From the very beginning this has been a constant truth. The side effects of the vaccine have caused more harm.

Do the right thing and leave it optional as is the flu shot. Those are two injections that DO NOT stop the spread of a virus like the other scheduled vaccines.

Also you can not guarantee that it is safe. There are no long term studies available that confirm this vaccine is not harmful over time. It did not go thru the normal length of testing and protocols.

I DO NOT support mandatory vaccinating of children for Covid 19.

Thank you

Katie Pasich

Washington State Board of Health,

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents. This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90% of the population. These Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been double vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines.

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. This is not about our health; it is an unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

Signed,

Scooter T.

To whom it may concern,

How is it that there is even any discussions on adjusting the WAC code to allow the health dept authority to use law enforcement to involuntarily place WA residents refusing COVID-19 testing, medical assessment, or vaccinations in quarantine camps. Quarantine facility? Quarantine camps? What country are we living in? Have our elected officials read the constitution lately? For Liberty and Justice for all. Freedom certainly doesn't involve the words you must "voluntarily comply." All for a virus with an almost certain recovery rate.

The vaccine on should never be mandated for a virus that mutates ... making the vaccine unable to eradicate it. It is not the same as Polio. And the VAERS website is sure to show you there is risk in all age groups, but especially for school age children. I will pull my remaining children out of WA schools if this is mandated. There is increased risk for myocarditis for my sons age and it isn't worth it for this virus. It would be heartbreaking to have to do it as we have loved our schools. There hasn't been any comprehensive long term testing as with all other vaccines before they were put on the schedule- so why in the world would you subject our children to something that has already shown negative side effects for something they will certainly recover from.

Please hear the public outcry and stop this discussion. Our democracy depends upon it.

A concerned WA citizen,
Karri Szymanski

You have seen that being vaccinated does NOT stop the virus as even those who have all of the shots are still getting covid.
Our children are precious and should NOT have an unproven long term vaccination or have to have constant boosters that are also not working.
What problems will they begin demonstrating through their long lives that will/may be attributed to this vaccination.
The vaccine is worse than the disease.
Please think about the long term effects that this may have.
Leave our children alone.

To the Washington Board of Health,

Please recognize the seriousness of instituting mandates and vaccine requirements, given the current science on these issues? I work in medical research, none of my colleagues believe these vaccines are safe and effective and requiring them for kids is malpractice at this point. We simply can not continue to ignore the science, which states that healthy children have almost zero adverse health events from covid, the absolute risk to children which has been a measure of vaccine necessity in the past, is being completely ignored, to politicize these vaccines. Anyone who's had covid is not at risk, as natural immunity from infection is being completely ignored by the public health community. The reported adverse events has not been stratified, there hasn't been adequate time to quantitate these findings. Public health policy should absolutely reflect safety and it is being completely ignored, the lists of athletes and deaths with myocarditis is beyond alarming! STOP this madness! The vaccines have not been proven safe, especially in young people! The data does not exist, on the contrary the reported adverse events in children at this point far outweighs any perceived benefit, which again should only be calculated based on absolute risks, which is near zero.

The vaccines were devised for a variant no longer in public circulation, they do not stop spread, effectiveness wears over time, statistics are showing an alarming trend in reinfection, and vaccine pressure driving new variants. Public health has a bizarre fascination that these vaccines can and will eliminate covid and the science does not support this ill advised theory! Mandating these vaccines under these circumstances is simply malpractice and not necessary. There is clear and published data indicating these vaccines induce auto enhanced immunity, which is extremely dangerous. Scientists are warning of this problem and I don't understand why public health continues to ignore these warnings? Upper respiratory vaccines haven't worked well in the past, is anyone paying attention to the science here or actually care about how to protect the most vulnerable?

The research community is appalled and unfortunately, many are not in a position to speak out and those that do get immediately shut down! The truth will be told and the deadly mistakes of public health are in your hands!

No more political mandates, no more vaccine in children, please consider letting science be your guide, you have an ethical and moral obligation!

Subject: No forced COVID shots for children

External Email

Detaining & forcing medical testing and/or treatment is unconstitutional & unnecessary in America. No FORCED COVID shots of children!!

Forcing medical care, isolation, or treatment is totally unnecessary as COVID is getting less & less dangerous. As it mutates it is becoming more contagious but is causing less severe illness.

Because the majority of the population is vaccinated, along with natural immunity of those who have had the illness, herd immunity is happening now which will keep the illness under control.

The action of mandating a vaccine to the least impacted age group is unconscionable! There are side effects from these shots, making them much more dangerous than if the child were to contract the virus. There are also many unknown long-term effects, including possible sterilization.

This action would cripple the already failing public schools. So many parents are already about to Home School their kids and this will force this action upon them.

You cannot say you want to do this to protect the children when you speak of mandating the vaccine for a virus that is becoming more like the flu every day and impacts kids 0-19 years old the least. Follow the data!!!

Both of these proposed mandates are terrible and unnecessary and would take away more of American's constitutional rights and God-given freedoms!!

ALLOWING LOCAL HEALTH OFFICERS TO USE ENFORCEMENT TO FORCE AN EMERGENCY ORDER TO INVOLUNTARILY DETAIN A PERSON, OR GROUP OF PERSONS, TO BE ISOLATED IN A QUARANTINE FACILITY FOLLOWING REFUSAL TO VOLUNTARILY COMPLY WITH REQUESTS FOR MEDICAL EXAMINATION, TESTING, TREATMENT, COUNSELING, VACCINATION.

☐ Washington State Board of Health

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents. This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90% of the population with children being the least effected. These Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been double vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines. Requiring the Covid vaccine for school attendance would do nothing to reduce illness but it would put many children at risk of vaccine injury or death. Furthermore, many children have already had Covid, thus having natural antibodies which must be recognized as a valid immunity to Covid.

I support the petition for rulemaking (item 11 on the Jan 12 agenda). I support establishing a new rule that prohibits adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. This is not about our health; it is an unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

Subject: my response to todays meeting

External Email

I'm writing to address to massive concerns I have as a parent and individual, regarding 2 issues on todays meeting schedule.

#1 issue is the discussion of making the Covid-19 vaccine part of the required vaccines to attend school. I believe that is unnecessary, overreaching and will result in a huge decline in school enrollment if enforced. I will for sure unenroll my children. I believe that the flu vaccine and Covid vaccine should be voluntary. I believe in medical freedom. Dr Robert Malone, creator of the mRNA technology used for the Covid-19 vaccine, is vaccinated himself, has this to say regarding vaccinating children.....3 issues parents need to know and understand before injecting this irreversible vaccine into your child....the viral gene released into your child's body will create toxic spike proteins that will attack vital organs, including brain, nervous system, heart, blood vessels, blood clots, reproductive system and altering the immune system. We need at least 5 years of data before making further suggestions of children receiving the vaccine. The risk analysis is clear, there is NO benefit to children receiving the Covid-19 vaccine, given the health risks of damage from adverse affects of the vaccine that you and your child will have to live with the rest of their lives!

In summary, injecting something that is unnecessary AND IRREVERSIBLE is reckless and negligent. I beg you to vote AGAINST Covid-19 vaccine for school/childcare attendance.

#2 is the issue regarding involuntarily detaining people and holding in quarantine camps who refuse medical examinations, testing, counseling, vaccination, is 100% unconstitutional! I'm honestly shocked that this is being considered?! Or maybe it's just a joke? But, if it is truly a matter of discussion today I emlore you VOTE NO!

Subject: My Public Comments - COVID 19 - WA BOH Meeting January 12

External Email

Good Morning,

I am writing to express my concern with the DOH adding the newly authorized COVID-19 vaccine to the required list of vaccines for public schools.

Due to the fact that COVID has not targeted children from the beginning of the pandemic, survival/recovery rates in children are extremely high, many kids have already contracted and fully recovered from COVID 19 (my daughter being one), AND the fact that this EXPERIMENTAL TECHNOLOGY has not gone through the full trials that SHOULD be required by law for ANY medication/vaccine/etc., I do not think it is ethical to require all children to be injected with this new vaccine technology.

Studies and ACTUAL case data has shown that this vaccine does not prevent transmission – therefore it should not be required.

Antibodies SHOULD MATTER and your decision to require vaccines that do not prevent transmission goes against the scientific data that this Country has been following for decades.

If you decide to push this mandate, violating every American Parent's right to choose for their children, I will be withdrawing my two children from the public school system. What my family does have is the freedom to pick up and move where ever we feel safe – this is not Washington. By our Constitutional Rights we should have the right to medical freedom allowing us to make decision for our children and NOT hindering their right to access public education.

Sincerely,

Kelly A. Liske

45 year Washington Resident

Subject: No mandates for any medical product that has not gone through normal Phase III trials and has full FDA approval (Agenda Item #11)

External Email

No one in the United States should be compelled to take a vaccine or medicine that has not fully been approved by the FDA in a normal, Phase III testing regiment.

Products being used under an EUA should only be given to people who volunteer to receive the vaccine or medicines (right to try).

Children should certainly be exempted from being required to take vaccines that have not gone through full testing to determine the long-term effects.

Thank you for your consideration,
Mark Harris

Subject: My Public Comments - Agenda Item 11 Opposing the Vaccine Mandate for school

External Email

I am writing to oppose a Covid vaccine requirement for schools and childcare centers (both now while it is under EUA and later if it is FDA approved). I am a lawyer and a mother of three young children. This is not a political issue for me. My kids are vaccinated - in fact, my four month old just got her boosters yesterday. I had never considered homeschooling my children, but if this vaccine is required, I will never enroll them in public school.

I'm sure you are getting a lot of emails about this mandate. I am part of a large and diverse group of parents who will not give our children this vaccine. We are lawyers, doctors, nurses, engineers, tech professionals, stay at home parents, and more from King County and elsewhere in Washington. We have listened to VRBPAC and ACIP meetings. We know that FDA advisors expressed concern that an EUA approval of this vaccine may lead to unnecessary mandates for students. We understand the low risk of covid to our children and the risks of the vaccine. We know that no other childhood vaccines were required after safety trials as perfunctory as the covid vaccine trials. Many of our children have had covid, and we know they don't need this vaccine. We are informed and paying close attention to your decision.

If this vaccine is mandated, I expect lawsuits will be filed. And the legal basis for a

mandate is weak.

<https://www.tabletmag.com/sections/news/articles/covid-vaccine-mandates-kids-legal>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.tabletmag.com%2Fsections%2Fnews%2Farticles%2Fcovid-vaccine-mandates-kids-legal&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Ca244158bba1b4ad3735a08d9d17781a0%7C11d>>

You should also consider how making this vaccine mandatory will undermine other public health initiatives, especially other childhood vaccines.

Finally, I will include below the arguments I have sent in previous emails about why the covid vaccine does not meet the nine criteria used in evaluating antigens. Importantly:

- The covid vaccine does not prevent transmission of the virus, as evidenced by the current increase in cases in highly-vaccinated King County. Schools that have remained open in the US and Europe do not have significant spread of covid (whether or not students are masked), and the spread is often lower than the surrounding community.
- The vaccine is not cost-effective from a societal perspective. Because the vaccinated are protected against hospitalization and death by their own vaccination and children are not at risk of hospitalization and death due to their age, there is no benefit to vaccinating children. Moreover, the vaccine has side-effects that may keep kids out of school and their caregivers home. At best, the vaccine is cost-neutral. At worst, the costs are severe and the benefits nonexistent.
- The vaccine has low public acceptance for children. Currently only 20% of 5-11 year olds in Washington have been fully vaccinated. If this is mandated for schools, tens of thousands of parents will refuse to comply.
- The administrative burden of tracking this vaccine is high. Because efficacy wanes after six months and boosters are now recommended, it's reasonable to assume that tracking this vaccination will be a burden on schools once or twice a year. It will also be a recurring burden on parents.
- Experience to date does not show that the vaccine is safe or has an acceptable level of side effects. VAERS safety data shows many more adverse effects from the covid vaccine than for other childhood vaccines. The known risks of the vaccine, in particular myocarditis in boys, is much higher than the risk of covid itself, which is quite low for children.

Also, consider that many children have already had covid, and by next year thousands

more will be immune.

Thank you,

Julia Orme

Dear Health Officials,

As passionately as I can say it, no forced detention.

The delta between one dose and fully vaccinated is closing.

>70% is fully vaccinated

7 Day rolling average Jan 2021 was 34;

Dec 4 2021- 7 day rolling death average is down to 12

Washington State is winning this war.

Please do not authorize this draconian practice.

Sincerely,

John Shuffield

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:",

Children are at extremely low risk for Covid

The vaccines are still only EUA (emergency use authorized)

There are no long-term studies to document any history of safety

Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore, the vaccine apparently does not stop the spread of the disease

People were first lured into the Covid 19 vaccine to obtain freedom after long horrid lockdown. This was the answer. Many complied. The Covid 19 vaccine did not work as advertised. Same with other lies like masks and two weeks to flatten a curve. Now, after all that, many schools are going back to remote learning. There has been a 22 point drop in young students I.Q scores. Early developmental years squandered! School districts now going to pass fail system. Revising grading system to accommodate the dumbing down of our students.

This one size fits all vaccine mandates does not work! The vaccine mandate represents a dangerously expansive vision of federal power over public health!

The dismissal of natural immunity and ignoring any other therapeutic protocol only to funnel every human to have this vaccine in their arm is lacking our constitutional and human rights. I believe adverse reactions are way under reported due to the lengthy process in order to report. Many vaxxed and boosted people get sick and even die. Also information on preventative care and early treatment has been censored and withheld from the general public. Many medical doctors censored, shut down and threatened. Certain medications on the market FDA for years banned?? This Covid 19 vaccine is not even FDA approved.

Misinformation is not what big tech is censoring. The truth is being suppressed to fill an agenda.

I believe that big pharmaceutical companies now have the American people held captive through fear and are under performing so called life long vaccine subscription to line their pockets with untold amounts of money. The government and governing bodies such as the health department are using this virus as a power grab and over reaching into human rights in order to gain control over citizens and shut down our economy and our schools. It is pure tyranny. I oppose all that you are proposing and see your actions leading us to full on Communism.

My hopes is that you will truly listen to the people of this great state of Washington and not sell out to the major deceit and greed of the pharmaceutical companies and over reaching state and federal government.

My 2 questions for the board are: 1. Are there a known list of ingredients of each vaccine? I heard rumors that there are not any such lists. 2. Will the board or state recommend/require Cominarity only? It is the only vaccine fully approved by the FDA, the rest are under the EUA? The FDA guidelines for an EUA product state it is for a voluntary use. There are liability issues attached to this question. Finally, my comment is that as a long term parent of two school age boys, they will not be getting the vaccination until there are long term studies.

Changing the infectious disease code to include COVID 19 for ALL Washington State residents. How dare you to allow the health officers to use law enforcement under WAC code 246-100-070 to force an emergency orders to involuntary persons or group of persons (families) to be isolated in a quarantine facility, WAC code 246-100-0.50, following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling and vaccination. These specifics come from WAC code 246-100. You are also including COVID-19 injections as part of school immunization requirements using WAC 246-105. You are going to involuntarily quarantine in camps which are already being built! This is tyrannical over reach of government that is wayyy outside of your jurisdiction. How dare you: it's like Hilter rounding up the Jewish people in Germany to the death camps! How awful are you! This is America. It's not the role of government to determine whether or not to get vaccinated. The Federal government is certainly NOT DOING THIS. Our goveysis to provide for the national defense, secure our borders; to make sure we as Americans are protected, life, liberty and the pursuit of happiness. Our constitution states for this reason governments are instituted among men, not government officials. Then it goes on to say at any point we the people realize in the US that you are not following the Constitution (which you aren't if you go ahead and do this), we have the right to form a new government. We have that right to do this through our voting system. Here in Washington State it was heard that the pandemic among the unvaccinated; well the vaccinated get it too. Never said that the virus doesn't exit but people die every single year of the flu, pneumonia; when are we going to talk about the deaths from fentanyl, which are sky rocketing in this country!!! What you want to do is unconscionable, totally wrong, unconstitutional! For these reasons you should not do this! We are not Germany in the 30's and 40's! We are the United States of America! How dare you!!! Sincerely yours, Molly Butler

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense ([childrenshealthdefense.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee famously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors ([americasfrontlinedoctors.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da>>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Subject: NO Mandatory Vax and Forced Quarantine for WA Schools and Residents

External Email

Washington State Board of Health,

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State. With the concerning large number of adverse reactions and deaths reported through VAERS, which does not even include the many more instances that were not formally reported, this novel, experimental drug should not be mandated on anyone, much less children.

Some more facts to consider:

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org)

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents.

This disease is manageable if treatment is started early. Moreover, it is survivable by

more than 99 percent of the population. Covid vaccines have little effect on Covid, and in fact, most people who get this Covid and spread it have been fully vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines.

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. They also do NOT have the right to force vaccines on citizens who do not choose them.

This is not about our health. This is about control and it is NOT in the purview of the Washington State Department of Health or ANY elected official or unelected state employee. These decisions are the right of every citizen and NO law, mandate, code or policy can override those rights. We are NOT granted rights from the State. The State is REQUIRED to protect our rights and not infringe on them.

Sincerely,
MeMe Birchfield

Washington State Board of Health

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents.

This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90 percent of the population. Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been fully vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary.

+++++++ Children have little risk from Covid-19,
but they do have considerable risk from the unapproved Covid vaccines.
+++++++

In America,
health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention.
+++++++ This is not about +our +health;+ +it
+++++++is +an
unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

Signed,
James A. Sweet

Subject: My Public Comments for 1/12/22 meeting regarding current WAC codes to include covid

To whom it may concern,

I am strongly opposed to the proposed application of current infectious disease codes to include Covid-19 for all Washington residents.

First let me state that I believe covid is a real virus, and will make one very ill. I have had covid, and I understand that it is not fun, and, like other flu has the potential to be fatal in some cases. I have also had the Hong Kong Flu (1969) and I remember NO government involvement in either forcing me to be vaccinated, quarantined, or involuntarily detained in a quarantine facility.

Reasons:

The recovery rate from covid has been proven in various studies to be well over 90% without vaccination. Those are true numbers, not merely numbers that have been manipulated by the media or the medical community to validate their desire to vaccinate the entire population.

I am opposed to the removal of or ignoring of my rights as a US citizen given by the Constitution of the United States, the Bill of Rights, and other guarantees of freedom from Government intervention into my personal rights as to how I make my medical decisions.

According to the VAERS agency, death and serious injury caused by the vaccines is much higher than that caused by covid. This is widely known, though widely ignored by the media and government officials who are bent on pushing their agenda of control of the citizenry.

In light of the current rampant fears that have been ignited and fanned by the media, I do not trust local health officials, who are also driven by fear, to have the authority to put me and my family in a quarantine facility merely because the WAC codes 246-100-070, and 246-100-045 gives them that power. That kind of power in the hands of the wrong people is a carbon copy of what happened in NAZI Germany.

I could go on, and would be more than willing to present more reasons, but I know and respect the time constraints that the members of this committee are under.

In closing, I strongly request that the committee reject the application of current infectious disease codes to include covid 19 or other covid related virus infections for any or all Washington state residents.

Sincerely,

Mike Hughes

Subject: No Covid-19 Vax for children!

External Email

Dear Sirs,

As officials responsible for the health and welfare of the people of Washington state, I find it incredible that you would even CONSIDER a vaccine for children because it is well known that children have an EXTREMELY LOW rate of infection and the KNOWN risk from the vaccine itself FAR OUTWEIGHS any perceived advantage;

Also, the vaccines are still only authorized for emergency use - we are NOT in an "emergency" situation;

These are untested vaccines with no long-term studies: would you make the future generation your guinea pigs???

Studies show, and common knowledge for those who inquire, is that BOTH vaccinated and unvaccinated people can get covid in equal numbers - why get the vaccine if someone who gets vaccinated still gets sick? Why risk the side effects that Senator Johnson from Wisconsin exposed in his Round Table news conference of vaccine side effect victims??? This alone shows the vaccine is ineffective, it does NOT slow the spread of Covid-19. The vaccines are a failure, a monumental failure.

If the government is so concerned that people be vaxxed, why is Congress not vaxxed? Why are immigrants coming into the U.S. not vaxxed? The vaccine is politicized in a most nefarious way. You will go down in history remembered for what you did to children - or whether you were brave enough to save them from this obvious evil government/medical takeover.

Sincerely hoping you listen to your conscience,

Cerise Barber
Seattle

Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been fully vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever! Furthermore, Natural Immunity is proven to be more effective and last longer than any Vaccine on the market yet our government refuses to even acknowledge it. This is not about science, this is about control.

Including Covid vaccines as a requirement for attending public school is completely unnecessary.

Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines. This should be a decision made between patients and doctors, not handed out like Candy without regard to preexisting conditions and without extensive tests with proven results. Currently Pfizer is not required to provide any results of their "tests on humans" for 75 years. Which of us will be alive in 75 years to hold them accountable?

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. This is not about our health; it is about control; it is an unconstitutional, criminal attempt for the government to control the population. To: Members of the WA state board of health-

Please- NO covid jabs for students. Our children are not at high risk for this illness. It has always been a disease for the elderly and those with other health issues. There have NOT been adequate safety trials on these shots. We have no idea what the long term health effects will be for children. Let's not let big pharma determine the health of our children. Follow the money and let parents make the decisions for their children.

Thank you for your service.

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents.

This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90 percent of the population. Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been fully vaccinated, and some have received booster shots. There is also no guarantee that continued full vaccination status will not require ongoing and regular booster shots.

Furthermore this is an alarming law that brings to mind the concentration camps utilized by Nazi Germany to separate those thought of as inferior. It is appalling that the state of Washington would even think to arrest, detain, and separate people under the guise of public health while also taking away personal and parental choice. NO on health official use of WAC 246-100-070 for detainment, unlawful testing, and vaccination for Coronavirus SARS-CoV-2 (Covid-19.)

Subject: New Covid mandates being proposed.

External Email

It is absolutely unethical for you to mandate people and their children to be vaccinated. You do not know each individual person's story. Some people should not be vaccinated because of their medical conditions. For instance my platelets have been double of what they should be for several years. We have friends and associates that died from the vaccine from throwing a blood clot. Due to my platelet count I have in the past been told by doctors I would be at great risk and advised against me getting the vaccine until my platelets can get under control. Common sense tells me not to until my platelets are normal. We are not necessarily opposed to the vaccine - my husband is vaccinated. My particular health warrants that I do not get vaccinated. One of my vaccinated adult children currently has covid - another adult son unvaccinated in another state also currently has covid. Interestingly enough the vaccinated son is doing worse then the unvaccinated. Wouldn't it be nice if the country would start gathering data to try to really figure this thing out. Also put a lot of time into fixing the dangerous vaccine. I am totally opposed to mandating people's health when you don't know their particular health situation or their particular experiences with the vaccine. Interesting that that is not on the news how many people have died or been injured by the vaccine. We need a vaccine but a safe one. My personal experiences. Husband employee lost 26 & 24 year old nephews to vaccine. Member at our church female started having ALS symptoms after second shot - then they discover the clot she died. She has several medical doctors nurses in family they agreed the death is due to the shot. Sister in law best friend lost 17 yr old male to shot. My daughter in law's mother after 1st shot broke out immediately head to tow in a rash (they put her on steroids) proceeded with second shot and she again had reactions. She has been battling being itchy and lumps all over her body now for six months (since she got shots). Cousins daughter in law mother who was healthy acquired neurological problems after second shot and now has to use a walker. My booking agent in Florida's friend - whole family went to get shots 4 months ago, everyone did fine but their 14 yr old son who has been in a coma since. Do you think any of their friends are willing to risk killing/injuring their child when it happened to their friend? I only share these things because they are not being shared on the news and I don't think doctors are collaborating what is happening to their patients to truly problem solve this. We need a vaccine but not a dangerous one. So again clearly because of the risk people have to have the right to decide for themselves if they are going to risk getting the vaccine and have problems or death or risk getting COVID and having possible problems and possible death. This is America we are suppose to be the land of the free - we are suppose to have the right to decide risks/reward for our own bodies. Again not opposed to vaccine - my husband vaccinated - I am waiting to be healthy and then deciding (currently in Chemo for cancer, chemo slowly bringing platelets down) so if I decide risk/reward I will get vaccinated. But that risk/reward needs to be mine because there is risk in the vaccine and risk in covid. I pray they will start putting their energies towards improving the vaccine. Where is America? I pray for you leaders daily in these very very difficult times and our nation. Please do not let fear lead you or be reactionary. This is America - your health should be a choice especially in these difficult times - walk in other peoples shoe's - you do not know where they have been.

Subject: No COVID Vax for Our Kids!

External Email

Hello,

My name is Hannah Kilcup. I am a teacher and a single mother of 3 children. I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense ([childrenshealthdefense.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee famously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors ([americasfrontlinedoctors.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Thank You,
Hannah Kilcup

I am strongly opposed to adding covid vaccine for children to the WAC-246-105-030

Covid vaccines remain under emergency use authorization and the rules that apply to that status Children under 18 yr have extremely low clinical risk from covid infection Children have a much higher risk of adverse event to the vaccine- including life long health issues Research supporting child vaccinations safety is flawed by the methods used to collect it Covid vaccines do NOT prevent getting it or transmitting it

DO NOT subject our children's health to a failed vaccine and the future unknown risks it may cause

I am a parent of a school aged child and I just want to make it clear that I am not alone when I say the schools will lose most of the children attending, if this takes effect. I will pull my child from public school and homeschool him. These vaccines are not safe!! The media does not tell you about all of the bad side effects and death that has occurred due to the vaccines themselves. I have seen so many stories, and heard from people I personally know, about all the adverse effects. My child will NOT be getting ANY vaccines from now on!! I do not trust a single government entity any longer. The government is destroying the United States of America.

Subject: No Mandatory Covid vaccines for children

External Email

To whom it may concern,

I'm writing as a parent and grandparent expressing great concern over mandating Covid vaccines for children in order for them to attend school. Besides the fact that children are at low risk of complications from any of the Covid variations, there has not been enough data to support the efficacy of the vaccines (we already know that the Omicron virus does not care if someone has been vaccinated, and it continues to prove itself no more dangerous than a common cold), and the vaccines themselves only have emergency use authorization. I'm concerned about side effects we don't yet know, and what I'm seeing in a family member who received the vaccine while pregnant.

This is very dangerous meddling in the rights of parents to do what is best for their children. Please DO NOT go forward with such a mandate.

Sincerely,

Kathryn Peterson

We, as constituents and community members of this great State of Washington, DEMAND the Washington State Board of Health (WSBOH) REFUSE to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission. Due to the following reasons:

1. COVID vaccines remain under Emergency Use Authorization
2. Children under the age of 18 have a 99.995% survival rate from COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

Washington State Board of Health I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents. This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90 percent of the population. Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been fully vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever! Including Covid vaccines as a requirement for attending public school is completely unnecessary. Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines. In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. This is not about our health; it is an unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason. Signed,
Mary Hall

I do not agree with forcing the covid vaccine on children. It does not meet all vaccine requirements. You can still get and transmit covid with the vaccine. Children have a much greater survival rate much greater than that of the flu and we NEVER shut down for that. Forcing this vaccine is wrong on so many levels.

Thank you

Dear Sir or Madam,

Please consider my petition to not add the COVID-19 "vaccine" to our school vaccination requirements. Healthy children and young adults are not at high risk of suffering complications from COVID-19, whereas serious side effects and death have been reported from the vaccines. VAERS data shows 709,083 adverse events and 9,623 deaths in the US following vaccination with COVID-19 from mid-December, 2020 through December 24th, 2021. Statistically the reported number represents only 1% of the actual cases. The long term effects on our children's health are yet unknown.

My daughter, who is attending 8th grade, shared that her vaccinated friends are now coming down with COVID. Clearly the vaccines are ineffective in preventing COVID or stopping the transmission of the virus. Some studies indicate that vaccinated individuals are actually more likely to become ill. Please see the attachment. All currently available COVID-19 vaccines are under Emergency Use Authorization and can legally not be mandated.

Our children have suffered enough through the pandemic and we will not allow them to become subject to an experimental medical treatment manufactured by the disgustingly greedy and fraudulent pharmaceutical industry. These vaccines should remain optional for families who choose to take them, and not be required for in person school attendance.

Sincerely,

Monika Oberholtzer

Subject: NO - Do NOT approve Agenda to include Covid-19 for all WA state residents

External Email

TO: Washington State Board of Health,

I object to applying current infections disease WAC codes to include Covid-19 for Washington State residents. The medicine journals show that this disease is manageable when treatment is started early. Moreover, it is survivable by more than 92% of the population. The newly published (early data) demonstrate the current vaccines have little effect on the current Omicron variant, and in fact, most people have received two if not three doses of vaccine. Being "fully vaccinated" seems to be a fluid term that will require multiple booster shots yearly. For this reason alone, requiring a Washington State Residence no choice in their healthcare- to mandate multiple vaccines, vaccine boosters are not constitutional nor ethical.

Moreover, including Covid Vaccines as a requirement for attending public school is entirely unnecessary since the journals of medicine demonstrate children have little risk from Covid-19, but they do have a considerable risk of heart issues and other long-term effects from the current Covid-19 vaccines. These vaccines should be voluntary for school-age children, NOT mandated for now treatable virus with medications. This virus is treatable and does NOT require the invasive intervention of the current vaccines in use on such young residents of the State of Washington.

Further, in the USA, health officers do not have the legal right to quarantine a person or family in an institutionalized facility for refusing to take a vaccine (for religious or personal reasons). Nor do health officers have the right to enforce medical intervention upon residents of the State of Washington. Healthcare decisions are between an individual and their physician. Finally, residents of Washington State have the right to rely on spiritual means alone through prayer to treat a communicable disease or any disease.

Please DO NOT approve the Covid-19 agenda.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in Washington state for the following Reasons:

- Children are at extremely low risk for Covid
- The vaccines are still only EUA (emergency use authorized)
- There are no long-term studies to document any history of safety
- Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,
- The vaccine does not stop the spread of the disease

These mandates are a violation of my unalienable rights granted to me by our Constitution/Bill of Rights; furthermore it is a violation of the International Criminal Court Law, the Nuremberg Code.

Washington State Board of Health

I highly object to the plan to apply current infectious disease WAC codes to include COVID-19 for WA State Residents. This disease is very manageable in treating. The survival rate is over 98 %.

COVID VACCINES should NEVER BE A REQUIREMENT, it should be a choice. Children especially should not have a requirement to receive the COVID VACCINE.

Deaths from COVID are very low to apply this as an EMERGENCY.
Even CDC has numbers that prove this is not an EMERGENCY.

We live in America, health officials have no right to quarantine any person or families in a facility for refusing something they fear is worse than the disease it's self.
Most of the population understands that this is not about our health but more about control...control of the population.

This plan is definitely out of constitutional boundaries, hoping treason will be charged against them in the near future.

Subject: NO Mandated Vaccines for School Age Children

External Email

State Board of Health,
I encourage you to NOT pass legislation requiring Covid-19 vaccinations for school age children. This immunization unlike other "required" vaccinations has NOT been approved by FDA. FDA has only authorized the Covid-19 vaccination for EMERGENCY USE. This vaccination HAS NOT been tested thoroughly like other required vaccinations for school age children. The fact that their short studies have proven two serious side effects of risks for myocarditis and pericarditis is proof enough to me that we MUST wait before requiring this vaccination!

Media is avoiding the fact that Covid-19 vaccinations have been approved for EMERGENCY USE AUTHORIZATION "ONLY!"

As a grandparent of six and a concerned citizen I encourage you to STOP this now!

Sincerely,
Julie Paget

External Email

Dear Caitlin Lang-

I am emailing the Washington State Board of Health to reject and plead with you to not mandate the covid vaccine for school age children and teens.

I have 4 kids and I am not an anti vaccine parent. I acknowledge that covid19 is real and has been horrible for the elderly and those with pre existing conditions.

These vaccines are not safe for our kids and may cause irrevocable injury and damage. The viral gene injected into parent cells forces my child's body to make toxic spike proteins. These proteins often cause permanent damage in children's critical organs. These organs include the brain and nervous systems, heart and blood vessels(including blood clots), their reproductive system, and this vaccine can trigger fundamental changes to their immune system. Once these damages have occurred, they are irreparable and can not be reversed. You can not fix the lesions in their brain, you can't repair heart tissue scaring, you can't repair a genetically reset immune system, and this vaccine can cause reproductive damage that can affect future generations of our family.

Why would I want to risk all of the above for little or no benefit? Plus all of my kids and most of all their friends have had covid and they have a natural immunity.

The vaccines have not been properly tested. They are still experimental vaccines!

The harms and risks of new medicine are often revealed many years later.

I do not want my kids to be a part of this radical experiment.

There is no benefit to vaccinating my children against the small risk of the virus given the known health risks of the vaccine that we may have to live with for the rest of our lives.

We should be thinking about the well being of the kids and little ones who will soon grow up and need to run this country. It is not up to the government to make my kid get a experimental vaccine. We will not comply.

Thank you for your time

To put it simply:

To put it simply:

1. It is illegal to require an experimental vaccine.
2. Children are being damaged or killed by the Covid vaccine
3. You will be held personally liable and accountable for each and every child adversely affected by this vaccine.
4. The FDA is not willing to release their findings on the Covid Vaccine for 75 years – any guess why that would be?

I could fill this page with links to supporting statistics and data available proving the Covid 'vaccine' is not safe. You should be aware of all of this information. If not, you need to immediately step down from your position.

Sincerely,

Subject: NO on Mandatory Cov19 vaccines to enter Schools/Daycares

External Email

Good day,

Thank you for your time. I am writing to say I am OPPOSED to any cov19 mandatory vaccine for children to enter schools or daycare in WA State (or any State for that matter). There is zero scientific proof that says children need the cov19 vaccine to be "safe" from the virus. Deaths in children from Cov19 infections are extremely rare, according to the CDC and current science. Follow the science DOH and stop mandatory Cov19 vaccines.

In two years' time, the death rate of children is extremely low. See CDC stats. link below.

Provisional COVID-19 Deaths: Focus on Ages 0-18 Years | Data | Centers for Disease Control and Prevention (cdc.gov)
<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCCHS%2FProvisi](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCCHS%2FProvisi&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cbff14700d2f5444eb92d508d9d42456a1%7C11d0e)
COVID-19-Deaths-Focus-on-Ages-0-18-Yea%2Fnr4s-
juj3&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cbff14700d2f5444eb92d508d9d42456a1%7C11d0e

In addition, nearly the entire country is OPEN and operating without masks, and

mandatory vaccines and living normal lives. You can drive to any number of States from WA all of which are open and you can feel how not oppressive it is to be there. WA State continues to push the agenda against science and reason but most importantly WA State is not following the science.

Respectfully,

Julie Mosey

To whom it may concern:

I'm am writing to The Washington State Board of Health in regards to asking for parents' input about adding the COVID-19 vaccine to the list of vaccines required for children to join a public school. I am 100% against this proposal.

Many smart people who understand science, the study and trial process, pharma companies, disease process, pandemic vs endemic and how vaccines and viruses work, AND many people on the front lines who work with Covid patients (who are pro vaccine) will tell you not to take this vaccine. Especially the children.

If you take this vaccine, you are participating in a trial. Why force that on our CHILDREN? The long term side effects and overall efficacy are anyone's best guess. I understand Covid can be deadly or very dangerous for SOME people, but so are strawberries, peanut butter and shellfish.

Please do not add this to the required list for children to attend school. Do not make our children be part of an experiment.

Sincerely,

Michelle Adkins

Subject: Fwd: My public comments- COVID 19

External Email

Good Morning,

I am writing to express my concern with the DOH adding the newly authorized COVID-19 vaccine to the required list of vaccines for public schools.

Due to the fact that COVID has not targeted children from the beginning of the pandemic, survival/recovery rates in children are extremely high, many kids have already contracted and fully recovered from COVID 19 (my daughter being one), AND the fact that this EXPERIMENTAL TECHNOLOGY has not gone through the full trials that SHOULD be required by law for ANY medication/vaccine/etc., I do not think it is ethical to require all children to be injected with this new vaccine technology.

Studies and ACTUAL case data has shown that this vaccine does not prevent transmission – therefore it should not be required.

Antibodies SHOULD MATTER and your decision to require vaccines that do not prevent transmission goes against the scientific data that this Country has been following for decades.

If you decide to push this mandate, violating every American Parent's right to choose for their children, I will be withdrawing my two children from the public school system. What my family does have is the freedom to pick up and move where ever we feel safe – this is not Washington. By our Constitutional Rights we should have the right to medical freedom allowing us to make decision for our children and NOT hindering their right to access public education.

Sincerely,

Richard A. Liske

With the past issue of Myocarditis that the vaccines have had and the limited risk the virus has on children, mandating the vaccine is not only morally wrong it is criminal. By doing this you are risking the lives and health of our young children. This virus is tending the way viruses do becoming less life threatening and the vaccine has had side effects (up to life threatening). With many antidotes to prove the added risk this vaccine has caused. Mandating children to be vaccinated is not a sound risk!

Subject: No Forced Quarantines of Vaccinations for Children!

External Email

Dear Board of Health Members,

First and foremost, thank you for your service to the citizens of Washington State.

I am writing to ask you to please not implement any policies that would force involuntary quarantines, testing, treatment, and most importantly vaccinations against covid 19 for school aged children.

I believe in making safe and healthy choices for children, families, and all humans, that also align with their personal beliefs they choose to follow. In forcing involuntary quarantine, treatment, and vaccinations, it will only divide people and cause excessive hurt and anger among citizens. Families have already had to be forced to make decisions between working or being vaccinated, but they SHOULD NOT have to choose between educating or vaccinating their children. Please do not push people to their breaking points, as so many are already almost there. Children should not have to be forced to be vaccinated against Covid when there has not been enough time to study what long term effects it will have of them.

Please have courage and stand against this tyranny for the children and the future generations of children!

Kayla Grose
Chehalis/Napavine Resident

Subject: No covid vaccination mandatory

External Email

Hello, my name is Liliia Strusevych and

I am against making COVID-19 vaccination mandatory for school admission or childcare in our State .

As a parent, and a member of the community, I implore you to please stop the push to require Covid 19 vaccinations for ANY child in child care or school. Covid vaccines should absolutely NOT be a requirement for our children! Children are at an extremely low risk of getting Covid 19. The Covid 19 vaccines have no long-term testing on adults and they have even less testing on children. Covid 19 vaccines are not stopping the virus as many with the vaccine are contracting and spreading virus. The vaccine has not been tested enough to ensure its efficiency and safety for children. Requiring this vaccine does not protect our children!

As for the criteria of Implementation, the vaccine is NOT acceptable to the medical community and the public. There is an extremely large amount of both the medical and the general public who do NOT accept this vaccine as safe.

And finally in regard to vaccines effectiveness, this vaccine does not work. It is not on the Recommended Childhood & Adolescent Immunization Schedule. It is not preventing COVID nor is it preventing the spread of Virus. This is not a safe vaccine for all people. Please PROTECT our children by NOT requiring a vaccination to attend child care or school.

Thank you

Subject: My Public Comments: no scientific reason

External Email

To whom it may concern,

There is no scientific reason to mandate covid vaccine for children. A small percentage 0.001% (check the CDC website) is affected due to underlying conditions. Healthy children barely have any cold or flu like symptoms. My 2 children (7 and 9) barely have any symptoms. My youngest (almost 4) only has 2 days of low grade fever. Pediatrician I know here in WA even said she has not seen any serious cases with kids. Pls don't do this just because of political reason. I beg you as parent to another parent to please stop this madness. There is no scientific reason for this so I don't even know why is the push for mandate. We have seen nations with high vaccination rates still have covid cases. Covid is here to stay. It will be endemic as the cold or the flu. Like viruses, it will mutate till its less virulent and more contagious.

Please don't push this to be more than it is. It is heartbreaking what we will do to sacrifice our health and kids. This is not about health when we put everyone in one basket. This is not about health when both v and unv can transmit and still forcing everyone to take this vaccine. Idk what is becoming of us that we are blinded to this. Pls pls look at the data and explain to me or us to me the rationale to mandate vaccines for kids.

Thank you,
Nova

Subject: No covid vaccination mandatory

External Email

Hello, my name is Liliia Strusevych and

I am against making COVID-19 vaccination mandatory for school admission or childcare in our State .

As a parent, and a member of the community, I implore you to please stop the push to require Covid 19 vaccinations for ANY child in child care or school. Covid vaccines should absolutely NOT be a requirement for our children! Children are at an extremely low risk of getting Covid 19. The Covid 19 vaccines have no long-term testing on adults and they have even less testing on children. Covid 19 vaccines are not stopping the virus as many with the vaccine are contracting and spreading virus. The vaccine has not been tested enough to ensure its efficiency and safety for children. Requiring this vaccine does not protect our children!

As for the criteria of Implementation, the vaccine is NOT acceptable to the medical community and the public. There is an extremely large amount of both the medical and the general public who do NOT accept this vaccine as safe.

And finally in regard to vaccines effectiveness, this vaccine does not work. It is not on the Recommended Childhood & Adolescent Immunization Schedule. It is not preventing COVID nor is it preventing the spread of Virus. This is not a safe vaccine for all people.

Please PROTECT our children by NOT requiring a vaccination to attend child care or school.

Thank you

Washington Board of Health,

I am a Washington State resident and am completely opposed to the proposed Covid policies that are an overreach and violation of personal and medical freedom. I, with many others in our beautiful state, stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, and WAC 246-105.

Please reverse any and all actions towards making any vaccine mandatory as a requirement for school. And any action towards establishing isolation camps for quarantining people. This is completely against our unalienable rights of Life, Liberty, and the Pursuit of happiness.

Half the country isn't even requiring masks at all and their Covid stats are better or the same as those areas that are. So, there is an actual live science experiment going on with data to disprove the Covid hysteria. Follow the science!! Any honest assessment of the current data (even the exaggerated CDC data) would never lead reasonable people to do anything in these WACs. Everyone under age 80 has (at any and every month since Feb 2020, had a 99.99+% survival rate for a Covid infection. And the current variant has an even better survivability rate.

Also, consider that trying to get police to "round up people" to isolate them will likely be met with much more forceful pushback than you or they want. This is America, not communist China. The 4th amendment of our US constitution is there to let you know that you have no right to do enact the proposals being considered.

DO NOT enact a covid vaccine mandate for children of any age. If you do you will be responsible for the deaths and injury of hundreds to thousands of children. Don't be fooled by the federal government's propaganda. If you do your research, you'll understand that the covid vaccines are responsible for tens of thousands of deaths worldwide and over 1 million adverse effects. They are causing more harm than good. The vaccines have been proven to be ineffective. There are more people getting covid who have been "fully" vaccinated than those who are unvaccinated. There is no point other than for financial reasons for greedy pharmaceutical companies and state and local government agencies clambering for federal funds to get vaccinated.

Keep the government at all levels out of the family decision making process and out of the doctor patient relationship. Family decisions and medical decisions are personal and private.

What you should be spending your time on is enabling early treatment solutions that are widely available to all Washingtonians. The biggest crime of this century is that the government at all levels and medical administrations at all levels have failed to recognize that Covid can be treated early with existing medications that are already widely available.

DO NOT MANDATE VACCINES FOR CHILDREN OF ANY AGE.

Subject: NO on Unconstitutional Vaccine Agenda

External Email

Washington State Board of Health

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents.

This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90 percent of the population. Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been fully vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary.

+++++++ Children have little risk from Covid-19,
but they do have considerable risk from the unapproved Covid vaccines.
+++++++

In America,
health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention.
+++++++ This is not about +our +health;+ +it
+++++++is +an
unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

Signed,
Jennie r . Sweet

Sent: Thursday, January 6, 2022 9:15 PM
To: Shannon Sauter <djshannonmusicsaves@gmail.com>
Subject: No COVID 19 vaccine requirement for schools in Washington State

External Email

Hi,

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense ([childrenshealthdefense.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe the vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10

Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org

)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Thanks, Shannon Sauter

Subject: NO on Mandatory Cov19 vaccines to enter Schools/Daycares

External Email

Good day,

Thank you for your time. I am writing to say I am OPPOSED to any cov19 mandatory vaccine for children to enter schools or daycare in WA State (or any State for that matter). There is zero scientific proof that says children need the cov19 vaccine to be "safe" from the virus. Deaths in children from Cov19 infections are extremely rare, according to the CDC and current science. Follow the science DOH and stop mandatory Cov19 vaccines.

In two years' time, the death rate of children is extremely low. See CDC stats. link below.

Provisional COVID-19 Deaths: Focus on Ages 0-18 Years | Data | Centers for Disease Control and Prevention (cdc.gov)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCCHS%2FProvisional-COVID-19-Deaths-Focus-on-Ages-0-18-Years%2Fnr4s-juj3&data=04%7C01%7CNathaniel.Thai%40sboh.wa.gov%7C78ca4d4b4fb14996ee0308d9d23f7f8f%7C11>>

In addition, nearly the entire country is OPEN and operating without masks, and mandatory vaccines and living normal lives. You can drive to any number of States from WA all of which are open and you can feel how not oppressive it is to be there. WA State continues to push the agenda against science and reason but most importantly WA State is not following the science.

Respectfully,

Julie Mosey

Subject: No Covid Vaccine for School Kids

External Email

To Whom It May Concern:

My name is Nicholas Hooge and I am the father of 3 small children. As a parent, I am abhorred by the ideas currently being proposed to legislation to FORCE "vaccination" on my children.

Dr. Robert Malone who is the creator of the gene therapy - not vaccine - strongly advises parents NOT to inject the covid "vaccine" into our children due to the dangerous toxic spike proteins the injection causes, resulting in possible permanent damage to my child's critical organs, such as the brain, nervous system, heart and blood vessels, reproductive system and immune system.

The rate at which this "vaccine" has rolled out is alarmingly fast, and suggests cause for concern based on the lack of testing over time. As a person holding a Bachelors Degree in Science, the lack of testing, of knowing exactly what risks we are potentially ignoring is completely unacceptable to me as a parent. I should be able to look at research and decide for myself if the benefits outweigh the risks to an injection and, as it stands, this is a no brainer for me, as a parent. So far, it seems children have very mild systems due to COVID-19. I understand this is not always the case, but it does appear to be the majority, so my kids are at no increased risk to their lives or safety without this "vaccine."

It is not legislation's right to FORCE my child to receive an injection I do not feel is in his best interest; not only that, one in which could cause IRREVERSIBLE HARM to his body as he continues to grow.

If COVID-19 vaccination becomes a requirement (without allowing exemptions) for school enrollment, you can be sure my 3 children will be unenrolled instantly. My wife will homeschool or we will move out of state before I put my children's lives in jeopardy.

I hope you will truly consider my words as a concerned parent; America has always afforded us the right to CHOOSE for ourselves. It is my right as a parent to choose wisely for my children and not your right as a government official.

Thank you for supporting us parents when you vote NO for a covid vaccine requirement for school.

Sincerely,

Nicholas Hooge

Subject: No more power to board of health

External Email

To whom it concerns,

I am against giving the board of health more power. I don't believe they should have power to enforce medical mandates. I believe this kind information should be more easily available for the general public. Then it should be voted on by the public. Just found out about this and would love to say more but don't have time. People's freedom to decide for themselves is more important then a few people guessing as to what is best for others. Everyone can make their own choice to stay home, wear masks, take vacations etc....

If u really were serious u would spend more time educating people on health. That would be more fair for everyone since that is accurately close to 80% of why people really have problems. I pray there are still some people out there that understand why this country was founded and will protect us from circling back to the sad tyranny that we fought so had to get away from. Don't give the board of health any power other than to educate.

Thanks

Mark

Subject: NO Mandates

External Email

Dear Sir or Madam,

As a mother & grandmother & an RN for 43 yrs. I am urging you to stop demanding our young children be vaccinated for the Cov-d 19. This is an experimental gene therapy still not approved by our Federal food & Drug Administration.

Look it up- still giving the original Emergency Authorized Use injection.

Our children are not at threat to be seriously ill from this virus.

We should test for natural immunity which is MUCH more effective! THAT is the science.

Look at the UK, Austria, Germany are all having spikes and are HIGHLY vaccinated.

Natural Acquired Immunity is what protects us!

I will close with a quote from our own CDC

Director Walensky herself stated, "What the vaccines can't do anymore is prevent transmission."

Thank you for paying strong attention to the parents in our state who have done their research!

Sincerely,

Mrs. Katrina Peterson

Superintendent Reykdahl,

My children will not be forced to get a vaccination. This is a family matter and personal choice and should not be forced by the government. Stop living your life in fear and stop trying to control something you have absolutely no control over!! If you require public school children to get the vaccination, I can guarantee you will have a lot of kids pulled from the public school system.

Thanks,

Nicole Mickle

Hi!! Please send this far and wide!!

If you haven't done so already please email the WA state Board of Health:
wsboh@sboh.wa.gov

Must be received by tomorrow, Friday at noon!!! Aka, tomorrow they are discussing involuntary quarantine and forced/mandated vaxx for public school. Your email doesn't have to say much. If you don't want to draft your own words you can simply cut and paste the following::

I oppose WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

Here we go!! Hand in Hand!! Hold the line! ☐☐

External Email

I am strongly opposed to adding covid vaccine for children to the WAC-246-105-030

Covid vaccines remain under emergency use authorization and the rules that apply to that status

Children under 18 yr have extremely low clinical risk from covid infection

Children have a much higher risk of adverse event to the vaccine- including life long health issues

Research supporting child vaccinations safety is flawed by the methods used to collect it

Covid vaccines do NOT prevent getting it or transmitting it

DO NOT subject our children's health to a failed vaccine and the future unknown risks it may cause

I am against requiring the covid 19 vaccine for school aged children. It has been proven that the survival rate of covid 19 in children is above 90%. I do not personally believe that there have been enough long term studies on this vaccination for it to be required. Please include me in the TAG that will be looking into this subject.

Thank you

Subject: Federal & state violations

External Email

Taking away the rights of parents to manage the Healthcare over their children is both a violation of state and federal constitutional law.

Emergency Use Authorization does not apply to Healthcare but rather addresses issues of disorder and rioting. An EUA has been misused and misrepresented to the general unsuspecting public.

The government is overstepping the bounds of state statutes. Any board in this state or any other, Mandating (ordering) vaccines, PCR testing etc. Is in essence "practicing medicine without a license". Requiring various tests, demanding a "diagnosis" is also engaging in the "practice of medicine without a license". A mandate is not a statute and therefore you would be engaging in unlawful practices.

Several experts have stated publicly that children are not responsible for the spread of the virus or variants.

It is your job to follow the laws and "help" families be safe from harm. The vaccines to varying immune systems are neither safe or very effective. If so, "boosters" wouldn't be needed.

England has now released their entire country from mandates and you should allow this state to be free once again!

Stop the unlawful mandates!

Sincerely,

Cynthia (Washingtonian)

Since Winter Break we have seen many fully vaccinated children and fully vaccinated and boosted adults test positive and spread Covid in our communities. Thankfully, the worst cases have been no more severe than influenza.

The current requirements on schools for testing, contact tracing and advising parents about return to school timelines is so time consuming that health care professionals are not able to perform our normal duties within a workday.

If we add tracking compliance for a required vaccine to be given biannually that does not stop the spread and does not prevent infection, we will need at least one public health employee working full time in each public-school building to offset the time demand for this task.

The benefit for this population in our community does not outweigh the huge number of hours needed to manage the task of making the biannual Covid vaccine mandatory in schools regardless of whether we continue with the current decision tree protocols.

I urge you to not require this vaccine. The influenza vaccine is not mandated yet people chose to get vaccinated against the flu every year.

Thank you.

Taimay Jones, RN

Dear Legislative Elected Officials.

I implore each of you, as elected representatives of the PEOPLE, to dig in, and find your moral compass and ask yourself:

What side of history will you have played in the demolition of our free democratic society, the obliteration of our constitutional rights, the destruction of our human decency and dignity by aiding and abetting the murdering and maiming of tens of thousands, likely millions, for profit. Is this your legacy?

Time to look at the facts. Not the multi-trillion dollar industries that create sickness to treat sickness with their known poisons. We are the sickest first world culture on the planet. Fauci has doubled all stats for chronic illness in his career and directly profits from the medicines he promotes (The Real Anthony Fauci, Robert Kennedy Jr). The very agencies that are supposed to test for safety and regulate on behalf of concern for their population are ruled by profiteering agents of vaccine makers, pharmaceuticals, big industries. This is called a "conflict of interest" (Dr David Martin, legal documents exposing criminal acts in every agency). There must be incentives for many of you as well, but what profit can justify willfully hurting and causing harm to your people? Unjustifiable.

Meanwhile, we deny early treatment, we do not educate about health and wellness, and we demonize any doctor, scientist, or professional who does not agree with the "story" which is delivered with fear and threat and willful propaganda to buy their products. In fact, there are hundreds of thousands of doctors worldwide who have had very successful results (and no deaths!) by using very safe, well researched and cheap repurposed drugs and preventative measures. (World Doctor's Alliance; Frontline Doctors, Stand for Health Freedom).

Rest assured: Legal actions are being taken every day against these atrocities (ie: Children's Health Defense, Robert Kennedy Jr, Lawyers of Light, Dr David Martin, Great Barrington Declaration). How far are you willing to push us? All for a virus which has a known overall survival rate of 99%, affecting primarily the elderly and the infirmed and with early treatments thousands would have been saved, a virus that the majority of us already have a much more robust natural immunity to. Have we forgotten everything we have learned about natural immunity? (look to Israel studies, natural immunity grossly exceeds any benefits of vaccination, and the vaccinated are 6- 13% more likely to have a breakthrough infection).

THIS IS NOT ABOUT HEALTH, though, is it? Considering there are 10 to the 31 viruses in the air at any given time, and 10 to the 15 viruses in our bodies at all times. We evolved from viruses and could not adapt to our environments without them. Why are we really having overpopulation of viruses (check out Dr Zack Bush if you really want some sound science) We are deliberately keeping our public in the dark about HEALTH.

We are regressing as a culture. These corporate giants profit from sickness and we are poisoning our people for personal and corporate gains.

Are you prepared to stand trial, as all who abided the criminal overlords who profited from creating sickness and willfully murdered their innocent and trusting population?

Do you understand the consequences of the choices you are all making on behalf of our blessed communities? Are you aware that we are violating the International Nuremberg Codes which reiterate our fundamental, God-Given rights, (not rights humans give humans), **inalienable rights** to not be experimented on without our Full Informed Consent; To not be Coerced into any Unwanted Medical Experimentations and Procedures, To not be Shamed, Blamed and Persecuted through Unlawfully Executed Interventions Revisit history, it repeats itself.

This proposed policy: WAC 246-100-070, to force an emergency order to detain persons, families, children, elderly into quarantine facilities is akin to concentration camps.

Unbelievable: You are on the precipice of deciding to enact martial law against people who are healthy, intelligent, mindful, law abiding citizens, **most of which already have natural immunity**, people who are born with the privilege of having authority over their own bodies, you are prepared to violate all that is humane for what? This is rape and murder of our dignity.

Worse yet: TO suggest that no child can go to school without this experimental forced medical intervention for a disease that they have a 99,997% survival rate, where no vaccine maker has liability for damage and death, and with no long term studies, this is **CRIMINAL!!** Are you aware of the numbers of deaths and adverse events on the VAERS (Vaccine Adverse Events Reporting System), which are VASTLY underreported (about 1% according to John Hopkins study to evaluate the effectiveness of the voluntary reporting system).

CDC, FDA Say No Deaths From COVID Vaccines. VAERS Data Tell Different Story (The Defender) /please read!!

VAERS data released Friday by the Centers for Disease Control and Prevention included a total of 1,000,229 reports of adverse events from all age groups following COVID vaccines, including 21,002 deaths and 162,506 serious injuries between Dec. 14, 2020, and Dec. 24, 2021.

According to the [most recent VAERS data](#), there have been [25,802 reports](#) of adverse events in 12- to 17-year-olds, including [579 reports](#) of myocarditis and pericarditis. Of the 579 reports, [568 cases](#) were attributed to Pfizer's vaccine — the only vaccine authorized for use in this age group.

There have been [34 reported deaths](#) in the U.S. among 12- to 17-year-olds following COVID

vaccines. Reports submitted to VAERS require further investigation before a causal relationship can be confirmed.

Now insurance agencies are reporting that there is a 40% increase in deaths from ages 18-64 year olds!! Unprecedented. And nurses and hospital staff are reporting more deaths from vaccination than COVID. DO YOUR DUE DILIGENCE.. Look to sources NOT on major media or from agencies who are self-serving.

WHO DO YOU SERVE?

Here is a **partial list of potential adverse effects** (which no one is being lawfully informed of, when given the jab):

Guillain-Barre Syndrome,
Myocarditis,
Pericarditis,
Autoimmune Disease,
DEATH,
Anaphylaxis,
Acute Disseminated Encephalomyelitis,
Encephalitis,
Convulsions,
Seizures,
Strokes,
Heart Attack,
Narcolepsy,
Cataplexy,
Pregnancy and Birth "Outcomes",
Miscarriage,
Fertility Disruptions,
Venous Thromboembolism,
Arthritis,
Arthralgia,
Kawasaki Disease,
Vaccine Enhanced Disease,
Other Acute Demyelinating Disease,..

REMEMBER: THERE NO LONG TERM STUDIES CONDUCTED and we have no idea what the consequences are to jabbing our precious children.

Science always questions and looks at all sides of and allows **new information to alter the course of decision making.**

Remember when they put asbestos on babies?

And they thought glyphosate was healthy (responsible for polio)?

And they lobotomized women especially for being emotional?

Bloodletting? Cigarette smoking in pregnancy?

It is **ALWAYS ABOUT A PRODUCT FOR SALE.**

STOP AND PAUSE AND MAKE THE RIGHT CHOICE ON BEHALF OF ALL HUMANS: TO WILLFULLY CHOOSE ANY MEDICAL AND OTHERWISE INVASION OF THEIR BODIES.

This is no different than the WW2/Nazi war crimes. You are literally about to potentially pass a law that FORCES every citizen to take an unwanted medical intervention for which NO VACCINE company is liable for in the case of adverse events, including long term damage and DEATH.

Every law of human decency has been broken.

AGAIN: All for a "disease" which has an overall 99% survival rate.

It is YOUR DUTY AND MORAL OBLIGATION TO CHOOSE FOR THE PEOPLE, NOT FOR THE MEDICAL INDUSTRIAL CORPORATE COMPLEX, who are Bullies.

It is unfathomable that we are at the threshold of the darkest times, where the decisions we make right now, may literally be the demise of our society. The most important thing to consider is the future of our children. And their children.. should they be able to reproduce in the next generations to come. We were already heading for extinction through our mindless consumerism and radical rape and destruction of our life giving planet. But how fast do you want to go?

Thank you for your attention.

Please send me the link to the meeting for the 12th.

Anyone can share my comments at will.

I trust there are some good hearted souls out there.. who and where are you?

The Time IS NOW TO BE BRAVE and STAND UP AGAINST TYRANNY.

Blessings to us all,

I am so concerned for my children.

With A Heavy Heart,

Marnee I Smith-Thomas

9:28 AM (0 minutes ago)

to wsboh

I am writing to express my opinion on the subject of making Covid vaccines mandatory for children to enter schools or daycare. This vaccine is like no other given to our children to prevent polio, tetanus, diphtheria, etc. This vaccine is experimental, and alters the DNA of the recipient. We have already seen heart problems in older children, after having the vaccine, as well as hormonal, and reproductive changes. Healthy children under age ten are not adversely affected by the covid virus. In fact there have been ZERO child deaths from covid in the US. That alone is enough to scrap the idea of making it mandatory. Our school system ,as it is today, will see a dramatic loss of student enrollment if this is allowed.
Thank you for considering my request.

External Email

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only “approved” COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This “smoke and mirrors” approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer’s claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are ‘Interchangeable’ • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there’s no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, “We are never going to learn about how safe this vaccine is until we start giving it” Dr. Eric Rubin, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer’s studies: Ten red flags in the FDA’s risk-benefit analysis of Pfizer’s EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org)

Force vaccinating healthy children for a disease that doesn’t affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Thanks,
John

We, USA citizens and as Washington state residents oppose these completely!!

I am completely against any of
the proposed Covid Policies that
are over reaching and immoral.
I stand against these WAC's:
WAC 246-100-070, WAC
246-100-045, WAC 246-100-040,
WAC 246-100, WAC 246-105.

All of us saying opposition to these, as one family:

Liliya Dudik
Petr Dudik
Vera G Bigun
Viktor M Bigun

Sincerely,

Liliya Dudik
Petr Dudik
Vera Bigun
Viktor M Bigun

This sounds more like Nazi Germany to me. You're trying to send people to "quarantine camps"

What the hell is wrong with you?? Have you not learned from history or is it repeating itself so quickly ??

I am a European Jewish woman and there is SO much wrong with all of this. May God open your eyes to see the evil you're proposing.

Pure pure evil from the pits of hell. God have mercy on your souls.

To whom it may concern

SUBJECT:

Detaining & forcing medical testing and/or treatment is unconstitutional & unnecessary in America. No FORCED COVID shots of children!!

Forcing medical care, isolation, or treatment is totally unnecessary as COVID is getting less & less dangerous. As it mutates it is becoming more contagious but is causing less severe illness.

Because the majority of the population is vaccinated, along with natural immunity of those who have had the illness, herd immunity is happening now which will keep the illness under control.

The action of mandating a vaccine to the least impacted age group is unconscionable! There are side effects from these shots, making them much more dangerous than if the child were to contract the virus. Watch the podcast by Dr. Robert Malone who invented the MRNA vaccine. It is frightening! This is an experimental vaccine! There are also many unknown long-term effects, including possible sterilization.

You cannot say you want to do this to protect the children when you speak of mandating the vaccine for a virus that is becoming more like the flu every day and impacts kids 0-19 years old the least. Follow the data!!!

Both of these proposed mandates are terrible and unnecessary and would take away more of American's constitutional rights and God-given freedoms!!
Please DO NOT allow this to happen!

Dear Members of the Board:

With regard to the above referenced issues of involuntary quarantine of citizens and forced vaccination on children coming before the Board of January 12th.

It appears that the RCW gives the Board this power, yet, only now is it being considered in an open meeting. Obviously, the quarantine measures using *police and sheriff's deputies* as the strong arm, are to force citizens to comply with C-19 Vaccine requirements that the state government wants. This, as the vaccines are now proven to provide minimal protection for adults, and be unnecessary for young adults and children, who are more affected by a common FLU than C-19. Not to mention the vaccines are still under EUA. Vaccinating children with what is STILL an experimental gene therapy when they are more likely to die in a car accident on the way to school makes no sense. If you're considering it to make adults more comfortable, especially those in teachers unions, it's unbelievably reckless. We protect children. We don't experiment on them. As a citizen of this state, I am wholly against this proposed action, and I am vehemently against quarantining citizens of a free state and free country on the whim of an appointed Board whose homogeneous make up is shocking in this state and day and age.

In reviewing each member of this very un-diverse Board's biographies, I see a lot of MPH's, a Women's Gender Studies student and one dance major. To think a group of almost exclusively white, privileged females, appointed, not elected, who have worked almost exclusively in safe, government jobs, would wield this level of power over the citizens and the commerce (destruction of livelihoods and small businesses) of our state, beggars belief. You are considering forcing people into whatever "internment" your group, through a "local health officer" (whose qualifications are...?) sees fit, and based on what criteria? What about their jobs? Schooling? Pets? Businesses? Childcare? Their very lives and livelihoods would be at stake, and you will make them not only poorer, but outcasts and lepers. And make no mistake, who will suffer will not be the Peloton laptop class, it will be the working class. Waiters. Cooks. Cab drivers. Babysitters. Small business owners. Farm workers. People who live hand to mouth. People who can't afford weeks, or months, without paychecks. The people you are supposed to care about.

Your powers would be better spent addressing the mentally ill, drug addicted homeless people that populate our largest, formerly beautiful, city, leaving needles and feces everywhere, (a true public health hazard) instead of harassing and intimidating not just all the residents of Washington, but especially working class people who just try to pay their bills and live their lives paycheck to paycheck. Those who can't take two weeks off for therapy and time at the Happy Valley internment camp.

I ask that you step back, and consider what you are proposing to do, by fiat, to your fellow human

beings and citizens of this state. To say that I am appalled by your utter lack of humility would be the understatement of the century.

Lastly, perhaps the MPH's should study history, beginning with Japanese internment camps.

To all that it may concern,

Do not take our medical freedoms away with this terrible vaccine! It isn't working, hasn't worked and has lost all credibility. The creator of the MNRA directly saying DO NOT give this to your kids! I've done plenty of research and I for one am not trusting the "science" of it. Our bodies are temples of God and we aren't to put poison in them. This is an absolute over reach on our bodies, minds and souls at this point. Our family will find other avenues for education and many families I know will do the same.

Please hear us LOUD and CLEAR! NO on "covid" Vaccine!

WSBOH,

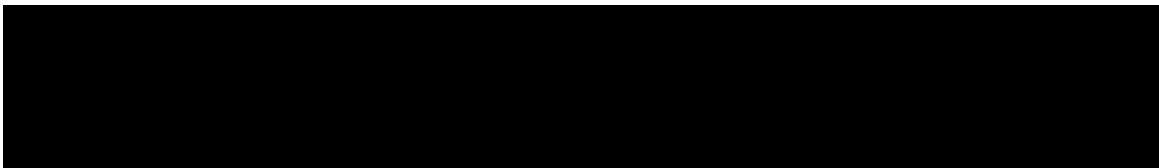

You will be signing a death & disability warrant for these children if you force them to take an EXPERIMENTAL GENE THERAPY with NO INFORMED CONSENT that is added with GRAPHENE OXIDE & INFECTIOUS SPIKE PROTEINS resulting in MYOCARDITIS, PERICARDITIS, CLOTS, AMPUTATIONS, ANEURYSM & DEATH.

There is already mountains of evidence on VAERS for **VACCINE INJURY & DEATH on a MASSIVE SCALE**. **Big Pharma is conducting lethal dose studies on humans:**

howbad.info

Stew Peters Breaking: Deadly Vax Lot Numbers Identified, Still in Circulation!

<https://beforeitsnews.com/opinion-conservative/2022/01/stew-peters-breaking-deadly-lot-numbers-identified-still-in-circulation-genocide-completely-exposed-must-video-3613122.html>

shadowtop.jpg

VAERS reached another grim milestone: 1,000,227 reports of injury following coronavirus vaccines. This is unprecedented in the history of the U.S. vaccine program.

In the 31-year history of VAERS, there are 9,248 reports of fatalities following other vaccines. Since the start of the coronavirus vaccine campaign there have been 21,002 reports of death following coronavirus vaccines.

110,609 reports of hospitalization and 10,640 heart attacks following coronavirus vaccinations are also horrifying new records.

Meanwhile CDC fixers Tom Shimabukuro and John Su spend their days working feverishly to try to make the signals go away. But the signals refuse to go away because the data is the data and millions of people are waking up to the truth that these products are dangerous.

Every day of the last two years has been heartbreaking. The only silver lining is that so many of you share the data with others and in the process bring forward the day when justice shall be done.

Washington State Board of Health

I object to the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents. This disease is manageable if treatment is started early. Moreover, it is survivable by more than 90 percent of the population. Covid vaccines have little effect on the Omicron variant, and in fact, most people who get this variant have been fully vaccinated, some have even received booster shots. Being fully vaccinated will require regular booster shots, forever!

Including Covid vaccines as a requirement for attending public school is completely unnecessary. ++++++ Children have little risk from Covid-19, but they do have considerable risk from the unapproved Covid vaccines. ++++++

In America, health officers do not have the right to quarantine a person or family in a prison-type facility for refusing the Covid vaccination or any other medical intervention. ++++++ This is not about +our +health;+ +it ++++++is +an unconstitutional, criminal attempt for the government to control the population. Those who are proposing this plan should be charged with treason.

Signed,

Subject: Concerns

External Email

Hello,

I just read about a discussion taking place on Jan 12th 2022 to include covid 19 in what appears to be a Washington State law that has been in place since 2003.

If I am reading the law correctly it appears that just by choosing not to vaccinate against covid 19, that an entire family can be locked up and forced to be vaccinated against their will on the basis of the opposing viewpoint that this is in the best of interest of the family. Is this real? Do Americans no longer have freedom of choice in America? Is Washington state going so far as to lock families up who do not agree to vaccinate against covid 19 and then force these injections into their bodies against their will?

If this is the intention, please, please do not support this. All Americans deserve medical freedom of choice. Freedom of speech. Freedom in general. That is what our country was built on. Freedom of choice is the hinge point that defines our great nation.

It is terrifying to think that it's even on the table to overturn such freedoms in my home state. Why does Washington think that they can be above the constitution and treat American people in such a manner for their choice to not vaccinate? The thought makes me sick to even consider. I truly hope this is not the intention of the meetings on January 12th 2022.

Sincerely,

Sherri Harris MPA

Hi, WSBOH

I understand vaccine is important approach to COVID-19. However, even we have 100% vaccination rate in the classroom, we still have possibility students will catch Covid, due to the variants. At that time, how can we explain? It will make everyone loss the confidence, even the people support the decision, right?

Thanks,
Yang

This proposal gives too much authority to health officials for a disease, COVID, that is still not well understood. Risks from the disease, the vaccine, and mutant strains are changing rapidly. New treatments are being developed for COVID which will help to mitigate the effects of the disease. Adding COVID to the WAC procedure will only add fear and division throughout Washington and not make anyone safer.

Subject: My Public Comments

External Email

Regarding the listed topics on the meeting on January 12, I have concerns regarding certain items that are to be discussed.

Listed topics are, 4- Covid 19, 6- diseases, 8- immunization and 11- rule making petitions.

There should be no decisions made, no orders implemented and no additional communities, groups or panels developed by non elected members of the state of Washington or anyone outside the state public or private.

The WAC 246-100-050 (-055) is disturbing with regards to current concerns and adding law enforcement is more disturbing.

Regarding RCW 43.20.050 with the wording "including but not limited to" in several places in the document, this is disturbing as well.

Could a discussion within this meeting address concerns in regards to the power of making and implementing decisions by non elected members of groups, committees or panels?

Thank-you

Richard Tawes

Subject: Oppose using WAC 246-100 for Covid

External Email

Hello,

I oppose using WAC 246-100 for any action on Washington State citizens for Covid. The statistics/data for Covid, especially the most recent omicron variant, do not support such a move by the Health Dept and the State. If it was decided to proceed with any action based on WAC 246-100, I would view it as an alarming overreach of government officials and the health department.

Thank you,
Sean Syverson

Current COVID-19 vaccinations have proven ineffective against transmission, illness, or hospitalization of the virus. Mandating this vaccine will harm the community who are unable to take the vaccine. The health department should not impose restrictions, and should not use force to impose medical procedures or isolation. I vehemently disapprove.

Dear Washington state board of health.

I am writing to voice my concerns about the policy's that will be introduced on the 1/13/22. My family has enjoyed the freedom in this country that our families have bravely fought to obtain. Historically speaking those who seek to limit the freedoms of others have not been on the correct side of history. WAC 246-100-170

WAC 246- 100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

Are direct threats to liberty. You derive your just power from the consent of the governed. Here in king County we may not eat out in public or attend any type of cultural show without proof of submission, how is this different than Europe at the start of WWII?

I expect this immoral conduct by the WSBOH to end by voting No.

Shana Masterson

I have a Masters degree in Pharmaceutical Engineering and have worked in the pharmaceutical industry since 2009. I also am a certified functional nutrition practitioner and have extensive training in nutrigenomics and autoimmune diseases.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

I'm writing in about the proposal to allow law enforcement to become involved in the detention of people who aren't in compliance with medical regulations.

11.

Are you Pro or Con on the proposal?

2. Con

Forcing medical examinations, testing, treatments and procedures of any kind is highly un-American. The history books are full of examples of when this hasn't gone well - from the Nazi regime to Tuskegee. Giving people access to vaccines, etc is one thing - forcing it is entirely another. I hope you will take the implications of what this enables seriously and turn down this proposal.

Common sense and free will of choice.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

The Immunization of the COVID-19 vaccine in our children in order to attend public school.

11.

Are you Pro or Con on the proposal?

2. Con

It is stressing enough having to be told to have a mandated vaccine in order to keep a job or position of status, against our will. Our personal choice will see fit for what is best for our individual self and our children. Having to have a mandate set in place on our own children whom we know best, is Sickening. Faith in a higher power and government is er quickly diminishing due to the fear of propaganda and political inappropriateness that is being brought to our state. To think that any higher power is proceeding a propaganda of what they see fit instead of the individual themselves seeking free choice on what works best for their own lives and body through commons sense and reasoning through reliable research, present doctors, pharmacist, professionals and history it's self. Again, I do not agree with mandating the COVID-19 vaccine for anyone who is not an acclaimed adult making their own decisions for their own body. I believe in free well and personal choice.

To whom this may concern, I will without a doubt pull both my kids from school! If it is indeed being forced and that we do not get a choice on whether we choose to give our children a vaccine that we have no info on, For kids ages 5 to 11. seriously back this up show us data the numbers make no sense. Also it's a vaccine that doesn't not stop the spread and it does not stop them from getting it. I hope when all is said and done you take into consideration the actual numbers . CDC has changed guidelines mask no mask they work they don't! The vaccine covers it it doesn't so many times can you blame anyone who doesn't trust what is being told to them. This vaccine has been recently released for EUA I do not feel the numbers back up what is trying to be enforced . Thanks for taking the time to read and I do hope at your meeting that all will be taken into consideration including how many kids will be taken out of public schools! Thank you.

To whom It May Concern;

I am the mother of 2 children in elementary school representing \$27,788.00 is revenue for my district.

I am a stay at home mom and was able to participate in remote learning during the previous school year, but sent my children in person this year because I believe in public school.

However, if the COVID vaccine is mandated for school attendance, I will remove my children from public school and they will not return.

I feel so strongly against it that I will support legislation or citizen action which would promote school choice and put the financial power over their children's education into the hands of parents.

Thank you for your time.

Sincerely,

Whitney Holz

Board:

I am a resident of Washington state for the last 61 years. I have raised two children in the public school system. I have a grand child who also attends a Washington school.

I am strictly opposed to vaccine mandates for All and especially for children. Children are incredibly healthy with a robust immune system. The data shows very few have even got covid nor died from it.

I OPPOSE the Boards formation of a TAG to review information about Covid 19 shots for consideration of mandating shots for school as I mentioned above.

I SUPPORT Informed Choice of Washington's Petition for Rulemaking which is item #11 on your agenda. This is critical for Phase 3 trial studies, to the school required list.

I appreciate your consideration to do the constitutionally correct thing for the people especially children.

I agree that there should be a rule made to exclude any policy that requires any product under the Emergency Authorization or an approved product and not cleared from stage 3 clinical trials.

This is common sense. It is for the good of all people including you and yours. Entering into a medical experiment should be voluntary with true informed consent meaning all the possible side effects have been conveyed to those who have the cognitive skills to understand the risks and only then should be administered. To force or coerce in any way a person into a medical experiment is felonious and against the Neurenberg Code. Yes 8 different felony acts will be committed each with up to 99years in federal prison and each with up to 100,000,000 dollars fine. Each person who votes to make policy with threat of not being able to have the rights and freedoms that our constitution affords will personally be committing these crimes.

Sincerely,
Tina Pilcher

Subject: PROPOSED COVID RULES RE DETAINED EMERGENCY

External Email

Hello,

I am responding to the topics of a meeting soon about adding more restrictions for COVID matters. These rules are insanely overreaching. There are risks with COVID obviously, but these rules are not justified constitutionally or otherwise. I know of persons who had valid reasons for not getting vaccinated that have not gotten the virus in 2 years now. But they are at risk from persons who got all the jabs but are sick under the new strain. Under the new strain few die, and those must have had other issues that contributed. Forcing children to be vaccinated is absurd when looking at their death and hospitalization rates. Herd immunity is how the virus will be controlled as best it can. These proposed rules prevent herd immunity, particularly from the new strain. These measures are clearly unconstitutional that I suspect the Attorney General knows. So, the plan is to do this and wait until the courts overrule it but jab as many as possible in the interim. You have no idea what these shots may cause in the future, particularly for children. THESE RULES MUST NOT BE PASSED!!

Historically, vaccines have been pulled after reported damage

At no other time in history have "vaccines" been created and distributed with such impunity.

The closest scenario occurred in 1976 when one young soldier died from a new form of flu that triggered fear and the subsequent development of a flu vaccine
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag%2Flong-shadow-1976-swine-flu-vaccine-fiasco-180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
aimed at 80% of the American public. While the World Health Organization (WHO) took a "wait and see" approach, the Centers for Disease Control and Prevention (CDC) jumped in with both feet.

It was a pandemic that never materialized and those who were the real victims were the roughly 450 people who developed

While the swine flu injection was pulled after 45 million shots were given when 53 people died

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> , the COVID-19 injection will have a different history.

According to data from the Vaccine Adverse Events Reporting System (VAERS), collected by the CDC and U.S. Food and Drug Administration (FDA), there have been 21,002 deaths recorded

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeaths-cdc-covid-vaccine-injuries-fda-pfizer-booster-kids%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> in conjunction with the COVID jabs as of Dec. 24, 2021

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> , 12 months after the first shot

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.washingtonpost.com%2Fhealth/covid-vaccines-new-york%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> was given in the U.S.

According to Bloomberg

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bloomberg.com%2Fgraphics/interactive/vaccine-tracker-global-distribution%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> , as of Dec. 23, 2021, there have been 499 million doses given in America.

It is difficult to compare these numbers since two of the three available COVID shots require a double shot, so there haven't been 497 million people vaccinated. Yet, the adverse events and deaths are also occurring after just one shot.

Taken at face value, the U.S. shut down the vaccination program in 1976 after 0.000117% of people died, while the VAERS estimate is that 0.00407% of people have died after a COVID injection (using Bloomberg's Dec. 21 dose numbers of 497 million).

In other words, based on the percentage of people who have died, 3,378% more died after the COVID injection than from the swine flu injection. There have been 965,841 adverse events reported, including permanent disabilities and heart attacks in young people

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeaths-moderna-pfizer-covid-vaccine-teens-myocarditis%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> . And yet, stakeholders in the shot insist the next generation of Americans must take it.

Pfizer announced youngest kids not responding to the shot

Pfizer has been working on a clinical trial

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2Fstudy%2Fclinical-trial-pfizer-covid-19-vaccine-in-the-youngest-kids%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> to evaluate the safety of the mRNA jab in healthy children, intending to create a dose for children 6 months and older. Endpoints reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>

One mother and epidemiologist, Katelyn Jetelina, wrote

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fyourlocalepidemiologist.substack.com/p/did-the-pfizer-young-kids-trial&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>>
she finds comfort that the clinical trial found errors and was surprised when it failed. She wrote
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fyourlocalepidemiologist.substack.com/p/did-the-pfizer-young-kids-trial&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>>
:

"As a mom, I was shocked and heartbroken. My girls were so close to getting their shot. We've waited so long and really needed a win."

Children are not at risk from COVID

Despite low rates of infection and death, the American Academy of Pediatrics calls "vaccines our best hope to end the COVID-19 pandemic"

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fhealthychildren.org%2FEnglish%2Ftools%2Fask-the-pediatrician%2FPages%2Fwhen-can-children-get-the-COVID-19-vaccine.aspx&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>>
." However, we do know that the risk to children birth to 17 years is so small as to be inconsequential.

The CDC reports

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fncchs%2Fnvss%2F2020%2Fdata-tables%2F1a%2Ftable_1a_01.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
a total number of deaths in 2020 and 2021 from COVID-19 in this age group as 668 as of Dec. 23, 2021. One study
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle%2Frsos.2106896%2Fv1&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>>

casualties.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstevekirsch.substack.com%2Fp%2Fnow-killed-close-to-twice-as-many-people-died-from-the-vaccine-in-vaers-data-ending-dec.-3-2021-using-the-urf-of-41-and-the-data-kirsch-took-from-vaers-and-the-cdc-this-suggests-there-have-been-1312-deaths-that-were-caused-by-the-injection-as-compared-to-the-757-deaths-caused-by-the-illness>

ending Dec. 10, 2021, we can estimate there are likely 39,599,481 adverse events and 830,004 deaths caused by the injection.

, is 807,787. This means the shot possibly has killed more children and adults than the

virus, and in less time.

Additionally, when you look at the data from the CDC

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpub%2Fpub_2021%2Ftables%2Ftable_0601.html, you note that there were 36,931 more deaths recorded in 2021 after the release of the vaccine than in 2020 when the illness first emerged from Wuhan.

Although WHO didn't declare the pandemic until March 2020, the U.S. has reclassified

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.livescience.com%2Ffirst-us-covid-19-death-january-2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0> deaths before that, finding the first from COVID happened Jan. 9, 2020.

Vaccinating children for herd immunity is unethical

Despite the readily available data, the American Academy of Pediatrics, CDC, FDA and others continue to call for vaccination in the most vulnerable in the population: our children. Their developing immune system and inability to protect themselves create a vulnerability that opens them up to unfathomable damage.

Sadly, medical professionals who express their concern are roundly ignored, despite the growing number of those health care professionals who are stepping forward. Among them is cardiac surgeon and patient advocate Dr. Hooman Noorchashm, who sent a public letter

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcitizenwells.substack.com%2Fp%2Fletter-of-warning-to-fda-and-pfizer&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217>>
to the FDA commissioner in January 2021.

In it, he detailed the risks of vaccinating individuals who have previously been infected with SARS-CoV-2, or who have an active SARS-CoV-2 infection. It was subsequently removed

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fnoorchashm.medium.com%2Fpublic-letter-to-fda-commissioner-dr-c2728667c0bb&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C from Medium.com.

Immunologist Dr. Bart Classen also warned in early 2021 there is troubling evidence suggesting some mRNA shots may cause prion diseases

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fscivisionpub.com%2Fpdfs%2Fconvrna-based-vaccines-and-the-risk-of-prion-disease-1503.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e> such as Alzheimer's and ALS, and Dr. J. Patrick Whelan, a pediatric rheumatologist specializing in multisystem inflammatory syndrome, has expressed concern about mRNA shots' ability to cause

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fwp-content%2Fuploads%2FWhelan-FDA-letter-re-EAU-Pfizer-.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
"microvascular injury to the brain, heart, liver and kidneys in a way that is not currently being assessed in safety trials."

Health officials are telling parents that children should be vaccinated for the sake of herd immunity. What is largely ignored are the studies that show children are not driving the pandemic and, in fact, appear less likely

19-Transmission-and-Children-The-Child-Is&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264 to transmit the virus than adults. Children's Health Defense, The Defender notes

"In short, public health leaders say, parents must 'vaccinate the young to protect the old.' Given the federal government's estimate that one vaccine injury results from every 39 vaccines administered, it seems clear that officials expect children to shoulder 100% of the risks of COVID vaccination in exchange for zero benefit."

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-19-vaccine-adverse-events&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>

data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172
, 12 months after the first shot
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.washingtonpost.com%2Fnat-covid-vaccines-new-york%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
was given in the U.S.

According to Bloomberg
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bloomberg.com%2Fgraphics-vaccine-tracker-global-distribution%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
, as of Dec. 23, 2021, there have been 499 million doses given in America.

It is difficult to compare these numbers since two of the three available COVID shots require a double shot, so there haven't been 497 million people vaccinated. Yet, the adverse events and deaths are also occurring after just one shot.

Taken at face value, the U.S. shut down the vaccination program in 1976 after 0.000117% of people died, while the VAERS estimate is that 0.00407% of people have died after a COVID injection (using Bloomberg's Dec. 21 dose numbers of 497 million).

In other words, based on the percentage of people who have died, 3,378% more died after the COVID injection than from the swine flu injection. There have been 965,841 adverse events reported, including permanent disabilities and heart attacks in young people
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-moderna-pfizer-covid-vaccine-teens-myocarditis%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
. And yet, stakeholders in the shot insist the next generation of Americans must take it.

Pfizer announced youngest kids not responding to the shot

Pfizer has been working on a clinical trial
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
to evaluate the safety of the mRNA jab in healthy children, intending to create a dose for children 6 months and older. Endpoints reports
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline-farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
Pfizer recently announced "non-inferiority was not met for children between the ages of 2 and 5 when compared to older teenagers in the current trial."

Originally, the company hoped to apply for an emergency use authorization (EUA) for the youngest by the end of December 2021. However, since the data have not proven successful, they hope to submit for the EUA "in the first half of 2022

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline-farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
," one short year after starting the experiment.

The company said
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.pfizer.com%2Fnews%2Fpress-release%2Fpress-release-detail%2Fpfizer-and-biontech-provide-update-ongoing-studies-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
it has made a shift to giving three doses in smaller amounts to raise the immune

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeaths/&data=04%7C01%7Cwsboh%40soh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11c

and the only area where the public can voluntarily report adverse events, including death.

The VAERS document

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2FuploadFile%2F>
is long and time-consuming, and while much of the information is necessary, the form
can easily become overwhelming when doctors have multiple patients with adverse
events

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.catholicworldreport.com%2Fblow-the-whistle-on-vaccine-deaths-and-injuries%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>
from the COVID-19 shot.

Several factors likely contribute to the URF, including the length of the form, lack of
knowledge of the system and a growing physician shortage

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.aamc.org%2Fnews-insights%2Fus-physician-shortage-growing&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>
.

One investigative team updated the URF

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2Fcvd%2Fdeaths-in-november-2021>
in November 2021. The original number had been set in an early grant report submitted
by the U.S. Department of Health and Human Services, stating
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fimages%2F18-lazarus-final-report-20116.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>
"fewer than 1% of vaccine adverse events are reported."

Using an engineering analysis of the available data and judgment based on peer-
reviewed literature and expertise of the scientists, a URF of 41

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2Fcvd%2Fdeaths-in-november-2021>
was determined.

One of the paper's writers, Steve Kirsch, recognized the URF would affect the number of
children who died after taking the vaccine versus the number who have died from the
illness. He used CDC data ending Dec. 8, 2021, which showed 757 children younger than
18 were casualties of COVID-19. As of Dec. 22, 2021, that number had grown to 790

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCHS%2FProvisional-COVID-19-Deaths-Focus-on-Ages-0-18-Years&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>
casualties.

He then found 32 deaths

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstevekirsch.substack.com%2Fposts%2Fnow-killed-close-to-twice-as-many-children-as&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>
from the vaccine in VAERS data ending Dec. 3, 2021. Using the URF of 41 and the data
Kirsch took from VAERS and the CDC, this suggests there have been 1,312 deaths that
likely were caused by the injection as compared to the 757 deaths caused by the illness.

If you do the math, this means the shot has killed roughly 173% more children than the
illness.

Using the same URF of 41 and the VAERS data

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcvd%2Fdeaths-in-november-2021&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>
ending Dec. 10, 2021, we can estimate there are likely 39,599,481 adverse events and
830,004 deaths caused by the injection.

This is vitally important as the total number of deaths recorded for COVID-19 as of Dec. 22, 2021

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpub%2Fpub_008%2Fpub_008_016.pdf, is 807,787. This means the shot possibly has killed more children and adults than the virus, and in less time.

Additionally, when you look at the data from the CDC

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpubl%2Fpub_2021%2Fpub_2021_06%2Fpub_2021_06_08%2Fpub_2021_06_08_01.htm)
 , you note that there were 36,931 more deaths recorded in 2021 after the release of the
 vaccine than in 2020 when the illness first emerged from Wuhan.

Although WHO didn't declare the pandemic until March 2020, the U.S. has reclassified

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.livescience.com%2Ffirst-us-covid-19-death-january-2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0> deaths before that, finding the first from COVID happened Jan. 9, 2020.

Vaccinating children for herd immunity is unethical

Despite the readily available data, the American Academy of Pediatrics, CDC, FDA and others continue to call for vaccination in the most vulnerable in the population: our children. Their developing immune system and inability to protect themselves create a vulnerability that opens them up to unfathomable damage.

Sadly, medical professionals who express their concern are roundly ignored, despite the growing number of those health care professionals who are stepping forward. Among them is cardiac surgeon and patient advocate Dr. Hooman Noorhashm, who sent a public letter

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcitizenwells.substack.com%2Fp%2Fletter-of-warning-to-fda-and-pfizer&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217>>
to the FDA commissioner in January 2021.

In it, he detailed the risks of vaccinating individuals who have previously been infected with SARS-CoV-2, or who have an active SARS-CoV-2 infection. It was subsequently removed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fnoorchashm.medium.com%2Fpublic-letter-to-fda-commissioner-dr-c2728667c0bb&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C>
from Medium.com.

Immunologist Dr. Bart Classen also warned in early 2021 there is troubling evidence suggesting some mRNA shots may cause prion diseases

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fscivisionpub.com%2Fpdfs%2Fconvrna-based-vaccines-and-the-risk-of-prion-disease-1503.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e>
such as Alzheimer's and ALS, and Dr. J. Patrick Whelan, a pediatric rheumatologist specializing in multisystem inflammatory syndrome, has expressed concern about mRNA shots' ability to cause

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fwp-content%2Fuploads%2FWhelan-FDA-letter-re-EAU-Pfizer-.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
"microvascular injury to the brain, heart, liver and kidneys in a way that is not currently being assessed in safety trials."

Health officials are telling parents that children should be vaccinated for the sake of herd immunity. What is largely ignored are the studies that show children are not driving the pandemic and, in fact, appear less likely

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpublications.aap.org%2Fpediatrics-19-Transmission-and-Children-The-Child-Is&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264> to transmit the virus than adults. Children's Health Defense, The Defender notes
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-immunity-myth-covid-vaccines-kids-deceptive-dangerous%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264>
:

"In short, public health leaders say, parents must 'vaccinate the young to protect the old.' Given the federal government's estimate that one vaccine injury results from every 39 vaccines administered, it seems clear that officials expect children to shoulder 100% of the risks of COVID vaccination in exchange for zero benefit."

An opinion piece in The BMJ

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F09-19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264> by Peter Doshi, Elia Abi-Jaoude and Claudina Michal-Teitelbaum highlight why we must not force children to take the COVID shot simply because it might help vulnerable adults. They write
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F09-19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264>
:

"Even if we were to assume this protection does exist, the number of children that would need to be vaccinated to protect just one adult from a bout of severe covid-19 — considering the low transmission rates, the high proportion of children already being post-covid, and most adults being vaccinated or post-covid — would be extraordinarily high.

"Moreover, this number would likely compare unfavorably to the number of children that would be harmed, including for rare serious events. A separate, but crucial question is one of ethics. Should society be considering vaccinating children, subjecting them to any risk, not for the purpose of benefiting them but in order to protect adults? We believe the onus is on adults to protect themselves."

Doshi was even more blunt in his June 10, 2021, public comment

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.youtube.com%2Fwatch%3Fv=to-the-FDA-s-Vaccines-and-Related-Biological-Products-Advisory-Committee-There-he-pointed-out-that-the-FDA-can-only-authorize-the-use-of-a-medical-product-in-a-population-if-the-benefit-outweighs-the-risk-in-that-same-population> to the FDA's Vaccines and Related Biological Products Advisory Committee. There, he pointed out that the FDA can only authorize the use of a medical product in a population if the benefit outweighs the risk in that same population.

This means that even if adults were to benefit, the COVID shots cannot be authorized for children unless children will actually benefit from it themselves. In the case of COVID-19 injections, children cannot benefit, seeing how they only have a 0.005% risk of death in the first place.

Healthy children have died shortly after the jabs and dozens of cases of heart inflammation have been reported.

Since when, in the history of public health, have children been sacrificed to protect the sick and elderly? Public health authorities have completely reversed the conventional risk/reward analysis. Historically, vaccines have been pulled after reported damage

At no other time in history have "vaccines" been created and distributed with such impunity.

The closest scenario occurred in 1976 when one young soldier died from a new form of flu that triggered fear and the subsequent development of a flu vaccine
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag-news%2Flong-shadow-1976-swine-flu-vaccine-fiasco-180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
aimed at 80% of the American public. While the World Health Organization (WHO) took a “wait and see” approach, the Centers for Disease Control and Prevention (CDC) jumped in with both feet.

It was a pandemic that never materialized and those who were the real victims were the roughly 450 people who developed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdepression-safety-review-eu-regulators-pfizer-moderna-astrazeneca-more-data%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
Guillain-Barre syndrome

, a rare neurological disorder, and the roughly 53

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
who died from the vaccine.

The rush to produce the newest vaccine iteration ostensibly began in early 2020 after the WHO announced SARS-CoV-2 would produce a worldwide pandemic

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ncbi.nlm.nih.gov%2Fpubmed%2F32328738&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
and an early, flawed mathematical model

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cato.org%2Fblog%2Fhow-one-model-simulated-22-million-us-deaths-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
predicted millions of deaths in America. Yet, this was not a medical product that fit the definition of a “vaccine.”

It was something never heard of before in vaccinology, based on an experimental mRNA technology that triggers your body to produce a spike protein

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdepression-vaccine-spike-protein-travels-from-injection-site-organ-damage%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
. It was so new, in fact, that the CDC decided the definition of “vaccine” had to be changed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.citizensjournal.us%2Fthe-cdc-suddenly-changes-the-definition-of-vaccine-and-vaccination%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
and scientists were unsure of how the body would react to the genetic therapy injection.

While the swine flu injection was pulled after 45 million shots were given when 53 people died

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>
, the COVID-19 injection will have a different history.

According to data from the Vaccine Adverse Events Reporting System (VAERS), collected by the CDC and U.S. Food and Drug Administration (FDA), there have been 21,002 deaths recorded

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdepression-safety-review-eu-regulators-pfizer-moderna-astrazeneca-more-data%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726>>

cdc-covid-vaccine-injuries-fda-pfizer-booster-

kids%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172 in conjunction with the COVID jabs as of Dec. 24, 2021

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>, 12 months after the first shot

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.washingtonpost.com%2Fna-covid-vaccines-new-york%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> was given in the U.S.

According to Bloomberg

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bloomberg.com%2Fgraphics-vaccine-tracker-global-distribution%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>, as of Dec. 23, 2021, there have been 499 million doses given in America.

It is difficult to compare these numbers since two of the three available COVID shots require a double shot, so there haven't been 497 million people vaccinated. Yet, the adverse events and deaths are also occurring after just one shot.

Taken at face value, the U.S. shut down the vaccination program in 1976 after 0.000117% of people died, while the VAERS estimate is that 0.00407% of people have died after a COVID injection (using Bloomberg's Dec. 21 dose numbers of 497 million).

In other words, based on the percentage of people who have died, 3,378% more died after the COVID injection than from the swine flu injection. There have been 965,841 adverse events reported, including permanent disabilities and heart attacks in young people

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-moderna-pfizer-covid-vaccine-teens-myocarditis%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>. And yet, stakeholders in the shot insist the next generation of Americans must take it.

Pfizer announced youngest kids not responding to the shot

Pfizer has been working on a clinical trial

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> to evaluate the safety of the mRNA jab in healthy children, intending to create a dose for children 6 months and older. Endpoints reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline-farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>

Pfizer recently announced "non-inferiority was not met for children between the ages of 2 and 5 when compared to older teenagers in the current trial."

Originally, the company hoped to apply for an emergency use authorization (EUA) for the youngest by the end of December 2021. However, since the data have not proven successful, they hope to submit for the EUA "in the first half of 2022

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline-farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>

," one short year after starting the experiment.

The company said

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.pfizer.com%2Fnews%2Fpress-releases%2Fpfizer-announces-covid-19-vaccine-trial-for-children-ages-2-to-5>

19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e21726

it has made a shift to giving three doses in smaller amounts to raise the immune

“Compared to the 16- to 25-year-old population in which high efficacy was demonstrated, non-inferiority was met for the 6- to 24-month-old population but not for the 2- to under 5-year-old population in this analysis ...

“The decision to evaluate a third dose of 3 µg for children 6 months to under 5 years of age reflects the companies’ commitment to carefully select the right dose to maximize the risk-benefit profile ...

"Pfizer and BioNTech also plan to evaluate a third dose of the 10 µg formulation in children 5 to under 12 years of age."

If the two-dose regimen makes the changes to the immune system in the 6- to 24-months group and 5- to 12-year age groups that the company is looking for, why move to a three-dose regimen for them if not for financial gain?

Pfizer pushing the envelope with a phase 1-2-3 trial

It is important to note that the trial is listed in Clinical Trials

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2Fstudy%2FNCT01768972&data=04%7C01%7C6A2B45D6-EE41-4E91-A00A-601FA0BB9000%40Microsoft.Com>
as a phase 1-2-3 study. Phase 1 trials are generally concerned

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmed.uc.edu%2Fdepart%2Fpsychiatry%2Fresearch%2Fcrim%2Ftrial-phases-1-2-3->

defined&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2

with establishing drug safety and dose range in a small number of healthy volunteers.

Phase 2 trials determine the effectiveness of the drug using approximately 100 to 300 volunteers and often last from several months to two years.

Phase 3 studies are the final evaluation performed over multiple centers with up to several thousand patients to test the drug safety and efficacy. A search of the Clinical Trials database shows only one study

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fresult>
2-

3&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264

in several hundred thousand studies listed that are simultaneously in Phase 1, 2 and 3.

But not all parents and scientists are appalled by the experimentation on 6-month-old babies in the face of massive adverse events and permanent damage to adults.

One mother and epidemiologist, Katelyn Jetelina, wrote

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fyourlocalepidemiologist.substack.com/p/did-the-pfizer-young-kids->

trial&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172

she finds comfort that the clinical trial found errors and was surprised when it failed. She wrote

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fyourlocalepidemiologist.substack.com/p/did-the-pfizer-young-kids->

trial&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172

■

■

"As a mom, I was shocked and heartbroken. My girls were so close to getting their shot.

We've waited so long and really needed a win."

Children are not at risk from COVID

Despite low rates of infection and death, the American Academy of Pediatrics calls "vaccines our best hope to end the COVID-19 pandemic"

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fhealthychildren.org%2FEnglish%2Ftools%2Fask-the-pediatrician%2FPages%2Fwhen-can-children-get-the-COVID-19-vaccine.aspx&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11>.” However, we do know that the risk to children birth to 17 years is so small as to be inconsequential.

The CDC reports

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpub%2Fpub_2020%2Fpub_2020_06%2Fpub_2020_06_001.pdf
a total number of deaths in 2020 and 2021 from COVID-19 in this age group as 668 as of
Dec. 23, 2021. One study

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/689684%2Fv1&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C>
posted July 7, 2021, looked at deaths in the U.K. during the first 12 months of the
pandemic and found that 99.995% of children survived.

Between March 2020 and February 2021 only 25 children under the age of 18 had died in the U.K. as a direct result of the infection. The researchers found there were 61 children with positive test results, but 36 deaths were attributed to other causes. This is a 2-in-1 million

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle%2F689684%2Fv1&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C>
absolute mortality rate for children.

More children have died from the shot than the illness

To compare the number of deaths from COVID illness against those who have died from the genetic therapy injection, we must address the known under-reporting factor (URF) in VAERS

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2Freportevent.htm>
, which is a passive reporting system

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdoctors-scientists-brian-hooker-jessica-rose-vaers-system%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11c> and the only area where the public can voluntarily report adverse events, including death.

The VAERS document

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2FuploadFile%2F> is long and time-consuming, and while much of the information is necessary, the form can easily become overwhelming when doctors have multiple patients with adverse events

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.catholicworldreport.com%2Fblow-the-whistle-on-vaccine-deaths-and-injuries%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11>
from the COVID-19 shot.

Several factors likely contribute to the URF, including the length of the form, lack of knowledge of the system and a growing physician shortage

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.aamc.org%2Fnews-insights%2Fus-physician-shortage-growing&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2>

•

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2F covid%2FDe>
in November 2021. The original number had been set in an early grant report submitted
by the U.S. Department of Health and Human Services, stating

"fewer than 1% of vaccine adverse events are reported."

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2F covid%2FDe>
was determined.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCHS%2FProvisiCOVID-19-Deaths-Focus-on-Ages-0-18-Yea%2Fnr4s-juj3&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172casualties>.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstevekirsch.substack.com%2Fp%2Fnow-killed-close-to-twice-as-many-people-died-from-the-vaccine-in-vaers-data-ending-dec.-3-2021-using-the-urf-of-41-and-the-data-kirsch-took-from-vaers-and-the-cdc-this-suggests-there-have-been-1312-deaths-that-were-caused-by-the-injection-as-compared-to-the-757-deaths-caused-by-the-illness>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F covid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172> ending Dec. 10, 2021, we can estimate there are likely 39,599,481 adverse events and 830,004 deaths caused by the injection.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpub%2Fpub_2019%2Fpub_2019_068.html, is 807,787. This means the shot possibly has killed more children and adults than the virus, and in less time.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss/>, you note that there were 36,931 more deaths recorded in 2021 after the release of the vaccine than in 2020 when the illness first emerged from Wuhan.

Although WHO didn't declare the pandemic until March 2020, the CDC has reassigned <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.livescience.com%2Ffirst-us-covid-19-death-january-2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0>> deaths before that, finding the first from COVID happened Jan. 9, 2020.

Vaccinating children for herd immunity is unethical

Despite the readily available data, the American Academy of Pediatrics, CDC, FDA and others continue to call for vaccination in the most vulnerable in the population: our children. Their developing immune system and inability to protect themselves create a vulnerability that opens them up to unfathomable damage.

Sadly, medical professionals who express their concern are roundly ignored, despite the growing number of those health care professionals who are stepping forward. Among them is cardiac surgeon and patient advocate Dr. Hooman Noorchashm, who sent a public letter

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcitizenwells.substack.com%2Fp%2Fletter-of-warning-to-fda-and-pfizer&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217>>
to the FDA commissioner in January 2021.

In it, he detailed the risks of vaccinating individuals who have previously been infected with SARS-CoV-2, or who have an active SARS-CoV-2 infection. It was subsequently removed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fnoorchashm.medium.com%2Fpublic-letter-to-fda-commissioner-dr-c2728667c0bb&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7Cfrom%2FMedium.com>

Immunologist Dr. Bart Classen also warned in early 2021 there is troubling evidence suggesting some mRNA shots may cause prion diseases

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fscivisionpub.com%2Fpdfs%2Fcov-rna-based-vaccines-and-the-risk-of-prion-disease-1503.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e>
such as Alzheimer's and ALS, and Dr. J. Patrick Whelan, a pediatric rheumatologist specializing in multisystem inflammatory syndrome, has expressed concern about mRNA shots' ability to cause

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fwp-content%2Fuploads%2FWhelan-FDA-letter-re-EAU-Pfizer-.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e2172>
"microvascular injury to the brain, heart, liver and kidneys in a way that is not currently
being assessed in safety trials."

Health officials are telling parents that children should be vaccinated for the sake of herd immunity. What is largely ignored are the studies that show children are not driving the pandemic and, in fact, appear less likely

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpublications.aap.org%2Fpediatrics.19-Transmission-and-Children-The-Child-Is&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264> to transmit the virus than adults. Children's Health Defense, The Defender notes
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-immunity-myth-covid-vaccines-kids-deceptive-dangerous%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11d0e217264>
:

"In short, public health leaders say, parents must 'vaccinate the young to protect the old.' Given the federal government's estimate that one vaccine injury results from every 39 vaccines administered, it seems clear that officials expect children to shoulder 100% of the risks of COVID vaccination in exchange for zero benefit."

An opinion piece in The BMJ

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11>>
by Peter Doshi, Elia Abi-Jaoude and Claudina Michal-Teitelbaum highlight why we must not force children to take the COVID shot simply because it might help vulnerable adults.

They write

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6effa0e0fa1a486ca6a708d9d243f976%7C11>>
:

“Even if we were to assume this protection does exist, the number of children that would need to be vaccinated to protect just one adult from a bout of severe covid-19 — considering the low transmission rates, the high proportion of children already being post-covid, and most adults being vaccinated or post-covid — would be extraordinarily high.

“Moreover, this number would likely compare unfavorably to the number of children that would be harmed, including for rare serious events. A separate, but crucial question is one of ethics. Should society be considering vaccinating children, subjecting them to any risk, not for the purpose of benefiting them but in order to protect adults? We believe the onus is on adults to protect themselves.”

Doshi was even more blunt in his June 10, 2021, public comment

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.youtube.com%2Fwatch%3Fv=to-the-FDA-s-Vaccines-and-Related-Biological-Products-Advisory-Committee>>. There, he pointed out that the FDA can only authorize the use of a medical product in a population if the benefit outweighs the risk in that same population.

This means that even if adults were to benefit, the COVID shots cannot be authorized for children unless children will actually benefit from it themselves. In the case of COVID-19 injections, children cannot benefit, seeing how they only have a 0.005% risk of death in the first place.

Healthy children have died shortly after the jabs and dozens of cases of heart inflammation have been reported.

Since when, in the history of public health, have children been sacrificed to protect the sick and elderly? Public health authorities have completely reversed the conventional risk/reward analysis.v

What happened to we the people have control of our health and that of our children! You are clearly not thinking about nor do you care about our children nor our medical freedom! Shame on all of you for pushing a vaccine that first of all does not prevent Covid and can harm children more than the virus. How much money are you getting to push this vaccine! Stop and think folks that even your freedoms are being removed!! Stand up for we the people! Stand up for what is right! Say NO!!

1.

State Board of Health Meeting Date:

January 12

2.

Agenda Item or Issue:

Covid shots for kids

3.

Your Name:

Debbie

4.

Do you have a professional title?

2. No

5.

Are you representing an organization?

2. No

6.

Address:

7.

Email:

8.

Phone Number (Include Area Code):

9.

Do you have any special expertise relevant to this topic?

1. Yes

I am a certified teacher. I know parents who don't send their kids to school because of shots. Let's not turn away more students.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

Covid shots should not be required to attend school for children or teachers. They are new and experimental. All other shots were tested for years before the state adopted them to recommend.

11.

Are you Pro or Con on the proposal?

2. Con

Other immunization shots were never adopted to be recommended until years after they were tried. This is still in experimental phases. Furthermore, this disease does not seem to be serious for most kids. Please do not force even more parents to quit public schools. So many have left already. Leave this decision to the families and their doctors.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

1. In Germany, only one child has died of Covid19. Children do not respond to the VIRUS like adults, and the elderly. Children have very little reaction to Covid 19.
2. Dr. Robert Malone, the world-renowned virologist who invented the mRNA technology behind both the Pfizer and Moderna vaccines says that children should not receive the vaccine.
3. Bottom line has always been: the common cold is a virus. Coronavirus 19 is a virus. You cannot vaccinate against a virus. The vaccine has not stopped the virus!

What are you trying to do?

Respectfully,
Stephen Howe

This is not a vaccine like any other. It does not prevent the disease, and has lots of other detrimental aspects (I know what ingredients it contains). The creator of it himself (Dr Malone) is clearly saying it should not be administered. How more scientific can that be??? He would not know??? And it is a lie that non vaxed people are spreading it. What about the shedding all vaxed people do? The agenda is known.

To Whom it May Concern,

I am firmly against adding the Covid 19 vaccines and boosters to the list of mandatory vaccines for children simply because, unlike the other vaccines which reliably prevent the spread of diseases like typhoid, polio, chicken pox, and small pox, people who have received the Covid vaccine have still become infected with the disease, can still infect others with the disease, and can still ultimately die from COVID 19. Until the success rate and effectiveness of the vaccine reaches that of those other vaccines which are already mandatory, I cannot in good conscience support subjecting our children to the potential harm the vaccine can cause for such an unreliable result.

Sincerely,

Thomas Kritch

I having been a resident of this state since birth find what is being proposed deplorable. Everything that Jay Inslee and your department are planning to do is against The Nuremberg Code and against the God given free will and choice. This is a free country controlled by the U. S. Constitution, not to mention our own state's constitution.

All of you should be ashamed of yourselves. There hasn't been a cure for the Flu, Cancer, Heart Disease, Mental Illness or anything else; not to mention the fore-mentioned illnesses or diseases has never caused this state or country to imprison the population in the past.

All of those thinking about doing this need to be jailed and the state health department, Inslee and anyone needs to be sued into bankruptcy.

Subject: Input for the Advisory Group to Consider COVID-19 for Inclusion in chapter 246-105 WAC

External Email

Dear Staff and Committee members,

I'm writing to provide input for the Advisory Group to Consider COVID-19 for Inclusion in chapter 246-105 WAC. I was on the 12/29 webinar, and learned this was the optimal way to provide input.

In summary, the purpose of 246-105 WAC is to "protect children and the public against vaccine preventable diseases." Because nothing (including mRNA technologies) has been proven to prevent COVID, there is currently no known medically accepted determination of someone who is "immune" to COVID, and the measures currently considered to decrease transmission or disease severity have known harms and questionable benefit for many children, COVID should not be included in 246-105 WAC.

I am a Washington resident and father of school-aged children. I am also a pharmacist licensed in several states and trained in drug information and evidence-based medicine who has developed and has overseen medication coverage policy recommendations for millions of Americans, including Washingtonians. I have over 20 years of practice experience, developing algorithms and methodologies to predict the performance of medications - including patented processes used to advise health plans, consumers and pharmacy benefit managers. I co-founded a company called MedSavvy, and previously advocated for restrictions on the use of opioids in chronic non-cancer pain, unproven cancer medications, and several other risky medications prior to their FDA approval being withdrawn because they were later found to have safety concerns that outweighed their clinical benefit. I am applying similar methodologies to the question of whether COVID mRNA technologies (COVID "vaccines") are safe and effective in children, and I have serious concerns. I recommend that COVID mRNA technologies are NOT considered necessary for children to attend school. I do not believe that the benefits outweigh the risks in all school-age children, and a "one-size fits all" requirement for vaccination will do more harm than good.

1) There are emerging safety signals caused by mRNA technologies in adolescent boys and girls.

Known risks for boys:

It is now clear that the occurrence of myocarditis is even GREATER in men <40 years old from the second dose of mRNA1273 than the risk of myocarditis from COVID.

<https://www.nature.com/articles/s41591-021-01630-0>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nature.com%2Farticles%2Fs41591-021-01630-0&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Cee1d12df42874027e6bf08d9d24720fc%7C11d0e21726>

0&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Cee1d12df42874027e6bf08d9d24720fc%7C11d0e21726

In this same article, it is clear that the excess events occur more commonly with the

second dose for both the Pfizer and Moderna products, calling into question whether

there is accumulating toxicity. A recent additional analyses by Kaiser Permanente

Northwest <https://www.medrxiv.org/content/10.1101/2021.12.21.21268209v1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F10.1101%2F2021.12.21.21268209v1>

confirms this finding, and further describes the increased risk being driven by young men

and boys who are under 24 years old concluding that "The true incidence of

myopericarditis is markedly higher than the incidence reported to US advisory

committees."

Known risks for girls:

Emerging evidence is now being published that describes changes in menstruation.

Indeed, prior to published reports, several women and girls in my family reported these

changes - yet there is almost no evidence published in PubMed. Only in October of 2021

was this phenomenon recognized important enough to be studied.

cycle&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Cee1d12df42874027e6bf08d9d24720fc%7C11d0e21726

Changes to menstrual cycles in girls, and uniquely elevated myocarditis events in boys and young men, suggest that mRNA COVID technologies indeed have some impact on the sexual aspects of humans - the impacts on long-term reproductive health and fertility are unknown, and currently unknowable because these products have only been available for use in children for a lesser amount of time than it takes for a human to be formed in the womb.

Additional unknown risks:

These new mRNA technologies have only been available for use in humans for less than 2 years, and only one product recently got FDA approval. There is a very real possibility of

harms that have not been yet recognized due to a variety of factors including reporting

biases or confounding harms potentially being attributed to the COVID pandemic itself.

The presence of these emerging harms should give us pause to question whether enough

time has passed to even identify emerging harms. Although COVID mRNA technologies

have been used in millions of people (large exposure), less than one year (short

exposure time) has passed to determine whether there is any known impact of these

technologies on biologic processes that may take years - including development, fertility,

or malignancy risk. There is no understanding of the long term impacts on immune

response, for example, which may take years to unmask. These technologies have been

used in most children for only a matter of months. Reporting biases that potentially

underreport harms from these products are very real, because of the level of promotion

of these mRNA products has never been seen before in our lifetime, because affected

persons do not often have an easy way to report adverse events, and frankly,

overwhelmed health care providers don't want to hear them.

It is important to note we do not even have a clear understanding of what it means to be “vaccinated” with these mRNA technologies. Only a few months ago, full vaccination was considered 2 doses, as the Pfizer prescribing information describes as of this writing - and the Moderna product is not even FDA approved. As of this writing, the FDA and CDC are considering that boosters may be needed by some persons. We do not know the effects of repeatedly flooding a child’s body with the spike protein analogues or the extent with which they interact with the child’s ACE2 receptors. We do see potentially accumulating harms with repeated doses, as in the myocarditis data. We do not understand the impact of repeated immune stimulation by a particular spike protein antigen, or sustained supra-physiologic levels of antibodies (that otherwise would be down regulated post infection or conventional vaccination). Does this artificial shift in immune response lead to an increase in autoimmune reactions; or weakened immune responses to other infectious threats, including infection or malignancy? There are no data to answer these questions, and few people have thought to ask them yet.

2) The risk of harm from COVID infection is poorly characterized; and therefore, the benefits of vaccination of some children are unclear

Not all children may need to be vaccinated from COVID. (There may be absolutely no measureable clinically meaningful benefit from administering mRNA technologies to healthy, non-obese children; especially those who have previously experienced COVID).

- Children are known to be less effected by SARS-CoV-2 compared to adults, and far less likely to experience harm than elderly adults.

- Hospitalization or mortality data that adequately describe children hospitalized from COVID are confounded with data that describes children hospitalized with COVID. This makes any description of numbers needed to treat very difficult to come by.

- To my knowledge, there is currently no evidence of mRNA technologies for the following:

- o Any clinically meaningful data (impact on hospitalization, death, transmission) for children who have been previously infected with SARS-CoV-2.

- o Any clinically meaningful data (impact on hospitalization, death, transmission) for non-obese children who have no known comorbidity (no asthma, diabetes, chronic lung disease, malignancies, cardiovascular diseases, etc) (Results seem to be driven by all-comers, and these sub-populations have not been characterized).

- o There is essentially no clinically meaningful evidence of efficacy of booster mRNA doses in children, despite FDA authorization and CDC support.

- o There is no clinically meaningful data for these technologies in children in emerging variants, such as Omicron, which appear to be even less harmful (despite being more infective). It is likely that new vaccines or new mRNA technologies will need to be developed, given the waning effectiveness of the current batch as evidenced by the exploding cases among fully-vaccinated persons.

3) mRNA technologies do not prevent transmission of the SARS-CoV-2 virus. Although they may decrease viral transmission when advanced statistical methods are applied to detect a very modest impact on differential rates of infection, it is well documented that vaccinated persons transmit SARS-CoV-2 and infect others. The overwhelming evidence for this is apparent as cases reach all-time-highs in our state, even among vaccinated

persons. Therefore, there can be no valid argument that vaccinating children (who themselves are not at risk from harm) will protect others. Vaccination can at best only provide a theoretical potential benefit to others. For this reason, it is unethical to risk known harms in a known child for a theoretical benefit in an unidentifiable person.

4) The risk of harms of these mRNA technologies appears to be constant or cumulative, yet the benefits are variable depending on many factors of the affected person, and seem to diminish over time (hence the requirement for repeated boosters in some persons). For this reason, mRNA technologies for SARS-CoV-2 ("COVID vaccines") are a highly personalized potential preventative experimental treatment. These therapies are medically inappropriate for some persons, and the formula to determine whether or not a child should receive them are complex, requiring sophisticated education and informed consent.

5) There are other effective therapeutics available. Vaccination with mRNA technologies is not the only therapy to mitigate COVID. Other emerging therapies including FDA-approved and "off-label" are increasingly recognized, diminishing the need to rush exposing additional children to this mRNA technology.

6) Finally, it is unknown if COVID "immunity" can be described in any absolute terms. Vaccinated or previously infected persons can become infected with COVID. There is no known reliable test to determine if a person has adequate antibodies or T cell capabilities to prevent future symptomatic infection or transmission of virus. This also makes it clear that COVID is inappropriate for inclusion in chapter 246-105 WAC.

In summary, the fact that these mRNA technologies have an unproven track record of safety and unknowable benefits in many children should exclude them or COVID from consideration of inclusion in chapter 246-105 WAC.

Please do not hesitate to contact me with any questions or if I can be of any assistance to the Board or Committee.

Thank you

I have been made aware of your intent to violate my rights as a human as well as those granted by the constitution of the United States in requiring an injection of an unproven ,let alone safe or effective substance to supposedly protect against an organism/ virus that has a 99.8% survival rate, while this same injection has been involved in the deaths of healthy individuals in the thousands.

What you're proposing is a clear violation of the Nuremberg code and I suggest you reconsider, lest you suffer similar consequences that those experienced in the Nuremberg trials.

I am AGAINST all Covid proposed policies that are IMMORAL! God gave us bodies that can make real change with every person taking responsibility of their own health before contracting a virus. Our immune system is built to beat Covid if we provide our bodies with what it actually needs rather than artificial immunity that has proven to fade immensely after a month. These policies are OVER REACH!

This is not America!!! Why now?!?!? This Omicron obviously spreads easier than the other variants but is way less deadly and that is a good thing because more people will be vaccinated against it naturally.

Why doesn't the health board try to push people to live healthier life styles??? Maybe The state should find incentives to help its residents lose weight and find healthier lifestyles. Maybe track peoples health weight/blood pressure/cholesterol because it's night and day if you are healthy Covid will likely be a typical flu or cold but could be life threatening if you are unhealthy....

When did Washington become a tyrannical government? Oh I know when King Inslee had a easy excuse to rule the state under this bullshit state of emergency that he has no plans on relinquishing!!!! It's time to stand up against him!!!

I don't believe the COVID vaccine should be required for children. The vaccine is not a vaccine. It's just like the flu shot which doesn't prevent you from getting it and doesn't prevent spreading it. The flu shot is not required. COVID is not severe in almost all children. If the vaccine actually prevented getting COVID or spreading it, then it would make sense to vaccinate them, but it doesn't.

Since the Covid 19 virus has never been isolated this is not a vaccine. True VAERS data shows too many serious, adverse effects and is underreported. Children have a 99.98% cure and survival rate. The "shots" are only approved for Emergency Use and only for 60 days. This is not an emergency and there are therapeutics so the whole thing is bogus. This is a violation of the Nuremburg Code, the US Constitution, the Geneva Convention, the UN Charter, the International Criminal Court and Title III of the US Civil Rights Act plus 1776 Common Law. ILLEGAL and punishable for those mandating this drug. It is not a vaccine. Most of us are on to you so STOP this insanity.

As a parent of two girls, I would like to express my strong opposition to a Covid vaccine mandate for young children. I am not anti-vax by any means but this particular treatment has too many concerns that DO NOT outweigh the potential protection offered by the vaccine. For the reasons below, I would oppose mandating the Covid vaccine for our children:

1. We do not truly know the long range issues from the vaccine. While most pharmaceuticals undergo eight to 10 years of study, this has been studied for less than a year in children.
2. The chance of serious illness in children is EXTREMELY low and does not warrant exposing them to an experimental vaccine. Once our children have been injected, they then become part of the pharmaceutical study for this experimental vaccine, with no choice and no recourse for adverse side effects. By mandating it, you could be sentencing an entire generation to unknown health repercussions for something with low efficacy and mortality.
3. Unlike other vaccines, the Covid vaccine DOES NOT stop or diminish the spread of the virus. You can still catch it and still pass it on, as seen by the rapidly increasing number of breakthrough cases.
4. Any other drug or therapeutic MUST have a list of potential side effects and precautions. Pfizer wants 70 YEARS to release this information. Why would you risk an entire generation of children to an industry reluctant to disclose health information relative to the safety of users?
5. Parents who want to vaccinate their children have the option, often at low or no cost.

For these reasons, I ask you to please consider the long-term health of our children rather than the current fear gripping the nation and DO NOT MANDATE Covid vaccines for our children.

Thank you for your consideration.

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense ([childrenshealthdefense.org](https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Rubin, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org)

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

2. Con

Parents need to be the decision makers for young kids not the state or Government!
Americans deserve the right to choose what they do with their body and mind and not be forced under any circumstances. Especially when RDNA vaccines tell your body what to fight and not fight. My kids beliefs, religious freedom and God givin rights will not be compromised. God Bless

To whom it may concern:

I want to publicly say that I 100% support everyone's individual decision on this. I DON'T support the government mandating a vaccine that is still under EUA. Some in my house are vaccinated and some aren't because in our home we support personal decisions when it comes to our own bodies.

Thank you,

Suzanne M Leon

To Staff and Board Members,

I've grown up in Washington and have lived here my entire life. Family values are very strong within me. When my Grandpa passed one of the last things he said was, "Family is Everything." My Kids and my Family are Everything to me. I think everyone understands the importance of family. A lot of times, whether one's family is supportive/present or not, friends can become like family too. So what it means to be part of a "family" is well understood.

Parents are the sole protectors of their children, and have a say in what can and cannot go into their bodies. This is in line with our constitutional rights and is instinctive in nature. I grew up with so much freedom and security in the world around me. I think a lot of that sense of security came from the security my parents and family felt in the world then, and their ability to protect us. Now things are seemingly drifting from our foundational constitutional rights as humans and as parents. That security I felt, gone. Now, as a parent, I feel fear and distrust in our governing bodies. This makes me grieve with so much sadness for people currently and for our children and their future.

I was in the pharmaceutical industry for nearly 10 years. Everything was highly scrutinized for safety and efficacy. People had the choice of what they put into their bodies. The goal was to treat people early to help keep them out of the hospital. Talking about the importance of early treatment and preventative measures to keep people healthy and out of the hospital was encouraged. Less hospitalization equaled better outcomes for patients and lower cost to healthcare. With Covid, early treatment and preventative measures are being suppressed, their importance is not being emphasized enough, and patients have been waiting until they are so sick that they have to go to the hospital to be treated. With Covid, there is now a fear that I as a parent could be mandated to consent to having my children vaccinated in order to attend school. Mandates are unconstitutional in themselves, especially mandates to take a vaccine without knowing the full side effect profile and long term side effects. A vaccine that could cause permanent damage to children's/human's organs. A vaccine that doesn't stop people from getting or transmitting Covid. A vaccine that doesn't make sense for low risk children. All the unvaccinated kids in my family that have had Covid have either been asymptomatic or have had very mild symptoms and recovered quickly.

Please no Covid vaccine mandates, no mandates for children to get the Covid vaccine to attend school, and no adding Covid to the required vaccine list for school age children.

These are our babies and the future of our world. A lot of people's Everything.

Thank you for your time thoughtfulness,

Heather Vaughan

I respectfully ask that you vote against a any mandatory requirements for children to get any COVID vaccine for school or otherwise. There is a reason vaccines and medicines are vetted an extended period of time and this vaccine should be no different. At this point in time, no one has any idea what the long term effects are from this vaccine and until that data is available, this should not be a requirement (especially for our children). I feel requiring the vaccination of children with a vaccine that has not met this rigorous vetting process is not only dangerous, but reckless and irresponsible on the part of our system that is supposed to be looking out for the welfare of our children. This vaccine should be categorized and tested the same as all other vaccine's for children.

Thank you,

BELOW IS AN EXACT QUOTE by Dr. Robert Malone ; creator of the mRNA □□technology

"There are three issues parents need to understand: The first is that a viral gene will be injected into your children's cells. This gene forces your child's body to make toxic spike proteins. These proteins often cause permanent damage in children's critical organs, including their brain and nervous system, their heart and blood vessels, including blood clots, their reproductive system, and this vaccine can trigger fundamental changes to their immune system. The most alarming point about this is that once these damages have occurred, they are irreparable. You can't fix the lesions within their brain. You can't repair heart tissue scarring. You can't repair a genetically reset immune system, and this vaccine can cause reproductive damage that could affect future generations of your family. The second thing you need to know about is the fact that this novel technology has not been adequately tested. We need at least 5 years of testing/research before we can really understand the risks. Harms and risks from new medicines often become revealed MANY years later. Ask yourself if you want your own child to be part of the most radical medical experiment in human history. And one final point: the reason they're giving you to vksinate your child is a lie. Your children represent no danger to their parents or grandparents. It's actually the opposite. Their immunity after getting COVID is critical to save your family, if not the world from this disease. In summary: there is no benefit for your children or your family to be v-ing your children against the small risks of the virus, given the known health risks of the vksne that as a parent, you and your children may have to live with for the rest of their lives. The risk/benefit analysis isn't even close. As a parent and grandparent, my recommendation to you is to resist and fight to protect your children." —Dr. Robert Malone (contributing creator of the mRNA v technology) on The Joe Rogan Experience

We, as constituents and community members of Washington state, DEMAND the Washington State Board of Health (WSBOH) REFUSE to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission. Due to the following reasons:

1. COVID vaccines remain under Emergency Use Authorization and as such are experimental.
2. Children under the age of 18 have a 99.995% survival rate from COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

Thank you ,
John and Carmen Mayo

Young people under 21 have a less than 1% chance of death from this disease. They are NOT super- spreaders. If infection occurs, usually symptoms are mild at best. Parents are in charge of their children's health and well-being, knowing the cost/ benefits of a drug to be discussed with their doctor only. Many side effects are on the rise, especially that of heart inflammation that is never mild but has a 50% death rate in 5 years. No to Vaccine mandates for our children!

I disagree with mandatory vaccines, especially for school age children in grades K-12.

I am vaccinated, have had COVID-19. Why isn't there credit for people who have the antibodies??

I am not an expert or a doctor, yet have read many, many articles written by doctors and experts in the medical field regarding the benefits and harms of the vaccine.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

- * Children are at extremely low risk for Covid
- * The vaccines are still only EUA (emergency use authorized)
- * There are no long-term studies to document any history of safety
- * Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,
- * The vaccine apparently does not stop the spread of the disease

Subject: Vaccine Mandate on Students

☐ PLEASE DO NOT DO THIS!!! The "vaccine" does not work and is not necessary for most healthy children. It has not stopped people from getting the virus and there are so many unknowns about it's long term affects. Let's not "experiment" on our children! If parents want to have their child given the shot it should be our CHOICE!!

I have a 3 year old son who I do not want to receive this shot nor does he want to receive it. He is an extremely healthy boy and had Covid and fought it in a matter of hours. The majority of our children are resilient and are not adversely affected by this virus. We need to treat it like we do the cold and flu, which this new version basically is.

Gov Inslee has not made good decisions during this pandemic. He has isolated us and caused hatred among people, including friends and family. His decision to keep businesses closed forced many to close permanently. His unemployment compensation has created a lazy bunch of young people who do not want to work which is creating another problem for business and consumers!

If our state legislature and acting agencies continue to push for this mandate, my family will have to consider pulling our son from Spokane schools. I pray that you will very seriously consider the affect this decision can have on Washington school population and enable people to continue to have a choice over their bodies in this matter. Again, this "vaccine" has a lousy track record for stopping the virus.

Let's work towards bringing all these mandates to an end! Including masking up our children! What a joke! Let them be children and not teach them fear! Let our society get back to normal by stopping all these mandates and let the good citizens of Washington make their own choices.

I appreciate your consideration and pray that you vote for freedom!

Sincerely,
Valerie Ward

Please say no to these continued tactics of fear and control. We cannot control this virus. We need health, exercise, community, nutrition and love.

Pumping children full of experimental drugs and endless boosters, masking smiles and inhibiting a child's right to breathe fresh air. These methods are not working. Please read The Real Anthony Fauci which is a #1 bestseller so you can be informed on what is going on.

Together we can end this by ensuring medical freedom, insuring community and real health - nutrition, fitness, friendship. Enough of fear, propaganda, mandates, concentration camps. Enough.

Thank you!

Our family is appalled/disheartened on what WA is trying to do. Please leave our innocent children alone.

No matter how people want to spin this it will not be known for years what the long term effects will be with this COVID shot. If an adult chooses to take the vaccine, that is their right for freedom of choice.

Thank you for listening

Re: Development of Rules and Regulations for State Covid Vaccinations for School Age Children

Dear Sirs;

There are several glaring problems with the SBOH and the Technical Advisory Board attempts to set rules for Covid Vaccination Mandates for children age 5 and older.

In your zoom meeting on December, 29, 2021, it was stated that you want subject matter experts. It is important that experts for and against vaccine mandates be shared. One of the glaring problems with your TAG is that there are no school board members with a diverse representation across the state on your committee. There are also no parents on this committee represented from across the state.

1). There needs to be a thorough risk assessment between the risk of harm to school age

children from covid versus the risk of harm to school age children from the vaccine. Data is readily available showing the risk of harm of covid to school age children is negligible. For example, the King County Dashboard shows 1 death or 0.4 deaths per 100,000 and 112 hospitalizations or 44 per 100,000 in the 0-9 age group. There are 6 deaths or 2.3 per 100,000 and 154 hospitalizations or 60 per 100,000 in the 10-19 age group.

CDC has reported that all deaths in these age groups had comorbid conditions such as leukemia, obesity, or other conditions.

Children 5 and under, are more likely to be taken to a hospital by concerned parents than older children, due to their obvious vulnerability. This must be considered in hospital data numbers. Additionally, Dr. Fauci recently reported that hospitals are "over counting" children as covid. Could there be a monetary reason for them to do so. This could also subtly suggest a glaring conflict of interest by much of the healthcare industry. This "over counting" could skew the data used to base mandates or rules thereof.

This is all over nearly a two- year span with most of the incidences early in the pandemic. In December 2021, there have been no deaths and only 9 hospitalizations in these age groups in the last 30 days, which suggests that the variants are less lethal.

3). There is a lack of definitive data on vaccination studies. The pharmaceutical companies have legal immunity for lawsuits for 70+ years. There is also evidence that the CDC wants to hide post-licensure safety data for 75+ years.

What can be found on a clinical trial is reported in a mayoclinic.org <https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fmayoclinic.org%2F&data=04%7C0> article. In this article, it was reported that In the 5-11 age group, there were 3100 children that got the vaccine, and 1500 got the placebo. In the 12-15 age group, 1100 got the vaccine and 1100 got a placebo. It is curious that only a portion of the children in each age group were monitored for two months after the second dose. It was reported that side effects were mild to moderate. However, there were severe side effects on children that went unreported or simply omitted. There was also a reported increase in myocarditis and pericarditis after the vaccine, particularly in males 12-17. One study showed 5.4 cases of myocarditis or pericarditis per 100,000. Because covid vaccine clinical trials only began in the summer of 2020, it was stated in the article, "it is not clear if the vaccines will have long term side effects". (The early trials were only on adults; the children trials are even more recent!)

In summary, definitive vaccine data is hard to come by and there is effort to suppress it. This lack of definitive data does not justify a mandated vaccine or a need to adopt any rules except voluntary vaccination for children. The testing of children also lacks definitive results as it is a well-known fact that test procedures are incorrect or inaccurate.

4.) Future implications need to be considered. Are you willing to answer to parents whose children become disabled or permanently harmed by not understanding the risk of the vaccine?

5). Regarding the transmission of COVID, children do not present a significant risk to society. Most children are asymptomatic and asymptomatic transmission is not proven and in fact, transmission by children may be weak because their viral load is low. They DO NOT represent a threat to society as a whole and therefore, does not justify a mandate or the need to develop rules for the vaccine in children.

6.). All pandemics have a three-year cycle. We are already in the second year and as in other pandemics, the variants are becoming less lethal. By the time the vaccine rules are implemented, the pandemic will be over. The expense of implementation and risk of harm to children will be unnecessary.

In summary, the board of health and the rules committee are jumping the gun when there is such a paucity of definitive data and a combined ignorance of vaccine risk. This committee should stop their proceedings immediately.

Regards,
Susan Groller

To Whom It May Concern,

I am a nurse who recently had to make the decision to take a "vaccine" for covid in the next few months. I did some research to find out what I may be putting into my body.

There are so many medical professionals, government officials and opinions involved in requiring me to take this shot, whom I do not trust, therefore my research gave me pause.

Secondly, I saw that nobody in authority was talking about treatment! Why not? In the past, a new diagnosis that comes out has a flurry of studies to find treatments.

And lastly, I looked at the new technology in the shot, has it successfully run through trial, is it approved by those in authority? No to all of those.

I have spent a day exploring the VAERS government reporting site and I am completely appalled that this much death and injury has occurred. And our government still wants to mandate it? There were so many deaths in young people just hours and days after receiving a second dose of the shot. Page after page were the same stories of severe vomiting, cerebral hemorrhage, cardiac arrest, clotting, all resulted in death. I focused my search on young people ages 17-40 because there were too many in the older population to go through.

My concern is now for what the government wants to do to our children. Wow, that was a scary sentence. There are millions of concerned parents that do not want our children and grandchildren to receive this shot. Children do not need the covid vaccine and it will kill and injure more of them than it will help as revealed in my research.

- Children only have a .02% chance of dying from this illness and the children that died had other comorbidity. Most children have only mild cold or flu like symptoms. The shot will have worse effects than covid.

- The total count of death and injury by the shot from the VAERS reporting site has, as of Jan 7, 2022 exceeded one million injured and dead.

- Hundreds of thousand that have had the shot series, even up to 3 shots have still contracted covid.

- There are effective treatments that are proven to work for covid and will work for our children. Natural immunity has not been taken into consideration by the government, which has proven to be effective.

Please consider these words and do not subject our children and grandchildren to harmful injections.

Sincerely,

Shauna Sams, now retired RN who has a new job of fighting for our future generation,

Subject: Mandatory vaccines for children

External Email

Good morning all,

I'm writing because I want my voice at least heard! First of all I am not an anti-vaxxer but I am by far against mandating or requiring anyone and especially my children to take this vaccine. As a parent, I have that right. As an adult I should have that right to say what does and doesn't go in my body or my children's. I definitely care about everyone and would do anything I think would actually benefit everyone but this whole process has been rushed and again, it isn't working as the government, health officials and etc have originally stated it would. The slogan was originally "get vaccinated and save lives," but it has been proven that the vaccine doesn't stop anyone including the vaccinated from getting the virus. It also does not help symptoms of the surrounding people of someone who is vaccinated. Vaccinating yourself is the only way to protect YOU.

The soaring rates right now are not to be blamed on the unvaccinated 100%. Let's take a look at King County where the mandates and rules are the most strict and positive tests are at the highest. If you want to go into a restaurant, sporting event, etc you have to show a vaccination card...these people have a free pass to come and go as they please and knowingly/unknowingly can pass the virus! The unvaxed aren't allowed in unless they have a negative test, which right now is leading to unnecessary testing and adds to the shortage of tests. If we want to completely avoid spreading then everyone should have to get tested before going to these establishments but I'm definitely not suggesting that become a thing.

There are many stories of people who've had adverse reactions to the vaccine and of course the media is not sharing those. How would the board feel in a year, 2 years or even 10 when our children, your children, grandchildren are older and evidence comes out that the vaccine has harmed our kids bodies?! Or that they can't have children or their own? Women/girls are already seeing changes in their menstrual cycles after being vaccinated. Children are having heart issues. There are numerous people with long term side affects that they now have to try and live with and it's being shoved under the carpet.

At some point the elected officials have to listen to the people and what they want. PLEASE do not make this mandatory. Give more time to work out any issues and have a proper vaccination not something people are making more money off of then CURING. Coercion is not the way to get people to take this vaccine.

"Coercion is compelling a party to act in an involuntary manner by use of threats, including force. It involves a set of various types of forceful actions that violate the free will of an individual to induce a desired response, for example: a bully demanding lunch money from a student or the student gets beaten."

Threatening people with their jobs because they don't comply is not right. You are now adding to unemployment, possible homelessness (which is out of hand and nothing is being done about), etc. The fact that only certain places are required to be vaxxed is asinine as all those people that are not required to get it are able to go about there business. The government is continuing to divide people.

Our children are still growing and with the many unknowns of this vaccine still, it is not in the best interest to bring on more issues with a mandate. The current required vaccines are actually vaccines and PREVENT most people from getting viruses, unlike now where it doesn't matter you will still get covid and can continue to get it over and over.

Please listen to the people for once!!

Desiree S

Subject: Stop the mandatory requirement for kids covid 19 vaccination

External Email

I would like to express my strong disagreement with the proposal to make COVID-19 vaccines mandatory for school and childcare admission in our county, as well as state.

As a parent and a member of the community, I implore you to please stop pushing to require Covid-19 vaccinations for ANY child in child care or school.

1. All COVID-19 vaccines currently administered in USA are still under emergency approval. Meaning, that FDA still has not enough scientific evidence to grant a full approval.
 2. Children and young people have a mostly mild or asymptomatic presentation when infected with SARS-CoV-2. They are at near-zero risk of death from COVID-19.
 3. There is an unusually high rate of reported adverse events and deaths following the COVID-19 vaccines compared to other vaccines. Some adverse events are more common in the young, especially myocarditis. Where potential harm exists from an innovation and little is known about it, the precautionary principle dictates to first do no harm. Better safe than sorry.
 4. Medium and long-term safety data about the COVID-19 vaccines are still lacking. Children and young people have a remaining life expectancy of 55 to 80 years. Unknown harmful long-term effects are far more consequential for the young than for the elderly.
 5. Vaccination policies rely on expected benefits clearly outweighing the risk of adverse events from the vaccination. The risk-benefit analysis for the COVID-19 vaccines points to a high potential risk versus no benefit for children and young people.
 6. Transmission of SARS-CoV-2 from children to adults is minimal and adults in contact with children do not have higher COVID-19 mortality.
 7. It is unethical to put children and young people at risk to protect adults. Altruistic behaviors such as organ and blood donation are all voluntary.
 8. Several prophylactic treatments as well as the COVID-19 vaccines are available to high-risk individuals so they can protect themselves.
 9. Natural immunity from infection with SARS-CoV-2 is broad and robust and more effective than vaccine immunity, especially in combating variants. Children and young people are safer with natural immunity.
 10. There are several prophylactic (preventive) protocols and effective treatments available to children and young people with comorbidities.
 11. Vaccinating children and young people is not necessary for herd immunity. After a year and a half of the pandemic, most people either have pre-existing immunity from other coronaviruses, have recovered from COVID-19 or have been vaccinated.
- THERE IS THUS NO MEDICAL OR PUBLIC HEALTH CASE FOR THE MASS VACCINATION OF CHILDREN AND YOUNG PEOPLE, OR FOR COERCIVE OR RESTRICTIVE MEASURES AFFECTING THOSE WHO ARE UNVACCINATED

Will you take upon you the responsibility for the health and well being of innocent children, whom you will be subjecting to unknown risks, in order to receive education (paid for by the taxpayer -their parents) which is an ingrained right of every child? Will you create segregation and discrimination?
Please PROTECT our children by NOT requiring a C19 vaccination to attend child care or school.

Thank you,
Ulyana

Subject: Covid 19 Shots mandate - Against

External Email

I live in Washington state and am a registered voter. I am opposed to making Covid-19 shots mandatory for school admissions. Children are at an extremely low risk of a serious illness or death from Covid-19. In fact they are more likely to die from obesity related issues than Covid. There are no long term studies to document any history of safety, however there are numerous reports that indicate adverse blood clot reactions in young men. In fact young men are more likely to die from blood clot issues related to Covid, then Covid itself.

The vaccinated are spreading Covid at unprecedented rates, as indicated by recent studies. So any mandates of any sort should not be allowed throughout Washington. Covid may prevent serious illness, however it does not prevent transmission.

Thank you for consideration

Dear State Board of Health Chair, Keith Grellner and Vice-Chair, Tom Pendergrass:

Thank you for leading what promises to be a thoughtful and thorough process to develop a recommendation for the State Board of Health to consider adding COVID-19 to WAC 246-105-030.

I want to ask if you would consider adding a private school representative from the Washington Federation of Independent Schools to the TAG. I am the Executive Director of the private school advocacy organization that supports all 500 + schools educating 83,000 students. We are responsible for about 9% of school-age children in the state. The schools feel the weight of this decision heavily. In the past, WFIS has been invited to participate in these types of committees. I attended your first meeting entirely and I have the time to participate on this TAG. I enjoy collaborating with others on complex policy issues. I also feel strongly that my participation could foster trust in the process as I represent schools with vastly diverse opinions on this work and the decisions that will be made.

Here is more information about the organization: www.wfis.org
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.wfis.org%2F&data=04%7C01>>

I appreciate your consideration,

Suzie Hanson

Dear WSBOH,

Please do not move to make Covid 19 vaccines mandatory for all Children to attend school or daycare in Washington State. Children still have the lowest death rate for Covid-19 and these vaccines are still only approved under emergency authorization. This would be a mistake and potentially be more dangerous to children who have little risk of hospitalization and death from the Covid-19 virus.

Sincerely,
Valerie Wall

9.

Do you have any special expertise relevant to this topic?

2. No

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

The proposal before the board is to require all school age kids to be vaccinated for COVID-19.

11.

Are you Pro or Con on the proposal?

2. Con

It is not necessary to require COVID-19 vaccines for all school age children. Children are at the least risk from this disease. The vaccine has not proven to be effective against Omicron so there is no point in requiring children to take it. If someone has had COVID and recovered from it, why are we requiring vaccine when natural immunity will provide far greater protection? Flu vaccines are not required for school attendance, even though it is proven that children are at far greater risk from the flu, why should COVID-19 vaccines be required for children? I absolutely do not support this proposal!

11.

Are you Pro or Con on the proposal?

2. Con

Covid, Delta and omicron, is primarily spread through aerosol particles. The requirements for masks in public places is providing so little benefit and therefore the cons for wearing masks inside businesses out-weighs the pros, especially for employees. Masks need to be a choice. This is profoundly clear in restaurant settings where you have to enter with a mask only to take it off when you are seated. If masks truly helped, then restaurants would be the most dangerous places to be, but they are not. Only 10 states have state-wide mask mandates! There is no information to conclude the use of masks have made these 10 states any safer than the others. Please just let people use their own common sense in these matters and advocate for not mask mandates.

Covid vaccines should not be considered for school attendance. School age kids are at a very low risk for getting ill with covid. There are too many unknowns at this time for long term effects on children. The facts that we do know regarding adverse events are greater than the risk of getting sick from covid. And some of these are irreversible. If you look at the risk to benefit scenario, it's overwhelming and obvious to error on the side of avoiding vaccines at this time for children. Vaccines should be available to those with co morbidities.

Personal Health choices are part of freedom we get to experience in our free country. Covid is treatable with therapeutics, and good health practices for prevention are paramount in successfully getting through this pandemic. Vaccines are a part of it, but should not be forced on anyone who chooses to not put that in their body.

Subject: Vaccination Requirement for School Children

External Email

I am writing as a citizen of the United States and Washington State to voice my distain for the unconstitutional and tyrannical overreach of governmental power to require "vaccination" for school children. The actions of Governor Inslee and President Biden have allowed politization over common sense resulting in hysteria and hype in the media and the American people.

There is no doubt that SARS-CoV-2 is highly contagious, along with its variations. Common sense doesn't allow argument to that fact. What common sense also tells us; so is polio, chicken pox, measles, mumps, and rubella to name a few. Each of these virus' have proven vaccines. These vaccines were studied for ten plus years, before mass inoculation to the public. Many experimental drugs have been pulled off the market due to lack of study, illness or even death. Come back in 20 years, and explain the long term effects with statical data versus another commercial on TV or a press conference that says, "the shots are working" when those "vaccinated" are still contracting COVID, and spreading to others.

No individual CHILD or ADULT needs an experimental "shot" that is not proven to stop COVID or it's spread. Data shows children have a 99.9% chance of survival. It's not the roll of the government to infringe on the rights of parents and guardians. The mere consideration of requiring "vaccination" in children for "safety" leads to false information that it's the best. As a mother of a middle school teenager, I vow if this passes I will remove my child from the public school system. I am one... I know many that are willing and able to do the same thing. For each child enrolled in public school, \$17,000.00 is allotted... do the math to the already taxed public school system.

We, as citizens, rely on our public servants to advocate for the people. With the actions taken since early 2020, we the people have seen the exact opposite. The people have the power. I am available for discussion at any time and listed my contact information below.

Hello,

I am writing to discuss my concerns with the new proposed policies of mandating the experimental covid vaccine for our children. I will be pulling my kids from the Tahoma School District and moving out of Washington state if this passes. How can a non FDA approved vaccine that does not have enough time to know implications be MANDATED for our CHILDREN!? This is absolute abuse of power and sickening to think our appointed Washington State leaders are considering this policy.

Hello I am concerned about mandatory vaccines for children and teens. The side effects and long term consequences of the vaccines are unknown. Young people have a low rate of illness, and low mortality rates from the virus. Last week 4 young men soccer players died after getting the vaccine, Please don't force our children to unknown illness or disability in the future. The teens are getting heart problems after the shots and neurological problems. Do you really want to do harm to the future generation. Thank you Irene Randall

This "vaccine"/gene therapy does NOT stop infection or transmission so it is not accurate to consider it a public health measure. It's a personal health treatment choice. Getting the vaccine doesn't effect anyone but the recipients. This is not rational, constitutional, or lawful. To vote in favor of this is without conscience. There are many dangers associated with this EXPERIMENTAL "vaccine" and it is against the Nuremberg code to force this on anyone. You will be guilty of crimes against humanity. Think long and hard about what you're doing to people for a virus comparable to the flu.

I strongly oppose the proposed changes to the WAC 246 codes being brought forward related to covid-19 including use of detainment, and/or use of forced examination, testing, treatment, counseling and vaccination.
I also strongly oppose the proposed requirement for the covid vaccine for school aged children.

Please do not bring these changes forward, it is a huge government overreach.

Thank you,

You all need to back off. You need to stand up for the facts and the truth. The truth is covid was here before March lockdowns and no one gave a fuck. They only cared about impeachment. Several of my family members had covid in January 2020 before it was supposedly even here. We got the anti bodies test a year and a half later and we have the antibodies still. Plus non of us have been sick in 2 years. I personally have done my own research and everyone I know that had covid and did not get vaccinated have not been sick since. Those I know who have been vaxxed have continued to get sick or have other health issues. So if you wanna do the right thing to stop covid, stop the mandates stop trying to force the Vax because you won't win. If you keep trying to force you will have thousands that will fight back as well as you will never stop covid if you continue to try to mandate vaccines. The flu has never been stopped so what makes you think you can stop this by forcing vaccines

Good afternoon. I am writing to STRONGLY oppose Agenda items 9 and 11. Re: item 9, adding a disease such as Covid-19 with such a laughably low mortality rate and which has been so weaponized by power-crazed bureaucrats (read "petty tyrants") to seize patently unconstitutional powers, is not only ethically repugnant, but also completely ignores "the science" that said petty tyrants so adamantly claim to follow. Just look at the numbers and health profiles of those that have died "from" Covid, not "with" Covid: will we add Influenza to the list next? On item 11, my previous statements only become amplified tenfold. The risk of death or serious harm to any child under 18 years of age based on official government numbers (which are being increasingly admitted by government officials to have been exaggerated to encourage jab compliance) is so small as to be statistically zero. Why would you attempt to force a novel, untested (it truly is by any standard that existed prior to 2020) medical procedure on children who face essentially zero risk from Covid-19 as a condition of school enrollment? You cannot deny the numbers, so we are left only with political motivations, specifically motivations for power. Adults who want to cower in fear as they inject themselves with any totem to calm their anxiety are one thing, but forcing children is the red line. Both agenda items are absurd on their face and I pray there are at least some members of your board who still retain the ability to think for themselves and view reality as it is, rather than as they are told it is by the power-mad, as this ability will bare out everything stated in my comments.

Tracy,

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be

no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Please use common sense, follow the facts, the science, the data. Do not harm our children and communities. This is the United States of America, NOT a communist tyrannical nation state!

Sincerely,

David Kelly

I'm writing this after you are accepting public comment on adding Covid to old WAC pertaining to serious infectious diseases. I'm praying for a miracle that you will not or did not approve this and also reject mandatory school CV inoculation.

My fear is that is is already decided and the upcoming meeting is just a show for the plebs. Pat us on the head to make it look like the people have a voice.

So many injured from this vaccine. So many deaths. How can it continue?

I'm praying your eyes will be open. This is the Holocaust of our time.

It is in Gods Hands now.

This ruling has the potential for abuse of power with no accountability for any unintended consequences that may result. Whether you're in a position of power or just a normal citizen we're all human and have certain inalienable rights, which among these are "life, liberty, and the pursuit of happiness". But as humans, we have dysfunctional mechanisms of our minds which are at the core of a lot of our conflict. We truly got to ask ourselves if this ruling is for the highest good or is just being created to serve a subtly disguised ego motive and is supported by the distortion of truth. Let's clear our minds and with sincere intention to serve the highest good ask if this ruling or any other rules in the future truly serve the highest good and leave little to no room for disastrous unintended consequences.

Dear Advisory Board for the Washington State Board of Health:

I am writing to protest recommending a vaccine for Covid for school aged children who attend school in Washington State. I am against imposing this vaccine on our children. I believe this to be a horrible overreach of state government.

The Covid "vaccine" is experimental. There have been no studies on the long-term health side effects on children or even on adults. We have never required an untested drug to be used on our children. Making it required to attend public school is criminal and against our constitution.

If you decide to follow through with this abuse of state power, you will be held accountable for the consequences whether they are unintentional or not. You are taking the decision to monitor a child's health out of the hands of its parents. You must then face the repercussions that happen when this trial "vaccine" begins causing health problems way beyond the symptoms of Covid itself.

We do not need this requirement to protect our children or our communities. We need you to consider the constitutional rights we have been guaranteed by our founding fathers to stay free, to live and care for our families and our friends, and our communities based on our religious and moral beliefs.

With respect,

Ron Laycock

Subject: No to Dangerous Vaccine Mandates!!

External Email

Dear Washington State Board of Health,

Assuming the health and well-being of our children are indeed your highest priority COVID vaccines must NOT be mandated for children in any way as they are causing irreparable and irreversible physical harm to growing numbers of otherwise healthy youth and destroying their lives! Our children are NOT lab rats and their health is not to be prostituted for anyone's financial and/or political gain. The VAERS data is indisputable that these rushed biological products called "vaccines" have killed and disabled more people in one year than ALL other vaccines combined over a 30-year period. This madness must be stopped immediately and help for those who have been physically harmed must be made a high priority.

It is truly insane that there's even a question that mandates are even being considered for anyone, and especially CHILDREN, given the vast information available on the harms created by these injections and the tens of thousands of real experts railing against the continued use of these dangerous medical experiments that violate our civil and constitutional rights and all 10 tenets of the international Nuremberg Code. The vaccine program should be halted indefinitely until a comprehensive independent investigation involving a credible team of experts are able to investigate the deaths and health claims of the more than 1 million VAERS reports claiming adverse reactions to the vaccines with a focus on the deaths, disabilities, and severe reactions. Unbiased expertise is needed from doctors and researchers having no financial or political incentives toward outcomes in either direction.

Furthermore, an unbiased investigation into the legitimacy of the initial drug trials of all three EUA-approved COVID vaccines are necessary, as significant and alarming information has come to pass recently regarding outright fraud on the Pfizer vaccine trials that both failed to follow proper protocols for human trials and purposely left out or omitted severe adverse reaction information in order to ensure their drug provided data to get their drug approved despite severe harms known.

I urge you to consider the real science and full spectrum of medical data when considering requiring a COVID vaccine for day care and school attendance. Randomized controlled trials are the gold standard in medical research because there is a control group. Pfizer conducted a randomized control trial of 44,000 patients divided into two groups. One group gets vaccine, one group gets placebo. More people died in the Pfizer vaccine group than the placebo group. The difference wasn't statistically significant but scientifically one cannot claim these vaccines reduce death.

The Pfizer and Moderna vaccines use non-FDA-approved mRNA gene therapy, according to their filings with the US Securities and Exchange Commission. Clinical trials for the drugs conclude in 2023. The only FDA approved version of the vaccine is Comirnaty, is not currently available, and is different than the emergency use authorized Pfizer-BioNTech vaccine. 21 US Code 360BBB protects one's right to refuse any emergency use authorized medical products, therefore it is illegal to mandate an EUA vaccine.

The VAERS database is the database for vaccine injuries. A Harvard report in 2010 shows that fewer than 1% of vaccine adverse events are reported to VAERS. The CDC validates all entries and false allegations are prosecuted. Pre-COVID, VAERS shows about 158 deaths due to vaccines per year. In January 2021, over 17,000 deaths and over 70,000 hospitalizations from the Covid Vaccines were reported. This quantity of lethal reactions historically shut down other vaccine programs.

Further, the CDC says that the Covid hospitalization risk for children is about the same risk of the flu.

Tens of thousands of doctors around the world, including the creator of the mRNA technology Dr. Robert Malone, warn of the extreme dangers of this experimental Covid drug. It is not safe, responsible, or legal to require this experimental drug for children.

Thank you for your time.

Subject: Vaccine Requirements for School Children

External Email

Good afternoon.

I am sending this email in response to the upcoming board meeting that includes the subject of vaccinating our children with a gene therapy that is still under Emergency Use Authorization. No COVID vaccine available in the United States has received FDA approval.

It is a violation of International Law to force the involvement of unwilling individuals in any medical experiment. The consent forms that participants agree to, when getting the vaccine, stipulates that they are agreeing to participate in clinical trials.

The lack of full FDA approval and the absence of Informed consent are violations of Federal Regulations.

In addition, there is a serious question as to the necessity of such a vaccination for a subject group that has virtually 0 risk of death from the virus. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. These are CDC statistics.

No one knows the long-term risks of these vaccines! You may remember that one of the

members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe their vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM.

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children. This is unconscionable.

I am going to expand upon these points. You have been made aware of the precedence's established by the Nuremburg Code, the needlessness of vaccinating a subject group that is not at risk, and the illegality of mandating an EAU drug treatment on our most vulnerable.

It will be my focus to hold you and fellow board members, that ignore these legal, ethical, and moral restrictions, personally accountable for your decisions.

As members of the Board of Health and a Public Official, by Statute, you are required to maintain a Surety Bond.

Your failure to uphold your responsibilities to the citizens of Washington State and reject these illegal, unethical, and immoral mandates will prompt a challenge to that Bond.

Respectfully,

KL

Parents of children should have the final say on any and all covid vaccines administered. Not the state not the health department. As we are seeing with the omicron variant the vax doesn't care if a person has been fully vaccinated or not. To make this mandatory is a complete overreach of our state government. This vaccine is still very new no one can honestly say what side effects may come in the future. Why put the future of these children at possible risk. Please do not make this vaccine mandatory to attend school.

Subject: Vaccine Requirement for School Children

External Email

Dear Samantha Pskowski,

Please don't make vaccinations mandatory for all school children. There are numerous sincerely held reasons parents don't want their children vaccinated that are VERY important to them. They will be forced to take their children out of school if the mandate is imposed. Children have suffered enough because of this pandemic. Please don't make it worse.

The National Vaccine Injury Compensation Program is in place for those who may be injured by a lot of vaccines and The Countermeasures Injury Compensation Program is in place to compensate people injured by the Covid-19 vaccine in particular (which is not a vaccine in the way all other vaccines that I have ever heard of are). Since Covid-19, especially the Omicron variant which is the main variant at this time, has such low incidence of injury to children; I believe the vaccine may well be more dangerous than the disease. Where there is a risk there should be a choice.

It makes me SHUDDER to think the federal government can force people to make medical decisions they don't believe are good for them. Being forced to wear a mask is bad enough but being forced to have your children injected with something that has a potential for harm is just too much. Where have our rights to make medical decisions gone? You can't see people's medical records because of HIPPA regulations but you can demand whether or not they have had an injection, and how many. It does not make sense, it seems to me it should be illegal.

Sincerely,

Rosina Robbins

To whom it may concern;

My name is Sherri Anderson. I work in the healthcare field as an occupational therapy assistant at a local hospital. I am strongly opposed to the vaccination. There are no grounds for anyone to be forced into having this vaccination or any other vaccination if they feel it could be more of a detriment than a help.

This law should not be passed.

Sincerely, Sherri Anderson

Covid injections are not immunizations. They are EUA only. Covid has a 99% survivability. This is not about a virus. This is taking steps towards a communist totalitarian style government.

Please refer to the Constitution especially the
2nd Amendment.
Also the Bill of rights.
The Nuremberg laws.

These are our rights as citizens of a Constitutional Republic.

1 million abortions every year
400k deaths from tuberculosis every year

Have a nice day.

Members of the Washington State Board of Health,

I am writing you today to express my fervent opposition to adding the COVID-19 vaccination to the list of required vaccines for children in order for them to attend public school. In making your decision please consider the following:

1. The current COVID-19 vaccines available to the public have NOT been proven as to whether they pose a long term threat to ones health. They were hurriedly pushed through the testing phase for political reasons. The type of vaccines available for COVID-19 have been produced in a very different manor from other vaccines and no one knows what the long term effects will be on an individual, especially children.

2. It has been proven that the current COVID-19 vaccines DO NOT WORK! Yes, they may relieve symptoms but they certainly do not prevent disease. If you are willing to believe math and science a simple look at the numbers prove that fact. All the other currently required vaccines for public school attendance have stellar preventative records and very minimal side effects. This is certainly not the case with COVID-19 vaccines. (Attached is a chart showing that fact clearly).

3. Body sovereignty. I strongly believe the government has NO right to mandate that any individual inject themselves with something they do not want in their body. That decision should only be made by the individual and their doctor. Minor children are granted this right as well via the decisions of their legal guardians. The government has NO right in America to demand an individual forgo that sovereignty just to satisfy the latest medical whims of an office holder, whether it be a sitting board member or even the president himself.

4. Look at the numbers. Healthy people, and especially healthy young people, are at extremely low risk of long term ill effects from COVID-19. Why inject an innocent young person (or an adult for that matter) with an experimental chemical that will have an extremely low useful effect? It could be argued looking at the data that the vaccines negative and life threatening effects on younger adults and children appear to far outweigh the supposed positive effects. Ask yourself, How many children have died from COVID-19? How many have needlessly suffered from a negative reaction from a vaccine?

5. It appears to me this push to require a COVID-19 vaccine for children is simply a reaction on your part to appease the teachers union. It certainly looks that way to me

and others anyway. It is my hope you will stand strong and not acquiesce to the demands of this overbearing and out of touch bargaining group and do whats right for the children.

Again, I strongly urge every member on this board to oppose the addition of the COVID-19 vaccine to the list of required vaccines required to attend public school.

Respectful,

Brian Spencer

2. No

10. Are you testifying on a specific proposal under consideration by the board?

2. No

11. Are you Pro or Con on the proposal?

2. Con

It is simply not appropriate to require the covid vaccine for children to attend school. Or for children at all. This illness does not affect them in the same way as adults. If parents want to have their children vaccinated that's fine but it should be our options are not the government's.

I highly opposed such dictatorship style policy over such a curable virus!
Without any scientific evidence.
The Nuremberg Code is being violated as well as our Constitutional rights!
I stand totally against the government's potential plan of action that blatantly goes against what we the people agree with. This is not what we the people voted our political leaders in to office stand for but highly against. I have no doubt Voting polls will reflect this come midterms 2022. The government works for we the people...not the opposite.

God bless America!

Concerned voter!

Pfizer to Study 3rd Dose of COVID Vaccine for Toddlers . . . But Why?

The push to inject children with a genetic experiment may be one of the worst public health offenses perpetrated on a population of people who are unable to speak for themselves, do not have a legal voice and depend on adults to protect them.

Story at-a-glance:

- * Pfizer announced their experiments on children 6 months and older were unsuccessful in 2- to 5-year-olds
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-test-third-covid-shot-kids-under-five%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>>
as they didn't produce an immune response, leading to a recommendation for a third shot and delaying the Emergency Use Authorization (EUA) for the youngest citizens.
- * Although the experiments produced a strong response in children 6 months to 24 months and 5 to 12
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-pfizer-covid-vaccine-risk-benefit-analysis-nntv-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>>
years, the company announced they were evaluating increasing these doses as well.
- * The study is listed as a phase 1, 2 and 3 model, evaluating the safety, dose and efficacy simultaneously, a strategy seldom, if ever, used. Data collection and analysis will be completed in one year on a population with little risk of the illness.
- * Despite the readily available and public data, some continue to call for a shot for children for the sake of herd immunity. Yet, according to a recent engineering analysis more people have died from the shot in less time than from the disease.

Children are the future. Over the centuries, many have suffered atrocities
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-pig-kids-aids-fauci-experiments%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>>
at the hands of adults.

Yet the recent push
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-test-third-covid-shot-kids-under-five%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>>
to inject children with a genetic experiment may be one of the worst public health offenses perpetrated on a population of people who are unable to speak for themselves, do not have a legal voice and depend on adults to protect them.

In the push to ensure there is a shot in every arm, Pfizer
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-cdc-covid-vaccine-injuries-fda-pfizer-booster-kids%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>>

the clinical trials for the COVID

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-jab-in-children-has-hit-a-snag>. And yet, you would be hard-pressed to call the "Warp Speed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-warp-speed-big-payouts-pharma-execs%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1>
" creation, testing and manufacture of this shot anything but implausible.

Historically, vaccines have been pulled after reported damage

At no other time in history have “vaccines” been created and distributed with such impunity.

The closest scenario occurred in 1976 when one young soldier died from a new form of flu that triggered fear and the subsequent development of a flu vaccine

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag%2Flong-shadow-1976-swine-flu-vaccine-fiasco-180961994%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%3E>

It was a pandemic that never materialized and those who were the real victims were the roughly 450 people who developed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdefault.aspx?category=Health-Defense&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d06c00-4040-4040-4040-40404040>

who died from the vaccine.

The rush to produce the newest vaccine iteration ostensibly began in early 2020 after the WHO announced SARS-CoV-2 would produce a worldwide pandemic

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ncbi.nlm.nih.gov%2Fpubs%2Fmedrxiv%2Ffulltext/2020/04/20/2020.04.19.20078119v1>
and an early, flawed mathematical model
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cato.org%2Fblog%2Fhow-one-model-simulated-22-million-us-deaths-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
predicted millions of deaths in America. Yet, this was not a medical product that fit the
definition of a “vaccine.”

It was something never heard of before in vaccinology, based on an experimental mRNA technology that triggers your body to produce a spike protein

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-vaccine-spike-protein-travels-from-injection-site-organ-damage%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.citizensjournal.us%2Fthe-cdc-suddenly-changes-the-definition-of-vaccine-and-vaccination%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2F&isRedactedUrl=true>&isRedactedUrl=true>
and scientists were unsure of how the body would react to the genetic therapy injection.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow>
to evaluate the safety of the mRNA jab in healthy children, intending to create a dose for
children 6 months and older. Endpoints reports

<

Originally, the company hoped to apply for an emergency use authorization (EUA) for the youngest by the end of December 2021. However, since the data have not proven successful, they hope to submit for the EUA "in the first half of 2022

<[, " one short year after starting the experiment.](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline-farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1Pfizer recently announced)

The company said

< [it has made a shift to giving three doses in smaller amounts to raise the immune response. They explain the decision this way:](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.pfizer.com%2Fnews%2Fpress-release%2Fpress-release-detail%2Fpfizer-and-biontech-provide-update-ongoing-studies-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217Pfizer recently announced)

"Compared to the 16- to 25-year-old population in which high efficacy was demonstrated, non-inferiority was met for the 6- to 24-month-old population but not for the 2- to under 5-year-old population in this analysis ...

"The decision to evaluate a third dose of 3 µg for children 6 months to under 5 years of age reflects the companies' commitment to carefully select the right dose to maximize the risk-benefit profile ...

"Pfizer and BioNTech also plan to evaluate a third dose of the 10 µg formulation in children 5 to under 12 years of age."

If the two-dose regimen makes the changes to the immune system in the 6- to 24-months group and 5- to 12-year age groups that the company is looking for, why move to a three-dose regimen for them if not for financial gain?

Pfizer pushing the envelope with a phase 1-2-3 trial

It is important to note that the trial is listed in Clinical Trials

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2Fstudy%2F00000001&data=04&contextmenu=link&format=raw>
as a phase 1-2-3 study. Phase 1 trials are generally concerned

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmed.uc.edu%2Fdepart%2Fpsychiatry%2Fresearch%2Fcrim%2Ftrial-phases-1-2-3->

defined&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0 with establishing drug safety and dose range in a small number of healthy volunteers.

Phase 2 trials determine the effectiveness of the drug using approximately 100 to 300 volunteers and often last from several months to two years.

Phase 3 studies are the final evaluation performed over multiple centers with up to several thousand patients to test the drug safety and efficacy. A search of the Clinical Trials database shows only one study

2- <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fresult>

3&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172

But not all parents and scientists are appalled by the experimentation on 6-month-old babies in the face of massive adverse events and permanent damage to adults.

Children are not at risk from COVID

Despite low rates of infection and death, the American Academy of Pediatrics calls "vaccines our best hope to end the COVID-19 pandemic"

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fhealthychildren.org%2FEnglish%2Ftools%2Fask-the-pediatrician%2FPages%2Fwhen-can-children-get-the-COVID-19-vaccine.aspx&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>." However, we do know that the risk to children birth to 17 years of the disease is so small as to be inconsequential.

The CDC reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss/>
a total number of deaths in 2020 and 2021 from COVID-19 in this age group as 668 as of
Dec. 23, 2021. One study

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/689684%2Fv1&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C posted July 7, 2021, looked at deaths in the U.K. during the first 12 months of the pandemic and found that 99.995% of children survived.

Between March 2020 and February 2021 only 25 children under the age of 18 had died in the U.K. as a direct result of the infection. The researchers found there were 61 children

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/fulltext/689684%2Fv1&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7>
absolute mortality rate for children.

To compare the number of deaths from COVID illness against those who have died from the genetic therapy injection, we must address the known under-reporting factor (URF) in VAERS

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2FuploadFile%2F> is long and time-consuming, and while much of the information is necessary, the form can easily become overwhelming when doctors have multiple patients with adverse events

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.aamc.org%2Fnews-insights%2Fus-physician-shortage-growing&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>

COVID-19-Deaths-Focus-on-Ages-0-18-Yea%2Fnr4s-juj3&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21casualties.

He then found 32 deaths

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstevekirsch.substack.com%2Fp%2Fnow-killed-close-to-twice-as&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>>
from the vaccine in VAERS data ending Dec. 3, 2021. Using the URF of 41 and the data Kirsch took from VAERS and the CDC, this suggests there have been 1,312 deaths that likely were caused by the injection as compared to the 757 deaths caused by the illness.

If you do the math, this means the shot has killed roughly 173% more children than the illness.

Using the same URF of 41 and the VAERS data

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>>
ending Dec. 10, 2021, we can estimate there are likely 39,599,481 adverse events and 830,004 deaths caused by the injection.

This is vitally important as the total number of deaths recorded for COVID-19 as of Dec. 22, 2021

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2F2019-2020&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>>
, is 807,787. This means the shot possibly has killed more children and adults than the virus, and in less time.

Additionally, when you look at the data from the CDC

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2F2019-2020&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>>
, you note that there were 36,931 more deaths recorded in 2021 after the release of the vaccine than in 2020 when the illness first emerged from Wuhan.

Although WHO didn't declare the pandemic until March 2020, the U.S. has reclassified

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.livescience.com%2Ffirst-us-covid-19-death-january-2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>>
2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172
deaths before that, finding the first from COVID happened Jan. 9, 2020.

Vaccinating children for herd immunity is unethical

Despite the readily available data, the American Academy of Pediatrics, CDC, FDA and others continue to call for vaccination in the most vulnerable in the population: our children. Their developing immune system and inability to protect themselves create a vulnerability that opens them up to unfathomable damage.

Sadly, medical professionals who express their concern are roundly ignored, despite the growing number of those health care professionals who are stepping forward. Among them is cardiac surgeon and patient advocate Dr. Hooman Noorchashm, who sent a public letter

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcitizenwells.substack.com%2Fp%2Fletter-of-warning-to-fda-and-pfizer&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>>
letter-of-warning-to-fda-and-pfizer&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172
to the FDA commissioner in January 2021.

In it, he detailed the risks of vaccinating individuals who have previously been infected with SARS-CoV-2, or who have an active SARS-CoV-2 infection. It was subsequently removed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fnoorchashm.medium.com%2Fa->

Doshi was even more blunt in his June 10, 2021, public comment

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.youtube.com%2Fwatch%3Fv=...>
to the FDA's Vaccines and Related Biological Products Advisory Committee. There, he pointed out that "the FDA can only authorize the use of a medical product in a population if the benefit outweighs the risk in that same population." - Outweighs the risk!

This means that even if adults were to benefit, the COVID shots cannot be authorized for children unless children will actually benefit from it themselves. In the case of COVID-19 injections, children cannot benefit, seeing how they only have a 0.005% risk of death in the first place.

Healthy children have died shortly after the jabs and dozens of cases of heart inflammation have been reported.

Since when, in the history of public health, have children been sacrificed to protect the sick and elderly? Public health authorities have completely reversed the conventional risk/reward analysis. Historically, vaccines have been pulled after reported damage

At no other time in history have "vaccines" been created and distributed with such impunity.

The closest scenario occurred in 1976 when one young soldier died from a new form of flu that triggered fear and the subsequent development of a flu vaccine

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag%2Flong-shadow-1976-swine-flu-vaccine-fiasco-180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
aimed at 80% of the American public. While the World Health Organization (WHO) took a "wait and see" approach, the Centers for Disease Control and Prevention (CDC) jumped in with both feet.

It was a pandemic that never materialized and those who were the real victims were the roughly 450 people who developed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeaths-after-covid-vaccine-safety-review-eu-regulators-pfizer-moderna-astrazeneca-more-data%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
Guillain-Barre syndrome

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag%2Flong-shadow-1976-swine-flu-vaccine-fiasco-180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
, a rare neurological disorder, and the roughly 53

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
who died from the vaccine.

The rush to produce the newest vaccine iteration ostensibly began in early 2020 after the WHO announced SARS-CoV-2 would produce a worldwide pandemic

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ncbi.nlm.nih.gov%2Fpubmed%2F32229068>
and an early, flawed mathematical model

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cato.org%2Fblog%2Fhow-one-model-simulated-22-million-us-deaths-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
predicted millions of deaths in America. Yet, this was not a medical product that fit the definition of a "vaccine."

It was something never heard of before in vaccinology, based on an experimental mRNA technology that triggers your body to produce a spike protein

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-vaccine-spike-protein-travels-from-injection-site-organ-damage%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>. It was so new, in fact, that the CDC decided the definition of “vaccine” had to be changed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.citizensjournal.us%2Fthe-cdc-suddenly-changes-the-definition-of-vaccine-and-vaccination%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2F&isRedirection=true>&isRedirection=true>
and scientists were unsure of how the body would react to the genetic therapy injection.

While the swine flu injection was pulled after 45 million shots were given when 53 people died

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>, the COVID-19 injection will have a different history.

According to data from the Vaccine Adverse Events Reporting System (VAERS), collected by the CDC and U.S. Food and Drug Administration (FDA), there have been 21,002 deaths recorded

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fcdc-covid-vaccine-injuries-fda-pfizer-booster-kids%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d>
in conjunction with the COVID jabs as of Dec. 24, 2021

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>, 12 months after the first shot

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.washingtonpost.com%2Fna-covid-vaccines-new-york%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d>
was given in the U.S.

According to Bloomberg

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bloomberg.com%2Fgraphics%2Fvaccine-tracker-global-distribution%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2E>, as of Dec. 23, 2021, there have been 499 million doses given in America.

It is difficult to compare these numbers since two of the three available COVID shots require a double shot, so there haven't been 497 million people vaccinated. Yet, the adverse events and deaths are also occurring after just one shot.

Taken at face value, the U.S. shut down the vaccination program in 1976 after 0.000117% of people died, while the VAERS estimate is that 0.00407% of people have died after a COVID injection (using Bloomberg's Dec. 21 dose numbers of 497 million).

In other words, based on the percentage of people who have died, 3,378% more died after the COVID injection than from the swine flu injection. There have been 965,841 adverse events reported, including permanent disabilities and heart attacks in young people

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdemoderna-pfizer-covid-vaccine-teens-mycarditis%2F&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%3E>. And yet, stakeholders in the shot insist the next generation of Americans must take it.

Pfizer announced youngest kids not responding to the shot

it has made a shift to giving three doses in smaller amounts to raise the immune response. They explain the decision this way:

"Compared to the 16- to 25-year-old population in which high efficacy was demonstrated, non-inferiority was met for the 6- to 24-month-old population but not for the 2- to under 5-year-old population in this analysis ...

"The decision to evaluate a third dose of 3 µg for children 6 months to under 5 years of age reflects the companies' commitment to carefully select the right dose to maximize the risk-benefit profile ...

"Pfizer and BioNTech also plan to evaluate a third dose of the 10 µg formulation in children 5 to under 12 years of age."

If the two-dose regimen makes the changes to the immune system in the 6- to 24-months group and 5- to 12-year age groups that the company is looking for, why move to a three-dose regimen for them if not for financial gain?

Vaccinating children for herd immunity is unethical

Despite the readily available data, the American Academy of Pediatrics, CDC, FDA and others continue to call for vaccination in the most vulnerable in the population: our children. Their developing immune system and inability to protect themselves create a vulnerability that opens them up to unfathomable damage.

Sadly, medical professionals who express their concern are roundly ignored, despite the growing number of those health care professionals who are stepping forward. Among them is cardiac surgeon and patient advocate Dr. Hooman Noorchashm, who sent a public letter

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcitizenwells.substack.com%2Fp%2Fletter-of-warning-to-fda-and-pfizer&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
to the FDA commissioner in January 2021.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fnoorchashm.medium.com%2Fpublic-letter-to-fda-commissioner-dr-c2728667c0bb&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>
from Medium.com.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fscivisionpub.com%2Fpdfs%2Fconvrna-based-vaccines-and-the-risk-of-prion-disease-1503.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d> such as Alzheimer's and ALS, and Dr. J. Patrick Whelan, a pediatric rheumatologist specializing in multisystem inflammatory syndrome, has expressed concern about mRNA shots' ability to cause

Health officials are telling parents that children should be vaccinated for the sake of herd immunity. What is largely ignored are the studies that show children are not driving the pandemic and, in fact, appear less likely

"In short, public health leaders say, parents must 'vaccinate the young to protect the old.' Given the federal government's estimate that one vaccine injury results from every 39 vaccines administered, it seems clear that officials expect children to shoulder 100% of the risks of COVID vaccination in exchange for zero benefit."

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>
by Peter Doshi, Elia Abi-Jaoude and Claudina Michal-Teitelbaum highlight why we must not force children to take the COVID shot simply because it might help vulnerable adults. They write
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>
:

“Even if we were to assume this protection does exist, the number of children that would need to be vaccinated to protect just one adult from a bout of severe covid-19 — considering the low transmission rates, the high proportion of children already being post-covid, and most adults being vaccinated or post-covid — would be extraordinarily high.

"Moreover, this number would likely compare unfavorably to the number of children that would be harmed, including for rare serious events. A separate, but crucial question is one of ethics. Should society be considering vaccinating children, subjecting them to any risk, not for the purpose of benefiting them but in order to protect adults? We believe the onus is on adults to protect themselves."

Doshi was even more blunt in his June 10, 2021, public comment

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.youtube.com%2Fwatch%3F>
to the FDA's Vaccines and Related Biological Products Advisory Committee. There, he
pointed out that the FDA can only authorize the use of a medical product in a population
if the benefit outweighs the risk in that same population.

This means that even if adults were to benefit, the COVID shots cannot be authorized for children unless children will actually benefit from it themselves. In the case of COVID-19 injections, children cannot benefit, seeing how they only have a 0.005% risk of death in the first place.

Healthy children have died shortly after the jabs and dozens of cases of heart inflammation have been reported.

Since when, in the history of public health, have children been sacrificed to protect the sick and elderly? Public health authorities have completely reversed the conventional risk/reward analysis. Historically, vaccines have been pulled after reported damage

At no other time in history have “vaccines” been created and distributed with such impunity.

The closest scenario occurred in 1976 when one young soldier died from a new form of flu that triggered fear and the subsequent development of a flu vaccine

It was a pandemic that never materialized and those who were the real victims were the roughly 450 people who developed

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-safety-review-eu-regulators-pfizer-moderna-astrazeneca-more-data%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11dGuillain-Barre syndrome](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-safety-review-eu-regulators-pfizer-moderna-astrazeneca-more-data%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11dGuillain-Barre%20syndrome)>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag%2Flong-shadow-1976-swine-flu-vaccine-fiasco->

180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%
, a rare neurological disorder, and the roughly 53

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>
who died from the vaccine.

The rush to produce the newest vaccine iteration ostensibly began in early 2020 after the WHO announced SARS-CoV-2 would produce a worldwide pandemic

and an early, flawed mathematical model

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cato.org%2Fblog%2Fhow-one-model-simulated-22-million-us-deaths-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>

predicted millions of deaths in America. Yet, this was not a medical product that fit the definition of a “vaccine.”

It was something never heard of before in vaccinology, based on an experimental mRNA technology that triggers your body to produce a spike protein

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-vaccine-spike-protein-travels-from-injection-site-organ-damage%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>. It was so new, in fact, that the CDC decided the definition of “vaccine” had to be changed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.citizensjournal.us%2Fthe-cdc-suddenly-changes-the-definition-of-vaccine-and-vaccination%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2F&isRedactedFrom=1>&isRedactedFrom=1>
and scientists were unsure of how the body would react to the genetic therapy injection.

While the swine flu injection was pulled after 45 million shots were given when 53 people died

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>, the COVID-19 injection will have a different history.

According to data from the Vaccine Adverse Events Reporting System (VAERS), collected by the CDC and U.S. Food and Drug Administration (FDA), there have been 21,002 deaths recorded

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fcdc-covid-vaccine-injuries-fda-pfizer-booster-kids%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d>
in conjunction with the COVID jabs as of Dec. 24, 2021

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>, 12 months after the first shot

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.washingtonpost.com%2Fna-covid-vaccines-new-york%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d>
was given in the U.S.

According to Bloomberg

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bloomberg.com%2Fgraphics-vaccine-tracker-global-distribution%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2F>, as of Dec. 23, 2021, there have been 499 million doses given in America.

It is difficult to compare these numbers since two of the three available COVID shots require a double shot, so there haven't been 497 million people vaccinated. Yet, the adverse events and deaths are also occurring after just one shot.

Taken at face value, the U.S. shut down the vaccination program in 1976 after 0.000117% of people died, while the VAERS estimate is that 0.00407% of people have died after a COVID injection (using Bloomberg's Dec. 21 dose numbers of 497 million).

In other words, based on the percentage of people who have died, 3,378% more died after the COVID injection than from the swine flu injection. There have been 965,841 adverse events reported, including permanent disabilities and heart attacks in young people

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-moderna-pfizer-covid-vaccine-teens-mycarditis%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%3F>

*

It is important to note that the trial is listed in Clinical Trials

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2Fstudy%2Fresults)
as a phase 1-2-3 study. Phase 1 trials are generally concerned
<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmed.uc.edu%2Fdepart%2Fpsychia](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmed.uc.edu%2Fdepart%2Fpsychiatry%2Fresearch%2FCrm%2FTrial-phases-1-2-3-defined&data=04%7C01%7Ccwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0c69542434240a03f%7C)

with establishing drug safety and dose range in a small number of healthy volunteers.
Phase 2 trials determine the effectiveness of the drug using approximately 100 to 300
volunteers and often last from several months to two years.

Phase 3 studies are the final evaluation performed over multiple centers with up to several thousand patients to test the drug safety and efficacy. A search of the Clinical Trials database shows only one study

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fresult%2F3&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>
in several hundred thousand studies listed that are simultaneously in Phase 1, 2 and 3.

But not all parents and scientists are appalled by the experimentation on 6-month-old babies in the face of massive adverse events and permanent damage to adults.

One mother and epidemiologist, Katelyn Jetelina, wrote

"As a mom, I was shocked and heartbroken. My girls were so close to getting their shot. We've waited so long and really needed a win."

Children are not at risk from COVID

Despite low rates of infection and death, the American Academy of Pediatrics calls "vaccines our best hope to end the COVID-19 pandemic"

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fhealthychildren.org%2FEnglish%2Ftools%2Fask-the-pediatrician%2FPages%2Fwhen-can-children-get-the-COVID-19-vaccine.aspx&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>.” However, we do know that the risk to children birth to 17 years is so small as to be inconsequential.

The CDC reports

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fdatabriefs%2Fdocument/c689684-2Fv1&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>

a total number of deaths in 2020 and 2021 from COVID-19 in this age group as 668 as of Dec. 23, 2021. One study

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/rsos-2021-00000/figures?fulltext=true>>

689684%2Fv1&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C

posted July 7, 2021, looked at deaths in the U.K. during the first 12 months of the pandemic and found that 99.995% of children survived.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/fulltext/2689684%2Fv1&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7B>
absolute mortality rate for children.

To compare the number of deaths from COVID illness against those who have died from the genetic therapy injection, we must address the known under-reporting factor (URF) in VAERS

The VAERS document

Several factors likely contribute to the URF, including the length of the form, lack of knowledge of the system and a growing physician shortage

One investigative team updated the URF

Using an engineering analysis of the available data and judgment based on peer-reviewed literature and expertise of the scientists, a URF of 41

One of the paper's writers, Steve Kirsch, recognized the URF would affect the number of children who died after taking the vaccine versus the number who have died from the illness. He used CDC data ending Dec. 8, 2021, which showed 757 children younger than 18 were casualties of COVID-19. As of Dec. 22, 2021, that number had grown to 790

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCCHS%2FProvisi>
COVID-19-Deaths-Focus-on-Ages-0-18-Yea%2Fnr4s-

juj3&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21 casualties.

He then found 32 deaths

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstevekirsch.substack.com%2Fp%2Fnow-killed-close-to-twice-as&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217> from the vaccine in VAERS data ending Dec. 3, 2021. Using the URF of 41 and the data Kirsch took from VAERS and the CDC, this suggests there have been 1,312 deaths that likely were caused by the injection as compared to the 757 deaths caused by the illness.

If you do the math, this means the shot has killed roughly 173% more children than the illness.

Using the same URF of 41 and the VAERS data

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21> ending Dec. 10, 2021, we can estimate there are likely 39,599,481 adverse events and 830,004 deaths caused by the injection.

This is vitally important as the total number of deaths recorded for COVID-19 as of Dec. 22, 2021

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2F2019-2020&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>, is 807,787. This means the shot possibly has killed more children and adults than the virus, and in less time.

Additionally, when you look at the data from the CDC

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2F2019-2020&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>, you note that there were 36,931 more deaths recorded in 2021 after the release of the vaccine than in 2020 when the illness first emerged from Wuhan.

Although WHO didn't declare the pandemic until March 2020, the U.S. has reclassified

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.livescience.com%2Ffirst-us-covid-19-death-january-2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21> deaths before that, finding the first from COVID happened Jan. 9, 2020.

Urgent: 3 Ways to Help Stop Biden's Vaccine Mandates

“Even if we were to assume this protection does exist, the number of children that would need to be vaccinated to protect just one adult from a bout of severe covid-19 — considering the low transmission rates, the high proportion of children already being post-covid, and most adults being vaccinated or post-covid — would be extraordinarily high.

"Moreover, this number would likely compare unfavorably to the number of children that would be harmed, including for rare serious events. A separate, but crucial question is one of ethics. Should society be considering vaccinating children, subjecting them to any risk, not for the purpose of benefiting them but in order to protect adults? We believe the onus is on adults to protect themselves."

Doshi was even more blunt in his June 10, 2021, public comment

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.youtube.com%2Fwatch%3Fv=...> to the FDA's Vaccines and Related Biological Products Advisory Committee. There, he pointed out that the FDA can only authorize the use of a medical product in a population if the benefit outweighs the risk in that same population.

This means that even if adults were to benefit, the COVID shots cannot be authorized for children unless children will actually benefit from it themselves. In the case of COVID-19 injections, children cannot benefit, seeing how they only have a 0.005% risk of death in the first place.

Healthy children have died shortly after the jabs and dozens of cases of heart inflammation have been reported.

Since when, in the history of public health, have children been sacrificed to protect the sick and elderly? Public health authorities have completely reversed the conventional risk/reward analysis. Historically, vaccines have been pulled after reported damage

At no other time in history have "vaccines" been created and distributed with such impunity.

The closest scenario occurred in 1976 when one young soldier died from a new form of flu that triggered fear and the subsequent development of a flu vaccine

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag%2Flong-shadow-1976-swine-flu-vaccine-fiasco-180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719> aimed at 80% of the American public. While the World Health Organization (WHO) took a "wait and see" approach, the Centers for Disease Control and Prevention (CDC) jumped in with both feet.

It was a pandemic that never materialized and those who were the real victims were the roughly 450 people who developed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeaths-after-covid-vaccine-safety-review-eu-regulators-pfizer-moderna-astrazeneca-more-180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719> Guillain-Barre syndrome

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.smithsonianmag.com%2Fsmithsonianmag%2Flong-shadow-1976-swine-flu-vaccine-fiasco-180961994%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719>, a rare neurological disorder, and the roughly 53

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719> who died from the vaccine.

The rush to produce the newest vaccine iteration ostensibly began in early 2020 after the WHO announced SARS-CoV-2 would produce a worldwide pandemic

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ncbi.nlm.nih.gov%2Fpubmed%2F32229068> and an early, flawed mathematical model

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cato.org%2Fblog%2Fhow-one-model-simulated-22-million-us-deaths-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21719>

predicted millions of deaths in America. Yet, this was not a medical product that fit the definition of a “vaccine.”

It was something never heard of before in vaccinology, based on an experimental mRNA technology that triggers your body to produce a spike protein

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-vaccine-spike-protein-travels-from-injection-site-organ-damage%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>. It was so new, in fact, that the CDC decided the definition of “vaccine” had to be changed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.citizensjournal.us%2Fthe-cdc-suddenly-changes-the-definition-of-vaccine-and-vaccination%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2F&isRedactedFrom=1>&isRedactedFrom=1>
and scientists were unsure of how the body would react to the genetic therapy injection.

While the swine flu injection was pulled after 45 million shots were given when 53 people died

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>, the COVID-19 injection will have a different history.

According to data from the Vaccine Adverse Events Reporting System (VAERS), collected by the CDC and U.S. Food and Drug Administration (FDA), there have been 21,002 deaths recorded

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fcdc-covid-vaccine-injuries-fda-pfizer-booster-kids%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d>
in conjunction with the COVID jabs as of Dec. 24, 2021

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>, 12 months after the first shot

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.washingtonpost.com%2Fna-covid-vaccines-new-york%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d>
was given in the U.S.

According to Bloomberg

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bloomberg.com%2Fgraphics%2Fvaccine-tracker-global-distribution%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2F%2F&context=1>, as of Dec. 23, 2021, there have been 499 million doses given in America.

It is difficult to compare these numbers since two of the three available COVID shots require a double shot, so there haven't been 497 million people vaccinated. Yet, the adverse events and deaths are also occurring after just one shot.

Taken at face value, the U.S. shut down the vaccination program in 1976 after 0.000117% of people died, while the VAERS estimate is that 0.00407% of people have died after a COVID injection (using Bloomberg's Dec. 21 dose numbers of 497 million).

In other words, based on the percentage of people who have died, 3,378% more died after the COVID injection than from the swine flu injection. There have been 965,841 adverse events reported, including permanent disabilities and heart attacks in young people

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-moderna-pfizer-covid-vaccine-teens-myocarditis%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%2F>

. And yet, stakeholders in the shot insist the next generation of Americans must take it.

Pfizer announced youngest kids not responding to the shot

Pfizer has been working on a clinical trial

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow9>
to evaluate the safety of the mRNA jab in healthy children, intending to create a dose for
children 6 months and older. Endpoints reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline-farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1>
Pfizer recently announced “non-inferiority was not met for children between the ages of 2
and 5 when compared to older teenagers in the current trial.”

Originally, the company hoped to apply for an emergency use authorization (EUA) for the
youngest by the end of December 2021. However, since the data have not proven
successful, they hope to submit for the EUA “in the first half of 2022

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline-farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1>
,” one short year after starting the experiment.

The company said

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.pfizer.com%2Fnews%2Fpress-release%2Fpress-release-detail%2Fpfizer-and-biontech-provide-update-ongoing-studies-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
it has made a shift to giving three doses in smaller amounts to raise the immune
response. They explain the decision this way:

“Compared to the 16- to 25-year-old population in which high efficacy was
demonstrated, non-inferiority was met for the 6- to 24-month-old population but not for
the 2- to under 5-year-old population in this analysis ...

“The decision to evaluate a third dose of 3 µg for children 6 months to under 5 years of
age reflects the companies’ commitment to carefully select the right dose to maximize
the risk-benefit profile ...

“Pfizer and BioNTech also plan to evaluate a third dose of the 10 µg formulation in
children 5 to under 12 years of age.”

If the two-dose regimen makes the changes to the immune system in the 6- to 24-
months group and 5- to 12-year age groups that the company is looking for, why move
to a three-dose regimen for them if not for financial gain?

Despite low rates of infection and death, the American Academy of Pediatrics calls "vaccines our best hope to end the COVID-19 pandemic"

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fhealthychildren.org%2FEnglish%2Ftools%2Fask-the-pediatrician%2FPages%2Fwhen-can-children-get-the-COVID-19-vaccine.aspx&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>.” However, we do know that the risk to children birth to 17 years is so small as to be inconsequential.

The CDC reports

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpub%2Fpub_2021%2Fpub_2021_06%2Fpub_2021_06_01_a_total_number_of_deaths_in_2020_and_2021_from_COVID-19_in_this_age_group_as_668_as_of_Dec._23,_2021

a total number of deaths in 2020 and 2021 from COVID-19 in this age group as 668 as of Dec. 23, 2021. One study

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/689684%2Fv1&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7>
posted July 7, 2021, looked at deaths in the U.K. during the first 12 months of the
pandemic and found that 99.995% of children survived.

Between March 2020 and February 2021 only 25 children under the age of 18 had died in the U.K. as a direct result of the infection. The researchers found there were 61 children with positive test results, but 36 deaths were attributed to other causes. This is a 2-in-1 million

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/fulltext/689684%2Fv1&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7>
absolute mortality rate for children.

More children have died from the shot than the illness

To compare the number of deaths from COVID illness against those who have died from the genetic therapy injection, we must address the known under-reporting factor (URF) in VAERS

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2Freportevent.htm>
 , which is a passive reporting system
 <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeaths-and-tv-doctors-scientists-brian-hooker-jessica-rose-vaers-system%2F&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1>
 and the only area where the public can voluntarily report adverse events, including death.

The VAERS document

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2FuploadFile%2F> is long and time-consuming, and while much of the information is necessary, the form can easily become overwhelming when doctors have multiple patients with adverse events

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.catholicworldreport.com%2Fblow-the-whistle-on-vaccine-deaths-and-injuries%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1>
from the COVID-19 shot.

Several factors likely contribute to the URF, including the length of the form, lack of knowledge of the system and a growing physician shortage

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.aamc.org%2Fnews-insights%2Fus-physician-shortage-growing&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>

One investigative team updated the URF

<<https://qcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2Fcovid%2FDe>

"fewer than 1% of vaccine adverse events are reported."

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2F covid%2FDe>
was determined.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCHS%2FProvisi
COVID-19-Deaths-Focus-on-Ages-0-18-Yea%2Fnr4s-
juj3&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21
casualties.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstevekirsch.substack.com%2Fp%2Fnow-killed-close-to-twice-as-many-as-the-vaccine-from-the-vaccine-in-VAERS-data-ending-Dec.-3.-2021.-Using-the-URF-of-41-and-the-data-Kirsch-took-from-VAERS-and-the-CDC.-this-suggests-there-have-been-1%2C312-deaths-that-likely-were-caused-by-the-injection-as-compared-to-the-757-deaths-caused-by-the-illness.->

If you do the math, this means the shot has killed roughly 173% more children than the illness.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F covid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21> ending Dec. 10, 2021, we can estimate there are likely 39,599,481 adverse events and 830,004 deaths caused by the injection.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpubl%2Fpub_000006.htm, is 807,787. This means the shot possibly has killed more children and adults than the virus, and in less time.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss/>
 , you note that there were 36,931 more deaths recorded in 2021 after the release of the
 vaccine than in 2020 when the illness first emerged from Wuhan.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.livescience.com%2Ffirst-us-covid-19-death-january-2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-stop-biden-vaccine->

An opinion piece in The BMJ

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>>
by Peter Doshi, Elia Abi-Jaoude and Claudina Michal-Teitelbaum highlight why we must not force children to take the COVID shot simply because it might help vulnerable adults.

They write

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>>
:

“Even if we were to assume this protection does exist, the number of children that would need to be vaccinated to protect just one adult from a bout of severe covid-19 — considering the low transmission rates, the high proportion of children already being post-covid, and most adults being vaccinated or post-covid — would be extraordinarily high.

“Moreover, this number would likely compare unfavorably to the number of children that would be harmed, including for rare serious events. A separate, but crucial question is one of ethics. Should society be considering vaccinating children, subjecting them to any risk, not for the purpose of benefiting them but in order to protect adults? We believe the onus is on adults to protect themselves.”

Doshi was even more blunt in his June 10, 2021, public comment

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.youtube.com%2Fwatch%3Fv=to-the-FDA's-Vaccines-and-Related-Biological-Products-Advisory-Committee>>. There, he pointed out that the FDA can only authorize the use of a medical product in a population if the benefit outweighs the risk in that same population.

This means that even if adults were to benefit, the COVID shots cannot be authorized for children unless children will actually benefit from it themselves. In the case of COVID-19 injections, children cannot benefit, seeing how they only have a 0.005% risk of death in the first place.

Healthy children have died shortly after the jabs and dozens of cases of heart inflammation have been reported.

Since when, in the history of public health, have children been sacrificed to protect the sick and elderly? Public health authorities have completely reversed the conventional risk/reward analysis. Historically, vaccines have been pulled after reported damage

At no other time in history have “vaccines” been created and distributed with such impunity.

The closest scenario occurred in 1976 when one young soldier died from a new form of flu that triggered fear and the subsequent development of a flu vaccine

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ncbi.nlm.nih.gov%2Fpubmed%2F32328738&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
and an early, flawed mathematical model
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cato.org%2Fblog%2Fhow-one-model-simulated-22-million-us-deaths-covid-19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
predicted millions of deaths in America. Yet, this was not a medical product that fit the definition of a “vaccine.”

It was something never heard of before in vaccinology, based on an experimental mRNA technology that triggers your body to produce a spike protein
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdealing-with-covid-vaccine-spike-protein-travels-from-injection-site-organ-damage%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
. It was so new, in fact, that the CDC decided the definition of “vaccine” had to be changed
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.citizensjournal.us%2Fthe-cdc-suddenly-changes-the-definition-of-vaccine-and-vaccination%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
and scientists were unsure of how the body would react to the genetic therapy injection.

While the swine flu injection was pulled after 45 million shots were given when 53 people died
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.foxnews.com%2Fopinion%2Fcarlson-how-many-americans-have-died-after-taking-the-covid-vaccine&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
, the COVID-19 injection will have a different history.

According to data from the Vaccine Adverse Events Reporting System (VAERS), collected by the CDC and U.S. Food and Drug Administration (FDA), there have been 21,002 deaths recorded
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdealing-with-covid-vaccine-injuries-fda-pfizer-booster-kids%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
in conjunction with the COVID jabs as of Dec. 24, 2021
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-19-vaccine-adverse-events&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
, 12 months after the first shot
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.washingtonpost.com%2Fhealth/covid-vaccines-new-york%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>
was given in the U.S.

According to Bloomberg
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bloomberg.com%2Fgraphics/interactive/covid-vaccine-tracker-global%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217>

distribution%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%
, as of Dec. 23, 2021, there have been 499 million doses given in America.

It is difficult to compare these numbers since two of the three available COVID shots require a double shot, so there haven't been 497 million people vaccinated. Yet, the adverse events and deaths are also occurring after just one shot.

Taken at face value, the U.S. shut down the vaccination program in 1976 after 0.000117% of people died, while the VAERS estimate is that 0.00407% of people have died after a COVID injection (using Bloomberg's Dec. 21 dose numbers of 497 million).

In other words, based on the percentage of people who have died, 3,378% more died after the COVID injection than from the swine flu injection. There have been 965,841 adverse events reported, including permanent disabilities and heart attacks in young people

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde/moderna-pfizer-covid-vaccine-teens-mycarditis%2F&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%2E>. And yet, stakeholders in the shot insist the next generation of Americans must take it.

Pfizer announced youngest kids not responding to the shot

Pfizer has been working on a clinical trial

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2Fstudy/NCT04687971&cid=7d9c1e3f-4010-46be-99bb-cc506d0a223d>
to evaluate the safety of the mRNA jab in healthy children, intending to create a dose for
children 6 months and older. Endpoints reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline->

farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1
Pfizer recently announced "non-inferiority was not met for children between the ages of 2
and 5 when compared to older teenagers in the current trial."

Originally, the company hoped to apply for an emergency use authorization (EUA) for the youngest by the end of December 2021. However, since the data have not proven successful, they hope to submit for the EUA "in the first half of 2022

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fendpts.com%2Fpfizer-plans-to-trial-a-third-shot-for-its-covid-19-vaccine-in-the-youngest-kids-pushing-back-its-timeline->

farther%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1
," one short year after starting the experiment.

The company said

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.pfizer.com%2Fnews%2Fpress-release%2Fpress-release-detail%2Fpfizer-and-biontech-provide-update-ongoing-studies-covid-19%2Fpfizer-and-biontech-provide-update-ongoing-studies-covid-19>

19&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e217
it has made a shift to giving three doses in smaller amounts to raise the immune
response. They explain the decision this way:

"Compared to the 16- to 25-year-old population in which high efficacy was demonstrated, non-inferiority was met for the 6- to 24-month-old population but not for the 2- to under 5-year-old population in this analysis ...

"The decision to evaluate a third dose of 3 µg for children 6 months to under 5 years of age reflects the companies' commitment to carefully select the right dose to maximize the risk-benefit profile ...

"Pfizer and BioNTech also plan to evaluate a third dose of the 10 µg formulation in children 5 to under 12 years of age."

If the two-dose regimen makes the changes to the immune system in the 6- to 24-months group and 5- to 12-year age groups that the company is looking for, why move to a three-dose regimen for them if not for financial gain?

*

* Ema

Pfizer pushing the envelope with a phase 1-2-3 trial

It is important to note that the trial is listed in Clinical Trials

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fclinicaltrials.gov%2Fct2%2Fshow%2Fstudy%2F00000001>>
as a phase 1-2-3 study. Phase 1 trials are generally concerned
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmed.uci.edu%2Fdepartments%2Fpsychiatry%2Fresearch%2Fcrim%2Ftrial-phases-1-2-3-defined&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>>
research%2Fcrim%2Ftrial-phases-1-2-3-
defined&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0
with establishing drug safety and dose range in a small number of healthy volunteers.
Phase 2 trials determine the effectiveness of the drug using approximately 100 to 300
volunteers and often last from several months to two years.

Phase 3 studies are the final evaluation performed over multiple centers with up to several thousand patients to test the drug safety and efficacy. A search of the Clinical Trials database shows only one study

[illegible]

But not all parents and scientists are appalled by the experimentation on 6-month-old babies in the face of massive adverse events and permanent damage to adults.

One mother and epidemiologist, Katelyn Jetelina, wrote

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fyourlocalepidemiologist.substack.com/did-the-pfizer-young-kids-trial&data=04%7C01%7Cwsboh%40soh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>
she finds comfort that the clinical trial found errors and was surprised when it failed. She wrote
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fyourlocalepidemiologist.substack.com/did-the-pfizer-young-kids-trial&data=04%7C01%7Cwsboh%40soh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>

"As a mom, I was shocked and heartbroken. My girls were so close to getting their shot. We've waited so long and really needed a win."

Children are not at risk from COVID

Despite low rates of infection and death, the American Academy of Pediatrics calls "vaccines our best hope to end the COVID-19 pandemic"

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fhealthychildren.org%2FEnglish%2Ftools%2Fask-the-pediatrician%2FPages%2Fwhen-can-children-get-the-COVID-19-vaccine.aspx&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>.” However, we do know that the risk to children birth to 17 years is so small as to be inconsequential.

The CDC reports

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fncchs%2Fnvss%2Fpub%2Fpub_2020_006%2Fpub_2020_006.pdf
a total number of deaths in 2020 and 2021 from COVID-19 in this age group as 668 as of
Dec. 23, 2021. One study

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/689684%2Fv1&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C34b35479232a4125455e08d9d240a03f%7>
posted July 7, 2021, looked at deaths in the U.K. during the first 12 months of the
pandemic and found that 99.995% of children survived.

Between March 2020 and February 2021 only 25 children under the age of 18 had died in the U.K. as a direct result of the infection. The researchers found there were 61 children with positive test results, but 36 deaths were attributed to other causes. This is a 2-in-1 million

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.researchsquare.com%2Farticle/fulltext/689684%2Fv1&data=04%7C01%7Cwsboh%40soh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7B>
absolute mortality rate for children.

More children have died from the shot than the illness

To compare the number of deaths from COVID illness against those who have died from the genetic therapy injection, we must address the known under-reporting factor (URF) in VAERS

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2Freportevent.htm>, which is a passive reporting system
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdev-tv-doctors-scientists-brian-hooker-jessica-rose-vaers-system%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1> and the only area where the public can voluntarily report adverse events, including death.

The VAERS document

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2FuploadFile%2F> is long and time-consuming, and while much of the information is necessary, the form can easily become overwhelming when doctors have multiple patients with adverse events

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.catholicworldreport.com%2Fblow-the-whistle-on-vaccine-deaths-and-injuries%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C1>
from the COVID-19 shot.

Several factors likely contribute to the URF, including the length of the form, lack of knowledge of the system and a growing physician shortage

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.aamc.org%2Fnews-insights%2Fus-physician-shortage-growing&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0>

One investigative team updated the URF

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2Fcovid%2FDe>
in November 2021. The original number had been set in an early grant report submitted
by the U.S. Department of Health and Human Services, stating
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fimages%2Fr1>
lazarus-final-report-
20116.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11
"fewer than 1% of vaccine adverse events are reported."

Using an engineering analysis of the available data and judgment based on peer-reviewed literature and expertise of the scientists, a URF of 41
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.skirsch.com%2Fcovid%2FDe>
was determined.

One of the paper's writers, Steve Kirsch, recognized the URF would affect the number of children who died after taking the vaccine versus the number who have died from the illness. He used CDC data ending Dec. 8, 2021, which showed 757 children younger than 18 were casualties of COVID-19. As of Dec. 22, 2021, that number had grown to 790

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdata.cdc.gov%2FNCCHS%2FProvisi>

COVID-19-Deaths-Focus-on-Ages-0-18-Yea%2Fnr4s-

juj3&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21

casualties.

He then found 32 deaths
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fstevekirsch.substack.com%2Fp%2Fnow-killed-close-to-twice-as-many-as-the-vaccine-in-vaers-data-ending-dec-3-2021-using-the-urf-of-41-and-the-data-kirsch-took-from-vaers-and-the-cdc-this-suggests-there-have-been-1312-deaths-that-likely-were-caused-by-the-injection-as-compared-to-the-757-deaths-caused-by-the-illness>
from the vaccine in VAERS data ending Dec. 3, 2021. Using the URF of 41 and the data
Kirsch took from VAERS and the CDC, this suggests there have been 1,312 deaths that
likely were caused by the injection as compared to the 757 deaths caused by the illness.

If you do the math, this means the shot has killed roughly 173% more children than the illness.

Using the same URF of 41 and the VAERS data
 <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F covid-data&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21>
 ending Dec. 10, 2021, we can estimate there are likely 39,599,481 adverse events and
 830,004 deaths caused by the injection.

This is vitally important as the total number of deaths recorded for COVID-19 as of Dec.
22, 2021
<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpub%2Fpub_2018%2Fpub_2018_06%2Fpub_2018_06_001%2Fpub_2018_06_001.pdf)
, is 807,787. This means the shot possibly has killed more children and adults than the
virus, and in less time.

Additionally, when you look at the data from the CDC
https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fnchs%2Fnvss%2Fpub%2Fpub_2021%2Fpub_2021_06%2Fpub_2021_06_01%2Fpub_2021_06_01_01.pdf
 , you note that there were 36,931 more deaths recorded in 2021 after the release of the vaccine than in 2020 when the illness first emerged from Wuhan.

Although WHO didn't declare the pandemic until March 2020, the U.S. has reclassified
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.livescience.com%2Ffirst-us-covid-19-death-january-2020.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11>
deaths before that, finding the first from COVID happened Jan. 9, 2020.

Despite the readily available data, the American Academy of Pediatrics, CDC, FDA and others continue to call for vaccination in the most vulnerable in the population: our children. Their developing immune system and inability to protect themselves create a vulnerability that opens them up to unfathomable damage.

Sadly, medical professionals who express their concern are roundly ignored, despite the growing number of those health care professionals who are stepping forward. Among them is cardiac surgeon and patient advocate Dr. Hooman Noorhashm, who sent a public letter

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcitizenwells.substack.com%2Fp%2Fletter-of-warning-to-fda-and-pfizer&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2>
to the FDA commissioner in January 2021.

In it, he detailed the risks of vaccinating individuals who have previously been infected with SARS-CoV-2, or who have an active SARS-CoV-2 infection. It was subsequently removed

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fnoorchashm.medium.com%2Fpublic-letter-to-fda-commissioner-dr-c2728667c0bb&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>
from Medium.com.

Immunologist Dr. Bart Classen also warned in early 2021 there is troubling evidence suggesting some mRNA shots may cause prion diseases

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fscivisionpub.com%2Fpdfs%2Fconvrna-based-vaccines-and-the-risk-of-prion-disease-1503.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d>
such as Alzheimer's and ALS, and Dr. J. Patrick Whelan, a pediatric rheumatologist specializing in multisystem inflammatory syndrome, has expressed concern about mRNA shots' ability to cause

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fwp-content%2Fuploads%2FWhelan-FDA-letter-re-EAU-Pfizer-.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e21

"microvascular injury to the brain, heart, liver and kidneys in a way that is not currently being assessed in safety trials."

Health officials are telling parents that children should be vaccinated for the sake of herd immunity. What is largely ignored are the studies that show children are not driving the pandemic and, in fact, appear less likely

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpublications.aap.org%2Fpediatrics-19-Transmission-and-Children-The-Child-Is&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172> to transmit the virus than adults. Children's Health Defense, The Defender notes
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-immunity-myth-covid-vaccines-kids-deceptive-dangerous%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C11d0e2172>
:

"In short, public health leaders say, parents must 'vaccinate the young to protect the old.' Given the federal government's estimate that one vaccine injury results from every 39 vaccines administered, it seems clear that officials expect children to shoulder 100% of the risks of COVID vaccination in exchange for zero benefit."

An opinion piece in The BMJ

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%2F01%2F19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fblogs.bmj.com%2Fbmj%2F2021%
19-vaccines-for-children-hypothetical-benefits-to-adults-do-not-outweigh-risks-to-
children%2F&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C34b35479232a4125455e08d9d240a03f%7C
:

"Moreover, this number would likely compare unfavorably to the number of children that would be harmed, including for rare serious events. A separate, but crucial question is one of ethics. Should society be considering vaccinating children, subjecting them to any risk, not for the purpose of benefiting them but in order to protect adults? We believe the onus is on adults to protect themselves."

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.youtube.com%2Fwatch%3Fv=9UW8tYDQd6E>
to the FDA's Vaccines and Related Biological Products Advisory Committee. There, he pointed out that the FDA can only authorize the use of a medical product in a population if the benefit outweighs the risk in that same population.

Healthy children have died shortly after the jabs and dozens of cases of heart inflammation have been reported.

COUNTRY WITHOUT BEING VETTED FOR DISEASE, AND FLOWN AROUND THE COUNTRY AND DROPPED OFF~

This is all an ABUSE OF POWER ~ IT NEEDS TO STOP AND IT NEEDS TO STOP WITH YOU ALL!

I CHOOSE WHAT GOES IN MY CHILDRENS BODYS AND MY OWN NOT THE GOVERNMENT!! QUIT BULLYING PEOPLE INTO THIS TO KEEP THEIR JOBS~ Its is unethical and against the CONSTITUTION OF THE UNITED STATES~ IF YOU LOOK IT UP.

THE NUREMBERG CODE (1948) DOES THAT RING A BELL?? ALL THOSE PUSHING THE COVID 19 ILLEGAL VACCINE ARE IN VIOLATION AND ARE SUBJECT TO ARREST

ALL WHO VIOLATE THE CODE ARE ALSO SUBJECT TO OTHER PENALTYS~

I PRAY YOU STICK TO YOUR OATHS TO THE CONSTITUTION AND TO THE PEOPLE IN THE STATE OF WASHINGTON NOT TO IMPLEMENT ANY OF THESE CODES AND HOPE YOU COME TO YOUR SENSES ABOUT MASKING OUR CHILDREN~ YOU WILL ALL BE HELD ACCOUNTABLE! CRIMES AGAINST HUMANITY.

To Whom It May Concern,

I am a nurse who recently had to make the decision to take a "vaccine" for covid in the next few months. I did some research to find out what I may be putting into my body.

There are so many medical professionals, government officials and opinions involved in requiring me to take this shot, whom I do not trust, therefore my research gave me pause.

Secondly, I saw that nobody in authority was talking about treatment! Why not? In the past, a new diagnosis that comes out has a flurry of studies to find treatments.

And lastly, I looked at the new technology in the shot, has it successfully run through trial, is it approved by those in authority? No to all of those.

I have spent a day exploring the VAERS government reporting site and I am completely appalled that this much death and injury has occurred. And our government still wants to mandate it? There were so many deaths in young people just hours and days after receiving a second dose of the shot. Page after page were the same stories of severe vomiting, cerebral hemorrhage, cardiac arrest, clotting, all resulted in death. I focused my search on young people ages 17-40 because there were too many in the older population to go through.

My concern is now for what the government wants to do to our children. Wow, that was a scary sentence. There are millions of concerned parents that do not want our children and grandchildren to receive this shot. Children do not need the covid vaccine and it will kill and injure more of them than it will help as revealed in my research.

- Children only have a .02% chance of dying from this illness and the children that died had other comorbidity. Most children have only mild cold or flu like symptoms. The shot will have worse effects than covid.

- The total count of death and injury by the shot from the VAERS reporting site has, as of Jan 7, 2022 exceeded one million injured and dead.

- Hundreds of thousand that have had the shot series, even up to 3 shots have still contracted covid.

- There are effective treatments that are proven to work for covid and will work for our

children. Natural immunity has not been taken into consideration by the government, which has proven to be effective.

Please consider these words and do not subject our children and grandchildren to harmful injections.

Sincerely,

Shauna Sams, now retired RN who has a new job of fighting for our future generation,

To whom it may concern,
Data shows coronavirus numbers diminished re: severity of the illness. Variants are bringing an end to the pandemic. Vaccinated and unvaccinated are able to both contract and pass on coronavirus.
Let the variants run their course and leave the citizens free to get back to normal.
Placing American citizens in encampments is the line you don't want to cross. People won't allow it to happen to fellow Americans.
Thank you for upholding the oath you swore to protect all citizens.

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

1. Detainment for Covid 2. Mandated immunization for schools

11.

Are you Pro or Con on the proposal?

2. Con

1. This is not something tax money should be going to, detainment is an extreme measure that is completely unnecessary in the current circumstances. Though many people are contracting the new variant, it is not causing severe symptoms and there are way less hospitalizations with the new strand. 2. This vaccination has just been released and should not be mandated for children when we do not know the long term effects. Most parents will refuse and pull their children out of school completely, which will in turn be detrimental to the education of many students, they are already struggling catching up from the schools being closed to start with.

Subject: Vaccines

External Email

This is to inform you of my objections to proposed WACs from DOH.

Vaccines are emergency use authorization only. Mandates are not laws. Masks don't work. Vaccines are not working. People, adults and children are dying from the vaccines. Check the news & the VAERS REPORTS. Subscribe to Robert F. Kennedy's newsletters: "Children's Health Defense" - Children have a 99%+ chance of surviving flu, Covid19, delta, omicron and whatever other disease you come up with. Most of us have a huge chance of surviving anything out there unless it's manufactured and injected into a person.

What happened to two weeks to flatten the curve? Two years later we are still Wearing those masks that don't work. What happened to herd immunity? What happened to suggesting, AS YOU SHOULD, good healthy eating, supplements of vitamin C, D, zinc, etc. and good exercise? Love and family is naturally healing as well.

You're still separating everyone!?!?! What is wrong with you people??? Have you lost your collective minds?????

This is The United States of America. We are free citizens. You work for us. This is not 1940 Nazi Germany. You're guilty of crimes against humanity. The consequences are Nuremberg Trials 2.0.

I do not submit. I will not comply.

America is waking up !!! Stop ☐The NONSENSE !!

Suze

Subject: Concerned Parent

External Email

Hi WSBOH-

My name is Scott Rice. I lead a data analytics team for one of the most prominent data-focused tech companies in the world, and I'm also the proud parent of 2 young children. I'm writing to you today to ask you not to add COVID-19 to the list of required vaccines for K-12 education.

Broadly speaking, I'm in favor of our non-COVID vaccine requirements for kids. When we were searching for a daycare for our daughter prior to our current pandemic, we specifically sought one that required the normal array of vaccines. I took a COVID vaccine because the risk-reward profile made sense to me for a 29 year old. However, I have serious concerns about mandating the COVID-19 vaccine in young children.

1) The cost-benefit ratio is not clear.

Benefits: While the adult studies measured what matters (mortality), the Pfizer study in kids didn't study mortality between the control and test groups

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.pfizer.com%2Fnews%2Fpress-release%2Fpress-release-detail%2Fpfizer-biontech-announce-positive-topline-results-pivotal&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C97c3d5c630ed42ab27ea08d9d24cf956%7C11d0e2>>

This is absolutely ridiculous. If you're going to force a vaccine on children, the burden is on you to prove that mortality substantially decreases, which has not been shown. Using the excuse that effect size is too small to capture in a study means you need a bigger study, because that is THE QUESTION at stake. When the polio vaccine was created, we enrolled 600k kids in a study and tested to see if it stopped kids from dying, and it did. This made it easy to convince parents to vaccinate their children, because parents do actually want what's best for their kids.

Costs: The vaccines appear to be largely safe in the short-term. It is unlikely that long-term effects could appear that aren't yet known, but not impossible. This risk makes sense to accept if the vaccine significantly reduces mortality, but that evidence does not exist. Unintended bad consequences can happen. Thalidomide babies happened.

2) There is significant and growing evidence that those vaccinated with COVID vaccines are able to contract and pass along COVID, so it would be untrue to argue that vaccinating students prevents them from passing it on to their family.

3) When you implement a requirement like this, you give parents two choices

Choice 1) vaccinate their child with a vaccine that hasn't been shown to reduce mortality and also hasn't been studied for even a year in children

Choice 2) remove them from school. Admittedly, if we homeschooled, my kids would learn enough statistics to understand why the Pfizer study was poorly designed, so I guess it's not a terrible option. But it's not right for every kid or every family.

4) Exemptions don't solve this. My objections meet the criteria for neither a medical or religious exemption, because the medical situation is not unique to my children, and because my concerns are not driven by religious beliefs (unless you consider it a religious belief to care about children).

Please do what's right and vote against requiring COVID vaccines for school aged children.

Good morning,

As a teacher and a mother, I am against the Covid-19 vaccine mandate. As a parent, it is my job to assure my child's safety. The Covid vaccine does not prevent someone from contracting Covid, nor from spreading it to others. Therefore, I do not see the point in mandating it. There are still too many unknowns about the future side effects, and there will be side effects because there are in anything we put into our bodies, to endanger our children. Please, do not add this vaccine to the mandatory list.

Sincerely,
Victoria Buss

To Whom It May Concern:

While COVID-19 is a hot issue in the public eye, it is not a communicable disease that presents any more threat to the health of our children than the common cold and flu that has been present for decades. Taking a vaccination that has been designed, created, and mass produced in a small period of time; while an acceptable risk to those who are immune-compromised or feeble; does not present with enough benefit to require healthy and un-compromised children to take the same risk. I and many like me within this area are financially capable of taking our tax dollars across the border into Idaho without the need for job relocation. The safety of our children is paramount in all of our minds and there is not enough data to support that these vaccinations do not present a risk to our healthy children in the future.

Greetings,

I am a resident of Washington of 20 years, and am writing to voice my concerns over the new proposals regarding forcibly detaining and quarantining people who do not comply with your Covid-19 regulations.

This is extremely unacceptable, unconstitutional, and a horrible precedent to set in this country. If this happens, it will be a big mistake, you will lose trust of not only your citizens, but soon your police force and other employees who have had enough. There will be strikes, non compliance, lawsuits, and the state of Washington will never look the same. Please, we are begging you to leave us alone. Follow the science, do not force us to do what we do not want to do. We have a right over our bodies. Support people's health, support the sick, but have we already forgotten the atrocities committed by governments all over the world who disregarded their people's freedom and attempted to control them? This is becoming more and more resembling of nazi Germany. You are losing people's trust, but if you refrain from these tyrannical tactics you will show us you actually care, and we will be more likely to support you going forward.

Do not split society. Do not let greed and power control you. Or you will see a mass migration out of the state just like in California.

Regards,
Reald Markokaj

I am appalled to even having to say this !!! You people are ridiculous. This so called pandemic is a lie !!! There is a 99.7 % chance of survival from this illness !!!! You have no right forcing any medical treatment on anyone !!! I have had enough of your communist, totalitarian crap ☐☐ You all belong in prison for the lives you have ruined and the people you have murdered with your experimental death shot !! We are not your guinea pigs !!! We all know you are liars. All open states are doing far better than you communist lock down states !!! It is against the Bill of Rights, the Constitution and the Nuremberg Code !!!! Stop playing Russian roulette with our lives!!!!

Good Morning,

I have major concerns!!!

I have lived in Washington over 60 years.

Worked in School districts for over 30 years.

I am writing you about the agenda for the January 12, 2022 meeting.

I am in opposition to the following.

- * Any involuntary isolation/quarantine of the people as described in parts of WAC 246.100
- * Any mandate on COVID vaccines for children as a requirement to attend K-12 public or private school.

This reminds be of the Japan interment camps right here in the U.S.

Please have some common sense

Sincerely,

Karla Atwood

Subject: Covid-19 Vaccine for Children

External Email

01/07/2022

Attention: Washington State Board of Health

My name is Zoe Gordley, I am a parent of four children who attend Meridian School District located in Bellingham, WA.

I understand that on January 12th 2022, you will be making a decision about a mandate for the Coronavirus vaccine for school aged children.

I do not think covid vaccinations should be made mandatory for children of Washington State for numerous reasons, some of which are:

1. The trial time for these vaccines hasn't even been completed. Pfizer's coronavirus vaccine has an estimated completion date of Jan 31, 2023 and Moderna's studies are expected to end Oct. 27, 2022. The vaccines are still under Emergency Use Authorization.

2. I believe the risks of the vaccine outweigh the benefits when it comes to children - children have a 99.995% survival rate from the covid infection and have a higher chance of death or adverse reaction to the vaccine than with covid.

3. My husband, biological father of my children, had an adverse reaction to the covid-19 vaccine that requires him to now be on a steroid, prednisone, and a nerve pain med, gabapentin, daily or he is paralyzed by pain. He has no diagnosis of what exactly the vaccine did to his body nor does he have a prognosis and no one cared to follow up once there had been an adverse reaction - we have actually witnessed media censorship on others with the same story. People DO have adverse reactions from the covid vaccine and I couldn't live with myself if anything like this happened to my children. There could also still be future side effects that haven't been recorded yet as 'there is no evidence at

this time' but it hasn't been around long enough either.

4. There are too many variables at this time - Things are changing everyday. Including but not limited to, the vaccine not working sufficiently on new variants, the covid virus being able to be transmitted even if children are vaccinated and the Omicron variant we are currently experiencing is 'less severe than its predecessors'.

Thank you for taking the time to read my email. I look forward to watching your meeting on Jan. 12th, 2022. If you have any questions or concerns about this email please feel free to contact me.

Folks:

I already commented but would like to add that people who have recovered from Covid and can show proof of acquired immunity by an antibody test should not be forced to take the vaccine.

Studies published in the scientific literature, which is the place to go to "follow the science," show that SARS-CoV-2 infection results in robust and lasting immunity.

For example:

Nature. 2021 Jul;595(7867):421-425. doi: 10.1038/s41586-021-03647-4. Epub 2021 May 24.

SARS-CoV-2 infection induces long-lived bone marrow plasma cells in humans

The attached policies absolutely go against our freedoms as human beings and should be ceased immediately. Local health departments should never have this much power, not to mention using law enforcement agencies to do your dirty work. Law Enforcement takes an oath of office to uphold rights of citizens, which includes medical/health decisions for themselves and their families. These attached policies are severe government overreach and will not be tolerated by the American people!

Subject: Infectious disease

☐ Good Morning,

I have concerns about you adding SARS-CoV-2 to the infectious disease list.

"Dr. Kary Mullis, Nobel Laureate and inventor of the PCR process said several years ago that "the PCR is a process. It does not tell you that you are sick." It was never meant to be a Covid test.

The CDC has retired It's PCR test as of 12/31/21. Stating "CDC encourages laboratories to consider adoption of a multiplexed method THAT CAN FACILITATE DETECTION AND DIFFERENTIATION OF SARS-CoV-2 AND INFLUENZA VIRUSES Such assays can facilitate continued testing for both influenza and SARS-CoV-2 and can save both time and resources as we head into influenza season".

Does this explain the disappearance of Flu cases in the US in 2020, and also inflated the COVID cases?

UPDATE 12. November 2021: FDA Alert: 2 Million At-home COVID-19 Tests Recalled Over False Positives

Are the new tests 100% accurate? Or just another EUA product?

Can you prove the virus has been isolated from the fluid of a sick person and shown to be different?

According to China's top CDC epidemiologist Dr. Wu Zunyou and others this hasn't been done.

Have you looked at the latest Vaccine Adverse Event Reporting System?

<https://openvaers.com/covid-data>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fcovid-data&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cb3abc0d8225949e6df4508d9d20b6f22%7C11d0>

1,000,227 reports of injury following coronavirus vaccines. This is unprecedented in the history of the U.S. vaccine program. Vaers only captures a small percentage of injuries and death. Most go unreported.

In Gibraltar, 100% of adults are fully vaccinated against Covid-19 and yet new cases are exploding, Why?

Please do the right thing, respect the individual rights and freedoms for Washington State citizens in regards to their health choices.

Sincerely,
Joanne Snodgrass

To whom it may concern:

WAC should not be changed. Per Dr. Fauci and several other leading immunologist, with this latest wave and with historical president, Covid crises is about over. Everyone I know has either been vaccinated or has had Covid recently. The few that have not been vaccinated have medical reasons to not get vaccinated and take extreme precautions. Though the health risk is small with vaccination, that risk is more than some people can endure or should have to. Every concerned individual has been vaccinated and is protected from major complications and death. Do not do this. Do not incarcerate or threaten to incarcerate individuals who are unable to vaccinate for whatever their reason may be.

I do not want the Covid 19 vaccine mandated for kids until there has been several years of long term studies. The risk to kids is too low to mandate the vaccine without having all the information on the vaccines. The pharmaceutical companies have not released all of the data. The risk does not warrant this vaccine being mandated for kids. Do not include this is WAC 246-105.

9.

Do you have any special expertise relevant to this topic?

1. Yes

25 years in environmental science

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

vote to require that all school children be vaccination; voting to require mandatory jailing of covid positive individuals

11.

Are you Pro or Con on the proposal?

2. Con

You are subjecting children to a vaccine where multiple deaths, myocarditis, and other side effect have emerged, have been reported to the CDC and they refuse to investigate. vaccines only have EUA approval. Everyone who voted to approve has monetary conflict of interest; ie associated w/Pfizer or other company. YOU have not made this public. Children's health Defence and others have documented the side effects and the deaths. More kids die from the vaccine than ever from covid. We will pull the kids out and homeschool. You propose to jail people who are sick? And how are you going to keep them from dying in misery in shelters. Who is going to care for them? you can't find people to work in regular hospitals. What are you going to do for older individuals that need special sleep or health aids. This is simply warranted.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

The children are not at risk for this flu. Vaccines don't prevent anyone from catching the current strain. The current strain is more like a cold or flu which is something we have lived with for years. Again vaccines don't prevent it. There are additional risks in young children when they do take the vaccine so you are subjecting children to an additional risk that is totally unnecessary!

External Email

Dear WA Board of Health Members,

I was alarmed to learn of the items for consideration at your 12th January meeting, and their rejection of well documented science dating back 2006-2013 on parasite stress, and also the 2019 Great Barrington Declaration. <https://gbdeclaration.org/view-signatures/>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fgbdeclaration.org%2Fview-signatures%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Cbfd045154a6c40a4c2c208d9d218c19b%7>>

In strongest possible terms I:

1. OPPOSE the Board's formation for consideration of mandating the shots for children and oppose use of COVID-19 to enforce these anti-science mandates that grant government even more power, period!
2. SUPPORT Informed Choice Washington's Petition for Rulemaking — this is item 11 on the agenda! This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

Very Respectfully,

LCDR Sea Chan (SSO) USN

Schools have always given parents the ability to waive vaccines for far greater and deadlier diseases and viruses. These students have been allowed to be in class and sit next to vaccinated students for years. Why is Covid different? These other vaccines that have been allowed to be waived in the past are for illnesses that have deadlier symptoms and outcomes than Covid. And when these vaccines were waived there were not any accommodations made to "protect" the vaccinated children. Again, why is Covid different? This Covid vaccine has too many unknown variables to deem it safe for children at this stage. Why should parents be forced to inject their child over and over with an "unknown" and this was even stated by the FDA board when they approved the vaccination for children. They stated too many unknowns and they do not believe it should be mandated for children. Only accessible for children if needed for extenuating circumstances or parent choice. By mandating, you are going against the FDA recommendation. I know how Covid will affect my son, as he already had it. It was minimal effect and he now has natural antibodies. Something science has proven effective time and time again. There is no reason that I should be forced to inject something into him where I don't know the effect. Especially considering, Covid is nowhere near that deadly for children, as opposed to other required vaccinated illnesses. I will pull my child out of school and move from WA if it is mandated.

My boys have a right to an education and it should never be contingent on them bring vaccinated for Covid. There was never a mandate for the flu shot and this is just another flu. People have had severe reactions to this vaccine and until they know more about it should be a choice not a mandate. People still get Covid even though they have been vaccinated. I would rather have them take the risk of covid over the risk of the vaccine. Their body my choice. I saw this coming months ago.

I am not in favor of mandating Covid-19 shots for kids. We know that children are at very low risk for Covid and that the only vaccine available is still the EUA (Emergency Use Approval). We also know that there is a possibility of contracting Covid even after taking the vaccine. We know that Omicron is highly transmissible, but we also know that it is essentially a common cold with mild symptoms and very low rate of hospitalization. However, there have been reported cases of children getting myocarditis from vaccination or dying after vaccination.

I do not want mandatory Covid vaccination for school children. This is not a fully approved vaccine, there has not been enough time to see the long term side effects, my children have had covid and should now have immunity to this strain. Vaccine will not help. The vaccine has been shown to not be reliable and does not prevent the contraction nor transmission of the virus and is debatable if it lessens symptoms. Until it is fully approved by FDA it should not even be considered being mandatory

Covid vaccine is a new medicine, whose long term effects are still UNKNOWN, so it will be very reckless to make it mandate for our little ones. Also, the covid infections hospitalization and casualties are trending on with latest variants, which means the benefit of covid vaccine is not matching the potential risk of the vaccine itself. Given above facts, I strongly oppose this mandate.

1. Yes

Addition of COVID vaccine to the required vaccination for public school.

11.

Are you Pro or Con on the proposal?

2. Con

Parents must be allowed to continue to make medical choices for their children. Demanding this new vaccine may cause continuing enrollment decline which may cause more harm for students in the long run. By providing families with options they are comfortable with, as we currently do, we provide the opportunity to continue to educate the families and the student in what has been proven to be one of the safest places in the state - local public schools. Please consider the larger impact of these new requirements that will continue to separate and divide communities and negatively impact our ability to help all our community's children.

Dear Board of Health,

I would like to express my concerns regarding Covid issues

I am one of those who have both physical and spiritual concerns regarding the mandating of the experimental vaccines. I have autoimmune difficulties, to the point of having very negative reactions to all vaccines. I also have a need to stay free from the Covid altogether. My husband and I are careful and have remained Covid free. Involuntary quarantining outside of our home could become a very difficult problem for me. I require a very careful diet and medication. Because we have not and should not take the Vaccination, we would be subject to this policy. Besides, we do not believe that anyone has the right to force us to do something that would be detrimental to our health.

We don't want to see anyone force citizens to do what you have decided without total discretion and as a blanket policy for everyone. Our police forces should not be used in this capacity.

As far as mandating this experimental vaccine for children: remember that children should not be used for an experiment. So we strongly disagree with any forced vaccines without parental agreement.

Please take these things into consideration.

Respectfully submitted,

Bill and Roberta Mallory

I do not support the mandatory vaccine for anybody at any age. But I absolutely do not support the push for mandatory vaccines on children any age under 18, children should not be forced to put something in their system without being known and aware to the risks of their bodies as well as risking their health before their bodies are fully developed. Everyone should be able to choose what they want in their bodies.

You people are disgusting. You would implement more or the same that have driven thousands of children to suicide, destroyed the economy, made more homeless people than ever. Create a medical second class, caused record high deaths to overdose. You are politicians not medical professionals. You do not recognize natural immunity and would cowtoe to the biggest criminal charges pharmaceutical company because you are terrified, hysterical children under mass psychosis and are ignoring that actual statistics. It's 99.98% survival rate unless you're already over average age of life expectancy or have multiple co-morbidities. If you want to help people encourage eating healthier and getting exercise. If a mob dragged you from homes in the middle of the night to publically hang you all, they would be in the right for it. You should be waiting for the Supreme Court hearing either way before you commit grave constitutional vilations.

Dear Members of the Board,

Insofar as the current strain of Covid-19, the Omicron strain, now makes up 95% of all new Covid-19 infections in the U.S., and since it presents symptoms milder than most cases of the common cold or flu, resulting in far fewer hospitalizations, I question your claim that

"The sixth emergency rule is necessary for the preservation of the public health, safety and general welfare of the State of Washington during the COVID-19 pandemic.."

If this is obvious to me, an aviator, it is reasonable to assume it is even more so to you.

I know of no reasonable man who would frankly and truthfully say that the current state of this epidemic is cause for a declaration of an emergency. We don't declare an emergency for the common cold in winter, nor for the even deadlier plague of drownings in summer. Your declaration of continuing emergency conditions is neither rational nor reasonable, and probably fraudulent.

Therefore, I conclude that that your true motivation for pursuing the course presented during your November public meeting is MONEY, specifically the Federal CARES ACT, and political favor with Washington DC by thoughtlessly following whatever guidance is the drivel de jour from that swamp.

Please consider these principles so clearly stated by the Supreme Court of the US:

"Where rights secured by the Constitution are involved, there can be no rule making or legislation which would abrogate them." Miranda vs. Arizona, 384 US 436 p. 491.

"All laws which are repugnant to the Constitution are null and void." Marbury vs. Madison, 5 US (2 Cranch) 137, 174, 176, (1803)"

I am hopeful that within your members there are some honorable and trustworthy men or women who will show care for the rights of your fellow citizens, even to the point of foregoing political benefit or federal money.
The emergency is over! We all know it.

respectfully,

William Miller

More Children Die From the COVID Shot Than From COVID

STORY AT-A-GLANCE

* According to Collette Martin, a practicing nurse who testified before a Louisiana Health and Welfare Committee hearing December 6, 2021, children are having “terrifying” reactions to the COVID shot, yet her concerns are simply dismissed

* The average number of adverse event reports following vaccination for the past 10 years has been about 39,000 annually, with an average of 155 deaths. That’s for all available vaccines combined. The COVID jabs alone now account for 983,756 adverse event reports as of December 17, 2021, including 20,622 deaths — and this doesn’t include the underreporting factor, which we know is significant

* Children are at risk for potentially lifelong health problems from the jab. Myocarditis (heart inflammation) has emerged as one of the most common problems, especially among boys and young men

* Myocarditis is inversely correlated to age, so the risk gets higher the younger you are. The risk is also dose-dependent, with boys having a six fold greater risk of myocarditis following the second dose

* British data show deaths among teenagers have spiked since that age group became eligible for the COVID shots. Between the week ending June 26 and the week ending September 18, 2020, 148 deaths were reported among 15- to 19-year-olds. During those same weeks in 2021, 217 deaths occurred in that age group — an increase of 47%

During those same weeks in 2021, 217 deaths occurred in that age group — an increase of 47%

The video above features Collette Martin, a practicing nurse who testified before a Louisiana Health and Welfare Committee hearing December 6, 2021.^{1,2} Martin claims

she and her colleagues have witnessed “terrifying” reactions to the COVID shots among children — including blood clots, heart attacks, encephalopathy and arrhythmias — yet their concerns are simply dismissed.

Among elderly patients, she’s noticed an uptick in falls and acute onset of confusion “without any known etiology.” Coworkers are also experiencing side effects, such as vision and cardiovascular problems.

Martin points out that few doctors or nurses are aware the U.S. Vaccine Adverse Events Reporting System (VAERS) even exists, so injury reports are not being filed. Hospitals also are not gathering data on COVID jab injuries in any other ways, so there’s no data to investigate even if you wanted to. According to Martin:

“We are not just seeing severe acute [short term] reactions with this vaccine, but we have zero idea what any long-term reactions are. Cancers, autoimmune [disorders], infertility. We just don’t know.

We are potentially sacrificing our children for fear of MAYBE dying, getting sick of a virus — a virus with a 99% survival rate. As of now, we have more children that died from the COVID vaccine than COVID itself.

And then, for the Health Department to come out and say the new variant [Omicron] has all the side effects of the vaccine reactions we’re currently seeing — it’s maddening, and I don’t understand why more people don’t see it. I think they do, but they fear speaking out and, even worse, being fired ... Which side of history will you be on? I have to know that this madness will stop.”

Martin also states she believes the hospital treatment protocol is killing COVID patients. Doctors agree that it’s “not working,” but that “it’s all we have.” But “that’s simply not true,” she says. “It’s just what the CDC will allow us to give.”

What the VAERS Data Tell Us About COVID Jab Risks

I recently interviewed Jessica Rose, Ph.D., a research fellow at the Institute for Pure and Applied Knowledge in Israel, about what the VAERS data tell us about the COVID jabs' risks. As noted by Rose, the average number of adverse event reports following vaccination for the past 10 years has been about 39,000 annually, with an average of 155 deaths. That's for all available vaccines combined.

The COVID jabs alone now account for 983,756 adverse event reports as of December 17, 2021, including 20,622 deaths³ — and this doesn't include the underreporting factor, which we know is significant and likely ranges from five to 40 times higher than reported. Most doctors and nurses don't even know what VAERS is and even if they do, they chose not to report the incidents.

You can't even compare the COVID shots to other vaccines. They're by far the most dangerous injections ever created, yet there doesn't appear to be a cutoff for acceptable harm. No one within the CDC or Food and Drug Administration, which jointly run VAERS, has addressed these shocking numbers. Both agencies outrageously deny that a single death can be attributed to the COVID jabs, which is simply impossible. It's not statistically plausible.

The FDA and CDC are also ignoring standard data analyses that can shed light on causation. It's known as the Bradford Hill criteria — a set of 10 criteria that need to be satisfied in order to show strong evidence of causal relationship. One of the most important of these criteria is temporality, because one thing has to come before the other, and the shorter the duration between two events, the higher the likelihood of a causative effect.

Well, in the case of the COVID jabs, 50% of the deaths occur within 48 hours of injection. It's simply not conceivable that 10,000 people died two days after their shot from something other than the shot. It cannot all be coincidence. Especially since so many of them are younger, with no underlying lethal conditions that threaten to take them out on any given day. A full 80% have died within one week of their jab, which is still incredibly close in terms of temporality.⁴

Children Risk Permanent Heart Damage

Aside from the immediate risk of death, children are also at risk for potentially lifelong health problems from the jab. Myocarditis (heart inflammation) has emerged as one of the most common problems, especially among boys and young men.

In early September 2021, Tracy Beth Hoeg and colleagues posted an analysis⁵ of VAERS data on the preprint server medRxiv, showing that more than 86% of the children aged 12 to 17 who report symptoms of myocarditis were severe enough to require hospitalization.

Cases of myocarditis explode after the second shot, Hoeg found, and disproportionately affect boys. A full 90% of post-jab myocarditis reports are males, and 85% of reports occurred after the second dose. According to Hoeg et. al.:⁶

"The estimated incidence of CAEs [cardiac adverse events] among boys aged 12-15 years following the second dose was 162 per million; the incidence among boys aged 16-17 years was 94 per million. The estimated incidence of CAEs among girls was 13 per million in both age groups."

No doubt, doctors are seeing an increase in myocarditis, but few are willing to talk about it. In a recent Substack post, Steve Kirsch writes:⁷

"I just read a comment on my private 'healthcare providers only' substack. An estimated 100X elevation in rate of myocarditis, but nobody will learn of it since cardiologists aren't going to speak out for fear of retribution."

His comment was a private conversation he had with a pediatric cardiologist. The cardiologist is never going to say this in public, to the press, or have his name revealed since his first duty is to his family (keeping his job)."

If a 'fact checker' called the cardiologist, he might either refuse to comment or say 'I'm seeing somewhat more cases after the vaccine rolled out.' Here's the exact comment that was posted to the private substack:

'Pre-jab, one or two cases per year of myocarditis. Now, half his waiting room. Tells parents they are 'studying' the causality. Refers them to infectious disease specialist for discussions on their other children.

Admits he and about 50% of his colleagues know what's going on but are too terrified to speak out for fear of retaliation from hospitals and state licensing boards.

Other 50% don't want to know, don't care and/or are reveling in the cognitive dissonance (like Dr. Harvey [Cohen] at Stanford) and/or letting loose their authoritarian demon. Good luck with these former colleagues of mine. The stench is overpowering.'

... From 1 or 2 cases per year to 'half his waiting room.' I don't know the size of his waiting room, but it's at least two people since he said 'half.' So, the rate has increased by: $250 \text{ day per year open} / 1.5 \text{ avg cases per year} = 166X$."

Myocarditis Is Not a Mild, Inconsequential Side Effect

Together with Dr. Peter McCullough, in October 2021 Rose also submitted a paper⁸ on myocarditis cases in VAERS following the COVID jabs to the journal Current Problems in Cardiology. Everything was set for publication when, suddenly, the journal changed its mind and took it down.

You can still [find the pre-proof on Rose's website](#), though. The data clearly show that myocarditis is inversely correlated to age, so the risk gets higher the younger you are. The risk is also dose-dependent, with boys having a sixfold greater risk of myocarditis following the second dose.

While our health authorities are shrugging off this risk saying cases are "mild," that's a frightening lie. The damage to the heart is typically permanent, and the three- to five-year survival rate for myocarditis has historically ranged from 56% to 83%.⁹

Patients with acute fulminant myocarditis (characterized by severe left ventricular systolic dysfunction requiring drug therapy or mechanical circulatory support¹⁰) who survive the acute stage have a survival rate of 93% at 11 years, whereas those with acute nonfulminant myocarditis (left ventricular systolic dysfunction, but otherwise hemodynamically stable¹¹) have a survival rate of just 45% at 11 years.¹²

This could mean that anywhere from 7% to 55% of the teens injured by these shots today might not survive into their late 20s or early 30s. Some might not even make it into their early 20s! How is this possibly an acceptable tradeoff for a virus you have practically zero risk of dying from as a child or adolescent?

Excess Deaths Are Exploding, Including Among Teens

Throughout the pandemic, the COVID jab was held out as the way back to normalcy. Yet, despite mass injections and boosters, excess deaths keep rising. For example, in the week ending November 12, 2021, the U.K. reported 2,047 more deaths¹³ than occurred during the same period between 2015 and 2019.

COVID-19 cannot be entirely to blame, as it was listed on the death certificates for only 1,197 people. Even more telling is the fact that, since July 2021, non-COVID deaths in the U.K. have been higher than the weekly average in the five years prior to the pandemic. Heart disease and strokes appear to be behind many of the excess deaths, and both are known side effects of the COVID jab.

In a November 28, 2021, Twitter post,¹⁴ Silicon Valley software engineer Ben M. (@USMortality) revealed that in the preceding 13 weeks, about 107,700 seniors died above the normal rate, despite a 98.7% vaccination rate. In another example, he used data from the CDC and census.gov to show excess deaths rising in Vermont even as the majority of adults have been injected.¹⁵

"Vermont had 71% of their entire population vaccinated by June 1, 2021," he tweeted. "That's 83% of their adult population, yet they are seeing the most excess deaths now since the pandemic!"

Even more disturbing, British data show deaths among teenagers have spiked since that age group became eligible for the COVID shots.¹⁶ Between the week ending June 26 and the week ending September 18, 2020, 148 deaths were reported among 15- to 19-year-olds. Between the week ending June 25, 2021, and the week ending September 17, 2021, 217 deaths occurred in that age group. That's an increase of 47%!

“Correlation does not equal causation, but it is extremely concerning to see that deaths have increased by 47% among teens over the age of 15, and COVID-19 deaths have also increased among this age group since they started receiving the COVID-19 vaccine, and it is perhaps one coincidence too far. ~ The Exposé”

Deaths from COVID-19 also went up among 15- to 19-year-olds after the shots were rolled out for this age group. Significant concerns have been raised about the possibility that COVID-19 vaccines could worsen COVID-19 disease via antibody-dependent enhancement (ADE).¹⁷ Is that what's going on here? As reported by The Exposé, which conducted the investigation:¹⁸

“Correlation does not equal causation, but it is extremely concerning to see that deaths have increased by 47% among teens over the age of 15, and COVID-19 deaths have also increased among this age group since they started receiving the COVID-19 vaccine, and it is perhaps one coincidence too far.”

Omicron Poses No Risk to Young People

As noted in a recent analysis by Dr. Robert Malone,¹⁹ (who recently got banned from Twitter but can be found on Substack), the risk-benefit ratio of the COVID shot is becoming even more inverted with the emergence of Omicron, as this variant produces far milder illness than previous variants, putting children at even lower risk of

hospitalization or death from infection than they were before, and their risk was already negligible.

Malone is currently spearheading the second Physicians Declaration²⁰ by the International Alliance of Physicians and Medical Scientists, which has been signed by more than 16,000 doctors and scientists, stating that “healthy children shall not be subjected to forced vaccination” as their clinical risk from SARS-CoV-2 infection is negligible and long term safety of the shots cannot be determined prior to such policies being enacted.

Not only are children at high risk for severe adverse events from the shots, but having healthy, unvaccinated children in the population is crucial to achieving herd immunity.

Shots Double Risk of Acute Coronary Syndrome

Researchers have also found Pfizer and Moderna mRNA COVID-19 shots dramatically increase biomarkers associated with thrombosis, cardiomyopathy and other vascular events following injection.²¹

People who had received two doses of the mRNA jab more than doubled their five-year risk of acute coronary syndrome (ACS), the researchers found, driving it from an average of 11% to 25%. ACS is an umbrella term that includes not only heart attacks, but also a range of other conditions involving abruptly reduced blood flow to your heart. In a November 21, 2021, tweet, cardiologist Dr. Aseem Malhotra wrote:²²

“Extraordinary, disturbing, upsetting. We now have evidence of a plausible biological mechanism of how mRNA vaccine may be contributing to increased cardiac events. The abstract is published in the highest impact cardiology journal so we must take these findings very seriously.”

AMA Is A-OK With Sacrificing Children

Tragically, it's not only the CDC and FDA that have been captured by the drug industry and who are sacrificing public health, including the health of our children, in order to further the technocratic Great Reset agenda.

Even the American Medical Association, which is supposed to lobby for physicians and medical students in the U.S. and promote medicine for the betterment of public health, has abandoned all semblance of ethics, transparency and honesty.

In a mid-November 2021 article on the AMA's website, "COVID-19 Vaccine for Kids: How We Know It's Safe,"²³ contributing news writer Tanya Albert Henry cites data straight from Pfizer's press release, and then goes on to claim we "know it's safe" because "younger children see the same side effects as has been seen in adults and teens." Based on the VAERS data, that should send shivers down parents' backs.

"The American Academy of Pediatrics is on board with vaccinating this age group, along with the American Academy of Family Physicians and the Pediatrics Infectious Diseases Society, said Dr. Fryhofer, chair-elect the AMA Board of Trustees," Henry writes.

"Dr. Fryhofer ... noted that myocarditis has been a rare occurrence after the second dose of the mRNA vaccines. 'The observed risk is highest in young males age 12 to 29, but COVID infection can also cause myocarditis,' she pointed out. 'For adolescents and young adults, the risk of myocarditis caused by COVID infection is much higher than after mRNA vaccination.'"

Really? Where did Fryhofer get that idea? I've not seen any data to back that up, and Henry doesn't provide any.

What Do the VAERS Data Show?

Research published in 2017²⁴ calculated the background rate of myocarditis in children and youth, showing it occurs at a rate of four cases per million per year. According to the U.S. Census Bureau, as of 2020 there were 73.1 million people under the age of 18 in

the U.S.²⁵ That means the background rate for myocarditis in adolescents (18 and younger) would be about 292 cases per year.

As of December 17, 2021, looking only at U.S. reports and excluding the international ones, VAERS had received:²⁶

308 cases of myocarditis among 18-year-olds	252 cases among 17-year-olds
226 cases in 16-year-olds	256 cases in 15-year-olds
193 in 14-year-olds	132 in 13-year-olds
108 in 12-year-olds	

In total, that's 1,475 cases of myocarditis in teens aged 18 and younger — five times the background rate. And again, this does not take into account the underreporting rate, which has been calculated to be anywhere from five to 40.

Meanwhile, the CDC²⁷ claims that, between March 2020 and January 2021, “the risk for myocarditis was 0.146% among patients diagnosed with COVID-19,” compared to a background rate of 0.009% among patients who did not have a diagnosis of COVID-19.

After adjusting for “patient and hospital characteristics,” COVID-19 patients between the ages of 16 and 39 were on average seven times more likely to develop myocarditis than those without COVID.

That said, the CDC stressed that “Overall, myocarditis was uncommon” among all patients, COVID or not. What's more, only 23.7% of myocarditis patients between the ages of 16 and 24 had a history of COVID-19, so a majority of the cases in that age group were not due to COVID.

We're also not talking about big numbers in terms of actual COVID infections. The weekly adolescent hospitalization rate peaked at 2.1 per 100,000 in early January 2021,

declined to 0.6 per 100,000 in mid-March, and rose to 1.3 per 100,000 in April.²⁸

Using that peak hospitalization rate of 2.1 per 100,000 (or 21 per million) in this age group, and assuming the risk for myocarditis is 0.146% among COVID-positive patients, we get a myocarditis-from-COVID rate among adolescents of 0.03 per million. That's a far cry from the normal background rate of four cases per million, so the risk of getting myocarditis from SARS-CoV-2 infection is probably quite small.

Now, assuming the COVID hospitalization rate for adolescents is 21 per million, and we have 73.1 million adolescents, we could expect there to be 1,535 hospitalizations for COVID in this age group in a year. If 0.146% of those 1,535 teens develop myocarditis, we could expect 2.2 cases of myocarditis to occur in this age group each year, among those who come down with COVID.

In summary, based on CDC statistics, we could expect just over two teens to contract myocarditis from COVID-19 infection. Meanwhile, we have 1,475 cases reported following the COVID jab in just six months (shots for 12- to 17-year-olds were authorized July 30, 2021²⁹).

Taking into account underreporting, the real number could be anywhere between 7,375 and 59,000 — again, in just six months! To estimate an annual rate, we'd have to double it, giving us anywhere from 14,750 to 118,000 cases of myocarditis. So, is it actually true that “For adolescents and young adults, the risk of myocarditis caused by COVID infection is much higher than after mRNA vaccination”? I doubt it.

Can You Lessen the Damaging Effects?

There is absolutely no medical rationale or justification for children and teens to get a COVID shot. It's all risk and no gain. If for whatever reason your son or daughter has already received one or more jabs, and you hope to lessen their risk of cardiac and cardiovascular complications, there are a few basic strategies I would suggest implementing.

Keep in mind these suggestions DO NOT supersede or cancel out any medical advice they may receive from their pediatrician. These are really only recommendations for when there are no adverse symptoms. If your child experiences any symptoms of a cardiac or cardiovascular problem, seek immediate medical attention.

- 1. First and foremost, do not give them another shot or booster.**
- 2. Measure their vitamin D level and make sure they take enough vitamin D orally and/or get sensible sun exposure to make sure their level is between 60 ng/mL and 80 ng/ml (150 to 200 nmol/l).**
- 3. Eliminate all vegetable (seed) oils in their diet. This involves eliminating nearly all processed foods and most meals in restaurants unless you convince the chef to only cook with butter. Avoid any sauces or salad dressings as they are loaded with seed oils.**

Also avoid conventionally raised chicken and pork as they are very high in linoleic acid, the omega-6 fat that is far too high in nearly everyone and contributes to oxidative stress that causes heart disease.

- 4. Consider giving them around 500 milligrams per day of NAC, as it helps prevent blood clots and is a precursor for the important antioxidant glutathione.**
- 5. Consider fibrinolytic enzymes that digest the fibrin that leads to blood clots, strokes and pulmonary embolisms. The dose is typically two to six capsules, twice a day, but must be taken on an empty stomach, either an hour before or two hours after a meal. Otherwise, the enzymes will merely act as a digestive enzyme rather than digesting fibrin.**

Zoom Webinar ID 894 7406 4216 question,

With the breakthrough infections spiking and CDC data showing a person can still transmit the virus and be hospitalized with severe systems, why are the unvaccinated with natural immunity being targeted so hard ? Fauci and the CDC have admitted the antibodies in the vacced fades in a few months, do you see this ever changing? I worry about pushing this on the kids right now, evidence of myocarditis is beginning to pop up, this damage is irreparable..I hope the kids vaccine can be delayed until we have more data. This is being rushed without the normal testing studies...

Thank you
Scott Storch

Subject: NO on all Covid measures

External Email

All illegal emergency powers issued by our governor have railroaded our Constitutional liberties and created unnecessary but intentional hardship on small businesses, families, and the freedom to pursue personal liberty. As Red states have shown, the Covid measures in WA and blue states are overbearing, unnecessary, especially when Fentanyl, heart disease, car accidents, etc kill far more people than a virus that has mutated to a simple virus comprising of a head cold, snotty nose, etc.

Vote NO on all things that take away personal liberties. It may seem fine now, as you're in control, to try and control the masses. But, as history has shown, soon Big Government will be coming for you.
Freedom!

Subject: Vaccine Mandate-against

External Email

Hello

I am hoping this is not too late but I am 100% against a child vaccine mandates for Washington schools. The vaccine does not prevent people from becoming ill. This is not a dead virus. We do not mandate a general flu vaccine. These drugs are still in trial mode and we do not know the long term effects. Currently the NIOH is investigating the effects of the vaccine on women's men's trial cycle which supports the notion we do not have enough information on the long term effects of this vaccine. To ask parents to vaccine their child pre or within their livery years is not ok and is irresponsible with their health. Parents need to have the choice to do what they deem is correct around a coronavirus which is a mutating virus.

To Whom it may concern,

I am vehemently opposed to your proposal to add the experimental COVID 19 vaccines to the State required vaccines list for school children and daycare children. These vaccines are dangerous and this would be a vast overreach for the State to undertake. You have already caused a mass exodus from the public schools. I plead with you to not approve this proposal. I and many other parents in Washington State will remove our children from public schools if this mandate is passed!

These Covid shots are EXPERIMENTAL. We have been deceived as authorities said one was authorized as safe and it never was. No one knows the long term effects they will have on the human body. It is outrageous to even consider injecting our children with these substances. Children DO NOT detox as well as adults. We know that thousands have become sick or have died from these injections. No one has the right to force a drug into anyone's body; no one!

Please do not be the one that puts the final nail in the coffin where our democracy will be buried forever. Our very last right to choose what enters our body. Do not allow yourself to be used by powerful corporations whom are making billions selling these vaccinations.YOUR JOB IS TO PROTECT THE PEOPLE. PLEASE do not fail us. Please do the right thing so we both can sleep at night. NO MANDATORY COVID VACCINATIONS for children!

Good afternoon,

I have both of my sons enrolled at PCA, ages 15 and 9. My husband and I decided to enroll them for the 2020/2021 school year. We liked the fact that they were physically able to attend school and be able to feel some sort of normal with all the craziness that surrounded us. We saw God's hand protect not only our children but the whole student body with minimal covid exposures during that whole year. We took the required precautions that the school asked of us and also some of our own. During that time when the information that was out there was constantly changing, we would make the proper adjustments as new information started coming in. God protected PCA during that year and we believe that He will and has continued to protect PCA. There is enough information out there that we as parents can make our own personal decision about our children's health. On the CDC website, they clearly state that children with immune-compromised systems are recommended to get the vaccine for a total of three doses! My children do not fall under that category and should not be forced to get a vaccine that clearly does not work if you have to get not one dose but now 3! We are in total disagreement if the Covid 19 "vaccine" becomes a requirement and we will be forced to pull them out of school. We urge the board to vote NO.

Thank you.

I am a teacher and a class concerned parent. I have 6+ years of full time teaching experience. During these current years of teaching I have learned to collaborate with the parents of my students to best serve the child. I have learned over the years that if the school and the parent work together rather than apart then the student fairs much better in the long run of their school and personal lives. We need to respect everyone's personal choice on this matter just like we do when individualizing a student plan of learning for the classroom. There are always going to be people on both sides of the fence when it comes to vaccinations. Students are already allowed to be exempt from other vaccines so why is this any different? The more the vaccine is forced the more push back you're going to see. If it truly is the best thing for everyone and really necessary than the vaccine will sell itself. Give it some time and do not be so forceful.

I am against the mandate of the 'covid vaccine' for school entry to minors. The vaccine is still an EUA and has shown grave adverse reactions during the current trials that are still underway. The ingredients that have been released include a graphene (hydro-)oxide which is a microscopic scapel. It is why we see so many of the blood clots showing up in vaccinated individuals. We do not know long term effects of this on our least susceptible population. They do not warrant a vaccine for this virus. Furthermore, there are more peer-reviewed scientific journals AGAINST the use of masks to students than there are supporting them. Do NOT required vaccine mandate of any kind. So many students will be pulled from their schools.

It is too early to require Covid Vaccinations for children to enter into school. It is if yet too controversial -too many citizens so not feel safe with it yet- to give to children, says nearly half the country. This will only create many more difficulties for schooling education for too many children and parents! Please do not invite this requirement until enough time has passed to be absolutely sure if longer term effects of this new vaccine! Remember the vaccines that have in the past, been suspended or pulled! We want all children to be educated and have easy access to education THAT WE PAY FOR!! Thank you for reading

2. Con

I am against the requirement of children to be vaccinated against COVID 19. I myself am vaccinated and appreciate greatly the protection it provides me but I feel that there is not sufficient evidence that vaccination of children is necessary, or that it helps, given that that vast majority (98% or more) of children who get covid develop immunity and recovery fully. I think there is still much too much information we do not know about the impacts of this vaccine on children and I am not having my kids vaccinated. I do not believe that the benefits to children and our community outweigh the risks of requiring this vaccine. I am in support of other vaccines.

The notion of making Covid-19 shots mandatory for school admission and childcare in our state.

11.

Are you Pro or Con on the proposal?

2. Con

I am not anti-vaccine, my kids are current on all vaccine requirements; however, I'm highly concerned with the number of negative/adverse side effects and lack of effectiveness of the vaccine and booster. Children are low risk for Covid and these vaccines are still only EUA (emergency use authorized).

Subject: Vaccines for K-12

External Email

To the Washington State Board of Health,

I write to express my deep concern over mandating the COVID-19 vaccine for children. From the beginning, children formed a different category when it came to the virus. They are far less likely to contract the disease or to spread it. Most quintessentially, the risk of death is practically non-existent.

The Covid vaccines are emergency approved. They have not undergone the rigorous testing that such an injection ought to endure. Why would anyone mandate injecting a product that is not essential for survival when its lasting effects have yet to be determined? The VAERs database documents an alarming list of vaccine harm. This must not be ignored. Do not put our children at risk.

Ultimately, parents ought to be free to decide if they want their child vaccinated against Covid. It is not the state's role to force a medical decision. One size does not fit all. Parents know their children best and are the ones called to look out for their welfare not the state. Mandating a vaccine violates medical freedom and parental rights. You must not allow the state to become a medical tyrant. Health choices are basic human rights best left to the individual.

I urge you, refuse to mandate vaccinating our rising generation with an experimental vaccine. Our children are precious gifts we ought to protect and parents are most qualified to make health decisions for their own flesh and blood. America's strength stems from individual liberty. Liberty to pursue happiness and health without an authoritarian government.

Sincerely and with urgency,

Vanessa Vis

Subject: Opposition to COVID-19 Vaccine requirements in WA state

External Email

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long-term risks of these vaccines.

Please do the right thing and do not require these vaccinations for school age children.

Subject: My public comments

External Email

To all concerned,

It alarms me the flippancy the board expresses with its proposed rule changes to the current infectious disease codes. In doing so they suggest unvaccinated persons are a threat to the public at large. I have a hard time imaging that educated health officials have such utter disregard for things such as natural immunity... a thing so elementary to health education I learned it in the first grade. More than 144 studies now show natural immunity to Covid-19 to be equal to or significantly superior to immunity acquired from injectable mrna therapies, which is wholly unsurprising given the nature of the injectable therapy commonly misnomered a "vaccine". See listing here:

<https://brownstone.org/articles/79-research-studies-affirm-naturally-acquired-immunity-to-covid-19-documented-linked-and-quoted/>

Furthermore, the proposed rule treads jacked boots all over the 5th amendment of the US Constitution. To deprive someone of their liberty without due process is so anti American one wonders whether the rule makers have any love or respect for the country at all. It would appear they have forgotten completely that Washington state was part of the union, or at least wish it wasn't so. Disgusting and patheic.

I've paid all manner of taxes to support this state since 1990, and my parents since 1963. It's shameful those tax dollars now support such a corrupt and inept organization.

I implore you to cease and desist in this matter and save what face you still retain.

Mandatory COVID vaccines in schools.

11.

Are you Pro or Con on the proposal?

2. Con

COVID vaccines do not prevent the spread of COVID and are known to have delirious effects on many people, especially children, who are not at high risk of contracting or spreading COVID. All immunization choices must be left up to individuals, and in the case of children, their parents. The constitution and state law guarantee medical choice and freedom, as well as the right of parents to make decisions for their own children. To interfere with these rights is government overreach, and a violation of citizens' rights and freedoms, as well as a danger to the long-term health and well-being of children.

Subject: Comment re January 12 Board of Health Public Meeting

attachments\058ABD91D67342BC_20170113_EU_GuidanceFinal508.pdf

External Email

Dear Board of Health Members:

I oppose forcing children to receive the COVID vaccines as a condition for attending school. The long-term safety of these injections, which are available under an emergency Use Authorization (EUA), has not been established. While they may be advisable for people at risk for severe COVID infection, due to age or underlying health conditions, the vast majority of children do not fit into these categories and are not a risk for severe COVID.

I also oppose using the state's police powers to force anyone to take the COVID shots. The federal regulations for Emergency Use Authorization specifically state that people cannot be forced to take medications issued under an EUA, hence it is voluntary. From the attached FDA Guidance:

Information for Recipients

Although informed consent as generally required under FDA regulations⁴⁵ is not required for

administration or use of an EUA product, section 564 does provide EUA conditions to ensure

that recipients are informed about the MCM they receive under an EUA. For an unapproved

product (section 564(e)(1)(A)(ii)) and for an unapproved use of an approved product (section

564(e)(2)(A)), the statute requires that FDA ensure that recipients are informed to the extent

practicable given the applicable circumstances:

- That FDA has authorized emergency use of the product;
- Of the significant known and potential benefits and risks associated with the emergency use of the product, and of the extent to which such benefits and risks are unknown;
- That they have the option to accept or refuse the EUA product and of any consequences of refusing administration of the product;⁴⁶ and
- Of any available alternatives to the product and of the risks and benefits of available alternatives.

Please see attachment.

<<http://www.familylobby.com/common/tt6489782flt.gif>>

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>>

Do not add Covid-19 to the current infectious disease WAC codes, as this is not a disease that causes death as our Government Regime would like for us to believe, with a 96% + survival rate, "False Information" & "NO complete TRANSPARENCY", being an "EXPERIMENTAL Vaccines" all of which comes from our Government, should not ever be taken to the lengths that it has.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>>

This is my understanding to the pandemic; I would like you to consider this information and again DO NOT ADD Covid-19 to WA WAC Codes.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>>

1. Federal government wants to run roughshod over state powers, contrary to what the Founding Fathers intended in the Ninth and 10th Amendments to the Bill of Rights, which reserved powers to the states.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>>

2. Dr. Francis Boyle is an international law expert. He's also an expert on 'genetic bioweapons.' And he was a gentleman who framed the 'anti-terrorism act.' It's called the "Bioweapons Anti-Terrorism Act" or B.W.A.T.A. It was framed in 1989, signed into law in 1990 by President George W. Bush, with unanimous approval from the U.S. Senate and the U.S. Congress. And so, if there is a Genetic Bioweapons Anti-terrorism Act, it means obviously there must be a genetic bioweapons industry. And I want you to know, that on this earth: 22 nations on planet earth have what we call BSL4 Labs, BSL4 Labs means Bio Safety Level 4. Bio Safety Level 4 is the highest level of Bio Safety.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>>

3. Dr. Derek Knauss, A clinical scientist Southern California laboratory immunologist-virologist says "he and colleagues from 7 universities, that of 1500 samples of people tested "positive" for Covid-19 could not find any (0) . All the people were simply found to have influenza A and to a lesser extent influenza B".

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>>

4. New Zealand has locked its entire citizenry down for one, yes one new case of COVID.

This simply boggles the mind. A look across the United States shows a similar trend in states led by democrat leaders. The separation of powers, or the powers granted to the states under the constitution is the only thing stopping America from looking like the examples listed above. Leaders in the red states are essentially holding the line against national oppression in America, but they cannot do this alone.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>

I can predict with relative certainty that new variants or strains are about to emerge. New bloated case counts, not deaths of course, will pepper the headlines of news organizations, hysteria will once again rule the news cycles. Continued public crises are going to manifest and perpetuate fear throughout our communities. My hope is that you are done being scared; and anger and outrage finally sets in. Remember, you are exceptional. I can also say with absolute certainty that they will come for you one day, not matter who you are if you don't stand up now, vaccinated or not. Tyranny has no boundaries; and there are bigger plans for you, your children and your wealth. Globalism has found its way into American culture; and it is poisoning from within. Digital passports, digital currencies, elimination of privacy and private property ownership; and massive taxation are happening as we speak; and are modern day tools of enslavement. The time has come to resist lockdown measures (peacefully of course) and say no to tyranny. Collectively we are stronger than the world's largest armies. We will not give up any of our civil liberties granted to us under our Constitution. We will not comply with vaccine passports. We will not allow segregation and discrimination to take new root in America. We will not enforce any mask mandates, especially of our children. We will not frequent businesses that promote targeted oppression of our neighbors. We will not be bullied by state agencies or elected abusers.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>

5. Natural Immunity has never been approved or meds that has proven to work, Ivermectin and hydroxychloroquine

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>

6. I believe our state will suffer if any more mandates or codes are enforced at this time and more than likely the citizens will boycott businesses that enact segregated practices on our fellow citizens. We will have a zero tolerance for civil liberty abuses on our citizenry. We will utilize the American court system of justice; and non-violent civil disobedience to combat despotism and tyranny, as Dr Martin Luther King Jr has taught us. Above all else, we will remain free people.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>

Thank you, for your time and concern and please remember to open your heart, soul and mind to all the issues that I have tried to convey.

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fs129.photobucket.com%2Falbums>

Revolution is at your feet. Make your decision wisely.

2. Con

Children are at extremely low risk to acquire and have poor outcomes related to Covid. There are no FDA-approved Covid-19 vaccines available in the Domestic US. EUA vaccines require informed consent and choice under FDA guidance and applicable state and federal law. Limiting access to education and other services is coercion and therefore, not informed consent and choice. The significant increase in serious adverse reactions with this particular vaccine (mRNA) technology is more than concerning. Requiring a child to risk significant adverse effects to protect the community most at risk (elderly and those with comorbidities) is unethical. If you pass this legislation, you will see a mass exodus from the public school system.

Hello,

Please reconsider enforcing the Covid vaccination on school age children. We do not know enough about the long-term effects of this drug to be putting it into our children's bodies. If and when a child gets covid, their recovery rate is way too high to even consider them to be vaccinated. If the teachers are already vaccinated and the vaccination works then what is the reasoning behind vaccinating the children when they are the least at risk? There isn't any. Leave the children alone and keep them in school.

Concerned Mother,

Stacey Eagle

Subject: Children DO NOT need the Covid-19 Vaccine

External Email
Dear Sirs,

Washington State does not need a law requiring students to have the Covid-19 Vaccine because they do not need it. Covid-19 is not a childhood illness. It mostly effects older people and those with comorbidities, as we have seen from the statistics. There are also studies that show that the Covid-19 Vaccine does more harm than good in children. Please see the following link for more information:

<https://thehighwire.com/videos/why-are-most-children-adults-safe-from-covid/>

Thank you for your time.

To whom it may concern:

I am writing to oppose the notion of mandating the Covid vaccine as one of the school entry requirements in the state of Washington.

Data has shown the impact of covid hospital and death toll on children under 16 years is close to 0%, Furthermore, we don't know the long term side effects can inflict by covid vaccine while the short term effects have crippled many including myocarditis among youth Many studies indicated Covid vaccine is not safe to inoculate children at a massive scale, it is still an experimental remedy that is only needed by a very few with compromised immune systems or existing medical conditions.
It is not sensible nor ethical to even consider making the Covid vaccine a requirement to enter school.

Sincerely,

Selina Brown

With all do respect. Healthy individuals DO NOT NEED THE VACCINE. Long term having kids with natural immunity will help us get over this ridiculousness much fast. Forcing anything in society goes against the very nature of free will. The majority, if not nearly all, of the individuals dying with Covid are obese. Lifestyle choice is killing people or age. Both are sad to me. But, almost all are immune compromised. Notice not from Covid but, with Covid. Please stop perpetrating the lie that people are dying from Covid is not true.

My sons area routinely given accolades by teachers for their effort academically. But, more importantly for the leadership and example they provide in character and conduct. I will always be most proud of that fact. Without question. I will pull my sons out of school if this mandate is passed. Even if they allow for our deeply held religious exemption.

Sincerely,
Shawn Noyes

Mandating school age children to get the Covid shot.

11.

Are you Pro or Con on the proposal?

2. Con

Government does not have the authority to force children to take an experimental shot that is still being administered under emergency use authorization; granting zero liability to the drug companies. Additionally, the shots do not stop a person from getting Covid or spreading Covid to others. This is an abuse of governmental power and one more of our many rights being eroded. Facts and competent doctors regarding Covid treatments and protocols are being censored and shutdown.

I do not think it is okay for the state to decide on a child's health. With all of the new information we are learning all the time, it makes no sense to vaccinate our children from Covid-19. The newest variant is far milder than the one's before and as always, children have shown to be very safe when it comes to Covid symptoms. Again, it makes NO sense to vaccinate our children against Covid with all that we now know and all we are learning every day. This should be the choice of the parent and only the parent. Samantha,

STOP! just stop what you are doing to our children.

I will pull my children from public school the minute that this or any further vaccines without full phase 3 testing is required. Do not subject them to "Test to Stay" either. Testing to prove they are healthy will have lasting psychological impacts. These children are not guilty of being unhealthy until proven innocent by a test...they are already innocent.

You have absolutely no standing to make these current vaccines a requirement.

This would be crossing a line you could never come back from. All public trust in you as an entity would be lost forever.

Using children to "save elderly" is an absolute disgrace. Subjecting young bodies to yet unknown side effects is beyond reprehensible.

Trading parental choice for education is absolutely a nonstarter.

I hope you have common sense enough to see what a slippery slope you are standing above with this decision.

Stand up for our parental choice to know what is best for our individual children and do not deprive our children of education for an untested vaccine with a small efficacy. Which side are you on? Pharma or children's education?

There are too many unanswered questions to trade my child's health for their education.

Sincerely,

Kbr Patrick

There is no indication that such extreme measures such as bringing law enforcement into health settings for Covid-19 treatments are at all warranted, in Washington State. There is no need to enforce, with weapons, medical procedures upon unwilling participants. That is tyranny, no matter how you spin it, and most definitely not American.

Two years of excessive OCD/hypochondriac behavior modification is costing the youth of the world a very sickened outlook on the rest of their lives. Now you want to enforce it further with guns.

I say NO!

This is the United States of America, not the Chinese Communist Party or Russia, where tactics such as these are routine.

The Bill of Rights, the original Amendments to the U.S. Constitution begins with:
Article #1-CONGRESS SHALL MAKE NO LAW RESPECTING ESTABLISHMENT OF RELIGION...

Whereas the Covid-19 virus has never been isolated, there are no physical specimens held by the CDC or any other official agency, thereby requiring belief in the existence of the virus in order to proceed.

That defines a religious classification if I ever did see one.

Forcing me to believe in your cooties virus via the threat of incarceration or harm is expressly prohibited by that first Amendment to the Bill of Rights.

I will not comply
In all sincerity

Please do what is best for our children and vote no to Covid vaccines being required to attend school. Parents should be able to make these choices for & with their kids. It should not be made mandatory.

1. COVID vaccines remain under Emergency Use Authorization. This is not a proven vaccine. We don't know what all the side effects will be in 3, 5 or 10 years. We have already witnessed some terrible reactions & deaths in adults & children.
2. Children under the age of 18 have a 99.995% survival rate from COVID infection. Covid does not react the same way with kids. Why would you give your kids a vaccine that has unknown & harmful side effects, when they have a 99.995% survival rate from Covid.
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19. Plus the unknown & already known side effects & deaths.

I am a retired teacher & I would absolutely not be part of giving this vaccine to students. This is not the schools job. I would not want to be responsible for these side effects or even deaths to our children. This decision should be made by the individual families.

Thank You for your time & please do what is best for our kids. Vote no to this mandatory vaccine rule for our kids to attend school. I'm expecting to see many home school families, if this requirement goes through. I hate for kids to miss out on learning experiences & the fun of their school days.

Hello,

I would just like to add my concerns about the conversation on making the Covid shots for children in grades K-12. My household recently had covid on Dec 1, 2021. My 3 girls, (grade 6, 3, & 1), had none to minimum symptoms. My 6th grader who is healthier than her younger sisters was negative. As for my 3rd and 1st grader, they had very mild symptoms such as a head ach, a slight fever, mild cough with phlegm and a running nose for about 2-4 days. We all didn't receive the covid shot and had very different results from the corona virus. And that's the thing, results from the covid shot will vary and not immune many.

I happened to be hospitalized and was the only patient on the floor who didn't receive the covid shot. There's no guarantee for this covid shot since the hospitals are still and continue to be filled. The definition of vaccination is treatment with a vaccine to produce immunity against a disease which this covid injection is not.

I understand that many people are dying from this virus regardless of being injected or not but there's honestly nothing you can do to end this pandemic quickly. It will carry on just like other viruses such as the flu. It is our responsibility to take care of ourselves the best way we can.

If you make this covid shot mandatory, this will infuriate many parents who will pull their children out of school and will protest at your door. Please consider that mandatory means future repercussions. No one likes to be told what to do.

Thank you.

Veronica Gilbert

would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

External Email

To whom it may concern,

I am a WA state citizen of 14 years, and in that time have seen it go continuously downhill into the crisis we are living in now.

There are so many states that are preferable to this one. But, we have no current plan to leave immediately. Saying that, I would like to weigh in on considering to require school age children get the COVID vaccine:

I am shocked that this is even a question even being considered. My sister who is a nurse in a NYC hospital is fully vaccinated and is starting to speak out against any more "pushing" of vaccines, due to what she is seeing first hand. She works with at risk babies and deliveries. She has seen so much hemorrhaging in the brains directly related to this vaccine. Some babies they can save, and some they can not. She herself is confused about how this is affecting people and those people on the front lines know what is causing those side effects.

This is an experimental human trial. Even after the vaccine was approved for 16 and older, I studied Phizers information on their website. That is what THEY said it was, including 2 full pages on a pdf of side effects and said there could be more since this is a human trial. I haven't looked since to see if that's changed.

We have a close friend 20 years old who was reported to SARS after getting the Moderna vaccine, she was paralyzed for over 6 months from the neck down to her feet! It eventually came back but she has long term side effects from that side effect of this drug cocktail contained in this vaccine.

I also really wonder, what happened to HIIPA??? Does this exist? I was working in HR at the time that became law and it doesn't seem to exist anymore.

Any questions you can answer to my inquiries and concerns would be appreciated! This is highly disturbing and we will make major changes and leave this state if we reach our limit on how much tyranny we can handle from this State. I have immediate family in 5 different states that are run far better than this one! Not that you need to care about that- I am just venting my frustration.

Thank you and Sincerely,

Roberta Tanabe

Subject: COVID-19 Vaccine

External Email

Good morning,

I am writing to let you know my opinion and feelings regarding adding the COVID-19 vaccine to the list of required immunizations for school. Is the flu vaccine mandatory? No! It isn't! This is a virus and much like the flu it can cause pneumonia which causes damage to the lungs is not a required vaccine but somehow this is being tossed around that it should be makes zero sense. This is a virus not a disease. Which I do understand TB isn't a disease but TB is deadly. Of course COVID-19 is running rampant, because it is newer. Not enough people have built up antibodies for this virus. It is unethical to force this vaccine on parents and put them in an even harder situation to make the choice of quitting their jobs in order to keep THEIR children safe and go without or potentially harm their children say a reaction happens. And you know parents with pull their children out of the school district. I know I will. You can count on me to pull my 4 children out of the public school system to ensure I keep them safe and I am still the one to decide what goes in their bodies not the government!!!! And think about all those families that will struggle even more because now only one parent is working. Oh but yes they have a choice you will say. But do they really? What a choice to put something into their children's body or keep food on the table. Sounds more like a bribe to me.

So I ask that you please think about my email and all the others and actually put your heart and thoughts into them and make it a choice to have the COVID-19 vaccine just like the flu vaccine.

Thank you,

Sheila Brown

On Friday, January 7, 2022, 10:35 AM, Rachel Harvey <rachel_harvey09@yahoo.com> wrote:

I am writing as a resident of Washington state to let you know my feelings on this unconstitutional and tyrannical overreach of power you think you have. Gov Inslee has obviously led you to believe you're more powerful than you actually are.

You have no right deciding what is best for our children. You are not the parent, grand parent or guardian. You are a public servant, hired and paid for by the people. and guess what, you're doing a very poor job and really pissing the people of Washington off.

Children have a 99.9% chance of surviving covid. They do NOT need an experimental drug injected into their innocent bodies due to your crazy beliefs that you are protecting them. AGAIN, not your job! Covid is being spread by both the vaxxed and unvaxxed, so what's the point? You're falling into the tyrannical beliefs of our government, leading you to false thinking that you're doing the best for everyone, when time and time again, it's proven to be not the case.

Over the years, many experimental drugs have been pulled off the market due to lack of study, illness or even death. But we don't like to talk about that because it might upset someone and cause them to think on their own. Nope, definitely don't want the people to do that!

Give this shot 10-20 years of long term effect studies and bring this idea back to the table. Our children are not guinea pigs and I refuse to allow you to act as if they are.

To date, 55000 children have been pulled out of public schools here. If this ridiculous idea is pushed through, I believe you will see a mass exodus from public schools and Washington state. At \$17000.00 dollars per enrolled child, do you really want to push it and see how many more will leave the public system? My 3 children will soon be adding to the number of unenrolled students if the outcome of this meeting is to try and force me to do something that I don't think is right for my family. I will never stop fighting for what I believe is right for them, just as I have raised them.

We the people have the power to bankrupt your school system and I'm really not sure you want to see how far we will go to protect our children.

Please reconsider and drop this ridiculous notion of protecting our children. You're doing just the opposite.

Sincerely,
A concerned parent and tax payer.

To whom it may concern:

Please read this article, especially the part about children being affected by the vaccine vs their chances of severe covid. With the vaccine proven to no longer stop the spread of Covid I do not see how you can make this a mandatory vaccine for school children. Please keep it as an option for parents to make the choice as to what is best for their families. By having the children vaccinated it will not stop the spread throughout the schools which is the main reason for all previous required vaccines. I beg you to please take into consideration that each person and their medical needs differ and this cannot be a one size fits all issue. I implore you to REALLY look into these issues that are starting to come to light and think about all of the previously "trusted" FDA approved medications (close to 4,500 drugs and devices EVERY YEAR are recalled after previous FDA approval) that have since been recalled due to devastating side effects. Do not be part of making Covid a required vaccine and later regret the possibility of a disastrous outcome. Leave it to personal choice.

Subject: DO NOT implement

External Email

Dear Board of Health Members,

Thank you for your service to the citizens of WA.

I am writing to ask you to NOT implement ANY policies that utilize tyrannical actions (involuntary quarantines, testing, treatment, counseling, and vaccinations) in what will be a failed attempt to "contain" Covid19. This virus will never be contained, it is a part of our ecosystem now. The only real defenses against it are REDUCING CO-MORBIDITIES and allowing ROBUST THERAPEUTIC TREATMENT DEVELOPMENT. Have you as a board, recommended spending any public service resources on telling people to live a healthy lifestyle as the best defense??? If people are healthy, IT IS CLEAR THEY ARE AT A MASSIVELY REDUCED RISK OF LONG TERM EFFECTS FROM THIS DISEASE.

We also know that the vaccines are ONLY GOOD FOR SHORT TERM PERSONAL PROTECTION from significant symptoms, but do not stop transmission or infection. My taking a vaccine DOES NOT save anybody else from Covid19, so forcing vaccines on people becomes nothing more than a form of medical authoritarianism, not health care. If WA's health care systems are stressed due to COVID patients, it is ONLY because hundreds of qualified health care professionals were unnecessarily terminated from their jobs (many with natural immunity), and due to that there are not enough people to provide care.

Please DO NOT implement any actions that will only hurt/divide/anger your fellow citizens and DO NOTHING to reduce the spread of this disease. HAVE COURAGE AND PLEASE TAKE A STAND AGAINST TYRANNY.

I've researched the data; while no special expertise, I have a B.S. in Physical Science and have an understanding of how to view research. Please review this carefully, as children just do not have the same risks getting Covid. The vaccines remain experimental--no matter what anyone says, that is the bottom-line truth. Children have no say and should NOT get this vaccine.

The current strain (Omicron) has been reported as causing 6 deaths in 100,000 cases which is roughly equal to the death rate of those who have had adverse reactions to the vaccine. More people die each year from the Flu than the current strain of Covid-19. This would be a major overreach by this board and do severe harm to the faith that people have in your judgement.

External Email

I am writing you all today to state my concerns about mandating kids 5 and up being required to get the COVID vaccine. Our kids are still so young and have their whole lives in front of them. We have no clue how this vaccine could affect our children long term. We have seen through the last 2 years that yes kids have contracted COVID, but it does not severely hurt them. I feel that taking the time we would normally take to test a vaccine is something we owe it to our kids.

Over the last few months in King county, we have restricted NON vaccinated people from enter Nonessential business, yet over the last month COVID has been on the rise, and our hospitals are filling up. SO, I ask is the vaccine doing what it is supposed to be doing. Are we willing to take a chance on our kids and their futures? How does this benefit them or you?

I understand that we already have vaccines in place that the kids should have to enter school, but these vaccines have been around for years. And with the proper form parents can opt out of those vaccines for their children. We also know how and what these vaccines will do to/for our children.

I plea with you to really look at the big picture of what is going on and if this vaccine should be mandated. Is this vaccine real slowing the spread of COVID? Maybe the SARS-CoV-2 strain, but it doesn't seem to slow down the spread of all the variants. It's one thing to ask adults to get the vaccine, but it is another to mandate our children to get it when we have no data to show the positives or negatives of the vaccine.

Please don't do this. Let's take all the politics out of this and look at what is really going on FOR OUR CHILDREN.

Thank you

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

Applying COVID-19 vaccinations to school immunization requirements

11.

Are you Pro or Con on the proposal?

2. Con

I have seen the very negative side effects of this vaccine & parents deserve to choose what is best for their children. This is taking a parents right to choose away. This vaccine is not researched enough to mandate it for these tiny growing bodies.

Subject: Reject vaccine mandates for kids and school

External Email

To Whom It May Concern,

As Covid is a big concern the topic of a vaccine mandate has been brought up. I have two boys under 10 years old and I am strongly against the vaccine for my kids. I DO NOT think it should be mandated for school or in general. IT SHOULD BE THE FAMILIES DECISION! Both my boys tested positive over the summer with no symptoms. The vaccine just came out and you can not say it's been tested long enough to know the long term effects. Not just in children but adults. My own father got his first vaccine dose and ended up in the hospital 3 weeks later with bleeding in his brain tissue. He now requires a caregiver 24 hours a day. Side effects are coming out daily. You need to stop taking peoples rights away!!!

I hope you REJECT VACCINE MANDATES!

Sincerely,
Vantha Larson

To whom it may concern,

I am writing as a parent and as a born and raised Washingtonian to convey that I am adamantly against forcing children to take a vaccine that doesn't prevent the contraction or the spread of the virus but can have life altering and or fatal side effects.. Mandating a vaccine should only be done after there is years of data available to help identify the long term effects and the possible side effects..

Subject: COVID-19 shots mandated to school children in WA

External Email

Mandating COVID-19 shots for school children is ill advised, to say the least. Bluntly, it is dangerous to mandate injections of biologics that are not FDA approved and have caused over 20,000 deaths and close to a million adverse reactions in the general population for an infection that has almost no risk to children from COVID-19 or its variants. There is more danger to children from the shots than from the disease. If you would actually consider them, I can send you a mountain of scientific studies confirming my statement.

However, unfortunately, given your history approving vaccines that have not been thoroughly tested long-term, you will most likely ignore these scientific facts and hop on board the pharmaceutical freight train, ignoring, as does the CDC, early treatment with proven remedies and developing robust natural immunity in favor of these shots that, by the manufacturer's own admission, do not prevent getting sick or transmission to others and only MAY give you a milder flu for about 6 months for a single variant while causing blood clotting disorders, myocarditis, sterility and death.

Further, I support Informed Choice Washington's Petition for Rulemaking -- this is item 11 on the agenda. This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

As parents of a Kindergartner, we strongly oppose a potential Covid-19 vaccine mandate for school age children. There is no evidence that this would help, and we have our vaccines, but it is not stopping Omicron. It is way too early to see potential long term side effects. Many many parents I have talked to would pull their child out of school over this.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State.

As a taxpayer, I passionately believe education must be accessible to all children, regardless. Regardless of race, religion, gender, OR their medical choices.

This virus is not dangerous to children, but the vaccine is. Please do not force children out of our public schools as a result of these mandates.

Thank you.

2. Con

I have never been against vaccines. However, there is clearly not enough evidence to support the need for children be vaccinated with the current vaccine options against Covid-19. In fact, recently, I am aware of over 10 people that are vaccinated and many boosted that tested positive for Omicron in the past 3 weeks. The spread of each new

variant is showing a decreasing value to the vaccines that can not be ignored. Further, children are still very unlikely to have severe Covid symptoms. It would simply be unethical to require families to vaccinate their children with such uncertainty facing the current vaccines.

Subject: Government over reach

External Email

Please reconsider these Covid Policies that are immoral and unconstitutional to our human rights . The facts speak for themselves that for the majority this is no worse then a flu . Having the government tell me what I can and cannot put in my body seems so far fetched . I'll never understand why these decision making people that WE THE PEOPLE TRUSTED and voted in to save our personal rights think that this is okay and why you'd want to raise your families and next generations to not have the freedom to have a say in their personal lives. This is all about power, control and stripping away our freedoms in a already damaged country. Please take a stand for Washington State the people that believed in you and trust you won't destroy Washington State any longer over a virus that even has meds to cure but seemingly is obscured from the average person. Look deep into the truth of all of this and this over reach is simpleit's not the answer .
Thank you

I am opposed to making COVID-19 shorts mandatory for school admission or childcare in our State for the following Reasons:

- * Children are at extremely low risk for Covid
- * The vaccines are still only EUA (emergency use authorized)
- * There are no long-term studies to document any history of safety
- * Studies do now document that vaccinated and unvaccinated can both transmit Covid, therefore,
- * The vaccine apparently does not stop the spread of the disease

Please DO NOT endanger our children to unnecessary experimentation and harm.

Yes, this article ultimately pushes the Covid vaccine but can you read between the lines?

Hospitals are full. Certainly they have Covid pneumonia patients but that's not the story here. There is a significant increase in non Covid hospitalizations and we are told it is because of delayed care due to lockdowns. What if it's due to Covid vaccine injuries? The total number of hospitalizations in Indiana are the highest they've seen in 5 years. Some hospitals at 120% capacity. Way higher than last year when we had the virus and no vaccine. What if the vaccine is causing this rise in hospitalizations? I cannot prove it but also you cannot prove that this is an incorrect assumption. Only time and investigation will reveal the truth.

Meanwhile you are deciding whether or not to strip Americans of basic rights. Why? People are not dying in the streets. The Covid vaccine appears to not stop infection nor

transmission, why insist-through law enforcement- that people comply with failed vaccine? If a person wants the vaccine then they can get one. If a person does not get the vaccine it's ok too. Perhaps the vaccine minimizes Covid infection so that's up to the individual. The Covid vaccine will never itself achieve herd immunity. It can't. It does not stop the virus.

The Covid vaccine has a huge risk ratio. Just look at the VAERS data knowing only a fraction of events are reported. You must take a step back. This tyrannical action is wrong and you should not play a part in it. No. Vote no on all of it.

Hello,

I do not support a COVID-19 vaccine mandate for K-12 students. Myocardial inflammation is a very big concern for my wife and I having 2 boys. Everyone is still able to transmit this virus regardless of vaccine status and children typically fair well from COVID.

PLEASE do not put us in a position of having to decide whether the education system that I pay for in taxes will serve my childrens' needs.

Thank you,

Toby Andrews

I'm writing to request that the Washington Department of Health not require the Covid vaccines for school aged children. I have two children in the public school system and I will withdraw them if this mandate is passed.

Thank you for your consideration.

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

External Email
Greetings,

I just learned of this public forum, focusing on the imposed plan to use fear, intimidation, bullying, gaslighting, and mass formation psychosis to cull the world. I did realize how many educated and non-educated people don't have a clue about science. Spell Live backwards and you have Evil, against life.

I submit that "No one is as smart as all of us, or better than any of us. Though some people think they are."

Einstein said "If you cannot trust someone with little things, how can you trust them with big ones?" I add "If you cannot trust them with big things, then how can you trust them with anything?" Given a person or agency is known as a liar big or small, how do you know if they are lying to you? Their lips are moving.

We are all spiritual beings, sharing a human experience here in Earth School. We all come with gifts, and a mission. Then the veil of forgetting removes our knowledge of who we really are. So we can learn by experience. Imagine you were Hellen Keller. Our five senses are not who we are, they simply help us enjoy this (as Stephen Hawking said in his last paper, published posthumously April last year) hologram. You can listen to a story, read a book, see action maybe a movie. But there is no learning like first person learning.

Each and every one of us are students in God's classroom "Earth School" there are savants, bullies, high achievers, dropouts, leaders, followers, and too many who blame their condition on others. We each have personal responsibility for our actions, and how we touch others lives. Whether we like it or not. We are all sovereign spiritual beings, with free will. To violate another's free will is to condemn yourself to suffer all the ills which rise from it. In first person during your life review on the other side.

It is well documented for those willing to learn

Love and Compassion (Love with no judgement), lead to higher Consciousness.

Greed, Ego, and Fear lead to the darkest corners of our minds. There has never been a better trap than a persons own mind.

Pedophillia is used by the CABAL to prove an individual has no love in their heart, by their own free will. They know what their doing, and they choose darkness.

To harm a child is one of the worst things a soul can do. These people will enjoy a special place on the other side, where souls/entities have no love for themselves or each other. They spend their time doing horrible things to each other. A near death experience (NDE), told by a man running for sheriff said "There are entities (souls without a body, take a form representing their energy) so ugly, that to look at them makes you want to vomit." I guess that gives new meaning to the beast within. As he left the area with his escort (Big Angles, sorry if you are atheist you have a spark of God inside as well. It is by everyone's free will to believe as we choose.), they asked "Did you notice anything there?" He said what do you mean? They said "There is no love." These entities (souls without their Earthly bodies) have no love inside, and since they violated the rules against harming children. Who are off limits until adulthood from being harmed, souls who harm children are placed in what the man called second heaven (he called Earth first Heaven) and are not allowed to leave, until they learn to love. It is a choice, and we all have free will to choose.

I challenge you and all of those wishing to harm others to view the links below. Then ask yourself, why have these people been working so hard for thousands of years, against others. Imagine what we could do working together to help each other.

It is your choice, we are all sovereign spiritual beings. Omicron is God's answer to the biological weapon SARS-CoV-2 and the poison COVID-serums being injected world-wide. Real scientific studies are showing, once a person is exposed to Omicron (like cow pox) they are no longer vulnerable to the delta-variant of SARS-CoV-2. Given Fauci and so many others have been working diligently for a long time to develop the biological weapons, and strategies used to apply mass formation psychosis. To deliver SARS-CoV-2, and more importantly the selective (directly targeted) patented biological weapon serums (aka by the main stream media COVID "Vaccine"). Actually the US Patent Office had it right in 2005~2008 when they denied Fauci's crew and DARPA from patenting the serums as a Vaccine. They simply said "If you want to patent it as a vaccine, you must prove there's a health benefit." Well it was designed to kill covertly, check the link below on (Graphene Hydroxide), and it killed all the laboratory animals they tested it on. A zookeeper wanted to protect three Giraffes from COVID, so he had them injected. Within a month all three were dead. Need more proof? Don't believe anything you hear, and only half what you see. Do your own research! If someone is bullying you, or gaslighting. You're probably listening to a sociopath, or psychopath. At least Epstein could keep a straight face, B. Gates giggles when he talks about what they are doing with "vaccines" and efforts to murder billions of people.

There are only two paths to choose from, one is to awaken to the truth. The other is to remain asleep, some call them zombies. In the west we don't have a proper word for the energy that flows through our body. You may have heard of Chi, or Prana.

How do you feel?

This life is short, do you wish to suffer the torment of existence beside others with no love in their heart, doing unspeakable things to you, and others trapped in God's reeducation experience?

By no means is this list exhaustive. Waking up is hard to do. One of the hardest things is to realize they are lying to us, and lying to you. We must help each other to wake up. You, and everyone here sharing a ride around the sun are sovereign spiritual beings. Earth is one of God's rare experiments to see, how far away from source (the central sun, heart of God, the most concentrated love) we can incarnate (animate a body of download to a 3D avatar, body for experience on the world stage), and still thrive! Think of it as a military confidence course, are you willing, and able to love others for who they are? Even though you don't remember we are all one family with God our father? Crazy sure!

But I lived my life as a super analytical science person, ignoring my intuition, even after my life was saved at 22, in the middle of the night, outside a club. My guardian Angel picked up the microphone so to speak, inside my head "it's dangerous you need to move" 10-minutes later... an elderly lady driving 65 mph fell asleep about a half-block from where I was leaning against the rear drivers side fender, 5~8 feet from US-1 just north of the Florida Keys. After driving straight for hours, it's easy for anyone to fall asleep. She hit where I had been standing by 2-feet, which would have clipped me in two. I wouldn't have been here today to reach out to you, from my heart, and spark of God inside. To your heart, and spark of God in you. We are all threads in the same cloth...

Namaste (I see the God in you) ☐☐Steven

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following. If you listen to the FDA debate when they approved the vaccine for children they were concerned it would become a requirement. If will not listen to the parents, please listen to the concerns from the FDA panel. Herd immunity should come from the adults, not the children.

Please, do not require this novel vaccine for our school children.

The following survey response is submitted:

1.

State Board of Health Meeting Date:

1/13/22

2.

Agenda Item or Issue:

mandatory Vaccines for anyone but especially Children.

3.

Your Name:

Brenda Dutton

4.

Do you have a professional title?

1. Yes

Special Education Teacher - AS - early childhood education BA - Elementary Education MS
Special Education and Principal Certification.

5.

Are you representing an organization?

2. No

6.

Address:

7.

Email:

Brenda4aa@hotmail.com

8.

Phone Number (Include Area Code):

509-209-4889

9.

Do you have any special expertise relevant to this topic?

1. Yes

I have an associates degree in early childhood education, a bachelors degree in elementary education, a masters degree in special education, and a principal certificate. I have been teaching young children for 30 years.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

I propose that we do not mandate vaccines for small children. They have a 99.9% survival rate if they get Covid. Pharmaceutical companies have a history of causing unintentional harm to the American people and this vaccine is too new to put into all of our children's little bodies. Most children have mild symptoms. This vaccine was originally packaged as experimental gene therapy. I would not want to put that in any children until we have much more research about the effects that the Covid vaccine may have on long-term health. It was only a few years ago that my pediatrician wanted my son to take Prilosec for heartburn/acid reflux. Now there are class action lawsuits that say Prilosec causes serious kidney damage. I do not think for a minute that the pharmaceutical company wanted to hurt my child, neither did the doctor but these were the outcomes once people started taking the pill. You were asking me, rather you are forcing me, to trust a pharmaceutical company inside of my child's body. This is a violation of my rights, my child's rights and The constitution of the United States of America and Washington state. You still not infringe on my right to life liberty and happiness. If you poison my child you are in fringing on every single one of those things. You have no right.

11.

Are you Pro or Con on the proposal?

2. Con

I am taking this position because I follow the greed and the money. There is so much propaganda asking people to follow the science yet anyone with an opposing view is silenced. People have been injured by the vaccine are silenced. The government is not following the science. If they were they would allow for debate and other scientific opinions. When you are not allowed to question the silence it is either propaganda or a cult. Which one are you? I would like to know who on the committee has stock in big Pharma. If you do, you should step down because you have a conflict of interest.

As a parent of a child that has been in day care, Public School, Private School as well as homeschool due to health issues I 100% strongly oppose mandating a vaccine that we do not know the long term effects of for a minor of any age. My son is 15 and has been

through Chemotherapy, Radiation as well as has a complicated medical history and this would force him to receive an ill advised shot that is unknown as to what it would do to him. Seeing as he could go to public school should we choose this would affect many other children that may have underlying conditions where the vaccine would negatively affect them that have not been uncovered yet. There could be genetic heart problems that a child and parent are unaware of that this would negatively affect. Have we even considered that this may affect any autistic/add/or other learning disabled individual in a negative fashion beyond what an IEP plan could assist with? This needs to be turned down and not a forced requirement as we do not have another other options in vaccine, or proof of immunity that it being considered. Children have a low symptomatic response to Covid on average so why are we forcing something we do not know the implications of 5 to 10 years down the road on?

Subject: Against the Covid 19 vaccine mandate for children

External Email

Dear. Committee Members

Hello, I am a mother who has sent my children to ECS.

Please stop the Covid19 vaccine mandate for children.

First of all, the Covid19 vaccine was made in a short period of time and has not been fully tested in clinical trials. So, the side effects are increasing not only in the United States but also in other parts of the world.

Secondly, children are not at high risk at Covid 19. Even if children get Covid19, most of them are asymptomatic or pass through like a mild cold.

Thirdly, the Covid19 is getting weaker and now it's almost same as a cold.

In conclusion, it seems that children are more likely to suffer from the side effects of vaccination than to benefit from it. So, I sincerely ask that you prevent the Covid19 vaccine mandate for children.

Thank you for your time.

Sincerely,
Grace, One of ECS parents

I do not appreciate my child's future being negated by a virus. A virus that much like the influenzas and common colds has changed over time and will continue to change over time. If she isn't required to get the influenza for child care and school then this new questionable vaccine shouldn't be required as well. You as a health board are taking away some of our most basic liberties of freedom of choice. I'm asking that you reconsider even voting about classifying COVID-19 in the already bull crap WAC Including hiv/AIDS. Pretty sure we got rid of segregation over 60 years ago with dr Martin Luther king and we don't need to start a new form.

Please reconsider what you are doing.

External Email

To whom it may concern,

Our family include three (3) people – my husband, myself and our 11 years' old son. Both my husband and myself have tested positive on this week (Tuesday and Friday respectively), our son tested negative today but we thought this is a "false negative" as he started to have all the symptoms and he still has fever till now, his second report will be ready in 2-5 business days.

Anyway, there will be two possible outcomes for my son's second report.

1. Positive. Which means my son has the Covid antibodies, if that's the case, Vaccine should not be Mandated, as we all understand the basic biology.
2. Negative. If my son exposed himself to two parents who tested positive for 2 weeks and still being healthy, what's the point for him to get the vaccine? He has the natural immunity.

There are no sound reports and evidence to show Covid is fatal to children, the death rate is so minimal among healthy children, why the government has to push the vaccine mandate to K-12? Each person is different, parents should talk to the doctor and make informed decisions based on each family's situation. Vaccine Mandate is totally government outreach, unbelievable!

Subject: No Covid Vaccine for our children

External Email

To whom it concerns,

Let me start off by saying that we will be pulling our children from public school if the covid-19 vaccine becomes a requirement and considering moving to a different state. Getting the covid 19 vaccine should be a choice made by each individual family depending upon their health and beliefs just like the flu vaccination.

The death rate for Children under 18 who are infected with covid19 is less than 0.01 percent. This is straight from the CDC website. There have been a total of 694 child deaths "involving" covid 19, in the last TWO years in America. This is less than car accidents per one year.

The side effects from the covid-19 vaccine that we are seeing in children and adults is alarming. The biggest concern that we are seeing in children is Myocarditis, (inflammation of the heart muscle) and pericarditis . This should be scary enough to make everyone rethink the decision of giving their children the covid vaccine especially when the death rate for covid is less than 0.01 percent. Covid 19 vaccines are different from any other vaccine that we have ever used. We do not know anything about what the long term effects of the vaccine are yet. Other vaccines took 10 to 20 years of studies before they are even considered to be approved and here we are being asked to give this vaccine to our children.

There are stories after stories of children and adults having side effects and death due to the covid vaccine. Many people that I know become very ill for weeks after getting the vaccine and continue to have side effects from getting the vaccine.

The risk of the covid-19 vaccine is so much greater than actually getting covid for children. There is only risk and zero benefit. There isn't even the benefit of not getting covid. Everyone I know that currently has covid has been vaccinated, some even with a booster. Again there is only risk and no benefit to our children.

Thank you,
Travis Will

1. Yes

Mandated Covid Vaccine

11.

Are you Pro or Con on the proposal?

2. Con

It has been proven and documented that vaccinated people can still get Covid as well as transmit the virus. Being vaccinated does NOT protect you from the virus. I've known several people that were completely vaccinated and died from Covid. I had family members that were all vaccinated with the exception of one family member that lived in the household. One of the vaccinated members was infected with the Covid virus and spread it to ALL of the family members in that household with the EXCEPTION of the ONE person that was NOT vaccinated. No government entity should have the ability to choose or force any human to be vaccinated against their will.

Subject: An email from a good Wa.-state citizen 100% against gov't creating & running
Emergency Covid detainment facilities in WA state

External Email

Dear Mr. Nathaniel Thai,

I am a Washington state citizen in very good standing. My husband & I have a two thriving elementary-aged children that we homeschool. Before having children I was a teacher in both private and public schools in this state for 13 years.

I heard today that the Washington State Board of Health will be holding a meeting on the 12th of this month to discuss and seriously consider the use of Emergency Covid Detainment facilities against state citizens who are exercising their personal rights to not vaccinate themselves and their family members. This is a complete violation of our basic civil liberties & rights. This detainment idea (and the mere consideration of it) must be stopped right now!

If these plans move forward, we plan to move out of state, immediately.

Alarmed Washington State Resident,

Rebekah Maxwell
rebekahmaxwell74@gmail.com <mailto:rebekahmaxwell74@gmail.com>

Bottomline: My family & I are asking that you do NOT consider or even discuss the idea of EVER using this idea as a way of treating the good citizens of this state and country, in your meeting on the 12th (or any future meetings.)

I'm writing to state you as WA Health Dept representing me, thst I do not want enforced mandates for students for a covid vaccine. As you represent citizen health decisions you understand there hasn't been sufficient research or testing in this vaccine. There is well documented cases of students who have myocardium in males and issues with sterilization for females.

It should be a parents choice for their children in regards to masks or vaccines.

Please reconsider all information and do the right thing for student health.
Kindly
Sherryl Weiss

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>

Dear Freedom Fighters,

<data:image/gif;base64,R0lGODlhAQABAIAAAP///wAAACH5BAEAAAAALAAAAABAAEAAAIICRAEAOw==>

Together with Dr. Vladimir Zelenko I have been working very hard the past months to create a report

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>>
that shows how millions of people have died from the injections.

The Vaccine Death Report

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>>
is unique in the world, as it shows virtually everything we should know about these injections: how many have died, how many are permanently disabled, what techniques the government uses to hide this, what the agenda is behind this worldwide vaccination push, and so much more.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>

A first draft version of the report was sent to Dr. Zelenko for review, and he liked it so

much that he shared it right away - and it went viral. With all the typos in it!

The World Doctors Alliance shared it, among many other organizations.

If you saw that first rough unedited version already, please disregard it and download the final version

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>
. It has a lot of extra information, like testimonies from several whistleblowers who confirm that the government is hiding vaccine injuries by all possible means, and the expert testimony of funeral directors who see firsthand how innumerable people are dying from the shots.

The Vaccine Death Report

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>
has an amazing amount of information and is the most powerful piece of evidence anywhere in the world, that shows how there is a real genocide happening.

The millions of deaths are just the short term wave of destruction. The coming years this number will explode, as most adverse events only show up after a few years.

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>

The Vaccine Death Report

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>
is currently being translated in many languages which will be posted online soon.

Download it now

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.getresponse.com%2Fclick.htm>
, and send it to people in your community who have any kind of responsibility: law enforcement, political authorities, nurses and doctors, school directors and teachers, church pastors, etc.

The report is 100% fact based and has hundreds of references. Every bit of information can be checked.

Don't let this pass you by. The world needs to know! Download the Vaccine Death Report now and share it far and wide.

<https://www.stopworldcontrol.com/report>

Hello,

Please reconsider enforcing the Covid vaccination on school age children. We do not know enough about the long-term effects of this drug to be putting it into our children's bodies. If and when a child gets covid, their recovery rate is way too high to even consider them to be vaccinated. If the teachers are already vaccinated and the vaccination works then what is the reasoning behind vaccinating the children when they are the least at risk? There isn't any. Leave the children alone and keep them in school.

Concerned Mother,

Stacey Eagle

To whom it may concern,

I feel this idea of mandating and forcing the vaccine on people is overreach. You are slowing taking away people's right to chose. Whether that be medical right to chose, education right to chose, etc. We have freedom of speech and religion. We need freedom of medical choice.

External Email

Good morning,

I was extremely disturbed to read about the proposed policies for the upcoming January 12th meeting.

The vague and general language used to authorize broad use of force against innocent citizens is concerning, to say the least. And as we have consistently seen in the United States (at least in my lifetime), once "emergency authorization" is enacted and rules imposed upon and/or rights taken away from citizens, it is not fixed later. This is a dangerous and slippery slope especially for an illness that has an extremely low mortality rate. In Washington state over the past 2 years there have been 10,027 deaths recorded with COVID-19 (not from, and there is a significant difference). Out of a population of approximately 7.615 million people that is a mortality rate of 0.0013%. Please read that again. 0.0013% possible mortality rate of dying with a specific illness.

That is not an emergency by any stretch of the imagination, especially when deaths labeled as COVID-19 have an average of 4 comorbidities and are over the age of 70 years old (in fact, the average age of death for someone with COVID-19 is higher than the average age of death for someone without COVID-19).

While the reporting and recording systems have significant known flaws, even with flawed data available we can clearly see this disconnect between the "emergency" narrative and the reality.

Cancer and heart disease both kill over double the number of Washingtonians per year. Removing pollutants and toxins from our environments and focusing on nutrition and movement would address all three of these mortality rates, and yet the only solution being proposed is to authorize police force to enact unproven and unscientific health measures.

To be honest I find it extremely suspicious and concerning that in the midst of so many real possible solutions for how to keep my fellow citizens safe and healthy, you're trying to create a dangerous police state while diminishing actual health.

So far the policies enacted in the name of COVID-19 have harmed me and my community greatly (from business closures to the rise of mental health issues and suicide/overdose deaths to staffing shortages in hospitals). The possibility for abuse with these proposed policies is far too high and there is no data to support that there would be any benefits.

Please do not cause further unnecessary harm to Washingtonians.

Thank you for your time,

Sica Schmitz

The current strain (Omicron) has been reported as causing 6 deaths in 100,000 cases which is roughly equal to the death rate of those who have had adverse reactions to the vaccine. More people die each year from the Flu than the current strain of Covid-19. This would be a major overreach by this board and do severe harm to the faith that people have in your judgement.

Covid vaccines should absolutely NOT be mandatory, especially for kids to attend in-person school. As a parent of children who will be affected by this requirement and as a teacher who is around kids on a daily basis, science does not support this and it is a personal choice.

I myself decided to get the "vaccine" so my symptoms might be lessened if I contract Covid, but only after it was not emergency approved. Kids are not affected the same way as adults (especially with underlying conditions) are. Vaccinated people are getting Covid- not just in breakthrough cases anymore. Mandating the Covid vaccine does not follow the science anymore.

This is a personal family choice that should not be mandated. It will also affect our schools as parents pull kids out of school and are forced- yes- forced- to have their children go remote or home schooled. Non-vaccinated people, especially kids, should not be viewed as second class citizens. This will deny the rights of so many Americans and is absolutely disgusting that it is even being considered.

This is an embarrassment to Washington state.

Dear Board of Health,

I am shocked to hear legislation has been proposed that calls for detaining unvaccinated people. This is completely authoritarian and unacceptable. It would be shocking at any time, but it is especially shocking because it is now abundantly clear that even vaccinated people can get and spread covid. There is no justification for mistreating unvaccinated people (many of whom have already had covid).

There are actually some indications that *vaccinated* people are contracting Omicron at higher rates than unvaccinated.

It is past time to stop this obsession with "vaccines," since they don't actually stop people from contracting the illness--and instead focus on treatments. Stop dividing people into two classes, one that can move about freely and the other that is restricted and subjected to government harassment campaigns. Speak up more about obesity as a risk factor.

Focus on treatments, not vaccines. No detaining of people or preventing them from moving about freely.

Sincerely,
Sharon Damoff

External Email

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons: I have served in the medical field in the army for over 20 yrs. First of all I want to address the fact that by definition of the word vaccine, that by its nature, it isn't a vaccine. It would be described at best as a therapeutic; at worst, a placebo. The "vaccine" does not prevent someone from getting the virus or transmitting it. I've become very skeptical of the medical community, especially the boards regulating and enforcing the guidance for our providers regarding covid-19. There are threats against licenses if "false" narratives are given. What is truth that doesn't follow one narrative or another.

There is definitive proof that children are at extremely low risk for Covid. Those who do become infected often show little or no signs of the infection, barring any underlying conditions like respiratory or cardiac conditions, or those affecting the immune system (similar to adults). As of this email, the vaccines are still only EUA (emergency use authorized) and there are no long-term studies to document any history of safety. The studies do not document that vaccinated and unvaccinated can both transmit Covid,. The studies do evaluate the long-term risks to health from the vaccine compared to natural immunity. There have been documented side effects to children due to the vaccine to include myocarditis.

We as parents are losing our freedoms to raise our children in a Christian society. Providers can take our children without our knowledge to have an abortion, they can prescribe hormone therapy and gender reassignment surgery against our objections, just because someone convinced our child under 18 that he/she is not whom they were born as. Now they are mandating that our children must be vaccinated or else. Where's the long term proof. They don't see it as a long term problem. What happens if there is a serious problem down the road? Who is held responsible? Will the provider who administered the shot be held responsible, similar to medical malpractice? Or will it just be oops!!! Sorry for your loss or let me help you with the claim for disability.

Please reconsider and decide not to mandate mandatory covid vaccination. If this will be just like the flu, the flu vaccine isn't mandatory. This goes against my family's religious beliefs and our constitutional (state and federal) rights.

Thank you.

Sincerely,
Robert Campbell
Puyallup, WA

Good morning,

I would like to express my concerns and objections to apply current infectious disease WAC codes to include Covid-19 for WA State residents. These vaccines are non-sterilizing – the vaccinated are just as likely as the unvaccinated to transmit the virus, therefore there is no public health reason to coerce and force people to inject themselves with an experimental vaccine, especially in our children. Do you truly feel they are safe? What if it was your child that had myocarditis, developed tremors, seizures, or was unable to walk? It needs to be a personal decision when death and serious disability can be the result. We have no idea the long term effects of these vaccines, and short-term effects have been devastating for some that are just trying to do the right thing. If I had young children, I would leave the state before enrolling them in a WA state school requiring this vaccine.

As of 12/31/21 in 6-17 year olds, a small sampling of VAERS reports:

DEATH - 25

Myocarditis – 503

Troponin Increases – 574

Seizure – 499

Myalgia – 332

Asthenia – 505

Rash – 836

Lymphadenopathy – 379

Tremor – 468

Pericarditis – 139

Gait disturbance – 131

Deafness – 69

Bells Palsy - 69

VAERS – 1976711-1 – 5 y/o girl – limp, fatigue starting 12/1, 21 days post 1st dose. Progressed to fevers, admitted for possible septic hip.... 15 days in hospital.

VAERS – 1932154-1 – 10 y/o boy, 1 day post 2nd dose – asthenia, gait disturbance.

VAERS – 1936313-1 – 7 y/o boy – 1 day post 2nd dose, seizure.

VAERS – 1933324-1 – 8 y/o boy – same day as 2nd dose – cyanosis, cold sweat, vomiting, hospital

VAERS 1928826-1 – 9 y/o boy – 5 days post 1st dose – joint and peripheral swelling, unable to walk

VAERS 193617-1 – 6 y/o boy – 1 day post 2nd dose – vomiting and diarrhea lasted over a week required IVF

VAERS 1908537-1 – 5 y/o female – 6 hours post dose 1 – uncontrolled head movements and jerks, facial twitches.

VAERS 1938760-1 – 6 y/o girl – 7 days post dose 1 – 2 days in hospital, seizure, loss of consciousness

VAERS 1915825-1 – 5 y/o boy – 10 hours post 2nd dose – seizure, gaze palsy

Thank you for your thoughtful consideration.

Sincerely,

Sheryl

1. Yes

No on illegal vaccine mandates

11.

Are you Pro or Con on the proposal?

2. Con

A one size fits all approach is wrong. The shot is not properly tested. Its still experimental. Kids are not dying. Kids are not super spreaders. Its not an actual vaccine and is proven to not stop from getting or spreading covid. There is no cure for the cold and flu and we do not stop the workd for those. This is purely political and science is not being used.

I would like to express my extreme opposition to implementation of forced vaccines for anyone. A free person has the right to bodily autonomy. The state cannot force a person to take a medical procedure unless you live under communism. There is no FDA approval nor is there any information that these vaccines are safe nor have they shown to be effective as an injected person can still transmit the virus. No one knows the long term effects of this injection and according to the Vaccine Adverse Event Reporting System, there has been 11,000 deaths and over 450,000 adverse events. These so called vaccines need to be recalled since they are so dangerous.

Vaccination requirements for children

11.

Are you Pro or Con on the proposal?

2. Con

Vaccination of school age children should be a decision made solely by the parents. As the past nearly two years has shown us, COVID has and continues to have a much more minor impact on children. As we see with this latest variant, children are largely spared and if infected, tend to have a minor infection. I have 2 school age daughters, and their school has not had any outbreaks that resulted in closures. As we are finding that the vaccines are increasingly less effective, to require them at this point is not logical. Again, this is a decision that should rest solely with parents. Thank you.

This abuse of power must be stopped. The "vaccine" is a farce second only to the flu shot... except that it kills. People that matter are dead because of it, and you think you

can force people to take it? Good luck. My body, my choice. The attempt to make someone an outlaw... hmmm... Probably not a good idea to do that to hundreds of thousands of citizens. What could go wrong? I sincerely believe any party involved in this needs to be fired and imprisoned for participating in a psy-op against the citizens of my state for suggesting much less attempting to implement such an unconstitutional and traitorous proposal. You have labeled me. Now I label you- Traitors.Thieves. Murderers.Conspirators. Now, how constructive is that? Not at all. My point? I propose to remove this proposal in it's entirety, and end this farce of an emergency. There, that would be constructive!

11.

Are you Pro or Con on the proposal?

2. Con

My rights and freedoms are not granted by this governing body. I will be alive. Prosper. Move about and assemble in liberty.Defend myself and those in my care. Speak my mind. Be the sovereign of my medical decisions. Any entity or body denying me any of my rights will be neither obeyed or tolerated. Sooner or later, something is going give. It won't be me.

Subject: Mandating covid injections

External Email
America...Land of the FREE!!

There is no freedom with coerced/forced/ mandated injections that people don't want.

Even the makers of covid jabs aren't even taking them. ☐☐☐☐ That pretty much says it all.

The Chinese, and the Russians aren't covid jabbing their military.☐☐☐☐

The Chinese have already claimed to have won the biohazard war.

Covid injections do absolutely nothing beneficial for humans.
They ruin your immune system, and organs .

Covid injections cause heart attacks, seizures, thrombosis, unstoppable bleeding, death, COVID, Aids, mumps, shingles, paralysis, brain hemorrhaging, lung collapse, exacerbate cancers, strokes, inability to talk, clots, unstoppable bleeding, lung collapse, and more.

True vaccines prevent. Covid jabs don't prevent. That means they aren't vaccines. They are toxic.

I watched my best friend across the hall from my apartment die a miserable, dragged out death after her 2nd covid injection.

I saw her leg swell up extremely painful, huge, and red; from blood clots after her covid injections.

I watched her foot turn black from lack of blood (blood clots) causing her to lose her ability to walk. Only after her covid injections.

I watched her lose her strength. To the point that she was no longer even be able to move her wheelchair. She could no longer get up to go to the restroom on her own. After the injections.

I listened to her sounds of excruciating pain daily, caused by the covid injections.

I loved her dearly. So, as her friend; I cleaned up her body fluids when she was unable to get out of bed.

I fed, and cared for her regularly without pay, when nobody else was around to care for her.

I took care of her, cat because she was no longer able to...after her covid injections.

I listened to her beg me to kill her several times..because she was in so much pain. After her covid injections.

She was my best friend. Watching her suffer, literally to death has been extremely hard on me. She is gone forever now. Her stuff needs to be emptied from her apartment.

Her brother got his 2nd covid injection at the same time as her. He has suffered with shingles from the waist down for months. Only after getting his covid injections. Now he is dying of liver failure, with severe pain. Which he didn't have until his covid injections.

Another neighbor a couple of doors down the hall also died this past week. After taking the covid injections. His girlfriend also went to the hospital with a 50/50 chance of survival.

That's 3 people out of 8 apartments units, in just a week, and a half who I will never see again. Suffering, and dying needlessly. The 4th person is the brother who came to bring his dying sister groceries, even though he is very ill himself.

I took care of my best friend who believed the covid jabs would protect her from getting covid. The injections didn't protect her from anything. They killed her painfully, needlessly, and prematurely. In the end, the covid injections didn't prevent her from getting covid; and dying.

Now her brother is in severe pain, with his liver failing. Only after his covid injections.

Massive cruise ships with only covid injected people are coming home with covid. That alone says a lot.□□

Covid injections are medical procedures. Hitlers Doctors were hung for forcing unwanted medical procedures on people who didn't want them.

This is still America. If people don't want to be injected with experimental gene therapy, toxic jabs. They shouldn't be forced/coerced/ mandated on them. In my opinion forcing them on anyone is pre meditated murder.

Please please help in anyway possible to continue to keep America land of the FREE.

God gave us basic freedoms. Since the Government works for the people.. The Government shouldn't be trying to take away any of those freedoms. We should learn from history, and not repeat horrific mistakes.

Thank you for your time.
Sincerely

Please stop Covid vaccine mandate in schools

I am opposed to making covid-19 shots mandatory for school admissions or in childcare or frankly in any circumstance. Mandating medical interventions is a violation of human rights and freedom.

I am opposed specifically to these shots since they were designed to lessen the symptoms of Covid-19 and not to prevent SarsCov2. Since these shots do not protect from SarsCov2 transmission, a mandate serves no societal function.

I am opposed to these shots because they contain brand new technology with zero long term safety studies in humans, and using our children as test subjects is both abusive and violates international treaties.

2. No

11.

Are you Pro or Con on the proposal?

2. Con

Allowing the state/government to make medical decisions for our students and taking this right away from parents is unconstitutional. EUA products are by definition experimental and therefore require the right to refuse. According to the Nuremberg Code, which is the foundation of ethical medicine, no one may be coerced to participate in a medical experiment. Consent of the individual is "absolutely essential". All COVID-19 vaccines are merely authorized, not approved or licensed, by the federal government. They are emergency use authorization (EUA) only.

To whom it may concern;

Please respect the constitutional rights of every citizen to choose for themselves. These mandates are unconstitutional and not necessary. Please choose freedom over tyranny. Please stop erasing our freedoms and work for the people who elected you in good faith to serve our country. We need to remember that this virus has a 99.997% survival rate. That is not a reason to shut down the globe and imprison citizens. I know people who have gotten sick and even some who have died but not more than we normally see from colds, flu, and other normal causes. This is not the time to be violating the human rights of citizens over phantoms.

Please do not eradicate our freedoms! Vote NO. Keep our state free to choose.

blessings,
Trisha Mandigo

External Email

Dear Washington State Board of Health,

This is my second email, this time regarding the use of police powers to enforce public health recommendations.

The use of police powers to essentially imprison people who have not committed a crime is a horrible precedent. As a physician I have observed over decades in practice that no two patients are exactly alike. Medical decisions (which is what public health addresses) should be left in the hands of medical professionals. I have seen that when uniform "rules" such as those currently being practiced are enforced without compassion and individualization that people are hurt, particularly the elderly and disabled and their families.

The state needs to focus on good data collection and analysis, and let the science speak. People are starting not to trust "the science" because they are not seeing real science, but instead the use of pressure such as this proposal to allow police powers.

Susan Rutherford, MD

"Scientists should never present themselves as certain when there is doubt. The very success and truthfulness of science is founded on doubt and skepticism. It moves forward by continually rethinking, reobserving and rechecking against reality again and again to expose the flaws in current ideas." - Fern Elsdon-Baker, from her book "The Selfish Genius: How Richard Dawkins Rewrote Darwin's Legacy"

External Email

To: Washington State Board of Health

From: Robin Leone

16427 122nd PI NE

Bothell, WA 98011

Please consider my concerns and opinion that Covid shots are not responsible health applications for our children who are considered at extremely low risk for Covid. My understanding is that the shots (vaccines) are still only EUA (emergency use authorization) and absolutely should not be a mandatory requirement. The WSBOH bears serious responsibility to provide educational and explanatory information to all residents, but does not have rightful authority over these risky and unproven health decisions for our children.

Thank you,

Robin Leone

The Centers for Disease Control and Prevention today released new data showing a total
of 1,017,001 reports of adverse events

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medalerts.org%2Fvaersdb%
following COVID vaccines were submitted between Dec. 14, 2020, and Dec. 31, 2021, to
the Vaccine Adverse Event Reporting System (VAERS). VAERS is the primary
government-funded system for reporting adverse vaccine reactions in the U.S.

The data included a total of 21,382 reports of deaths

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medalerts.org%2Fvaersdb%
— an increase of 380 over the previous week — and 166,606 reports of serious injuries
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medalerts.org%2Fvaersdb%
, including deaths, during the same time period — up 4,100 compared with the previous
week.

Excluding "foreign reports

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwonder.cdc.gov%2Fwonder%2Fhe
" to VAERS, 715,857 adverse events
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffin
, including 9,778 deaths
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffin
and 63,089 serious injuries
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffin
, were reported in the U.S. between Dec. 14, 2020, and Dec. 31, 2021.

Foreign reports

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwonder.cdc.gov%2Fwonder%2Fhe
are reports foreign subsidiaries send to U.S. vaccine manufacturers. Under U.S. Food and
Drug Administration (FDA) regulations, if a manufacturer is notified of a foreign case
report that describes an event that is both serious and does not appear on the product's
labeling, the manufacturer is required to submit the report to VAERS.

Of the 9,778 U.S. deaths reported

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medalerts.org%2Fvaersdb%
as of Dec. 31, 20% occurred within 24 hours of vaccination, 24% occurred within 48
hours of vaccination and 61% occurred in people who experienced an onset of symptoms

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffin
19%26STATE%3DNOTFR&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C2d97fc2777a74fed488408d9d2
within 48 hours of being vaccinated.

In the U.S., 507I .1 million COVID vaccine doses had been administered as of Dec. 30,
This includes

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fourworldindata.org%2Fgrapher%2Fvaccine-doses-by-manufacturer%3Fcountry%3D~USA&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C2d97fc2777a74fed48296> million doses of Pfizer, 194 million doses of Moderna and 18 million doses of Johnson & Johnson (J&J).

<<https://childrenshealthdefense.org/wp-content/uploads/vaers-vaccine-injury-january-7-2022-300x241.jpg>>

Every Friday, VAERS

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-jr-david-kessler-covid-vaccine-vaers%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C2d97fc2777a74fed488408d9d254407a%7C11d>
publishes vaccine injury reports received as of a specified date. Reports submitted to
VAERS require further investigation before a causal relationship can be confirmed.
Historically, VAERS has been shown to report only 1% of actual vaccine adverse events
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdigital.ahrq.gov%2Fsites%2Fdefaul-lazarus-final-report-2011.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C2d97fc2777a74fed488408d9d254407a%7C11d>

U.S. VAERS data from Dec. 14, 2020, to Dec. 31, 2021, for 5- to 11-year-olds show:

* 6,005 adverse events

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffind>
, including 126 rated as serious

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffind>
and 3 reported deaths

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffind>

The most recent death involves a 7-year-old girl (VAERS I.D. 1975356

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Finformational%2Fvaccine-safety%2Fadvisories%2Fadvisory-2021-06-08-pfizer-combined-vaccines>
) from Minnesota who died 11 days after receiving her first dose of Pfizer's COVID vaccine when she was found unresponsive by her mother. An autopsy is pending.

* 13 reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffindings/myocarditis-and-pericarditis>
of myocarditis and pericarditis (heart inflammation).

- * 15 reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffind%2Fblood-clotting-disorders>.

U.S. VAERS data from Dec. 14, 2020, to Dec. 31, 2021, for 12- to 17-year-olds show:

* 26,169 adverse events

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedalerts.org%2Fvaersdb%2Ffind%2F19%26STATE%3DNOTFR%26WhichAge%3Drange%26LOWAGE%3D12%26HIGHAGE%3D18&data=04%7C>, including 1,516 rated as serious

Hi. I plan to attend this Wednesday's virtual meeting, at least until 2pm.

I indicated I plan to give "testimony" at the meeting.

I see that it appears they will only be taking testimony from roughly 1:30 - 2:00 pm.

I need to know how many will be giving opposing testimony, how long each person has to speak/show charts and graphs, etc. and what are the ground rules you've established.

Also, can you please provide a point of contact I can call for more information?

Please send me whatever detail you can.

Sincerely,

Richard Hjelte

Subject: Jan 12th '22 mtg discussion on applying infectious disease codes to include covid 19

External Email

Please be advised the application of covid 19 to the infectious disease codes would be a gross over reach of authority against the residents of WA State. Covid 19 has not been factually defined to warrant non-disclosed injection substances.

To approve items 1 & 2 of the discussion would be in violation of the WA State Constitution, specifically Article 1, Sec 3 & 7.

I implore you to be adherent to our WA State Law as your oath of to states. Sincerely,
Ron Kaler

Subject: RE: Jan 12th Meeting

External Email

Dear Board of Health Members,

Thank you for your service to the citizens of WA.

I am writing to ask you to NOT implement ANY policies that utilize tyrannical actions (involuntary quarantines, testing, treatment, counseling, and vaccinations) in what will be a failed attempt to "contain" Covid19. This virus will never be contained, it is a part of our ecosystem now. The only real defenses against it are REDUCING CO-MORBIDITIES and allowing ROBUST THERAPEUTIC TREATMENT DEVELOPMENT. Have you as a board, recommended spending any public service resources on telling people to live a healthy lifestyle as the best defense??? If people are healthy, IT IS CLEAR THEY ARE AT A MASSIVELY REDUCED RISK OF LONG TERM EFFECTS FROM THIS DISEASE.

We also know that the vaccines are ONLY GOOD FOR SHORT TERM PERSONAL PROTECTION from significant symptoms, but do not stop transmission or infection. My taking a vaccine DOES NOT save anybody else from Covid19, so forcing vaccines on people becomes nothing more than a form of medical authoritarianism, not health care. If WA's health care systems are stressed due to COVID patients, it is ONLY because hundreds of qualified health care professionals were unnecessarily terminated from their jobs (many with natural immunity), and due to that there are not enough people to provide care.

Please DO NOT implement any actions that will only hurt/divide/anger your fellow citizens and DO NOTHING to reduce the spread of this disease. HAVE COURAGE AND PLEASE TAKE A STAND AGAINST TYRANNY.

Yes, this article ultimately pushes the Covid vaccine but can you read between the lines?

Hospitals are full. Certainly they have Covid pneumonia patients but that's not the story here. There is a significant increase in non Covid hospitalizations and we are told it is because of delayed care due to lockdowns. What if it's due to Covid vaccine injuries? The total number of hospitalizations in Indiana are the highest they've seen in 5 years. Some hospitals at 120% capacity. Way higher than last year when we had the virus and no vaccine. What if the vaccine is causing this rise in hospitalizations? I cannot prove it but also you cannot prove that this is an incorrect assumption. Only time and investigation will reveal the truth.

Meanwhile you are deciding whether or not to strip Americans of basic rights. Why? People are not dying in the streets. The Covid vaccine appears to not stop infection nor transmission, why insist-through law enforcement- that people comply with failed vaccine? If a person wants the vaccine then they can get one. If a person does not get

the vaccine it's ok too. Perhaps the vaccine minimizes Covid infection so that's up to the individual. The Covid vaccine will never itself achieve herd immunity. It can't. It does not stop the virus.

The Covid vaccine has a huge risk ratio. Just look at the VAERS data knowing only a fraction of events are reported. You must take a step back. This tyrannical action is wrong and you should not play a part in it. No. Vote no on all of it.

LIBERTY FOR WASHINGTONIANS.

External Email

Does the jab meet the definition of a vaccine?

Does the jab prevent a vaxxed person from contracting Covid 19?

The jab reduce the symptoms of a person who has contracted Covid 19? That has been the sale point, but is it even true?

Does the jab prevent a vaxxed person from spreading Covid 19?

Was the definition of vaccination changed in order to justify the governor's and president's emergency use authorization?

Was the definition of herd immunity changed in order to further the propaganda of Dr. Fauci?

Herd immunity used to mean that a person got sick with the virus, or was immunized with an actual vaccine, and then did not contract or spread the virus further.

It appears that the naturally immune have no risk of contracting Covid 19, and that should be the goal using old-school herd immunity.

Please consider that there is no advantage to someone with natural immunity to get the jab.

If a person does not get the jab, what are the chances of dying from Covid 19 (not with Covid 19)?

Have you considered the inflated reporting numbers from the CDC, where anyone seen in the hospital gets a Covid test and if positive is deemed a Covid case, even if asymptomatic?

Are you going to consider the inaccuracy and unreliability of the PCR test when considering the actual number of people who have contracted Covid 19?

How many of these positive Covid cases were actually the flu (given that it has been proven the PCR test shows positive for the flu)?

Are you going to consider that there are valid curative treatment measures including ivermectin, monoclonal antibodies, etc., that have saved millions of human lives worldwide, yet the CDC continues to allow emergency use authorization?

Are you going to consider that the governor's mandate would have never occurred, had Dr. Fauci and Company not recommended the lethal remdesivir as the treatment protocol and killed thousands of Americans?

Are you going to consider that school-aged children rarely contract Covid 19 or experience symptoms, and that the current "Omicron variant" of Covid 19 has the symptoms of a mild cold/flu?

What happened to all the other Covid 19 variants? While this latest variant is reportedly more transmissible, the potential risks to health and life are minuscule at best.

Are you going to consider that the VAERS reports and that vaxxes are more dangerous and deadly than the current variant?

Are you going to recognize that anyone who has recovered from Covid 19 should be considered naturally immune and not be subject to the governor's ultimatum?

Are you going to consider our civil liberties and constitutional rights for medical freedom and choice when making your decision?

The testing and vaxxes are ultimately not free of cost. Taxpayer dollars are paying for these, and the politicians, etc. pushing these have vested interest in profits. It is shameful that medical professionals and first responders have been threatened with losing their licenses and certifications if not complying with this ultimatum.

Have you considered that the medical professionals promoting the vaxx have been threatened with losing their licenses and certifications if they don't?

It is shameful that these vaxxes did not undergo age-old required testing on animals and that the governor is effectively using his citizens as test subjects. The vaxx does not prevent Covid 19 or the spread of Covid 19, and the long-term effects on reproduction, immune systems, among all the other detrimental side- effects of the spike proteins will not be known for years to come.

When it is reported that hospitals are near capacity, are you considering that they are at capacity due to decreased staffing levels because the nursing staffs have been decimated due to the vaxx requirement for continued employment?

Have you considered the number of people who have received the vaxx and are now being hospitalized with health complications?

Have you considered the increase in people who have died from heart, lung, and blood clotting complications due to the vaxx and subsequent boosters?

Have you considered how many more children will be removed from the public school systems if this poison is mandated?

Have you considered medical professionals' opinions who do not believe this vaxx should be forced on Washington citizens?

How many citizens and children are an acceptable number that you are willing to let die or suffer a permanent disability such as pericarditis from taking the jab?

Why is this even being considered as a mandatory requirement to attend public school?

There are so many more questions...

stop your mandates. stop them. stop "looking into" whether or not to implement more. leave people alone. let people decide their own methods of personal care. people do not belong to you. you are not fixing things. you are making them worse, it is obvious. i know you can see it with your own eyes. you can, can't you? you can see your policies fail? you can see crime on the rise? you can see poverty increasing? you can see the overall happiness of people fading? it's because of YOU. STOP IT! END THE MANDATES. PEOPLE DO NOT NEED THEM, OR YOU! you WORK FOR the people, not "mandate" them to do anything. stop it!!

Dear members of SBOH.wa.gov

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fsboh.wa.gov%2F&data=04%7C019>>

As you vote, please consider opposing a "required" for the Covid-vaccine. Often times a mandate for a vaccine that does not have the positive Medical Professional research behind it causes a lot of confusion and difficult parenteral decisions and Family Physician support. This will possible result in much confusion for a parent to determine what is the right thing to do for their child. If this law is passed as a requirement, this may mean parents will just keep their child out of school, missing all the things that are so important in a Childs growth and development in attending the educational programs that help our young children to grow, mature, and become great citizens of our country. It seems to me, that since this age individual is not being seen as severely effected, and we don't have long term data on what the results maybe, a more free choice maybe a better way to go, than to demand that it be required to attend public school. There are currently many other natural nutritional ways to support, build up the Immune system.

As a retired school nurse, I would be in support of voting for "recommended".

Thank you for your attention to my opinion.

Allowing corporations to profit off this crisis by halting therapeutics in favor of more expensive ,and most importantly not approved experimental vaccines is evil. The violation of hippa rights by forcing people to publicly share thier private health information via vaccine cards and mandates is evil.both of those things are constitutionally illegal. Make no mistake you are the children of mussilini corporatist facism. You will lose in the long run one way or another. It is not a coincidence that the biggest fact checking organization is ran by Tom Reuters and he also sits on the board of Pfizer. We know you are corrupt. We know you are paid for. At no point in history did this kind of authoritarianism ever win in the long run. We will win. All you have to do is invite us. Make us right. Make yourselves the oppressors we all know you are. Everyday I walk outside i see people destroyed by you. The people that you ignore. the homeless and the drugs are rampant. You have failed in everything you have promised. Do the right thing for once. Do not commit treason against your fellow humans so you can have money.

Children are at extremely low risk from covid. Children have a robust immune system already. All at risk people of covid have already been vaccinated. We should stop pretending like vaccines will protect or children from heavily variated strains like omicron and start educating people to simply live healthy lifestyles with diet, excercise and stress management. And also start focusing on early treatment. Please do not force our children to be vaccinated for covid with a vaccine that by any other definition is not a vaccine at all. Also it is still in emergency use authorization.

I heard that you postponed your discussion about mandating the covid vaccine for students. I want to share my feedback, for consideration whenever you have this discussion.

The covid vaccine is not preventing transmission of covid 19, as evident by the current outbreaks among fully vaccinated school staffs. For this sole reason, it should not be mandated. Isn't the point of school vaccine mandates to stop the spread of communicable diseases at school? Well, this vaccine will not do that.

I am vaccinated, and so are many others I know. Nevertheless, so far I personally know 12 vaccinated people who got covid (this includes me and my family), and that's everyone I know who was exposed, plus 7 unvaccinated people who live with them and got it too.

Sure, we could get a philosophical exemption (well, I would hope, even though it was taken away for the MMR), but do you know how hard it is to find a doctor willing to sign an exemption?

Since the vaccine is not preventing transmission, but only severity (although the disease is generally mild for children, which was definitely true for my own), then it should be left as a personal choice, not a mandatory one.

Thanks,
Rachel Nicholson

I respectfully ask that you vote against a any mandatory requirements for children to get any COVID vaccine for school or otherwise. There is a reason vaccines and medicines are vetted an extended period of time and this vaccine should be no different. At this point in time, no one has any idea what the long term effects are from this vaccine and until that data is available, this should not be a requirement (especially for our children). I feel requiring the vaccination of children with a vaccine that has not met this rigorous vetting process is not only dangerous, but reckless and irresponsible on the part of our system that is supposed to be looking out for the welfare of our children. This vaccine should be categorized and tested the same as all other vaccine's for children.

Thank you,

please see attached letter

I come today to oppose mandating the COVID “vaccine” for children or to expand authority to use police powers to force vaccines and quarantine adults in facilities that include “reeducation.”

The mRNA “vaccine” is EXPERIMENTAL, approved for EMERGENCY USE ONLY. As such, INFORMED CONSENT is required to participate. The drug companies who are making the “vaccine” are requesting **75 years before releasing safety data**. Until safety data is available, people are not being given informed consent. The risks of this will not be fully known until after most of us are dead. How can we assess Risk vs Benefit without knowing the risks? Forcing this on people is unethical. The only FDA approved version of the vaccine is not available in the US. (Cominrtty)

The “vaccine” **does not prevent** contracting nor spreading Covid, Israel is a great example where 90% of the population has been vaccinated and boosted, and still are having massive outbreaks of COVID infections. The Covid vaccine is a failure. At best, after permanently altering one’s DNA, the only hope is to have a “milder” infection.

Treatments that have been used successfully in other countries to treat COVID are actually being banned in our country and doctors who attempt to prescribe them are being THREATENED with loss of their license to practice. Why? Hundreds of peer reviewed, double blind studies are now available and have shown that supplementing with Vitamin D3, Zinc, Quercetin, Vitamin C can keep your immune system healthy enough to mitigate exposure to COVID. Additional Treatments using hydroxychloroquin and or Ivermectin within a few days of onset of symptoms significantly reduce the severity of the illness. Yet, the current approved “protocol” is to wait until the ravages of the virus are causing multi organ failure, then come to the hospital for experimental treatment with Remdisivir, a liver and kidney toxic drug which was withdrawn when trialed for Ebola because over 50% of the people who were in the study died within 2 weeks, over the control group. (this if from the NIH data)

Insurance companies for working age adults have seen a 40% increase in death and disability claims in the past quarter year over year. This data shows that a year ago, without any vaccine nor approved ntreatment for covid, a dramatic increase in deaths and disabilities have occurred. The difference is the vaccine mandate was announced. How many of these working age adults were as a result of sudden death after a vaccine? They indicate that a 10% change year over year is very significant. But a 40% change is unprecedented.

Something as simple as using a diluted betadyne solution (2.5cc in 8 oz water) for a nasal/sinus rinse is effective in killing the virus lodged in the upper airway where it works to replicate. If exposed, doing this every 4 hours will prevent illness. Massive public education should be assumed by the DOH to teach the public this simple tool they can do to reduce their risk of becoming ill.

Masks being used by most people are ineffective in filtering the virus. The virus is 0.1 micron in diameter. Masks filter bacteria and viruses larger than 0.3 microns. That is if the mask fits

properly without air passing around it. But even with a properly fitting mask, this virus (AIRBORNE) passes through it. This is scientific fact. Check the DOH's Isolation precautions required for AIRBORNE illnesses (includes chicken pox, measles, TB and others). This virus falls under the same category. In fact, areas where masking has been mandatory actually have more COVID cases than the "masks optional" areas. Masks are making things worse.

Now for the Children: Young children have very few ACE 2 receptors in their nasopharynx. An ACE 2 receptor is where (according to scientific research available) the spike protein attaches to inject its DNA into a human cell where it reproduces and causes the infection. That is the reason children have very mild illness from COVID. Tests may pick up the virus in their nostrils, but the child is not ill. (high risk children may be an exception but should also NOT be mandated to receive a DNA altering EXPERIMENTAL injection.) According to the Nuremburg code of ethics, experimental treatments must be voluntary. Mandating these mRNA injections violates the Nuremburg code of ethics.

Furthermore, the number of cases of death and disability is not being well documented. Significant numbers of adverse reactions are occurring after receiving the vaccine. In fact, according to VAERS data, more adverse reactions to this vaccine have been documented than EVERY VACCINE COMBINED TO DATE. From healthy athletes dropping dead on the field, to a 5 year old who died within days of receiving a vaccine recently, to sudden onset of myocarditis or Guianne Barre's neurological disorder, more people are at risk to suffer disability or death than the vaccine is saving. Since the vaccine does NOT PREVENT GETTING OR SPREADING COVID, it needs to remain as a VOLUNTARY ONLY option.

I would like to see the Health Department focus on reporting the ACUTAL science of PREVENTION and TREATMENTS people can do at home. Masking, social distancing, and vaccines are not working.

No one should be forced or coerced or bribed to take a vaccine in order to continue living their life.

Subject: This is NOT OK in WA

External Email

I refer to the WA Board of "health" and their proposal to apply current WAC infectious disease codes to include Covid to all WA residents.

On behalf of myself and extended family, I do not consent to this, or to anyone who represents my health or the health of my fellow citizens, applying such codes or orders onto the residents of WA. These codes while perhaps seemingly for the greater good, when applied or related to what we have witnessed in the last 30 months, where every human right has been destroyed in the name of "greater good" to the utter detriment of all that is truly about health and wellbeing and our most fundamental human rights, are alarming. How can we ever trust a department to consider individual human rights when recent history shows there is no respect for the wellbeing and rights of the residents of this state or this country - we have lost it all. We have lost all trust in your system. These proposed orders will destroy even more the rights of people to bodily integrity and health choices. Please do not support this move. It is a terrifying one in the face of all the freedoms we have already lost, and the crimes already being perpetuated against the people of Australia.

Thank you

A deeply concerned citizen

Wendy S.

More and more data and studies are coming out revealing the short term effectiveness of vaccines. Omicron has shown an affinity for vaccinated and boosted individuals. To incorporate this into the WAC without a solid long term vaccine is very premature.

Please do NOT make the vaccines mandatory for children to attend public schools. We do not know the long term effects these vaccines have on people, and Covid virus is not as harmful to children. The creator of mRNA vaccines also stated he is against the mandating of the Covid mRNA vaccines. If you go through with this mandate, any harm caused to children will be on your hands. Please do it base your decision on fear but rather science and numbers.

1. Yes

The proposal to add the Covid-19 vaccine to the school immunization requirements.

11.

Are you Pro or Con on the proposal?

2. Con

1. Statistics and evidence have shown that children are at little to know risk of serious illness from the Covid-19 virus presenting itself as a cold at best and often asymptotically. 2. The vaccine does not prevent infection or spread of the virus. CDC and evidence confirms this. 3. For the reasons above, the use of this experimental vaccine for which long term effects are still unknown on children who do not need it is not only unnecessary, it's irresponsible. 4. The known risks associated to the vaccine ie myocarditis, pericarditis are not outweighed by the potential reward of the vaccine in healthy children. 5. Since the vaccine has the potential only to protect the vaccinated individual it should remain a personal health decision based on that individual's health concerns and risk assessment.

I am writing to oppose the notion of mandating the Covid vaccine as one of the school entry requirements in the state of Washington.

Data has shown the impact of covid hospital and death toll on children under 16 years is close to 0%, Furthermore, we don't know the long term side effects can inflict by covid vaccine while the short term effects have crippled many including myocarditis among youth Many studies indicated Covid vaccine is not safe to inoculate children at a massive scale, it is still an experimental remedy that is only needed by a very few with compromised immune systems or existing medical conditions.

It is not sensible nor ethical to even consider making the Covid vaccine a requirement to enter school.

Sincerely,

Mark

Washington should not include Covid – 19 in the current infectious disease WAC codes for all WA State residents. State residents and especially parents should have a choice if they want a Covid shot for themselves and for their children. People are responsible for their health and shots they decide to get such as the annual flu shot – Covid should be treated the same way.

Please use common sense when creating requirements that will be imposed on all state residents.

Sincerely Sue Reed

This vaccine has been shown to travel straight to the ovaries of women vaccinated. It's affecting menstrual cycles, fertility and causing miscarriages, as observed MANY WOMEN, even though it's being denied. Mandating a vaccine in children would be messing with the future of our world, our children's lives are too precious. An undisclosed OB doctor in

Seattle is advising patients against the vaccine because it's affecting fertility. Follow the science PLEASE. Stop using mandates to force people against their will to vaccinate themselves with something they don't believe in. The transmission of COVID from the vaccinated is around 40%, which is proof that this vaccine isn't working. It's. Not. Working. So don't force our children to be shot up with things that doesn't even work!!

please see attached letter

I come today to oppose mandating the COVID “vaccine” for children or to expand authority to use police powers to force vaccines and quarantine adults in facilities that include “reeducation.”

The mRNA “vaccine” is EXPERIMENTAL, approved for EMERGENCY USE ONLY. As such, INFORMED CONSENT is required to participate. The drug companies who are making the “vaccine” are requesting **75 years before releasing safety data**. Until safety data is available, people are not being given informed consent. The risks of this will not be fully known until after most of us are dead. How can we assess Risk vs Benefit without knowing the risks? Forcing this on people is unethical. The only FDA approved version of the vaccine is not available in the US. (Cominrtty)

The “vaccine” **does not prevent** contracting nor spreading Covid, Isreal is a great example where 90% of the population has been vaccinated and boosted, and still are having massive outbreaks of COVID infections. The Covid vaccine is a failure. At best, after permanently altering one’s DNA, the only hope is to have a “milder” infection.

Treatments that have been used successfully in other countries to treat COVID are actually being banned in our country and doctors who attempt to prescribe them are being THREATENED with loss of their license to practice. Why? Hundreds of peer reviewed, double blind studies are now available and have shown that supplementing with Vitamin D3, Zinc, Quercetin, Vitamin C can keep your immune system healthy enough to mitigate exposure to COVID. Additional Treatments using hydroxychloroquin and or Ivermectin within a few days of onset of symptoms significantly reduce the severity of the illness. Yet, the current approved “protocol” is to wait until the ravages of the virus are causing multi organ failure, then come to the hospital for experimental treatment with Remdisivir, a liver and kidney toxic drug which was withdrawn when trialed for Ebola because over 50% of the people who were in the study died within 2 weeks, over the control group. (this if from the NIH data)

Insurance companies for working age adults have seen a 40% increase in death and disability claims in the past quarter year over year. This data shows that a year ago, without any vaccine nor approved ntreatment for covid, a dramatic increase in deaths and disabilities have occurred. The difference is the vaccine mandate was announced. How many of these working age adults were as a result of sudden death after a vaccine? They indicate that a 10% change year over year is very significant. But a 40% change is unprecedented.

Something as simple as using a diluted betadyne solution (2.5cc in 8 oz water) for a nasal/sinus rinse is effective in killing the virus lodged in the upper airway where it works to replicate. If exposed, doing this every 4 hours will prevent illness. Massive public education should be assumed by the DOH to teach the public this simple tool they can do to reduce their risk of becoming ill.

Masks being used by most people are ineffective in filtering the virus. The virus is 0.1 micron in diameter. Masks filter bacteria and viruses larger than 0.3 microns. That is if the mask fits

properly without air passing around it. But even with a properly fitting mask, this virus (AIRBORNE) passes through it. This is scientific fact. Check the DOH's Isolation precautions required for AIRBORNE illnesses (includes chicken pox, measles, TB and others). This virus falls under the same category. In fact, areas where masking has been mandatory actually have more COVID cases than the "masks optional" areas. Masks are making things worse.

Now for the Children: Young children have very few ACE 2 receptors in their nasopharynx. An ACE 2 receptor is where (according to scientific research available) the spike protein attaches to inject its DNA into a human cell where it reproduces and causes the infection. That is the reason children have very mild illness from COVID. Tests may pick up the virus in their nostrils, but the child is not ill. (high risk children may be an exception but should also NOT be mandated to receive a DNA altering EXPERIMENTAL injection.) According to the Nuremburg code of ethics, experimental treatments must be voluntary. Mandating these mRNA injections violates the Nuremburg code of ethics.

Furthermore, the number of cases of death and disability is not being well documented. Significant numbers of adverse reactions are occurring after receiving the vaccine. In fact, according to VAERS data, more adverse reactions to this vaccine have been documented than EVERY VACCINE COMBINED TO DATE. From healthy athletes dropping dead on the field, to a 5 year old who died within days of receiving a vaccine recently, to sudden onset of myocarditis or Guianne Barre's neurological disorder, more people are at risk to suffer disability or death than the vaccine is saving. Since the vaccine does NOT PREVENT GETTING OR SPREADING COVID, it needs to remain as a VOLUNTARY ONLY option.

I would like to see the Health Department focus on reporting the ACUTAL science of PREVENTION and TREATMENTS people can do at home. Masking, social distancing, and vaccines are not working.

No one should be forced or coerced or bribed to take a vaccine in order to continue living their life.

This is absurd. It shouldn't be acceptable to force people to get a shot! Our bodies, our immune systems, our CHOICE!!! The vaccine does not prevent any one from getting sick. It does not prevent the spread. I do not want to force my child to get multiple booster shots and put an unknown substance in their. This is all a big joke. This will negatively affect things in a major way.

From the beginning of this pandemic, the risk of Covid to young people has always been extremely low, a finding public health officials have downplayed instead of acknowledged. According to the American Academy of Pediatrics, children have represented 0.00%-0.27% of all Covid-19 deaths.

In other words, a total of 803 American children have died from Covid or with Covid over the last two years. That's less than the number of total deaths from both influenza and RSV infection in a typical year before the pandemic. A recent study of children in Germany found that no healthy child between the ages of 5 and 17 died of Covid during a 15-month period when nearly all were unvaccinated. Zero. In the whole country.

And yet there is very much a public health crisis facing young people. It is a crisis that's been created by these draconian Covid policies—a crisis that's the result of depriving young Americans of the basic enjoyment of life and the benefits of human connection. A study conducted by The Jed Foundation, a nonprofit that combats suicide among young people, found that, over the course of 2020, 31% of parents said their child's mental health was worse than before the pandemic. There has been a surge in hospital visits for self-harm, a surge that was particularly acute among adolescent girls. The U.S. Surgeon General recently declared a mental health crisis among young people globally, citing 25% of youth experiencing depressive symptoms and 20% experiencing anxiety symptoms.

9.

Do you have any special expertise relevant to this topic?

1. Yes

I'm a parent of a child that is K-12.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

As a parent, having to decide between a vaccine that has no long-term testing under its belt vs. access to education puts me in precarious position. Do I give my child a vaccine that could alter her menstrual cycle or have effects on her fertility just so she can receive education? What needs to happen is to halt mandates and do more testing. The chicken pox vaccine was studied for 15 years before it was given to the public. And then it was heavily debated for almost 10 years before it was made a requirement for school admission. Shouldn't the same diligence be made for all vaccine requirements? What are the long-term effects? We don't know the answer to that question - yet. And until we do, a COVID-19 vaccine mandate for K-12 shouldn't even be considered or discussed.

11.

Are you Pro or Con on the proposal?

2. Con

The risks of the COVID-19 vaccination for this age group, K-12, outweigh the benefits. Myocarditis and pericarditis are a few of the side effects. Long-term side effects are unknown since vaccine clinical trials only started in the summer of 2020. It is yet unknown how the COVID-19 vaccine effects menstrual cycles in females or if there are any fertility issues that may happen later for both females and males. I'm not anti-vaccine, but answers to these questions need to be provided before a vaccine is mandated for our young people. Adopting this requirement would further promote the hate and fear against those that remain unvaccinated and allow only those that comply to have access to education. Bottom line - should a COVID-19 vaccine become a requirement then we will pull our child out of public school.

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

TAC to explore making COVID 19 shots mandatory

11.

Are you Pro or Con on the proposal?

2. Con

Children should not be guinea pigs. Children have such a tiny chance of being severely affected by COVID 19 that they should not take shots to try to protect old people. Vaccination of children when they don't need it is not appropriate.

Where can I begin? Are you Nazis? We have a Constitution in the United States, of which you are a part of. You may not have read it, but I have! There is no emergency other than people's fear and your quest to control the lives of others. My wife and I are in our 80s and we have both had the COVID which was little more than a cold. BTW, we got it after having all three shots. This is no cause for an emergency. I am not a violent person, but you are risking a violent response from those who are. Are you crazy and want to start an armed conflict? Even the federal level is backing down from this draconian behavior.

The shots are at best minimally effective and masks are useless, check with FDA and CDC comments regarding masks. What is effective are therapeutics which have been banned for no rational explanation. Government overreaching has caused the average citizen to become more informed than your so-called "health professionals" and we will not stand for this! Our medical facilities are understaffed due to your mandates with which some will not comply and not as much due to COVID. Get a grip on reality! Have you checked with law enforcement? Because the friends in the Tacoma police and the Sheriff's department have serious questions about enforcing these dictates. You need to rethink your plans.

Subject: Vaccine Mandate for Children

External Email

Dear Members of WA State Board of Health,

As a concerned parent and member of the community, I would like you to consider statistics and data on deaths, severe disease and hospitalizations in children, consider the risk factors (like inflammation of heart), before mandating vaccines for children. Please note that covid especially with omicron causing less severe disease poses a mild threat to children on an average. I would highly appreciate it if this "big" govt authoritarian approach of mandating vaccines is given up. Let individuals decide their risk level and leave each family to its own. Vaccines are not preventing cases anyway as they are only decoupling severe disease from infection hence the community is not benefitted. Also consider how private schools functioned and kept open through the peaks of delta and other more virulent variants!

Please stop disrupting our children's lives as closing schools and disrupting so much of social fabric is already playing havoc with their mental health.

Regards,
Twisha

To Whom It May Concern:

I am a Washington state citizen in very good standing. My husband & I have a two thriving elementary-aged children that we homeschool. Before having children I was a teacher in both private and public schools in this state for 13 years.

I heard today that the Washington State Board of Health will be holding a meeting on the 12th of this month to discuss and seriously consider the use of Emergency Covid Detainment facilities against state citizens who are exercising their personal rights to not vaccinate themselves and their family members. This is a complete violation of our basic civil liberties & rights. This detainment idea (and the mere consideration of it) must be stopped immediately!

If these plans move forward, we plan to move out of state, immediately.

Proposing to use law enforcement to force someone to do anything against the “freedom” that America supposedly has. Proposing to use law enforcement to blindly follow whatever is being said about Covid and needing to be vaccinated. We have the RIGHT to say no, as do you. You cannot force someone to do something just because you believe they should. I’m willing to bet all of you wouldn’t want to do anything if it were coming from someone you do not trust has your best interest in mind. Stop trying to force people to do these ridiculous things. Covid has been by so politicized that I honestly don’t even know if our health is truly being considered.

This is absolutely not right. This is criminal and complete tyranny. The vaccine does not keep from getting or spreading the virus.

I oppose any forced medical treatment, and vaccine. CDC has had too many problems with this virus and they honesty of the Washington government and cdc can't be trusted.

Mandatory COVID shots in order to attend schools/childcare

11.

Are you Pro or Con on the proposal?

2. Con

This is a massive overreach by an already power hungry organization. Children ARE NOT at meaningful risk of COVID. The current vaccines are under emergency authorization use, and not 100% effective. We do not mandate flu shots for school entry, which have far better efficacy. If the BoH goes down this road, my family, including 4 children will leave this state behind for a place with real, common sense leadership.

I am opposed to making COVID-19 shorts mandatory for school admission or childcare in our State for the following Reasons:

This is insane children are at low risk and so are adults from death . We have therapeutics and options to vaxx but do not force . The shelf life of these so called vaccines is short lived and NO long term data to know what adverse effects may arise !! We already have so many adverse reactions ,please leave this upto Individuals .

If you want to "follow the science," on the need for Covid vaccination for children, there is virtually no reason statistically that children should be required to take the vaccine for Covid. From day one of this pandemic, children and young adults have virtually no chance of having damaging affects. The risk in administering the vaccine far outweighs natural contraction and immunity. This is not just from my own research from the beginning of this pandemic. You just have to listen to the doctor who invented the vaccine. He would agree with my comments. He made the very same ones.

Dear committee member, I am writing to you to express my opinion that there should NOT be a mandate for the covid vaccine for k-12 students. This vaccine does not provide immunity from the virus and does not prevent transmission of the virus. The long term effect of this vaccine is not clear. It should be left to individual parents to consider the risk/benefit for their child.

Wei Xiao
Parent of 3 k-12 students.

Board of Health,

The mRNA injections are still under EUA. You cannot force this product on anyone, least of all children. Comrinaty is the product approved by FDA, and is not available in the United States.

The mRNA platform has proved to be a complete failure-with efficacy completely disappearing around 6 months. Boosters are fueling new variants.

The entirety of these products need to be immediately pulled from the market. They are not safe, nor effective. 21,000 deaths and more than 1,000,000 adverse events should be evidence enough-see CDC VAERS.

The fact that you're even considering putting them on the schedule speaks volumes of how ill informed you are.

The entire weight of the judicial system should be unleashed upon you if you actually decide to put our children in harms way.

Children are not, nor have never been vectors or high risk patients of SARS-COV-2.

I pray you find the courage to do what's right and reject this plan.

Good afternoon,

Please consider the data, scientific data, and scientific evidence that shows COVID vaccine is not needed, or effective against the COVID disease.

The physical effects are so negative to children that we should not place or allow such a mandatory requirement on our children.

The rights of citizens in according to the constitution, and private property (My Body My Choice) should be the standing ground for not allowing this vaccine to be mandatory for anyone!

Thanks for listening

We have a right to informed consent and the right to make a decision of our own. This has went far enough. these vaccines are not FDA approved the coercion that is going on is out of control! Making people vaccinate or lose their jobs or participate in society is unfathomable! Those now vaccinated are having to get boosters to keep their immunity and the vaccinated are still getting and transmitting covid but they have no limits. While the unvaccinated are being treated as though they are dirty and discriminated against.

You all need to back off. You need to stand up for the facts and the truth. The truth is covid was here before March lockdowns and no one gave a fuck. They only cared about impeachment. Several of my family members had covid in January 2020 before it was supposedly even here. We got the anti bodies test a year and a half later and we have the antibodies still. Plus non of us have been sick in 2 years. I personally have done my own research and everyone I know that had covid and did not get vaccinated have not been sick since. Those I know who have been vaxxed have continued to get sick or have other health issues. So if you wanna do the right thing to stop covid, stop the mandates stop trying to force the Vax because you won't win. If you keep trying to force you will have thousands that will fight back as well as you will never stop covid if you continue to try to mandate vaccines. The flu has never been stopped so what makes you think you can stop this by forcing vaccines

I don't believe the COVID vaccine should be required for children. The vaccine is not a vaccine. It's just like the flu shot which doesn't prevent you from getting it and doesn't prevent spreading it. The flu shot is not required. COVID is not severe in almost all children. If the vaccine actually prevented getting COVID or spreading it, then it would make sense to vaccinate them, but it doesn't.

Dear Advisory Board for the Washington State Board of Health:

I am writing to protest recommending a vaccine for Covid for school aged children who attend school in Washington State. I am against imposing this vaccine on our children. I believe this to be a horrible overreach of state government.

The Covid "vaccine" is experimental. There have been no studies on the long-term health side effects on children or even on adults. We have never required an untested drug to be used on our children. Making it required to attend public school is criminal and against our constitution.

If you decide to follow through with this abuse of state power, you will be held accountable for the consequences whether they are unintentional or not. You are taking the decision to monitor a child's health out of the hands of its parents. You must then face the repercussions that happen when this trial "vaccine" begins causing health problems way beyond the symptoms of Covid itself.

We do not need this requirement to protect our children or our communities. We need you to consider the constitutional rights we have been guaranteed by our founding fathers to stay free, to live and care for our families and our friends, and our communities based on our religious and moral beliefs.

With respect,

Ron Laycock

Washington State Board of Health,

I am writing to share my opposition to WAC 246-100-070 which is being proposed. This new law/bill will remove constitutional freedoms from the public. Encouraging the public to be vaccinated is something I support, but removing freedoms and forcing people to do things against their will is not something I agree with. Please vote against it. Thank you.

Regards,
Sarah Pyke

I am completely against ANY of the Covid Policies that are over reaching and immoral. Of which they most certainly ALL are. I stand against any and all of these WAC's. Words like mandate seem to be more accurately described as dictates, deriving from the words dictatorship/ dictatorial/dictator. If Jay Inslee can "dictate" to the WA State Board of Health, such mandates, cleverly disguised as dictatorial, we have a serious problem on our hands. These, said, mandates, are an infringement on the rights of every Washingtonian, young and old. Forcing such mandates is incredulous. Who does these things? Think WA-BOH members, long and hard, before you cast your vote on January 12, 2022. Setting aside the intense pressure from Govenor Inslee, you most likely are experiencing, please, THINK for yourself, I beg you! Don't fall into line and succumb to political & dictatorial pressure from the powers that be. The potential for unleashing the "Pandora's Box" of Civil-Unrest, will be the likes of protest you, me, and the residents of Washington, have never witnessed. Listen, please, to us! We, the people of Washington State, absolutely stand against these WAC's.

WAC 246-100, WAC 246-105, WAC 246-100-070, WAC 246-100-045, WAC 246-040
PLEASE consider this a plea from a residing Washingtonian for 46 years.

Sincerely,

M.Teresa Vinup

Subject: Against the Covid 19 vaccine mandate for children

External Email

Dear. Committee Members

Hello, I am a mother who has sent my children to ECS.
Please stop the Covid19 vaccine mandate for children.
First of all, the Covid19 vaccine was made in a short period of time and has not been fully tested in clinical trials. So, the side effects are increasing not only in the United States but also in other parts of the world.
Secondly, children are not at high risk at Covid 19. Even if children get Covid19, most of them are asymptomatic or pass through like a mild cold.
Thirdly, the Covid19 is getting weaker and now it's almost same as a cold.
In conclusion, it seems that children are more likely to suffer from the side effects of vaccination than to benefit from it. So, I sincerely ask that you prevent the Covid19 vaccine mandate for children.
Thank you for your time.

Sincerely,
Grace, One of ECS parents

To whom it may concern,

I am completely against any of the proposed Covid policies that are overreaching and immoral. We stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

As a parent I am adamantly opposed to a covid vaccine requirement for school aged kids and daycares. This vaccine has not had any long term (or relatively short term) safety studies done and is only approved for emergency use. The SCIENCE shows that though this virus is becoming more transmissible it is also becoming LESS severe symptom wise (especially in children).

No parent wants their child to get sick, not even with the common cold (which is where covid is heading in mutation). However the reality is that if they don't catch it at school they will catch it at the grocery store, the library, from mom or dad who got it from work etc. DESPITE vaccination status!

It is absolute discrimination to refuse children access to public school because their parents don't feel comfortable giving them an experimental vaccine (and it's only considered a 'vaccine' because the definition of a vaccine has recently been amended). When my husband and I chose to have children we intended to raise them as a couple, the TWO of us.

It should absolutely be a CHOICE.

I'd really think hard about your decision. A collapse of Washington state education is in store if this becomes mandatory.

Best regards,
Sidney Simmons

Sirs - There were 10 in our family who have had covid-19 and we are all alive and well. Science for years have proven that natural immunity is the best way to keep from getting the disease again. Our country has always stood for people's right to make their own medical decisions. Government has no right to force us to take unproven vaccinations that even doctors say doesn't prevent you from getting covid. We would appreciate your voting against this bill or whatever you call it. We are not a danger to anyone.
Thank you - Ward And Carole Larsen - Everson

Regarding: =C2=A0

PROPOSED POLICIES:

=E2=80=A2 Allowing local health officers to use law enforcement (WAC 246-10-0-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-10-0-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

Comment: =C2=A0This is illegal, immoral =C2=A0and unconstitutional and would take away freedoms given to us by God. =C2=A0Anyone supporting such control and loss of freedom should be removed from their job.

=E2=80=A2 Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Comment: =C2=A0There is no informed consent for this injection, therefore, it cannot be mandated. =C2=A0This injection is experimental, therefore, it cannot be mandated. =C2=A0There is no liability for damages caused by this injection, therefore it must not be mandated. =C2=A0There is no medical emergency except in the minds of those full of fear from a corrupt media and f=

rom those who want to profit financially from the injections. =C2=A0My body=
- My choice! =C2=A0

Thank you,
Tina M. Johnson

Dear Washington State Board of Health,

Concerning the proposals being considered on January 12, 2022, I would like to share my thoughts and concerns.

The Covid19 vaccines have not proven to be effective at preventing the virus nor in the spreading of the virus. Something ineffective should NOT be mandated.

The vaccine does not have a record of long term effects, so we do not know how it will affect us in the future. Something unproven should NOT be mandated.

Children are at extremely low risk for Covid19. Why should our children (or anyone) be vaccinated when it is ineffective and unproven concerning the long run effects?

Cases around the world have proven that those countries without vaccines do much better overall than countries/states with strict mandates.

The greatest reason of all to NOT create strict mandates is that it is unconstitutional. Each of us should have the right make our personal health and medical choices for ourselves and our families.

Thank you for deciding against mandates.

Sincerely
Rhonda Sanders

Dear Ms Pskowski,

I am writing to express my grave concern about the forced quarantine and counseling for members of the public using their own free will not to participate in the experimental vaccines currently offered for Covid 19 and forced vaccinations for children. My concerns about rolling out such a draconian policy that violates the fabric of this country's founding principles are many.

One of my largest concerns is that in watching the vaccines be given out over the last year, it is clear that they are not working. Almost half of the infection rate of Covid patients are already vaccinated. States with higher vaccine rates do not experience lower Covid rates. People who are fully vaccinated are not stopping the transmission of Covid either. It is also not proven to be a safe vaccine. People suffer at a higher rate from complications from the vaccine than they do from Covid itself. Forcing people to get vaccinated is clearly about power and submission, not about preserving public health. Statistically, children have a higher chance of dying or having an adverse reaction to the experimental Covid vaccine than they do from contracting Covid itself. At this point in history, many of the children you propose to force vaccinate have already had Covid and have valuable antibodies. Allow parents to choose what is the best decision for the individual health of their children, not the state.

As a mother, I know my children more intimately and fully than any health care professional, and certainly more than the state. I have witnessed their growth and development since I first felt them in my womb. I choose to make decisions for my children's health with information and discussion from professionals, not by coercion and fear. Inform parents and respect their rights and their timing to make the decisions necessary for protecting their families. Protecting that sacred right of a parent is a paramount responsibility of an elected official and member of public education. I know this well as a former public elementary school teacher. Please protect children's health, respect the fiber of the Washington family and protect democracy by fighting against the proposal to force vaccinations on children and force quarantine on non complying families.

Copy and paste this to the above email:

To Whom It May Concern,

I oppose WAC 246-100 rule making that would expand any authority to involuntarily quarantine individuals. I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend schools.

In response to the scheduled meeting by our authorities to implement forced covid regulations.

I am completely against any of the proposed Covid-19 policies that are over reaching and immoral. I join with the others in standing against these forced proposals:

WAC 246-100-070

WAC 246-100-045

WAC 246-100-040

WAC 246-100

WAC 246-105

My freedom and democracy is at risk. My freedom is at stake. But it must be cherished, because that is what makes this Nation desirable over others. I sincerely ask that these rules would not be forced upon residents of the state of Washington.

Sincerely WA State Resident,
Svetik Polevoy

Please do not allow this to happen. WE the People do not consent!! Please do not vote yes for the following to be made into law:

1. Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

2. Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

We need to come together and stand up for our privacy and medical freedom.

Subject: [STMHE] ACT THIS MORNING against tyrannical WA proposal

External Email

Good Afternoon,

It has come to my attention that some very alarming public policies are being proposed by the Washington State Board of Health regarding current infectious disease codes for COVID-19. I have a number of questions and comments that I hope can give us some perspective on the folly of the proposed application of these codes and finish with a comment on my conscience should this policy be enacted.

1) The first question that I have relating to WAC 246-100-045 is how and in what instances have we utilized this policy since it went into effect in 2003? The language used in the code is vague enough that there seems to be little definition on the severity of what an "infectious" disease is; disease is after all almost by definition infectious. Is it the death rate that determines the quarantine requirements? If so why have we not felt the need to enact this principle for the flu in years gone by? Is it the lack of medicine or treatments for a new illness? No we have had several treatments, vaccines and therapeutics that have been effective in diminishing the severity of COVID-19. Ultimately, what are our criteria for the implementation of this policy in regards to the COVID-19 virus? We have multiple diseases and outbreaks that this has not been necessary for and I for one do not trust that those tasked with enforcement would be able to apply an objective criteria that makes any sense.

2) Second, we have had two years to observe globally the effectiveness of quarantines, lockdowns, etc... in mitigating the spread of this virus. Do we honestly believe that forcing people into quarantine camps as they do in Australia will stop the spread of a disease that is global? Have we forgotten the pictures out of Wu Han of people being welded into their apartment buildings to slow or stop the spread of the virus? The disease persists and has not been deterred by our efforts to stop it. I have had this disease and my family and my extended family. We are none the worse for wear and I believe most people would agree that this state of fear and uncertainty is unsustainable. We need to live life and the risks posed by this virus do not justify the response we have submitted to. Much as we might try to mitigate or ignore this fact, we face death every day and yet we choose to live life according to each person's needs and concerns. In the reality we face of being unable to stop this virus in any meaningful way, each person should be free to respond in the manner they believe will meet their needs.

3) I noticed that the vaccination status was included in the wording of the proposed policy. Oddly enough it was the last in the list of items mentioned as things that could be requested my law enforcement; well last is not least as they say. The question before nearly every policy in this regard has been the pressure to get vaccinated. We have recorded the highest "cases" (life threatening or not) that we have ever had. The numbers that have been recorded of hospitalizations with COVID show us that those who have had the shot are still getting sick and are still getting hospitalized. I asked this question a number of years ago when there was a small outbreak of Measles in the state of Washington. If only those who choose not to get the vaccine are getting sick then why is everyone else worried about it? If on the other hand those who are getting the vaccine are worried because they are still at significant risk, then what is the point of having a vaccine in the first place? For a state that purports to be such an inclusive bastion of diversity of thought and accommodation for individual lifestyles, it is shocking the abuse that has taken place towards those who have the right to make their own decisions regarding their healthcare.

4) Apart completely from the effectiveness of the vaccine is the simple intrusion on our rights as citizens. There has been no consideration of medical privacy laws, the rights of citizens to litigate drug companies for harm done, there has not even been the right of full consent for the vaccine relating to the requirement to inform patients of effects of the drug, its contents or even the fact that we simply do not know the long term effects. To add injury to insult, we now have this excrement of a proposal by an unelected body of political appointees to force our local law enforcement to potentially incarcerate their neighbors in what I can only imagine is not a local area if the reports I have read about the various quarantine facilities being prepared around the state of Washington is true.

5) Finally, and as I said last is not least, there is the state of our children's health and well-being. We have seen across the world, that our children are not at risk for this virus in any meaningful way. What do I mean by any meaningful way? As of November of 2021, the total number of deaths in children under the age of 16 in the US due to COVID-19 was under 500. To put that in perspective your child is more likely to die from a dog attack than from COVID-19. Even more shocking, there has been no fatality linked to transmission of COVID-19 between students in school. There have been several transmissions linked to teachers passing the virus to other teachers, but that is a nonissue for the requirement of vaccinations and masking in our school system. If this policy is to be expanded to include COVID-19 as regards to our children I would first insist from our Governor, who loves data so much, for some concrete numbers on risk and effectiveness of the proposed mitigation policies. Not projections, not models, not predictions from our experts; we have more than enough experience at this point with lockdowns and masking that we should have some real data to make our decisions. If we don't, perhaps we need to get some new experts.

Speaking from my conscience now if this policy is enforced and enacted, I am very torn as to what I think we should do about it. I would encourage every possible litigation against the state of Washington; I would support in every way I am able law enforcement who refuses to obey the edicts of our Board of Health; I would grieve for my beautiful state that has allowed itself to fall into a tyranny of fear. It is evil that turns a person on his neighbor and that is what our policies are doing to us. I will try to love my neighbor in my very imperfect way, but I will resist with every fiber of my being he who would seek to turn me against my neighbor.

Blessed New Year to you All,

Riley James Workman

Subject: Covid vaccine mandate

External Email

To whom it may concern:

Please read this article, especially the part about children being affected by the vaccine vs their chances of severe covid. With the vaccine proven to no longer stop the spread of Covid I do not see how you can make this a mandatory vaccine for school children. Please keep it as an option for parents to make the choice as to what is best for their families. By having the children vaccinated it will not stop the spread throughout the schools which is the main reason for all previous required vaccines. I beg you to please take into consideration that each person and their medical needs differ and this cannot be a one size fits all issue. I implore you to REALLY look into these issues that are starting to come to light and think about all of the previously "trusted" FDA approved medications (close to 4,500 drugs and devices EVERY YEAR are recalled after previous FDA approval) that have since been recalled due to devastating side effects. Do not be part of making Covid a required vaccine and later regret the possibility of a disastrous outcome. Leave it to personal choice.

Greetings,

Please do not support mandating the COVID vaccine for children. It is important for parents to be able to make the choices that will best help their families. It would not make sense to mandate something that could have detrimental effects on an entire generation, as there have been no long term studies for this. Many European countries have put the mandate on hold as it has caused heart problems in many students under the age of 18. It would be unwise as a state or district to mandate something that has the potential to harm so many of its next generation.

Thank you,

Rachel

Dear Board of Health Members,

Thank you for your service to the citizens of WA.

I am writing to ask you to NOT implement ANY policies that utilize tyrannical actions (involuntary quarantines, testing, treatment, counseling, and vaccinations) in what will be a failed attempt to "contain" Covid19. This virus will never be contained, it is a part of our ecosystem now. The only real defenses against it are REDUCING CO-MORBIDITIES and allowing ROBUST THERAPEUTIC TREATMENT DEVELOPMENT. Have you as a board, recommended spending any public service resources on telling people to live a healthy lifestyle as the best defense??? If people are healthy, IT IS CLEAR THEY ARE AT A MASSIVELY REDUCED RISK OF LONG TERM EFFECTS FROM THIS DISEASE.

We also know that the vaccines are ONLY GOOD FOR SHORT TERM PERSONAL PROTECTION from significant symptoms, but do not stop transmission or infection. My taking a vaccine DOES NOT save anybody else from Covid19, so forcing vaccines on people becomes nothing more than a form of medical authoritarianism, not health care. If WA's health care systems are stressed due to COVID patients, it is ONLY because hundreds of qualified health care professionals were unnecessarily terminated from their jobs (many with natural immunity), and due to that there are not enough people to provide care.

Please DO NOT implement any actions that will only hurt/divide/anger your fellow citizens and DO NOTHING to reduce the spread of this disease. HAVE COURAGE AND PLEASE TAKE A STAND AGAINST TYRANNY.

Thank you for your time,
Jim & Shea Craver

External Email

Hello,

I am currently an educator and parent of two students who attend public school. I have been a resident in Lynden, WA for over 13 years. I am strongly against mandating the Covid-19 vaccination for students to attend school. There are many reasons why. Here are just a few;

1. The vaccine has not proven to stop individuals from getting Covid-19
2. Covid-19's death rate (especially in children) is .01 percent (October 2021)
3. The vaccine has not been tested long enough, so we do not know the long-term negative side effects
4. Many of the negative side effects from the Covid-19 vaccination are worse than getting Covid-19 itself
5. There is no consideration to those that have had Covid-19 and have natural immunities

I am not an anti-vaccination person and believe in vaccinations. However, this is a horrible over reach of power. Long-term health is not being considered, if this mandate is pushed through. Individuals need to be able to make the best decisions for themselves and under aged children. Every situation is different. There is also no thought or consideration given to natural immunities.

Thank you for your time,

Jacqueline Vanderpol (a concerned parent and educator)

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis

of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Subject: BOH Webinar on 1/12/2022

External Email

To whom it may concern at the Washington State Board of Health:

We are writing to express our concerns about the upcoming Webinar scheduled for 1/12/2022 where it is our understanding the Board will be discussing/advocating to expand the current WAC/RCW re: giving law enforcement the power to civilly detain people regarding the ongoing "covid 19 state of emergency". We are now starting our 3rd year of a flu virus, the actual covid-19 which is now long gone, as we are many variants down the road, and continuing the same attempts to contain/prevent its spread, and not surprisingly getting the same results; people are getting the flu, and in some of the worst cases, people with comorbidities are dying. The definition of insanity is doing the same thing over and over and expecting different results. Clearly masks don't work and neither has this experimental jab, that is making the drug companies and others extremely rich.

Even the idea that you will be discussing giving law enforcement the authority to round up people who choose to make their own health care choices/decisions, and putting them into "quarantine facilities", aka: concentration camps, clearly reflects how the Nazi's treated and justified their persecution of the Jews, simply because they were Jewish. If you vote to implement and in fact, make this a reality in the State of Washington you will be alienating half or more of the population, and my wife and I will be moving elsewhere sooner than later.

I've already been terminated from my 8 year career with Washington State DSHS for refusing to take an experimental shot, which has done nothing to protect people from getting or spreading the flu virus. My wife and I are both geriatric social workers with master's degrees and we have seen, and continue to see, clients who are "fully vaccinated", as are their many family members, STILL CONTRACTING and in some cases dying from covid. This shot is NOT SOME SILVER BULLET that's going to save everyone from the flu. I know others who are getting sick, and in some cases dying from the shot. Taking people's civil liberties and freedom away and locking them up for refusing an experimental injection in our minds unconscionable!!

We pray you will do the right thing and let freedom ring for the citizens in Washington State, or you will no longer have a state that retains/attracts anyone.

Sincerely,
Scott and Cyndi Doolin

Dear Advisory Board for the Washington State Board of Health:

I am writing to protest recommending a vaccine for Covid for school aged children who attend school in Washington State. I am against imposing this vaccine on our children. I believe this to be a horrible overreach of state government.

The Covid "vaccine" is experimental. There have been no studies on the long-term health side effects on children or even on adults. We have never required an untested drug to be used on our children. Making it required to attend public school is criminal and against our constitution.

If you decide to follow through with this abuse of state power, you will be held accountable for the consequences whether they are unintentional or not. You are taking the decision to monitor a child's health out of the hands of its parents. You must then face the repercussions that happen when this trial "vaccine" begins causing health problems way beyond the symptoms of Covid itself.

We do not need this requirement to protect our children or our communities. We need you to consider the constitutional rights we have been guaranteed by our founding fathers to stay free, to live and care for our families and our friends, and our communities based on our religious and moral beliefs.

With respect,

Ron Laycock

What the Board of Health is discussing with the WACs and talks of isolating individuals against their choice is horrifying. What my nightmares consist of. There are so many reasons to refuse testing and to refuse this mRNA injection. Our state leaders have lost their minds if they think taking someone out of their house is for their own good and should be allowed. Seriously, how deranged have the minds of those forcing these laws become? Your board has no right to make laws of any kind that would take someone out of their home or away from their family. Is this Nazi Germany? If you pass these kinds of laws.. people will die. Families will be torn apart. Children will be suffering trauma that is so unnecessary! Do not allow our state to take these communism actions. Stay connected to humanity and do not allow this kind of horrible actions to be taken in our state. No no no. Shame on this board of health for even considering using these laws against its people.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Do not allow these WACs to be used against the people of Washington.

-Concerned citizen.

What the Board of Health is discussing with the WACs and talks of isolating individuals against their choice is horrifying. What my nightmares consist of. There are so many reasons to refuse testing and to refuse this mRNA injection. Our state leaders have lost their minds if they think taking someone out of their house is for their own good and should be allowed. Seriously, how deranged have the minds of those forcing these laws become? Your board has no right to make laws of any kind that would take someone out of their home or away from their family. Is this Nazi Germany? If you pass these kinds of laws.. people will die. Families will be torn apart. Children will be suffering trauma that is so unnecessary! Do not allow our state to take these communism actions. Stay connected to humanity and do not allow this kind of horrible actions to be taken in our state. No no no. Shame on this board of health for even considering using these laws against its people.

1. Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).
2. Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Do not allow these WACs to be used against the people of Washington.

-Concerned citizen.

Dear Ms. Tracy Schreiber,

I am a Washington state citizen in very good standing. My husband & I have a two thriving elementary-aged children that we homeschool. Before having children I was a teacher in both private and public schools in this state for 13 years.

I heard today that the Washington State Board of Health will be holding a meeting on the 12th of this month to discuss and seriously consider the use of Emergency Covid Detainment facilities against state citizens who are exercising their personal rights to not vaccinate themselves and their family members. This is a complete violation of our basic civil liberties & rights. This detainment idea (and the mere consideration of it) must be stopped immediately!

If these plans move forward, we plan to move out of state, immediately.

Alarmed Washington State Resident,

Rebekah Maxwell

rebekahmaxwell74@gmail.com <mailto:rebekahmaxwell74@gmail.com>

Bottom line: My family & I are asking that you do NOT consider or even discuss the idea of EVER using this idea as a way of treating the good citizens of this state and country, in your meeting on the 12th (or any future meetings.)

Dear Advisory Board for the Washington State Board of Health:

I am writing to voice my concerns about the Board of Health proposing a policy change to WAC 246.

WAC 246-100 states: Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

This is a frightening idea that feels like it comes straight out of Nazi Germany. It would be the most discriminatory action taken by our nation to date. The very idea that the state could detain people for refusal to comply with vaccine mandates flies in the face of common sense. The Covid "vaccine" does not prevent transmission or protect one from getting Covid. It is also not considering the large percentage of the population that have already acquired natural immunity through having had Covid. Would you think it was ok to use law enforcement to involuntarily detain vaccinated individuals as well? Are we turning into a police state?

We must not usurp the rights of individuals' freedom to take care of themselves in a manner that reflects their religious and moral beliefs.

Please stand for our freedoms. Please consider that action to support the use of law enforcement in this way will most certainly create a divided population that will not stand together. I fear the negative ramifications will be far greater than any intended good it will have.

With respect,

Barbara Miller

Subject: Comments regarding Covid-19 Vaccination Requirements for School Children

External Email

Good Morning,

I am not "anti-Vax", both my wife and I have been fully vaccinated however I do not support a mandate for all school age kids to be required to be vaccinated for a number of reasons.

1. Covid Vaccination, especially given the vaccines are still under EUA, should be a decision between patient and doctor and not a requirement of the schools. I understand that other vaccines are required, however they are all FDA approved while Covid vaccines are not approved by FDA.

2. Covid in children is generally mild and therefore the risk of Covid related infection does not necessitate requiring children to be vaccinated and exposing them to the risks of the vaccine. My kids have all had Covid and all of them responded well and thankfully had a very minor case.

3. At minimum natural immunity should be allowed as an alternative to vaccination when considering vaccination status and Covid risk in children. That's only common sense. There are a huge number of studies that demonstrate natural immunity is better than the vaccine especially against Delta and Omicron. Here's one out of Israel that demonstrates natural immunity is vastly superior to vaccination

(<https://www.medrxiv.org/content/10.1101/2021.08.24.21262415v1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F10.1101%2F2021.08.24.21262415v1>

)
4. There are risks of cardiac adverse events in kids post vaccination which are well known and documented

(<https://www.medrxiv.org/content/10.1101/2021.08.30.21262866v1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F10.1101%2F2021.08.30.21262866v1>

) which are pretty scary.
5. This same study indicates kids are 4-6 times more likely to develop myocarditis

than end up in the hospital for any reason associated with Covid. Think about that for a second - 4-6x risk of a terrible heart disease versus being admitted to the hospital due to covid.

The bottom line is that requiring vaccination is trying to solve a problem that barely exists and exposes children to potential health challenges as a result of the vaccine. Parents and doctors should be allowed to make risk reward decisions for their children and schools are not a significant at risk environment for Covid 19 related illness.

To whom it may concern,

I am writing as a concerned parent about the possibility of COVID vaccine mandates for school attendance. Data has consistently shown children to be at low risk for severe disease from COVID. Adults can choose to be vaccinated to protect themselves from severe disease. Current virus strains are showing to evade vaccines. And given there is no long term data on the efficacy or side effects of these vaccines in children, one has the right to weigh risks to benefits and decide what right for their child's health. Using the comparison of currently required vaccines is not appropriate with this EUA vaccine. Again, there is no long term data or listed potential side effects

I also would like you to think about this. Are you prepared to compensate parents of children that are vaccine injured should that prove to be the case? And is the district able to handle budget cuts should there be a reduction in student enrollment.

As a parent I don't feel comfortable giving this vaccine to my daughter and will pull her from public school if this mandate is implemented.

Thank you for your consideration

Hello,

As a parent of two elementary age children I am concerned that you are considering mandating Covid vaccines for children in school, and we the parents strongly oppose such a mandate. If vaccines are as effective as they say, everyone should be free to make their own decision. We now can see, after 2 years of living with many restrictions that the spread hasn't slowed, but also the kids have gotten Covid, it looked like a mild cold on them, they quickly recovered and now they have natural immunity. We ask that you would prioritize the good of the children, and their mental health, and rather lift restrictions, after such a long time, many already have immunity to the Covid virus, yet we see mental health and anxiety getting worse in young children, please consider this, and open the schools more, we advocate for local control, down to each school.

Thank you,

~Anca Rowland

Dear WSBOH,

I am disappointed that you as a board would consider making Covid vaccinations mandatory for children to attend public school. Not only is it a violation of the US Constitution, but also the Washington State Constitution. After WWII, the Nuremburg Code that the United States signed onto prohibits experimenting or coercing any human being to a medical treatment they do not choose with full understanding. By choosing to forcibly vaccinate children the WSBOH is committing a morally unconscionable act and a criminal act against the vulnerable.

To whom it may concern,

I am writing as a concerned parent about the possibility of COVID vaccine mandates for school attendance. Data has consistently shown children to be at low risk for severe disease from COVID. Adults can choose to be vaccinated to protect themselves from severe disease. Current virus strains are showing to evade vaccines. And given there is no long term data on the efficacy or side effects of these vaccines in children, one has the right to weigh risks to benefits and decide what right for their child's health. Using the comparison of currently required vaccines is not appropriate with this EUA vaccine. Again, there is no long term data or listed potential side effects

I also would like you to think about this. Are you prepared to compensate parents of children that are vaccine injured should that prove to be the case? And is the district able to handle budget cuts should there be a reduction in student enrollment.

As a parent I don't feel comfortable giving this vaccine to my daughter and will pull her from public school if this mandate is implemented.

Thank you for your consideration

Michelle Lea

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:
Covid vaccines have not stopped the spread of covid or variants. The jab has not stopped people from passing away. Also, just check into the VAERS (CDC website) to see about the million plus adverse events (injuries) and 50,000 deaths as a result of the jab. Also younger people have had heart problems after the jab. Why on earth would you make this so-called vaccine mandatory?!!

External Email

To the WA Board of Health, members and staff,

While I realize that you are not yet voting on whether to add vaccination against covid to chapter 246-105 WAC, I would still like to share my perspective, as I'm sure you will be voting on this later this year.

I am strongly against adding covid to the list of required vaccines for school entry, and deeply concerned about the potential side effects this will pose for children down the road. We have not used mRNA technology in this way at this scale before, and it takes time to understand the side effects of any new pharmaceutical product. Pharmaceutical products are recalled and black boxed *years* after they are approved and used, as it can take that much time to understand their side effects and unintended consequences. To require that children, whose bodies are still developing, take a new pharmaceutical product as a condition to attending school is very short-sighted, especially for a disease that by and large does not significantly impact children, and especially when we know that the vaccine does *not* prevent transmission of covid.

I know that we are living through intense and difficult times. I know that we all want to feel safe and move on with our lives. I also know that history shows us that humans often, if not nearly always, over-reach in our policy decisions in times of great fear. Though WWII, the rise of communist power, and terrorism posed real threats, I don't look back and agree with Japanese Internment camps, McCarthyism, or infringing upon the rights of Americans who appear to be of middle-Eastern descent. I implore you to please place this moment in a larger context, and understand that, far from ensuring true safety, over-reach will cause harm.

Thank you for reading.
Sincerely, Stephanie Toby, mother of 2 young children

Thank you for serving on the board.

People who are "fully vaccinated" get sick and spread germs, just like others. I'm 60 and work in two large rooms with five other adults and ten students total. The five have been "fully vaccinated" for several months, while I have an exemption. I always wear a KN-95 mask and a cloth mask at work. Two of my co-workers tested positive for Covid in November and were sick three weeks. My co-workers who are "fully vaccinated" are NOT excluded from their jobs if "exposed" to Covid. If people can get sick and spread germs regardless of vaccination status, should we ALL be excluded whenever we are "exposed [the term is too broadly interpreted]?"

I am excluded from my job for over a week whenever one of the 15 people with whom I work tests positive, although I'm not sick and probably have been exposed many times over. I'm by far the eldest at work but have been keeping my immune system strong. One of the "fully vaccinated" adults already had Covid last year but went for testing recently when she came down with sniffles and a mild sore throat. She received a positive Covid test result!

This situation (I'm excluded although not sick, while others who are also "exposed" can become infected and spread germs) can repeat itself endlessly, since adults and students can receive a positive Covid test result ad infinitum.

I have almost a 99% probability of surviving Covid, as do others. It has become like a flu

or a cold: anyone can get it, and almost everyone will survive if they have a strong immune system.

If the board mandates that all residents receive mRNA “vaccines” or be “involuntarily detained for isolation,” it must allow for exemptions, and it must allow time for people to flee the state. Many will move rather than comply.

Discriminating against people based on whether they’ve received a Covid mRNA “vaccine” is to be “vaxist,” like being bigoted, sexist, racist, anti-Catholic, or anti-Semitic. Some people insist that the “unvaxxed” are subhuman and must be denied basic human rights. We’ve been down this road before. Don’t make Washington continue to be a laughingstock.

To the Board of Health,

I am puzzled why we would want to make covid shots even available to children, let alone mandatory. Children are very unlikely to have any serious health effects from Covid. The injection, by contrast, is not tested long term. In addition, the injection has caused heart issues in teens. There is no benefit to children, only potential detriment. Why would we do this?

Last, this totally ignores the responsibility individual parents have for making decisions that impact their children.

Sincerely,
Janice Farmer

Tracy,

STOP! just stop what you are doing to our children.

I will pull my children from public school the minute that this or any further vaccines without full phase 3 testing is required. Do not subject them to "Test to Stay" either. Testing to prove they are healthy will have lasting psychological impacts. These children are not guilty of being unhealthy until proven innocent by a test...they are already innocent.

You have absolutely no standing to make these current vaccines a requirement.

This would be crossing a line you could never come back from. All public trust in you as an entity would be lost forever.

Using children to "save elderly" is an absolute disgrace. Subjecting young bodies to yet unknown side effects is beyond reprehensible.

Trading parental choice for education is absolutely a nonstarter.

I hope you have common sense enough to see what a slippery slope you are standing above with this decision.

Stand up for our parental choice to know what is best for our individual children and do not deprive our children of education for an untested vaccine with a small efficacy. Which side are you on? Pharma or children's education?

There are too many unanswered questions to trade my child's health for their education.

Sincerely,

Kbr Patrick

As a resident of WA state, and a parent of a 5 year old who's had severe vaccine injuries, it is incredibly upsetting to know that there are people in favor of pushing through the proposed policy to include the Covid-19 injections as part of the school immunization requirements.

CONSIDERING:

1. COVID vaccines remain under Emergency Use Authorization
2. Children under the age of 18 have a 99.995% survival rate from COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

This is, in no way, listening to the TRUE science and is sheer domination of the masses for power and money.

I'm also NOT in favor of forcing, in any way, an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility, following refusal to voluntarily comply with requests for medical examination, testing, treatment,

counseling, vaccination.

These policies are flat out, attempts to strong-arm individuals who do not comply with the atrocious, ignorant leadership of the WA government.

Health and wellness have NEVER been prioritized - only pharmaceuticals and keeping people sick - mentally, emotionally and physically.

Mandate meditation, nutritious foods, proper sleep, physical exercise, and maintaining healthy relationships.

How about a policy to subsidize gyms & yoga studios and therapists?????

This state government is a disgrace.

IF you read this, thank you for your time. I hope one day, real health & wellness is considered, and prioritized, from the top down.

Greetings,

Please do not support mandating the COVID vaccine for children. It is important for parents to be able to make the choices that will best help their families. It would not make sense to mandate something that could have detrimental effects on an entire generation, as there have been no long term studies for this. Many European countries have put the mandate on hold as it has caused heart problems in many students under the age of 18. It would be unwise as a state or district to mandate something that has the potential to harm so many of its next generation.

Thank you,

Rachel

Subject: Bill WAC246-100-040

I am responding to the recent notice on bill WAC 246-100-040. I am totally confused as to why our government in WA state has neglected to inform its citizens of the proposed incarceration of its citizens if they do not conform to its radical forced vaccination of a drug that has not been thoroughly tested and is causing thousands of people to become sick with awful and deadly side effects. This is an experimental drug and you all know it. I only was just informed of the meeting for next week on the 13 of Jan. and the deadline for voicing an opinion was today at 12pm. Why is that, why has the meeting been set for a time that no one that wants to voice an opinion has the time to do it? If I understand correctly, if this bill passes, our rights as Americans can be taken away and we either have to obey a draconian rule and submit to forced injection, or be taken away and incarcerated. Since when did our country become under communism rule. I say this meeting should be postponed until this can be announced to the general public and everyone has a chance to see and know what is going on in our own government. This rule is something that would have happened in Hitler's time and to force people into submission is something I never thought I would see in our country. I am totally against any kind of forced vaccination by our elected officials. We still have a Constitution and it is the rule in this country not self-appointed rulers.

Dear Ms Schreiber,

I am writing to express my grave concern about the forced quarantine and counseling for members of the public using their own free will not to participate in the experimental vaccines currently offered for Covid 19 and forced vaccinations for children. My concerns about rolling out such a draconian policy that violates the fabric of this country's founding principles are many.

One of my largest concerns is that in watching the vaccines be given out over the last year, it is clear that they are not working. Almost half of the infection rate of Covid patients are already vaccinated. States with higher vaccine rates do not experience lower Covid rates. People who are fully vaccinated are not stopping the transmission of Covid either. It is also not proven to be a safe vaccine. People suffer at a higher rate from complications from the vaccine than they do from Covid itself. Forcing people to get vaccinated is clearly about power and submission, not about preserving public health. Statistically, children have a higher chance of dying or having an adverse reaction to the experimental Covid vaccine than they do from contracting Covid itself. At this point in history, many of the children you propose to force vaccinate have already had Covid and have valuable antibodies. Allow parents to choose what is the best decision for the individual health of their children, not the state.

As a mother, I know my children more intimately and fully than any health care professional, and certainly more than the state. I have witnessed their growth and development since I first felt them in my womb. I choose to make decisions for my

children's health with information and discussion from professionals, not by coercion and fear. Inform parents and respect their rights and their timing to make the decisions necessary for protecting their families. Protecting that sacred right of a parent is a paramount responsibility of an elected official and member of public education. I know this well as a former public elementary school teacher. Please protect children's health, respect the fiber of the Washington family and protect democracy by fighting against the proposal to force vaccinations on children and force quarantine on non complying families.

Hello,

I am writing today to tell you that I OPPOSE the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I oppose COVID-19 shot mandates, period! As a country founded on the premise of freedom and the ability to choose with informed consent, this strikes at the very core of who we are. We are a diverse and unique people, and a one-size-fits-all narrative simply does not apply. Mandates of any kind effectively strip us all of these rights and freedoms we are inherently entitled to, and instead continue to divide us. United we stand, divided we fall.

In addition, I SUPPORT Informed Choice Washington's Petition for Rulemaking, which will be item 11 on the January 12th agenda. It was filed by Xavier Figueroa, PhD, on behalf of ICWA, and asks the Board to establish a new rule that prohibits addition of any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list. This is crucial in fostering our trust with the board in regards to our most precious assets of all, our children. They are the true victims in all of this and are relying desperately on our protection and advocacy. We need to know more and cannot go about this blindly. It is in everyone's best interest to rely on the gift of time and better information before making a sweeping decision that could, and most certainly will, have detrimental and fatal results. We all deserve better, but most especially, our children and their futures.

It is our sole duty to protect our children and see to it that their chance of a better future is possible. This means working to ensure they are continually fought for, so that each generation is a little better than the last. They are the future of this country and the face of our nation. I plead with you to advocate for them and hold fast to protecting them by rejecting these mandates. If nothing else, this continued controversy has awakened lions. Our children will not be your victims or your science experiments.

Respectfully,

Elisabeth Stewart

Dear Dept. Of Health ,

Our medical decisions are private. They are ours to make as parents for our children and ourselves. My husband and I have had to make SERIOUS decisions over our children's health for a long time now.... we do our research and make the best decision based on our children's needswhich YOU ARE NOT AWARE OF and should NOT make these decisions for me!!!!

Your Dr. 's are NOT my Dr.' s and your science is NOT my science ...

I have 3 boys... one of which has had several open heart surgeries and currently has myocarditis....which as u are aware has NOW become an uprising serious situation in youth WITH THE VACCINE!!!

You SHOULD NOT FORCE my family to make my children get vaccinated when we have done our research and feel it is NOT safe for them right now....and I CAN NOT take the chance of having another one of my boys get a serious heart condition!!!

Those who have the vaccine shots and boosters are still getting COVID and some are getting Paricarditis (our friends 18 year old daughter) and Myocarditis (another friends 19 year old daughter)

These vaccines are NOT protecting citizens and children from getting sick.

No school child should be forced to get a COVID vaccine to be included in school and sports. Your are SEGREGATING OUR CHILDREN....Please rethink this.

PLEASE DO NOT MAKE VACCINES MANDATORY!!!!!!

Sincerely,
Holly J. Moody

I am opposed to making COVID-19 shots mandatory for school admission or childcare or for ANY reason in our State for the following Reasons:

We still live in America and are free to make our own health decisions no matter what wannabe dictators say.

Children are NOT at risk for covid.
Natural immunity is BEST.

Covid shots are not proven to be effective; just the opposite is true, it's already proven to cause damage to heart health and also death! Hospitalizations for covid are mainly the vaccinated now and covid deaths are mostly the vaccinated.

Even Kamala announced that recently; and you think people are going to just take this lying down? Not a chance in hell!

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its availability. (This "smoke and mirrors" approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer's claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Hello,

I heard that there will be discussions about making Covid 19 a mandate for public school children. This is a huge overreach of government.

I pay taxes for my child to get an education; not to be a scientific medical test subject. These vaccines do not prevent the spread or infection of Covid and the long term damaging effects are unknown (cdc).

We have rights as parents over our own bodies and our children's bodies. Forced mandates are about power and not health; please do not rush into a decision. Let parents make decisions for their children based off of education, family doctor care and medical history. It is not ethical or within constitutional guidelines to force anything on parents or children. Focus on education not politics. Know your place.

Thank you for your time,
Heather H.

Dear Ms. Pskowski,

I am writing because it has come to my attention that the Washington State Board of Health is considering making the COVID vaccine a requirement for childcare and for schooling. I am writing to ask you to show restraint. Never has such a thing been done. The statistics for this diseases lasting damage on healthy children is close to 0%. I know some children with other factors would benefit from the vaccine, but it should be a choice made with the family doctor. The vaccine has only been in wide spread use less than 1 year. The data is not in, and we need to get more information before subjecting our children to what could be damaging consequences of a lifetime of boosters.

I hope you consider waiting until you have more long term data before walking down this potentially dangerous path.

Thank you,

Jane Lewellen

Subject: Absurd Washington State board of Health proposal/vote

External Email

Good Morning All,

I was recently informed the Washington State board of health plans to vote to including the Covid 19 vaccination as a required vaccine for school age children and I'm writing you to communicate my objection and opposition to this completely absurd idea.

Evening consideration to make a vaccination requirement for children that doesn't actually pose a credible threat to them is outrageous.

According to your own website data dashboard,
<https://www.doh.wa.gov/emergencies/covid19/datadashboard>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.doh.wa.gov%2Femergencies>>
, at the highest recorded point there are 4 school age children per 100k(14-19 yr olds), and 1 or less per 100,000 who have to legitimately go to the hospital for care. 4 out of 100,000, and 1 or less than 100,000. Please tell me how that is credible enough to justify a vaccine requirement for them?

Does the WBOH review the VAERS data for deaths for the same age group due to reaction from receiving the vaccine? have they tracked the deaths from those cases?

I've gone through the VAERS data and they have more violent reactions/hospitalizations from children who have received the vaccine than we have kids in our entire school district by more than 1000. With at least one child dying from the vaccine alone. Conveniently enough your website does not allow me to sort death by age group or I would have that information as well.

If something is justifiably a threat and a real danger to my 2 children I would support whatever it took to take care of them. However this vaccine requirement is not it. I hope you all have an alternative learning plan for those who have religious exemptions from vaccines as well, like I do with my current employer and I would be submitting as well for my children.

Before making this kind of decision it needs to be based on facts and real information not the political opinions associated with people sitting in positions to make decisions. It is a decision to be made to do what might keep you in your seat because you are affecting the lives of the entire state. Part of that is taking into account the wishes of all the people in that state. Not just those in Seattle(King county) and Olympia(Thurston county).

Please use common sense when making this decision and do what is right for everyone, allow it to be their freedom of choice, not an unjustifiable knee jerk reaction due to political pressure.

Also, please allow the death information to be able to be sorted by age group on your web page so that parents can be accurately informed.

V/R,

Richard Lee Kinnison

Dear Members of the Washington State Board of Health,

I am writing in regards to your upcoming meeting on January 12 and the proposed policies that you will be discussing.

The proposed policies are as follows:

1. Allow local health officers to use law enforcement to force an emergency order to involuntarily detain a person or group of persons to be isolated in a quarantine facility following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination.
2. Include the Covid-19 injections as part of school immunization requirements.

Proposal 1 is extremely concerning on almost every level. We live in a country that has always encouraged and valued informed medical consent. It is imperative that people are given all pertinent information and still allowed to have choice in their medical decisions. The "vaccine" does not prevent one from catching or spreading the virus; and therefore, there should be absolutely no discussion about forced vaccinations.

In addition to mandating vaccines, forced quarantine goes even farther in the removal of a person's constitutionally protected freedoms. It is disturbing that the board is even considering something so heavy-handed. The last time people were rounded up for being "medically dirty" was in Nazi Germany. Have you learned nothing from history?

There is plenty of data that confirms Covid is mostly survivable, unless one has multiple comorbidities. Forcing quarantine and medical compliance on anyone is draconian and the very opposite of free. In addition, all of the mandates – masking, quarantine, etc. – have been highly unsuccessful. The definition of insanity is continuing to do the same thing over and over while expecting different results. Every single person (and there are a lot) that I know with Covid right now are fully vaxxed and some are boosted. While you may be able to twist the data to meet your agenda, most people see or are starting to see through it. Perhaps instead of forced quarantine for Covid, you should be encouraging obese people to lose weight, or eat less sugar, or push vitamins and an

active lifestyle. None of your current guidance stresses any of these important measures. There also has been no acknowledgement of natural immunity, as there are dozens of studies that have shown its effectiveness and importance in ending Covid.

Although unrelated to Proposal 1, I would like to also point out your reluctance to allow early treatment for Covid. There are several proven and effective treatments that have been used worldwide, including Ivermectin, Hydroxychloriquine, antibiotics, and steroids, yet your board has basically prohibited doctors from using a combined and effective approach by intimidation and threatening their medical careers. It is incredibly disturbing. The data is there. The research is there. Yet you still will not allow doctors to help people.

As a continuance of my thoughts on Proposal 1, Proposal 2 is equally disturbing and draconian. Children have basically a statistical chance of ZERO of dying from Covid and a very low risk of even being hospitalized. Those children who have died have had severe comorbidities. Trying to force a shot with a lot of known side effects (pericarditis, myocarditis, menstrual issues, seizures, strokes, blood clots, etc.) on a population that has no risk is irresponsible at best and criminal at worst. Adults have been given the opportunity to "protect" themselves with the vaccine. It is not the job of children to protect the vulnerable. In fact, that is your job (if you would allow effective treatment).

If you institute the mandatory vaccinations into schools, parents will continue to remove their children. In fact, the data shows that the most underprivileged kids will be affected the most. Minorities and immigrants are historically vaccine hesitant for good reason. The mental health of all children has already been challenged enough. Kids are being abused, kids are starving, and kids are sliding academically. This proposal would simply ruin the future of our country.

Please do not take these decisions lightly, as they have great ramifications. You have already done enough to ruin and divide our state. Do not ruin our children, too.

Sincerely,

Brynn Ward

Dear Sirs ;

This issue of whether to give a shot that contains human embryonic tissue in it to children should not even be a issue. A unborn baby must be alive to extract these dna cells to be used in these shots, while the dna is extracted.
Please watch interview in the link.
Please reconsider the things this shot contains and the consequences of what it will do to our most vulnerableour children.

Thank you.
Sincerely..
A concerned Grandmother of 17

The policy being proposed for Covid vaccinations amongst school aged children and using law enforcement to involuntarily detain a person or group of persons to be isolated in a quarantine facility for refusal to comply is an infringement on our constitutional rights. (WAC 246-100-045, 246-100-040, 246-105)

It has already been proven that vaccines do not prevent the virus and just as many vaccinated people have become sick with Covid and spread it the same as unvaccinated persons. To say that the vaccine is safe for children is false information. Historical science has taught us that many drugs cause harm in as much as five - ten years after administration of the drug. Long term effects on our children are unknown

By forcing people to become vaccinated will result in people moving to other states and Washington losing much needed funds in tax dollars.

Do not enact this policy in the state of Washington.

Board Members,

I strongly urge you to REJECT making Covid-19 shots mandatory for any students.

Children are at extremely low risk for Covid
The vaccines are still only EUA (emergency use authorized)
There are no long-term studies to document any history of safety
Studies do now document that vaccinated and unvaccinated can both
transmit Covid, therefore,
The vaccine apparently does not stop the spread of the disease

Dear Washington BOH,

I am writing you today to ask that you do not mandate the Covid 19 vaccine for children or adults to attend school. Please leave it up to individual families to make their own decision.

There are medical, moral & religious reasons why many people can not get the vaccine. Please do not mandate and take away our freedom to choose.

Appreciate your consideration.

Subject: Adding Covid 19 immunization to list of required school vaccines

External Email

Dear Board Members:

As a grand parents to school age children in Washington State, we respectfully ask you to not add any current covid 19 immunization to the list of immunizations currently required by the State of Washington for children to attend school. There are several reasons why this should not be one of the required vaccines:

1. The current list of immunizations doesn't have a single corona/rhino virus respiratory immunization. All viruses are not the same and it is clearly more difficult to manage respiratory corona and rhino viruses, hence the lack of vaccination. Covid 19 is too new for there to be a well tested, observed and proven immunization. All the other required immunizations have been in use and proven for well over 10 years.
2. Both the hospitalization and death rates for covid 19 among children 18 and under are at a near statistical zero in both the State of Washington and the US as a whole.
3. Children who have contracted covid 19 have shown very minor symptoms and have gone on to develop immunity that has been proven to be more robust and longer lasting than any of the current vaccines. 1
4. There are data and studies (including Pfizer) from around the world showing adverse effects on children from the current covid 19 immunizations, we should not be subjecting our children to possible severe adverse effects when the disease itself shows both short and long term effects to be nearly non-existent. 2
5. There are studies showing that children are not effective vectors for passing on the virus. 3
6. The current immunizations available show a disturbingly prevalent pattern of being unable to offer any term of immunization longer than a few weeks. Will the Board then require quarterly immunizations in order to, hopefully, ensure that students have truly acquired immunity as specified in WAC 246-105? How will it be determined if a student truly has immunity? Will there be antibody tests?

Sincerely,

Robert & Lisa Smith

Dear Washington State Board of Health,

I urge you to consider the real science and full spectrum of medical data when considering requiring a COVID vaccine for day care and school attendance. Randomized controlled trials are the gold standard in medical research because there is a control group. Pfizer conducted a randomized control trial of 44,000 patients divided into two groups. One group gets vaccine, one group gets placebo. More people died in the Pfizer vaccine group than the placebo group. The difference wasn't statistically significant but scientifically one cannot claim these vaccines reduce death.

The Pfizer and Moderna vaccines use non-FDA-approved mRNA gene therapy, according to their filings with the US Securities and Exchange Commission. Clinical trials for the drugs conclude in 2023. The only FDA approved version of the vaccine is Comirnaty, is not currently available, and is different than the emergency use authorized Pfizer-BioNTech vaccine. 21 US Code 360BBB protects one's right to refuse any emergency use authorized medical products, therefore it is illegal to mandate an EUA vaccine.

The VAERS database is the database for vaccine injuries. A Harvard report in 2010 shows that fewer than 1% of vaccine adverse events are reported to VAERS. The CDC validates all entries and false allegations are prosecuted. Pre-COVID, VAERS shows about 158 deaths due to vaccines per year. In January 2021, over 17,000 deaths and over 70,000 hospitalizations from the Covid Vaccines were reported. This quantity of lethal reactions historically shut down other vaccine programs.

Further, the CDC says that the Covid hospitalization risk for children is about the same risk of the flu.

Tens of thousands of doctors around the world, including the creator of the mRNA technology Dr. Robert Malone, warn of the extreme dangers of this experimental Covid drug. It is not safe, responsible, or legal to require this experimental drug for children.

Thank you for your time.
Michelle in Bellingham, WA

It is vitally important that school age children be vaccinated for COVID19 to protect them and at risk members of their families.

Best Regards,

Jeff Olejniczak

Dear WA BOH,

I have grandchildren who attend the Bethel School District and live in Graham, WA. I will sincerely appreciate that TAG recommends adding COVID vaccination to the childhood schedule of immunizations in support of healthy (and absence-free) attendance and public health (other students, staff, visitors, volunteers) at schools and childcare (of course, as guided by the FDA/CDC for the youngest children). The vaccine is safe and effective.

Thank you,
John Chapura
Graham, WA

Regarding: Agenda Item
11. Rulemaking Petition – Chapter 246-105 WAC, Immunization Criteria, Child Care and School Entry

Hi.

I am writing to encourage you to pass legislation to mandate vaccine requirements for COVID-19 for all school-age children. Just like any other immunization that is critical to our survival. Thank you for your consideration and thoughtful discussion on this important matter.

Sincerely,
Leslie Ramsden

Dear committee,

I am a Washington teacher and parent of a kindergarten student. I strongly encourage the requirement of the Covid vaccine for all students unless medically unable. We already have vaccine requirements for school, and this disease is a real and present danger in the community. My 5 year old was proud to finally get his shot when his age group became eligible. School would be safer for all of us, and therefore our communities would be safer, if the Covid vaccine was made part of the required vaccinations for school. I fervently hope your committee reaches the same conclusion.

Washington State Board of Health

I agree with most of the plan to apply current infectious disease WAC codes to include Covid-19 for Washington State residents.

Including Covid vaccines as a requirement for attending public school is a logical choice.

I'm sending this email because I received a solicitation demanding I send you the exact opposite of what I've put in this letter. I removed the bombastic and false statements they had included. I find it deeply disappointing how many Americans don't have the Christian morals to care about the health and well being of their fellow citizens.

As long as what you are doing is constitutional and you have fully considered ALL laws that might apply to your actions I mostly agree with what you're doing. Though detaining people not smart enough to quarantine is questionable if your actually considering that as was claimed in the email I received.

Signed,

Joe Burns

DOH board,

As a mother with 2 children in elementary school in Federal Way, I strongly believe Covid vaccines should be mandated and part of the vaccine requirements for school attendance.

Thank you!

To the State Board of Health,

I am a proponent for mandating vaccination of the Pfizer-Biontech vaccine for school aged children, 5 and up which is currently allowed by emergency authorization. I am sure you are aware of the peer reviewed study released yesterday by the New England Journal of Medicine

<https://www.nejm.org/doi/pdf/10.1056/NEJMoa2116298?articleTools=true>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nejm.org%2Fdoi%2Fpdf%2F>

And I am sure you are aware of some of the headlines where children under age 5 have been hospitalized and died from contracting Covid. I feel it is of utmost importance to continue tracking (as the NEJM study is continuing) those who have been vaccinated, to understand the long term effects. The short term needs right now outweigh the long term effects in my opinion. I know the situation is changing every day, every hour, and we all hope this gets better. But mandating vaccination can be a significant step towards restoring children's school and extracurricular lives.

Thank you for your time and I wish you the best with this decision making process.

Hello,

I am a parent in Camas, WA and I strongly support a Covid-19 vaccine mandate for children in public schools. A mandate would make me feel better about sending my child to school and add an extra layer of protection for our valued staff and other members of my town. It would build safer and stronger communities across our state.

Thank you for your consideration.

Miranda Hansen
