My name is Sandy Rozumny and although I have been vaccinated, I am applaud that the Board of Health in this State would consider using law enforcement to detain and persecute unvaccinated persons. The Covid 19 pandemic death rate is < 2%. Many people I know have been infected and have overcome without vaccines. These people have more enduring antibodies than any Mrna vaccinated person. Worst of all this Board is trying to deny our constitutional rights in this state and in our nation! Please do not tread upon our constitutional freedoms!

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

- 1) it is experimental and never used on humans before and is still under emergency order, meaning pharmaceutical companies have zero liability for any adverse effects.
- 2) chances of children dying of covid-19 of the most recent variance omnicron and Delta is near 0%
- 3) Pfizer asked to have the clinical trials suppressed for 70 plus years

I could list many more reasons, but to give children and experimental injection with lack of information, the potential of long-term harm makes this unacceptable. I pray you make a decision based on science. There are therapeutics that many have found success with yet have been suppressed!

There should be no consideration and it is illegal to force a medical procedure. This violates the Nuremberg code. We have god-given an alienable rights to choose what how into our bodies and what is best for our children. Our bodies our choice! DO NOT takes away our freedom but continue to support people of our great state of Washington the right to choose what's best for themselves.

With utmost sincerity

Subject: Oppose Mandatory COVID-19 Vaccine for K-12

External Email

Hello,

I am writing in the hope that you will not recommend making the COVID-19 vaccine mandatory for WA k-12 children, but rather make it a recommended vaccine and leave this decision where it belongs, with families and their doctors.

There is scant data showing that children are at severe, great, elevated or even moderate risk from COVID-19. Indeed, the CDC data points to very few pediatric fatalities and hospitalizations when compared to the total U.S. population under the age of 18. There is also no evidence that children who have experienced infection are less protected from future infection than those who have been vaccinated.

There is no long-term data showing the health effects of mRNA vaccines and we absolutely should not be using our children as test subjects for technology that is in its infancy. This may well be worth revisiting in the future, but emergency use authorizations and constantly changing booster requirements show this technology is too new.

Again, I ask you to reject adding COVID-19 as a required immunization for K-12 school children. We owe it to our kids to take a strategic, measured and respectful approach given the lower risk.

Exclusive: Autopsy Confirms 26-Year-Old's Death From Myocarditis Directly Caused by Pfizer COVID Vaccine

In an exclusive interview with The Defender, Joseph Keating's mother said her son's only warning signs were fatigue, muscle soreness and an increased heart rate, yet an autopsy confirmed he died of myocarditis directly caused by Pfizer's COVID vaccine.

"This was on a Monday," Cayleen said. "Tuesday and Wednesday he was fine, but Thursday morning — 72 hours after the booster — he called and said he had a sore throat."

Cayleen made her son some hot apple cider and he took throat lozenges and went to

work, but within two hours he called her to pick him up because he was so fatigued he couldn't work.

When Cayleen asked him what was wrong, Joseph told her he had some muscle soreness, exhaustion and a sore throat.

"When we googled, 'what are your reactions to having the Pfizer vaccine,' a lot of the results say people deal with fatigue, muscle soreness and everything, so we both just brushed it off as reactions to the vaccine and it was no big deal," Cayleen said.

Joseph slept through Thursday. On Friday morning, he told his mother he would have to call into work again because he was too exhausted to go in. Cayleen visited Joseph and said he appeared to be normal, other than fatigue and muscle soreness.

"He wasn't really acting sick, just exhausted," she said.

Cayleen, a critical care nurse of 35 years, took her son's vitals and noted his temperature was up to 100.2 and his heart rate was elevated to 112. She thought it was related to the fever, so she gave him Tylenol.

Later that day, Joseph texted his mother that his fever was down. By 4:30 p.m., his oxygen was at 100%, but his heart rate was still elevated.

Joseph's father, William, visited his son around 5 p.m. and they had dinner. William left at 6 p.m. Two hours later their son was dead.

The family knows when Joseph died because of the Apple Watch data they retrieved from his phone. Joseph had an app enabled that measured his heart rate up to the time of his death.

Cayleen said:

"He went to sit down in his recliner and when we [the family] came the next day we were able to pull up the data from his Apple Watch

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fwp-content%2Fuploads%2FJoseph-Keating-Apple-Watch-Data.jpg&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%7C11c>>
showing the exact time of his death and exactly what his heart rate was doing the past two hours.

"It showed he was beating at 100s all during the day and after 6 p.m., when he sat in the recliner, his heart rate dropped into the 60s, which was low for Joseph, who always had a resting heart rate in the 80s and 90s — and then it just stopped."

<<https://childrenshealthdefense.org/wp-content/uploads/Joseph-Keating-Apple-Watch-Data-300x162.jpg>>

Cayleen said when they found Joseph the next morning, there were no signs he knew he was going to die.

"He was even having a two-way conversation with several of his friends before his death. The phone and remote control were on his lap," his mother said.

The family called 911 and detectives came to make sure it wasn't a crime scene because "26-year-olds don't just die," Cayleen said.

When detectives separated Cayleen and her husband for questioning, she told the detectives the only thing she knew was that four days prior her son had received Pfizer's

Autopsy confirms Joseph died of myocarditis

After Joseph died, an autopsy

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fwp-content%2Fuploads%2FJoseph-Keating-Death-Report-FINAL_Redacted.pdf&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cdbb5a38140a5fc3808d9d59a4
had to be performed to confirm the cause of death.

"When they first did the preliminaries they couldn't find anything — his heart looked normal," Cayleen said. But "the pathologist said he was going to do 22 different slides to see what he could find."

Meanwhile, Cayleen said she started hearing stories about young males getting myocarditis

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-moderna-pfizer-covid-vaccine-teens-myocarditis%2F&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cbbb5a38140a5fc3808d9d59a406b9>
from COVID vaccines.

"I knew COVID could cause MIS-C [multisystem inflammatory syndrome

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-multisystem-inflammatory-syndrome-myocarditis-pfizer-vaccine%2F&data=04%7C01%7CW5BOH%40sbh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%7C>], but nobody told me the vaccine was giving people myocarditis,” Cayleen said. “There’s a big difference between COVID giving you myocarditis and a vaccine giving you

myocarditis and actually killing you.”

Cayleen said:

“When the pathologist looked at the 22 segments of Joseph’s heart, it showed the vaccine inflamed and attacked his entire heart. There was so much damage ... to the heart. It was full multi-focal myocarditis, and it wasn’t just affecting one part of his heart, it was attacking his whole septum and ventricles.”

Cayleen thinks her son developed so much inflammation from the booster that his heart developed a fatal arrhythmia that killed him instantly.

She spoke with several cardiologists who were surprised her son never experienced any type of chest pain.

“The hallmark signs as a parent that would prompt you to seek medical help were not given to me,” Cayleen said. “He didn’t know his heart was racing, or fluttering or becoming A-fib. All he complained about was the muscle soreness and fatigue.”

Joseph’s private physician called the family after his autopsy results were back and told Cayleen if she would have called him and informed him of Joseph’s symptoms, he would have said it was just a side effect of the vaccine.

“If we would have brought him in Thursday or Friday, nobody would have discovered it,” Cayleen said.

Joseph’s sister, Kaylee, said, “My brother felt he wasn’t bad enough to seek medical attention because he wasn’t having any symptoms, it just came out of nowhere.”

“That’s what is so amazing that he didn’t have any chest pain, he didn’t feel his heart flutter, he didn’t have any shortness of breath,” Cayleen said. “I mean two hours before he died he has 100 percent oxygen concentration. It just didn’t show anything outside of an elevated heart rate.”

Cayleen said she took a full set of vitals and her son just didn’t feel sick. “When you’re sick, you’re in bed, but he just never felt that way. He just got into a rate the heart couldn’t keep up with and he died.”

Cayleen said she is thankful an autopsy was performed because it revealed her son died directly from the vaccine and the myocarditis he suffered was from the vaccine.

“It’s documented proof,” Cayleen said. “He died directly from the Pfizer booster.”

CDC ignores reports of death caused by myocarditis

Both Joseph’s family and the pathologist submitted a report to the Vaccine Adverse Event Reporting System

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fwp-content%2Fuploads%2FJoseph-Keating-VAERS-report-confirmation.jpg&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b> (VAERS), but to this day, neither have been contacted by the CDC about Joseph’s death.

“You would think the death of a child from a reaction to a COVID vaccine that’s documented on the death certificate and autopsy, the CDC would have reached out to us immediately,” Cayleen said. “You would think the CDC would have called the pathologist.”

According to the CDC website

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2Fncov%2Fvaccines%2Fsafety%2Fmyo-outcomes.html&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%7C>, the agency contacts people who meet the case definition for myocarditis following mRNA COVID vaccine and have submitted a report to VAERS.

To meet the case definition, people must have had “symptoms such as chest pain, shortness of breath and feelings of having a fast-beating, fluttering or pounding heart, and medical tests to support the diagnosis of myocarditis and rule out other causes.”

This rules out deaths like Joseph’s, who wasn’t diagnosed with myocarditis prior to death and did not experience the symptoms that would normally fall under the CDC’s case definition.

The CDC website does not state what happens to these cases, but there is no indication they are tracked or included

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-not-investigating-myocarditis-death-jacob-clynick-pfizer-vaccine%2F&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%7C> in the CDC’s myocarditis numbers

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fvaccines%2Faci>

Cayleen said the state’s health department also has not investigated her son’s death, as they said they first needed to be contacted by the CDC.

“Nobody wants to touch it,” William said. “I’ve been calling the state health department the last few days and they keep saying they have to wait for the CDC and the facts. I told them the facts are in the autopsy, but they said they had to wait longer.”

As The Defender reported

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fde-not-investigating-myocarditis-death-jacob-clynick-pfizer-vaccine%2F&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%7C> Jan. 6, emails obtained by Judicial Watch through a Freedom of Information Request show the CDC is leaving it up to state health departments to investigate deaths following COVID vaccines, including the death of a 13-year-old boy who died from myocarditis three days after his second Pfizer shot.

Cayleen said:

“We’ve heard no response. We contacted the local news station to get the word out that this happened, and they said their hands were tied. We called the pathologist, no comment. The governor, no comment. The health department, no comment. The CDC, no comment. So, nobody’s talking about it.”

Cayleen said her main goal in sharing her son’s story is to let other families know this happened without any warning.

“Thirty-five years as a registered nurse, I should have known something was happening and I didn’t know,” she said. “There were no signs.”

Cayleen said:

“It’s sad because it’s like Joseph’s death never occurred. I just don’t get why we can’t warn parents that something like this — to watch out. He didn’t have any symptoms the first two days and then he developed symptoms the third day. But I didn’t put it together because he didn’t have the symptoms where you would think something was destroying

his heart. But he was dead at four days.

"Joseph's been gone for two months and nobody knows that this boy gave his life for the greater good of America to get a booster."

William said he doesn't feel like anybody wants to deal with the people who get sick or die following COVID vaccines.

Cayleen said her son was an innocent 26-year-old who was "doing everything right" by getting his vaccines and booster, but then died — and nobody wants to acknowledge it, accept it or tell her why.

BUY TODAY: Robert F. Kennedy, Jr.'s New Book — 'The Real Anthony Fauci'

Expert dismisses death due to resolved pre-existing condition

In the autopsy report, the section associated with the brain states there was a "mass composed of multiple vessels of varying size with retractile foreign material with giant cell inflammatory response and calcification; large-caliber vessel with thrombus."

Kaylee and her mother said Joseph was born with an arteriovenous malformation

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ninds.nih.gov%2FDisorders%2FDisorders%2FArteriovenous-Malformation-Information-Page&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%7C11d0e2>

"The 'foreign material' is 'super glue' — which is the material [Joseph's doctor] used to seal off the AVM," Kaylee clarified. "The 'mass' was the calcification of the glue material."

Cayleen said a brain angiogram performed on Oct 12, 2020, showed the AVM was cured — meaning it was all the way closed and sealed. So her son had no underlying condition at the time he received his Pfizer booster.

"Even the pathologist said his brain could be donated because there was no evidence of the AVM," Kaylee said.

When Cayleen called Joseph's brain doctor and explained her son had passed away from the booster, he told her about an "underlying study showing young adult males are getting myocarditis from COVID Pfizer boosters."

"So here these world-renowned physicians know this but I don't know this," Cayleen said. "Joseph's doctor knew right away it was the booster."

As part of his monitoring, Joseph had received numerous cardiac tests over the years that revealed a healthy and normal heart.

Shortly after Joseph died, Cayleen went online to see if she could pull up any research data and found that Dr. Jane Newburger

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.childrenshospital.org%2Fdir%2Fnewburger&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%7C11d0e2>

any deaths.

Cayleen contacted Newberger and told her she had a 26-year-old healthy son who died of myocarditis after receiving his booster shot. Although they talked for an hour, Newberger was “in denial because Joseph was born with an AVM in his brain.”

Yet, he was on no daily medication at all and “was as normal as me and you,” Cayleen said. “He had just graduated college as a double major and his AVM was gone and sealed.”

No recourse for people injured by COVID vaccines, family living worst nightmare

Cayleen said there is no recourse for people who are injured by COVID vaccines, especially because we’re “in this emergency pandemic phase and can’t sue anybody.”

“We can’t say, ‘Oh, my God you’ve caused the death of our child,’ so we are left with all the expenses on us,” she added. “We just know that numbers need to be reported and parents need to be aware.”

Kaylee, who isn’t vaccinated, said the whole experience has been overwhelming.

“I’ve been in the underground the past year and have spoken to friends who have felt the same as me and informed me on the scary things that were happening with vaccines.”

Kaylee explained:

“I am a 37-year-old young, healthy individual and I was more scared of the vaccine than I was of COVID, so I chose not to get it. When we found my brother, one of the first things my mom said, because we both looked at each other ‘like what happened,’ she said she got him his vaccines on Monday.

“I just went, these are the horror stories that I have been reading about — blood clots <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fchildrenshealthdefense.org%2Fdeberg-wilson-dies-covid-vaccine-twitter-censors-obituary%2F&data=04%7C01%7CWSBOH%40sboh.wa.gov%7C9a1cddb5a38140a5fc3808d9d59a406b%70>> and scary things that were happening to young healthy people, and though that was just heartbreaking, and living this nightmare now that I have read about is really just unbelievable. You know you hear these stories but to actually be living it is really hard.”

Kaylee said they’re not sharing their story to tell people to get vaccinated or not, but to “encourage” others to ask health professionals for honest evidence and research on whether or not they should be vaccinated.

“For nobody to tell my mom of myocarditis is crazy,” Kaylee said. “She should have known about these risks.”

In a social media post

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.facebook.com%2Fkayleemay>>, Kaylee said:

“If you knew Joseph, you knew he loved science and he was always pro-science and pro-vaccine. He trusted science and did his part. We understand Joseph represents a very rare and very small portion who experienced negative side effects from the vaccine, but we are choosing to share this news not by starting any controversy or retaliation or telling you to get vaccinated or not, we are sharing this in hopes that people understand that these reactions exist and are very real and to be rightly informed.

"We want answers why this happened and we want more research done so no one else goes through this heartache. We want the CDC and the FDA to honestly communicate with the medical community and the public what is happening and what can happen, not be silenced."

Cayleen said her son had no previous history of COVID and it's scary to think people are being recommended to have boosters at five months without anyone looking into the adverse events this could cause.

Cayleen said:

"I didn't want to take a risk of Joe having COVID so I wanted to protect him with the vaccine, but now I ask why it killed him. They need to do research into it. It was crazy we could develop a vaccine in a year's time when a normal vaccine takes 10 years to develop. There have to be so many unanswered questions out there and this is just one that needs to be researched."

Cayleen said she doesn't want her son's death to be in vain.

"I want answers and I want Pfizer and the CDC to call me and tell me what went wrong. I want to save another child."

Subject: Clarity for K-12 mask wearing at recess

External Email

Marvista Elementary does not allow students to participate in recess outside with a mask. There are less than 500 children present, and plenty of space. Does this policy of forcing children to mask while at play outside come at the recommendation of the board of health? I will be bringing your response to the PTSA meeting tomorrow, so I would really appreciate a prompt response.

Thank you so much for all you do,
Heather

I am completely against any of the proposed Covid Policies that are over reaching and immoral. We stand against these proposed WAC's:

WAC 246 - 100 - 070

WAC 246 - 100 - 045

WAC 246 - 100 - 040

WAC 246 - 100

WAC 246 - 105

This is completely unconstitutional and a communist way of controlling people.

Hello Mr. Chairman,

I think leading an advisory committee on whether we mandate an unconstitutional, unsafe, and unproven vaccine on our kids, with a "Vaccinate Washington" logo behind the Chairman's head, is not only leading people to make a decision a certain way, but is pushing your Agenda and not the advisory committees decision making process.

If the purpose of this committee is for creating a place for members to give their opinions and feedback, the opinion of the WA Board of Health should not be blatantly broadcasted in everyone's face ever time he speaks.

You are promoting your "Agenda" and creating a bias.

The CDC just announced that the vaccine can permanently compromise people's immune systems. You do not get to harm my children- If this gets passed I will pull my family from the school system.

Thank you,

Jennifer High

Don't really have too much to say everybody said exactly what I would've said anyway but my hardest thing to understand in reference to any public testimony is it doesn't feel like nobody cares about what anybody's got to say there was not a reflection towards one thing anybody had to say and the female that was on there she was extremely cold just a very cold person I cannot even believe that the government has turned to what it is today it's so gross test and the state boards are even more gross.

To Whom it may concern,

We are writing this email as citizens of the state of Washington in opposition to using WAC 246-100-070, WAS 246-100-045, and WAC 246-100-040 to force an emergency order to involuntarily detain a person or group to be isolated in a quarantine facility following refusal to comply with above stated laws regarding Covid-19.

We are also in opposition to including the Covid-19 injections as part of the school immunization requirements using WAC 246-105. These vaccinations have not met the required testing time frame, and therefore long term effects are not known. It is also known that the percentage of children seriously affected by Covid-19 is very small.

Respectfully submitted,
Ken and Tracy White

ORIGINS MATTER:

It has been documented and evidenced that covid was created in game of function illegally, the PCR tests produce way too many false positives, and cannot isolate covid19, but a general coronavirus. This has been the pivot for mass vaccinations.

Proof that ivermectin and HCQ were legitimate treatments, but were forbidden... why? If there are treatments there would be no vax

Who is paying for all these free tests, and who is receiving the money for such?

In light of these questions, mandating vaccinations for anyone, regardless of age, locks you all personally in to the big picture.

No mandates - medical freedom is paramount to our country.

Thank you.

Thank you for providing this public opportunity to attend and participate in this meeting. There were several agenda items that were of some concern to many online attendees.

Please consider my following comments.

As a young school child I received various vaccinations that provided immunization against diseases such as measles, mumps and rubella. Even tuberculosis, chicken pox and polio vaccinations are available and in a lot of cases, required. While some side effects can occur, these vaccines have a very high rate of success for a lifetime. No mild or breakthrough cases of polio for example. These vaccines result in lifelong immunization. The various COVID vaccines typically (with some adverse reactions) result in reduced symptoms but not immunization. While a lot of good has been accomplished with masks and vaccines, there has been a cost in terms of mental health and some cases of undesirable physical side effects. For these reasons I am opposed to mandatory COVID vaccines.

Thank you for your consideration,

Thank you for hosting the meeting with the public.

I applaud the use of science in your decision making. And along with that,I remind you that scientific analysis requires vigorous discussion and review of ALL RESEARCH. Not just the part that we want to see. The science is never one sided. Let's hear from all scientists and doctors before forcing kids to be vaxxed or any other additional health rules. The truth will serve us all and bring harmony.

Dear WA State BOH,

Please see the attached link. #WeThePeople demand that you consider information, science & facts from sources other than our government bureaucrats, the cdc, the fda, Fauci, The Biden administration & others.

#WeThePeople demand honest, open, discussions & debates from independent experts representing #WeThePeople.

I watched your zoom meeting today & your information, science & facts are very inaccurate & way off. Omicron is a cold, we are in the cold & flu season. Where did the flu go? The pcr tests are very inaccurate & have a lot of false positives. Which the many new cases & the whole pandemic is based on. The experimental jabs are dangerous & are killing & injuring people. Read the vaers report. They don't stop transmission of covid or protect you from getting it. In fact there is information out there that says the jabs give you covid. The jabs & boosters don't provide much protection if any at all. Why aren't you talking about therapeutics & natural immunity? Why aren't you making therapeutics available to everyone? Why are you suppressing them & blocking them? Why are you lying about hospitalizations from covid? Real facts are showing less than half of the numbers you claim.

The experimental jabs are the emergency use jabs & not the fda approved ones. The experimental jabs for our children have not been properly tested & are not safe. Children from ages 5 to 12 are 99.9% likely to have no serious illness from covid. The flu is more of a risk.

We demand full disclosure from you on what our federal government is directing you what to do & say. What funding & programs will they cut if you don't do what they say or follow their guidelines.

If you're lying or incompetent, you will be held accountable for crimes against humanity & the Nuremberg codes.

We demand that you do the right thing for the American people, the people in Washington State & our children. You're breaking laws, violating our rights, our constitutional rights & our God given rights.

The truth is coming out about the propaganda & lies from our corrupt government bureaucrats, the msm, big tech & many in the medical community.

#WeThePeople are not stupid & we know what's been going on. Please do the right thing, tell the truth & protect the American people & all people.

Sincerely,

#WeThePeople

External Email

Dear WA Board of Health,

Thank you for taking my comment. I want to remind the board that there is a large body of citizens concerned with the authoritarian nature of the covid measures and restrictions, including coercive vaccination policies, and that we are not a fringe minority.

We heard talk at yesterday's meeting about the strain on hospitals, including staffing shortages, and I would point out that firing unvaccinated hospital and care-home staff, as well as forcing asymptomatic employees with positive test results to stay home are administrative decisions. Perhaps better policies should be made rather than using the results of poor policy-making to guilt and pressure the public into vaccinations. Additionally, I would like someone to address the statistical recording of recent vaccine recipients as "unvaccinated" among the hospitalized. This skews the statistics and disguises both The dangers and the efficacy of the jabs.

The vaccines are clearly failing. The addition of boosters in order to band-aid the failing immunity that was promised for the shot series demonstrates this. As a Washington constituent I urge the board to end this myopic fixation on covid (which is increasingly un concerning as it develops into a milder virus) and marketing pharmaceuticals, and focus instead on real health concerns like opioid addiction and helping people recover from the effects of your devastating covid policies.

Sincerely,

Leslie Elliott

Subject: TAG

External Email

I was inquiring as to why this tag advisory board was even created why can't the Washington health board members that already exist make the decision about COVID-19 being included in require childhood vaccines. I also find it very dishonest and people are starting to not trust our health department when you guys have a meeting under everybody's radar and nobody was aware of the meeting. In the next meeting I think it would be best for the public if you guys would speak to epidemiologists other doctors about natural remedies for COVID-19 instead of just the vaccine. You will have a mass exodus of children leaving the public school system we as taxpayers pay for the school we should not be forced to put this new vaccine in to our kids . Phase 3 testing of the childhood vaccine will not be completed into until March 2026 I wish you would take that into consideration.

It is my sincere hope that the obvious interest in the subject matter was made clear through the attendance numbers and people who wished to comment. My basic point is that I am sincerely concerned about the lack of another viewpoint being discussed, and the Herculean efforts to silence those people with concerns about the vaccines.

Dr. Malone who invented mRNA technology, has devoted the remainder of his life to speaking out against the vaccine mandates and the misuse of his mRNA technology through the vaccines. You can still publicly view his patents if you have questions about him being the inventor.

Dr. Peter McCullough is the most widely published medical professional currently in practice. (as a cardiothoracic surgeon). He too, has devoted the remainder of his life speaking out against the mandates & the dangers of the vaccines. Dr. Megan Redshaw has her doctorate in naturopathic medicine, doctorate as a General MD, as well as a Juris doctorate in law..... These are not dumb people and many have either received or been nominated for the Nobel Prize in their field of study, yet we make every effort to silence and ostracize them?

I ask you, how did we get to the point where there are thousands(21,000+) of dead Americans listed on the cdc's V.A.E.R.S. website, and over a million serious adverse reactions including paralysis and neurological disorders, yet we proceed forward with the mandates as though nothing has happened that warrants review.

This exact scenario repeated itself with the Spanish Flu in this country not too long ago. The difference is when one person died during vaccine trials and less than a hundred were sickened, the Surgeon General of the United States was fired and the vaccination program immediately terminated. If this is news to any of you, that is the problem! Research is out there for anyone to view yet our government officials and decision-makers, are not diving into it and there is an extremely high price being paid by thousands of our fellow Americans.

Studies of the V.A.E.R.S. system show it is vastly under-reporting the serious issues and deaths. Even if you don't buy the studies about the V.A.E.R.S. system, try going to the site yourself and attempting to make an entry. Many doctors have provided interviews detailing just how counterproductive the system is to the point that it is not worth their time or \$ paying someone else to enter it because it is so time-consuming and not user friendly. Hmmm

My wife and I both quit our public service jobs over vaccine mandates and now my friends left behind are being terminated against their will. The amount of knowledge being left behind as these 25 and 35 year veterans are fired, will be lost forever. Rather than view these people as lost souls who are misinformed, ask yourselves what would possess someone to make such a drastic decision? These are not decisions made lightly. It is incumbent on each of you as individuals to do your own research and not parrot what is told to you by the higher-ups, or the CDC, N.I.H., W.H.O., and F.D.A..

If you really were adept at healthcare you'd look at the science. Mask don't help -there is a lot a problems with them. The jabs have real side effects, -I bet you don't want your children to have. Mandates for shots are illegal (Nuremberg Code). Down the road you'll have to answer for following Gov. Insley. This won't be pretty. Better to stand up now against the mandates then be held responsible later.

Subject: Covid Policies

External Email

I am completely against any of the proposed Covid policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

According to the Federal Judge Mark Pittman who ruled that FDA has 8 months to release all documents related to the licensing and safety data of the Pfizer vaccine instead of the 75 years the FDA was requesting. The documents in question relate to a Freedom of Information Act (FOIA) request filed in August 2021 by Public Health and Medical Professionals for Transparency(PHMPT), a group of more than 30 medical and public health professionals and scientists from institutions such as Harvard, Yale and UCLA.

In it's FOIA request PHMPT asked the FDA to release "all data and information for the Pfizer vaccine," including safety and effectiveness data, adverse reaction reports, and a list of active and inactive ingredients.

If the FDA is unwilling to reveal the ingredients of the vaccine, this is very concerning to the residents of Washington state and it also means the state health officials assigned to determine if the Washington state residents should be isolated for "health concerns" would have no actual data or valid scientific data to base their decisions off of.

This would mean any Washington state health officials that would order isolation of unvaccinated Washingtons state residents without knowing the ingredients, the efficacy or the safety of the vaccines would be illegitimate since the vaccines have no known safety data. Therefore, the separation of the vaccinated from the unvaccinated would be moot since transmissibility is known to occur whether vaccinated or not.

The CEO of Pfizer quoted as saying "The two doses of the vaccine provide very limited protection if any."

Again, this eliminates any legitimacy of a state health official giving orders of isolation for non-vaccinated people.

Good Day Board of Health Members,

Pursuant to many of the testimonies from today's meeting I thought I would include a relevant passage from federal law for your consideration as all of the Covid injections you are considering mandating or allowing to be coerced are still investigational, in other words experimental, and all people taking them are experimental subjects by definition and have protections guaranteed by the Nuremberg Codes and related medical ethics laws adopted by the United States Federal Government as well as the U.S. Constitution including its Amendments.

This is from subpart A of 45 CFR Part 46: Basic HHS Policy for Protection of Human Subjects but is present in every ordinance I could find regarding informed consent.

Subsection 46.116 General Requirements for Informed Consent

... the following information shall be provided to each subject or the legally authorized representative:

(b)(8)A statement that participation is voluntary, refusal to participate will involve no penalty or loss of benefits to which the subject is otherwise entitled, and the subject may discontinue participation at any time without penalty or loss of benefits to which the subject is otherwise entitled;

Thank you for your time and attention,

I attended the entire zoom call yesterday and I was very disappointed that the push for these vaccines was so high on your list. Since you are the Board of Health can't you give information to people who want to treat this virus naturally? Why is the only option to get vaccinated?? Why aren't doctors allowed to prescribe Ivermectin or HQ? When my family got Covid in July we treated ourselves with Vitamins and we all recovered within a few days. So it's mind boggling that every government agency is pushing this vaccine when people can heal naturally. I know many people who got sick with Covid and had numerous underlying health issues who recovered and didn't die. The scare tactics being used are unacceptable and it makes me wonder how these people sleep at night. I'm very disappointed in Jay Inslee and how he is turning our beautiful state into his own little puppet, which makes me question the people who he personally appoints to be in positions like yours. Americans are waking up to the lies and we can see through the tyranny happening. As a business owner who pays taxes on everything possible, I'm fed up with money being used to push this vaccine agenda. Clearly your panel will eventually try to pass this vaccine to mandate our children to attend school. I want to say this will be a MASSIVE mistake!! I am personally prepared to pull my children from school at a moment's notice. I will NOT allow my children to be part of this experiment. You are creating a entire generation of anxious, non-emotion people. The scare tactics and agenda needs to stop!

Sincerely,
Krista Sherlock

Dear Members of the Washington State Board of Health,

As a citizen and taxpayer of the state of Washington I would like to state my extreme disgust at the vaccine mandates trying to be unjustly enforced on the citizens of this state and country. I also find it so ironic that one of your reasons for convening yesterday was to propose policy changes to help eradicate prejudices in all arenas toward the HIV populations of our state while you are helping to establish that very thing toward the unvaccinated of our state. How far down the pike will this thing go before you see the error of your ways? Truth does not stay hidden for long. I pray that when truth is revealed that you will have already taken a stand to correct this injustice.

Respectfully,

Board Members,

I listened in on the Zoom hearing yesterday, and despite thousands of educated comments, and warnings about the mRNA on an EUA, you folks decided to move forward and Vote to object to the Petition. The reasons that two of you gave that the others concurred with, was an absolute disregard of the facts and public outcry. There are many lives that will be destroyed, which is the fact that completely contradicts your reasoning. I understand your approach is because of public safety, but this unique situation is creating the contrary. The Vaccine injections are creating a crisis. You will not listen to a Petition by a Professional Doctor with real data, or thousands of parents, so I am here to say only this.... The history you are helping to create will be blood on your hands for eternity. Don't make emotional decisions based on an experience from the 1950's, make an intelligent one based on the real facts today.

Time will tell what your decision has done. Why Gamble with these Childrens lives? Re-think your Vote.

Subject: Comments on the 1/12/22 HIV meeting

External Email

J. Polehn comments on the 1/12/22 Washington Board of Health meeting, 1/12/22

WAC 246-00-45; WAC 246-100-070; WAC 246-105

Despite the attempt to narrow the topic to the HIV portion of WAC, the HIV items being

proposed ARE also relevant to the Covid-19 virus. The experience at today's meeting is just the tip of this powder keg. People are being divided into "vaccinated" & unvaccinated, just as HIV folks. Enough of the discrimination! The gov'ts & health depts. & medical & pharmaceutical & news industries are at fault. And ongoing & gov't reactions, including shutting down businesses & supply chains, schools, installing mask & vaccine mandates (i.e., which are NOT law) have serious health impacts, including deaths, that are not being captured by the health dept in their decisions/recommendations to the Governor. Fear pornography is being fed nonstop to the public via the main stream media (e.g., MSM, CBS, ABC, CNN, etc.) & it appears to be condoned by Federal & State agencies. The health depts. seem oblivious to this. The fear porn needs to stop & actions violating our Constitutional rights stopped NOW.

Based on facts: Covid-19 virus has a 97+% recovery rate. (If this virus is so deadly, why aren't we seeing numerous dead bodies from the hoards of homeless?) The results of the Covid tests were not differentiated between Covid & the flu & thus not reported (i.e., Covid numbers were artificially inflated). Hospitals were/are incentivized/paid to identify deaths as Covid (i.e., people dying with Covid & having Covid & the flu were counted the same--as Covid) thus inflating the number of deaths to get money for their bottom line. The pharma companies are getting huge amounts of gov't money for pushing their emergency use vaccines on people. The health dept, & the gov't, has a serious public relations problem that needs prompt attention/correction. And, pushing experimental use vaccines that have serious side effects, including about 21,000 deaths per VAERS, on folks isn't helping the cause.(1)(2) And pushing masks that do not work to contain Covid or prevent infection is, to say the least, & unethical. Both mandates definitely violate Constitutional Amendments IV & V.

That the health dept had no inkling of today's response to the HIV code changes is telling (i.e., how out of touch the health dept is with its employer). Hint: when various news media repeats news verbatim, it is not news. It's propaganda. Try getting onto Gab, Bitchute, Rumble, etc. to get some non-scripted news. Please get rid of the mask & vaccine mandates now. We expect better from our gov't & health department employees that our taxes pay for.

Good morning,

I attended yesterday's meeting for the entire session. Thank you for providing the PowerPoints, they assisted me in showing our group exactly what you guys are claiming and misleading everyone on. You are being misled and misleading the people of Washington State.

Not once did you show us the Science behind any of your information or decisions.

So I ask for the science behind your choices? Do you know the jab has been declared Bio-Weapons?

What you are doing is repeating History, this is part of how the Nuremberg Code happened.

What ever happened to our body and choice?

What about other things like taking natural medicine?

I have not seen my regular physician, due to the mandates. I hold every single one of you responsible and I'm not alone. I have not changed my life one bit and have not been sick. It's the flu. You are just helping the deep state and drug companies get rich. Shame on you.

Anyone assisting with mandating the mask, testing and encouraging or giving the jab will be held accountable. The excuse of being what you are told isn't a valid answer.

I am very frustrated with what I heard yesterday and I know I'm not alone.

You have awakened a lot of the people in the State and I believe you will see you all will lose your job for not protecting everyone in this State. I am ashamed of being a Washington resident and I have been living in Washington, since I was 13 years old on and off.

I would suggest taking a look at this website for some research and knowledge. gprc.global . We the people will no longer stand for the abuse everyone has endured for at least two years now. You work for us, not the other way. I look forward to the day you lose your job for not doing the right thing for every citizen. We do not trust any of you, especially watching the session yesterday.

I look forward to receiving answers to my questions.

Sincerely,

Mary L Simmons

I didn't get to speak on Jan 12, although that was a joke too with less than 60 seconds to do so,

We have a far greater problem than the China Flu. Here is your opportunity to address these challenges understanding that, as much as you'd like to write laws, you can't.

State sponsored alcoholism, cancer/copd, and drug abuse must be curtailed (stop collecting taxes from the sale of these poisons).

Put an end to all restaurant and prepared meals with exorbitant fat and salt content. Also, control portion sizes. If you feel the need to tax, tax any foods high in salt and fat.

Use internment camps for anyone with a BMI over 25 or can't meet a simple physical skills test.

If you want to penalize people for what you deem as unhealthy or a danger to society start with the people and business that fall into the previously mentioned categories.

The China Flu will be gone in the next few months but obesity, alcoholism, drug abuse, and tobacco use will rage on. If you want to be heroes, fix something you can actually change, don't tell people to wear masks that are the equivalent of trying to stop a mosquito with a chain-link fence, or force healthy people to fill their body with emergency poisonous shots.

I had China Flu November 2019 (I had just turned 62), before anyone even knew what it was. My healthy lifestyle and immune system worked just fine, I don't need you forcing me to do something, nor does anyone else.

The Dept of Health is lacking employees of valor, but there is plenty of ego. This includes your boss Inslee, what a sorry lout he is.

Good morning,

I did listen to the board meeting on 1/12/22 in its entirety. For the most part I was encouraged by what I heard.

While my husband and I have both been vaccinated, like many other Washingtonians we did both also get Covid over the holidays.

My request is that Covid be treated the same as any other disorder. It should be covered under HIPPA laws. No papers to prove you are vaccinated, nobody has the right to ask me about my health status or condition.

It is time to go back to normal, it is time to stop divisiveness. It is time to unite our communities gain.

Thank you for your time.

Sincerely,
Dawn Ragan

Every person involved in quarantine concentration camps and supporting mandatory drug injections should consider the International Law of the Nuremberg Code and their future criminal prosecution for their involvement in these crimes against humanity. In case you need a reminder those found guilty included not only those doctors and scientists who murdered and performed experiments on the Jewish people without their consent, but also included those who mislead the German people with lies and propaganda about the Jewish people.

External Email

Dear Washington State Board of Health,

This is a follow-up to the BOH meeting yesterday. Unfortunately, the Boards's last minute communication shortcomings, and the rush to allow one minute public comments without an opportunity for responses, did not provide public due diligence. I would like to address a couple important issues that warrant future open discussions:

* COVID-19 Vaccine Mandates

A one-size fits all approach is not the answer to this pandemic. In particular, since children have a 99.9815% survival rate from the COVID-19 disease, there is no basis to support injecting an experimental drug into our vulnerable children.

* WAC 246-100-070

This proposed policy to allow local health officers to use law enforcement to involuntary detain a person or group of persons to be isolated in a quarantine facility is absolutely egregious.

Not only is this tyrannical behavior in violation of the Nuremberg Code, the International Covenant on Civil and Political Rights Treaty, and the World Medical Association Declaration of Helsinki - Ethical Principles, but it is undeniably unfounded.

Consider the lawsuits that have been filed. Where are the requested documents to support that there is actually a health crisis? To date, no one has been able to provide these phantom documents. Instead of proving that an emergency exists, state defense lawyers have spent all their energy on motions to have cases thrown out. The government's overreaching power to continue abuse of the Emergency Use Authorization (EUA) has been exhausted.

We've degenerated to living in a completely lawless society much the way communist leaders and totalitarian dictators do. Our government is following the same social credit system platform that enslaves 8 billion people in China. Is this really our end goal?

This "pandemic" is based on the collusion of academics, government, Big Tech, Pharma and other powerful players who have huge financial gains. If not for the scare tactics, censoring and manipulation of data there wouldn't be a pandemic. This is not a pandemic, but an all out assault on Americans freedom.

I am appealing to you to stop this attack, on our civil rights and liberties. This is our last chance to save all of humanity, regardless of race, color, religion, or political affiliation. If we relinquish our rights we jeopardize the America we once knew.

Thank you,

Mary Torjusen

Hello

I am writing in regards to kids having to mask at school and be vaccinated. Can you please look at other states where kids are not masked at school and see how they are doing. It needs to be a parent's choice on if they want their student wearing a mask and being vaccinated. There are so many other states that students can go to school and not worry about wearing masks. Please make it a parent choice on masks and vaccines, please.

Thank you
Jennifer

Subject: Public comment- meeting January 12th

External Email

There were 7500 people who wished to comment. Less than 30 spoke today! None are happy or had anything to say that you probably wanted to hear.

There was a CLEAR Message today. Alarm bells should be going off.

Basically MRNA Vaccines have failed. Stop cramming it down everyone's throat. Most can see Death rates rising (see example below- so many more examples-thousands exist if one looks).

You as a Public Health professional have a duty to do better. There is so much to say, but the Washington board of Health should be embarrassed. Now is the time for a change. Every member of the board has the opportunity to correct direction, to do your job and help all Washingtonians, especially those brave enough to speak today, and also those who were not able to speak.

You may want to not just follow orders. You may not want to ignore safe treatment methods , or preventive measures. Only pushing the vaccine and booster makes zero sense, and nobody knows what will happen over the next few years.

Remember MRNA is an experiment, the whole process has been rushed and is prone to mistakes. Based on what is known to the common sense public, the experiment should have cancelled almost a year ago.

Indiana life insurance CEO says deaths are up 40% among people ages 18-64

We are seeing, right now, the highest death rates we have seen in the history of this business – not just at OneAmerica,” the company’s CEO Scott Davison said during an online news conference this week. “The data is consistent across every player in that business.”

The CDC weekly death counts, which reflect the information on death certificates and so have a lag of up to eight weeks or longer, show that for the week ending Nov. 6, there were far fewer deaths from COVID-19 in Indiana compared to a year ago – 195 versus 336 – but more deaths from other causes – 1,350 versus 1,319.

Subject: Board Meeting 1/12/2022

External Email

As a follow up to this morning's board meeting, I wanted to provide the following comments:

Considering the new data available about both the vaccine and around the current Omicron variant of the virus, I want to make the following points that lean towards restricting boosting and certainly repealing any mandates that are currently in effect in Washington:

- Cases of Omicron are equally impacting the vaccinated and unvaccinated populations
- Vaccination, even with the booster, has limited capability in stopping the transmission of the virus. This is supported by the CDC's own admission.

I am assuming the WBoH is aware of the recent statements from WHO, where they have said that a vaccination strategy based on repeated booster doses of the original vaccine composition is unlikely to be appropriate or sustainable. Furthermore, the WHO went on to state that future vaccines must be more effective in protection against infection, thus lowering community transmission. Furthermore, the EMA is also starting to sound the alarm with respect boosters and the impact on the immune system long term.

If Washington State is truly interested in protecting the public health, it should be encouraging a healthy lifestyle, access to diet and fitness resources, and expand to treatment options should one be infected with SARs-COV-2. Not continue to double It is known and openly admitted by the the CDC that at least 75% of those that died with 4 or more co-morbidities.

I also want to address the issue of internment camps. As stated on the call today with the BoH, these have been seen. It is untruthful for the BoH to deny that these exist and to state that there has been misinformation spreading on social media regarding these camps and their use. If the State of Washington has no intent of using them, why build them? Based on your comments today, I demand that you then set the record straight and issue a formal communication regarding the first point you made around quarantine and isolation so that it is in the public record that this in fact is not being, nor will be considered.

I have nothing further to add around the discussion related to mandating vaccines for children 5-12, however, I would remind you that these therapies are under Emergency Use Authorization. and while you and the rest of the state administration seem to have no issue ignoring the law, parents do have the right to refuse these vaccines under US Code, Title 21, Subchapter V, Part E, 360bbb-3 on behalf of their children.

Thank you.

Thank you for the informative meeting.

One of the Doctors who spoke earlier in the meeting about the pandemic, stated that 'natural immunity' is not as protective as the vaccines, and fades over time. I believe he is using the study from the small US that is known to be flawed. Nearly all of the many, and more recent international studies show that protection from natural immunity is 'as good as' or better and more long lasting than the vaccines, - I did read that the booster's effectiveness is between 8 and 12 weeks, which is certainly not as long lasting as protection from natural immunity. Please consider the South Africa study from December, and the very recent Southern California study, as well as other that are easy to find.

I find it worrisome that the international studies on natural immunity continue to be ignored in favor of one study that favors the mRNA vaccines.

thank you.

Subject: You lack credibility

External Email

I heard words such as "systemic racism" and "equity." The only thing missing was a land acknowledgement! There is no such thing as systemic racism and equity is actually racism.

However, you lack credibility because you seem to not even be looking at what the CDC has to say (not that anyone trusts them anymore); however, they are stating that deaths are related to 4 or more co-morbidities. You have never corrected your rolls to show who died of COVID only or who entered the hospital with COVID only. Thus, no one can trust you.

I have not worn a mask, been working the entire time, don't wear a mask ANYWHERE (except airplanes where I'm trapped but even then, it's mesh), and I won't get vaccinated. Why? Because I don't need to. I'm healthy and I know how to wash my hands before I put anything in my mouth.

Looking forward to the Dems getting their asses handed to them in the mid-terms and then Inslee getting voted, and DIMS in Wa. State losing their majority thanks to re-districting! Then, we can get back to normal. This is a cold now and should be LIVED WITH as such.

Members of the Board,
I attended the Zoom meeting on January 11, 2022 to listen to you and fellow Washington residents talk about the Covid crisis in Washington state. I have attached the post shared with me. This post is the reason for my attendance. Under the heading of 'Proposed Policies' you will see the section referring to law enforcement being used to detain people 'a person or group of persons (family)' who refuse testing or medical treatment. It was made clear that you were not going to discuss this topic. I would hope that when, not if, this is to be discussed, there is an opportunity for public discussion. I would like to request a notice when this is scheduled, presumably as a Zoom. Thank you,

who's pockets are being lined with the money made off these bullshit agendas. I ask that you make the right decision to not move forward with this nonsense. Let families choose what is right for them and stop implementing medical directives that could have long-term, irreversible side effects, including death. I understand more information needs to be reviewed before making a decision, but please take the comments that were made today under serious consideration before moving forward with something that takes the rights away from the people and jeopardizes individual autonomy.

a VERY concerned Washington state citizen and parent

Transcript from the meeting talking about the point referenced above about involuntary detainment

14:56:21 Here, there is, there is one open item that seemed to be a theme through here and that's where these quarantine camps. And, to my knowledge, there are no enforced quarantine camps, set up being built anywhere in this state.

14:56:28 I do know that there are sites being set up for people to quarantine so for example homeless people on the street, that have covert and things like that.

14:56:40 There's been some provisions for them to come and have a good place to stay warm meals and things like that. Or if you're in a home where you have some really high-risk folks, and you can't really quarantine or isolate yourself.

14:56:54 These other places have been available, but I'm not into the understanding, so I don't know where this idea of all these quarantine camps in secretly built all over the place to stuff people into is, I don't even know where this is coming

14:57:09 from it, it seems like crazy, crazy to me because that's, and I come from a time when people I worked in places where people were forced to stay in sanatoriums for TV back in the 70s.

14:57:25 When those were still open. But I've never heard of anything like this and so this has been a continual theme throughout all of the

14:57:37 comment today.

14:57:39 And so, I mean I think that we as a state more unhealthy that need to say, say something about it.

14:57:51 We can just do Stephen thank you and I, too, am not aware of any mandatory covert isolation in the quarantine center.

14:58:02 I know that I'm

14:58:06 aware of. Quite a few.

14:58:08 In most counties have developed voluntary ones for people who ask for a place to stay so that they don't. In fact, their roommates, or their family, or like you said if they're homeless or living in a congregate living facility where once they become positive,

14:58:27 they choose not to infect other people and choose to isolate on their own.

There are certainly lots of examples of those but I too am not aware of any mandatory quarantine and isolation center.

14:58:45 We barely can fund staffing and facilitating structures to do it now for those who want it.

14:58:55 We certainly don't have the staffing or the funding or the facilities to take people that don't want to go.

14:59:03 So again, I agree with you, hundred percent I'm not aware of any facility so I think we've made that comment.

14:59:10 And I don't know what else we can do because they don't exist.

I am a parent and a former state employee with dcyf. As a citizen of WA state and a former state worker I am absolutely disappointed in the way this state is treating their professional front line workers. We worked throughout this whole "pandemic " and were praised for doing a good job, then discarded like yesterday's trash for either not accepting, or not being able to get this so called vaccine. Now the evidence is really coming out about just how ineffective the vaccine is.

I was terminated for not being vaccinated against a virus that is over 99 percent survivable. I had an approved medical exemption and was terminated.

My clients lost their SW of 2 and a half years and were mad and sad to see me go. They stated that they fully supported my choice and were mad at the state for their choices.

The state is choosing to loose good employees, trained and dedicated employees over a vaccine that does not even work as planned. The state is spending resources to recruit and train new employees instead of keeping the ones who are already trained and working hard. Over a vaccine that does not protect as originally planned. Vaccinated people as you know are spreading the virus as well and getting the virus, so where is the justice to protect those of us who have chosen to not be bullied into being a government experiment. None of this makes sense. The state is destroying lives, not "saving people." They are losing the trust of the people, not gaining it. They are losing long time residents who contributed to the economy.

When will this discrimination and false narrative end. When will ALL citizens of WA state be treated equal and fair again?

As far as the possible mandate for our k-12 kids, this is a far reach for the government to even consider. To force our children into a government experiment or face not being allowed an education is absolutely mind boggling. Your doctor yesterday at the meeting talked about having a board of trusted people to discuss this, and then mentioning who those trusted people are, brought no sense of comfort to me as a parent at all. One of the "trusted people" mentioned was dcyf, the very state agency who just terminated dedicated employees, including myself, for not receiving the vaccine. Seems like they are choosing very one sided "trusted" people to make the decision for OUR children.

After speaking with many WA parents, it seems the state choosing to approve such a mandate will be one that causes a mass exodus of school children and revenue for WA state. I urge you to not cause more chaos and destruction than you already have with the "defund the police" and "vaccinated or terminate" line of thinking. Stand up to those who are pushing this atrocity and be the voice of reason for your fellow WA residents. Stop sitting back and watching the state crumble. Be the change we need in this country. This needs to end, this "emergency" of 2yrs that is holding WA hostage and letting Inslee run the show unhaltered needs to stop. Please be the voice for our children.

Thank you.

Subject: Communicating With Board Members - please clarify

External Email

Hello,

I am really trying to understand where we are with 246-100 WAC in general. They are procedures related to HB1551 as I understand. I also understand the board announced that there is no consideration of utilizing this particular set of procedures for those with Covid or those that choose to not be vaccinated. What I am trying to understand is where is that stated in the bills / procedures. When I read 246-100-040, I see language that supports exactly that. Specifically section

1.a) Has first made reasonable efforts, which shall be documented, to obtain voluntary compliance with requests for medical examination, testing, treatment, counseling, vaccination, decontamination of persons or animals, isolation, quarantine, and inspection and closure of facilities, or has determined in his or her professional judgment that seeking voluntary compliance would create a risk of serious harm;

If I understand this correctly, which is where I am asking for you help, this says that unless a person is doing what they can to reduce risk to others and that includes vaccinations, then they can be quarantined or detained. I guess what I am looking for from the board is a better understanding of how this cannot or will not be used in case of Covid or future viruses. How do I convince others that this is not what they are spreading? I always research information I come across and am just at a loss here with being able to clearly understand what I am looking at.

I really do hope that you can shed some more light on this.

There was also this on the agenda for the meeting on the 12th:

9. Rules Hearing Continuance– Communicable and Other Certain Diseases, Chapter 246-100 WAC – Testimony Will Be Taken

– Possible Action

Again, I'm not clear on how there was clear statement that no action was being taken on isolation / quarantine, but there it is on the agenda with "possible action". Again, maybe I am not reading it correctly.

Thank you very much,

This is a difficult time for everyone in Washington State. Misinformation abounds, and with that, distrust amplifies. Public good seems to take a back seat to personal beliefs. With that in mind, there is an evermore powerful push against mandating Covid 19 vaccination for entry to our schools. I strongly urge you to initiate a mandate for all school age children to have the Covid 19 vaccination to attend Washington K-12 schools. This aligns with other required vaccines, to insure the safety and well being of all in the education community. Over the years the efficacy of polio, DPT, MMR, and Chicken pox vaccines has been established, and, in turn, saved many lives. I see no reason why the Covid 19 vaccine should be any different. Please, for all, I urge you to use your power to protect the community at large by mandating the Covid 19 for school children. thank you.

Subject: Mandatory vaccines for COVID

External Email

Hello!

I'm writing to you because I was absolutely shocked to find out that we are entertaining the idea of mandating a Covid vaccine in kindergarten to 12th grade. The act of medical choice being ripped away by having a vaccine mandated by a government body takes away the right of the people.

It is fine to add the Covid vaccine into the schedule of vaccines for kids but at no point should something like this; in the infancy stage be mandated. Especially for our younger students. I hope that the science is taken into consideration over the fear. With science highlighting that antibodies are not lifelong, nor are they year long. As well as our younger population is not as often the ones in the hospital. Those who are vulnerable, are tasked with The mitigation of viruses for themselves as they always have been. I'll plea that if this must go forth for Mandation that exemptions will not be taken away. Everything already is so scary, and any sense of normalcy for our young kids is already hanging in the balance, please don't make a mandation of a vaccine be the reason kids are homeschooled.

External Email

Attn: Christy

I attended the zoom meeting on Jan 12, 2022, in its entirety, and was hoping for the opportunity to share my comments on Items # 8 and # 11. However, I doubt it would have made any difference.

Listening to all those that did verbally share, or made comments in the Q&A box, it was loud and clear that the voice of the people were in unison on their utter discontent of the Board of Health's direction on the matters.

It was also quite clear, based on how quickly the BOH voted to dismiss the Informed Choice Washington's Petition for Rulemaking, that your minds were made up on the matter before you even began that meeting.

It would seem that over 7500 Washington Citizens wasted their time supporting and/or commenting that day. But we ARE not going to be silent or denied our voice. And the number of those involved will double, then triple, and your meetings will need to be held more often and for longer periods so that we all get our 1 minute.

None the less, I just want it to go on record that I SUPPORT the adoption of ICWA's Petition for Rulemaking on agenda item 11, which asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

I also OPPOSE the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I oppose COVID-19 shot mandates, period!

I'm praying for you all and fighting this battle on my knees.

See you in March at the next meeting!

Sincerely,
Anne Burbank

January 13,2022

To the WA Board of Health and Governor Inslee:

"Misinformation" responses of 30,000 people, indicates the people of WA are fed up with all the rules and mandates being put out to keep us "Safe". We DO NOT TRUST what you are going to DO what you SAY or conversely trust what you SAY is what you are going to DO.

"Misinformation" is the smoke screen you are using for the State and Federal government. We are not fooled and it is an assault on our integrity to release to the media we didn't get it.

Social media posts, uTube accounts, and news media stories are taken down.
We notice!

30,000 people! Yay!

Hope there are more next time. By the way when is your next meeting?

Signed,
WA Taxpayer for over 50 years!

Hello!

I was able to listen in on a portion of the webinar and my only comment is that listening to you entrenched bureaucrats is absolutely nauseating. Vax and boost, vax and boost, vax and boost. When are you going to snap out of the hypnotic fog that is obviously affecting your ability to see the world that is right in front of you? This injection is a failure. It does not work. It is a toxin that does far more harm than good. Two words for you all...wake up!

Thanks for your time.

Subject: Pause on Vaccines

External Email

Recently there was a public disclosure request to see the safety related documents the FDA reviewed to determine if the Pfizer vaccine was safe and effective enough for emergency use authorization. The FDA responded they could provide the information but only at a rate that would take 75+ years. A judge has ordered the FDA to produce the information in approximately 8 months. The judge stated, "this FOIA request is of paramount public importance".

For everyone's safety and for full transparency, I urge you to delay any action related to mandating Covid vaccines until this FOIA request has been completely fulfilled and the data has been thoroughly reviewed by the state BOH and independent experts throughout the world.

I attached a link to the article for your reference.

Thank you.

Ron Vessey

I just wish somebody could make any of this make sense. I wish higher up's would realize fauci is just another person, just like me and you, only has a different job. Their are so so many physicians, virologists, epidemiologist, ect., but they are all being silenced. Why are we not manufacturing rapid covid tests here? OUR government is making China rich the millions and millions of covid test that may or may not be reliable, and millions and millions of masks.. This county is selling its soul. Just so very sad and frusted. Pretty soon, God is going to be so mad at all of the evil and corruption and greed, America will fall. Follow the \$\$\$ these vaccines aren't working. I understand alot of this is not within your control but I also know, as the WSBOH, alot of it is. I am the chair person on a subcommittee for on of the largest nonprofits (NA) & what I've learned is when the same people serve on a comittee over and over, tunnel vision forms, peoples minds get set on one track & in one direction and it's so important to listen to other ideas and work for the betterment of ALL . Nobody is perfectly right or wrong bit I do know that there is way to much sensorship. Why is Dr. ROBERT Malone being silenced for God's sake? Hr is the invented of the mrna

The fact that you guys basically stack the court, and scandalously run this whole facade called the state board of health is just wrong and you know it.. all blood for ALL the children who will die and become ill/diseased from this jab (it is not a vaccine) will be in your hands, and ever parent following suit because they put their trust in their state authorities instead of God, their blood will be on your hands as well. Each of you who voted for this will carry the judgement for all these children. I hope you're ready for that burden because it is great and no man will be able to bear.

Subject: Stop the mandates and NO to adding covid19 vax to child immunizations and NO detention camps

External Email

Good morning,
I watched and listened to the meeting on Tuesday. I was not selected to comment, so I am making my comment now, and I agree with the comments that were allowed to be made on Tuesday. The Board has no authority to MANDATE!

1. The Covid 19 vaccines are still under EMERGENCY USE AUTHORIZATION and therefore cannot be mandated. All EUA vaccines are optional. The FDA approved vaccine is for Comirnaty and it is not developed or available in the United States. When the WA State Dept of Health or Board of Health state in their presentation that it is an approved vaccination, you are incorrect. It misleads the public and you are continuing to promote fear. When you stated that you were not adding the CV19 vax to the children's immunization schedule - you state YET. That is not comforting. It is not allowed - it is under EUA!

MANDATE is NOT a LAW - mandates are not about science, it is about authoritarianism and control!

2. As the supreme law of the land, the US Constitution supercedes ALL RCW's and WAC's.

3. 14th Amendment - No state shall make or enforce any law which shall abridge the privileges or immunities of citizens.

AN EMERGENCY does not give the federal or state government free rein to violate constitutional rights!!!

4. The CDC no longer recognizes the PCR tests as valid methods of diagnosing Covid 19 and withdrew the emergency use with the FDA as of December 31, 2020. These tests cannot distinguish between a virus, flu or cold, especially when the tests were run at high cycles over 17. The virus has NEVER been ISOLATED, so it cannot be detected separately from a cold or the flu!

5. CDC Director Walensky announced that 75% of patients who died, were with Covid and had at least 4 co-morbidities and that 25% of patients died because of Covid. That changes the numbers drastically of how many people actually died from Covid. Where did death from the flu go in 2020?

59,521,277 total cases

834,077 total deaths

58,687,200 survived

that's an overall death rate of 1.4%

that's an overall survival rate of 98.6%

623,855 total deaths ages 65+

210,222 deaths ages 0-64 was a death rate of .35% under the age of 65

SURVIVAL RATE - 99.65% - this is the most important number

We have a testing problem, not a death problem.

The statistics don't lie and this has been blown completely out of proportion

6. The viruses are all patented, therefore are all MANMADE and released onto the public. The CDC has funded gain of function through grants and think they are not responsible, but they are responsible for crimes against humanity.

AIDS US patent - 5676977

H1N1 US patent - 8835624

Ebola US patent - 20120251502

Swine US patent - CA2741523 A1

BSE US patent - 0070031450 A1

Zika US patent - ATTC VR-84

SARS US patent - 7897744 & 8506968

CORONAVIRUS - Covid 19 - US patent - 10130701

7. The Nuremburg Code is still in affect

Article 6: Section 3

Mandating masks on citizens and preventing access to food, healthcare, transport or education is a war crime. It must remain voluntary. You will be held responsible for crimes against humanity.

8. You are incorrect in stating there are no detention or concentration camps. There is one that was recently built in Nisqually.

DO YOUR OWN RESEARCH!!

Sincerely,
Pam Carter

To Whom it may concern,

We are writing this email as citizens of the state of Washington in opposition to using WAC 246-100-070, WAS 246-100-045, and WAC 246-100-040 to force an emergency order to involuntarily detain a person or group to be isolated in a quarantine facility following refusal to comply with above stated laws regarding Covid-19.

We are also in opposition to including the Covid-19 injections as part of the school immunization requirements using WAC 246-105. These vaccinations have not met the required testing time frame, and therefore long term effects are not known. It is also known that the percentage of children seriously affected by Covid-19 is very small.

Respectfully submitted,

Ken and Tracy White

January 15, 2021

Dear,

Tracy Schreiber

This letter is regarding the Washington State Health Department meeting on January 12, 2022 to make proposed changes to allow local health officers to use law enforcement (WAC-246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246 100 045) following refusal to voluntarily comply requests for medical examination, testing, treatment, counseling, vaccination (WAC246-100-040). These specifics come from WAC 246-100. This includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This ruling, which is not a law, but a ruling will force people to containment camps who are not vaccinated. Using the false assumption that the vaccines are only the solution to end the covid 19 and the variants is grossly negligent. There is overwhelming evidence and data showing there are many alternative therapeutics and treatment solutions for

Covid-19. Such as and not limited to, vitamin c, d and zinc, black seed cumin treated early has significant positive results. Ivermectin and Hydroxychloroquine were being used at the very start of the Covid -19 pandemic with great success and continue to be used. They have no long term side effects and have been used for decades and are very inexpensive to produce and readily available. We have witnessed these two drugs save two seniors from dying from the covid 19 virus and many individuals that have used these therapeutics and treatment solutions and were cured of Covid-19.

As an elected or public official, your first obligation is to no harm, known as common law 1st, do no harm its constitutional duty. We are all equal no one is above the law, no one lives above the law. You are causing harm. Rule of law which clearly states that the government as well as private actors are accountable under the law.

I have researched by listing and reading from many Medical and Senior Law experts, which they state no one knows the long-term effects of these Covid 19 vaccines.

What I have seen on the VAERS report dated back in Aug 8th, 2021, 571,830 total reports of adverse effects, only between 1-10% of adverse events are reported in VAERS by some estimations.

Deaths 12,791, Life-threatening 13,140, permanently disabled 16,044, Hospitalizations: 51,242 Anaphylaxis 5,282 bell's palsy 4,461, miscarriages 1,505 heart attacks: 5,590 severe allergies 24,3050.

According to WHO, World Health Organization, the Vigil Access was launched by the World Health Organization in 2015 to provide public access to information in VigiBase. This is the WHO global database of reported potential side effects of medicinal products.

I have listed a few and these are the total adverse reactions:

Mumps vaccine: 713 from years 1972-2021

Hepatitis B vaccine: 104,827 from years 1984-2021

Pneumococcal vaccine: 236,307 from years 1980-2021

Influenza vaccine: 272,438 from years 1968-2021

Covid 19: 2,513,185 from ONE YEAR 2020-2021

This is illegal unlawful and unmoral. You are causing harm.

Respectively,

Howard & Tracy Moreland

Subject: Comments from 1/12/22 Meeting

External Email

Dear Board Members,

After listening all day to the meeting, I have several concerns.

In particular, I have concerns about how members of the board were so grossly unaware and unprepared for the questions regarding the quarantine camps. I felt that knowing that this was going to be a topic of conversation during the meeting and having so many members unaware was absolutely embarrassing.

There is real reason for our concern as citizens regarding these camps, as some of these (one local to me) was just recently constructed locally during COVID as we watched the same situation in Australia unfold with their citizens being detained by authorities. These two situations are way too closely connected to be a coincidence.

Acting surprised and questioning the public's panic over this was not only insensitive, but seems suspicious ... hand in the cookie jar?!

I would like for actual data to be shared with the public about how these current camps are being used. In particular, how many people are using services, who they are (travelers, etc.), and exactly how many are homeless, because we all know that is how you all are touting these camps, but let's be clear ... we all know that NO homeless are using these camps.

I hope that after this meeting you are all aware that your every action and decision as a board is being very closely monitored by the citizens and the citizens are not going to be putting up with shady, closed door behaviors.

As for the TAG group's meeting last week, which I also attended, I have the following questions:

1. Why was the meeting not recorded?
2. Lots of statistics were shared, but absolutely NO references to the origin of the data was shared. Where can I find those sources of data?
3. How were these TAG members chosen?
4. Are the members' votes going to be their personal views or of representation of the public?
5. How does the public get in touch with the TAG members to share their opinions so the public all are fairly represented?

I would also like it to be noted that I completely disagree with any recommendation that would add the COVID-19 vaccine to the mandatory list of school required vaccines. There is no long term data available to show any health concerns or risks associated with these EUA injections. This is still NOT an approved vaccine as no one in WA state is eligible or able to attain the Comirnaty vaccine.

Thank you for your time,
Stephanie Johnston

Subject: Re. Covid concentration camps

External Email

Covid is here to stay and thankfully the most recent iteration is less damaging than the previous versions where even the most at-risk had a 96% chance of survival. A pandemic lasts eighteen months, this is going on two years. It is already ending. And nowhere in our Constitution does it give medical personnel the authority to put Americans in concentration camps for refusing an experimental vaccine which has already logged over a million adverse events.

I am strongly opposed to this power-grab, as is my entire family, my friends, my doctor and his nurse practitioner, the next five levels of my management team and the people who work at my local grocery store and my esthetician. I do not know a single person who supports this illegal mandate.

I hope this is taken under consideration and the attempt to push this ridiculous mandate is dropped. The Supreme Court just ruled that the White House vaccine mandate via OSHA is unconstitutional. This law would be even more unconstitutional and it does not have the support of the People of this country.

Sincerely,
Katherine Brodie

January 15, 2021

Dear,

Samantha Pskowski

This letter is regarding the Washington State Health Department meeting on January 12, 2022 to make proposed changes to allow local health officers to use law enforcement (WAC-246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246 100 045) following refusal to voluntarily comply requests for medical examination, testing, treatment, counseling, vaccination (WAC246-100-040). These specifics come from WAC 246-100. This includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This ruling, which is not a law, but a ruling will force people to containment camps who are not vaccinated. Using the false assumption that the vaccines are only the solution to end the covid 19 and the variants is grossly negligent. There is overwhelming evidence and data showing there are many alternative therapeutics and treatment solutions for Covid-19. Such as and not limited to, vitamin c, d and zinc, black seed cumin treated early has significant positive results. Ivermectin and Hydroxychloroquine were being used at the very start of the Covid -19 pandemic with great success and continue to be used. They have no long term side effects and have been used for decades and are very inexpensive to produce and readily available. We have witnessed these two drugs save two seniors from dying from the covid 19 virus and many individuals that have used these therapeutics and treatment solutions and were cured of Covid-19.

As an elected or public official, your first obligation is to no harm, known as common law 1st, do no harm its constitutional duty. We are all equal no one is above the law, no one lives above the law. You are causing harm. Rule of law which clearly states that the government as well as private actors are accountable under the law.

I have researched by listing and reading from many Medical and Senior Law experts, which they state no one knows the long-term effects of these Covid 19 vaccines.

What I have seen on the VAERS report dated back in Aug 8th, 2021, 571,830 total reports of adverse effects, only between 1-10% of adverse events are reported in VAERS by some estimations.

Deaths 12,791, Life-threatening 13,140, permanently disabled 16,044, Hospitalizations: 51,242 Anaphylaxis 5,282 bell's palsy 4,461, miscarriages 1,505 heart attacks: 5,590 severe allergies 24,3050.

According to WHO, World Health Organization, the Vigil Access was launched by the World Health Organization in 2015 to provide public access to information in VigiBase. This is the WHO global database of reported potential side effects of medicinal products.

I have listed a few and these are the total adverse reactions:

Mumps vaccine: 713 from years 1972-2021

Hepatitis B vaccine: 104,827 from years 1984-2021

Pneumococcal vaccine: 236,307 from years 1980-2021

Influenza vaccine: 272,438 from years 1968-2021

Covid 19: 2,513,185 from ONE YEAR 2020-2021

This is illegal unlawful and unmoral. You are causing harm.

Respectively,

Howard & Tracy Moreland

Good morning,

I attended the virtual public meeting yesterday or at least what I could see of it. I want to express my concerns of these continued lockdowns and mandates. None of these lockdown or mandates have worked, otherwise we wouldn't be seeing a spike in cases.

The number one cause of deaths due to Covid is obesity. 78% of the Covid deaths in this country are people who were classified as obese. Why is the County Health Board not promoted a healthier lifestyle? Promoting staying away from sugar and getting more exercise?

If lockdown and mandates worked, why are we still looking at lockdowns and mandates? If lockdowns and mandates don't work, then why are we still looking at lockdowns and mandates?

Thank you,

Regarding Covid Camps, unlawful detainment, and forced inoculations of an experimental medication all against Nuremberg Code. I know more people who have been injured and killed by the shot than the illness. The numbers on the CDC site show deaths with covid not from covid. That's very misleading and dishonest.

Dear Sir/Madam,

Please forward this email for the attention of Keith Grellner, Chair:

Can you please clarify your statement at 04:31:00 of the public meeting (recording 1) of January 12th 2022, as follows:

"Dr. Lutz, this one's for you. Section 040 says that if a health officer issues an order for isolation or quarantine, that in order to take someone against their will, it actually HAS to go in front of a superior court judge via a hearing before, em, so that both the person who's positive or needs to quarantine, and the health officer both get to plead their cases to a judge, and only a superior court judge can order someone into quarantine against their will or isolation. Is that correct?" (emphasis added)

My request for clarification is due to the apparent incongruence between your above public statement and Section 246-100-040 wherein it is stated:

"(1) At his or her sole discretion, a local health officer may issue an emergency detention order causing a person or group of persons to be immediately detained for purposes of isolation or quarantine in accordance with subsection (3) of this section."

And subsection (3) states:

"(3) If a local health officer orders the immediate involuntary detention of a person or group of persons for purposes of isolation or quarantine:

a. The emergency detention order shall be for a period not to exceed ten days."
(emphasis added)

Whilst subsection (4) of Section 246-100-040 does provide for a hearing prior to detention, the ten day emergency detention order in subsection (1) does not require a hearing. So Section 040 (in part) authorizes immediate detention on the order of a local health officer and therefore in order to take someone against their will, it actually DOES NOT have to go in front of a superior court judge via a hearing.

Sincerely,

Denis Mulcahy.

My childhood mentor just died in reaction to the vaccine.

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State.

1. No COVID vaccine available in the United States has received FDA approval. All available vaccines, including the Pfizer-BioNTech vaccine, are being administered under an Emergency Use Authorization. The only "approved" COVID 19 vaccine is Comirnaty, and it is not available in the United States and there is no anticipated date for its

availability. (This “smoke and mirrors” approach by the FDA is the subject of numerous lawsuits and a Federal Judge recently rejected Pfizer’s claim that the 2 products are interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are ‘Interchangeable’ • Children's Health Defense (childrenshealthdefense.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>>) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there’s no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, “We are never going to learn about how safe this vaccine is until we start giving it” Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer’s studies: Ten red flags in the FDA’s risk-benefit analysis of Pfizer’s EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&da>>)

Force vaccinating healthy children for a disease that doesn’t affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school

Conclusion: Currently available covid vaccinations do not have the durability, nor sufficient efficacy at reducing transmission in the K-12 age groups to warrant mandating them for enrollment in public schools. Omicron transmissibility is high, regardless of vaccination status.

datadashboard.health.gov.il

For data a little closer to home, please look at the King County Covid Dashboard, sub-section "Covid 19 trends among King County youth", and click the "vaccination" tab. On 1/13/22, by hovering over the "Cases" box I see that 33% of cases in the past 30-days in the 12-17 year age group were among the unvaccinated, while 67% of were among the fully vaccinated. The dashboard says 74-76% of 12-17 year olds are fully vaccinated, so while their share of cases shows a transmission rate that is about 8% lower than their share of cases (a 1-1 proportion), that is hardly a transmission reduction to warrant universal K-12 vaccination. I see King County has frozen this part of their dashboard and will resume reporting on January 17th. This diminished efficacy at reducing transmission will likely no longer be quite so visible at that time, given increased uptake of booster shots among this age cohort. Yet we only need to look back at the Israeli data to see the lacking durability of that booster shot. What other required K-12 vaccine requires bi-annual boosting? So far as protection for the children themselves, the data from King County reiterates the miniscule risk to kids--regardless of vaccination status. Hovering over the youth hospitalization box reveals that 0.058 per 100,000 in the 12-17 age group have been hospitalized in the past 30-days, compared to 0.152 per 100,000 unvaccinated kids. Both of these rates are low. The hospitalization rate for the unvaccinated is low enough that parents should be the ones to make this decision for their kids, based upon the extent of their childrens' personal risk-factors.

<https://kingcounty.gov/depts/health/covid-19/data/youth.aspx>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fkingcounty.gov%2Fdepts%2Fhealth%2Fdata%2Fyouth.aspx&data=04%7C01%7Cwsboh%40sbh.wa.gov%7C5187f44f18994160879508d9c>

In summation, the playing field today is entirely different than when you began to consider required covid vaccination for schools. There is now no justification to require a vaccine that is exhibiting such poor durability and minimal efficacy at preventing transmission in the covid of 2022. If there was not a single unvaccinated student in our schools right now, omicron would still be running rampant through the student population. In light of this fact, it is a waste of both time and resources to even continue the discussion on mandatory K-12 vaccinations.

I appreciate your time and thoughtful consideration of these data.

Thank you,

Kristy Goin

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Clearly the vaccine isn't working to keep this virus at bay, and those that are vaccinated are still getting sick and spreading the virus. So why at this point would mandating this for our students be necessary or make any logical sense?

I can appreciate the fact that the world's attention is currently hyper-focused on Covid 19. Health and Public Safety organizations feel the need to show some sort of response, warranted or not. Please keep in mind the flawed logic of the vaccines and our children's well-being and health when making these policy decisions.

Thank you,

Stacey Simon

WSBOH:

Thank you for the informative zoom meeting yesterday. Fortunately for me, I was able to zoom the entire meeting, hear the discussion, and the public commentary. That there was confusion is an understatement and I expect the blame for that rests at the feet of the board who compiled the agenda.

Like many, I must say your agenda items presented very confusing information by not indicating on the agenda that HIV / Aids was the "change" being discussed for "destigmatizing HIV / Aids patients". It seemed odd to me that considering the "pandemic" of COVID, the communicable disease on the minds of all today, that this HIV would be the focus for changing the rules to "destigmatize" when those citizens in WA who have acquired immunity from recovered COVID are completely stigmatized. The timing was suspicious, at best. It, therefore, appeared to me to be a "last minute" cover-up for our most pressing communicable disease today. I certainly hope you can understand the view of the public. I listened to the entire meeting and I felt it was a bit of a cover.

Very disappointed in the TAG for not honoring the petition of the people of Wa state to assure no EUA or trial drugs would be mandated to children for school entry. That left me speechless along with the concerns about "other communicable diseases" not being specifically addressed EXCEPT for HIV. So it remains a question, does COVID fall under the "other" communicable diseases that might be the basis for "quarantine" or internment at the behest of a public health official? Particularly concerning, in this time of Gov. declared state emergency is WAC246-100-040 under procedures for quarantine, #7. And you wonder why so many folks are alarmed? It is most unfair for your department to label as "misinformation" the very WAC your board was referencing in the 12th meeting. What is misinformation, in my opinion is the agenda wording and failure to specifically identify HIV as the "communicable disease" being discussed. That was very misleading, ill-timed and concerning to the public and attempting to shame the public for their concern is inappropriate and biased.

Will there be answers to questions submitted by the public concerning the 12th meeting? If so, what is the timeline?

Thank you,

A concerned Washington state citizen

Dear Board Members,

I attended yesterday's board meeting per zoom and I would like to provide feedback to each of you:

1. I was disappointed that you did not accept the petition that would have disallowed the use of any product that had not completed Phase 3 clinical trials and achieved full FDA approval. I thought this was a very important petition and that the excuse given not to pass it to avoid inhibiting future boards was quite weak.
2. I was also disappointed when Dr. Shah stated that the best toolkit for fighting Omicron consisted of vaccines, boosters, and masks. Sadly, there is no evidence to support this view. Furthermore, a better toolkit would clearly consist of early treatment modalities which were not mentioned at all.
3. I am alarmed that the board is still considering mandating vaccines for school aged children, claiming there was not enough evidence to make a decision. I strongly disagree. There is clear evidence that the risk of death and hospitalization of healthy children from any COVID infection is essentially zero. Therefore, there is no benefit from the experimental vaccine, only risk. If vaccines are mandated for school aged children, many children will undoubtedly be needlessly harmed. I urge you in the strongest possible way not to harm our children by mandating unnecessary vaccines for them.

Sincerely,

Sharon Michael, M.D.

There was so much misinformation and lying at the meeting yesterday, that I could only stomach an hour and twenty five minutes of it. Tell the citizens the truth! Fauci and your experts are all taking money for lying . All I can say is you and the weasel Fauci are accountable to God for misinformation and poisoning people with your RNA experiment. You will be accountable before God for tampering with innocent children and the elderly with your evil agenda. My own brother who grew up in this brainwashed state, had the vax as did my other brother. Both of them had reactions to the vax. My eldest brother had to have two serious eye procedures and his vision still isn't right. Your board of education and your board of health and this Godless King county will all have a reckoning on Judgment Day as will your hospitals and experts who are distributing dangerous remvesidere that kills people. God sees all of it. You may have forgotten God but he is real and all of the local media and national as well as your apartheidist agenda of depopulation will soon learn it. He is coming back. Soon. Get your act together. Sally Ramsden

Subject: Pharmaceuticals ALL Have Risk

External Email

Dear Board Members,

I write with a simple statement: All pharmaceuticals are known to have side effects for SOME. This is a true and unarguable statement. Vaccines are pharmaceuticals like any other medication. They CAN have side effects, and when known risk is present, it is not okay to force the hand others to take that risk for themselves or their children. The choice to vaccinate children is a choice for parents, not for anyone else.

Thank you for your time,

Anna Van Wickle

External Email

Hello,

I would like to put forth my feelings on yesterday's meeting. Only so many people got to speak, but I would like to have my thoughts on record. I am a mother of two, both are not getting the covid shot. My oldest is vaccine injured and my youngest is exempt from all childhood vaccines required for school attendance. Since the covid shot isn't preventing the spread of the virus as advertised, I don't think it's a wise decision to make it mandated for children. Nor is there enough long term evidence of possible side effects or complications. Many doctors have stated children are the least likely to encounter problems from catching covid and if they do have symptoms that aren't mild, they are akin to the flu. Despite the new variant of covid being more contagious, it's also proving to be less severe as well. Only 15% of those in the hospital are there due to covid. I hope you all take what everyone has to share into consideration.
Thank you

Best regards,
Brandy

Subject: Lack of credibility

External Email

I was disappointed by the anti-freedom propaganda yesterday morning. You talked a lot about "misinformation" but I could see the misinformation coming from the board. You announced there were errors being stirred up on social media and that the meeting didn't have anything to do with quarantine facilities. That may be true; but I stuck around and discovered a good portion of the meeting was about the areas of concern we thought it was. It was about the usurpation of the rights of those who don't take the vaccine. 2 important thoughts in response:

1. I am normally accustomed to getting vaccines, but have had to refuse the new COVID19 vaccines until 12 questions I have been considering can be adequately answered. I have been waiting a long time now. Since these questions have not been satisfied I cannot accept any mandates especially on children against their parent's will. I now believe there are no answers to my questions because the vaccine is risky and could have serious side-effects. In fact, those pushing the vaccine have had to change their story and promises multiple times. This has clearly caused them to lose credibility. Any government or employer forcing or requiring an injection that has so many unanswered questions is contemptible. Similarly, any government or employer forcing or requiring an injection where the narrative has changed so many times is contemptible.

2. You all insisted the concept of quarantine facilities without due process was a ridiculous fabrication but WAC (246-100-040) shows: "At his or her sole discretion, a local health officer may issue an emergency detention -order causing a person or group of persons to be immediately -detained for purposes of isolation or quarantine..." The WAC lists many other alarming codes that seem to neglect human rights and civil liberties. It gives health officials and law enforcement power over anyone they suspect should comply with their medical treatment or quarantine. Regardless if these have been around since 2003, we all must express our concern at such a threat to our freedoms.

Yesterday's meeting seemed to reveal a lack of credibility in the Department of Health. I was pleased you allowed some from the public to speak. Everyone of them seemed to express my concerns (though some not too eloquently). I don't feel you wanted to hear their concerns but dismissed it as a misunderstanding worked up on social media. Just because you weren't planning to talk about isolation and quarantine doesn't mean our concerns shouldn't be acted upon. I hope one thing is clear: No COVID19 vaccine or mask mandates. The more you push them, the more I distrust you. Please stop treating citizens as property of the state, but instead serve individual rights and liberties. When is the next meeting?

Thank you!

Thank you for allowing me to be a part of your meeting. I did not speak but heard the many citizens who have concerns and for the most part I agreed with their sentiments.

The sound quality was terrible so hopefully that can be corrected going forward. Nathan had a very nice disposition when interacting with people to speak. I thought the process could have been a bit faster by determining who was available prior to unlocking their mike.

I am somewhat distrustful of the Board objectively looking at the data surrounding vaccines for children. I am vaccinated and also have stage 4 breast cancer. I was pretty sure that I had Covid in January 2020. I had a bad reaction to the 2nd dose of Moderna and I felt at the time that i would not tolerate another vaccine dose. When you have cancer you realize that individuals react so very differently to medicines.

I am very disappointed that the WBOH has not pushed therapeutics as we do with any other disease. The data that came out of Uttar Pradesh and more recently Japan was significant yet ignored. It is the vaccine or nothing. The monoclonal antibodies appear to work but I didn't want to embarrass you by asking if I would be eligible for this as I'm white.

Once again I would plead with you that my grandchildren are not subjected to mandatory Covid vaccines as we don't know the long term affect and we also know it's ineffective against Omicron. Please put politics aside and think of the children. I don't care if your board members grandchildren are vaccinated as he won't know the true outcome on their health for years.

Regards
Christine Brew

Dear Board of Health,

I attended the meeting and was very disappointed that the professionals just had data from early in the pandemic and not changes with the Omicron variant.

Our house had it, my husband is a kidney transplant patient and only had the dose of J and J, he did fine, he was barely sick. I have many unvaccinated relative that have had Omicron and they also have done fine.

It's time to pivot how we deal with an infection that changes so rapidly the data is no longer relevant from even 6 months ago? The vaccines so heavily pushed, are for a variant no longer in existence, we don't give flu shots from 2 years ago. There has never been a successful coronavirus vaccine and this covid vaccine while helpful at first is not the answer to public health. There are reports of antibody enhanced immunity, which means increased rates of more severe infection following vaccination and yet the scientists sounding this alarm have all been shut down by the CDC and media? It's completely absurd, how we are ignoring the research community?

Our mainstream doctors are incredibly uneducated about these rapid changes, and vaccinating during a pandemic and what that does over time genetically. Public health must listen to them before vaccinating children. The side effects outweigh any benefit from vaccination, it's criminal to continue this campaign and yet the lady who spoke seemed completely unaware of anything except pushing for more equity?

The unvaccinated rates are highest in minority communities not because they don't have access, but because they choose NOT to get vaccinated! They are educated about vaccination and they don't want it with this vaccine and this disease!

Please listen to what the community is telling you! Many don't have a medical degree, but they've read enough to understand there are too many unknowns and quickly changing dynamics. People deserve to be heard and not dismissed!

Melanie,

During the BOH meeting today, the TAG said they would be discussing EUA and fully FDA approved vaccines for Covid-19.

There is currently only one Fully Approved FDA vaccine for Covid=19, that being COMIRNATY. Comirnaty is not being manufactured, so my question is, how can the TAG group discuss any vaccine if there are no Fully Approved vaccines available to take? I have attached the same documentation I sent to the BOH for todays meeting.

Thank you,

David Hall

Please see the attached PDF of my comments for the above upcoming meeting on January 12th 2022.

Thank you,

David Hall

To whom this concerns,

The upcoming January 12th 2022 board meeting will discuss the rule-making Petition to alter WAC 246-105-030 to include a Covid-19 Vaccine. I would like to add the following points/discussion:

- 1) The Vaccine being discussed for inclusion MUST be a FULLY FDA approved Vaccine. (See reference 1), as was mentioned in the previous board meeting.
- 2) The only FDA approved vaccine for Covid-19 is Comirnaty. Comirnaty was granted full approval by the FDA on August 23, 2021.
- 3) Per the CDC and FDA, Comirnaty is a **legally distinct** vaccine from the Pfizer-BioNTech COVID-19 vaccine. The Pfizer-BioNTech COVID-19 vaccine is currently authorized for emergency use under the EUA. The two **are not legally interchangeable**. (See references 2 and 3).
- 4) I have personally called a Walgreens in Centralia, Olympia, Spokane, and New York, and they told me they did not offer Comirnaty, nor could they tell me where I could get it.
- 5) The WSBOH cannot legally make a recommendation for the EUA authorized Covid-19 vaccine for inclusion to WAC 246-105-030. WSBOH can legally make a recommendation for Comirnaty, however Comirnaty is not available in WA state to my knowledge. Approval of Comirnaty amounts to a ruse on the public if it is not manufactured and available. The burden of compliance to obtain an unavailable product is beyond reasonable.

If the WSBOH makes a recommendation to approve a COVID-19 Vaccine, parents will inevitably have to obtain the Pfizer-BioNTech COVID-19 vaccine to allow their children to attend school and daycare. The Pfizer-BioNTech COVID-19 vaccine is an experimental product that lacks sufficient long term data to support its safety in children.

I implore you to allow parents to make the choice whether to immunize their children with an experimental medical procedure, with a product that has not been thoroughly tested. Once a person is immunized, you cannot go back and reverse the decision. It is final.

center only by providing the required COE form.

(10) "Full immunization" or "fully immunized" means an immunization status where a child has proof of acquired immunity or has been vaccinated with immunizing agents against each of the vaccine-preventable diseases listed in WAC **246-105-030** according to the national immunization guidelines described in WAC **246-105-040**.

(11) "Health care practitioner" means a physician licensed under chapter **18.71** or **18.57** RCW, a naturopath licensed under chapter **18.36A** RCW, a physician assistant licensed under chapter **18.71A** or **18.57A** RCW, or an advanced registered nurse practitioner licensed under chapter **18.79** RCW.

(12) "Health care provider" means a person licensed, certified or registered in a profession listed in RCW **18.130.040**(2), if administering vaccinations is within the profession's scope of practice.

(13) "Immunizing agent" means any vaccine or other immunologic drug licensed and approved by the United States Food and Drug Administration (FDA), or meeting World Health Organization (WHO) requirements, for immunization of persons against vaccine-preventable diseases.

(14) "Local health officer" means the individual appointed under chapter **70.05** RCW as the health officer for the local health department, or appointed under chapter **70.08** RCW as the director of public health of a combined city-county or combined county health district.

(15) "Medically verified immunization record" means a valid record that is:

(a) An electronic or written medical health record from a health care provider or facility at which the provider practices; or

(b) A document from a secure, web-based application that records and tracks immunization dates such as an immunization registry.

(16) "National immunization guidelines" means guidelines that are:

(a) Approved by the Advisory Committee on Immunization Practices (ACIP); and

(b) Published in the *Morbidity and Mortality Weekly Report (MMWR)*; and

(c) Consistent with the terms and conditions set forth in WAC **246-105-040**.

(17) "Out of compliance" means a type of immunization status where a child:

Comirnaty and Pfizer-BioNTech COVID-19 Vaccine

[f Share](#) [t Tweet](#) [in LinkedIn](#) [✉ Email](#) [🖨 Print](#)

January 3, 2022: FDA expands eligibility for the Pfizer-BioNTech COVID-19 Vaccine to include the use of a single booster dose in individuals 12 and older at least 5 months after primary vaccination with Pfizer-BioNTech COVID-19 Vaccine. Read the [press release](#) or view [booster eligibility](#).

On August 23, 2021, FDA announced the first approval of a COVID-19 vaccine. The vaccine has been known as the Pfizer-BioNTech COVID-19 Vaccine, and will now be marketed as Comirnaty, for the prevention of COVID-19 in individuals 16 years of age and older.

Pfizer-BioNTech COVID-19 Vaccine is authorized for emergency use and is available under the EUA as a two-

dose primary series for individuals 5 years of age and older, as a third primary series dose for individuals 5 years of age and older who have been determined to have certain kinds of immunocompromise, and as a single booster dose for individuals 12 years of age and older at least five months after completing a primary series of the vaccine.

The Pfizer-BioNTech COVID-19 Vaccine is also authorized for use as a heterologous (or “mix and match”) single booster dose for individuals 18 years of age and older following completion of primary vaccination with a different available COVID-19 vaccine. For example, Moderna and Janssen COVID-19 vaccine recipients 18 years of age and older may receive a single booster dose of the Pfizer-BioNTech COVID-19 Vaccine.

On November 17, 2021, CDC, in consultation with FDA, issued emergency use instructions to provide information about the use of the vaccine as an additional primary series dose or as a booster dose in certain individuals who completed vaccination with certain non-FDA-authorized or -approved COVID-19 vaccines.

**VACCINE INFORMATION FACT SHEET FOR RECIPIENTS AND CAREGIVERS
ABOUT THE PFIZER-BIONTECH COVID-19 VACCINE TO PREVENT
CORONAVIRUS DISEASE 2019 (COVID-19) FOR USE IN INDIVIDUALS
5 THROUGH 11 YEARS OF AGE**

FOR 5 THROUGH 11 YEARS OF AGE

Your child is being offered the Pfizer-BioNTech COVID-19 Vaccine to prevent Coronavirus Disease 2019 (COVID-19) caused by SARS-CoV-2.

This Vaccine Information Fact Sheet for Recipients and Caregivers comprises the Fact Sheet for the authorized Pfizer-BioNTech COVID-19 Vaccine for use in individuals 5 through 11 years of age.¹

The Pfizer-BioNTech COVID-19 Vaccine has received EUA from FDA to provide a two-dose primary series to individuals 5 through 11 years of age.

The Pfizer-BioNTech COVID-19 Vaccine has also received EUA from FDA to provide a third primary series dose to individuals 5 through 11 years of age who have been determined to have certain kinds of immunocompromise.

**VACCINE INFORMATION FACT SHEET FOR RECIPIENTS AND CAREGIVERS
ABOUT COMIRNATY (COVID-19 VACCINE, mRNA)
AND THE PFIZER-BIONTECH COVID-19 VACCINE TO PREVENT CORONAVIRUS
DISEASE 2019 (COVID-19) FOR USE IN INDIVIDUALS 12 YEARS OF AGE AND
OLDER**

FOR 12 YEARS OF AGE AND OLDER

You are being offered either COMIRNATY (COVID-19 Vaccine, mRNA) or the Pfizer-BioNTech COVID-19 Vaccine to prevent Coronavirus Disease 2019 (COVID-19) caused by SARS-CoV-2.

This Vaccine Information Fact Sheet for Recipients and Caregivers comprises the Fact Sheet for the authorized Pfizer-BioNTech COVID-19 Vaccine and also includes information about the FDA-licensed vaccine, COMIRNATY (COVID-19 Vaccine, mRNA) for use in individuals 12 years of age and older.

The FDA-approved COMIRNATY (COVID-19 Vaccine, mRNA) and the Pfizer-BioNTech COVID-19 Vaccine authorized for Emergency Use Authorization (EUA) for individuals 12 years of age and older, when prepared according to their respective instructions for use, can be used interchangeably.¹

COMIRNATY (COVID-19 Vaccine, mRNA) is an FDA-approved COVID-19 vaccine made by Pfizer for BioNTech. It is approved as a 2-dose series for prevention of COVID-19 in individuals 16 years of age and older. It is also authorized under EUA to provide:

- a 2-dose primary series to individuals 12 through 15 years of age;
- a third primary series dose to individuals 12 years of age and older who have been determined to have certain kinds of immunocompromise;
- a single booster dose to individuals 12 years of age and older who have completed a primary series with Pfizer-BioNTech COVID-19 Vaccine or COMIRNATY (COVID-19 Vaccine, mRNA); and
- a single booster dose to individuals 18 years of age and older who have completed primary vaccination with a different authorized COVID-19 vaccine. The booster schedule is based on the labeling information of the vaccine used for the primary series.

To Whom it may concern,
We are writing this email as citizens of the state of Washington in opposition to using WAC 246-100-070, WAS 246-100-045, and WAC 246-100-040 to force an emergency order to involuntarily detain a person or group to be isolated in a quarantine facility following refusal to comply with above stated laws regarding Covid-19.

We are also in opposition to including the Covid-19 injections as part of the school immunization requirements using WAC 246-105. These vaccinations have not met the required testing time frame, and therefore long term effects are not known. It is also known that the percentage of children seriously affected by Covid-19 is very small.

Respectfully submitted,
Ken and Tracy White

Dear Director Davis, Washington State Board of Health Members, et.al.

I urge you to consider the real science and full spectrum of medical data when considering requiring a COVID vaccine for day care and school attendance. Randomized controlled trials are the gold standard in medical research because there is a control group.

Pfizer conducted a randomized control trial of 44,000 patients divided into two groups. One group gets the vaccine, one group gets a placebo. More people died in the Pfizer vaccine group than in the placebo group. The difference wasn't statistically significant but scientifically one cannot claim these vaccines reduce death.

A matter of fact was a double blind study that was done with only 4,000 adolescents, aged 12-15. A study this small will not show up risk. Of the inoculated group of 1,005, zero tested positive for C-19, while the placebo group of 978 had 18 who tested positive for C-19. The Pfizer group claimed great results. However, since adolescents are a statistically 0% risk of death from Covid-19, and a very low risk of severe illness, the inoculation is of little benefit to them. Instead, it presents a very real risk of adverse events.

The Pfizer study wasn't actually designed to find those. A serious Adverse Event, including death, that occurred at a 1/800 rate might not even show up in a sample of 1,005 people. But, in this case, it did. Among the 1,005 adolescents, there WAS at least one serious adverse event - the death of Maddie de Garay.

The Pfizer and Moderna vaccines use non-FDA-approved mRNA gene therapy, according

to their filings with the US Securities and Exchange Commission. Clinical trials for the drugs conclude in 2023. The only FDA-approved version of the vaccine is Comirnaty, which is not currently available, and is different than the emergency use authorized Pfizer-BioNTech vaccine. 21 US Code 360BBB protects one's right to refuse any emergency use authorized medical products, therefore it is illegal to mandate an EUA vaccine.

The VAERS database is the database for vaccine injuries. A Harvard report in 2010 shows that fewer than 1% of vaccine adverse events are reported to VAERS. The CDC validates all entries and false allegations are prosecuted. Pre-COVID, VAERS shows about 158 deaths due to vaccines per year. In January 2021, over 17,000 deaths and over 70,000 hospitalizations from the Covid Vaccines were reported. This quantity of lethal reactions have historically shut down other vaccine programs.

Further, the CDC says that the Covid hospitalization risk for children is about the same risk of the flu.

Tens of thousands of doctors around the world, including the creator of the mRNA technology Dr. Robert Malone, warn of the extreme dangers of this experimental Covid drug. It is not safe, responsible, or legal to require this experimental drug for children.

Thank you for your time.

Please include me in the Immunization Interested Parties Distribution List. I want to be informed about upcoming events and meetings and decisions.

I wish to add a comment to future decision-making regarding immunizations or government enforcement of anything connected with this subject, such as quarantine camps.

CHILDREN SHALL NOT BE SUBJECT TO FORCED VACCINATION or forced to wear masks that restrict breathing.

NO ONE SHOULD BE FORCED TO INJECT ANYTHING INTO THEIR BODIES AGAINST THEIR WILL!. WE CLAIM THE GOD-GIVEN RIGHT TO BODILY AUTONOMY FOR OURSELVES AND OUR CHILDREN!

ALL HEALTH AGENCIES AND INSTITUTIONS SHALL CEASE INTERFERING WITH PARENTAL RIGHTS and PHYSICIANS TREATING INDIVIDUAL PATIENTS.

We believe that violating any of these principles is unnecessary and directly risks death to our citizens. We hereby recommend the leaders of states, provinces, and nations legislate or take executive action to prohibit the practices described above.

Respectfully,

To whom this concerns,

We have seen the enemy and it is the corrupted, bribed, coerced and complicit federal, state and city governments who have deliberately engaged in this planned-demic to create the greatest crime against humanity to date. You have destroyed our economy, social structure, abused our children who are essentially immune from this 99.9% survival rate flu. And then assaulting the population with a toxic life threatening inoculation which has permanently injured millions and outright killed hundreds of thousands, far exceeding any legitimate deaths from this flu, which has been gone for over a year now. The medical and scientific fraud is staggering, the cognizant dissonance and malice of Inslee's office and his very questionable relationship with the genocidal maniac and international despot Bill Gates is inexcusable. All the while using a fraudulent testing procedure(97% false positive and which tap water gives a positive result) to further cripple the population is beyond reprehensible. Any further ridiculous and draconian behavior from this body will not be tolerated. This fascist agenda Inslee is engaged in is an act of terrorism and treason and along with all your names , address and email, his information and crimes will be handed over to the Nuremberg court currently in session. I pray you do the right thing and rescind any further crimes against the people by supporting this fraud but i know you, like the despotic school board, are bribed and incentivized with billions of our tax dollars by this illegit Biden admin to assault the people and our children. You will be held responsible for your complicity and your complacency. Like DC, MSM, CDC, AMA, WHO, NHS, etc., this governing body has become the enemy thru your treasonous crimes against our republic and our constitution. There has never been a pandemic, no excess death and which effected less than one half of one percent of the population and for this you threaten concentration camps and police intrusion into our homes and businesses. Have you no morality or

conscience?

This adventure has pointed out the incompetence and fraud which is the medical industry and how our despotic politician's prey on the people. Those who have awakened will never sleep again. I, for one, will never comply with this criminal enterprise, or my children and grand children. We have seen the enemy.

Sincerely,
Stephen Joseph Strickland

2.

Please enter your comments or questions in the space provided below:

My comments are in regards to WA state board of health requiring the Covid-19 vaccine for children to participate in school. The requirement of a vaccine that is still in the process of experiment is a violation of Nuremberg Code of ethics. I'd also like to know what percentage of children are at risk from death of Covid-19 virus and how the risk/reward of the vaccine analysis has been thought through.

As a resident of Washington State I oppose these proposed policies!

Involuntary detainment, examination, testing, treatment, counseling and vaccination has already been determined to be illegal.

Just because additional language has been added to the WAC Codes does not mean that that language has been challenged in the courts and confirmed to be contrary to Washington State Constitution, United States Constitution and various international

laws and treaties which is obviously the case!

These proposed policies MUST NOT be adopted and enacted!

Each and everyone of you bear the responsibility to protect these constitutions as well as the rights of the people of Washington State!

Thank you,

Don't vaccine mandates and its rules ! CDC data explained the ANSWER !

From January 6 , Japan DROPS all vaccine mandates, places MYOCARDITIS warning on label.

PEOPLE should be able to CHOOSE how they want to govern their own health !

PEOPLE freedom to DECIDE whether they want to be vaccinated or not !

Hello!

I am voicing my total opposition to mandating of the Covid vaccine for children of any age as well as adults. Please allow us to make medical decisions for our families.

Also, complete opposition for all the changes ton WAC that have to do with Covid. Tracing people, quarantining people by force or any kind of mandate of the vaccine.

Thanks for your time,

It is my understanding that "treatments" -- and all others that do not meet the definition -- by definition are not vaccines -- and thus have no grounds for forced use.

Sincerely, very sincerely,

Subject: Covid 19 WAC Amendments

External Email

Hello Washington State Board of Health Members-

I am writing today to express my concern and disdain for the proposed policies in Washington State regarding Covid 19 WAC changes on the agenda.

These measures are not the American way. The Covid 19 pandemic is changing, like viruses do, and becoming less deadly all the time. There are many reasons that the constituents of this state do not need to be forced into isolation or mandatory vaccine requirements. The state has been fear mongering residents to the point of abuse, yet the reasons for so much needed control are unraveling day by day.

Vaccines are not stopping the spread. Everyone knows this, yet you are considering forcing further regulations. This makes no sense.

I implore you to stop. Stop taking one further personal action that is part of the breakdown of our great state.

Stand up for what is right and reasonable. Stand up for a future with personal choice and common sense.

Sincerely, Erin Queen

Beaver, Clallam County

I urge you to reject the imposition of a Covid vaccine requirement for children in Washington State. Children have a nearly 100% recovery rate from Covid 19, they have not been shown to be spreaders of the virus, and should never be required to receive an experimental EUA drug to cause severe side effects and death.

Thank you for your time,
Mary Harris

Subject: Mandatory Vaccinations

External Email

Dear Samantha,

Thank you for serving in the position of board member for the state health board. I know it's not easy to make decisions for other people's health, especially in this day and age. I also know that there is not enough research to verify the efficacy of the "vaccinations". Even the CDC says that the vaccines cannot prevent Covid-19. Interestingly enough it seems the cases began to increase as more and more people began to obtain the vaccination.

Please do not encourage and enforce the mandate to vaccinate the population of the great state of Washington.

A registered voter in the county of Pierce.

We hope you will support NO mandates on vaccines for children .

I am an educator and have worked in the classroom with children for over 30 years. The Covid regulations have taken an unnecessary toll on students and their parents. To mandate vaccines on children is another step to removal of a parents right and responsible to care for their child.

It is NOT the governments role to usurp the parent's right to choose.

Please Vote NO and encourage others to do so!

Thank you,
Carole & Tom Bell

To The Board Members of the WA state Department of Health,

I am writing to you tonight out of complete desperation... I strongly and adamantly OPPOSE this proposed WAC 246-105! I am shocked and appalled that this state is seriously about to vote to impose a vaccine mandate on our children for the Covid 19 shot. A vaccine that has not withstood the test of time, that's been pushed on to people, taking away their choices. A vaccine that is shown to be more like a treatment than any sort of actual Prevention. No one can tell me what the effects may be on my child in 5 years or 10 Years. The lack of transparency has been extremely troubling and I don't trust, nor think it is absolutely necessary for myself or my child. The children are not at risk of death or serious illness from this virus. The deaths in US during this 2 years of Covid is under 1,000 according to the CDC. Why are we doing this!?? It's not worth the risk to our children. I ask you to please not back parents into a corner. We love our children and deserve to have choices and the ability to advocate for them since they are unable to do so for themselves.
Thank you for your time.

I am a very concerned citizen writing you to urge you to refuse to push through the new proposed policies that include mandatory covid vaccinations, and that also permit health officers to use law enforcement power in forcing isolation, quarantine, and detainment of individuals and families. This is completely unconscionable, and Washington citizens have had enough. Not only do children have a 99.995% covid survival rate, but these vaccines are STILL in the early stages of development and testing, and any long-term side effects are still completely unknown. Weighing this risk MUST be one each individual freely does for themselves, and is not forced into, particularly for parents deciding what is best for their own child. Each person has the right to choose - and refuse - medical treatment, counseling, and testing without being forcibly detained for their choices. These policies not only vastly overstep the constitutional bounds of 'health care', but also seriously infringe on personal and parental rights.

We the people INSIST you vote to STOP these unconstitutional policies from moving forward, at once.

Sincerely,

Heidi Forslund

Subject: Child vaccinations

External Email

To whom it may concern,

In regards to the potential mandate of vaccinations in children concerning Covid-19. No government agency has any authority to dictate or mandate any vaccine that will, can or has the potential to do harm to anyone. As a parent it is my job to protect and make the best decisions for my children's health. It is not your responsibility nor is it within your purview as a representative of this state to dictate how I raise or provide for my family. The fact that this is even up for debate shows how much the government is overstepping their boundaries. This atrocity will not go unnoticed and will reflect poorly if it is decided to enforce these mandates. These are our children, not animals that can be tested on for science. This country was built around the premise of freedom. Taking away the rights of the parents to make those decisions for their families is a form of enslavement and will not be tolerated.

Respectfully,

Patrick Prescott

I oppose the Communicable and Certain Other Diseases Rule.

I am completely against any of the proposed Covid Policies that are over reaching and immoral. I stand against these proposed WAC's: WAC 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105.

Additional comments:

(20) "Medical treatment" or "treatment" means the treatment for curable diseases and treatment that causes a person to be unable to transmit a disease to others, based on generally accepted standards of medical and public health science.

With regard to COVID, the vaccines are failing to cause a person to be unable to transmit a disease to others. And "generally accepted standards of medical and public health science" are controversial at best, and at worst are determined by large pharmaceutical companies controlling funding for research and spending more money lobbying than on research. They have no liability for so-called vaccines, they provide misleading poorly designed short-term unblinded research, they have had to pay large settlements for committing fraud, and they are focused on profits at the cost of human lives. Is experimental vaccination that carries risk of death and permanent harm the "treatment" you are proposing?

Isolation" means the separation((, for the period of communicability or contamination,)) of infected or contaminated persons or animals from others ((in such places and under such conditions as)) to prevent or limit the ((direct or indirect)) transmission of the infectious agent or contaminant from those infected or contaminated to those who are susceptible to disease or who may spread the agent or contaminant to others.

Now why would you propose removing the provision that specifies the period of isolation?

(13) "Health order" or "order" means a written directive issued by the state or local

health officer that requires the recipient to take specific action to remove, reduce, control, or prevent a risk to public health.

Considering that health orders could include specific action (presumably including vaccination), and that so-called COVID vaccinations are currently available under emergency use authorization (and not approved) and are being administered without informed consent, you should be on notice that this revision puts your "health officers" in the position of further subjecting people to medical experiments. Is that what you're desiring to achieve? Involuntary participation in human medical experimentation? Is the resistance to your attempt at one-size-fits-all mandated vaccination so great that you must resort to these measures?

WAC 246-100-045 specifies "competent medical care" and there is already a great shortage of that. How would you propose ensuring competent medical care?

I don't have time to continue picking this thing apart, but it appears to be an attempt at inappropriate and inadvisable overreach. How would you propose implementing these WAC provisions? The potential for human rights violations, civil rights violations, discrimination, government overreach, and similar harms far outweigh any of your fabricated benefits in this poorly handled COVID crisis that has already been made exponentially worse by the way it has been mismanaged by public health authorities.

Under these provisions, it appears it would be easier to detain someone for having symptoms of the common cold than it would be for a victim of domestic violence to get a restraining order. Even mentally ill persons at risk of causing harm to themselves and others must be allowed a medical exam and have a court order for involuntary medical treatment. Quit trying to impose your ineffective and dangerous pharmaceutical products on adults and children who do not want them and who recognize that there are safe and effective alternatives.

If you're going to mandate anything, you should mandate that your public health officers and authorities read "The Real Anthony Fauci: Bill Gates, Big Pharma, and the Global War on Democracy and Public Health". The author welcomes debate and any sincere scientific challenges or updates to the thoroughly researched content.

I imagine some of you believe you are acting in someone's best interest, but you are merely doing the bidding of Big Pharma while failing to represent the people and protect our democracy.

A Very Concerned Washingtonian.

Subject: Covid Meeting 1-12-22

External Email

January 15, 2021

Dear,

Christy Hoff

This letter is regarding the Washington State Health Department meeting on January 12, 2022 to make proposed changes to allow local health officers to use law enforcement (WAC-246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246 100 045) following refusal to voluntarily comply requests for medical examination, testing, treatment, counseling, vaccination (WAC246-100-040). These specifics come from WAC 246-100. This includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This ruling, which is not a law, but a ruling will force people to containment camps who are not vaccinated. Using the false assumption that the vaccines are only the solution to end the covid 19 and the variants is grossly negligent. There is overwhelming evidence and data showing there are many alternative therapeutics and treatment solutions for Covid-19. Such as and not limited to, vitamin c, d and zinc, black seed cumin treated early has significant positive results. Ivermectin and Hydroxychloroquine were being used at the very start of the Covid -19 pandemic with great success and continue to be used. They have no long term side effects and have been used for decades and are very inexpensive to produce and readily available. We have witnessed these two drugs save two seniors from dying from the covid 19 virus and many individuals that have used these therapeutics and treatment solutions and were cured of Covid-19.

As an elected or public official, your first obligation is to no harm, known as common law 1st, do no harm its constitutional duty. We are all equal no one is above the law, no one lives above the law. You are causing harm. Rule of law which clearly states that the government as well as private actors are accountable under the law.

I have researched by listing and reading from many Medical and Senior Law experts, which they state no one knows the long-term effects of these Covid 19 vaccines.

What I have seen on the VAERS report dated back in Aug 8th, 2021, 571,830 total reports of adverse effects, only between 1-10% of adverse events are reported in VAERS by some estimations.

Deaths 12,791, Life-threatening 13,140, permanently disabled 16,044, Hospitalizations: 51,242 Anaphylaxis 5,282 bell's palsy 4,461, miscarriages 1,505 heart attacks: 5,590 severe allergies 24,3050.

According to WHO, World Health Organization, the Vigil Access was launched by the World Health Organization in 2015 to provide public access to information in VigiBase. This is the WHO global database of reported potential side effects of medicinal products.

I have listed a few and these are the total adverse reactions:

Mumps vaccine: 713 from years 1972-2021

Hepatitis B vaccine: 104,827 from years 1984-2021

Pneumococcal vaccine: 236,307 from years 1980-2021

Influenza vaccine: 272,438 from years 1968-2021

Covid 19: 2,513,185 from ONE YEAR 2020-2021

This is illegal unlawful and unmoral. You are causing harm.

Respectively,

Howard & Tracy Moreland

Hi,

I attend the webinar last week and was very disappointed at how unprofessional it was. The meeting was LATE and no one on your end thought to inform us of the delay, please do better next time. Also, it's ridiculous that we could not comment during or ask the board questions in real time. How are they going to know what WE THE PEOPLE need or want if they don't hear from us.

I am against the Covid camps of any kind. I know you claimed that it's only for the homeless or people that don't have a place to quarantine but it's a lie, we know your ways by now. And also Dr. Pendergrass was saying how the TAG team has all theses school nurses, doctors, parents etc but those people are not me, don't know my kids health and HAVE NO RIGHT TO TELL ME WHAT TO PUT IN MY KIDS BODIES. It's unconscionable what has become of our society. We are being controlled by fear, by people who are hungry for power, money and greed and control. Stop this mess, Covid is real but but the vaccine is worthless. It shouldn't kill or injure people or cause any kind of paralysis.

TAG is unnecessary as y'all don't know our children and there isn't any scientific data that "they need to look into" to convince me that jabbing my kids is the answer to end Covid. Fauci has LIED over and over and over, so many inconsistencies and THAT IS NOT SCIENCE.

Subject: Covid Vax Recommendation

External Email

Do NOT recommend Covid-19 vax for schools! It is still under EUA with trials still going into 2023. No other recommended vax has undergone such short studies and NO EAU vax has EVER been recommended to give to school age children. According to Congress, no EAU vax can be required and is entirely voluntary. There are MANY drugs and shots given to children & adults even after full approval at end of Stage 3 trials have ended up being found to be harmful over time. It would be reckless, irresponsible and even criminal to recommend an experimental vax to children who are at virtually zero risk of death, yet are at the highest risk of both short term & long term side effects. Both wisdom and science would say that waiting until full trials and full non EAU FDA approval/authorization have been completed before recommending these shots to be given to young developing children.

In addition, there are many reports in VAERS of child vaccine injuries and deaths, even to the point that the CDC has admitted that there is a risk of blood clots, strokes and heart damage. Err on the side of caution, not reckless haste.

Sincerely, Carla Williamson

It would be refreshing if they can really do something about stopping all this once and for all. And for those who already got the clot, I mean shot, take seriously the video I sent you recently about the antidote as explained by Dr. Judy Mikovits, Suramin, or pine needle extract. Otherwise the clots in your arteries formed by the spike protein in your body will give you a fatal heart attack at some point.--Kf

treatment, counseling, vaccination (WAC246-100-040). These specifics come from WAC 246-100. This includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This ruling, which is not a law, but a ruling will force people to containment camps who are not vaccinated. Using the false assumption that the vaccines are only the solution to end the covid 19 and the variants is grossly negligent. There is overwhelming evidence and data showing there are many alternative therapeutics and treatment solutions for Covid-19. Such as and not limited to, vitamin c, d and zinc, black seed cumin treated early has significant positive results. Ivermectin and Hydroxychloroquine were being used at the very start of the Covid -19 pandemic with great success and continue to be used. They have no long term side effects and have been used for decades and are very inexpensive to produce and readily available. We have witnessed these two drugs save two seniors from dying from the covid 19 virus and many individuals that have used these therapeutics and treatment solutions and were cured of Covid-19.

As an elected or public official, your first obligation is to no harm, known as common law 1st, do no harm its constitutional duty. We are all equal no one is above the law, no one lives above the law. You are causing harm. Rule of law which clearly states that the government as well as private actors are accountable under the law.

I have researched by listing and reading from many Medical and Senior Law experts, which they state no one knows the long-term effects of these Covid 19 vaccines.

What I have seen on the VAERS report dated back in Aug 8th, 2021, 571,830 total reports of adverse effects, only between 1-10% of adverse events are reported in VAERS by some estimations.

Deaths 12,791, Life-threatening 13,140, permanently disabled 16,044, Hospitalizations: 51,242 Anaphylaxis 5,282 bell's palsy 4,461, miscarriages 1,505 heart attacks: 5,590 severe allergies 24,3050.

According to WHO, World Health Organization, the Vigil Access was launched by the World Health Organization in 2015 to provide public access to information in VigiBase. This is the WHO global database of reported potential side effects of medicinal products.

I have listed a few and these are the total adverse reactions:

Mumps vaccine: 713 from years 1972-2021

Hepatitis B vaccine: 104,827 from years 1984-2021

Pneumococcal vaccine: 236,307 from years 1980-2021

Influenza vaccine: 272,438 from years 1968-2021

Covid 19: 2,513,185 from ONE YEAR 2020-2021

This is illegal unlawful and unmoral. You are causing harm.

Subject: January 12, 2022 State Board of Health Public Meeting

External Email

I listened to most of the meeting on January 12th. It sounded like one huge advertisement for what is called the Covid vaccine. That was all that was discussed. There was no mention of other preventions or treatments. The tunnel vision shown in the meeting makes me wonder if you are receiving funding from pharmaceutical companies or their subsidiaries. If that is the case, the board would be indebted to anything pharmaceutical. Forcing anyone, whether they are a child or an adult to injection anything into their bodies is a crime and sickening. The fact that this so-called vaccine is causing negative and consequential side effects is being covered up by the main stream media.

While public comments did go over by about 20 minutes, having only 1 minute to speak is less than ideal. Would you like to make a point only given one minute to do so? There was more time in figuring out who was going to speak next or if they were available then someone giving their comment. Here's an idea: make a list that everyone can see of the comments in order. That way, everyone can know when they are next. Also, an admin could send a private message to that person beforehand to make sure they will be available for comment and how to unmute their microphone.

The government's response to Covid-19, especially in the state of Washington, tells me the government cares nothing for the health of the people. The government is all about money, control, power, and coercion.

I am disgusted by these policies and what is discussed at these meetings.

Furthermore, giving health officers the power to choose to quarantine an individual could and would get way out of hand. That policy does not belong anywhere, especially in the United States of America.

Sincerely,

Evelania Moser

External Email

Dr. Chetty is a general practitioner with a natural science background in genetics, a advanced biology, biology and natural chemistry. His words are something that you need to seriously consider, particularly as you ponder mandatory vaccinations for school children. This is a non-hyped video interview. Please give it a listen.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

If something were to happen to my child due to adverse reaction, the guilt would fall on me. There isn't enough studies to help me feel confident and ok with my children getting a Covid shot. I also think about the long term affects. I would rather home school my children if they had to be vaccinated to be in public schools.

We, the citizens of Washington state are watching you now and demand that you respect our personal health choices and our parental rights. We say to No mandatory vaccinations, quarantines or forced detentions and or medical procedures. The pushback will be very strong from many of us. Authoritarians and corrupted officials have used Covid to undermine personal freedom and cause havoc and pain for a disease with an exceptionally high survival rate. We are aware and focused now and will not accept further draconian measures.

Subject: communitiy input on Jan 12 WSBOH meeting

External Email

My thoughts on the meeting of Jan 12th.....

1) While Covid 19 was initially deadly to a fraction of a percentage of people, with the new Omicron variant, the vaccines are no longer protective. (Perhaps memory T cells are contributing something?), or are protective via antibody levels for only a short few months, and the severity with Omicron does not seem to include death except for a possible unfortunate few. This illness is in the process of evolving, but the current vaccine is designed for previous iterations.

2) More data and experience is coming out that indicates the vaccines are not without risk to the individual user. It is not comforting that Pfizer applied to the courts to release its material in 75 years. One usually does not have to force people to act in their own self interest. People are very riled up, and they are afraid and angry that decisions about them are not made by them.

3) The government seems to be interfering itself in new arenas of health care, which is presented as caring, but in fact is tyrannical if unwanted. Also interference in travel, begun since 911, is escalated. There is also a coordinated messaging in the medical world that only is seeing vaccines, and denying certain other treatment arms or natural immunity. Please do not underestimate the distress caused to families as they try to navigate new and unyielding government edicts.

4) I see various board members stressing the length of the process, explaining the steps, etc, but this is not reassuring if the undesired outcome comes all the same. I do not think a mandated Covid vaccine for school children, or anyone else for that matter, is warranted. I see the assurances of no plans for Covid camps, forced vaccinations, etc. But in case you have any ideas.....The utter audacity of plucking someone out of their home setting and detaining them against their will and forcing unwanted medical treatment on them in the name of public safety requires a serious counterbalance of danger to public safety. (Or denying them access to education or jobs, etc.) So please be very sober-minded in using your power. I am glad to find out that the alarming plans I heard online do not seem to be true.

5) In full disclosure, I am a retired internist, and have been following the medical and social aspects of Covid 19 very keenly since its inception. I had a bad reaction to the second Pfizer vaccine that took me 5 months to recover from. I will go to great lengths to avoid a similar experience. I also had Omicron, and I can say for me (age 61) it was a picnic compared to the vaccine.

6) Thank you for your service and time. The beautiful scenic pictures of Washington really helped alleviate the boredom of the material! Thank you,

Nancy Hovsepien

Subject: Mandates on EUA vaccines for children

External Email

Dear BOH ,
Children are our future. We must protect them at all costs. It is inherently wrong to even suggest a vaccine that has not been fully approved. The Phizer and Moderna covid vaccine which is not really a vaccine because it DOES NOT STOP TRANSMISSION, is still under EUA and per the. Nuremberg code cannot be mandated. Children are not threatened by covid. They have a 99.9 % chance of surviving covid and yet the danger of death or adverse reaction from the vaccine is higher than that from the disease. I beg you to use common sense and allow the parents who know their children and their health status, to make the decision on what is best for their child. The government has no right morally or otherwise to make this decision. Other countries have wisely stopped vaccinating their children for covid. How many more myocarditis cases will be enough. 100 ? 1000? How about 5000? Just
Stop now.
Sincerely,
Penny West

Comments and Questions Pertaining to the

State Board of Health Meeting on January 12, 2022

Specifically Regarding WAC-246-100-040

Submitted by Steven Palmieri, PhD. D.O.

steven.palmieri@protonmail.com <mailto:steven.palmieri@protonmail.com>

1. WAC-246-100-040 has been written in an extremely imprecise and reckless fashion; such nebulous language is fraught with the potential for misapplication.
2. This document is in direct opposition to the US Constitution; there is no due process as guaranteed by the Fifth Amendment of the Constitution.
3. Declaring a state of emergency does NOT give either federal or state governments the power to grant themselves any new additional powers.
4. Individual Rights cannot be suspended based on the "sole discretion" of an appointed and unelected "local health officer;" such a local health officer would have more power than a state governor or the president of the United States.
5. The individual or group is "immediately" considered guilty until they can prove themselves innocent, ex post facto.

6. "Ex parte" hearings are permitted only in family law matters; such hearings are ethically illegal and are specifically prohibited from any judicial consideration or adjudication.

7. People involuntarily removed from their homes based upon the suspicions and speculation of a local health officer is totally and unilaterally arbitrary; such an overreaching and dominating power over the lives of others will no doubt be inevitably applied inappropriately and with malfeasance.

8. The definition of "a local health officer" is not specified in this document. Is this the county health officer only, or is this numerous other physicians, nurse practitioners, physician assistants, nurses, etc.? Will there be more than one per county, or ten, or one-hundred/county, etc.?

9. What will prevent and prohibit a corrupt county official from appointing a corrupt health official to roundup and involuntarily detain people for non-medical reasons? For example, the removal of perceived political rivals just prior to an election, or people who question what the government considers to be unapproachable doctrines, whatever they may be.

10. Where is the check and balance found in this document? Where are the restraints and the penalties for health officers who inappropriately incarcerate people against their will and for judges who wrongly extend the detainment of individuals from ten to thirty days? What should their penalties be, and what should the compensation be for the people who were wrongfully detained? The location of such protective language cannot be found in this document?

11. More reasons for my opposition to WAC-246-100-040 can be supplied if so requested.

Sincerely,

Steven Palmieri

Subject: RCW 70.26.010 Pandemic Influenza

External Email

Dear Agents of Agencies relative to handling and dissemination of current, declared 'pandemic':

I have taken the opportunity to highlight some pertinent text within the Revised Codes of Washington, Title 70, Chapter 26, sub-section .010. I request an answer to the question: "Why has the intent of the legislature not been met, including the accuracy of information, after fifteen years of opportunity for preparedness; since the date of this code in 2006?"

As public servants for agencies to the government, in the form of contracts involving services, the People and the public demand an answer based in truth. Please do not condescend to answer in a manner inconsistent with factual information; repeating the authorized narrative given thus far. Agency falsehoods are deplorable and criminal. To act as if the general populace is without the ability to discern a lie from the truth is truly insulting, and I am of the personal opinion that we've received all that we are willing to tolerate in the form of lies (your acceptable standard of practice).

Please remember to whom belongs the authority over all things for which you've been gainfully employed: We; the People. Sovereignty falls to the People, by and for whom all governments are created; to protect the rights of those intended by the Constitution for the united States of America; the Supreme Law of the Land.

RCW 70.26.010

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FRCW%2Fdefault>

Findings—Intent.

The legislature finds that:

- (1) Pandemic influenza is a global outbreak of disease that occurs when a new virus appears in the human population, causes serious illness, and then spreads easily from person to person.
- (2) Historically, pandemic influenza has occurred on average every thirty years. Most recently, the Asian flu in 1957-58 and the Hong Kong flu in 1968-69 killed seventy thousand and thirty-four thousand, respectively, in the United States.
- (3) Another influenza pandemic could emerge with little warning, affecting a large number of people. Estimates are that another pandemic influenza would cause more than two hundred thousand deaths in our country, with as many as five thousand in Washington. Our state could also expect ten thousand to twenty-four thousand people needing hospital stays, and as many as a million people requiring outpatient visits.

During a severe pandemic these numbers could be much higher. The economic losses could also be substantial.

(4) The current Avian or bird flu that is spreading around the world has the potential to start a pandemic. There is yet no proven vaccine, and antiviral medication supplies are limited and of unknown effectiveness against a human version of the virus, leaving traditional public health measures as the only means to slow the spread of the disease. Given the global nature of a pandemic, as much as possible, the state must be able to respond assuming only limited outside resources and assistance will be available.

(5) An effective response to pandemic influenza in Washington must focus at the local level and will depend on preestablished partnerships and collaborative planning on a range of best case and worst case scenarios. It will require flexibility and real-time decision making, guided by accurate information. It will also depend on a well-informed public that understands the dangers of pandemic influenza and the steps necessary to prevent the spread of the disease.

(6) Avian flu is but one example of an infectious disease that, were an outbreak to occur, could pose a significant statewide health hazard. As such, preparation for pandemic flu will also enhance the capacity of local public health jurisdictions to respond to other emergencies.

It is therefore the intent of the legislature that adequate pandemic flu preparedness and response plans be developed and implemented by local public health jurisdictions statewide in order to limit the number of illnesses and deaths, preserve the continuity of essential government and other community services, and minimize social disruption and economic loss in the event of an influenza pandemic.

If the recipients of this email would kindly respond to the content highlighted in bold print within this RCW (as seen above), as it relates to the context within the meaning of this legislation; that would be appreciated.

Thank you for your time and continued effort. Our hope is that the bio-weapon marketed as a vaccination will impute justice to those responsible for its implementation.

Respectfully,

:Mark - Alan: Tisland, sui juris @ CLG / NATF

I am

Sovereign by nature of existence; not of license nor statute, and it does not take leave based on administrations, nor does it suffer deprivation due to jurisdiction. Sovereignty remains while policies change.

Count 6. 18 U.S.C. § 1001 – lying to Congress

Count 7. 15 U.S.C. § 19 – interlocking directorates

Count 8. 18 U.S. Code § 2384 - Seditious conspiracy

The Proposed Indictment

Throughout the decade of the 90s Pfizer sought to research, develop and patent a coronavirus (CoV) vaccine. Their first patent filing specifically recognizing the S-protein as the immunologic target for vaccines was filed on November 14, 1990 (U.S. Patent 6,372,224). With a focus on swine and canine gastroenteritis, these efforts showed little commercial promise and the patent was abandoned in April of 2000. During the same period, the National Institute for Allergy and Infectious Disease (NIAID) under the vaccine obsession of Dr. Anthony Fauci, funded Professor Ralph Baric at the University of North Carolina Chapel Hill. This program designed to commercially weaponize a naturally occurring toxin is the beginning of the criminal conspiracy and **violates 18 USC § 175, 15 USC § 1-3, and 15 USC § 8**) Dr. Baric's expertise was understanding how to modify components of the coronavirus associated with cardiomyopathy. NIAID Grants AI 23946 and GM63228 (leading to patent U.S. 7,279,327 "Methods for Producing Recombinant Coronavirus") was the NIH's first Gain-of-Function (GOF) project in which Dr. Baric created an "infectious, replication defective" clone of recombinant coronavirus. This work clearly defined a means of making a natural pathogen more harmful to humans by manipulating the Spike Protein and other receptor targets. A year after filing a patent on this GOF CoV, the world experienced the first outbreak of Severe Acute Respiratory Syndrome (SARS).

Under the guise of responding to a public health emergency, the United States Centers for Disease Control and Prevention (CDC) filed a patent application on the genome of SARS CoV on April 25, 2003. Accessing and manipulating the genomic data (which came from China making an “invention” claim by a U.S. entity illegal **violating 35 USC §101, 103**), Dr. Baric, Dr. Fauci, and the CDC **violated 18 USC § 175** (a felony). One year earlier, Dr. Baric and his team had already filed a patent which clearly the pathogen CDC claimed as novel in 2003. Three days after filing a patent on the genome, NIH-funded Sequoia Pharmaceuticals filed a patent for the vaccine on the virus invented a mere three days earlier. At the same time, in **violation of 15 USC § 19** Dr. Fauci was appointed to a board position with the Bill and Melinda Gates Foundation (a competitor in vaccine manufacturing) thereby beginning the interlocking directorate¹ anti-trust crime.

In 2005, the DARPA and MITRE hosted a conference in which the intentions of the U.S. Department of Defense was explicit. In a presentation focused on “Synthetic Coronaviruses Biohacking: Biological Warfare Enabling Technologies”, Dr. Baric presented the malleability of CoV as a biological warfare agent. **Violating 18 USC § 175** and inducing the non-competitive market allocation (**violating 15 USC § 8**) for years to follow, Dr. Baric and the U.S. Department of Defense spent over \$45 million in amplifying the toxicity of CoV and its chimeric derivatives.

From 2011 until the alleged COVID-19 pandemic, Dr. Fauci has routinely lamented about the inadequacy of public funding for his vaccine programs and the public’s general unwillingness to succumb to his insistence that everyone MUST be vaccinated against influenza. Despite repeated appropriations to advance vaccine dependency, his efforts have been largely unsuccessful. NIAID – under Dr. Fauci’s direct authorization – encouraged UNC Chapel Hill and Dr. Baric’s lab to ignore the GoF moratorium in a letter dated October 21, 2014. At that time, Drs. Fauci, Baric and EcoHealthAlliance’s Peter Daszak were in possession of an extremely dangerous Chinese pathogen identified a year earlier in Wuhan.²

While many illegal acts were committed by the conspirators leading up to 2015, the domestic terrorism program (**in violation of 18 USC § 2339**) was announced by NIAID-funded Daszak at the National Academy of Sciences. Here, he announced what was to become the domestic and global terrorism event branded COVID-19.

¹ We note that gain-of-function specialist, Dr. Ralph Baric, was both the recipient of millions of dollars of U.S. research grants from several federal agencies and sat on the World Health Organization’s International Committee on Taxonomy of Viruses (ICTV) and the *Coronaviridae* Study Group (CSG). In this capacity, he was both responsible for determining “novelty” of clades of virus species but directly benefitted from determining declarations of novelty in the form of new research funding authorizations and associated patenting and commercial collaboration. Together with CDC, NIAID, WHO, academic and commercial parties (including Johnson & Johnson; Sanofi and their several coronavirus patent-holding biotech companies; Moderna; Pfizer; Merck; BioNTech; AstraZeneca; Janssen; Ridgeback; Gilead (Dr. Baric’s alter ego); Sherlock Biosciences; and others), a powerful group of interests constituted what are “interlocking directorates” under U.S. anti-trust laws. Further, most of these entities, including the Federal Government ones **violated 35 USC § 200-206** by failing to disclose Federal Government interest in the remedies proposed.

These entities were affiliated with the WHO’s Global Preparedness Monitoring Board (GPMB) whose members were instrumental in the Open Philanthropy-funded global coronavirus pandemic “desk-top” exercise EVENT 201 in October 2019. This event, funded by the principal investor in Sherlock Biosciences (a beneficiary of the SARS CoV-2 EUA for CRISPR technology) and linking interlocking funding partner, the Bill and Melinda Gates Foundation into the GPMB mandated a respiratory disease global preparedness exercise to be completed by September 2020 and alerted us to anticipate an “epidemic” scenario. We expected to see such a scenario emerge from Wuhan or Guangdong China, northern Italy, Seattle, New York or a combination thereof, as Dr. Zhengli Shi and Dr. Baric’s work on zoonotic transmission of coronavirus identified overlapping mutations in coronavirus in bat populations located in these areas.

² By October 2013, the Wuhan Institute of Virology 1 coronavirus S1 spike protein was described in NIAID’s funded work in China. This work involved NIAID, USAID, and Peter Daszak, the head of EcoHealth Alliance. This work, funded under R01AI079231, was pivotal in isolating and manipulating viral fragments selected from sites across China which contained high risk for severe human response. (Ge, XY., Li, JL., Yang, XL. *et al.* Isolation and characterization of a bat SARS-like coronavirus that uses the ACE2 receptor. *Nature* **503**, 535–538 (2013).) The GoF work NIAID allowed to persist in the face of the moratorium was Dr. Baric’s work with this pathogen

*“...until an infectious disease crisis is very real, present, and at an emergency threshold, it is often largely ignored. **To sustain the funding base beyond the crisis, he said, we need to increase public understanding of the need for MCMs such as a pan-influenza or pan-coronavirus vaccine. A key driver is the media, and the economics follow the hype. We need to use that hype to our advantage to get to the real issues. Investors will respond if they see profit at the end of process,** Daszak stated.”³*

It is not surprising that one year later NIAID’s funding paid off with Dr. Baric’s lab announcing that the Wuhan-derived pathogen was “poised for human emergence”.⁴

Knowing that the U.S. Department of Health and Human Services (through CDC, NIH, NIAID, and their funded laboratories and commercial partners) had patents on each proposed element of medical counter measures and their funding, Dr. Fauci, Dr. Gao (China CDC), and Dr. Elias (Bill and Melinda Gates Foundation) conspired to commit acts of terror on the global population – including the citizens of the United States – when, in September 2019, they published the following mandate in **A World At Risk**:

“Countries, donors and multilateral institutions must be prepared for the worst. A rapidly spreading pandemic due to a lethal respiratory pathogen (whether naturally emergent or accidentally or deliberately released) poses additional preparedness requirements. Donors and multilateral institutions must ensure adequate investment in developing innovative vaccines and therapeutics, surge manufacturing capacity, broad-spectrum antivirals and appropriate non-pharmaceutical interventions. All countries must develop a system for immediately sharing genome sequences of any new pathogen for public health purposes along with the means to share limited medical countermeasures across countries.

Progress indicator(s) by September 2020

- *Donors and countries commit and identify timelines for: financing and development of a universal influenza vaccine, broad spectrum antivirals, and targeted therapeutics. WHO and its Member States develop options for standard procedures and timelines for sharing of sequence data, specimens, and medical countermeasures for pathogens other than influenza.*
- *Donors, countries and multilateral institutions develop a multi-year plan and approach for strengthening R&D research capacity, in advance of and during an epidemic.*
- *WHO, the United Nations Children’s Fund, the International Federation of Red Cross and Red Crescent Societies, academic and other partners identify strategies for increasing capacity and integration of social science approaches and researchers across the entire preparedness/response continuum.”⁵*

As if to confirm the utility of the September 2019 demand for “financing and development of” vaccine and the fortuitous SARS CoV-2 alleged outbreak in December of 2019, Dr. Fauci began gloating that his fortunes for

⁵ https://apps.who.int/gpmb/assets/annual_report/GPMB_annualreport_2019.pdf (page 8)

additional funding were likely changing for the better. In a February 2020 interview in **STAT**, he was quoted as follows:

“The emergence of the new virus is going to change that figure, likely considerably, Fauci said. “I don’t know how much it’s going to be. But I think it’s going to generate more sustained interest in coronaviruses because it’s very clear that coronaviruses can do really interesting things.”⁶

In November 2019 – one month before the alleged “outbreak” in Wuhan, Moderna entered into a material transfer agreement – brokered by the Vaccine Research Center at NIAID (at which UNC Chapel Hill alum Dr. Kizzy Corbett worked) – to access Dr. Baric’s Spike Protein data to commence vaccine development. In his own written statement obtained by the **Financial Times**, he refers to this agreement as being the foundation for the mRNA Moderna vaccine.⁷

To finalize the nature of the racketeering and anti-trust criminal conspiracy, when it came time to commercialize the NIH and DARPA owned spike protein and pass it off as a “vaccine” (in conflict with the standard for vaccines in statutory and scientific application), the Operation Warp Speed contract was awarded to DoD contraction ATI, a subsidiary of ANSER. In a graph reminiscent of the anti-trust hearings at the formation of the Clayton Act in the early 20th century, the identity of the interlocking conflicts of interests are presented in graphic relief. It is with no surprise that the result of this price-fixing conspiracy was the enrichment of the conspiring parties and the harm of consumers.

⁷ <https://pubmed.ncbi.nlm.nih.gov/32756549/>

Indeed, *the money followed the hype* and they *used the hype to get to the real issues*. *Investors follow where they see profit at the end of the process*.

And real Americans are dying each day because a criminal organization unleashed terror resulting in the deaths of Americans.

18 U.S.C. § 2331 §§ 802 – Acts of Domestic Terrorism resulting in death of American Citizens

Pub. L. No. 107-52 expanded the definition of terrorism to cover "domestic," as opposed to international, terrorism. A person engages in domestic terrorism if they do an act "dangerous to human life" that is a violation of the criminal laws of a state or the United States, if the act appears to be intended to: (i) intimidate or coerce a civilian population; (ii) influence the policy of a government by intimidation or coercion;

Every single Act, the declaration of the State of Emergency, the Emergency Use Authorization, the fraudulent face masks, the business closures, and the OSHA and CMS vaccine mandates are ALL admitted by the conspirators to be acts to coerce the population into taking a vaccine. Further, these acts disrupted the democracy of the United States of American and resulted in the violation of 18 USC § 2384. The conspirators announced it in 2015, then prepared the pathogen in 2016, and laid out the terror campaign in September 2019. And now they profit from the death of Americans.

To whom it may concern,

I OPPOSE Agenda Item #8, the Board's formation of a Technical Advisory Group (TAG) to review information about Covid-19 shots for consideration of mandating the shots for school. I OPPOSE Covid-19 shot mandates. The science does not support the notion that unvaccinated individuals spread the virus, any more than vaccinated individuals. Children are statistically at zero risk of dying from Covid (their survival rate is in the range of 99.997 - 99.998%); where there is no risk, there can be no benefit. Furthermore, there are numerous studies now that support adverse affects of the vaccine on our children. Even the FDA has doubts about the safety of a vaccine for an individual under the age of 16.

(<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.fda.gov%2Fmedia%2F151710>)
The required studies on children will not even be completed until May 31, 2027. And, that is only one of the required pediatric assessments. There has been enough time now to find out the truth about what is going on with Covid, and there is no excuse for draconian

measures to be inflicted on our children just to be able to attend school.

I SUPPORT Agenda Item #11 Informed Choice Washington's Petition for Rulemaking. This petition (filed by Xavier Figueroa, PhD, on behalf of ICWA), asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EAU) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list. As noted in the FDA link above, the required pediatric studies required are not yet completed.

We all are concerned about the safety of our children and teachers. But, making a therapy mandatory, whose efficacy in preventing transmission is increasingly short lived as new variants of COVID-19 emerge, abandons reason. Specifically, when you consider that we just don't know how detrimental the therapies will be to the long-term health of all people, especially children whose bodies are still developing. We don't know what we don't know. We as a state have historically been the beneficiaries of a certain Washingtonian level headedness, a trait that has kept us out of the numerous pitfalls we've witnessed other states succumb to. We can't use our children as test subjects. Let us set an example for the nation and world, and pursue measures that protect informed consent for our public health and upholds the highest standard of medical ethics.

Sincerely,

Bethany Bordon

Another reason not to mandate vaccines for children to attend school. The risk of the vaccine is higher than risks of COVID for kids. There is no reason to mandate this to attend school.

Subject: Questions for the Board of Health

External Email

Hi,

I attended the state board of health meeting on January 12, 2022, and had a couple questions for the which I am still seeking answers. For the record, I am opposed to mandates that restrict our Constitutional rights for any reason, and would appreciate if you could take a moment to give clear and definitive answers to the following:

Q: I see attendees repeatedly questioning "when" will the board be discussing WAC 246-100 and K-12 mandatory vaccines? And every time the answer is "not today." Again, we know that does not mean it won't be discussed at a future date, so we want to know "when?"

Q: If people are not "fully vaccinated" are they considered "unvaccinated" on hospital reporting records?

Thank you for taking the time to respond to my questions, as nobody was able to respond to them at the time of the meeting (due to the large volume of questions being asked).

Best regards,
Michael D. Clark, Ed.D.

Subject: RCW 70.26.010 Pandemic Influenza

Dear Agents of Agencies relative to handling and dissemination of current, declared 'pandemic':

I have taken the opportunity to highlight some pertinent text within the Revised Codes of Washington, Title 70, Chapter 26, sub-section .010. I request an answer to the question: "Why has the intent of the legislature not been met, including the accuracy of information, after fifteen years of opportunity for preparedness; since the date of this code in 2006?"

As public servants for agencies to the government, in the form of contracts involving services, the People and the public demand an answer based in truth. Please do not condescend to answer in a manner inconsistent with factual information; repeating the authorized narrative given thus far. Agency falsehoods are deplorable and criminal. To act as if the general populace is without the ability to discern a lie from the truth is truly insulting, and I am of the personal opinion that we've received all that we are willing to tolerate in the form of lies (your acceptable standard of practice).

Please remember to whom belongs the authority over all things for which you've been gainfully employed: We; the People. Sovereignty falls to the People, by and for whom all governments are created; to protect the rights of those intended by the Constitution for the united States of America; the Supreme Law of the Land.

Findings—Intent.

The legislature finds that:

- (1) Pandemic influenza is a global outbreak of disease that occurs when a new virus appears in the human population, causes serious illness, and then spreads easily from person to person.
- (2) Historically, pandemic influenza has occurred on average every thirty years. Most recently, the Asian flu in 1957-58 and the Hong Kong flu in 1968-69 killed seventy thousand and thirty-four thousand, respectively, in the United States.
- (3) Another influenza pandemic could emerge with little warning, affecting a large number of people. Estimates are that another pandemic influenza would cause more than two hundred thousand deaths in our country, with as many as five thousand in Washington. Our state could also expect ten thousand to twenty-four thousand people needing hospital stays, and as many as a million people requiring outpatient visits. During a severe pandemic these numbers could be much higher. The economic losses could also be substantial.
- (4) The current Avian or bird flu that is spreading around the world has the potential to start a pandemic. There is yet no proven vaccine, and antiviral medication supplies are limited and of unknown effectiveness against a human version of the virus, leaving traditional public health measures as the only means to slow the spread of the disease. Given the global nature of a pandemic, as much as possible, the state must be able to respond assuming only limited outside resources and assistance will be available.
- (5) An effective response to pandemic influenza in Washington must focus at the local level and will depend on preestablished partnerships and collaborative planning on a range of best case and worst case scenarios. It will require flexibility and real-time decision making, guided by accurate information. It will also depend on a well-informed public that understands the dangers of pandemic influenza and the steps necessary to prevent the spread of the disease.
- (6) Avian flu is but one example of an infectious disease that, were an outbreak to occur, could pose a significant statewide health hazard. As such, preparation for pandemic flu will also enhance the capacity of local public health jurisdictions to respond to other emergencies.

It is therefore the intent of the legislature that adequate pandemic flu preparedness and response plans be developed and implemented by local public health jurisdictions statewide in order to limit the number of illnesses and deaths, preserve the continuity of essential government and other community services, and minimize social disruption and economic loss in the event of an influenza pandemic.

If the recipients of this email would kindly respond to the content highlighted in bold print within this RCW (as seen above), as it relates to the context within the meaning of this legislation; that would be appreciated.

Thank you for your time and continued effort. Our hope is that the bio-weapon marketed as a vaccination will impute justice to those responsible for its implementation.

Respectfully,

:Mark - Alan: Tisland, sui juris @ CLG / NATF

I am opposed to making COVID-19 shorts mandatory for school admission or childcare in our State for the following Reasons: The "pandemic" seems to be slowing down considerably as to it death etc. But why not take these so-called "quarantine camps" and place the homeless into them. There they could be actually directed into a different direction, weaned off drugs (which almost every one of them is on!) and perhaps even be taught useful occupations that would help put them back on track!! The state is completely wacko in how to handle these problems of homelessness and the added crime!!! Wake up and smell the coffee, for heaven's sake!!!!

Subject: Public Health in Spokane County

External Email

As a concerned citizen, I write this email as an individual and property owner in Spokane County and request the Washington State Board of Health (SBOH) uphold its mission and statutes (specifically, RCW 70.05.120) by taking actions that will restore the public health system and protect the citizens of Spokane County.

In 2017, the public health system in Spokane County was considered a national public health model (PH 3.0 by Dr. Karen DeSalvo - U.S. Assistant Secretary for Health) for how to address public health issues, respond to emergencies, and partner to work upstream to prevent public health related disease. Now two years after the hiring of a public health Administrator to lead Spokane's public health efforts, the public health system is in shambles. Forced into early retirement or fired, the public health experts and leaders who guided this highly effective system are now watching from the sidelines as Spokane County's health worsens and the public health systems to protect the citizens are dismantled.

Lies, controversy, lack of transparency and capacity, public fund mismanagement, demonstrations, dissolved partnerships, distrust, and disdain now are commonplace within Spokane's public health system. Clearly, current public health leadership is ineffective and those in power to make decisions lack the foresight and experience in public health to make the necessary changes. Public health experts have provided testimony that support my opinions and now we need the help of the SBOH to restore Spokane's public health system.

My opinions are based solely on my perspective (28 years of public health experience leading state and county public health efforts) and I don't represent other individuals or organizations that I may be associated with. I provide this public comment to the SBOH honorably and my intent is to help the citizens of Spokane County regain the trust and support of their public health system.

Sincerely,

Kyle Unland, MS, RDN

Subject: More Children Die From the COVID Shot Than From COVID

External Email

To Keith Grellner and WSOH members,

Please watch this video from a nurse in Louisiana and read the message from Dr. Mercola.

https://www.theepochtimes.com/more-children-die-from-the-covid-shot-than-from-covid_4215381.html?utm_source=ref_share&utm_campaign=copy&rs=SHRJPHDX&<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.theepochtimes.com%2Fmore-children-die-from-the-covid-shot-than-from-covid_4215381.html%3Futm_source%3Dref_share%26utm_campaign%3Dcopy%26rs%3DSHRJPHDX%26

Link to Vaers Vaccine Adverse Event Reporting System (adverse events are under reported by an estimated 40% as many providers are not aware of this sytem):

<https://openvaers.com/<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fderef-gmx.com%2Fmail%2Fclient%2F3zurBjQio5A%2Fdereferer%2F%3FredirectUrl%3Dhttps%253A%252F%25>

I DO NOT support vaccine mandates and DO NOT support adding the Covid Vaccine to the children's required vaccine list to attend school.

If you consider mandating the Covid vaccine for children, there will be many angry parents who will pull their children out of school.

Corona viruses are just a virus of the common cold with more than a 99% survival rate, including Covid. Natural immunity is better protection than the risk of an experimental vaccine.

Please do your research.

Thank you,
Renee Bloom

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

These kids have suffered enough with the lockdowns, masking and zoom online school adding a COVID-19 vaccine to the requirements of public school immunization would make sense if the COVID-19 vaccine actually made you immune to the virus! It is unnecessary for kids all previous vaccines that are required are an actual immunization which protects themselves. DICTATOR jay inslee is a disgrace to the state of Washington and needs to quit his dictatorship with continued mandate after mandate! Nothing he has been doing is helping with this state. Time for the Washington state government to remember they work for the people not the people work for them. I hope some of you in the state of Washington can stand up for these kids and freedom. The vaccine has not worked at stopping the spread! The adverse side effects is not something I'm willing to gamble with my children's health and development!

Thank you

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons: children have fantastic immune systems, unless they are immune compromised they don't need this experimental vaccine.(and yes I know the vaccine manufacturers have been given the approval from the FDA, but this is only based on Financial motivation, and not proof of safety) Too many teens have died from the vaccine. At minimum, the parents should decide what medications go into their children. If this goes through, there will be a mass exodus from public schools.

My handicapped daughter currently has COVID, for a second time. The first time, the U. of W. told her to stay home and only come to the hospital if her condition got worse. In other words, don't come and see us until it is too late. No prevention recommended. No action. That just didn't sound like modern medicine. My wife (a retired oncology nurse) and I (a retired high school principal and assistant principal for 24 years) are not stupid . . .

Where was the help? Were vaccines the only answer? Were we supposed to wait for a vaccine?

It has been scientifically established that antibodies resulting from infection are stronger than the vaccines. It is also established that administering the vaccines, especially after having had the disease, can cause disastrous physical harm. Yet she was required to get the vaccine (regulation for DSHS Supported Living clients) after being sick and immune (at that time to that variant).

Please review Robert F. Kennedy Jr.'s The Real Anthony Fauci, for data re the lack of need for vaccinations for children.

This book is very well documented and SHOCKING. It includes U.S. and world wide data.

Doctors Kulldorff and Bhattacharya (the Great Barrington Declaration) know what they are talking about.

Also read Dr. Scott Atlas's book, A Plague In Our House, before you make any decisions. Evidence.

Much of the information coming from Fauci, Birx, Pharma and the Media are lies, well proven in the above literature. Do not take any action based on politics. Look at the data. For example, masks DO NOT stop the nanoparticles carrying the virus. For example, focus resources on those who need it. Children do not get seriously ill or need hospitalization due to COVID. They DO NOT spread it to adults. Current (Jan. 13, 2022) CDC data show 1.2 children hospitalized, per 100,000 children . . . and most, if not all, had over three comorbidities. Protect the vulnerable rather than continue with harmful quarantines, masks and misinformation based on politics and fear. Arm yourselves with

factual evidence.

Thanks for your efforts,

Dick Daniels

Michelle,

Please see the attached letter in regard to the 1-12-22 Health Department meeting.

Thanx,

Tracy Moreland

January 15, 2021

Dear,
Michelle Davis

This letter is regarding the Washington State Health Department meeting on January 12, 2022 to make proposed changes to allow local health officers to use law enforcement (WAC-246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246 100 045) following refusal to voluntarily comply requests for medical examination, testing, treatment, counseling, vaccination (WAC246-100-040). These specifics come from WAC 246-100. This includes the Covid-19 injections as part of school immunization requirements using WAC 246-105.

This ruling, which is not a law, but a ruling will force people to containment camps who are not vaccinated. Using the false assumption that the vaccines are only the solution to end the covid 19 and the variants is grossly negligent. There is overwhelming evidence and data showing there are many alternative therapeutics and treatment solutions for Covid-19. Such as and not limited to, vitamin c, d and zinc, black seed cumin treated early has significant positive results. Ivermectin and Hydroxychloroquine were being used at the very start of the Covid -19 pandemic with great success and continue to be used. They have no long term side effects and have been used for decades and are very inexpensive to produce and readily available. We have witnessed these two drugs save two seniors from dying from the covid 19 virus and many individuals that have used these therapeutics and treatment solutions and were cured of Covid-19.

As an elected or public official, your first obligation is to no harm, known as common law 1st, do no harm its constitutional duty. We are all equal no one is above the law, no one lives above the law. You are causing harm. Rule of law which clearly states that the government as well as private actors are accountable under the law.

I have researched by listing and reading from many Medical and Senior Law experts, which they state no one knows the long-term effects of these Covid 19 vaccines.

What I have seen on the VAERS report dated back in Aug 8th, 2021, 571,830 total reports of adverse effects, only between 1-10% of adverse events are reported in VAERS by some estimations.

Deaths 12,791, Life-threatening 13,140, permanently disabled 16,044, Hospitalizations: 51,242 Anaphylaxis 5,282 bell's palsy 4,461, miscarriages 1,505 heart attacks: 5,590 severe allergies 24,3050.

According to WHO, World Health Organization, the Vigil Access was launched by the World Health Organization in 2015 to provide public access to information in Vigibase. This is the WHO global database of reported potential side effects of medicinal products.

I have listed a few and these are the total adverse reactions:

Mumps vaccine: 713 from years 1972-2021

Hepatitis B vaccine: 104,827 from years 1984-2021

Pneumococcal vaccine: 236,307 from years 1980-2021

Influenza vaccine: 272,438 from years 1968-2021

Covid 19: 2,513,185 from **ONE YEAR** 2020-2021

This is illegal unlawful and unmoral. You are causing harm.

Respectively,

Howard & Tracy Moreland
Orting, Washington

)

(c) 2009 by Amazon.com, Inc.

The United States Holocaust Museum describes this process as “Defining the Enemy: The Excluded

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.usmmm.org%2Fpropaganda9the-enemy%2F&data=04%7C01%7Cwsboh%40sbob.wa.gov%7C6bc21d642a914b63392108d9d6c274dd%7C1>
";

“One crucial factor in creating a cohesive group is to define who is excluded from membership. Nazi propagandists contributed to the regime’s policies by publicly identifying groups for exclusion, justifying their outsider status, and inciting hatred or cultivating indifference.... But a second, more sinister aspect of the Nazi myth was that not all Germans were welcome in the new community. Propaganda helped to define who would be excluded from the new society and justified measures against the ‘outsiders.’”

Regardless of what the propagandists have told you, we are not your enemies. We are your neighbors; we are your colleagues; we are your friends; we are your family members—your grandparents, your parents, your siblings, your children.

We are human beings just like you. We love, we live, we think, we feel.

We have merely made a different choice from you. And contrary to what the propagandists tell you, that choice poses no threat to you or our shared community.

This CDC paper

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fmmwr%2Fvolun>
 ("Outbreak of SARS-CoV-2 Infections, Including COVID-19 Vaccine Breakthrough
 Infections, Associated with Large Public Gatherings — Barnstable County, Massachusetts,
 July 2021"), explains that the study found "three-quarters of cases occurred in fully
 vaccinated people":

"It also found no significant difference in the viral load present in the breakthrough infections occurring in fully vaccinated people and the other cases, suggesting the viral load of vaccinated and unvaccinated persons infected with the coronavirus is similar."

New stories documenting COVID outbreaks in fully vaccinated groups keep emerging, including cruise ships

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fquarantine%2Ffaq-ship-color-status.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6bc21d642a914b63392108d9d6c274dd%7C11d0e2f3-4342-4243-a010-000000000000>

hits&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6bc21d642a914b63392108d9d6c274dd%7C11d0e21
, a pattern that is becoming increasingly common
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ffigorchudov.substack.com%2Fp%2Ffull-of-vaccinated-patients&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6bc21d642a914b63392108d9d6c274dd%7C11d0e21>
.

If the vaccine does not prevent people from spreading or contracting COVID; being hospitalized; or dying from COVID, what possible justification can you provide for involuntarily detaining individuals and families in quarantine facilities?

And that's only part of the story. The other part of the story—the one the propagandists don't show you—is the CDC's vaccine surveillance system has just surpassed a historic 1 million adverse event reports

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fp%2Fdata&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6bc21d642a914b63392108d9d6c274dd%7C11d0e21>
(1,016,999 as of 12/31/21) for the COVID vaccines, including 21,382 deaths
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2Fp%2Fdata%2Fmortality&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6bc21d642a914b63392108d9d6c274dd%7C11d0e21>
—5,252 of which occurred within the first forty-eight hours following injection.

Contemplate that for a moment—nearly a quarter of reported deaths occurred within the first two days after vaccination.

The CDC admits not only 40% of the people admitted to hospitals listed as covid patients were not sent to the hospital for covid but other health or accidents. The CDC admits 90% of the deaths from covid, people had 4 or more other health risks. The CDC admits, the vax and booster which they claim you need all 3 to be fully vaccinated, to not prevent transmission or from contracting covid. Numerous articles have been provided by scientist and doctors across the world who state: natural immunity is the best protection (yet no one is tested for it), the vac is not working like they hoped, other early treatments are 100% effective (but our health officials won't allow), being put on a ventilator kills people (I know how the pulmonary system works and fluid in lungs....need to be up and active not laying immobilized in a bed), and masks are a joke (if you want to wear one and feel it is protecting you fine, but healthy people don't pose a threat in society to need to wear a face covering), the natural God given immune system and healthy choices is the best defense (but our life styles with fast food, sugar in everything, preservatives and lack of exercise kill us).

I ran a long term health care facility, Rock Cove Assisted Living for 17 years. You can look me up, I was awarded WA state and NCAL Administrator of the year. I worked with Skamania EMS for 15 years in emergency medicine, rescues, teaching infection control and CPR. I understand infection control, human rights, HIPPA and the immune system. I also understand caring for the compromised, elderly and hospice. Deciding to have the authority in our state to "lock up a person or family in a quarantine facility" is illegal, immoral and dehumanizing.

I hope everyone on that board can sleep at night knowing they are acting with such tyranny and control over the citizens of WA state.

Don't come knocking on my door, you will be trespassing and asked to leave. You will not enforce your control on me or my family. When Governor Inslee finally ends up in jail for his crimes to humanity, everyone of you who voted to pass this wac, belongs in jail as well.

In regards to your meeting about Covid vaccine mandate in public schools. Please consider not allowing this. Parents need to be able to choose. We have a right to our children's health and freedoms. By trying to force this you are putting many at risk. Many kids will drop out of school and still face the government for not having kids in school. Some are not comfortable with being forced with the unknown. This vaccine isn't working as well as expected not because people aren't vaccinated. Its going to people who are vaccinated the omnicron is. Please allow some immunity choices as well as freedom to chose. I have a child that is allergic to 2 vaccines yet you want to force me to chose and ruin his health? This is insane. And a dr won't write a letter cause they are afraid of getting fired. The world is afraid and there is now being a forced choice. Please stop this and don't do this insane idea.

I disapprove of any forced vaccinations for anyone, especially the kids. This should not be required for school. This is not full tested. We don't know the long term side affects. You need to respect the parents decision.

The only comment I have is that I strongly prefer that under no circumstances should vaccines of any kind be mandates to attend public school. Mandates do not work and should not be used.

I am curious to know if you are aware of DARPA and the rapid uncovering of Fauchi and his 20 plus years of lies. The fact that DARPA refused to do gain a function yet the NIH and FAUCHI paid for it. Yet we're still trusting him and his voice? Boy that's a Fool's road to travel.

Why do you listen to the CDC when they knowingly give false testimony and change their story daily.

The public no longer has faith in any elected, placed by cabinet, or administrators.

The longer you deny what the public at large wants the hotter the water gets.

We know the federal government CO OWNS THE VACCINE (at least 1 for now) so with the amount of deaths that you all keep denying (but we have eyes ears and brains believe it or not) is this a push for the money or masonic agenda?

What will you do for ALL THE INJURIES from the vaccine?

The Narrative continues to be shoved in everyone's face but this is a pandemic that unlocked the real narrative. Clearly this is not following science.

Why has covid not ever been isolated? I'm not talking cells with nubs and growth but the actual single cell you keep using for this pandemic?

Clearly the vaccine does not work..

So then you go and change the definition of the vaccine to make it fit your agenda. There going to be a lot more questions coming your way.

I hope and pray to God Yeshua that you do the right thing. If you know stand up.

I am a concerned citizen and do not like what I see on TV, on VARES and so much more.

As an adult I can protect myself but for the children of Washington I will be one of your biggest critics.

No matter how many times inslee does his emergency meetings on Channel 5 and every 30 seconds pushes the vax and says the stop lying we're just going to come out bigger and stronger. We see the truth.

Or try to science us by order or keep us out of legislation. I understand I'm above what you can do now but I was SHOCKED to hear board members had no idea about covid camps! Only at the end to say we the people requested those camps. To bring in a WAC to FORCE a family into a camp eventually. You can say no all day long but you have lost the trust of the people. A very dangerous place to be.

For our family, one of the first settling families in WA are leaving. We will go to a red state soon to fight the tyranny.

What is in the dark shall come to light ☐☐

Please do not require mandatory COVID vaccinations for our children. Follow the science and look at the data....this is a disease that impacts the older population, with only MILD impacts on the children. Fact - the Pfizer trial for children 5-11 had ZERO participants with any severe Covid symptoms (vaccinated and placebo participants). Fact - per the CDC website, less than 1/10 of 1 percent ($<0.1\%$) of kids 0-17 in WA have been hospitalized or died with Covid (not necessarily from Covid by the way). Fact - even vaccinated people can catch & spread Covid (just look at the current case counts). Fact - there are no studies of the long-term side effects of the Covid vaccines on our kids. Fact - you can't sue Pfizer or Moderna if your kid dies or has adverse reactions from the vaccine. So then, why in the world would you mandate this on our precious children. This is America, where you should be free to choose.

To Whom it may concern,

We are writing this email as citizens of the state of Washington in opposition to using WAC 246-100-070, WAS 246-100-045, and WAC 246-100-040 to force an emergency order to involuntarily detain a person or group to be isolated in a quarantine facility following refusal to comply with above stated laws regarding Covid-19.

We are also in opposition to including the Covid-19 injections as part of the school immunization requirements using WAC 246-105. These vaccinations have not met the required testing time frame, and therefore long term effects are not known. It is also known that the percentage of children seriously affected by Covid-19 is very small.

Respectfully submitted,
Ken and Tracy White

Subject: WAC Revision

External Email

Dear Members of the Washington State Board of Health,

Thank you for allowing voices to be heard at your meeting on January 12, 2022. Every participating citizen articulated serious concerns and I agree there is considerable distrust between people and government. Part of that has risen through mainstream and social media. However, the responsibility falls to government officials to be forthcoming and transparent with accurate data and factual analysis. Numerous doctors, scientists and other health experts have offered their expertise, yet their speech has been silenced in favor of rhetoric from pharmaceutical companies and politicians with financial interests.

In considering vaccine mandates, a review of history is certainly in order, specifically The Nuremberg Code, written in 1949 following the horrors perpetrated by the Nazis.

"1. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision." (history.nih.gov)

Additionally, the language contained in the WAC mentioned is tyrannical, vague and could be open to widely subjective interpretation. For example, an ordinary citizen reading the following could be justifiably alarmed:

"WAC 246-100-040 Procedures for isolation or quarantine. (1) At his or her sole discretion, a local health officer may issue an emergency detention order causing a person or group of persons to be immediately detained for purposes of isolation or quarantine . . ."

"WAC 246-100-045 Conditions and principles for isolation or quarantine. (4) If a quarantined individual subsequently becomes infected or is reasonably believed to have become infected with a communicable or possibly communicable disease that the local health officer believes poses a significant threat to the health and safety of other quarantined individuals, he or she must promptly be placed in isolation;"

"WAC 246-100-070 Enforcement of local health officer orders. (3) Any person who shall fail or refuse to obey any lawful order issued by any local health officer shall be deemed guilty of a misdemeanor . . ."

(Obtained from app.leg.wa.gov/wac/)

Considering draconian discrimination occurring in other countries (ie Australia, Austria, China, Germany), can we blame citizens for assuming the worst considering the lack of transparency and emphasis on fear perpetuated by our media and government spokespeople?

Perhaps it is time to revise more than just the HIV policies. In order to prevent future

misinterpretation or abuse of power these authoritarian statutes should be completely eliminated.

Respectfully,

Sarah E. Bliesath

It is proven that the covid vaccine does not prevent you from getting covid!! Young people very rarely have severe symptoms. I don't believe we should risk vaccinating children for something they can easily survive with their own immune system. Please get all the data. What percentage of adverse side effects from the vaccine, vs. Adverse outcomes of children having contracted covid!! Do not make decisions regarding the health of our children when enticed with money offered by lobbyists

Thank you for your consideration!!

Subject: January 12 State Board of Health Public Meeting re: WAC246-100-040: I STRONGLY OPPOSE this bill

External Email

I am a Washington state resident. I STRONGLY OPPOSE THIS BILL.

(WAC 246-100-040) would legalize the medical kidnapping of Americans as young as 5 years old (including Washington residents and anyone/traveler just passing through Washington state) (with the threat of violence even at gunpoint), ripping them from their homes and depositing them as prisoners in COVID internment camps for failing to comply with the state's experimental vaccine mandate."

This is explicitly fascist, blatantly unconstitutional, and downright dangerous.

The highlighted texts below are taken directly out of this bill:

"a local health officer may invoke the powers of police officers, sheriffs, constables, and all other officers and employees of any political subdivisions within the jurisdiction of the health department to enforce immediately orders given to effectuate the purposes of this section in accordance with the provisions of RCW 43.20.050(4) and 70.05.120."

In the event of an "emergency detention order," isolation and detainment of American citizens who reside in the state of Washington and who fail to comply with these dictates would be allowed "for a period not to exceed ten days."

If a detained person or family still refuses to get injected during this seven-day period, then a judge may extend the forced quarantine "for a period not to exceed thirty days."

Did you ever think concentration camps would come to America? Think again. It is here if we allow this to happen.

Subject: HIV from the vaccine info

External Email

Did you know IN 2020 that Australia scrapped their vaccine program because they found out in trials that it was giving people HIV positives almost immediately.

At the same time Moderna and Pfizer should have checked their test subjects BUT THEY DIDNT. Even though they KNEW Australia's results.

Now we are seeing a spike in HIV like symptoms in the vaccinated AND AT THE SAME TIME YOU ARE TRYING TO REDEFINE HIV — this seems willful and a purposeful action to cover up and protect RATHER THAN DO YOUR JOB and tell the public the TRUTH

Now there is no denying it - you will be held culpable. There are countless studies showing the potential for this vaccine to be catastrophic to health and life. Have you seen the vast amounts of injuries and deaths on the VARES reporting??

not to mention the insurance companies now stating the general death rate is 40% higher than before covid. You have a part in introducing something DEADLY to the world. Stop now!

Did you also know that IVERMECTIN INHIBITS HIV — there's pub med studies on it but the general population has been banned from getting ahold of it in America.

Meanwhile govts hand it out to citizens in other countries for free.

DID YOU KNOW THAT FAUCI KNEW ABOUT HIV AND IVERMECTIN AS FAR BACK AS THE 80s??? Are you purposely withholding an antidote????

I know many in our senate has been given this drug that we cannot access and I know that NFL football teams have a whistleblower who claimed they started giving it secretly to US teams to keep them from dropping dead on the fields — seems to only for those with power and money.

We see what you are doing. You will be held Accountable -if not now - then when you meet your maker you will have blood on your hands if you do not stop this charade that is causing injury and start spreading truth and health.

Kelley Palomino

Reference:

A 2012 study by Kylie M. Wagstaff et al. found Ivermectin actually prevents HIV replication. The study concluded:

"Ivermectin inhibits infection by HIV-1 and DENV which rely on Imp α /β1-mediated nuclear transport"

"Nuclear import of viral proteins is critical to the life cycle of many viruses, including many RNA viruses that replicate exclusively in the cytoplasm such as DENV, respiratory syncytial virus and rabies..."

Attn: Samantha

I attended the zoom meeting on Jan 12, 2022, in its entirety, and was hoping for the opportunity to share my comments on Items # 8 and # 11. However, I doubt it would have made any difference.

Listening to all those that did verbally share, or made comments in the Q&A box, it was loud and clear that the voice of the people were in unison on their utter discontent of the Board of Health's direction on the matters.

It was also quite clear, based on how quickly the BOH voted to dismiss the Informed Choice Washington's Petition for Rulemaking, that your minds were made up on the matter before you even began that meeting.

It would seem that over 7500 Washington Citizens wasted their time supporting and/or commenting that day. But we ARE not going to be silent or denied our voice. And the number of those involved will double, then triple, and your meetings will need to be held more often and for longer periods so that we all get our 1 minute.

None the less, I just want it to go on record that I SUPPORT the adoption of ICWA's Petition for Rulemaking on agenda item 11, which asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

I also OPPOSE the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I oppose COVID-19 shot mandates, period!

I'm praying for you all and fighting this battle on my knees.

See you in March at the next meeting!

Sincerely,
Anne Burbank

My comment and concerns. I have been writing for over a year now about my concerns with no reply back whatsoever. You along with every other elected official work for us the people. You cannot push your own agenda on the people as that is a democracy. We lead you, not the other way around. As every individual who spoke at the meeting mentioned, you have taken away our right of choice. We the people will not stand by and watch that happen to our rights or our childrens right nor down the line. Since may of 2020 i have had natural antibodies to covid which have not diminished in the last 19 months in the slightest. Mortality rate is at 1.0% for washington state which deems it no state of emergency. The whole last year with a vaccine we stayed at pre vaccine numbers of 1.2% mortality. ALL the mandates need to go and life needs to go back to normal. Our childrens schooling and lives do not need anymore political agendas put into the curriculum. No more masks, no extra jabs (considering washingtons only required vaccine for school is the mmr vaccine which has been tested and had little adverse reactions unlike the covid 19 vaccine) this isnt the holocaust or nazi germany. So stop acting like it is

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Ms. Kahler:

WAC246-100-040 is in direct violation of the Nuremberg Codes, the Helsinki Accords and the U.S. Constitution. I don't see how it ever became a Washington Administrative Code in 2003.

If it ever begins to be implemented, I'll leave Washington State immediately.

I signed up for the public hearing on zoom, but was cut off when I started typing. Thereafter my entire screen was just a blank.

Sincerely,

Diane Eaton

Subject: Washington State Board of Health Public Meeting held January 12

External Email

Thank you for holding this public meeting. I sincerely hope all of you listened and read the feedback in emails and in the Q & A.

Since when did Washington, a state that promotes body autonomy and a person's right to make their own health decisions, turn into an autocratic state that wants to coerce everyone into injecting an experimental substance that does not even meet the criteria of a vaccine (until the definition was changed and re-written) into their body – a substance which creates spike protein that gets into the blood and can accumulate in tissues and organs (spleen, bone marrow, liver, adrenal glands, ovaries), resulting in devastating health consequences (and sometimes death).

How can health professionals who were on the front line treating COVID patients, many who contracted COVID, survived it and developed natural antibodies (far better than any created "vaccine") be FIRED from their jobs for saying no to an injection they do not need that could severely harm them? These nurses, doctors and other health care workers should be treated as heroes. They would be the very best people to be working in the hospitals now, treating the sick, vaccinated patients – because they have natural immunity. Instead they had to move out of Washington state to find work or are trying to get unemployment (most are denied because they won't get the injection). Religious exemptions are NOT being honored, no matter what you may have heard.

How can good citizens who choose not to get an injection be segregated and treated like second class citizens? We cannot eat in a restaurant, enjoy a movie in a theatre, go bowling, etc. Many in Washington now refer to the vaccine passport as a Slave Card because the mandate unfairly targets minorities who are suspicious of the vaccine and won't get it (for good reason). Washington state bureaucrats and media spin this as "Vaccine Inequity" and are doubling down, trying to coerce minorities into getting it.

Why is it that all my family members, friends and neighbors who got the COVID shot(s) and the booster contracted COVID or a variant? Yet the healthy people I know who eat right, exercise, take vitamins, don't get flu shots, etc. survived COVID and obtained natural immunity. Not one of these people contracted Delta or Omicron. Maybe you could learn something from them.

Why are highly respected scientists and doctors who have successfully treated COVID – and not lost a single patient – censored and banned from social media (sometimes even fired) for standing up and telling the truth to try to help save lives? These doctors risked everything by telling citizens how to treat COVID and save their family's lives. Please take the time to listen to these brave Frontline doctors and look at the data.

Why is prevention and treatment for COVID largely ignored while you keep pushing a failed "vaccine" on the public? Why are sick people who tested positive for COVID sent home from medical centers with no instructions on how to treat it. Then later when they come back with COVID in their lungs, they are put on ventilators (where most die).

Why is the mantra "Vaccines are safe and effective" constantly broadcasted on television

ad nauseum? If the vaccine was safe and effective, people would be lining up for them. What other historical vaccine had to be followed up with never ending boosters? Why aren't titres being utilized before receiving an injection as they were in the past?

Have you looked at the VAERS data recently? Have you noticed the rise in miscarriages? How about the record breaking number of vaccine side effects? Have you seen the gigantic rise in Unexplained Deaths? These deaths are not from COVID – you can be sure of that – because even with co-morbidities, if the patient had COVID, that death was attributed to COVID. Many of these people did not have to die.

The agenda you are following is wrong. How many more people have to die or deal with a devastating medical condition for you to wake up? Does it have to happen to someone you love? I have lost two family members (miscarried by my vaccinated niece who was pregnant with twins). I have another vaccinated niece now living with an auto immune disease (presented after vaccination).

Ironically it is our young men and women, (with the highest likelihood of survival from COVID) who are experiencing the worst vaccine side effects. . . young athletic men dropping dead from unexplained heart conditions, young women losing their babies. And now you want to mandate our children (with an over 99% COVID survival rate) get injected? Parents are not going to stand for this. The sleeping giant is beginning to awaken. Which side of history do you want to be on? What will you say when you have to give account for your actions? It is time to do the right thing and admit the failure of this "vaccine".

Give the citizens of Washington state back their freedom.

Jay Inslee is proud to further partner with entities like Black Rock (COPS26 26 in Glasgow). Public private partnerships with an excuse for a crises is the crises of our economic wellbeing that directly impacts the health of our State.

The doublespeak of your administration aligns with communitarian administrative law. It is treasonous to continue with these goals. The science is not in and must yield to questioning risk benefit for the public interest , alternative therapies and individual rights.

The long term trial ends 2026. All of the trusting population, uncompensated to injury, deceived through the false narrative will seek justice.

I oppose your complicit, complacent and omissive representation of health.

As a resident of Washington State I oppose these proposed policies!

Involuntary detainment, examination, testing, treatment, counseling and vaccination has already been determined to be illegal.

Just because additional language has been added to the WAC Codes does not mean that that language has been challenged in the courts and confirmed to be contrary to Washington State Constitution, United States Constitution and various international

laws and treaties which is obviously the case!

These proposed policies MUST NOT be adopted and enacted!

Each and everyone of you bear the responsibility to protect these constitutions as well as the rights of the people of Washington State!

Thank you,

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

1. Lack of evidence that the vaccine is less risky than the virus itself in children
2. FDA approval of only one vaccine at this time without longer term data of potential side effects of repeated doses
3. Lack of trust amongst the public, Inslee and WA State has politicized this issue repeatedly. leading to distrust

To the WS Board of Health, I am writing about my concern for the welfare of the children in our schools. The children are at low risk for Covid. Very few children get severely ill. The emergency vaccines have proven to be very ineffective. They do not prevent the disease or its transmission. There have been very high numbers of adverse effects from the vaccine as well as death. Both vaccinated and unvaccinated have been getting ill. The children also are at high risk for multi system organ failure. I listened in on your first meeting and from what I heard from your own presentation this injection does not meet the criteria for being mandated. Please reconsider and make a wise decision. Do research beyond what you are hearing from mainstream sources. Thank you.

attachments\8C99FFB19AB04EED_VaksTruth1.MP4

External Email

Hello All,

Attached is yet more proof that the Washington Department of Health is nothing but a department of liars. Why WAS NOT this information presented in the meeting on January 12th? ... see attached video. Even main stream media is now being forced to report the truth. You are an insult to We The People's intelligence. The internet is full of videos of people dying and injured from the poison needles. This poison is still in test phase until the end of 2022 and HAS NOT been approved. Yet you continue to lie about fake tests and variants and push this poison on people. You use the word "cases" as a ploy. The CDC has admitted the fake PCR test cannot distinguish between the flu and your fake virus. You cannot prove a virus or its variants exist.

How much longer are you liars going to continue your campaign of mass genocide? You are all guilty of crimes against humanity.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

Fund each family so they can have their children attend whatever school they choose.

I think there is enough rules in the school.

I bet the majority of people will go where their rights are not ripped apart.

Unfortunately the parents who don't care about their children will go with the most economical option. No matter what the rules are. (example; sex education for kindergarten?) That's some sick ideas from some perverted minds.

Seriously, the death rate for Covid does not warrant all this hype.

Subject: REJECTION OF PETITION TO REMOVE ANY EUA BIOLOGICS FROM SCHOOL
VACCINE SCHEDULES

External Email

Members of WSOH,

It is with utter disbelief that I read that you have rejected the ICWA petition regarding the Covid experimental bioweapon. That you would even CONSIDER approving a substance (NOT a vaccine) for children, that actually instructs a human body to manufacture a spike protein, the harmful toxin in Covid, is insanity. It has been proven without a doubt to cause great harm, not only to adults, but to children.

As an employer in Washington I have watched 3 employees become disabled and severely damaged by these Covid bioweapons, (let's call them what they really are), as well as numerous other acquaintances, two of whom died of strokes. These were NOT coincidences, they were a direct result of the Covid bioweapons.

In any other circumstance this would be called assault with a deadly weapon and murder. I only pray that in the future it is prosecuted as such.

Every one of you are enablers and accomplices. Every one of you who are afraid to lose your positions and choose to compromise your ethics, to commit evil upon your fellow human beings and their CHILDREN.

There are numerous US codes and laws that are being broken, including the Nuremburg Code, besides the Bill of Rights, original Constitution, and our inherent and immutable God given rights.

May you and your governor be held accountable for every harm done, and every death resulting from, this biological weapon you are pushing on our population.

That will be your legacy.

Breaking: The UK government admits that vaccines have damaged the natural immune system of those who have been double-vaccinated. The UK government has admitted that once you have been double-vaccinated, you will never again be able to acquire full natural immunity to Covid variants - or possibly any other virus. So let's watch the "real" pandemic begin now! In its Week 42 "COVID-19 Vaccine Surveillance Report", the UK Department of Health admits on page 23 that "N antibody levels appear to be lower in people who become infected after two doses of vaccination". It goes on to say that this drop in antibodies is essentially permanent. What does this mean? We know that vaccines do not prevent infection or transmission of the virus (indeed, the report elsewhere shows that vaccinated adults are now much more likely to be infected than unvaccinated ones). The British now find that the vaccine interferes with the body's ability to make antibodies after infection not only against the spike protein but also against other parts of the virus. In particular, vaccinated people do not appear to form antibodies against the nucleocapsid protein, the envelope of the virus, which is a crucial part of the response in unvaccinated people. In the long term, the vaccinated are far more susceptible to any mutations in the spike protein, even if they have already been infected and cured once or more. The unvaccinated, on the other hand, will gain lasting, if not permanent, immunity to all strains of the alleged virus after being naturally infected with it even once.

Source: https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fassets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/108442/covid-19-vaccine-surveillance-report-week-42.pdf&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Cb693b73e575b43a7c22608d9d7de278e%7C1

The first insurance companies are backing down because a huge wave of claims is coming their way. Anthony Fauci confirms that the PCR test cannot detect live viruses. Anthony Fauci confirms that neither the antigen test nor the PCR test can tell us whether someone is contagious or not!!! This invalidates all the foundations of the so-called pandemic. The PCR test was the only indication of a pandemic. Without PCR-TEST no pandemic. For all the press workers, doctors, lawyers, prosecutors etc. THIS is the final key, the ultimate proof that the measures must all be lifted immediately!

☐ To Washington State Board of Health

I am a grandmother of a child in Washington and am very concerned that you would even consider injecting this experimental poison into a child! I have no doubt that there will be law suits against any and all who try, much like the Nuremberg Trials. I copied the message below but I encourage you to read it and do more research before you make this life changing rule, for our kids and generations to come.

The population of the planet of being taken through the gates of hell over a probably partly-invented virus, which is not unusual in its lethality.

I agree these 'vaccines' were never appropriate & there was ample evidence of global fraud by fear long before that vaccine was prematurely considered for emergency use authorization.

Re-reading Dr Peter Doshi's blog post in BMJ, referencing Pfizer's regulatory submission to FDA, he made some striking observations.

Specifically, he pointed out how THOUSANDS of suspected 'cases' from the vaccine arm of the trial had been "removed from statistical analysis because of "unspecified protocol deviations".

When Doshi reanalyzed the data with all the subject included, 'efficacy' fell to 19% (and not significant).

I know enough about clinical trials & the many conventions that ensure you don't carry undeclared conflicts of interest.

What was done in that trial was clearly improper. In reality, the Pfizer / BioNTech product never even worked in the closely controlled trial.

I also think there is a virus. I'm no longer convinced it's as described but is a blend of genetic material from several different sources.

Three key questions:

1. Do these vaccines work?

I suspect none of them do. Paul & Howard lay out some of the evidence.

2. Are these vaccines safe?

They are absolutely not safe. They are responsible for huge numbers of horrific injuries & deaths in completely unprecedented numbers, based on review of public vaccine safety monitoring systems in the US, U.K. & Europe.

3. Are these vaccines necessary?

No, not at all. If anything, deaths rise immediately after mass vaccination started almost everywhere when the data was good enough to examine. On the other side of the medical ledger, excellent treatments have been identified & used, 85-90% of severe illness & death was prevented.

Given the foregoing, that these are not vaccines, they don't work as vaccines, they're massively far away from any acceptable safety profile & there are low cost, well understood drug treatments, why would you allow anyone to stick a needle in your arm?

I beg of you: if you've not been vaccinated, do not capitulate now. If you've been vaccinated, reject the bribe of some of your freedoms bank (aka vaccine passport).

Giving in to tyranny always leads to more tyranny.

We must not cooperate with our own entrapment. I keep a good eye out on many countries. It is clear that one objective is to lure us all into a VaxPass database. Then we'll have to show it in order to buy food. Now you cannot protest, or you'll go hungry. Ultimately, it's my deduction that the evil perpetrators will exploit their tyrannical powers to kill off the majority of the human race.

Something like this has been planned for close to 40 years. See The Georgia Guidestones

I am opposed to making COVID-19 shorts mandatory for school admission or childcare in our State for the following Reasons: No trust in Inslee, he is a dictator. He called his own citizens terrorists. He's the terrorist. No mandates anymore. Washington government and Inslee needs to admit they were wrong with mask mandates, schools closures, vaccine mandates. Most normal Americans are living normal lives again, but not us. Under Inslee's authoritarian rule it's awful. I hope you all lose your jobs and have to work minimum wage, weekends, nights, holidays, etc.

I would strongly urge you to not make this decision based on one county in our state (King County) Please take into consideration over half of this great state is strongly opposed to this and will stand to lose a tremendous amount of students if this implicated. The state has already received the Covid relief funds and the only people standing in the way of our right to choose for our children is you. The science shows that children are less effected by the virus than adults. And with the highly contagious Omicron variant most people have immunity now. This madness needs to stop! I am encouraged by the amount of parents who have written in to you. Please listen to us, the children have to get enough vaccinations to be in school as is.

Thank you for the opportunity to participate in this zoom call. It truly was an eye opener that confirmed why the WA State Board of Health can't be trusted along with other government agencies. It was good to hear and see that the public is not putting up the tyranny, it was truly refreshing. Clearly you were not prepared that the public would stand up and fight for our constitutional rights.

The propaganda push of the "vaccine" was strong (changing the definition in the dictionary is not fooling the public). The numbers you showed were so blatantly wrong and manipulated. It is a fact that more 'vaxxed' folks are the ones that are sick since their immune system is now compromised. We all know that the PCR test is faulty and had to be pulled by the end of 2021. To this date NOBODY has been able to isolate the actual 'SARS-COV2' virus, the best you can come up with are two flu-strains! With that said, there is no way to decipher any 'variants' either. Perhaps you should call various REAL doctors (that are not owned by the hospitals and/or big pharma – or local politicians) and ask what type of tests they are using to figure out which 'variant' anybody is sick off. Fun fact – there is no such test! All these 'variants' are made up simply to push fear into the public and bullying them into taking a 'vaccine' that is deadly for many. The VAERS report was brought up numerous times during the call. Your slide show did not refer to these facts when the 'vaccine' was pushed as safe and effective. You are supposed to protect the public, not harm us!! Here is the link to the report, in case you have misplaced it <https://vaers.hhs.gov/>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fvaers.hhs.gov%2F&data=04%7C>>
. Another fun fact is that only about 1% of the adverse reactions/death are being reported thanks to doctors being bullied into NOT reporting them. It is unbelievable the amount of vaccine injuries that you, the board, so blatantly and willfully ignore. What is worse is all the folks that died from this 'vaccine'. This jab alone has killed more citizens than all other vaccines that have come out in the last 20 years COMBINED. Yet here you are pushing the public to get jabbed! I for one, am looking forward to seeing this board on trial for crimes against humanity. It is time for you to stand up against the bully Inslee and stop forcing Washingtonians to wear a mask (so worthless!) and remove any discussion about forcing people into getting the death shot. It should be entirely up to the individual to decide if they want the 'vaccination' or not. You have failed to provide real data as to who actually died OF covid! Not WITH covid! The CDC finally admitted that over 75% of the folks that passed have died with up to 4 co-morbidities. The virus was NOT the cause for these people to die. You guys made up the number so spread the fear. Paying hospitals an insane amount for every virus death is crazy and has caused many of folks to lose their lives unnecessarily. Your refusal to allow Ivermectin, HCQ and other remedies is also unbelievable. These should be the very thing to prescribe to ANY

virus/flu patient because they work (I can personally attest to that). YOU, the board, along with Inslee and Ferguson, have DESTROYED the lives of children, every resident of this state along with the economy – all for money and power. This is absolutely sickening and you will be held accountable for this. With this said – stop the vaxx mandate immediately, stop enforcing masks, stop the vaxx passport nonsense immediately and remove the awful WAC 246.100 and 105 immediately because we all know Inslee will use it against the public. You also need to set the hospitalization/staff overload issue straight – fact is that we have less nurses and doctors because you either fired them for not being jabbed or they left on their own to protect their health. This alone should be an eye opener for you that this jab is NOT good for our health. More fun facts - our own healthy immune system is by far better than any of your jabs. Insinuating that the 'vaccine' will last longer than our immune system is absurd. Mine lasted for 60 years now and is getting stronger by the day. If you really want to help the public (like you were elected to) then perhaps stop the public from going to any fast food 'restaurants' or buy 80% of the crap that is being sold as 'food' in the grocery stores. Quit discriminating against the vaccine-free folk, we will not wear a David star no matter how hard you push Hitler's old agenda (I have studied the Hitler disaster at length in a German school, just FYI. American schools have removed facts from history books and will not teach the truth).

Detainment camps! How dare you claiming there is no such thing when you own/lease hotels that are used to push the sick into it. The state also owns many places like the one located at 375 SW 11TH ST, Centralia. You either blatantly LIED during the call or you are blatantly IGNORANT on what is going on within your organization! You have job listings out looking for employees! Isolation/Quarantine Site Manager (Program Supervisor I) King County \$33.73-\$42.75/hr, Isolation & Quarantine Facility Staffing – COVID-19 Response Thurston County \$22/hr, Temp Emergency Management Worker – Snohomish County (salary)

In closing – start working FOR the Washington citizens like you are supposed to, stop the 'vaccine' madness immediately along with the mask mandate. Stop your propaganda as the public is on to you!

Thank you for taking the time to read this! I am looking forward to the next zoom call which I hope will be better organized and will not just cut off the citizens when they have the floor and/or you don't want to listen to them anymore.

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

I am OPPOSED TO ALL COVID SHOTS, a DIABOLICAL \$ making scheme greater than any PONZI scheme the USA/world has ever been DELUDED with! Time for all Judeo-Christian organizations to boldly declare: WE're in the END TIMES! Many world-wide leaders , WEF-World Economic Forum , are loudly calling for ONE WORLD GOV'T! This fits SCRIPTURE: Books of: Daniel, Revelation, Matthew ch 24, Mark ch 13, Luke ch 22! In JESUS' Words, all is before us!

Wan-a-be TYRANTS, like Inslee, must be told!

He, all Dem elites, all so-called judges/lawyers/SCOTUS in the USA, have/had NO AUTHORITY to cancel our States/CONSTITUTIONAL REPUBLIC!

Thomas Jefferson proclaimed all AUTHORITY for LAW/Jurisprudence rests firmly with of-by-for-through our CREATOR GOD JESUS CHRIST! The first paragraph of the DECLARATION OF INDEPENDENCE proclaims "the Laws of Nature," and "of Nature's God." Jefferson quoted Sir William Blackstone's COMMENTARIES OF THE LAWS OF ENGLAND , which clearly, concisely define the true basis for LAW (for all people, nation's, kingdoms, tribes, etc)

SCOTUS of 1960's violated GOD's AUTHORITY! The USA has been on a descending roller coaster since! Recently, through SCOTUSBLOG, I contacted them to rectify our collapse into chaos they must: overturn all past court rulings which VIOLATE GOD's ETERNAL,IMMUTABLE LAWS (enshrined in all human's □□): 1- LIFE sacred from conception till natural death. 2- MARRIAGE one man-one woman; male-female. 3- PRAYER, BIBLE, 10 COMMANDMENTS taught for all schools/universities as they were from the 1700's till 1960's!!!

Nation /all Americans, state by state , on hands & knees , beg JESUS' forgiveness and REPENT: 2 Chronicles 7:14!

WA STATE, all states must end computer voting; all the machines have a Chinese imbedded ALGORITHM! Return to paper ballots; cancel early voting; must register no later than one month ahead with proper picture ID. Count votes manually with cameras present throughout and citizen observers!

I am opposed to making COVID-19 shots mandatory for school admission or childcare in our State for the following Reasons:

WAC 246-105-060 gives health officers power to exclude unvaccinated children from school during outbreaks regardless of any granted exemptions, while at the same time, there are studies being conducted surrounding homeschooling including Harvard whose preliminary reports have been published in magazine articles. A member of the Harvard study groups said " parents shouldn't have 24/7 authoritarian control of their children". Unelected bureaucrats will have the power to force children to get vaccinated to attend school, deny exemptions to unvaccinated children and exclude them from attending school, while at the same time outlawing homeschooling. Homeschooling has already been outlawed in Germany. Remember the large homeschooling family from Germany who came to America to keep their kids from being taken? Our country denied them and forced them to return to Germany.

I don't trust our govt. to do anything right regarding our children. I am a retired public schoolteacher and multigenerational WA resident, and I don't trust our govt regarding our children's health or education.

Elizabeth Rohr

P.s. your religious exemption class I attended in Graham, Wa was awesome and I was able to type the letter that helped my daughter receive her religious exemption at Centralia College in the IT Dept. She kept her job and we thank you for that.

Subject: interview with Dr. R. Malone, creator of mRNA

External Email

Greetings to the members of the Washington State Board of Health,

Here is a link to an interview with the renown Dr. Robert Malone, who as you know, was the creator of the mRNA which is in the Covid 19 shots.

<https://www.bitchute.com/video/RbEtHaVCeNYs/?fbclid=IwAR0S2F-BXgfoXHpap9w4y44q39Zn0si8IPhXEKZxUvSsf8rG0AdZ2-jQrrY>

This is submission part of my public comment for the SBOH zoom meeting next Wed. Jan. 12, 9:30-3:30. I ask that you all watch this interview in advance and responsibly consider the information here in preparation for the discussion of vaccinating school children with the COVID19 product and other agenda items on Jan. 12.

Thank you very much!

Dear Representatives,

I am a registered Democrat. I believe in vaccines, my husband and I are vaccinated. However, my 7 year old will not be vaccinated. There has been no proof that covid will affect my healthy child that has 0 pre-existing conditions. There is some data showing that the covid shot can cause side effects like enlarged heart, and I have seen and read about perfectly healthy children having reactions and myocarditis in relationship to taking the vaccine. Isn't going to happen for my child, she will not take the vaccine. Force my hand, lose mine and my husbands vote.

Sincerely, Penny And Richard Brijalba

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Thank you so much for making this format available!....and with all of my heart, I ask that you please do your research and watch Dr. Malone and get the real facts. Also please read Robert Kennedy Jr.'s new book on Dr. Fauci.

Doctors should definitely not be threatened with losing their licensing for speaking out about what they are seeing with their patients as a result of the shot

As you know, just yesterday the WHO suggested boosters are a failure

I invite you to do more researchespecially in regards to our beloved children. Also please understand that one day you could be arrested and charged with criminal negligent homicide.

Bottom line....We are a country of freedom of choice....this is what our country is founded on...This is why we left England!

Asking that our precious children risk their lives for something that hasn't ever been properly investigated and studied is such a crime against humanity!

This vaccine mandate for our precious children is not only unconstitutional....It is immoral!!!

Please go deep within your soul and sincerely ask what is the most loving thing to do....not the most popular or lucrative

Also please know that many parents have taken their children out of our state....and many more plan to do the same....Is this what you want?..... Please examine your motives.....these precious children depend on you to make the best and righteous decision. I ask that God guide each one of you to do that.....as not only will the children live with the consequences of your choice.....but also will you.....into forever!

May you be guided to do what is in the best interest of our children

Sincerely,

Lucia Smith

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

Subject: Jan 12th board meeting

External Email

Thank you for clarifying my concern about the notices I recieved informing the citizens how you would change WACs to support child immunizations, covid camps and use of police to enforce lockdown restrictions.

With your hardy denial of these topics being on the agenda I did not hear the needed "and these things will not happen" statement needed to calm the citizenry.

We are in the midst of an endemic now and although there is a high rate of infections the deaths are decreasing, symptoms are not as bad and the delta strain is being overtaken by Omicron. This is almost done and by April covid will be over as an pandemic/endemic.

I was also disappointed to see that, although there are several off label drugs that could save lives and which that you specifically detailed their scarcity, you failed to include a continued search for a reliable source of these inexpensive drugs in your list of next steps/future action. Possibly an oversight or maybe a reliance on big pharma new fangled more costly options. You folks may have to clarify that in the future.

Thank you for time. I join with many other folks who will be monitoring the boards meets and action over the next few months.

Respectful

Sue Magruder

Subject: Conclusion from Dr. Geert Vanden Bossche

External Email

Hello Board and TAG,

Please see another article including the opinions of top virologist Dr. Geert Vanden Bossche, who has worked in top positions for the Bill & Melinda Gates Foundation, GlaxoSmithKline, and Novartis.

Dr. Bossche has concerns about the new mRNA vaccines adversely affecting the Innate Immune System of children and their ability to respond appropriately to other childhood viruses.

<https://www.lifesitenews.com/news/top-virologist-injecting-kids-with-covid-vaccines-is-an-unforgivable-sin/>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.lifesitenews.com%2Fnews%2Ftop-virologist-injecting-kids-with-covid-vaccines-is-an-unforgivable-sin%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C0c3941c87f4c488cc6f708d9d70011b3%7C11d0e2>>

It is amazing to me how much new insight we continue to gain daily as the virus evolves and the adverse indications from these experimental mRNA vaccines come to surface. The more I learn as time evolves, the more grateful I am that my family chose to decline the vaccines until more research had evolved and that we have already successfully survived an early version of Covid with only the need for home therapeutics and supplements.

I hope you will take the time to read, listen, and consider this new information.

Regards,

Erika Clough, Concerned Mother and Citizen of Washington State

External Email

To whom it may concern:

I, Tiffany Jagars, want it to be known and have MY VOICE BE HEARD LOUD AND CLEAR, that I 100% DO NOT agree with any of these proposed policies in any way shape or form.

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

It has come to my attention that you are considering 2 steps that are methods of "government overreach" which my family and I strongly disagree.
I not support the use of police officers (or sheriffs, troopers, border control agents, etc.)
To force people & or families into quarantine facilities. We have NOT even tested or restricted ALL of the illegal aliens who have bomb-barded our borders, untested, unvaccinated, etc. Government works for "we the people" not Big PHARMA or political hacks or people who choose to live in fear.
Neither do I want Covid vaccine to be added to school mandated vaccines especially with the ADVERSE Reactions that we are hearing have gone severely under reported.

This is Not in the best interest of Washingtonians!!!

Sincerely,
Mrs. James M Nelson

This States meeting or consideration about Emergency Containment facilities is absolutely disgusting and wrong. How can u look yourself in a mirror and think this is just or even human. People's choices about their own health and those of others is theirs to make and not our politicians to over reach and force. Seriously comparing concentration camps to this is not a stretch. I am so disappointed and disgusted that this is even a consideration. And will be sending this info to many. Sneaking this January 12th meeting without it being out to the people of Washington is criminal and should be legally challenged if it is pushed.

Subject: Just remove quarantine bill altogether

External Email

Hello,

I don't know where it's coming from, just the fact that the law is there. Regardless of how someone feels, or if it is used or not, just the fact that it's there means there will at be at some point be a door that someone has to use eventually. Just close the door entirely and eliminate any and all confusion. Especially since you said it was voluntary or a safe place for high risk homes or the less fortunate, ect.

Thanks,
David Fish ☐☐

Subject: Question about hospital capacities

External Email

Why is the state of Washington doing absolutely nothing to increase hospital capacities and incentivizing current/potential new healthcare workers, and instead forcing the common people to go into lockdowns and restrictions after almost TWO YEARS of the pandemic?

I am not a covid denier whatsoever, I acknowledge the benefits of masks and vaccines; but at what point are we going to go back to normal? If the argument for these safety measures is to prevent the healthcare system from being overwhelmed, why has the state utterly failed in addressing that problem, and instead reacting to the problem by enacting restrictions on us citizens, who are ultimately paying the price for the state's incompetence?

Frankly I was pretty shocked by the condescending behavior of the board members or whomever made the comment about public concerns regarding quarantine facilities being "crazy". I personally have seen videos of the sign at the Nisqually one. Tribal land or not, Inslee scratches native American backs for votes and I'm pretty confident he has access to that facility if needed. Also, I'm saddened that you abruptly just cut off a person's testimony without letting them know their time is almost out. It's rude. Not to mention how little time they're given. I understand you had 7500 people wanting to give testimony, but that should tell you the level of concern of the public (who pay your check). Try to use common courtesy in these events because it just causes less trust in you and more anger. And, I'm asking that you not be sneaky as you kick this subject down the road (now that you made national broadcasts, and are in the lime light), by trying to implement these over reaching "rule changes" when the public is distracted by other insanity going on in this state and country. I implore you to not add Covid (or any other NORMAL illness that you guys like to label something scary to) to your excuses to detain or control people. The sheriff's have a Constitutional right to not follow anything they find harmful or disruptive to the public they serve and how dare you try to use scare tactics with the threat of misdemeanor or gross misdemeanor charges if they refuse to help you do your dirty work. Last I heard this is America and we don't play like that. This is WA state... not Inslee state. Please grow a pair, and stand up to him and be more thoughtful in how you treat the public you're supposed to serve. I don't know what you benefit from my kissing his hiney. Anyway, I do appreciate that this last webinar was made public and I appreciate that so far you are not approving those ridiculous rules. Thank you. May God Bless you in your decisions and I wish you good health and happiness.

I am an attorney with 31 years of experience. One third of that experience was as a prosecutor. Your plans to arrest people without Probable Cause are unconstitutional. Moreover, if anyone arrests my clients, we will sue the state for unlawful detention and arrest. The Governor is acting like an authoritarian and trampling on our liberty. This will not be forgotten.

January 13, 2022

Mr. Stephen Kutz

Dr. Thomas Pendergrass

Mr. Keith Grellner

RE: BOH meeting of January 12, 2022

I would like some clarification on a couple of items that were discussed at the Jan 12, 2022. I did not register to make a public comment, I just watched and listened to the meeting online.

At about the 4:42 minutes mark on the meeting live video there was an attempt to clarify the public's concern over quarantine camps. Mr. Kutz stated that "to his knowledge there were no enforced quarantine camps that existed and none were being set up or built". Mr. Greller stated, regarding quarantine camps, " they don't exist", he was "not aware of any mandatory isolation camps" and "the accusations are not true".

Then why did the state of Washington have this job posting that closed November 2, 2021?

<https://www.governmentjobs.com/careers/washington/doh/jobs/3233390/isolation-quarantine-strike-team-consultants-ps2-non-permanent-doh5814?keywords=DOH5814&pagetype=jobOpportunitiesJobs>

Earlier in the meeting a BOH member (I do not know who) wanted to discuss and clarify the public's concern over "isolation and quarantine camps". That person said that per WAC 246-100-040 an individual would not be mandatorily quarantined and that every individual would go before a Superior Court judge so the health official and the individual could present their case to the judge, i.e. no one would be mandatorily quarantined.

That is not what the language in WAC 246-100-040 states.

<https://app.leg.wa.gov/WAC/default.aspx?cite=246-100-040>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault.aspx?cite=246-100-040>

040&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Caf86fa7f9db8481f35c708d9d9cc69e6%7C11d0e2172

(1) At his or her sole discretion, a local health officer may issue an emergency detention order causing a person or group of persons to be immediately detained for purposes of isolation or quarantine...

(2) (2) A local health officer may invoke the powers of police officers, sheriffs, constables, and all other officers and employees of any political subdivisions within the jurisdiction of the health department to enforce immediately orders given to effectuate the purposes of this section in accordance with the provisions of RCW 43.20.050

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FRCW%2Fdefault.aspx?cite=43.20.050>

(4) and 70.05.120

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FRCW%2Fdefault.aspx?cite=70.05.120>

.

(3) (3) If a local health officer orders the immediate involuntary detention of a person...

Yes it does state: NOTICE: You have the right to petition the superior court for release from isolation or quarantine in accordance with WAC 246-100-055

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault%2F100-055&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Caf86fa7f9db8481f35c708d9d9cc69e6%7C11d0e2172>

. You have a right to legal counsel.

But this is after an individual has been detained.

There is obviously so much more to WAC 246-100-040 but I hope you can see why the language of this is so concerning to citizens. Can you not understand this concern? This WAC is quite extensive and alarming as to the potential overreach of government power. I would appreciate your response.

Thank you,

Victoria Dyer

I'm here to remind you that we the people are not in support of WAC's that contain language and actions to force vaccinate, force isolate and force quarantine citizens of Washington state and whole USA.

I do not consent to any of this force.

I request you remove such force from being considered and replace with "educate the citizens and allow them to regulate themselves"

My large family will be listening and participating in BOH meeting today.

Sincerely
Citizen of Washington State and USA

Subject: Jan 12th BOH meeting Feedback

External Email

Hello,

I listened to the meeting in its entirety. The data presented by the DOH is incomplete. The data does not follow the WHO statistics or look at natural immunity as a means to immunization. With only vaccinations being the method control, this is a politicized board and meeting, not in the best interest of the people or goal to control COVID. With data being provided by the world not being accepted by the state of Washington, this means the board has predetermined its view.

Also, during the meeting it was mentioned the quarantine centers were only for non-state residents traveling in the state, but the guidelines[1] in the DOH are the opposite of this and does speak[2] about forced compliance to the state residents. Incorrect information was presented in this meeting and needs to be correct for accuracy as to not erode trust with the people the board serves.

I will be a large advocate in this matter to ensure the truth is sought out and misinformation from political position are reconciled as we have seen with Inslee, Supreme Court Justices and the President of the United States. Scientific journals that under peer review need to be addressed and reviewed and misinformation is not just blindly used as we saw today. I will follow the BOH and DOH to hold them accountable for correct information in advocacy of vaccines and the goal to reach immunity numbers, not just vaccination compliance numbers.

[1]

<https://www.doh.wa.gov/ForPublicHealthandHealthcareProviders/EmergencyPreparedness/IsolationandQua>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.doh.wa.gov%2FForPublicHea>

[2] Likely to be used when: Not as confident the individual will comply with a Voluntary Request for Voluntary Isolation or Quarantine; when the Local Health Officer believes the formality of the order with police enforcement and fine will better ensure compliance, or there is no time or ability to secure a Court Order (i.e., person ready to leave jurisdiction, need to impose quarantine on a weekend or at night and no prearrangements were made to locate a judge in an emergency).

*****Attention : Mr. Tom Pendergrass *****

From: Laurie Sherwin <Ldsherwin@comcast.net>
Date: January 17, 2022 at 12:04:33
Subject: Thank you!

☐AttentionMr. Tom Pendergrass

Hello Mr. Pendergrass,

I recently wrote a letter to the BOH, concerning the meeting about covid immunizations being considered for the required immunization schedule. I also gave thoughts on the reading of the meeting agenda concerning (what many felt were changes from HIV to COVID) the possible use of our police to enforce quarantine requirements or treatment, etc. on unvaccinated citizens. The mandates and flip-flopping of CDC information, has made generally passive citizens, turn into a more fearful & untrusting majority.

Anyway, I didn't think the HIV "re-wording" on the BOH agenda, was a huge jump to re-wording "HIV testing" , to Covid testing, quarantining, etc.

Why would this item, in particular, come out of nowhere and be included with the possible addition of Covid immunization to our children's school requirements? It seemed surprising the reaction from Mr. Grellner & yourself, watching the Zoom meeting, with this subject. It seemed rather logical actually. The sheer number of emails your board received might have concluded that.

The reason I'm emailing this to you specifically is because I'm extremely happy with your stance concerning this subject. Even before the vote, by the entire board, I loved everything you said about not rushing this process and diligently looking at current data that is changing all the time. I am extremely disappointed in the lack of trust toward our science " experts", as well as, political leaders that are suppose to be representing us.

Honestly, can you blame the public for the mistrust? I appreciated you voicing this & hopefully working to change that. You seemed very genuine and sincere. Thank you for giving me some reassurance that the end result will have come from your groups deep dive into accurate data & research.

When I've looked at certain studies & data, I'm increasingly surprised at the "conflict of interest" a lot of these have. I know you are familiar with this, being a doctor. I'm just hoping that you can educate your information finding group when looking at true validity in the results. Our government has done a horrible job in accurately collecting data concerning Covid-everything!

(sorry, not very technical) Data, deaths, co-morbidity & Covid, etc. etc., especially on children. Other countries have done better in this arena. Germany, Japan, France, England, Netherlands, Australia, Spain & China all show valid proof of low transmission rates by children & results of children contracting the disease.

I've decided to send a book to your office in Tumwater, rather than citing my claims here. I know you are very busy but the information is there. It references many findings that the U.S. media failed in reporting, for whatever reason. The book is Pandemia by Berenson.

Our country, unfortunately, reports and spreads fear, faster than this disease. Our society consists of headline readers & few take the time to determine the validity, before running to their social media sites to share the "new information". Our government and agencies haven't helped clarify facts and data, and have made it worse with conflicting guidelines & questionable state mandating.

A citizen wanting fair and more accurate information is left shuffling through endless studies and scientific trials, (if they can find them), and news articles from various news sources around the world. Isn't this what our trusted U.S. media sources are suppose to do? It's no wonder we all have "trust issues".

I sincerely apologize that this email is long and wordy. I really wanted to just send an email to thank you for your responses in the last meeting. Whatever information is submitted and shared in the Covid immunization group, I'm sure, will be well cited & diligently reviewed.

The public deserves at least that, when it comes to our children's health. I'm sure you agree.

Thanks again,

Laurie Sherwin

Ladies and Gentlemen,

It was a relief to hear that it is a false rumor and that putting Americans in covid camps and requiring k-12 vaccinations "would not be addressed today."

I care so much for our freedoms that it left me wondering whether or not the Board meant they might address it later?! The Board said nothing to assuage our fears. I wish you said, "The Board of Health would NEVER entertain proposing taking away your freedom because of Covid or ANY other reason."

I just wish you would have addressed it and stated your thoughts on proposing to have us arrested and imprisoned for anything Covid-related.

I'm saying this because it just kinda seems like maybe the government in Washington State is looking for a way to impose it's will on The People and take away freedoms one tiny little piece at a time so as to not raise suspicions, i.e. "Death By a Thousand Paper Cuts."

Do you blame me for my fears, what with all the local media covid coverage in the last 2 years?! It turned into a major propaganda machine back in early 2020 and is still going strong in 2022.

I just wish you had said, "These rumors are horrible! We'd never propose draconian laws about covid in Washington!!" But you didn't. So what's The Boards' feelings on the matter?

Thanks.

Scott Shafner.

Subject: Medical Tyranny and internment camps

External Email

To Washington State Board of Health Members:

I have been informed that the Washington State Board of Health may soon amend state law to authorize the involuntary detainment of residents as young as 5 years old in Covid-19 "internment camps" for failing to comply with the state's experimental vaccine mandate.

WAC 246-100-040,

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapps.leg.wa.gov%2FWAC%2Fdefault.aspx?path=WAC%2F246%2F100-040&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C40bad2ca340c4249d6b208d9dac724dc%7C11d0e217>

a proposed revision to include Covid-19 protocol under the state's Communicable and Certain Other Diseases act, outlines "Procedures for isolation or quarantine." The measure would allow local health officers at "his other sole discretion" to "issue an emergency detention order.

Forcing any person to get the Covid-19 vaccine as described above is a clear violation of the Nuremburg Code. There was a day of reckoning after the atrocities and murders committed by German soldiers during the 1930s and 40s. The Nuremburg Court handed out severe sentences to many of the high officials who said they were "just following orders" (read Governor's mandate).

Soon there will be a day of reckoning for our Health Services Boards and departments, hospital Boards and high level employees across the country who are "just following orders" to use the CDC protocols for Covid-19 patients. You don't want to be one of those making medical decisions for others.

It is also outrageous, Un-Constitutional and evil. You cannot take away the God-given rights to life, liberty and the pursuit of happiness as guaranteed by the Declaration of Independence. You are also in Violation of the 4th and 5th Amendments of our Constitution.

WAC 246-100-040

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapps.leg.wa.gov%2FWAC%2Fdefault.aspx?path=WAC%2F246%2F100-040&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C40bad2ca340c4249d6b208d9dac724dc%7C11d0e217>

is nothing short of evil. Do the right thing and don't follow in the footsteps of the Adolph Hitler and Joseph Stalin in setting up internment camps (also known as concentration camps)

Respectfully
David Assael

Subject: End Student Mask Mandate

External Email

I am asking you to end the mask mandates in school. I believe that masking students should be decided by the parent. Permitting Washington parents to make decisions on where and when to wear masks permits parents to make the best decision for the circumstances confronting each child. Parents can assess the risks and benefits facing their child, consult their medical providers, and make the best decision for their children based on the most up to date health information available.

RE: Urgent Notice to the Washington State Board of Health Regarding Mandating the Covid-19 mRNA Vaccines for All Students Across the State

To: Washington State Board of Health members and consultants

i: a woman; Vija Rogozina; write a Notice of Liability to you; a man/woman, who at times serves as a Board Member or a Consultant.

i; a woman, do not consent to your heavy-handed approach to my health and health of my child. I do not give you the authority to impose any medical procedures on me, my child, or on any human being that does not choose of their own free will your offerings of "public health" in a vaccine trial. I follow medical science closely; raw data is clear that children have close to zero risk of covid death. No risk, no benefit.

Here are three reasons for NOT mandating genetic mRNA vaccine for all Seattle Public School students:

1. Please refer to the recent German study, which concludes that for COVID-19 related symptoms in 5-11-year old children without comorbidities the risk of death is zero.

<https://www.medrxiv.org/content/10.1101/2021.11.30.21267048v1.full.pdf>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.medrxiv.org%2Fcontent%2F>

2. The Pfizer mRNA vaccine causes catastrophic side effects, particularly heart inflammation (myocarditis and pericarditis) in youth. The CDC's own analysis of "Myopericarditis following COVID-19 vaccination: Updates from the Vaccine Adverse Event Reporting System (VAERS)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fvaccines%2Fadverse%2Fmyopericarditis%2F2021-08-30%2F03-COVID-Su-508.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C96a0f941999f47ab7df708d9dae88969%7C11>

" showed astonishing increases particularly in children ages 12-15, 16-17, and 18-24.

<https://www.cdc.gov/vaccines/acip/meetings/downloads/slides-2021-08-30/03-COVID-Su-508.pdf>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cdc.gov%2Fvaccines%2Fadverse%2Fmyopericarditis%2F2021-08-30%2F03-COVID-Su-508.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C96a0f941999f47ab7df708d9dae88969%7C11>

508.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C96a0f941999f47ab7df708d9dae88969%7C11

3. Please review Pfizer's 6-month data. I'm attaching the document along with the link under "breaking news" called "More Harm Than Good." Although this is from Canada, we share lots of information, because we are all using the same vaccines.

<https://www.canadiancovidcarealliance.org/>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.canadiancovidcarealliance.org%2Fbreaking-news%2Fmore-harm-than-good.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C96a0f941999f47ab7df708d9dae88969%7C11>

I also urge you to go to the VAERS database and study statistics of adverse vaccine events and mortality. The numbers reached over one million cases in December 2021 and more than 21,000 Americans have died after becoming part of the largest human experiment in history.

The mistrust the public is experiencing is due to the extreme measures that have been taken against the people and coercive unethical measures that have not been supported by the actual data: https://covid.cdc.gov/covid-data-tracker/#trends_dailycases

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcovid.cdc.gov%2Fcovid-data-tracker%2F%23trends_dailycases&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C96a0f941999f47ab7df708d9dae88969%7C11

tracker%2F%23trends_dailycases&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C96a0f941999f47ab7df708d9dae88969%7C11

People are informed, aware, and very unhappy that medical procedures are being mandated and yet have not proven to stop the spread, stop transmission, nor stop hospitalization as was touted in the beginning of rolling out these vaccines. People are also aware of fraudulently hyperinflates numbers of unvaccinated cases due to a new definition of 'fully vaccinated' as per Jan 5th, 2022, which refers to 'Fully Vaccinated & Boosted' vs "Fully Vaccinated" & "Not Boosted, Partially Vaccinated", "Vaccine Free". Vaccine breakthrough cases increased by over 1.1 million confirmed breakthrough cases from November to December, which explains fraudulent statistics given to the American people.

With so many risks and little benefit, i, along with many others, intend to hold those responsible for bringing forth the mandate for Covid-19 vaccines to all students and any potential health damage. I ask you to consider the repercussions of force, mandates, and new laws that hurt the freedoms afforded us by God or the ones supported by the US Constitution. It is our privilege and duty to protect our children from any and all harm.

So, i urge you to vote from your innermost consciousness, with regards to data and with a Precautionary Principle in mind. Do not follow the directives and social pressure from the institutions that might be implicated in willful misconduct. Ask yourself: What Would Consciousness Do?

i, sincerely thank you for your community service. It is only because of the people on the ground, like you and i, that real change is ever possible. i, sincerely believe that this still

holds true! Thank you once again for honoring the Hippocratic Oath, Nuremberg Code and Precautionary Principle by voting NO.

Sincerely,

by: Vija Rogozina

Attn: Hannah

I attended the zoom meeting on Jan 12, 2022, in its entirety, and was hoping for the opportunity to share my comments on Items # 8 and # 11. However, I doubt it would have made any difference.

Listening to all those that did verbally share, or made comments in the Q&A box, it was loud and clear that the voice of the people were in unison on their utter discontent of the Board of Health's direction on the matters.

It was also quite clear, based on how quickly the BOH voted to dismiss the Informed Choice Washington's Petition for Rulemaking, that your minds were made up on the matter before you even began that meeting.

It would seem that over 7500 Washington Citizens wasted their time supporting and/or commenting that day. But we ARE not going to be silent or denied our voice. And the number of those involved will double, then triple, and your meetings will need to be held more often and for longer periods so that we all get our 1 minute.

None the less, I just want it to go on record that I SUPPORT the adoption of ICWA's Petition for Rulemaking on agenda item 11, which asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

I also OPPOSE the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I oppose COVID-19 shot mandates, period!

I'm praying for you all and fighting this battle on my knees.

See you in March at the next meeting!

Sincerely,
Anne Burbank

Hi,

Enough, leave the kids alone!

As a parent, experimental drugs need to left for the parents to decide what's best for their child case by case.

This one size fits all nanny state is ridiculous.

Experiment on your child, not mine.

Thank you,

Justin Smith

As a tax payer in Thurston County I am surprised to learn that the BOH is considering adding the Covid vaccines to expected immunizations for children attending school.

You do realize that vaccines need years of trial before they can be deemed safe, and yet, you are considering using the children as a ONE SIZE FITS ALL for the vaccine?

I have grandchildren in the public school system. It needs to be their parents choice whether they take that vaccine or not. It has not undergone years of trial, and has been handed out like candy. You are the candy pushers if you say, yes.

I am opposing your decision before you even officially make it. So, what do I need to do next?

Thank you for your time,
Jennifer Champlin

Rules Hearing Continuance – Communicable and Other Certain Diseases, Chapter 246-100 WAC

To whom it may concern,

I am extremely bothered that the BOH meeting on 1/12/22 allowed people to continue to share misinformation during a hearing on HIV rule making above. You knew that misinformation was out there, and did not manage the zoom appropriately. Please manage your future meetings better. It is never good when you allow lies to railroad a meeting or hearing.

Dallas Lyle
HIV Advocate

From: Rebecca Lonam
Sent: 1/12/2022 3:10:40 PM
To: DOH WSBOH
Cc:
Subject: Public Comment for WAC codes 246-100

External Email

In one instance you are saying that this meeting was misrepresented to the public and is only about clarifying and de-stigmatized HIV and has nothing to do with COVID-19. Yet when reading the statement for record you said this hearing was convened to help prevent the spread of COVID-19 and improve social distancing rules.

It appears to me the revisions presented since 2020 are intended to generalize the terms away from HIV so that the WAC codes now can cover the new communicable disease of COVID-19?

In the outline you state the purpose of this hearing was for adding and removing terminology to be more consistent with Bill ESHB 1551. As well as modernizing the control of "certain" communicable diseases.

I would like to address some of these concerning terminologies that you may be changing in the WAC codes to be more consistent Bill HB 1551

Such as Sec. 2. RCW 70.24.017

(13) "Sexually transmitted disease" means a bacterial, viral, fungal, or parasitic disease, determined by the board by rule to be sexually transmitted, to be a threat to the public health and welfare, and to be a disease for which a legitimate public interest will be served by providing for regulation and treatment.

I am concerned that you are making it out to be only HIV that is being redefined and or de-stigmatized by generalizing the terminology. Yet it appears that by de-stigmatizing HIV you are broadening the term to now possibly include anything that you want to classify as a communicable disease.

I would argue for clear definitions of your intended reach and label each disease you will be enforcing these WAC codes over, instead of leaving them so broad and open that you can enforce them on any disease you deem "to be a threat to the public health and welfare" (Sec. 2. RCW 70.24.017). I think that would put thousands of concerned citizens minds at ease.

To address the fact that there are so many of us that do not trust your Technical Advising Board made up of highly educated and professionals, yes it is sad, but the mis-trust is there for a reason. Don't you think? So maybe more of an effort should be made to quell this lack of trust by building trust through true transparency and making us feel like our public's voice is actually being heard. And having board members who are speaking from both sides of the issue.

Thank you,
Rebecca Lonam

Subject: WAC 246-100

External Email

Dear WA Board of Health,

I am a WA resident of 28 years and attended the January 12th Zoom meeting. I registered to attend the meeting and requested time to speak but was never called on, so I want to make sure my voice is heard. As elected officials appointed to act on behalf of the well-being of your constituents, the outpouring of concerned public comment in the meeting was a clear indicator that the wording of WAC 246-100 is too broad and needs revision to safeguard against abuse of power. In the Procedures of isolation or quarantine WAC 246-100-040 (7), it states, "State statutes, rules, and state and federal emergency declarations governing procedures for detention, examination, counseling, testing, treatment, vaccination, isolation, or quarantine for specified health emergencies or specified communicable diseases, including, but not limited to, tuberculosis and HIV, shall supersede this section." In the meeting you focused on the communicable disease of HIV, but clearly this sentence indicates that "any specified health emergencies or specified communicable diseases" would warrant the implementation of the WAC 246-100 procedures. In the meeting you repeatedly stated that this did not pertain to COVID, yet WA has been in a perpetual state of emergency due to the communicable disease of COVID which clearly fits the description listed in WAC-246-100-104. Public commenters implored you to make a revision to this rule to specifically exclude COVID so that the citizens are not in danger. This is the ONLY path forward if you wish to act on behalf of the well-being of WA citizens, and wish to clear any misconceptions about this rule.

I ask that you revise WAC 246-100 at your next meeting on March 9th, to exclude SARS-CoV-2 (COVID-19).

I ask that you be transparent with the public about the agenda for the upcoming meetings, so that the public can be informed and voice their concerns.

If your intent is to build trust with the public, you must be willing to listen and act on behalf of your constituents who are funding this state with tax dollars.

Sincerely,

Nancy Baker

Respectfully to the State Board of Health, January 18, 2022

As a parent, grandparent, and lifelong citizen of Washington State, I thank you for being responsive to public concern and comment in your public forum meeting on Jan. 12, 2022. It is unfortunate to see so much misinformation on both sides. The confusion and mistrust are understandable in the climate that we live in. The authority and trust of the Health Department and SBOH are of legitimate concern in regards to use and abuse of this authority. There are probable links to what has been regulated and what can potentially be added in the future to our WACs. This brings up legitimate concerns for informed citizens.

The social issues connected to vaccines is already causing discrimination against those with health issues, natural immunity and other personal reasons who are choosing to not be vaccinated. This in turn is bringing division, fear, distrust, criticism, shaming and polarization of healthcare (just for starters).

I ask you as leaders over our public safety to consider these questions:

- * Why should the public trust "professionals" who do not address the risks of the vaccines or the available data on injuries due to receiving the shots? What keeps these same community leaders from sharing the current data on the rate of infection among the vaccinated? (Would this nullify the narrative that "this is a pandemic of the unvaxed".)
- * Why are agencies and entities working overtime to silence and discredit so many legitimate doctors and scientists? (I think this is a really great question to research!)
- * Why are vaccinations made to appear as the only form of prevention when statistics are proving they are not highly effective against infection and spreading the virus? Why are other forms of prevention not even considered and discussed by so-called healthcare professionals? Since experimental vaccines are proving to not be as effective as first thought, shouldn't we be focusing on and investing in anti-viral treatments?
- * How is the Omnicom variant different from the flu virus?
- * Where does natural immunity and herd immunity fit into all this?
- * Your expert presented a slide showing that 5.5 million people have been vaccinated as of Jan. 9. How many of this population are currently continuing to show positive for infection?
- * Why are there "limited antivirals and monoclonal antibodies" as reported by the DOH Board Member?
- * Why is DOH not acknowledging a portion of healthcare staff shortages are in part due to the firing of unvaccinated employees? (Many of whom had already been exposed to COVID and tested negative with natural immunity.) Why? Please tell me why does this not seem to matter?
- * Why are healthcare workers who are vaccinated and test positive with mild symptoms currently being called back in to work – while unvaccinated employees testing negative have been fired?
- * Does any of this sound as crazy to you as it does to me (and so many)?

Again, I ask you to seriously consider these questions. Take them home with you and think on them. I appreciate hearing any answers you may have. Moving forward I hope you will represent the public's right for medical freedom to choose or not choose a vaccine (medical procedure or medicine). I ask you to stand with me for informed consent and freedom of choice.

Respectfully, Mikki B.

External Email

Thank you for allowing me an opportunity to send this email.

I would like to express my sincere concerns with the decisions of this board and the supporting administration/government. The decisions seem more political and less medical. One example: Lockdowns were designed and intended to assist in not over running our hospitals, yet the hospitals are back to being in an overrun situation. Our overrun hospitals now, are due to the decisions of the administration of our state, not by an increase in hospitalizations due to covid complications.

The science has been changed and is ever changing to fit a political narrative and agenda. Logic is not being used. Critical thinkers and anyone that questions the decisions by our government is deemed crazy and following non-science. I have read some of the same reports that the CDC is using for their decisions and I can see why the public is confused and questioning, the government decisions do not necessarily match the actual medical publications recommendations. In addition, I noticed a lot of recommendations coming directly from pharmaceutical manufacturers which seems to be a conflict of interest.

This hyperfocus on this one illness is taking away much needed resources for all other disease and illness. This hyperfocus also has impacted our economy negatively, which will have an increase in illness on our population over the coming years.

Start listening to We The People. We The People are made up of professionals and layman, and are educated and smart and wise and all are seeing and feeling the negative impact from this government's poor decision making with regard to this illness.

Be critical thinkers and make the changes that need to happen, even if they are not popular and especially when it is the right thing to do.

Thank you for your time.

Subject: Communicating With Board Members

External Email

Dear Sir/Madam,

Please forward this email for the attention of Bob Lutz, local health officer:

Can you please clarify your response to the statement by the Chair at 04:31:00 of the public meeting (recording 1) of January 12th 2022, as follows:

"Dr. Lutz, this one's for you. Section 040 says that if a health officer issues an order for isolation or quarantine, that in order to take someone against their will, it actually HAS to go in front of a superior court judge via a hearing before, em, so that both the person who's positive or needs to quarantine, and the health officer both get to plead their cases to a judge, and only a superior court judge can order someone into quarantine against their will or isolation. Is that correct?" (emphasis added)

Your response: "Thank you Chair, you are absolutely correct. I mean it follows due process and so I think that any concerns that this would not follow due process is laid out very clearly by statutes".

My request for clarification is due to the apparent incongruence between your above agreement with the Chair's statement and Section 246-100-040 wherein it is stated:

"(1) At his or her sole discretion, a local health officer may issue an emergency detention order causing a person or group of persons to be immediately detained for purposes of isolation or quarantine in accordance with subsection (3) of this section."

And subsection (3) states:

"(3) If a local health officer orders the immediate involuntary detention of a person or group of persons for purposes of isolation or quarantine:

1. The emergency detention order shall be for a period not to exceed ten days." (emphasis added)

Whilst subsection (4) of Section 246-100-040 does provide for a hearing prior to

detention, the ten day emergency detention order in subsection (1) does not require a hearing. The detained individual does have a right to petition the court for release from quarantine subsequent to detention. So Section 040 (in part) authorizes immediate detention on the order of a local health officer and therefore in order to take someone against their will, it actually DOES NOT have to go in front of a superior court judge via a hearing.

Considering the concerns that were raised by citizens on this very matter earlier in the meeting, your agreement with the Chair's incongruent statement, without alluding to the conflicting emergency detention procedure, appears incorrect and misleading. As you act as a local health officer, entrusted with complying with Section 246-100-040, can you please state if you possess the power outlined above in Section 1 (i.e. immediate detention) and if you would enforce this power prior to petitioning the court.

Sincerely,

Denis Mulcahy.

Mr. Stephen Kutz

Dr. Thomas Pendergrass

Mr. Keith Grellner

RE: BOH meeting of January 12, 2022

I would like some clarification on a couple of items that were discussed at the Jan 12, 2022. I did not register to make a public comment, I just watched and listened to the meeting online.

At about the 4:42 minutes mark on the meeting live video there was an attempt to clarify the public's concern over quarantine camps. Mr. Kutz stated that "to his knowledge there were no enforced quarantine camps that existed and none were being set up or built". Mr. Grellner stated, regarding quarantine camps, " they don't exist", he was "not aware of any mandatory isolation camps" and "the accusations are not true".

Then why did the state of Washington have this job posting that closed November 2, 2021?

<https://www.governmentjobs.com/careers/washington/doh/jobs/3233390/isolation-quarantine-strike-team-consultants-ps2-non-permanent-doh5814?keywords=DOH5814&pagetype=jobOpportunitiesJobs>

Earlier in the meeting a BOH member (I do not know who) wanted to discuss and clarify the public's concern over "isolation and quarantine camps". That person said that per WAC 246-100-040 an individual would not be mandatorily quarantined and that every individual would go before a Superior Court judge so the health official and the individual could present their case to the judge, i.e. no one would be mandatorily quarantined.

That is not what the language in WAC 246-100-040 states.

<https://app.leg.wa.gov/WAC/default.aspx?cite=246-100-040>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault.aspx?cite=246-100-040&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C51e0f71ab4444cfbf4af08d9d6e272c6%7C11d0e2172>

(1) At his or her sole discretion, a local health officer may issue an emergency detention order causing a person or group of persons to be immediately detained for purposes of isolation or quarantine...

(2) (2) A local health officer may invoke the powers of police officers, sheriffs, constables, and all other officers and employees of any political subdivisions within the jurisdiction of the health department to enforce immediately orders given to effectuate the purposes of this section in accordance with the provisions of RCW 43.20.050

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FRCW%2Fdefault.aspx?cite=43.20.050>

(4) and 70.05.120

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FRCW%2Fdefault.aspx?cite=70.05.120>

.

(3) (3) If a local health officer orders the immediate involuntary detention of a person...

Yes it does state: NOTICE: You have the right to petition the superior court for release from isolation or quarantine in accordance with WAC 246-100-055

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fapp.leg.wa.gov%2FWAC%2Fdefault%2F100-055&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C51e0f71ab4444cfbf4af08d9d6e272c6%7C11d0e2172>>
100-
055&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C51e0f71ab4444cfbf4af08d9d6e272c6%7C11d0e2172
. You have a right to legal counsel.

But this is after an individual has been detained.

There is obviously so much more to WAC 246-100-040 but I hope you can see why the language of this is so concerning to citizens. Can you not understand this concern? This WAC is quite extensive and alarming as to the potential overreach of government power. I would appreciate your response.

Thank you,

Victoria Dyer

I have one question, it was made clear at the beginning of the call that there was misinformation regarding the agenda for the call. It was said that those items would not be discussed "TODAY" (this statement was made several times).

That implies that the "misinformation" would be discussed at another time.

And I guess what is "the misinformation"? How do we know unless you clearly identify what it is?

Sincerely,
Candy Porter

SBOH Board,

Thank you for the meeting yesterday. I am still concerned about the rules that you talked about. You continuously noted the Covid Mandates i.e., quarantine locations and rules were not part of the discussion or decisions being made. However, in 246-100-050 you do have that language. Since the conversation was the WAC 246-100 did you mean to keep separate conversations/rules for each of the chapters?

You also stated the State has set up quarantine locations to facilitate homeless and people that need a place other than home to quarantine. Who is responsible for those locations? I would expect the SBOH to be the responsible agency due to the nature of needing medical coverage and the rules that need to go with a location that is helping sick people. I believe that is the job of the Health Department.

Need to understand how you separate the rules you covered when they are in the on WAC Section.

Regards

Colleen Wise

Thank you for respectfully allowing the public to engage in today's meeting. It was interesting to hear the Board clarify some misinformation and provide insight on how the rules are considered and the lengthy process involved in making public health decisions. I am still not very knowledgeable about the proposed rule regarding HIV residents, but I support any assistance the state can provide to help those individuals be able to live safely in society.

Best of luck to the Board with making decisions on both rules today. While everyone may not agree with whatever the final outcome is, I pray that the decision ends up being what is best for most Washingtonians.

My feedback is as follows thusly:

Watching the board going through the motions of taking input so they could do as they pleased was the last straw for this citizen. They protest to much!! Legally speaking, any first year law student knows that a term defined in code applies to the ENTIRE code. The fact is, any crooked politician can now use the new definition of the word "isolation" to apply to any disease or purported disease they wish. Well, all the SARS-COV19 panic has done thus far is show how incredibly broken and corrupt our "leaders" are.

Courage is contagious. Hearing 100% of respondents speaking against the traitorous actions of "our" officials... and their (the board's) weak attempts to deny any culpability in these affairs was so encouraging for the attendees... and hey, can you please call "Lesko, Brandon" to speak again? Funny how that didn't make the news... yet.

NOBODY trusts any of the board now, period. Thank you for showing your true colors, and adding your faces to the wall of tyranny for all to see. The fake outrage the media has given to the "false information given about the camps" is enough proof to show that the information is right on the money. Speaking of money... how much ARP money was the price to buy your souls?

While I despise every spin and deception that this board and staff are guilty of, the only avenue of redress I have is to stand, and not comply.

The narrative of emergency has colapsed.

The emperor has no clothes.

Y'all might want to consider the possibility that the change coming... is not under your control. Might want to make some new friends. Any bets on who gets tossed under the bus first? I know who my money is on!

Well, I figure this is mostly pointless, but I have to try.

Forgive them Lord, for they know not what they do.

Blessed are the peacemakers, they shall find peace.

Subject: Concerns about Rules Hearing Continuance – Communicable and Other Certain Diseases, Chapter 246-100 WAC

External Email

Hi, Shawn Pennington here, a concerned citizen. I just tried to speak on the Rules Hearing Continuance – Communicable and Other Certain Diseases, Chapter 246-100 WAC

Almost no one talked about the matters at hand. I have concerns about the terminology and further implications of what these rules could mean.

Here are my main concerns:

1) This law was originally written for criminals who were knowingly giving other people HIV with out informing the sexual partner. At the time, catching HIV/Aids was a guaranteed death sentence or at least an autoimmune disease. This was NOT created for any airborne/blood borne pathogen where people can have it and not know it,

where we are dealing with a novel virus with ever changing, arbitrary rules to follow,

where the said pathogen has a high survival rate.

2) The term "Blood borne pathogen" is much too broad of a term which might end up including sars cov 2/covid 19, or might include blood borne viruses in the future that do not pose a safety threat that is worth giving law enforcement/military the right to infringe up the rights of free citizens. This term might define something that is no more dangerous than the common cold. This term can be used to broadly define many airborne/bloodborne pathogens (even ones that are no danger) so that the arbitrary rules can be SELECTIVELY enforced upon anyone the rule maker chooses to enforce it upon. A political opposition, a business owner who threatens the corporate profits of a company buying out the said rule maker, a person who practices natural healing instead of using big pharma recommended drugs. It can be used as a way to detain whoever they wish whenever they wish.

3) Giving the power to the authority figures who create arbitrary, ever changing, rules is VERY dangerous for the citizens and will further damage the health of Washingtonians and will further divide the people. We have all seen how the covid 19 rules have changed and how even the definition of words have changed. For example during this covid crisis we have seen them change the definitions of the words vaccine, herd immunity, Anti-Vaxxer. Many of the rules are arbitrary, like wearing a cloth mask into a restaurant and immediately taking it off once you sit down. Many of these arbitrary rules were absolute failures like lock downs and many of the rules do not actually follow the real science. Giving the power to authority figures to change the rules whe ever they please and to allow law enforcement/military enforce these rules is fascist, communist, tyrannical, and authoritarian all in one. Think about the control systems we are setting up for future generations. The lands of the free will become a long distant memory.

4) If we are truly focused on the health of Washingtonians and not just simply trying to have more control over them, then we can spend the money it would take to do this and instead use it for promoting health, through propaganda, supplements, preventative care, helping the homeless, etc. etc. The absolute last thing we need to do for public health is give power to the rule makers so they can set up ever changing rules as the "science" changes, so they can selectively enforce these rules. Science coming from institutions with conflicts of interest is NOT science.

5) It would be horrific and cause worse health to take citizens rights away from the result of a faulty PCR test, or some other test, or because they chose not to inject our bodies with experimental big pharma products, or because they broke one of the always changing, arbitrary rules.

6) It is so clear and obvious of how this would go wrong and be used for ulterior motives that my only question is why are you trying to do this? Are you being paid big money to do so? Are you or your families being threatened? Do you hate humanity? Do you actually believe authority figures ONLY want the best health for the citizens? Do you actually trust that the future rule makers wouldn't use this for horrific reasons? How is this even on the table for consideration? Time to go back to the drawing board and put your time and our money into things that actually promote good health.

It would be wonderful if you let me know that you received this email and my concerns. In the meantime I will go over all the documents again to make sure I fully understand what the implications are. It doesn't take too much imagination to see how these broad terms can be used to selectively enforce arbitrary rules.

Thank you for your time,

Shawn Pennington

Subject: WAC 246-100 over reach

External Email

Greetings,

I am fully vaccinated and have received the booster for COVID19. This was my own choice to keep me healthy and I encourage others to do the same. However, I would never force someone else to be vaccinated. It is my choice what I do with my body. It is shocking to consider law enforcement involvement and it will only polarize us and create havoc. The constitution protects us from this over reach.

We have had waves of the original COVID19, Delta and now Omicron. This virus will continue to mutate. Each of these variants has less severe symptoms. The seasonal flu also has complications with hospitalizations and deaths. We should not increase over zealous control for an illness that has become more like the seasonal flu.

Forcing our health care workers to be vaccinated or loose their jobs is impacting their shortage.

I take responsibility for basic health measures, such as not touching my face in public, washing my hands and using hand sanitizer. Since I started these habits I have not had a flu or cold for over 5 years.

I appreciate the information and services from the Board of Health. But please do not become a tyrant and polarize the people of Washington state.

Thank you,

To all members of the Washington state board of health:
I am writing to voice my concerns over the proposed policies WAC 246-100 and 105. I, as well as many other concerned citizens, am completely against such policies and strongly believe them to be an over reach on the part of our government. The long term effects will be detrimental to the families of our state. Please consider the voices of the people you work for and do not pass these policies, which infringe on our basic human rights. Imposing these policies on the people will be a terrible mistake. Let freedom ring!

Well put together presentation last week for the zoom meeting. This past couple of years has been very challenging for everyone and you on the state board of health hold a big responsibility. It can't be easy, and you are likely mandated to use only certain resources for your information.... including the CDC. If so, many of us have a lack of trust considering the CDC's conflicts of interest holding ownership of many vaccine patents and ties to the pharmaceutical industry.

There are vast amounts of data from highly credentialed people that indicates a very different reality regarding these covid vaccines than wherever/whoever it is you are getting your information from. It's pretty easy to find this data once you know where to look.

Pay attention to VAERS. It is a difficult process to report to VAERS and VAERS is more likely to be inaccurate due to a lack of reporting. You cannot do an acceptable job gathering information regarding these vaccines and dismiss the information here.

Overlooking data from numerous credible sources (especially those with no conflicts of interest) does a disservice to the citizens of this state. Has anyone there taken a deep dive into the work of some of the nation's best doctors who have successfully treated covid patients and kept them out of the hospital over the past almost 2 years?

One such example is the FLCCC whose experienced ICU doctors dared to be real doctors and treat their patients as to how they were presenting and not by what the CDC said was acceptable at the time. As time passed what these UCU doctors had been doing became the accepted protocol.... using corticosteroids.

People's lives are at stake. There is no time during a pandemic to wait for what a committee has decided is acceptable and especially not from those who are not actively treating patients. The minute there were issues with these vaccines, they should have been halted and examined. The minute safe repurposed drugs were showing promise, they should have been made readily available and distributed as widely as these vaccines have been.

It seems obvious looking back that the vaccine was always the goal. Follow the money. Why else would safe effective successful early treatments have been vilified and censored and credible data, scientists, doctors, etc. silenced?

Best Regards,

C. Solvie

Hello-

Here are my questions regarding agenda items 3-5 in the presentation today:

1. Can you please provide the actual numbers of unvaccinated vs fully vaccinated people hospitalized for covid-19? Not as a percentage, but raw number of cases.
2. Can you please provide a list of all current and planned quarantine facilities for use with WAC 246-100?
3. What is the WA DOH's current stance on use of preventative/early covid-19 treatments like Ivermectin, HCQ, Vitamin D, Vitamin C, and Zinc?

Thank you

To whom it may concern -

Citizens were not fabricating this idea. WAC 246-100-040 should be deleted from the books.

This has happened internationally in several countries. It is happening now. Given these two data points, citizen concern is valid and warranted. We do not appreciate the insinuation that we are fabricating unwarranted concern.

Regards, Erin

To the Washington State Board of Health members,

I'm a registered voter here in Washington and would like you to vote NO for the mandate of children to have to have the Covid vaccine to go to school. I believe that medical decisions and treatment should be between the person/family and their medical providers only.

Thank you for your time,

Elisha Lane

Dear Lindsay,

Please say NO to this terrible idea. Please add my name to the list of those pleading against this travesty. Please do NOT require Covid vaccines for children to attend school. Children are at extremely low risk for Covid. The risks hugely outweigh the benefits. Vaccines are STILL only authorized for EMERGENCY USE ONLY. They are not verified. We have absolutely NO long-term studies to demonstrate safety. Studies DO show that both vaccinated and unvaccinated can both transmit Covid. Therefore, the vaccine apparently does NOT stop the spread of the virus. There is a HUGE risk and no benefit. Please, consider the needs of the children. They do NOT need the vaccine! Please vote NO! No Covid shots for children!!!

Respectfully,

Alex

Subject: Covid-19 Mandates

External Email

The people of Washington State have been under covid mask mandates for about 2 years. Yet, the state Health Board tells us Covid-19 is not going away. Isn't that proof that these mask mandates are NOT working!

It's time to stop this mask nonsense and give people their freedom back! Stop the unconstitutional mandates!

Sincerely,
Lonnie Eiseman

enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children. Sent from my iPhone

Covid does not need to be included in these definitions. Treatments are available and most people isolate at home. This is an unnecessary, unreasonable and unethical expansion of an already questionable WAC chapter.

This kind of overreach into people's private lives must be stopped. Requiring papers to move about, and now concentrating people into "Isolation camps" has no place in our free society. Someone needs to stand up against the tyranny that's been imposed on the citizens of state and country. Please realize the damage you are committing by perpetuating these ridiculous and overreaching mandates.

The currently required Vaccinations have had appropriate long term safety trials and results. These covid vaccines will not be through those trials for many more years. It is irresponsible for the Board of Health to require this new product be injected into ANYone, but especially small children. Children have been and could be harmed by this vaccine, either now or in their futures. We simply do not know at this point what the future effects will be. The effectiveness of these vaccines are proving to be much much less than we were initially told or expected. People who are vaccinated are still catching and spreading

covid. How does having the vaccine make someone "safer" to be in public or school if they are still able to spread and catch covid? The answer is they are NOT any safer to be in a public space (restaurant, school or concert) than an unvaccinated individual. It is grossly negligent to even consider adding covid vaccination to the required school vaccines with this information.

I know my comments won't help, inslee has his mind set on total domination and dictatorship of our state. The camps have been created, the workers have been hired. It's just a desperate plea to anyone who will hear, that will look inside themselves and at facts and realize THIS. IS. WRONG. Please stand up for us. For our children's future. For life liberty and the pursuit of happiness.

We beg you.

Dear BOH members,

On 12/30/21 I wrote to you regarding school vaccine mandates. I am again writing to you after viewing your last Zoom meeting on Wednesday. Although you made it clear that a decision was not to be made in that meeting, there are some remarks that were made in that meeting that I would like to comment on.

First of all, I would like to just remark on how the meeting was conducted. Disabling chat, stating that the BOH wouldn't be reading or answering questions posed during the meeting, starting the meeting late due to "technical difficulties", starting the meeting with what seemed like a propaganda piece about Omicron and vaccines designed for viewers rather than for the board of health, and having atrocious sound quality throughout, these all seem very much like diversionary and manipulative tactics. Let it be noted that I did watch your previous Zoom meeting that had much less viewership and somehow there were no technical difficulties and from my recollection, nothing resembling propaganda or fear porn. It was clear in the previous meeting also that most if not all board members seemed to think that school Covid "vaccine" mandates are a good idea. In this past meeting, you guys seemed to want to mostly portray neutrality and talk as little about the subject as possible but at the end, Tom Pendergrass made a comment that he doesn't understand people nowadays because when he was a kid, parents happily lined their children up for the Polio vaccine. Clearly, he walks into the scenario with a bias irregardless of any science. To even assert that Polio in regards to children is the same as Covid in regards to children are anything alike is ridiculous and poses a question of whether this man has the capability to be reasonable, scientific, or objective. Maybe it's time for him to retire? We are talking about injections that pose more potential risk to children than the virus. The benefits DO NOT outweigh the risks. In fact, the benefits really do seem to be a fantasy. At the start of the presentation, in that silly propaganda piece it was stated that there are "diagnostic difficulties" in regards to Omicron and then just a couple of minutes later it was stated that Omicron is the dominant variant. How in the hell is it possible to know that it's the dominant variant if it is hard to diagnose??? In regards to ALL supposed variants, many labs don't do whole genome sequencing. If you ask Rite Aid or Walgreens to test you for a variant, they can't and they will tell you so. So, how in the hell do they know who had what variant? In the presentation it was also stated that vaccines lessen the severity of the illness. How can this possibly be measured with so many variables from one individual to the next? Besides individual variables, you cannot possibly presume to know how sick an individual would have become without a vaccine. You simply do not know this. Period. A lot of this and many other facets surrounding Covid seem like conjecture at best, complete and utter BS at worst and you would use it to justify forcing injections on children!? You are horrible excuses for human beings to even consider such things. Your decisions are hurting people and destroying childhoods. These vaccines should no longer be given to anyone. The overwhelming evidence of possible harms is more than enough reason to not only reject even a consideration of mandates but also to simply halt them. The non existent benefits DO NOT outweigh possible risks and the emergency situation DOES NOT exist. The only emergency is governmental overreach and an overstepping of the bounds of powers that you are entitled to. Rest assured, if you push your bounds further you will see a backlash. The response at your meeting on Wednesday was only the slightest hint of a taste.

Here is my last letter from 12/30 for reference:

am writing to plead with you to NOT make the Covid "vaccine" mandatory for children to attend school. There are many reasons not to move forward with this. First of all, children ARE NOT at risk from Covid and the current panic driving variant, Omicron varies from basically no symptoms to a very mild flu. For most it seems to be like a head cold. So, should we also require vaccines for the common cold? Or allergy shots? The CDC even just admitted that the severity of Omicron had been overblown. Children have gone through this supposed pandemic for two years with no vaccine and come through it fine but now that we have a much less deadly variant, they must be mandated a vaccine to obtain an education? The emergency situation is and has been grossly exaggerated both in response and case numbers, particularly for children. There is no emergency situation for children outside of the policies which are destroying their childhoods. Driven by agencies like the BOH. They are absolutely at more risk from these shots and from detrimental policies than from Covid. Even if you go by the official data, you will see that the numbers do back up this statement.

Another reason not to force injections on children, is that adults can all get the shot if they want it and that has been the case for some time now. This is actually the same reason to force it on NOBODY, regardless of age. If these shots work then anyone who thinks they need them can get them and should be protected. Anyone who doesn't think they need them or not badly enough to assume the possible risk should be allowed to make that decision for themselves. If they don't work then nobody should get them quite frankly. It's no less than assuming risks with no benefits. To argue that children should get these shots to protect adults who already have chosen to get injected themselves is NOT scientific, is contrary to even minimal common sense, and is frankly extremely cowardly. Which brings me to my next point, these shots are NOT working, clearly. First, they said 99% effective, then 95%, then it was in the 80s, then 70s... Eventually, a booster was announced as essential. Now, they are already saying that a fourth shot will probably be necessary. Talk of a booster anywhere from every 9 months all the way down to every 2 months is getting tossed around. It's now looking like the powers that be would like boosters to be given at least every three months. CLEARLY these shots don't work as a vaccine should. Natural immunity is and has always been superior. The science on that didn't suddenly change. Only the narrative changed. By now, anyone who hasn't gotten the shot more than likely has natural immunity. Obviously superior to something that only supposedly lessens symptoms for a few months and doesn't stop transmission or spread (publicly admitted by the CDC, Fauci, and all other highly questionable authorities that we are supposed to blindly trust). So, what sense does it make to mandate them?

Next point, these are experimental and not all information on them is available. You cannot force experimental injections and you cannot force injections without FULLY INFORMED CONSENT. We do not have all information available still on these shots. So nobody has had fully informed consent. That CAN'T be denied under any stretch of the truth. Tell me, what are all the ingredients? What are the long term effects? Bet you can't answer either. Go to your local pharmacy and ask the pharmacist. They also cannot accurately answer those questions. Before you go off on the Pfizer FDA approval narrative, stop. Comirnaty, the FDA approved version isn't available in the US and isn't being given. The emergency use version is still being given. I'm going to go out on a limb and say this is because Pfizer has legal protection under the EUA. An EUA which isn't valid for the following reasons: 1. We are NOT in an actual emergency situation. The only emergency happening right now is the fear mongering, reactions by officials, and policies being enacted. 2. As soon as an FDA version was approved the EUA became null. Both cannot legally exist simultaneously. The EUA should have ended right then and there upon approval. The lame excuses for not omitting the EUA and replacing it with Comirnaty DO NOT add up. It's all about liability protection and nothing more. 3. There are and have been since the beginning, viable effective and safe treatments available for Covid. I'm not talking about the harmful and potentially deadly protocol of using

Remdesivir, or Midazolam, or intubation that most hospitals used throughout the pandemic. I'm talking about Ivermectin, Hydroxychloroquine, supplements, elderberry, zinc, other fairly benign therapeutics, etc. If valid, effective, and safe drugs are available then the EUA can't be enacted. Which is exactly why they demonized Ivermectin, a drug which has proven very safe for humans from infancy to geriatrics for decades. Our own government previously called it a wonder drug. So, no the EUA isn't valid. Not by any stretch of the imagination.

Another point, the officials and pharmaceutical companies involved have been caught blatantly lying and contradicting themselves about safety and efficacy of the vaccine and the severity of Covid over and over again. They have been caught lying with data, lying with intentionally fudged and inadequate clinical trials, lying in press briefings, and lying by omission. Just in the past month, they have told us that two shots aren't enough and a third will be necessary. Then, they began saying ok, looks like a fourth will be necessary. Are you going to mandate children get a Covid booster every two or three months to attend school? The CDC has recalled their PCR tests because they aren't accurate but this isn't new. They new for quite some time that they aren't accurate for diagnostics and are prone to false positives and very quietly admitted as much months ago. Yet, they stated that they wouldn't recall them until December. They also stated just a couple of days ago that people should not test after quarantine (as was their previous recommendation) because they could still test positive for two weeks even though they are no longer contagious. They also just shortened the quarantine time to 5 days stating that they had previously made it as long as they thought people would tolerate. What is that supposed to mean? Is that scientific? Is it scientific for Biden's vaccine mandate to not have been planned to be implemented until after Christmas? Why wait if there's a supposed emergency with no other valid treatment options? Why wait a whole year after vaccines were available? So much of this doesn't make sense and it's being pushed by people who keep contradicting, exaggerating, and just flat out lying. Many of whom have questionable investments or financial interests tied to the pandemic. So, we are supposed to use their word as the basis of whether to give families the choice of an education for their child or bodily autonomy?

We can see from outbreaks in the most vaccinated countries in the world (Israel, Gibraltar, Iceland, and Singapore are examples) as well as a multitude of outbreaks from vaccinated only events and vaccinated only cruises that these shots do not work and almost seem to be generating illness. It has to be noted that we didn't see talk of scary variants and didn't see as many cases before the vaccine rollout. After the rollout, as the injections multiplied so did the case numbers. Not concrete proof but compelling enough reason to be hesitant and to investigate why. If nothing more, it's certainly proof of ineffectiveness. If you force everyone to get the shots, you do away with the control group. Maybe that's part of the point? Control groups are part of the scientific process. Doing away with them isn't trusting the science. It's actually dangerous and negligent. Particularly in an experimental situation.

The vast majority of reports on VAERS are from the Covid injections. As of December 17th, due to the Covid shots: 20,622 deaths reported, 108,572 hospitalizations, 983,756 reports. Almost 1,000,000 VAERS reports and you have the nerve to pretend these are safe in your Zoom meeting? Dispicable. Quit lying to yourselves and everyone else. You're ruining the lives of adults, families, and children so you can keep your jobs and maintain some authority and feel like you're a right fighter but you're teetering on an edge that you could fall from very rapidly. We are seeing way too many side effects and "breakthrough cases" to call either rare. Stop these ridiculous, tyrannical policies! In your Zoom meeting you just boldly claimed without supplying anything substantial or otherwise to back it up that these shots are safe, effective, and cost effective. False, false, and false! Play Russian roulette with your own body and money. Not mine and not my child's body.

Mandating experimental injections is a violation of the Nuremberg code. The emergency

situation isn't valid. It cannot be demonstrated under our current situation, especially not in children. Start thinking about how you will defend yourself in court if you enact this because you will deserve to be tried for war crimes and against children at that. It is also a violation of UNESCO-

<https://en.unesco.org/themes/ethics-science-and-technology/human-genome-and-human-rights>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fen.unesco.org%2Fthemes%2Fethics-science-and-technology%2Fhuman-genome-and-human-rights&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Cf0158a9acb447c2e7fe08d9d91ce847%7C11d0e21>

This is simply a violation of common decency, laws aside. The stripping away of bodily autonomy, stripping away of medical privacy, stripping the ability to acquire money, ability to achieve an education, and freedom of movement based upon a false emergency should scream to everyone that it is evil and wrong and must have an underlying agenda. Particularly when children get dragged into the situation. If you're really interested in doing the right thing then you won't do this.

I am more than happy to send anyone at the BOH links to a multitude of information, including from governmental sites, from the mouths of dissenting scientists and doctors, from whistle blowers, from articles, from videos, and from scientific studies. This is too important to go on ideology, talking points, conjecture, and "just doing my job". Please make the right choice. You have a lot of lives in your hands. History will judge you harshly if you go through with this. How high do you want to stack your deck of cards?

My response to the mandatory Covid vaccines. I have questions. But, First, I want to say, the virus is real, I've never denied that. The risks from Covid are far greater without the vaccine. I respectfully disagree.

In early 2020, the mainstream media scared me like I've never been scared before. The media said this new virus coming out of China was going to kill 2 to 3 million Americans in a month. They said, We need to shut down life as we know it to flatten the curve. Stay home, only essential workers could go to work. After one month into the media's pandemic, I didn't see millions of American falling over dead in the streets and I started doing my own research.

I have learned that everything Dr. Fauci says is fake, phony and false. I also learned that 95% of the mainstream media is owned by six corporations and they push their own agenda (we can talk about this later). The virus is real, but this is not about a virus.

Fauci said "masks work". They don't. The over the counter mask has the smallest opening of 80 microns. The largest covid virus droplet is 60 microns. There are warnings on the new boxes of masks that say the mask doesn't protect an individual against the Covid virus.

Fauci said "Social distance, 6 feet apart". There's no peer reviewed scientific evidence of this. We know the virus spreads through airborne transmission for more than six feet and remains infectious in the air from minutes to hours.

Fauci said get a vaccine, they're 100% safe and effective. This is a lie, people still catch Covid and spread Covid after vaccination. The CDC admits this.

When you pick up a prescription at the drug store, you're provided a monograph, which gives you detailed information about the drug. Pro's, Cons (side effects). Did you get a monograph with your vaccine shot? No. Why? Because Big Pharma doesn't hand them out with vaccines! Did you ask why? Did you question the shot?

Why are members of the US Congress, SCOTUS, the rest of the federal courts and their respective staffs exempt from the vaccines?

If the vaccine is safe and effective, why is the FDA asking the court to block the plaintiffs request in a suit brought through the FOIA (Freedom of Information Act) requesting Pfizer release their trial research and clinical data before 55 years? As they asked.

Why did the FDA issue an Emergency Use Authorization to produce and administer the vaccine and not formally and officially approve the vaccines?

Why are the manufactures of the vaccines immune from lawsuits for the deaths and/or adverse effects of the vaccine?

Is it the simple fact that these vaccines don't work? Is the vaccine the virus?

Why are there more Covid infections in vaccinated people than unvaccinated people?

Maybe because the vaccine is the virus?

What is a spike protein?

How does a spike protein effect the human immune system?

Fauci said get a booster shot, to fight off breakthrough infections. It'll reduce hospitalizations, you won't get as sick and you won't die. That's a lie. There is no such thing as a breakthrough infection with Covid. It means the original vaccine didn't work. The vaccine failed!

Why does the United Kingdom's clinical research, 42 weeks after the first vaccine shots were administered, prove more people are hospitalized and dead from Covid after being

vaccinated than the unvaccinated people?

Fauci said the therapeutics do not work against Covid. Another lie. Peer reviewed studies show the overwhelming success rate of Ivermectin, Hydroxychloroquine and monoclonal antibodies are far more effective than the vaccines.

Why take a vaccine if there are therapeutics?

The CDC has stated that in the overwhelming majority of Covid deaths, the patient had four or more comorbidities. The CDC has also stated that 45% of all deaths were nursing home patients (people already at the end of their life) and these people account for 0.6 of 1.0% of the total US population.

I am not in a nursing home, I have zero co-morbidities, why would I take the vaccine if I am healthy? Aren't I better off to get catch the Omicron variant? Have minor symptoms and build immunity to Covid?

I have looked at the CDC's VAERS (Vaccine Adverse Effects Reporting System) numbers on the CDC's website. Have you looked at these numbers? America's Frontline Doctor's say only 1% of adverse effects are reported to the system. Multiply adverse effects by 100? Look all of the deaths. Myocarditis, strokes, blood clots!

Fauci said he wasn't aware of US taxpayer funded "Gain of Function" research" at the Wuhan Institute of Virology.

Then why did the US Military find documents that contradict Fauci's lies to the US Congress?

I don't believe anything Fauci says. The pain, the suffering and death this man has caused this country is incalculable! Dr. Fauci will be tried for treason and crimes against humanity!!!

PS: Here's my analogy:

Skydiving is an individual risk and individual benefit and does not influence anyone around me and so my right to choose skydiving is vitally important to me. They (the state) wants me to skydive because they say it benefits humanity, but they can't prove

the science and they can't tell me how I am going to benefit humanity, if I skydive, yet they insist I do it.

When I didn't skydive, because I can't see the science, they offered me a beer and a doughnut. But, I still don't want to skydive, and they still haven't told me how this is going to benefit humanity.

Now, it looks like they want to push me out of the plane, but when I look up, the parachute they provided me is full of holes and they don't want to admit to that.

When I look down, I see a few dead bodies lying on the ground and they tell me they're fast asleep, but I don't believe that.

If they can prove to me that I will benefit the population by jumping out of the plane, maybe I'll take the plunge, I jump out of the plane, but until that point, I feel I am being coerced to jump, to go skydiving! I am not skydiving!

Please stop the madness!

Thank you for your time.

Subject: Communicating With Board Members

External Email

Mr. Grellner and Board members,

I was shocked and dismayed when I learned of the January 12th meeting's agenda. So, as a concerned tax paying Washingtonian I followed the link as shown below and registered for the webinar. Like you and Mr. Kutz stated in the webinar, my concern and reason for attending the meeting was the "general theme of the meeting"; mandatory quarantine or isolation camps.

I am not sure why you and the board are so confused as to why the public is so concerned about this agenda. I am trying to figure out why the board is blaming the public's so-called unwarranted concern on misinformation and social media? Does the board not educate itself on local and world events? Are the lockdowns and quarantine camps in Austria, Australia, Germany and elsewhere just misinformation spread by social media? If Governor Inslee has the authority to fire thousands of highly trained and educated first responders in a pandemic over a vaccine mandate, then it's not too much of a stretch to think that mandatory isolation camps for the sick and unvaccinated would be next item on his agenda.

Regarding the confusion as to where the proposed policies originated. It seems that it was perpetuated by your office. Is the following not directly from the Washington State Legislators website?

On Jan. 12th at 9:30 AM – 3:30 PM, the WA State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

- To voice your concerns, register for the live webinar here:
https://us02web.zoom.us/webinar/register/WN_DjusY10WTj-EyQyDTdyxsw
- You can also dial-in using your phone for listen-only mode: Call in: +1 (253) 215-8782 (not toll-free) Webinar ID: 894 7406 4216 Passcode: 957396
- Location: 101 Israel Rd. SE, Tumwater, WA 98501
- Comments must be in by this Friday, Jan. 7th at noon. Don't wait!

PROPOSED POLICIES:

- Allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.
- Including the Covid-19 injections as part of school immunization requirements using WAC 246-105.

When I clicked on the link above to register I received notice of registration and again of the proposed policies as stated above. Is this not directly from sboh.wa.gov

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fsboh.wa.gov%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C8e7cfb136d644d9acb2f08d9d79ce929%7C11d0e217>
? Not being part of any social media I am confused how I could have been misled. Mr. Grellner, are you therefore labeling the government's website social media and trying to mislead the Seattle Times and its readers?

Maybe the board is back peddling after realizing that Washingtonians are now paying full attention to its government and policy/law makers. Proposals, that once passed without notice are now being adamantly challenged. Mr. Grellner, you are quoted in the Seattle Times as saying, "It's created confusion. It's created anger. It's created fear. And it is wasting a huge amount of government resources, time and money". "These people who put out this misinformation seem to relish in the chaos that they're creating." I applaud you for your concern over utilization of tax dollars but it is of my opinion that your board has created this chaos. It is also of my opinion that you and your board are spreading the misinformation.

I hope that you and the board have learned from this debacle and are now well aware that Washingtonians are paying attention. I personally, will take your advice from the last paragraph in the Seattle Times' article and continue doing my due diligence in fact checking. But please keep in mind that it will not be just limited to social media and news sources that don't fit the narrative. It will apply to all government agencies, elected officials, the board members they elect, and the policies/laws they propose.

I challenge the board to clear up the chaos and confusion instead of fueling the fire through the Seattle Times or similar questionable media outlets. It's time to stop pointing fingers and passing the buck by blaming events like this on misinformation and social media. Quite frankly, that excuse is weathered.

Respectfully,

Paul Campbell

Subject: Response Requested - Scientific Presentation

External Email

Good evening Board of Health and TAG,

Wow! I just viewed another amazing new presentation by Virologist and creator of mRNA technology, Dr. Robert Malone. IMPORTANT you hear this information!

The presentation can be found here: <https://rokfin.com/post/65619/Dr-Robert-Malone-on-Brain-Damage-Myocarditis-Blood-Clots-And-MANY-Other-Vaccine-Risks>

Dr. Malone eloquently presents actual science in this presentation about the current Omicron variant, risks to children, side-effects of vaccines, personal testimonies, and many other facets of this situation our society is in at this time.

I appreciate your continued willingness to have an open mind to receiving and processing the information we share with you, which shape our reasons as citizens and parents for having very valid concerns about the risks of these new vaccines, not just for our children but all the people around us we hold dear.

I hope that the information I share with you by email is being viewed by all members of the TAG.

About this video in particular, I respectfully request a brief response from Dr. Tom Pendergrass acknowledging that he has viewed this presentation in entirety and receive his feedback about the scientific information and conclusions presented here by Dr. Robert Malone.

Respectfully,

Erika Clough, Concerned Mother, Citizen of Washington State

Subject: Questions following State Board meeting

External Email

I appreciated being able to sit in by Zoom on your Jan. 12 meeting. Here are a few questions and comments that I thought of during the presentations...

1) Exemptions: Many folks who have asked for vaccine exemptions from other organizations have received negative decisions. What organization actually makes the determinations for exemptions submitted in WA? [Comment: If the SBOH were fairly generous in granting exemptions, only a small percentage of folks would remain unvaccinated, and in exchange, a LOT of people would feel less inclined to consider the vaccination an existential threat to our way of life. I think that a soft touch would get you much further and would confer a healthy responsibility on individuals.]

2) Vaccinations of children: I understand that the CDC and FDA believe certain vaccines will be safe for children, but at this point all of our studies are necessarily short-term. Long-term effects won't be known for many years, but a variety of serious harms are reasonably conjectured. We're going to feel really awful if 25 years from now we have an uptick of alzheimers, for example, as a result of mandating a vaccine for a disease that is known to present a very low probability of risk to young children. For a new type of vaccine (mRNA), wouldn't it make more sense to be cautious in the case of young children, and to recommend rather than require it?

3) Innovation: I was delighted that one of the 3 pillars of the Dept. of Health is innovation. Would it not be appropriate, therefore, for the Department to engage in careful studies of possible additional therapeutics that might provide effective and low-cost relief, supplementing the vaccines and other drugs currently recognized? By means of such research, the DOH might honorably dispel some myths about medications like ivermectin, or might even identify new cures that would be widely adopted to mitigate the pandemic. In any case, original research would show the people of the state that the Department's ultimate goal is the relief of illness, not service to someone else's program. Our state can LEAD the science, not just follow it.

I appreciate all the experience and dedication that you folks bring to your work. I hope that the steps you take in the future will help to heal not only our viruses but also our inflamed policy debates.

On Jan. 12th at 9:30 AM – 3:30 PM, the WA State Board of Health will discuss applying current infectious disease WAC codes to include Covid-19 for all WA State residents.

- To voice your concerns, register for the live webinar here:

https://us02web.zoom.us/.../reg.../WN_DjusY10WTj-EyQyDTdyxsw
 <https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fus02web.zoom.us%2F...%2Freg...
 EyQyDTdyxsw&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Ce82f1aa5f1af49204f1b08d9d719ce3a%00

- You can also dial-in using your phone for listen-only mode: Call in: +1 (253) 215-8782 (not toll-free) Webinar ID: 894 7406 4216 Passcode: 957396

- Location: 101 Israel Rd. SE, Tumwater, WA 98501

PROPOSED POLICIES:

- Allow local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040). These specifics come from WAC 246-100.

- Include the Covid-19 injections as part of school immunization requirements using WAC 246-105.

Face it, COVID will not go away- people need to move on and live their life and realize it's not serious. People die from smoking... yet that's still ok....how many alcohol related deaths have there been? Millions... but yet let's still sell it and every venue, restaurant, and store. That makes sense.

There isn't a Covid pandemic. There is a people with power pulling pandemic. Horrible people that do not respect the constitution.

As you can see I am completely against forcing people and children from a shot that they feel is not good for them. And punishing those families who chose not to get it. This is un-American and I hope you are ashamed of yourselves.

Thank you for allowing us to hear and participate in the Washington State Board of Health meeting. I spent most of the day listening. It was very encouraging to me to hear people truly alarmed by the possibility of our constitutional rights being taken away where our health and our children's health is concerned. I realize how concerned you are for keeping us safe, but things have gotten out of control and it was evident in the Mountain of Comments about Freedom and Rights and our Constitutional Form of Government. I hope you will continue making your public meetings PUBLIC, so concerned citizens can be active participants in decisions that are so important to our lives, and to the continuation of our form of government.

Sincerely,

Subject: Comments for Jan 12 BOH Meeting

External Email

Hello!

I really enjoyed the meeting on January 12. There was a lot of very good information shared and the team seemed very professional despite some early technological challenges.

I was wondering if the technical advisory team could look into and advise the board and the public on what the statistical risk/benefit to vaccinating our children is. From the CDC website, I can see that children have a 99.998% survival rate. I am unable to see the rate of long term consequences, but I'd venture to guess it is very low. When I compare that rate to the rate of adverse events, I just don't find the risk of an adverse event worth injecting my child. Frankly, I'd rather have them get the disease, spread it to my whole household who is also not at risk, and then all of our immune systems are healthier for it.

The vaccine Tzar talked about trying to overcome barriers to vaccination, for my family and I, the risk/reward and statistical analysis of the risk to us is just a huge barrier to overcome.

Another thing I'd like to mention- is that you guys have done a great job instilling fear into most Washingtonians about this disease. I'd ask you to capitalize on this fear to generate some positive action. Why don't you talk about some of the other risk factors to hospitalization and death, namely, being overweight, not just old. I haven't seen the data myself, but I've been told upwards of 85% of fatalities are of overweight individuals. This is a huge missed opportunity to get that data out there and give some actionable ways that folks can drop the weight and drop the risk.

I recommend you mandate 30 minutes of exercise daily and if we want to lock down anything, maybe lock down processed food?

The last part is a bit of a joke, but throughout this pandemic I've seen some of the craziest things, this could be a chance to really make a change in our American state of health for the better!

Thanks for reading and listening and to whoever compiles this.

External Email

Dear health official,

I am writing to express my vehement opposition to any vaccine requirements for students in our state. Being a father of 2 school age boys, I am sincerely pleading for their safety. Please put your preconceived notions and politics aside and look at the facts.

The scientific evidence does not support the risk / benefit of COVID vaccine for males in this age group.

1. Risk of Myocarditis in young males is higher for vaccinated than for those who got COVID.

Ref. <https://www.nejm.org/doi/full/10.1056/NEJMc2115045>

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nejm.org%2Fdoi%2Ffull%2F](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nejm.org%2Fdoi%2Ffull%2F10.1056%2FNEJMc2115045)

2. Vaccination does not prevent the spread of COVID to people in their household. In fact it barely reduces transmission relative to unvaccinated.

"We found that the secondary attack rate in fully vaccinated household contacts was high at 25%, but this value was lower than that of unvaccinated contacts (38%)."

Ref. [https://www.thelancet.com/journals/laninf/article/PIIS1473-3099\(21\)00648-4/fulltext](https://www.thelancet.com/journals/laninf/article/PIIS1473-3099(21)00648-4/fulltext)

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.thelancet.com%2Fjournals%2FPIIS1473-3099\(21\)00648-4%2Ffulltext&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C992c4175a57740138ed208d9d6ecac58%](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.thelancet.com%2Fjournals%2FPIIS1473-3099(21)00648-4%2Ffulltext&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C992c4175a57740138ed208d9d6ecac58%2F)

3. Risk of severe illness in children is basically non-existent.

"A total of 815 articles were identified. Eighteen studies with 1065 participants (444 patients were younger than 10 years, and 553 were aged 10 to 19 years) with confirmed SARS-CoV-2 infection were included in the final analysis. All articles reflected research performed in China, except for 1 clinical case in Singapore. Children at any age were mostly reported to have mild respiratory symptoms, namely fever, dry cough, and fatigue, or were asymptomatic. Bronchial thickening and ground-glass opacities were the main radiologic features, and these findings were also reported in asymptomatic patients. Among the included articles, there was only 1 case of severe COVID-19 infection, which occurred in a 13-month-old infant. No deaths were reported in children aged 0 to 9 years."

Ref. <https://pubmed.ncbi.nlm.nih.gov/33262177/>

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpubmed.ncbi.nlm.nih.gov%2F332](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpubmed.ncbi.nlm.nih.gov%2F33262177/)

4. All available vaccines are for emergency use authorization. For goodness sake please recognize the rules of law!

"WHAT IF I DECIDE NOT TO HAVE MY CHILD GET THE PFIZER-BIONTECH COVID19 VACCINE?"

Under the EUA, there is an option to accept or refuse receiving the vaccine. Should you decide for your child not to receive it, it will not change your child's standard medical

care."

Ref. <https://www.fda.gov/media/153717/download>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fmedia%2F153717/download>

I implore that you look at the facts objectively here and end this doom spiral of vaccine requirements. Eventually the courts will agree as well, and YOU will be held accountable.

In conclusion, humans are not cell phones or windows software that need to be upgraded every 2 weeks to deal with the latest virus threat.

Thank you.

Thank you for having this forum. I am writing in support of Petition #11 which requests that BOH establish a new rule that prohibits requiring that anyone take an EUA product or licensed product that has not yet completed Phase 3 clinical trials. I oppose BOH formation of a Technical Advisory Group to review information about Covid-19 shots for consideration of mandating the shots for schools. I oppose any Covid-19 shot mandates because each person needs to weigh their medical condition with their medical provider and make an informed, personal decision. This is especially true since the infection fatality rate for Covid-19 is low. For ages 0-17 it is at 0.00002 (99.998% survival rate) which is statistically a zero percent death rate. Beyond that, when you consider that most hospitalizations for the young are with Covid-19 and not for Covid 19, we can know that they are not in mortal danger from Covid-19. Neither is there a great risk of the young spreading Covid-19 to staff and teachers. The young have a greater risk of Covid-19 vaccine adverse reactions than of a serious Covid-19 illness. We must protect our young before we consider self-protection.

Sincerely,

Laurie Buhler

External Email

Lindsay Herendeen,

Please do not require mandatory vaccination of school age children in order to attend public school. The vaccines that are available are authorized under the emergency use authorization act. The vaccine that is approved is not available. Therefore, requiring students to be vaccinated forces them to participate by definition in a medical experiment. Furthermore, the CDC admits that the vaccines neither prevent one from catching Covid nor prevent one from passing it on to others.

To whom it may concern with the people of Washington State I would say the majority of us do not want to be dictated to taking receiving or messing up with our health any shots!! If you are in force to doing so that's like being an dictatorship i'm not a free country! The shots are not making any difference in fact we the people have lots of stories of people around us what's really going on.

My brother-in-law took the shot end up with the virus gave the Virus to my sister. My daughter has a physical therapist they took the shot he has blood clots in his legs and an enlarged heart now!!

Person at my work her brother-in-law had the shot and a booster. He end up getting the virus he goes to the hospital they can't get him in he goes home and he died in the shower! Another person at my work had the shot had a poster and he end up catching it to the virus! Also the stuff that's in those shots I'm a guess for religion sake on top of it!! And I probably be allergic to it I'm allergic to milk cheese a lot of the antibiotics!!

Thank you that is my input please save United States i'm not pushing the shots especially on a little kids!!

Subject: My appeal- please save our children, save our grandchildren, and their children

External Email

Dear Dr. Shah,

I know there is a meeting tomorrow, and I pray you have been inundated with many, many appeals begging you to not harm our children and the potential of future generations. I must add my voice.

PLEASE, please, follow the science you scientists pride yourselves on and don't require the children of Washington to receive any of the Covid-19 vaccines (and I'm not even going to the fact that what is offered in this United States of America is NOT FDA approved anyway).

I can speak from personal experience. My twelve year old grandson tested positive Thursday morning and was already feeling 100% on Saturday. He was back in school the second his quarantine was up! Statistically our kids are being harmed more by the vaccines than they are by Covid-19! And statistically, the vaccines are NOT keeping people from getting sick. As you are aware, they are 'less sick' when they contract after receiving the vaccine, and go out and share it with more people. Fully vaccinated people, in isolation situations (no outside contact) are contracting and sharing Covid-19. Please read the attached. Please! vote with the science. We Do Not Know what these vaccines are doing to bodies, we do not know the implications for future generations. Please, do not experiment with our children!

I appeal to your fatherhood. I appeal to your grandfatherhood. I appeal to you as a protector. Please read the attached and please make a decision that you won't regret in the future- that you won't be judged on in the future and found wanting. I will be listening in the morning, and I am praying for your wise decision.

Most Sincerely,

Janice Carruthers
A grandmother of 7 and praying for future generations

Subject: An Appeal - Save our children, save our grandchildren, and their children

External Email

Dear Ms. Fehrenbach,

I know there is a meeting tomorrow, and I pray you have been inundated with many, many appeals begging you to not harm our children and the potential of future generations. I must add my voice.

PLEASE, please, follow the science scientists pride themselves on and don't require the children of Washington to receive any of the Covid-19 vaccines (and I'm not even going to the fact that what is offered in this United States of America is NOT FDA approved anyway).

I can speak from personal experience. My twelve year old grandson tested positive Thursday morning and was already feeling 100% on Saturday. He was back in school the second his quarantine was up! Statistically our kids are being harmed more by the vaccines than they are by Covid-19! And statistically, the vaccines are NOT keeping people from getting sick. As you are aware, they are 'less sick' when they contract after receiving the vaccine, and go out and share it with more people. Fully vaccinated people, in isolation situations (no outside contact) are contracting and sharing Covid-19. Please read the attached. Please! vote with the science. We Do Not Know what these vaccines are doing to bodies, we do not know the implications for future generations. Please, do not experiment with our children!

I appeal to your motherhood. I appeal to your grandmotherhood. I appeal to you as a protector. Please read the attached and please make a decision that you won't regret in the future- that you won't be judged on in the future and found wanting. I will be listening in the morning, and I am praying for your wise decision.

Most Sincerely,

Janice Carruthers
A grandmother of 7 and praying for future generations

External Email

To Whom it May Concern,

I received information that the Board of Health in Washington is considering imposing a Covid-19 vaccine on children as a requirement for attending school.

This is unreasonable and foolish.

Please don't do this!

The vaccines are still experimental, children are largely unaffected by the virus, and the efficacy of the vaccine has severely diminished as new variants have come into play.

If you do this, it will prove to everyone that the Board of Health is only a political tool, and wholly unconcerned with the actual health of Washington residents. We already suspect that because of the ridiculous and harmful mask mandates.

If tyranny is the real goal here, then by all means lay aside science and reason, and stick it to the kids.

Sincerely,
Elizabeth Thiede

March For Freedom Puts Seattle on the Map

Seattle Protest: Victoria Palmer speaks at

March For Freedom

"What a thrill to lead the march of over 500 people from Westlake Plaza through Pike Place Market in Seattle on Saturday. We called this the Big One and it lived up to its name. After 8 previous marches through Pike Place varying in size from 30 to 100 people, the audience at the market stood awestruck to see this group follow me. Most were happy to see us, some shook our hands. A few showed their opposition with words or middle fingers. The police escorting us added to our legitimacy. We were an overwhelming force for GOOD.

Though ignored by mainstream media and, curiously, alternative media, the ripple waves sent through social media spread across the country and back. A friend tipped us off that a clip from our Seattle march was one of the first 6 national posts showing up on the new Truth Social feed on Telegram, posted by Trump's team. I had family and friends from Ellensburg and the east coast find posts show up in their various social media feeds. Friends sent me clips from YouTube, Twitter and TikTok. Comments posted like "Yes, even Seattle is protesting" show how impactful our march was. We put Seattle on the map!"

Sincerely,

Victoria Palmer, March For Freedom Founder

IRIDA TV hosts Dan from WCRC to discuss why Boeing dropped its vaccine mandate

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsendfox.com%2Ftrk%2Fclick%2F>

Dan shares about how WCRC partnered with thousands of Boeing employees and some Boeing managers to help the company reverse its decision on implementing a workplace 'covid vaccine' mandate. This fascinating video also shares about the pernicious American Rescue Plan act being used by government to control businesses. Lots of interesting information in this video

Have You Been Wrongfully Terminated

If you have been terminated or put on leave, make sure to file for unemployment and make sure to submit the Constructive Legal Notice

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsendfox.com%2Ftrk%2Fclick%2F> with your claim. While the state has not officially confirmed this, we are hearing anecdotally that those that demonstrate knowledge of the law, are getting their unemployment claims approved!

Also consider whether you want to take a stand by participating in our Wrongful Termination Legal Action Program. Launched two months ago, this program uses a powerful Legal Memorandum from Lawyer Luis Ewing to back your Legal Claim for reinstatement, restitution or to STOP termination. More than 50 people are currently going through the program and we are seeing early results. When confronted with our Legal Memorandum, they do not want to go to court and so, they negotiate!

Sixth Circuit Court of Appeals affirms Stay of Biden's Federal Contractor Mandate

After hearing the government's transparently flimsy argument that the Federal Contractor Mandate needs to be imposed to make the federal contractors more 'efficient' in that they would miss less work if they had the shot, the Court did not buy it. In its decision the court wrote "no one seems to have envisioned the Property Act as a latent well of authority to order the medical enhancement of contractor employees to make them more "economical and efficient."

It is refreshing to see reason and logic prevailing at the higher court levels and is an encouraging sign for the legal work we are doing at the state level. Use this link to read the Motion to Stay

Dear Washington State Board of Health Members:

I just read the excellent summary of your decision yesterday, "WA BOH's Vote Supports Option of Mandating Experimental Vaccines for Children", at
<https://informedchoicewa.org/news/boh-votes-to-keep-door-open-to-mandate-experimental-vaccines-for-children/>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Finformedchoicewa.org%2Fnews%2Fboh-votes-to-keep-door-open-to-mandate-experimental-vaccines-for-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C9615237940d64d2b5c5708d9d707082e%7C>>
.

I'm sure you're used to a minimum of decorum when it comes to your proceedings and communications. I will give you no such consideration. You do not deserve it.

This news will go viral. Here's my post on Facebook just now.

The vaxxer putsch you're complicit in has turned into a historical watershed. You can reverse your course but in no way will you be able to walk back your choices and actions already taken.

I am a sociologist. I keep extensive notes. I have a folder called "War On Children", which is where I put the report of your absolutely inhuman decision to keep the door open to continued violations of the Nuremberg Code, WMA Declaration of Helsinki (1964), and the Universal Declaration on Bioethics and Human Rights (2005) -- not to mention universally recognized medical ethics and simple, humane common sense.

You have fucked with our children. You will be held accountable.

Human rights might seem like a formality to you, but you're going to find out how mistaken you are. We know each of you by name.

You are absolutely on the wrong side of history on this issue. You still have time to get your minds right. I encourage you to do so.

Sincerely,

Millard J. Melnyk

1) I did not bother to sign up for oral public comment -- I have been too often silenced, just as most of

those attempting to make those demeaning one-minute public comments were by your

suspiciously defective sound system -- one that did not allow at least 3/4 of those signed up for the hour to be heard, either by

those of us listening online, or at all, with their sound being cut off. From my own personal experience,

most of those who seemed to have left the meeting before speaking were actually there, but were being blocked from speaking, just as has so often happened to me -- both online and in person.

All of the above could be easily avoided, if the mad mandates of medical law martinet members of what is now being exposed as a "COVID cult" would allow normal in-person meetings. It is becoming increasingly obvious that such virtual meetings are not to maintain the safety of the we the people, but corporate government control over us as their supposed subservient subjects.

2) Please note that there is indeed reason for the public to be suspicious, inciting some misinformation; please find some of the evidence in the following articles, even those from the corporate mainstream media supposedly fact-checking them -- especially that of job notices, unless they are faked -- of Washington State hiring for COVID Strike Force members.

3) Thank you all for seeming to do the best you could to be civil under trying circumstances, and for BOH members voting in a fair and equitable manner in the best interests of the public -- no matter what their previous intentions may have been.

Subject: Attn: Keith Grellner and Tom Pendergrass

External Email

Dear Mr. Grellner and Mr. Pendergrass,

First off, thank you so much for all the amazing and very hard work you and your teams have been doing over the last two years. As I talk with the 70+ leaders of ACSI affiliated <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.acsi.org%2F&data=04%7C0>> independent schools throughout WA state, I hear a consistent message of appreciation for the work of their partners in county departments of health and leaders at the state level in OSPI, SBOH and WA DOH. While it has certainly been a ride, it has been an honor to have traveled this road together.

I am wondering if the team responsible for putting together the WAC 246-105-030 (CIS) TAG would consider having someone from the independent school world as a member for the following two reasons.

* While independent schools have much in common with our public school colleagues, there are some uniquenesses for the private schools who serve nearly 10% of WA students and families. In particular, the administrative resources available to these primarily smaller schools could be very helpful as the TAG considers and discusses Criteria 7-9.

* Since the issue of the Childhood Vaccination Schedule that is before the TAG is quite emotional for parents, having someone on the TAG from the independent school community will help us communicate with our families who might be inclined to feel as if their views were not represented. This idea of being at the table when decisions have been considered by OSPI, the Gov's Office, and County DOH's has been extremely helpful throughout the pandemic. It has helped us normalize constituents emotions, calm their fears, and help them support the decisions as we've battled the pandemic together.

If this idea seems reasonable, ACSI WA State would recommend Suzie Hanson as someone who could serve in this capacity on behalf of all WA independent schools.

Thank you in advance for your consideration.

Warm regards,

Laird

Breaking: The UK government admits that vaccines have damaged the natural immune system of those who have been double-vaccinated. The UK government has admitted that once you have been double-vaccinated, you will never again be able to acquire full natural immunity to Covid variants - or possibly any other virus. So let's watch the "real" pandemic begin now! In its Week 42 "COVID-19 Vaccine Surveillance Report", the UK Department of Health admits on page 23 that "N antibody levels appear to be lower in people who become infected after two doses of vaccination". It goes on to say that this drop in antibodies is essentially permanent. What does this mean? We know that vaccines do not prevent infection or transmission of the virus (indeed, the report elsewhere shows that vaccinated adults are now much more likely to be infected than unvaccinated ones). The British now find that the vaccine interferes with the body's ability to make antibodies after infection not only against the spike protein but also against other parts of the virus. In particular, vaccinated people do not appear to form antibodies against the nucleocapsid protein, the envelope of the virus, which is a crucial part of the response in unvaccinated people. In the long term, the vaccinated are far more susceptible to any mutations in the spike protein, even if they have already been infected and cured once or more. The unvaccinated, on the other hand, will gain lasting, if not permanent, immunity to all strains of the alleged virus after being naturally infected with it even once.

Source: https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fassets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/107442/covid-19-vaccine-surveillance-report-week-42.pdf&data=04%7C01%7CNathaniel.Thai%40sboh.wa.gov%7Cb693b73e575b43a7c22608d9d7de27

The first insurance companies are backing down because a huge wave of claims is coming their way. Anthony Fauci confirms that the PCR test cannot detect live viruses. Anthony Fauci confirms that neither the antigen test nor the PCR test can tell us whether someone is contagious or not!!! This invalidates all the foundations of the so-called pandemic. The PCR test was the only indication of a pandemic. Without PCR-TEST no pandemic. For all the press workers, doctors, lawyers, prosecutors etc. THIS is the final key, the ultimate proof that the measures must all be lifted immediately!

☐ To Washington State Board of Health

I am a grandmother of a child in Washington and am very concerned that you would even consider injecting this experimental poison into a child! I have no doubt that there will be law suits against any and all who try, much like the Nuremberg Trials. I copied the message below but I encourage you to read it and do more research before you make this life changing rule, for our kids and generations to come.

The population of the planet of being taken through the gates of hell over a probably partly-invented virus, which is not unusual in its lethality.

I agree these 'vaccines' were never appropriate & there was ample evidence of global fraud by fear long before that vaccine was prematurely considered for emergency use authorization.

Re-reading Dr Peter Doshi's blog post in BMJ, referencing Pfizer's regulatory submission to FDA, he made some striking observations.

Specifically, he pointed out how THOUSANDS of suspected 'cases' from the vaccine arm of the trial had been "removed from statistical analysis because of "unspecified protocol deviations".

When Doshi reanalyzed the data with all the subject included, 'efficacy' fell to 19% (and not significant).

I know enough about clinical trials & the many conventions that ensure you don't carry undeclared conflicts of interest.

What was done in that trial was clearly improper. In reality, the Pfizer / BioNTech product never even worked in the closely controlled trial.

I also think there is a virus. I'm no longer convinced it's as described but is a blend of genetic material from several different sources.

Three key questions:

1. Do these vaccines work?

I suspect none of them do. Paul & Howard lay out some of the evidence.

2. Are these vaccines safe?

They are absolutely not safe. They are responsible for huge numbers of horrific injuries & deaths in completely unprecedented numbers, based on review of public vaccine safety monitoring systems in the US, U.K. & Europe.

3. Are these vaccines necessary?

No, not at all. If anything, deaths rise immediately after mass vaccination started almost everywhere when the data was good enough to examine. On the other side of the medical ledger, excellent treatments have been identified & used, 85-90% of severe illness & death was prevented.

Given the foregoing, that these are not vaccines, they don't work as vaccines, they're massively far away from any acceptable safety profile & there are low cost, well understood drug treatments, why would you allow anyone to stick a needle in your arm?

I beg of you: if you've not been vaccinated, do not capitulate now. If you've been vaccinated, reject the bribe of some of your freedoms bank (aka vaccine passport).

Giving in to tyranny always leads to more tyranny.

We must not cooperate with our own entrapment. I keep a good eye out on many countries. It is clear that one objective is to lure us all into a VaxPass database. Then we'll have to show it in order to buy food. Now you cannot protest, or you'll go hungry. Ultimately, it's my deduction that the evil perpetrators will exploit their tyrannical powers to kill off the majority of the human race.

Something like this has been planned for close to 40 years. See The Georgia Guidestones

Dear Board Members

This is the first time I have ever tuned into or attended a Washington State Board of Health Meeting. My first Impression when you were presenting information was alarming to say the least at what wasn't presented. As I listened, I was hearing only the push that vaccines were the answer to Covid. I wondered why State Board of Health could be so unaware of the VAERS(CDC site) where so many Deaths and Injuries from the Covid Vaccine have been reported and that is thought to be only 10% of cases. Also alarming is with thousands of Highly Educated and Respected Doctors, Scientist, and Nurses from around the World reporting their concerns regarding the Deaths and Injuries that are mounting and you appear unaware of their concerns. I don't know if The Wash Board of Health just chooses to ignore this and will continue to make comments, that were not factual nor possibly legal in nature, as per comments on item 11. I hope you will all look deep into your souls before subjecting innocent children to an experimental injection that could seriously Injure them or cause their Death. Attending this Board of Health Meeting was an eye opening experience for me!

Respectfully,

Kay Berg

Ms. Herendeen,

I'm writing about my serious concerns regarding the Covid related policies which will be discussed at your January 12th meeting. I adamantly oppose involuntarily detaining an individual based solely on their Covid related medical decisions and compliance. The dominant variant Omicron is much milder, so these current proposed policies surrounding Covid bewilder me. Choosing not to take a vaccine, covid test, medical examination, or quarantine should not be considered a misdemeanor requiring law enforcement to get involved. These decisions should all be voluntary.

The Covid vaccines are proposed as the primary solution for our society, however they have been shown to be ineffective after just a few months. Washington State has a large percentage of vaccinated people and yet we still have many cases. Why is that? It is not just the unvaccinated spreading Covid. People who have taken the vaccine are also able to continue to transmit the disease to others. There are many documented Covid breakthrough cases (some high profile cases). This occurs even after people have taken both initial vaccines and the booster.

We actually do not even have any current FDA approved vaccinations for Covid being offered to the public. The Pfizer vaccine that is available on the market is not FDA approved. The FDA approved Corminaty, and for some reason people are actually still getting the Pfizer EUA injection. Does that explain why there are so many thousands of adverse effects from the Covid vaccines shown on the VAERS website at the CDC? I'm not against vaccinations in general. These Covid vaccinations need to be tested further and the public needs to be informed about the adverse reactions. There should be no mandates or coercion for any vaccinations and especially for a vaccination that has not even completed clinical trials. This brings me to my other serious concern. I think it is dangerous to mandate Covid Vaccines for school children in public and private schools. Parents need to be able to weigh the risks for each child and be free to make the decision that is best for them. Kids are at low risk for Covid but are at risk for a variety of adverse reactions.

All Covid related medical decisions need to be made with informed consent not coercion. As an American citizen we are allowed that right. I hope those of you making these important policy decisions will carefully consider the negative impact these policies will have to the community.

Sincerely,

Wendy Butzerin

State Board of Health Public Meeting re: WAC246-100-040: I STRONGLY OPPOSE this bill

□Hello there,

I am a Washington state resident. I STRONGLY OPPOSE THIS BILL.

(WAC 246-100-040) would legalize the medical kidnapping of Americans as young as 5 years old (including Washington residents and anyone/traveler just passing through Washington state) (with the threat of violence even at gunpoint), ripping them from their homes and depositing them as prisoners in COVID internment camps for failing to comply with the state's experimental vaccine mandate."

This is explicitly fascist, blatantly unconstitutional, and downright dangerous.

The highlighted texts below are taken directly out of this bill:

"a local health officer may invoke the powers of police officers, sheriffs, constables, and all other officers and employees of any political subdivisions within the jurisdiction of the health department to enforce immediately orders given to effectuate the purposes of this section in accordance with the provisions of RCW 43.20.050(4) and 70.05.120."

In the event of an "emergency detention order," isolation and detainment of American citizens who reside in the state of Washington and who fail to comply with these dictates would be allowed "for a period not to exceed ten days."

If a detained person or family still refuses to get injected during this seven-day period, then a judge may extend the forced quarantine "for a period not to exceed thirty days."

Did you ever think concentration camps would come to America? Think again. It is here if we allow this bill to pass and enact.

----- Forwarded message -----

1) I did not bother to sign up for oral public comment -- I have been too often silenced, just as most of

those attempting to make those demeaning one-minute public comments were by your suspiciously defective sound system -- one that did not allow at least 3/4 of those signed up for the hour to be heard, either by

those of us listening online, or at all, with their sound being cut off. From my own personal experience,

most of those who seemed to have left the meeting before speaking were actually there, but were being blocked from speaking, just as has so often happened to me -- both online and in person.

All of the above could be easily avoided, if the mad mandates of medical law martinet members of what is now being exposed as a "COVID cult" would allow normal in-person meetings. It is becoming increasingly obvious that such virtual meetings are not to maintain the safety of the we the people, but corporate government control over us as their supposed subservient subjects.

2) Please note that there is indeed reason for the public to be suspicious, inciting some misinformation; please find some of the evidence in the following articles, even those from the corporate mainstream media supposedly fact-checking them -- especially that of job notices, unless they are faked -- of Washington State hiring for COVID Strike Force members.

3) Thank you all for seeming to do the best you could to be civil under trying circumstances, and for BOH members voting in a fair and equitable manner in the best interests of the public -- no matter what their previous intentions may have been.

Rebecca Em Campbell

External Email

Dear health official,

I am writing to express my vehement opposition to any vaccine requirements for students in our state. Being a father of 2 school age boys, I am sincerely pleading for their safety. Please put your preconceived notions and politics aside and look at the facts.

The scientific evidence does not support the risk / benefit of COVID vaccine for males in this age group.

1. Risk of Myocarditis in young males is higher for vaccinated than for those who got COVID.

Ref. <https://www.nejm.org/doi/full/10.1056/NEJMc2115045>

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nejm.org%2Fdoi%2Ffull%2F](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nejm.org%2Fdoi%2Ffull%2F10.1056%2FNEJMc2115045)

2. Vaccination does not prevent the spread of COVID to people in their household. In fact it barely reduces transmission relative to unvaccinated.

"We found that the secondary attack rate in fully vaccinated household contacts was high at 25%, but this value was lower than that of unvaccinated contacts (38%)."

Ref. [https://www.thelancet.com/journals/laninf/article/PIIS1473-3099\(21\)00648-4/fulltext](https://www.thelancet.com/journals/laninf/article/PIIS1473-3099(21)00648-4/fulltext)

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.thelancet.com%2Fjournals%2FPIIS1473-3099\(21\)00648-](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.thelancet.com%2Fjournals%2FPIIS1473-3099%2Farticle%2FPIIS1473-3099%2F00648-4%2Ffulltext&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cb2cb87185cbd4cdcb1f008d9d6ecfecc%7C)

[4%2Ffulltext&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cb2cb87185cbd4cdcb1f008d9d6ecfecc%7C](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.thelancet.com%2Fjournals%2FPIIS1473-3099%2Farticle%2FPIIS1473-3099%2F00648-4%2Ffulltext&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7Cb2cb87185cbd4cdcb1f008d9d6ecfecc%7C)

3. Risk of severe illness in children is basically non-existent.

"A total of 815 articles were identified. Eighteen studies with 1065 participants (444 patients were younger than 10 years, and 553 were aged 10 to 19 years) with confirmed SARS-CoV-2 infection were included in the final analysis. All articles reflected research performed in China, except for 1 clinical case in Singapore. Children at any age were mostly reported to have mild respiratory symptoms, namely fever, dry cough, and fatigue, or were asymptomatic. Bronchial thickening and ground-glass opacities were the main radiologic features, and these findings were also reported in asymptomatic patients. Among the included articles, there was only 1 case of severe COVID-19 infection, which occurred in a 13-month-old infant. No deaths were reported in children aged 0 to 9 years."

Ref. <https://pubmed.ncbi.nlm.nih.gov/33262177/>

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpubmed.ncbi.nlm.nih.gov%2F332](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpubmed.ncbi.nlm.nih.gov%2F33262177/)

4. All available vaccines are for emergency use authorization. For goodness sake please recognize the rules of law!

"WHAT IF I DECIDE NOT TO HAVE MY CHILD GET THE PFIZER-BIONTECH COVID19 VACCINE?"

Under the EUA, there is an option to accept or refuse receiving the vaccine. Should you decide for your child not to receive it, it will not change your child's standard medical care."

Ref. <https://www.fda.gov/media/153717/download>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fmedia%2F153717/download>

I implore that you look at the facts objectively here and end this doom spiral of vaccine requirements. Eventually the courts will agree as well, and YOU will be held accountable.

In conclusion, humans are not cell phones or windows software that need to be upgraded every 2 weeks to deal with the latest virus threat.

Thank you.

Email is considered a public document and may be subject to the Public Records Act.

enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

I am writing to inform you that I absolutely and vehemently oppose the proposed WAC's 246-100-070, WAC 246-100-045, WAC 246-100-040, WAC 246-100, WAC 246-105

I am completely against giving local health officers use of law enforcement and the use of an emergency order to involuntarily detain a person or family into a quarantine facility if they refuse the requests of medical examination, testing, treatment, counseling, or vaccination.

I am also completely against covid-19 injections as part of the school immunization requirements using WAC 246-105.

Hi Melanie,

I am writing this email regarding the potential Washington state vaccine mandate for schools. Without going into great scientific debate, there is no discernment between vaccinated and unvaccinated people regarding contracting Covid or transmitting Covid. The Covid vaccines are not effective. The vaccines are actually not true vaccines by definition.

The second fact is that mandating experimental drugs on the general public is a violation of our constitutional rights living in the United States. Now our state is looking to mandate this on children in whom these drugs are not studied or approved. Comirnaty as a brand name is actually not being dispensed in the US at this time. We continue to use emergency stock piles of Pfizer's drug as well as Moderna which is not FDA approved, yet "counts" if you want to be considered vaccinated! No approval and not enough evidence for approval. The practice of distributing drugs not approved is illegal by so many laws we don't have time to discuss. No other vaccine to date has performed like this.

I am adamantly opposed any mandate for the Covid vaccine regardless of which one. We have a right to chose what goes in our bodies and how we manage the health of our children. This mandate for vaccinations for kids to be in school will cause parents to remove their children from this school system as well as physically moving from this state. Highly educated well paid taxpayers are leaving the state of Washington in droves because of Jay Inslees mandates and rules. This will be the final straw for thousands of people because we are NOT willing to be the experiment for Inslees political agenda. I am happy to expand on the scientific data and information if you would like more information.

Thank you for you time.

Rachel Enselman

Life long Washington State resident

These things violate our rights as americans and the core beliefs and values the country was founded on, and it is a major constitutional breach. If we allow this now where does the line stop? Theres no telling what will be over stepped next. This is turning into socialism, no longer a place where theres freedom If choice.

Thank you for your consideration.

interchangeable: Federal Judge Rejects DOD Claim That Pfizer EUA and Comirnaty Vaccines Are 'Interchangeable' • Children's Health Defense (childrenshealthdefense.org
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fchildrenshealthdefense.org%2F&da>
) Since EUA products cannot be mandated per the Nuremberg Code, this alone should be enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe the vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org
<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>
)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

Thanks, Shannon Sauter

Dear Ms Herendeen

Please do not support vaccine mandate for children. Such a mandate has the potential and high likelihood of great harm to our children. Children are at very low risk for Covid. The few who do experience Covid, have very mild symptoms, and also, they then have natural immunity.

These children's health decisions should be left to their parents, not the government.

Sincerely,

Sara Gamache

Attn: Kellie

I attended the zoom meeting on Jan 12, 2022, in its entirety, and was hoping for the opportunity to share my comments on Items # 8 and # 11. However, I doubt it would have made any difference.

Listening to all those that did verbally share, or made comments in the Q&A box, it was loud and clear that the voice of the people were in unison on their utter discontent of the Board of Health's direction on the matters.

It was also quite clear, based on how quickly the BOH voted to dismiss the Informed Choice Washington's Petition for Rulemaking, that your minds were made up on the matter before you even began that meeting.

It would seem that over 7500 Washington Citizens wasted their time supporting and/or commenting that day. But we ARE not going to be silent or denied our voice. And the number of those involved will double, then triple, and your meetings will need to be held more often and for longer periods so that we all get our 1 minute.

None the less, I just want it to go on record that I SUPPORT the adoption of ICWA's Petition for Rulemaking on agenda item 11, which asks the Board to establish a new rule that prohibits them from adding any Emergency Use Authorized (EUA) product, or any licensed product that lacks completed Phase 3 trial studies, to the school required list.

I also OPPOSE the Board's formation of a Technical Advisory Group (TAG) to review information about COVID-19 shots for consideration of mandating the shots for school. I oppose COVID-19 shot mandates, period!

I'm praying for you all and fighting this battle on my knees.

See you in March at the next meeting!

Sincerely,
Anne Burbank

Subject: FW: WA State Board of Health Agenda Items 01/12/22

* WAC 246-100-079 – allowing local health officers to use law enforcement
* WAC 246-100-045 - to force an emergency order to involuntarily detain a person

or group of persons to be isolated in a quarantine facility

* WAC 246-100-040 - following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling and vaccination.
*

2. Agenda item 11 – Rulemaking Petition – Chapter 246-105 WAC – Immunization criteria for child care and school entry.

Please vote against any changes to this WAC Code.

* Washington State Board of Health should be making no recommendations or requirements regarding immunizations for our Washington State children.

* All decisions regarding children's health care should be decided by the children's legal parents/guardians.

* It is irresponsible to suggest or require that our WA state children take a COVID Vaccine that was only released a year ago and has no long term (multi-year) studies completed.

* The COVID vaccinations for children are still under a EUA (Emergency Use Authorization) status. Following EUA rules, these parents and students should be given full disclosure of risks and allowed the legal right to decline.

Respectfully,

Tracy Harker

Hi,

We are wondering about the status of a Covid-19 vaccination requirement as an addition to the existing school vaccines for the 2022-2023 school year. We know that the MMR was required a few years ago, a change that happened quickly after an outbreak that spring. Covid-19 has affected many more people than measles did at the time, so we do hope Covid vaccines will be required next year. The virulent anti-vax movement is proof that we need vaccines to be mandated in order to ensure that vaccination actually happens. We are trying to keep our schools open...safely. Thank you.

External Email

Dear Board Chair Keith Grellner:

First, thank you for the opportunity to attend the Zoom meeting of the SBOH meeting held on January 12th, 2022, and for the ability to comment. It is my sincere hope that this will reach your eyes. It was apparent by your closing comments and final actions of the board, that you do not understand the underlying reason for people's frustration. From your closing comments and some commentary I have read after the meeting, the board members believe that the outrage expressed by the public was a result of "misinformation." You are sadly in error. The comments made during the public comment portion of the meeting were not necessarily directed at the board or any individual member, but is a result of the environment in which we find ourselves. In that vain, I will attempt to give you a picture of how the meeting is being perceived by many in the public.

I will begin by addressing the information and data presented by officials from the Washington State Department of Health, and what was NOT discussed. It will give you a better understanding on why our public institutions are losing our trust, and thus, — their moral authority. The items not discussed where: 1) efficacy of the current vaccines and the myriad of "breakthrough" infections, — these inoculations are not technically "vaccines," as they do not eliminate the threat of infection, — nor do they inhibit the spread of the virus, — they are "therapeutics."; 2) there was no mention of adverse reactions and deaths directly attributable to the vaccinations as reported to VAERS; 3) no mention of early treatment as an option of dealing with those infected to mitigate symptoms and death, — the only treatment referenced was that of monoclonal antibodies and their short supply; 4) there was no mention of natural immunity and its historical longterm benefits to individuals and the community, — despite it having a very important roll to play; 5) there was no mention of the extremely low risk of hospitalization for Covid to children K-12, and any corresponding risk/benefit analysis; and, 6) there was obvious denial of the nature of this respiratory virus, — that it has animal reservoirs similar to the flu virus, — and that we will have variants from now on, — that there is no such thing as "zero" Covid. I must comment on the last point. The individual testifying on this point acted like these variants are a big surprise, and happen about the time we are making progress. Nonsense, he should not be surprised if he knows anything about the reservoirs of this virus. It is not the variants keeping us in constant turmoil. It is the policies and reactions of the Department of Health and the mandates initiated by the Governor. Omissions of this nature are hurting the credibility of officials and agencies.

In addition, there were a number of graphs and statistics. The overall theme was the unvaccinated remain largely at risk of infection, hospitalization, and death from exposure from the virus. I can safely say we are not seeing that in our circle of contact. My entire direct family have experienced the virus and remain unvaccinated (with two exceptions), and have attained natural immunity. None of us went to emergency or the hospital, and we all recovered. We all remain active and healthy. What we are seeing now are vaccinated people becoming ill and testing positive for Covid, — one being my nephew and his entire family on the coast. We have also seen adverse reactions from vaccinations. Some of us found the statistics contradictory. As an example, — nearly 80% of the population has been vaccinated to some degree, — there have been 12

million injections to a population of just over 5 million, — yet, we are told the majority of people hospitalized are unvaccinated. Did you review any of this prior to the board meeting? Have you asked about the models and from where and how the data was gathered, — or do you take it all at face value? Having a degree in business economics, I am familiar with the science of statistics. The parameters of a model and how the data is gathered and classified is critical. There was an expression at the business school, “Garbage in, garbage out.” Some hard questions need to be asked before presenting this kind of data in order to establish policy or codes. There were statistics, as well, sighting lives saved and symptoms reduced through vaccination. How were those figures arrived at? How could you possibly know?

You made the statement that mandating vaccinations for children K-12 in order to attend public school was not being “considered.” Then why was it mentioned in the agenda? To say you are not going to “vote” is different from “consideration.” It is apparent to all of us out here that it is being “considered.” To call this “misinformation” is a bit of verbal gymnastics.

I am going to speculate a bit on the outrage expressed over WAC246-100. I ran across this in an article and went directly to the code to read it for myself. Though your agenda item discussed changes to the code, it referenced the entire code. People became alarmed at the content concerning involuntary detention and quarantine. The language is very broad and says that the assistance of various law enforcement agencies could be requested. No, I don’t think there are adequate facilities in Washington to do this. The problem is people are being involuntarily detained in places like Australia, New Zealand, China, and just over our border in Canada. Some for just speaking out. Germany, Austria, France, and the UK are headed that direction. It is a trend we are very concerned about. A firestorm in social media erupted. This, again, is being characterized as “misinformation,” — when in reality, it is in the code, and has been since 2003. Many of us just discovered its existence. While one special interest group was essentially exempted from the code, — it remains. Why, if there is not intention in implementing it? There were other parts of this presentation that were disturbing, but I choose to stay on point.

Keith, at the very end, you lamented that it was misinformation that resulted in the outrage you heard from the public. That we could either believe you or not believe you. Whether you are believed was not the real concern. The outrage already existed, and your board became the lightning rod for the frustration that is building out here. The “one size fits all” approach to the Covid outbreak is damaging your credibility. Fear and intentional turmoil (mandates) are being used to herd us one direction. I am sorry, but get “jabbed” or get fired, — that is not a voluntary quit, — that is state sponsored coercion. It is the instruments of the Governor through various agencies that is causing the outrage. It is not about believing you, — it is about the infringement on our lives, freedom, and liberties that is the issue. Until officials recognized this blindspot in setting direction, we will never get out of this. The “Great Disruption” to our lives will continue.

My wife and I pray almost every night that the fog be lifted from the eyes of our officials and leaders, — that truth and our God given Constitutional rights prevail. I am under no illusion. It may not happen, — as history has shown. As a personal note, — I turn 69 in March and have lived in Spokane for all but 4 years since 1956. For the first time, I am doing some investigation into moving to another jurisdiction. Never in all my many years have I seen the need for officials to speak against what is a damaging narrative. Fear is a powerful motivator, but has no place in government. FDR once said, “We have nothing to fear, but fear itself.” Now we are being told fear is good. Sometimes there is cost for telling the truth, but the bigger cost to a culture is to live a lie. As a friend asked me one time, “Are you that man?” I ask you now, “Are you that man?”

“Heavy is the head who wears the crown.” I am praying for you Keith. However this

ends, you seem like a good person, — patient and gentle.
Please Take Care,
Doug Jones

Subject: January 12 meeting

External Email

Thank you for the time and effort you all put into your work.
I did stay on the meeting the entire time.

I recognize the confusion that people had in regards to the specific agenda. Even though people continued to speak on their subject of concern, quarantine camps and mandatory vaccinations for children.

I think if it's indicative of anything it's indicative of the fact that this is the subject matter people would like to have open public discussion with our health officials regarding.

It is evident that the language is there in the WAC regarding quarantine and regulations around quarantine. Most people are unaware of how long Washington Administrative Code regarding contagious diseases and quarantine procedures have been in existence, nor are they aware of executive orders from The office of the President of the United States has been in existence as well. These Issues began to be addressed in the late '80s. They escalated after 9/11 and with the Patriot act and Homeland security, quarantine and isolation codes and regulations grew considerably.

The regulations of the executive branch agencies are issued by the authority of statutes. Like legislation and the Constitution, regulations are a source of primary law in Washington State. The WAC codifies the regulations and arranges them by subject or agency. So to respond to people's concerns as if they are "crazy crazy" and "I don't know where this idea of quarantine camps are all being secretly built overnight to stuff people in" as Keith Greliner says is irresponsible, and shows a lack of care about public concern.

It really looks like the ,Board of Health is taking an opportunity to make concerns citizens look like anti-vaxxer crazy people.

The governor called this thing a hoax which also makes him look ignorant because the language is there in the wac code. And because the Department of Health is hiring isolation and quarantine strike team members. On top of the fact that the Washington State Department of Health has put out a promo video about all of the different options that are available for isolation and quarantine. Including facilities for overflow recovering patients and the homeless, I mean if you would like me to produce a link I can but you absolutely should know this.

The governor at his latest press conference with Umair A. shah trying to blame the circumstances on I guess a couple of GOP legislative candidates is first off false, as they are not the ones to set off the alarm Bell in the first place.
They appeared to jump onto this after the Twitter post that showed wac code regarding quarantine and isolation and the specifics there of.

The governor's language is exactly the kind of thing that causes people to become

alarmed, as he makes it look like if you are not fully on board with his agenda then you are either crazy, ignorant, an insurrectionist, don't care about others ECT... Therefore those people that are not in agreement with him are fearful that he is in a power position to decide at a moment's notice to push agendas that would be antagonizing. Thousands of people have already lost their jobs because of his mandates.

But let me get off the topic of the governor and back onto the Board of Health. If the Board of Health was interested in addressing the concerns of this portion of the population then they would;

- *Recognize natural immunity as valid the same as it has always been since the beginning of mankind.

- *Address the reasoning for why children who are not at risk "statistically" for covid-19 are being pressured into vaccination. Ignoring the strength and benefit of their Superior innate immune system.

- *Hold public meetings to address the concerns of the public and not just the agenda items that the Department of Health has.

- *Address vaccine injury and vaccine injury reporting systems in Washington State.

- *Provide monthly safety and efficacy data on the vaccines. And provide links and resources to actual research and data collection.

- *Throw computer modeling out the window, they are nothing but educated guesses and they are a useless waste of time of taxpayer money and financial resources.

- *Address the issues surrounding homelessness and the mentally ill in the system and why their SARS COV 2 (and variants) infections are extremely low, but suicide rates are extremely high.
Including by all appearances that Washington States mental Health organizations appear to be in crisis and falling apart.

- *Address accurate reporting to the overall picture of hospitalizations, and mortality in hospitals. Which is to address multiple reasons why there are staff shortages including the firing of the unvaccinated.

- *Address pre covid-19 medical therapeutic nihilism.

- *Address off label treatment for covid-19 patients and the rejection of only one protocol for treatment.

Thank you for your consideration please feel free to contact me.

Subject: No vaccine

External Email

This is to inform whomever it may concern, that I do NOT agree with adding the covid vaccine to the list of required immunizations for my child. There are many arguments for and against getting this vaccine. And when it comes down to it, we and our children should NOT be required to, or forced to get this vaccine. So NO, this should NOT go on the list of required immunizations.

I would like to express my extreme opposition to implementation of a COVID 19 vaccine requirement for schools in Washington State

Thank you

Subject: COVID19 vaccines and Down syndrome

External Email

Animal trials are essential in understanding the complex immune system disorder of Down syndrome.

Covid19 vaccines were not tested using a Down syndrome mouse model and individuals with multiple comorbidities were excluded from trials.
Regulatory codes require that if a group is excluded from the trials for a product, that product should not be used in that group.

Without risk-benefit data, there is no way to identify Down syndrome as a contraindication or report the safety and efficacy of these experimental biological injections.

A COVID-19 vaccine Mandate forces parents to become unwilling participants in the medical experimentation of their high-risk child.

We cannot abandon the common rule and mandate an untested medical interventions to this vulnerable population or make it a prerequisite to access special education in Washington state.

Considering that people with Down syndrome are the first humans to apply for the endangered list, cannot vote and cannot give informed consent, it is our ethical, moral and patriotic duty to protect these people from predatory medicine.

Thanks,

Dj Krug

Subject: States Immunization Technical Advisory Group

External Email

Washington State Health Department,

I would like to know if the WA State Immunization Technical Advisory Group meetings are available to the public on Zoom? Also, is there a list of this advisory group members and their email addresses so that we can submit input? Will they be taking public comment during their meetings? What is the meeting schedule for this Advisory Group?

Theresa Ekstrom
32118 NE 136th Street
Duvall, WA. 98019

enough to stop consideration of making vaccines mandatory.

2. Children are statistically at zero risk of dying from COVID. Their survival rate is in the range of 99.997-99.998% or, put another way, their risk of dying with COVID is less than 2 in every 1,000,000 children. The very few children who are listed as COVID deaths did not die OF COVID, but rather WITH COVID as anyone being admitted to a hospital nowadays is tested. I challenge the Washington State Board of Health to show medical records for even one child who has died OF COVID. Where there's no risk, there can be no benefit.

3. No one knows the long term risks of these vaccines. You may remember that one of the members of the FDA Advisory Committee infamously said, "We are never going to learn about how safe this vaccine is until we start giving it" Dr. Eric Ruben, Editor in Chief NEJM The studies Pfizer conducted were woefully underpowered. This is an analysis of 10 Red Flags associated with Pfizer's studies: Ten red flags in the FDA's risk-benefit analysis of Pfizer's EUA application to inject American children 5 to 11 with its mRNA product – Commentary – America's Frontline Doctors (americasfrontlinedoctors.org <<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Famericasfrontlinedoctors.org%2F&>)

Force vaccinating healthy children for a disease that doesn't affect them to make adults feel safe is a new low for humanity. Please do the right thing and do not require these vaccinations for school age children.

When are you going to release the the true number of deaths do to covid. ie. The ones where covid was the real cause, eliminating the ones where there was other health issues that cause the death? When are you going to release the statistics of all the problems these masks are causing our young children undue stress, social learning skills, anxiety, depression, the list goes on and on? By getting on the fauchi, inslee control wagon you destroyed all trust in the health department, they're not following the science they're following their own desire to be in control ! when are you going to hold him accountable for his role in funding the research and release of covid? When are you going to start following the science and stop with all the fear mongering just to satisfy your own control issues

If you truly care to know, I did NOT enjoy the "event". You were all smug and condescending!

I do not wear sunscreen, so you don't get a sunburn and you do not use an umbrella to keep me from getting wet! Why would I myself, or anyone in my family get a vaccine to keep you from getting a virus you are vaccinated against!?

Quarantine has been reduced to 5 days...
Covid positive essential workers allowed to return to work...
While the unvaccinated are fired!

Washington state is 1 of 5 states paralyzed economically and educationally by the overreaching policies and mandates!!

How can you say serious illness was averted by vaccines, or that the illness will not be as severe?

Unless you have someone with covid unvaccinated, become re infected after a vaccination and then compare his symptoms and severeness, you CAN'T say that! And what do you say to the dead vaccinated people (2 of my friends last week) triple vexed and dead! Can't get much worse than that! Yet you so smoothly just make that statement as if it were true and every reason to get vaccinated.

Not ONE government agency has told the public the truth! And yesterday you proved to be no exception. The CDC said just 2 days ago that 75% (that's seventy five) of the deaths of persons with covid had a least 4 (that's four) co-morbidity's! Applying that percent to Washington state numbers, (10,026 covid deaths to date .00113 of our entire population) 7,519 of the deaths reported were not people who died from covid!! Of the 2,507 remaining, how many of them had 1-2-or 3 co-morbidity's? Leaving, how many people who actually did die from Covid -19, that made it necessity to cripple our state?

These are my numbers, this is where I live, and hundreds of people like me. I have 9 children. With spouses and grandchildren there are 40 (forty) of us. Twenty seven (27) of us have contracted and survived the 97-99% survivable CCP Covid-19 Virus and now enjoy natural immunity. Ten (10) of the 27 were children under the age of 12. Four (4) of the 27 were vaccinated. Five (5) of the 27 (including 1 of the 4 vaccinated) had to use ivermectin to recover. Only one (1) of the vaccinated has not gotten Covid!! Those are REAL numbers!

I always wonder at the other 1/2 of a sentence. If I say I oppose vaccine mandates (for any age, but especially children) those who do not agree with me add, "because she is an anti-vaxer," or, "she's one of those who doesn't think Covid is real." (despite the fact I am actually very pro safe vaccine and I have had very real Covid. The other true half of

the statement is, "I oppose mandates", because:

1. Yesterday Covid was still a 97-99% survivable virus and I believe ALL of you have lost sight of that!
2. The testing is not without a significant margin of error for both false positives and false negatives.
3. Adverse reactions are NOT being reported *
4. Natural immunity has been given consideration or credibility.

* We have 3 family members in the medical profession. One is an ER Nurse. She was told in June of 2021 to STOP reporting adverse reactions. When it became apparent the vaccine was failing to protect those who received it, she was instructed to NOT ask during triage the vaccination status of the patient however, should it be discovered that someone was NOT vaccinated, they were to be treated last. She quit!

Our government both state and federal have not permitted, prescribed, or encouraged at home protocol treatments to keep Covid positive patients OUT of the hospital and OUT of the morgue.

In particular, Ivermectin. And the other 1/2 of that sentence is," She advocates taking veterinarian/horse medicine. Even tho Ivermectin is a 40 year drug, created for humans, and has the distinction of being on WHO's list of top medications used worldwide! And is lauded for being both economical and highly effective!

Now Imagine with me that there's a 97-99% chance that you won't crap your pants, but you were forced to wear a diaper just in case? Now, imagine you have to wear a diaper to keep your neighbor from crapping their pants! And you will be at the point I am at the writing of this response. You are all full of crap and I'm fed up!

You will all be part of having the distinction of professing yourselves to be wise, yet all of you acting fools that are responsible for failures, and closures, and the exodus from Washington State. You have chosen a political agenda over reasonable scientific governance. I'm well aware you are not ashamed, although you ALL should be! And although yesterday I seemed to be ,"late to your party" I am going to start where I am, use what I have, to do what I can, to replace you.

Thanks for asking,
Joanne

I am writing to let you know I strongly oppose the government overreach in the following proposed policies. Do not mask our children in school, do not require mandatory vaccinations for COVID for adults or children, and do not add COVID to the possible conditions for which detainment at quarantine facilities could be required.

>

> • I oppose allowing local health officers to use law enforcement (WAC 246-100-070) to force an emergency order to involuntarily detain a person or group of persons (families) to be isolated in a quarantine facility (WAC 246-100-045) following refusal to voluntarily comply with requests for medical examination, testing, treatment, counseling, vaccination (WAC 246-100-040).

>

> • I oppose including the Covid-19 injections as part of school immunization requirements using WAC 246-100.

Covid-19 vaccine policy (fraudulent trial standards, SEVERE safety risks)

Document 2:

Date: 01/11/2022 6:53 PM
Subject: Fwd: Re: Health Professional Outreach: SEVERE Covid-19 testing problems & Vaccine Issues -CEASE AND DESIST

CEASE AND DESIST

To: All government policy makers/educational leadership responsible for implementing Vermont Covid-19 policy directives

Policy makers have actively misrepresented safety and efficacy of Covid-19 vaccinations against the government public health organization and vaccine trial evidence, in an act with serious public health ramifications for the citizens of Vermont:

Covid-19 vaccination were emergency use approved in December of 2020 on the basis of trials which measured for mild symptom suppression

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bmj.com%2Fcontent%2F37>, the trials did not monitor for reduction of serious outcomes (hospitalizations/mortality reduction) nor measure for reduction in transmission of SARS Cov2 (virus attributed to cause cluster symptoms) of Covid-19.

Further, despite multiple nations now halting/restricting use of US administered Covid-19 vaccinations due to severe safety risks (see below) with an ever expanding list of safety investigation for SEVERE health side effects and new release of Pfizer documents

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fcourt-ordered-document-release-exposes-company-covered-up-covid-vaccine-deaths-side-effects&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C> exposing the pharmaceutical company classified and withheld early safety data correlating 1,200 deaths and 42,000 injuries in the very early weeks of the Pfizer Covid-19 vaccination program, the policy makers and public health officials of Vermont charged persist in misrepresenting the safety and benefits of Covid-19 vaccinations against documentation the vaccinations INDUCE side effects mirroring symptoms of Covid-19 attributed diagnosis at FAR greater rates and severity than individuals will experiences with a positive PCR test diagnosis for Covid-19 (documentation below)

Public health and policy maker leadership must immediately CEASE and DESIST misrepresenting Covid-19 public health against data documented by WHO/CDC/FDA & test/manufacture and research evidence and correct course to end public health policies which have resulted in SEVERE individual and public health harm based on FALSE information.

Documentation and source links below

Thanks you

Original Outreach Summary: PLEASE REVIEW

(update - new Pfizer court ordered released data document the pharmaceutical classified/deliberately suppressed early safety data showing signals which should have resulted IN immediate withdrawal of Emergency Use authorization by existing FDA/research study parameters for ending EUA drug approvals):

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fcourt-ordered-document-release-exposes-company-covered-up-covid-vaccine-deaths-side-effects&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

Urgent:

This email is part of national outreach campaign to correct SEVERE errors in Covid-19 narratives which are actively contradicted and disproven by a cursory objective review of

the public health organization data and vaccine trial evidence. There are SEVERE testing flaws and vaccine safety issues and the media is not objectively reviewing data which exposes the issue. Below is a summary compilation of evidence, it is all sourced and linked, it includes videos as well as extensive referral to CDC, FDA, WHO, & peer review data.

Summary (each topic will be addressed below with direct source links to documentation per the government/vaccine trial/pharmaceutical/test manufacturer data in the full letter section - see the full body for sources & LINKS to data/evidence)

TESTING (brief summary - see full body letter for the full links to all sources)

- PCR tests - developed without virus isolate, non specific to Sars CoV2 (virus attributed to cause Covid-19), set at cycle amplification settings above level which detect live material (24), a positive does not equate to symptom presentation or contagion per CDC own emergency use document, 22 expert panel peer review for International Consortium of Science deemed the PCR test 'useless' for detection of Sars CoV2, virus attributed to cause Covid-19 cluster symptoms (this was first nationally reported in the New York Times over a year ago, the core issue never was corrected)

- Antigen testing: Antigen tests will produce up to 100% false positive tests when used in low incident populations per FDA statement on November 3, 2020, the entire country was 'low incident' population before mass administration & the 'second wave' last fall. FDA issued a statement on November 3 2020 warning potential for mass false positives when used in low incident populations with formula for calculating expected false positive rate. Up to 100% false positives in low incident (Covid) populations, in my county, utilizing the FDA's own formula - this worked out to projected 86% false positives on this ONE error alone with use of tests.

- Antibody testing - non specific to Sars CoV2, pick up material from many other diseases, takes many day to weeks to flag a positive result

- majority of all Covid-19 test kits and devices ever issued have been subsequently recalled by the FDA due to bacterial/fungal contamination and faulty trial design, 100s of millions of tests, the same companies are then rewarded with new contracts to produce Covid-19 related devices and products with no liability due to Emergency Use Status of Test. Millions are being recalled every month. This comprises over 270 different kits and hundreds of millions of tests (links to FDA list and full article including extensive information on contamination of US & global testing below)

Attribution Standards

Unscientific, designed to capture illness unrelated to Sars CoV2, misattributing existing/other disease to Covid-19

Mass Financial incentives to hospitals to label case Covid-19 per American physician and surgeon expose (below)

Severely flawed testing/attribution standards are falsely assigning Covid-19 diagnosis to individuals not ill with Covid at all, or falsely labeling other disease/illness to a Covid-19 diagnosis. This is especially troubling as vaccinated individuals coming into the hospitals with side effect symptoms of Covid-19 vaccines are not having potential vaccine injuries/mortalities investigated with public health officials attributing these cases to Covid-19 on the basis of severe flawed methods and not following up with autopsy study as is occurring in other nations. (see documentation below)

US states running the tests against the recommendation standards and warning updates issued by WHO, CDC, & FDA resulting in mass false positive tests cases

(see document below)

Action Alert: NY Legislature Introduces Citizen Detainment Bill, Documentation Letter to Share

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Falert-ny-legislature-introduces-citizen-detaiment-bill-documentation-letter-to-share&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>>

Vaccines:

Vaccinations do NOT stop transmission of disease, were approved for symptom suppression, trials were based on MILD cases and did not monitor for severe outcomes (documented in BMJ article below), vaccinations INDUCE the very symptoms as side effects (and worse) that the drugs were EUA to stop at rates far greater than individuals experience with positive PCR test diagnosis of Covid-19 (this is due to test settings and methods generating false positives, not asymptomatic transmission, see below) - Drugs which do NOT prevent spread of disease are useless as a public health containment measure, yet policy makers and media continue to tell the public individuals should be vaccinated to 'protect others' -

Vaccinations are being recalled in countries around the globe due to safety issues, seven European nations have halted or restricted Moderna due to myocarditis risk, Taiwan has suspended Moderna for under 18s due to myocarditis risk, Norway stops Johnson & Johnson due to blood clot risks, other nations are undergoing FAR more thorough post mortem review than US - major anaphylactic events at vaccination clinic in Vietnam (4 out of 700 students went into anaphylactic shock, one dead,

15 Swedish scientists have issued press release in British Medical Journal demanding Sweden cease Pfizer vaccinations due to trial fraud, Pfizer court ordered release of documents shows the company withheld severe side effects documented in trials and withheld over 1200 death reports which occurred in the first weeks of program. Pfizer is currently seeking to withhold further release of documents until 2096

Physician & nurse whistleblowers testifying globally before panels including military physician who testified she had to ground three pilots in one morning due to myocarditis, physicians who report their own injuries to CDC are not being followed up, trial participants whistleblow on lack of f/u and monitoring of their symptoms (links to video below)

Severe safety signals with German news reviewing recent occurrence of myocarditis & deaths of athletes - in Europe, the rate has gone from 2 to 8 per year now over 75 in five months with the same pattern occurring globally at the same time warning labels have been added to mRNA vaccinations - some countries are recommending against strenuous activity post Covid-19 mRNA vaccination, and both the American Heart Association researchers and British trial institutions are duplicating research showing dramatic increased in cardiac inflammation post Covid-19 mRNA vaccination - Moderna could not get past regular safety trials in 2017 (this pattern is occurring in students/public servants/soldiers/health professionals who are often mandated to take vaccination to retain employment)

Several US educators and athletic coaches died over the past weekend, two on school premises, we are monitoring this trend as a safety signal & it bears careful scrutiny including two SUNY coaches and a teacher, this continues a global trend of sudden deaths occurring in conjunction with timing of Covid-19 vaccine program and extensive documentation of increased heart inflammation risk now coming in from major medical journals - full details here:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fp-covid-19-vaccinations-alarming-trend-of-increasing-athletes-students-teacher-deaths&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fp-covid-19-vaccinations-alarming-trend-of-increasing-athletes-students-teacher-deaths&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

-New court ordered Pfizer document release exposes company misrepresented safety data, suppressed 42,000 injury and over 1,200 death reports, company has filed to withhold the rest of the requested vaccine trial and preliminary vaccine contract documents until 2096 -

-CDC is failing to record deaths occurring post Covid-19 vaccine as related to vaccination even when autopsy, treating physician, and coroner state vaccination correlated to death (even in cases of anaphylaxis occurring within minutes to hours of vaccination)

-CDC is manipulating the reporting standards to suppress inclusion of vaccine injured in official reports, this includes categorizing individuals as unvaccinated if they are not two weeks post vaccine, utilizing different cycle threshold standards to report cases between vaccinated and unvaccinated

-CDC is MASS backloading VAERS injury reports (83% of VAERS data is submitted by MANDATORY reporters, see below) - Early VAERS reports have increased from 56,000 to over 414,000 for the first 3 1/2 months of vaccine program, the occurrence data of injury is nearly all within this early period, CDC is withholding submission date, ages, and other central information from reports. A group contact has now filed a Freedom of Information act request to demand release of ALL reports submitted. In conjunction with the latest court released Pfizer Covid-19 documentation showing mass withholding of adverse events and early deaths (see below), this very much indicates a deliberate attempt to withhold safety data from the public, Pfizer is currently seeking to withhold Covid-19 vaccine data until 2096)

Update (latest blog not included in letter below, important) - links to court documents from FOI Pfizer Court Ruling included -UK physician whistleblower video on British major news network included:

New Pfizer documents expose company deliberately withheld evidence showing severe safety signals, misrepresented findings to FDA:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fp-court-ordered-document-release-exposes-company-covered-up-covid-vaccine-deaths-side-effects&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

Full letter with evidence: SOURCE LINKS HERE - PLEASE REVIEW

TESTING

The central test for Covid-19 diagnosis is the RT PCR test. This test was developed without any Sars CoV2 virus isolate (virus attributed to cause symptoms of Covid-19), it has been set at cycle amplification rates over the limit at which the test will pick up ANY live material (24 cycles), the test is NON specific to Covid-19 a positive does NOT mean

individual is ill or contagious due to Sars CoV2 presence (this is stated directly in the CDC emergency use guide lines for the test)

Additionally, peer review by the International Consortium of Science 22 expert panel on the science paper on which the testing is based found 10 severe flaws with the testing and deemed it 'useless' for detection of the virus:

"In light of our re-examination of the test protocol to identify SARS-CoV-2 described in the Corman-Drosten paper we have identified concerning errors and inherent fallacies which render the SARS-CoV-2 PCR test useless'.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcormandrostenreview.com%2Freport-nov-2020.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7D>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcormandrostenreview.com%2Freport-nov-2020.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7D>

(some have written of problems with above link - you can reference paper here as well, but we are trying to keep to direct sources):

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Famirmortasawi.files.wordpress.com%2F2020%2Fdrosten-review-report-nov-2020.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7D>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Famirmortasawi.files.wordpress.com%2F2020%2Fdrosten-review-report-nov-2020.pdf&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7D>

Several international courts have ruled AGAINST the use of this testing due to severe errors and the testing NOT being substantive evidence of a Covid-19 diagnosis including Austria & German, there are numerous pending trials on the testing issue.

Documentation with direct source links to testing issues including WHO, FDA, & CDC data may be found here:

Rapid antigen testing are equally flawed with the FDA issuing a statement on November 3, 2020 stating antigen tests may create up to 100% false positive when used in low incident population per a formula based on test specificity and incidence rate. (the entire US was a low incident population before the government ordered tens of millions of these tests before the 'second wave' in the fall of 2020), the same is occurring now:

Documentation HERE:

The TESTING is creating a never ending cycle of test/false positive diagnosis/lockdown – the TESTING is driving the cases not infection:

Additionally, hundreds of millions of Covid-19 testing kits have been recalled globally since the inception of the program, MILLIONS every month, no effort to issue any correction to the case data or investigate this ongoing scandal is being made by policy makers or media organizations despite mass outreach by health professionals to flag the problem. This testing is Emergency Use Only Approved so there is NO liability for producing faulty testing and the companies producing these worthless tests are immediately rewarded with additional contracts:

Here is the direct link to the FDA list (which the site has now archived and buried – and they stopped updating it in October despite new recalls since that date, 2 million more were recalled last week). This should be a front page expose, we have crickets:

FDA RECALL LIST/Covid-19 tests and devices Please open the link at the third box for the full list for list:

The testing is unsuitable for detection of Sars CoV2 per above evidence from FDA, WHO, CDC, and serious peer review research

Use of testing unsuitable for detection of Sars CoV2 invalidates all case data, research studies (including vaccine/drug trials), individual diagnosis made on the basis of testing results. All hospitalization and mortality numbers corrupted.

'Variants' are diagnosed with the same testing which is USELESS for detection of Sars CoV2. Omnicron has no more validity than any other Covid-19 diagnosis, the TESTS DO NOT WORK

The reason Africa basically has no Covid is simple. They are NOT administering the testing which is driving the cases, and they are NOT seeing hospital increases right now because vaccine injuries are driving the admissions not Covid-19. This is not a 'mystery', the government evidence clearly shows what is driving it! (Covid isn't just magically skipping over it)!

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fapnews.com%2Farticle%2Fcoronavirus-pandemic-science-health-pandemics-united-nations-fcf28a83c9352a67e50aa2172eb01a2f&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C&open=1>

ATTRIBUTION STANDARDS

The media has allowed public health officials to false attribute existing disease (or no disease at all – asymptomatic infection is not infection, it is based on faulty testing methods and results) on unscientific attribution standards

A hospitalization is catalogued as a Covid-19 hospitalization regardless of reason for admission based on faulty testing

A mortality is catalogued as a Covid-19 death on the basis of faulty testing OR symptom presentation which mirrors many other diseases
The attribution standards are DESIGNED to capture other illness/disease and assign it as a Covid-19 case – please review this post for full documentation with source links from CDC/WHO & other sources:

The average age of death is over 80 with four co-existing serious conditions in 96% of cases – the label of Covid-19 is assigned through testing unsuitable for detection of virus or symptom presentation which mirror many other illness.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2F%2Fposts%2Fdata-destroys-public-official-covid-claims-covid-19-deaths-cases-hospitalization&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C&open=1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2F%2Fposts%2Fdata-destroys-public-official-covid-claims-covid-19-deaths-cases-hospitalization&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C&open=1>

Worse, hospitals are given MASS financial incentives to label hospital admission/mortalities Covid-19 – American Physician and Surgeons report 100,000 incentive:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Faapsonline.org%2Fbidens-bounty-on-your-life-hospitals-incentive-payments-for-covid-19%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C&open=1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Faapsonline.org%2Fbids-bounty-on-your-life-hospitals-incentive-payments-for-covid-19%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

(this blog regrets this is being politicized in this article however the information is accurate – both ‘sides’ have been acting against public health interests in their push for vaccines and unnecessary Covid protocols)
Vaccines/Drug Cures

Due to the above evidence, it is clear that there is NO need to mass manufacture vaccinations/drugs to prevent/cure infections generated through faulty testing/attribution standards. And, even if one takes the data ENTIRELY as presented by officials without considering any of the above evidence – the government’s response is irrational and harmful – consider

Vaccines do NOT stop transmission of disease, they were approved for suppression of symptoms. This is admitted by Dr Anthony Fauci and CDC Director Walensky, so why is the media pushing the need for vaccination to ‘protect others’ as a drug which doesn’t stop spread of disease is USELESS as a public health containment measure:

Fauci – inoculations approved for symptom suppression

86% of Covid-19 attributed case have NO core symptoms –Oxford Study

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cnn.com%2F2020%2F10%2F08%2Fthan-80percent-of-people-with-coronavirus-had-no-symptoms-uk-study.html&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.cnn.com%2F2020%2F10%2F08%2Fthan-80percent-of-people-with-coronavirus-had-no-symptoms-uk-study.html&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

this is falsely represented as evidence of ‘asymptomatic infection, its the PCR testing)

Review of breakthrough/asymptomatic presentation evidence: - asymptomatic transmission is scientifically unsupported theory driven by falsely attributing viral load to dead non infectious material picked up by over amplified PCR tests - fully documented HERE -

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fbreakthrough-cases-no-asymptomatic-transmission-bogus-research-used-to-push-covid-19-myth&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fbreakthrough-cases-no-asymptomatic-transmission-bogus-research-used-to-push-covid-19-myth&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

Additionally, the media continually allows 'experts' and public health officials to make false claims around vaccine efficacy with claims of 'Vaccine Saves Lives'

This statement has NO substantive evidence whatsoever to back it. The trials measured MILD attributed cases and the efficacy was based on suppression of MILD symptoms – this is fully documented in a British Medical Journal review of trials by Peter Doshi:
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bmj.com%2Fcontent%2F371>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.bmj.com%2Fcontent%2F371>

VACCINES are completely unnecessary even accepting the Covid-19 story as it stands.

The stories attempting to push vaccines as necessary life savers is completely manipulative as there is ZERO substantive evidence vaccines save lives and extensive evidence the drugs are inflicting serious health consequences. And, many families are entirely unaware that a positive test is NOT a viable method for determination of death yet many individuals are told loved one died of Covid on the premise of NO substantive evidence whatsoever. The behavior of hospitals who are being paid huge sums for Covid-19 admissions is a shame on the entire medical system, and seriously damaging the credibility and trust of the health professions for at least a generation to come.

The entire program is predicated on symptom suppression for a attributed disease which hardly ever manifests in symptoms anyway with low mortality rates in all age groups except over 65s & even then, the vaccines offer NO improvement whatsoever of what individuals experience with a positive PCR test diagnosis for Covid-19 outcomes, so there is NO benefit to administration of these drugs ONLY risk

Vaccines INDUCE the symptoms (as side effects) the drugs are purported to suppress at far greater rates and severity than individuals will experience with a positive PCR test diagnosis for Covid-19 diagnosis as documented HERE:

Evidence Vaccines Inflicting serious harm/death

Covid-19 vaccines are recording record injury & death reports with over 924,000 injuries and nearly 20,000 deaths recorded since the inception of the program last December.

83% of VAERS data is generated by MANDATED reporters with majority including case data, medical notes and sometimes labs. The media has adopted a campaign to dismiss the data based on the CDC refusing to acknowledge the significance of data (even when treating physician/autopsy directly correlate a vaccine death to a vaccine)

Report on how the data is generated with source links (per Harvard study only 1% of vaccine injuries are ever reported to VAERS and NYT article documents last February the FDA admitting this mass emergency use program started without adequate safety monitoring system in place):

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fdata-media-attempts-to-discredit-substantive-vaccine-injury-data-independent-review&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fdata-media-attempts-to-discredit-substantive-vaccine-injury-data-independent-review&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

This rate of injury should have ended the program – in 1976, fifty six associated deaths with the Swine Flu program ended the program (these deaths were NOT proven – links to this data & video in above link)

The CDC is failing to properly investigate post vaccine deaths, labeling deaths Covid-19 even when AUTOPSY and TREATING PHYSICIAN testimony show a CLEAR correlation to the vaccine as in the case of Drene Keyes, a black minister who went into anaphylactic shock post Covid-19 Pfizer vaccination)

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fdrene-keyes-evidence-shows-officials-covering-up-black-minister-s-covid-19-vaccine-death&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fdrene-keyes-evidence-shows-officials-covering-up-black-minister-s-covid-19-vaccine-death&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

This case is rare in that it was publicized or reported on at all with the local media allowing her daughter to challenge the narrative.

The CDC is failing to investigate deaths post Covid-19 vaccine by simply labeling the mortality a Covid death despite the severe testing/attribution standards)

There is NO standard investigation protocol for a post vaccination death by the CDC. In a proper trial of new drugs, all deaths would be investigated and reported, this is not

happening with Covid-19 vaccines.

CDC is manipulating reporting standards: (links to CDC reporting standards)
Evidence Indicates CDC Manipulating Covid-19 PCR Testing, Provide False Evidence of Vaccine Efficacy

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fcdc-manipulating-covid-19-pcr-testing-provide-false-evidence-of-vaccine-efficacy&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7>

Shockingly, CDC Now Lists Vaccinated Deaths as Unvaccinated

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fz3news.com%2Fw%2Fshockingly-cdc-now-lists-vaccinated-deaths-as-unvaccinated%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7>

(most VAERS reports are submitted within the first two weeks of vaccination)

The media has normalized the drugs inducing harmful side effects – often promoting side effects mirroring the very symptoms the drugs are administered to suppressed means the drugs are ‘working’ This has normalized significant side effects which SHOULD be reported to VAERS. This narrative needs to cease, induction of harm by these drugs is NOT a benefit.

Major research developments - mRNA/Heart Inflammation:
American Heart Association Journal: Journal/Circulation
Abstract Steven R Gundry
Physician, American Heart and Lung Institute

Abstract of report finding:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ahajournals.org%2Fdoi%2F10.1161/ATVB.120.314000>

Abstract 10712: Mrna COVID Vaccines Dramatically Increase Endothelial Inflammatory Markers and ACS Risk as Measured by the PULS Cardiac Test: a Warning

“At the time of this report, these changes persist for at least 2.5 months post second dose of vac. We conclude that the mRNA vacs dramatically increase inflammation on the endothelium and T cell infiltration of cardiac muscle and may account for the observations of increased thrombosis, cardiomyopathy, and other vascular events following vaccination.

J&J pulled in Denmark/Norway, Breaking today (12/16/2021) CDC is now holding ANOTHER meeting due to the blood clots which caused these nations to pull this drug and halt the program here in US last Spring, the US should NEVER have approved this drug to start but resuming it after direct correlation to deaths is blatantly criminal, now months later after MORE deaths, they are forced to review again:

Please see blog for additional documentation of Pfizer safety issues, vaccine batch halted

in Vietnam after 125 children hospitalized/4 students of 700 go into anaphylactic shock & major Pfizer headlines which the media should feature in Covid-19 coverage - including new court rulings:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fpfizer-headlines-court-ruling-ignored-by-the-media-scientists-document-vaccine-trial-fraud&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fpfizer-headlines-court-ruling-ignored-by-the-media-scientists-document-vaccine-trial-fraud&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

Lawyers have filed suit against Pfizer for misrepresenting safety data in 5 to 11 in Canada:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwesternstandardonline.com%2F2021-lawyer-files-complaint-against-pfizer%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwesternstandardonline.com%2F2021-lawyer-files-complaint-against-pfizer%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

“According to the unnamed experts, Pfizer allegedly ignored the risks of “anaphylaxis, pericarditis, capillary thrombosis, clotting disorders, strokes and transverse myelitis, to name a few.”

The complaint letter said Pfizer has also allegedly “scrubbed” data related to deaths due to transverse myelitis from its initial Emergency Use Authorization (EUA) application to the FDA. The complaint also alleges the application was “fraught with fraudulent misstatements” around the safety profile of the Pfizer vaccine.

“To suggest to the parents of Canada that this product is safe and will not kill or injure more Canadian 5-11-year-old children than the notional 0-3 ‘prevented COVID-19 deaths’ alluded to by Pfizer in its FDA EUA application constitutes fraud on the Canadian public and the Canadian Government,” the claim reads.

This letter is only a very partial documentation of the significant ongoing issues with vaccine safety, testing, and policy protocols but it highlights significant evidence of SEVERE problems which indicate:

Testing needs to immediately CEASE as it is driving cases and it is unsuitable for detection of virus employed to detect

Vaccine administration needs to immediately cease and full disclosure of all injury reports and trial data must be released to the public:

CDC massively backloading VAERS injury data: (not new incidents, withholding submission dates of report) 360,000 backloaded for first three and half months,

https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2F400-covid-19-vaccine-deaths-occurred-in-first-six-weeks-of-program-cdc-back-loading-data&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C11

Update on this article with additional major Pfizer headlines your news organization should be aware including problems with 'approval' which appears to involve a bait and switch for Pfizer to retain liability protection for administering EUA drugs while selling the public on a fully approved vaccine (SHORT term trials will not even be finished until next year, and no mid or long term data whatsoever, it is unethical to make claims of safety and efficacy on LACK of data, this is setting a dangerous new precedent where untested drugs are released on a 'trust us' standard and the consequences have been severe)

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fpfizer-headlines-court-ruling-ignored-by-the-media-scientists-document-vaccine-trial-fraud&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fpfizer-headlines-court-ruling-ignored-by-the-media-scientists-document-vaccine-trial-fraud&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C1>

Policy makers, public health departments, and lead medical organizations have been contacted extensively about the above issues, they are stonewalling or ignoring health professional outreach to course correct. This includes licensing boards and public health departments at local/state/national level.

PLEASE act to report on these issues.

Media is contributing to mass public health harm in allowing misrepresentation of this data by government officials & 'experts making false claims of safety/efficacy should be in front of a licensing board hearing not featured as 'experts' in the media. There is now concrete documents of mass safety data suppression coming from the Pfizer documents and CDC own reporting systems of mass early suppression of data (injury reports have jumped from 58,000 to over 414,000 in early months of program with nearly all showing occurrence date in early period. This is fraud and the media needs to immediately inform the public of this data.

The politicalization and attacks on individuals coming forward to present credible, evidence based concerns needs to immediately cease. Our children's health is at risk from these drugs and this is not a partisan issue, it is one of public health. Our group is non-partisan and we have been dismayed to see both political 'sides' actively advancing claims and policies against the government health organization and vaccine trial data.

It is essential the media begin objectively reviewing the claims made by public health officials and pharmaceutical reps as our extensive review has found their data contradicts the entire Covid-19 'official' narrative.

The framing of what should be an objective scientific discussion with focus on EVIDENCE should begin in earnest. The media and policy makers framing of these issues through partisan speak and slander of those who attempt to provide objective review of fact (conspiracy theorist) to public has been a serious disservice to your readers and viewers. Follow the science has been a slogan, not a guiding principle in news media covid 19 reporting.

Thanks for your time

Health Professionals for Covid-19 Policy Corrections

On 01/11/2022 11:04 PM unite4truth@mailbox.org wrote:

Hello

We see you are involved in enacting policy to illegally and unconstitutionally detain citizens on suspicion of medical threat to public health per bill

WAC 246-100-040

Your office should be fully aware health professional, academic, and parent groups are currently moving forward with mass cease and desist and legal action to stop Covid-19 testing being implemented against FDA/WHO/CDC own use standards and resulting in 100% false positive by default of the protocol violations -

We are forwarding two documents to put you on notice that actions to detain citizens on false data under the guise of public health will be met with immediate legal action and personal filing against all individuals responsible for aiding mass public health

organization which may be construed as a conspiracy and tried according to such standards.

Letter One and documentation below (example of one of MANY letters going out to policy makers and public health officials right now),

Document 1:

To Senator Brian Campon, Governor Phil Scot

CEASE AND DESIST
(cc superintendents, media)

Vermont is running Covid-19 testing against WHO/CDC/FDA standards & updated warning statements and implementing Antigen testing against FDA warning which will result in 96% false positive results (on one error) per statement issued on 11/3/2020. (FDA warning statements with calculations for expected false positive rate (96%) are included in the body of email below:

Vermont Public Health department and Governor have been provided the following documentation, refuse to correct course and aiding an act of medical fraud.

Additionally, PCR tests are being run at cycle amplification rates above 24 CT (a cycle level too high, more cycles run, less material, over 24 research study has found NO LIVE material over 24 CT - this has been falsely represented by policy makers, public health organization leadership as 'viral load' and false proof of detection of Sars CoV2, virus attributed to cause generic Covid-19 cluster symptoms. The continuation of implementation of use of PCR testing peer reviewed as unsuitable for the purpose over a year ago with numerous update warning statement of problem documented by the CDC/WHO/FDA statements is an act of medical fraud (linked in body of email below)

Covid-19 testing is Emergency Use Authorized ONLY and it is the responsibility of leadership to review documentation to ensure states remain in compliance with new directives. Vermont public health & policy makers have not.

Additionally, the majority of all Covid-19 testing ever issued has been subsequently recalled by the FDA due to serious design flaw and contamination with no action by policy makers to address ongoing issue or issue correction/public health warning to citizens who received Covid-19 diagnosis and treatment on the basis of faulty test which are not clinically viable for detection of Sars CoV2. Over 270 different Covid testing/devices have been recalled by the FDA comprising (at least) tens of millions of kits.

Vermont policy makers have imperiled licensed health professionals and academics with liability/licensing and liability issues with ordering testing directives against government health organization own use standards as clearly documented by the evidence below. Health professionals/academics are held to an EVIDENCE based standards and 'following orders' will not hold up as a defense in a court of law

Please review this letter which has been sent out to school superintendents (ALL) in NY, VT, and MA:

And, IMMEDIATELY act to end testing directives which are driving false positive cases which are being misrepresented as Covid-19 cases as this constitutes a SERIOUS threat to individual and public health for citizens in the state of Vermont.

Subject: Health Professional Outreach: SEVERE Problems with Covid Testing:

States Running Testing against FDA Warning Statements/WHO/CDC standards updates:
false positives

LEGAL ACTION PENDING

Subject: URGENT: Health Professional Outreach - New York Running Antigen
Testing Against FDA Warning Use of Tests/ MAJORITY FALSE POSITIVES

Hello

This is an urgent outreach to provide documentation on problems with Covid-19
Rapid Antigen Testing in schools which are being run against FDA warning for use in low
incident populations which will result in MAJORITY false positives when utilized against
this warning:

States/Schools are running Covid 19 antigen testing against FDA (and other public
health organization) use recommendations per below document,

Here is the document:

Potential for False Positive Results with Antigen Tests for Rapid Detection of SARS-CoV-2 - Letter to Clinical Laboratory Staff and Health Care Providers

* Remember that positive predictive value (PPV) varies with disease prevalence when interpreting results from diagnostic tests. PPV is the percent of positive test results that are true positives. As disease prevalence decreases, the percent of test results that are false positives increase.

* For example, a test with 98% specificity would have a PPV of just over 80% in a population with 10% prevalence, meaning 20 out of 100 positive results would be false positives.

* The same test would only have a PPV of approximately 30% in a population with 1% prevalence, meaning 70 out of 100 positive results would be false positives. This means that, in a population with 1% prevalence, only 30% of individuals with positive test results actually have the disease.

* At 0.1% prevalence, the PPV would only be 4%, meaning that 96 out of 100 positive results would be false positives.

* Health care providers should take the local prevalence into consideration when interpreting diagnostic test results.

* Consider positive results in combination with clinical observations, patient

history, and epidemiological information

To give you an example of how this works, I will give you the expected false positives in Vermont (one of group members obtained this data to issue warning for Vermont public schools - here are the numbers:

Vermont: 14 day cases

1020 cases

Population of Vermont:

623,251

Antigen tests: 98% general specificity

.1% case rate

* At 0.1% prevalence, the PPV would only be 4%, meaning that 96 out of 100 positive results would be false positives.

96 out of hundred tests are expected to be false positives (on this one error, other significant errors also documented with the use of these testing methods) -

The ENTIRE US population was 'low incident' before employment of mass testing was instituted, no current case numbers or individual diagnosis have ANY scientific clinical validity due to improper use of antigen tests AGAINST FDA warning.

(additionally, the testing utilized to determine case rates in New York is severely flawed and against use guidelines as documented HERE)

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fnot-exercising-due-diligence-reporting-covid-19-case-numbers-egregious-test-problems-ignored&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fnot-exercising-due-diligence-reporting-covid-19-case-numbers-egregious-test-problems-ignored&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7>

Our group did a similar outreach last Spring and the head of the education department & policy makers have been made aware but REFUSE to correct course.

Here is the article from that outreach:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fforced-covid-19-antigen-testing-in-schools-states-going-against-fda-recommendations-strategy&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Flinkprotect.cudasvc.com%2Furl%3Ahttps%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fforced-covid-19-antigen-testing-in-schools-states-going-against-fda-recommendations-strategy%26c%3DE%2C1%2Ckyt-yX7SU4Je9M4gDT079Uw5kKp8FI63It1e5YEK-JHE474cL9I5yRqJfZXC4dYs7_O2a2hk_kPhQ64KC2f8kTHw419cB0M3-

V_UTZ9r9UOMw653jxdVX7yNHA%2C%2C%26typo%3D1&data=04%7C01%7CWSBOH%40SBOH.WA.

From the numbers last March for MA

"Right now, in the county I am in, we are at .08% PPV You arrive at the PPV number by finding out your county population, determine the last two week average of active cases (available on your state's Covid-19 dashboard) and then find out the test which antigen test they use to determine specificity rate. Most are about 98% specificity.

Here, it went, two hundred 'active' cases Population of country 125,000 people

.08 prevalence rate.

98% test specificity average to about 99.98 false positive cases"
This is NOT the only problem with testing.

Testing issues include:

MASS recalls, 270 different Covid-19 test kits and devices have been recalled since the inception of the program - this comprises 100s of millions of tests and majority of all tests EVER ISSUED, many recalled due to contamination issues. This is an ongoing issue with millions recalled each months, none having any clinical validity for diagnosis to errors necessitating recalls.

Here is the link to the FDA webpage which was (until recently) keeping track of the recalls on a central list, but stopped updating it in July despite extensive recalls since that time (buried on site, this is a valid archive of the page):

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fweb.archive.org%2Fweb%2F20211101%2Fdevices%2Fcoronavirus-covid-19-and-medical-devices%2Fremoval-lists-tests-should-no-longer-be-used-and-or-distributed-covid-19-faqs-testing-sars-cov-2&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C11d0>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fweb.archive.org%2Fweb%2F20211101%2Fdevices%2Fcoronavirus-covid-19-and-medical-devices%2Fremoval-lists-tests-should-no-longer-be-used-and-or-distributed-covid-19-faqs-testing-sars-cov-2&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C11d0>

Please click on the third box of the above link to view the list

Additionally, there are severe problems with PCR testing including

-test developed without virus isolate (non specific to Sars CoV2)
-test set at cycle amplification rates which produce false positive by default of the
test

This issue was featured in a New York Times article in the summer of 2020 highlighting research studies adjusting for the cycle amplification error and finding up to

NINETY percent of tests were false positive due to a simple test recommendation error by the FDA WHICH REMAINS UNCORRECTED TO THIS DAY

https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nytimes.com%2F2020%2F08%2F01%2Fhealth%2Fcoronavirus%2Fnytimes-testing.html&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d19

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.nytimes.com%2F2020%2F01%2Fny-interactive%2F01-testing.html&data=04%7C01%7CWSEBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d19>

Summary of problem in a cease and desist letter from international attorney Reiner Fuellmich who is working globally to file lawsuits against the testing due creation of false positive tests through violation of scientific and implementation standards:

"If the test system only begins detection after a large number of replication cycles, the viral load is so low that active infection is ruled out. In the NDR podcast of May 7, 2020, you yourself referred to a study according to which a patient is considered "less infectious" above 25 cycles. In fact, the authors of a Canadian study failed to identify any replicable virus beyond 24 cycles (Jared Bullard et al. in Clinical Infectious Diseases,

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdoi.org%2F10.1093%2Fcid%2F&am>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdoi.org%2F10.1093%2Fcid%2Faaiaa638>). Nevertheless, when the new case numbers are added up again, nowhere is it checked at which Ct value the cut-off was set in the

respective positive test case. This makes the result of a PCR test highly susceptible to manipulation - and thus susceptible to political influence when high case numbers are "needed" in order to intimidate the population. In any case, the values determined on the basis of a PCR test are not a sufficient basis for a complete shutdown of public life and interference with people's liberties on an unprecedented scale".

Link to document with letter HERE
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdrive.google.com%2Ffile%2Fd%2vDwqEy9vMhbNqzodAEW3b%2Fview&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4>
(submitted against PCR test science authors)

To keep it very simple, the more cycles you run a PCR test at, the less material is left, due this too many times and eventually, its just dead non infectious material

The documentation for the studies showing this and further problems with the PCR test may be viewed here:

https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fcedesist-covid-19-leadership-testing-vaccines-policies-violate-licensing-ethical-standards&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Flinkprotect.cudasvc.com%2Furl%3Ahttps%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fpcr-covid-19-leadership-testing-vaccines-policies-violate-licensing-ethical-standards%26c%3DE%2C1%2CLYJeVcG4MaIxaJCw6RqA7GMERVSRTAljix_SjNBOZJ3chueAKCBrUR6rX5MmY

The public health leadership and policy makers are aware of these issues but will not act to change course. This does NOT negate of the school leadership at the local levels to immediately address this issue, and frankly, our group is beyond done with the 'following order' response from educational leadership when given extensive evidence testing is perpetuating false cases. It is time to act.

It is imperative that lead educators now come forward to speak out on our children's behalf and demand the public health department and education department leadership cease and desist implementing testing which is driving case numbers

The entire basis for social distancing, lock downs, and masking is based on severely flawed testing which is creating cases, misrepresented as infections

The reason individuals test positive with no symptoms is due to high amplification cycles producing false positives, 90% of people in MA received false positives according to research trials in summer of 2020. These individuals are not silent infections, they are simply not sick

At this point, given the extensive documentation of the problems with statements by Anthony Fauci admitting the issue over a year ago, this is not just a honest mistake, it appears to be coordinated fraud

Full review with Fauci interview may be viewed [HERE](#)

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fpcr-covid-19-gold-standard-test-to-be-discontinued-replaced-with-equally-flawed-testing&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d198%7C>

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Flinkprotect.cudasvc.com%2Furl%3Ahttps%3A%2F%2Fwww.unite4truth.com%2Fpost%2Fpcr-covid-19-gold-standard-test-to-be-discontinued-replaced-with-equally-flawed-testing%26c%3DE%2C1%2Cr4EAdKXKPBD4dMe13UM2qM6jKspu57sH5wX7ImuZS_CY2MfLFtAy_C_sfO6Ldx

Additionally, educators should be aware that the government can not provide ANY substantive evidence showing masking offers any benefit to children - a Freedom of Information act request just returned from NY letter:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftwitter.com%2FWilliamAHuston%2F>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftwitter.com%2FWilliamAHuston%2F>

The ramifications for our children's social development through constant masking and physical distancing are profound. Right now, against ALL medical and scientific evidence, on the basis of severely flawed testing standards, children are being advised by some authorities to utilize N95 and other medical grade mask which under NO circumstance should be worn by children (decreases oxygenation levels which may result in brain damage if this continues long term).

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.technocracy.news%2Fgerman-neurologist-on-face-masks-oxygen-deprivation-causes-permanent-neurological->

damage%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d19

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.technocracy.news%2Fgerman-neurologist-on-face-masks-oxygen-deprivation-causes-permanent-neurological-damage%2F&data=04%7C01%7CWSBOH%40SBOH.WA.GOV%7C25ff2aa1c4f54fa5c6f608d9d786d19>

Please act to speak out on this issue and share this information with fellow educators

Lawsuits are pending on testing issues both in the US and abroad. Be aware that there is potential liability issues for health professionals (i.e. school nurses and licensed educators) for implementation of policies which document show severe potential to impede student health, following orders against actual data is NOT a legal excuse in court.

Liability issues may extend to licensed educators who are implementing Covid-19 testing against government's own standards. ALL Covid-19 testing is Emergency Use authorized only and there are ongoing updates which lead policy makers and educators are responsible for reviewing:

ALL Covid-19 testing is Emergency Used approved only, new statements/guidelines/warnings/recalls have been coming out on a near weekly basis. It is the responsibility of those implementing these testing programs in school districts to ensure this data is undergoing ongoing monitoring -

Have any of your districts acted to investigate which tests you have utilized which have been subsequently recalled (most were)?

Have any of your districts acted to provide parental notification about faulty test results students may have received due to use of recalled testing?

Nurses being ordered by the district to implementing testing against government directives are placed in a position of acting against MA licensing and legal code standards for RNS/LPSn. School nurses are in ACTIVE violation of their licensing standards and liability laws in administering tests against government warnings. It does NOT matter if they are following orders, professional standards hold us to EVIDENCE based practice. This documentation is extensively available on the public health organization own website

Masking policy and testing policy is unsupported by scientific evidence and actively driving policies with severe potential to harm student emotional, psychological, and physical health.

Please objective review the SOURCE DATA directly. The government public health organization and testing manufacture data extensively document SEVERE testing issues.

Follow the science is direct review of evidence not partisan debate or argument over 'expert' opinion. One does not need an advanced degree to review basic data with simple protocol and testing application driving the errors & it is the responsibility of lead educators responsible for implementing Covid-19 policies to review this data and act to correct problems to safeguard students emotional and physical health.

All discussion should be focused on this data itself.

Sincerely

Health Care Professionals for Covid-19 Policy Correction

(legal and parent groups have been provided this documentation and we are now aware of several groups getting ready to move forward with legal action)

Dear Washington State Board of Health Members:

I just read the excellent summary of your decision yesterday, "WA BOH's Vote Supports Option of Mandating Experimental Vaccines for Children", at <https://informedchoicewa.org/news/boh-votes-to-keep-door-open-to-mandate-experimental-vaccines-for-children/>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Finformedchoicewa.org%2Fnews%2Fnews%2Fboh-votes-to-keep-door-open-to-mandate-experimental-vaccines-for-children%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C6d3a7dc179774072071908d9d705bbe9%7C>>
.

I'm sure you're used to a minimum of decorum when it comes to your proceedings and communications. I will give you no such consideration. You do not deserve it.

This news will go viral. Here's my post on Facebook just now.

The vaxxer putsch you're complicit in has turned into a historical watershed. You can reverse your course but in no way will you be able to walk back your choices and actions already taken.

I am a sociologist. I keep extensive notes. I have a folder called "War On Children", which is where I put the report of your absolutely inhuman decision to keep the door open to continued violations of the Nuremberg Code, WMA Declaration of Helsinki (1964), and the Universal Declaration on Bioethics and Human Rights (2005) -- not to mention universally recognized medical ethics and simple, humane common sense.

You have fucked with our children. You will be held accountable.

Human rights might seem like a formality to you, but you're going to find out how mistaken you are. We know each of you by name.

You are absolutely on the wrong side of history on this issue. You still have time to get your minds right. I encourage you to do so.

Sincerely,

Millard J. Melnyk

Burien, WA
