January 14, 2022

Washington State Board of Health  
P. O. Box 47990  
Olympia, Washington 98507-7990

Dear Board of Health members:

In reference to decision making over whether to mandate that our children be required to be Covid-19 vaccinated before they can attend public school: I am definitely against this. According to Dr. Janci Chum Lindsay, a molecular biologist and toxicologist who testified before the CDC's advisory Committee on Immunizations Practices regarding blood clotting disorders following Covid vaccines, she reported the Covid vaccine will cross-react with the syncytin and reproductive proteins leading to impaired fertility and impaired reproductive and gestational outcomes. Also, all Covid vaccines are causing coagulopathy, when the body's blood clotting system is impaired. This is not limited to one age group or one manufacturer. Coagulopathy deaths in healthy young adults with no secondary comorbidities are occurring. According to Dr. Lindsay, there is evidence the vaccines are making the Pandemic worse.

Stephanie Sereff, Ph.D., a MIT scientist in Neuro-degenerative disorders, agrees, and says that the Vaccine sends a toxic protein to the brain that can cause problems in young children, comparable to Parkinsons in adults. Her advice: Do whatever it takes to prevent your children from having any of the Covid vaccines.

We do not want any mandates for our children to take a vaccine, that is basicly

experimental, and won't complete long term studies for years to come. The safety and well-being of our children are at risk. My 5 year old will be pulled from public school, should the Board Members decide that they are willing to risk his health by mandating this.

Sincerely,

*Kathleen Bieker*

Kathleen Bieker, mother of a 5-year old

**YOU MUST TAKE THIS SERIOUSLY. YOU WILL BE HEARING FROM  
HIGHER AUTHORITIES**

Dear Board,

Prominent doctors worldwide have stated that more children will die of this vaccine than will die from covid.

In addition under Code 21 of federal regulations section 50.23 & 24 making anyone participate in an experimental program using coercion is illegal.

Also under US Code 18, section 2331 and subsection 802, inside the definition of domestic terrorism, anytime a U.S. citizen or a government in the US is forced to do something they would not otherwise do, this is not only coercion, but domestic terrorism. It is also a felony with a 99 year prison sentence.

Please start doing your homework using Firefox and the Duck Duck Go search engine to find these doctors warnings. Do not use Google, Amazon, or Apple browsers as they are censoring results.

The covid "vaccine" is experimental gene therapy and not a true vaccine. It does not prevent you from getting or passing on covid and each shot you take blows away your natural immunity and leaves you susceptible to cancer, other viruses and bacterial illness.

The governors mandates are not laws and they are illegal under the laws stated above.

Very Sincerely,

Bruce L. Trumpour

Hello,

Washington State Board of Health,

I am writing to you to request you not put the Covid-19 Vaccination as a requirement for children to go to school in Washington State.

What you are requiring is against the constitution and against science. This is against the people's will. The Covid-19 vaccine is experimental and there are reports of injuries and deaths.

The so-called vaccine does not meet the requirements of a vaccine nor has it had the 5- or 10-year study done of efficacy and safety. Child hood vaccines have at least had some years of study done on them even though they too have side effects...it is nothing like what is being presented to us in CDC data for only the first year and the childhood covid vaccine has only had approval by an emergency declaration by state of Washinton lasting over 2 years now, (This has never before been extended 2 years so companies can push thru a vaccine)the vaccine has only been released on the emergency approval in state of Washington since last month!

Why is the state of Washington doing this since the virus is in other states? Washington has one of the highest rates of vaccination yet we have one of the highest rates of test positive cases(not hospitalization and death) Let's get the statistics. Why ? We have already a high rate of vaccination. Obviously, the vaccines and boosters may not be protecting the Washington state? That is not enough time as given to other vaccines on the childhood schedule which took years of study to approve.

We have an obligation to protect the next generation. They are vulnerable and cannot speak up for themselves but at are the mercy of the system.

You are mandating to Parents, taking away their voice and sense of safety and protection for their children. You are coercing and forcing the Parents in return for an education they already and tax payers pay for the education.

If Federal monies are tied to this mandate...as we know it is.. this is a forced medical procedure which we are given no choice with no informed consent...no insert on the vaccines for the parents to read to know what is in the vials and what solution was mixed to make it a child hood versus adult vaccine.

1. We do not know the side effects of the vaccine long term/ It has only been out one month. Have you the Board looked at the statistics and side effects
2. How many children really die of Covid 19 in the last 2 years...the danger of children contracting and transmitting the virus is almost 99.097%
3. How many children have died of flu complications, drowning, other childhood diseases yearly. Why do we need to mandate another vaccine on the childhood schedule...we already have 70 before they are 6...that is crazy number of vaccines in a small body! They do have their own immune system which is science...can we trust the science?
4. How much of your motivation for this is tied to money from the federal government and the pharmaceutical companies and how much of your motivation is pressure from government but really not considering your constituents and their family's needs.
5. You are boxing in families who want more choices for the health of their children and should not be forced to take a chance for long term effects of a yet to be proven experimental on their children just to receive an education! The so-called experimental vaccine has only been out a month! Why should we be the ones to experiment on by force?

Sincerely;  
Lori Robles

Subject: Attn: TAG on Covid Vax mandates for K-12 - Fed Money given to schools to comply with Unnecessary Covid Restrictions

External Email

Hello TAG,

I trust you want to do the best job in this critical position that you have been appointed to in deciding the fate of WA students, so once again I am providing you with factual information that you will not find in the main stream media because it is being censored. You can fact check it. It is explained where to find the information spoken of in the video online.

Please hear the first 10 minutes of this video to learn about how Federal Money is influencing our public schools.

<https://thephaser.com/2022/01/exposed-200-billion-in-covid-bribes-to-all-schools-hospitals-from-the-us-government/>  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fthephaser.com%2F2022%2F01%2Fexposed-200-billion-in-covid-bribes-to-all-schools-hospitals-from-the-us-government%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C196965942d114362cbb508d9e169225f9>>

Then take a look through this list and see how much WA school districts are receiving. This explains the huge push for testing and vaccination clinics at schools. It's all being pushed by federal money flooding into schools but only IF they turn in reports every six months explaining how they are masking, testing, isolating, and pushing vaccines. The entire state got over \$2.6 billion. This does not seem like it's about health. It seems to be about money. Covid is a extremely low risk to K-12, essentially zero. Masks and vaccines do more harm than good to students.

Seattle School District got \$145,077,274 (now we know why they closed school on 1/3 to test everyone)

Bellevue School District got \$22 million

Issaquah School District got \$7 million

Lake Washington School District \$13million

Here is the Money with a breakdown by school district

External Email

\*

Hello Washington State Board of Health,

I'm a community member of this great State of Washington. The Washington State Board of Health (WSBOH) should REFUSE to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission. Due to the following reasons:

1. COVID vaccines remain under Emergency Use Authorization
2. Children under the age of 18 have a 99.995% survival rate from COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

Thank you,

April Swofford

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Please read this PDF. You are now considered as being informed that the Covid Vaccination is illegal everywhere and continuing to enforce or mandate this deadly experiment, you are in violation of the Nuremberg Code. If the illegal mandate is enforced those that vote for it will be reported to the proper authorities.

## **Global Breaking News: January 15, 2022**

### **Big Pharma, China, Vatican convicted of Genocide and Criminal Conspiracy by International Court – COVID vaccines prohibited as arrest of leaders and seizure of assets ordered**

Brussels and Vancouver:

The International Court that forced Pope Benedict from office in 2013 has struck a blow against the COVID corporatocracy by convicting top officials of Pfizer, GlaxoSmithKline, China, and the Vatican of Crimes against Humanity.

The Court's verdict sentences seventy-five individuals to life imprisonment, seizes their assets and disestablishes their corporations, and lawfully prohibits the further manufacture, sale, or use of their COVID vaccines as *"products of medical genocide and mass murder"*.

After a four-month trial convened under International Law, the judges of the International Common Law Court of Justice (ICLCJ) issued their historic verdict and sentence today, along with Arrest and Expropriation Warrants against the defendants.

The convicted individuals include Albert Bourla and Emma Walmsley, the CEO's of Pfizer and GlaxoSmithKline Pharmaceuticals, Xi Jinping, President of China, 'Pope' Francis (Jorge Bergoglio), 'Queen' Elizabeth (Windsor), and Justin Trudeau, Prime Minister of Canada.

An authorized copy of the Court's Verdict and Sentence is attached.

According to the Public Affairs Office of the Court,

*"This case involves a monstrous, intergenerational crime and its equally massive coverup. The highest officials of Church, State, and Corporations have for years personally sanctioned and profited by the systematic torture, trafficking, and murder of children in deadly drug testing experiments to produce the COVID 'vaccine', as part of a Criminal Conspiracy to reduce humanity to slavery. That Conspiracy murders the innocent, traffics in arms, drugs, children, and human organs, and silences or destroys those who threaten to expose it.*

*"Our Court has put a legal end to that Conspiracy by criminalizing the persons and the corporations responsible, and prohibiting the further sale and use of the COVID 'vaccines', which are the product of medical genocide and the mass murder of children."*

The Court's verdict and sentence casts a wide net over those responsible by tracing the roots of the COVID regime to the planned genocide of indigenous people in Canada by the Vatican and the Crown of England, including in the murderous "Indian residential schools".

The Court establishes that the public opponents of this genocide, especially Kevin Annett, have been continually targeted for destruction by the convicted defendants, who are responsible for the murder of fifteen activists and several recent attempts on Annett's life.

*"Our warrants empower not only our Sheriffs and deputized police, but people everywhere to enforce the Court's verdict by arresting the convicted felons, seizing their assets, and halting the sale and use of the genocide-derived COVID 'vaccines',"* says the Court.

*"The killers of children can no longer evade justice using executive or corporate privilege, or by hiding behind the camouflage of contrived public health crises."*

An action plan for direct citizen participation in the enforcement of this historic verdict and sentence will be discussed tomorrow, January 16, at [www.bbsradio.com/herewestand](http://www.bbsradio.com/herewestand) (at 3 pm pacific, 11 pm GMT), and posted at [www.murderbydecree.com](http://www.murderbydecree.com) under "ITCCS Updates" and [www.republicofkanata.ca](http://www.republicofkanata.ca) under "Breaking News".

Issued Saturday, January 15, 2022, at 12:01 AM (GMT)

by The International Common Law Court of Justice, Criminal Trial Division

Under the auspices of the International Tribunal of Crimes of Church and State (ITCCS)  
(established under the Law of Nations on June 15, 2010)

**The Judgement of the International Common Law Court of Justice**  
**Concerning Crimes against Humanity by Church, State, and Corporations**  
**A Synopsis of Case Docket No. 09152021-A001 (January 15, 2022)**

1. The global COVID corporatocracy that has dismantled democracy and the rule of law has arisen from a tradition and as the latest phase of deliberate Genocide and Crimes against Humanity by governments, corporations, and churches. These crimes reflect an ongoing Criminal Conspiracy by these powers to eradicate and enslave humanity, according to a master plan of global Eugenics.
2. The Court was convened under International Law on September 15, 2021, in Vancouver, Canada, to bring criminal charges and judgement against the persons and corporations named on the two counts of its Indictment: planning, committing, and concealing Crimes against Humanity, and committing or personally authorizing heinous crimes against certain targeted and named individuals, including murder.
3. The accused persons and corporations named in the Indictment include the CEO's of Pfizer and GlaxoSmithKline Pharmaceuticals, PetroChina Ltd., Weyerhaeuser Ltd., the heads of state and top officials of the governments of Canada and China, the Crown of England, and the Vatican, the top officials of the Roman Catholic, Anglican, Unitarian, and United Church of Canada, the Royal Canadian Mounted Police, the Assembly of First Nations and First Nations Summit, and private citizens, totaling seventy five living defendants and the private estates of eleven deceased defendants.
4. The defendants were charged by the Prosecution with ordering or personally participating in fifteen specific crimes, besides the general offense of planning, committing, and concealing Genocide and Crimes against Humanity. These specific crimes included but were not limited to the following:

- a) The institutionalized kidnapping, rape, torture, trafficking, medical experimentation, drug testing, starvation, and murder of indigenous and other children, in the Indian residential schools and hospitals in Canada, and in present day Catholic hospitals, foster care, and childcare facilities, with the knowledge and sanction of Popes John Paul II, Benedict XVI, Francis I, and the Queen of England.
- b) The torture and murder of men, women, and children through experimental, involuntary drug testing, sexual sterilization, pain threshold and mind control experiments, slave labor, trafficking, cult ritual torture and killing, and other forms of medical, physical, and biological genocide.
- c) The systematic destruction of the buried remains of Indian residential school children and other children, and of evidence pertaining to their torture, suffering, and death, upon the order of the heads of the said churches and governments.
- d) The intentional murder of fifteen named activists across Canada who were exposing these and other crimes, and the ongoing targeting of the defendants' most prominent public opponent, Kevin Annett, for destruction and assassination.
- e) The imposition of an unlawful political and economic tyranny over Canadians and all humanity under the guise of a fraudulent COVID public health crisis.
- f) The deliberate poisoning and murder of Canadians and all humanity through the illegal and mandatory imposition of experimental COVID "vaccines" obtained through medical genocide and mass murder.
- g) The laundering of money and the trafficking in weapons, drugs, human beings, fetuses, and human organs, in partnership with and for the mutual profit and benefit of themselves and organized crime, corporations, banks, churches, and governments, in North America, Europe, Southeast Asia, and China.
- h) The harassing, silencing, and murder of witnesses to these crimes, and actively obstructing justice and criminal investigations.
- i) Disrupting the proceedings of the Court, harassing the Court's officers, and planning and attempting their assassination.

5. After four months of adjudication governed by due process, and in the absence of a response from the defendants, the Court found all the defendants guilty *pro confesso* on both counts and on all charges, and sentenced them to life imprisonment without parole, the loss of their assets and those of their respective corporations, and the latter's disestablishment as transnational criminal organizations.
6. As part of this lawful sentence, and in response to the proven medical genocide and mass murder conducted by the defendants and especially Pfizer and GlaxoSmithKline Pharmaceuticals in developing the COVID "vaccines", the Court prohibited all governments, churches, corporations, public health agencies, and medical personnel from buying, promoting, or using the COVID "vaccines" and other products of genocide and criminality, on pain of being charged as accessories to a crime.
7. To enforce its lawful verdict and sentence, the Court issued a universal Arrest Warrant and an Expropriation Warrant against the defendants which authorizes Court Sheriffs, deputized police and citizens, to arrest and detain the defendants, disestablish their corporations, and seize their assets and products, including the COVID "vaccines", as part of the avails of criminality and genocide.
8. As part of this enforcement of the Court's lawful verdict and sentence, the assets of the defendants are seized as financial reparations for genocide and for the damages inflicted by them on generations of children, and on the defendants' victims and their families, including Kevin Annett and his children.
9. The convicted defendants and their corporations are disestablished criminal entities that under the law have lost the right to govern, operate, or engage in commerce. Any person or group who aids, abets, or associates with these persons or corporations or their activities or products is an accessory to Crimes against Humanity, and can be arrested and charged under the terms of the Court's judgement and warrants.
10. The judgement and warrants of the Court have the full force and effect of the Law and take precedence over all regulations, authorities, and agencies. They can and must be used to stop the spread of genocidal, criminal actions and procedures, including the now-outlawed procuring and administering of COVID "vaccines" and related measures.

**Issued by the International Common Law Court of Justice, January 15, 2022**

Harry Ogden, Dena Churchill, Terry Whyte, John Mayba, Wendy Barker, Jim and Eva Manly, Anne McNamee, and the Estates of James and Madeleine McNamee, PRIVATE CITIZENS

## **THE INDICTMENT AGAINST THE DEFENDANTS**

On September 15, 2021, at their first arraignment hearing, the Defendants were charged by the Prosecution with a) constituting a deliberate Criminal Conspiracy to plan, commit, and conceal Genocide and Crimes against Humanity, in Canada and elsewhere, in their capacity as the initiators of and participants in that Conspiracy, and as those bearing a command responsibility for it, and b) personally and collectively engaging in or aiding and abetting crimes against Kevin Annett, his family and associates, children, and indigenous people.

These charges have not been answered, challenged, or refuted by the Defendants, who both individually and as a group ignored the lawful Summons of the Court. The charges against the Defendants therefore stand uncontested as a *pro confesso* admission of guilt by them.

## **THE VERDICT AND SENTENCE OF THE COURT**

**LET IT BE KNOWN** that after the Court's exhaustive deliberations of the voluminous, verified evidence presented by the Prosecution in court commencing September 15, 2021, and after the Defendants consistently refused to respond to the Court's Summonses or to answer, deny, or refute the charges and evidence brought against them, and thereby by their silence have admitted *pro confesso* to these charges and evidence, the Court has come to the following Verdict and Sentence concerning the charges against the Defendants:

**1. The Court accepts and establishes as uncontested fact** that the Defendants have been and continue to be engaged in a deliberate, brutal, and ongoing Criminal Conspiracy against Humanity and targeted individuals, particularly Kevin Annett, who since October 17, 1994 has led the public investigation and prosecution of their crimes; and that this willful Criminal Conspiracy has been planned and committed unjustifiably with malice aforethought to attack and destroy Annett's life, family, livelihood, employability, civil rights, spiritual and professional calling, and his public work and reputation, including by attempting to kill him.

**2. The Court accepts and establishes as uncontested fact** that the purpose of this Criminal Conspiracy by the Defendants was and continues to be to commit and to aid and abet Genocide and Crimes against Humanity by Church, State, and Corporations in Canada and elsewhere, and to conceal their own and others' malfeasance and complicity in those Crimes, including in these and derivative acts:

i. The deliberate and systematic extermination of indigenous nations across Canada, and the theft, profiteering from, and despoiling of their lands and resources.

ii. The institutionalized kidnapping, rape, torture, trafficking, medical experimentation, drug testing, starvation, and murder of indigenous and other children, including in the Indian residential schools and hospitals, and present-day Catholic hospitals and childcare facilities.

iii. The torture and murder of men, women, and children through experimental, involuntary drug testing, sexual sterilization, pain threshold and mind control experiments, slave labor, trafficking, ritual killing, and other forms of medical, physical, and biological genocide.

iv. The kidnapping, torture, and ritual murder of children in church and state-sponsored intergenerational cult networks, including the so-called Ninth Circle and Twelve Mile Club.

v. The systematic destruction of the buried remains of Indian residential school children and other children, and of evidence pertaining to their torture, suffering, and death.

vi. The harassing, targeting, and murder of Krista Lynn, John Sargent, Mark Angus, Karl Angus, Willie Sport, Archie Frank, Harriett Nahanee, Louis Daniels, William Combes, Johnny "Bingo" Dawson, Harry Wilson, Ricky Lavalley, Edna Philips, Ron Barbour, and Pamela Holm.

vii. The treasonous subversion and destruction of the sovereignty and the laws of Canada.

viii. The imposition of an unlawful political and economic tyranny over the lives of Canadians and humanity under the guise of a fraudulent COVID public health crisis.

ix. The deliberate poisoning and murder of Canadians and humanity through the illegal and mandatory imposition of experimental COVID "vaccines" obtained through genocide.

x. The laundering of money and the trafficking in weapons, drugs, children, fetuses, and human organs, in partnership with and for the mutual profit and benefit of themselves and organized crime, corporations, banks, churches, and governments, in North America, Europe, Southeast Asia, and China.

xi. The harassing, silencing, and murder of witnesses to these crimes.

xii. The construction of a false and misleading public narrative about these crimes to delay and prevent criminal investigations and judicial proceedings.

xiii. The obstruction of justice.

xiv. Assaulting, defaming, marginalizing, and destroying Kevin Annett and his associates and their efforts to make public the truth and details of these crimes and to prosecute those responsible, and attempting to assassinate Annett.

xv. Disrupting the proceedings of the Court, harassing the Court's officers, and planning and attempting their assassination.

**3. The Court accepts and establishes as uncontested fact** that this Criminal Conspiracy and these criminal actions by the Defendants are particularly nefarious and a matter of enormous public concern because they constitute a real, present, and ongoing threat to and assault upon the laws, peace, and welfare of Canada, its people, and the people and nations of the world, by deliberately causing, committing, facilitating, and concealing Crimes against Humanity; and that accordingly, the Verdict and Sentence of the Court is made on behalf of not only Kevin Annett and his associates, but the Canadian people and all of humanity, and their interests of justice, peace, public safety, the health and welfare of children, the rule of law, democratic accountability, and the survival of free societies.

**4. The Court accepts and establishes as uncontested fact** that because of this Criminal Conspiracy and these criminal actions, Kevin Annett has experienced and is experiencing enormous and ongoing personal, physical, financial, and professional suffering and ruin, and severe damages and losses, for which the Defendants are jointly liable and responsible by their criminal actions and as co-conspirators in this proven Criminal Conspiracy.

**5. The Court accepts and establishes as uncontested fact** that the Defendants were responsible for the nearly fatal chemical poisoning of Kevin Annett during 2021, and that they intend and are actively planning to murder Annett after his hospitalization for surgery, or elsewhere, on or before February 21-22, 2022, according to the Defendants' Criminal Conspiracy described herein; and that the Defendants have disrupted and impeded the Court's proceedings, including by harassing its officers, and planning their assassination.

**6. The Court accepts and establishes as uncontested fact** that this Criminal Conspiracy and the criminal actions by the Defendants are part of a broader institutionalized criminality that has been waged against humanity for centuries by the papal, monarchical, religious, police, governmental, military, and business corporations named herein that are associated with the Defendants - a fact that has been established by the previous adjudication of this matter by international Courts of Law; and as such, the Defendants are the active agents and fiduciary officers of Transnational Criminal Organizations that under International Law constitute rogue criminal bodies that have lost their right to operate. Accordingly, as the agents and officers of such bodies, the Defendants have no legal basis or right to challenge or appeal this Verdict and Sentence, which stands *stare decisis* on the public record.

### **THE VERDICT AND SENTENCE OF THE COURT**

**1. The Court hereby finds the Defendants guilty as charged** on the general indictment and the charges specified by the Prosecution, namely, of being the prime initiators of and participants in, and of bearing direct command responsibility for, a deliberate, deadly, and massive Criminal Conspiracy to plan, commit, and conceal Genocide and Crimes against Humanity, and of personally and jointly engaging in or aiding and abetting criminal actions against Kevin Annett, his children, his associates, other children, and indigenous people.

**2. In addition, the Court finds the Defendants guilty** of disrupting, impeding, and attacking the proceedings of the Court prior to and during its deliberations in order to evade justice and conceal their guilt and the guilt of others in the matters stated herein, and of conspiring to assassinate Kevin Annett and officers of the Court.

**3. Accordingly, it is the Sentence of the Court** that the Defendants shall be imprisoned for the duration of their natural lives without the possibility of parole, that their personal and institutional authority is nullified, that their personal assets and their properties are seized as partial reparations for their crimes, and that they shall facilitate the liquidating of the assets and properties of their respective Bodies Corporate which, as duly convicted Transnational Criminal Organizations, have lost their right to operate, to manufacture, sell, or profit from their products, or to retain their financial investments and holdings.

**4. It is the Sentence of the Court** that the Defendants shall immediately surrender themselves to the Court's Sheriffs for the execution of this lawful Verdict and Sentence.

**5. It is the Sentence of the Court** that if the Defendants evade arrest and imprisonment, or otherwise defy this lawful Verdict and Sentence, they are publicly declared and will be considered to be fugitives from justice under the law; and accordingly, Court sheriffs and deputized police and citizens are empowered to enforce the Court's Verdict and Sentence by using reasonable force to arrest and detain the Defendants and deliver them for the lawful execution of their Sentences, and to assist in the seizing of their assets and properties, according to the terms of this lawful Verdict and Sentence.

**6. It is the Sentence of the Court** that the Defendants shall instantly and unconditionally cease and desist from their proven Criminal Conspiracy and criminal actions, including against Kevin Annett, and from any life-threatening, criminal, and damaging actions aimed at him and his children, his associates, other children, and indigenous people.

**7. It is the Sentence of the Court** that the Defendants shall publicly acknowledge and admit to all the aforementioned fifteen criminal actions in which they are and have been engaged and are complicit, shall acknowledge their participation in their proven Criminal Conspiracy, and shall disclose to the Court all the evidence, communications, and identities of other persons associated with the aforementioned fifteen criminal actions and with their proven Criminal Conspiracy, including in relation to the following events:

a) the firing without cause, notice, or due process and the unlawful "delisting" from ministry and public, professional ruination of Kevin Annett by the United Church of Canada and its fiduciary officers and agents between October 17, 1994 and March 7, 1997, and their subsequent ruination of attempts by Annett to professionally retrain and earn a livelihood;

b) the divorce and child custody lawsuit brought against Kevin Annett by his spouse Anne McNamee between December 24, 1995 and April 4, 1996, that was instigated, organized, and funded by officers and agents of the United Church, the Canadian judiciary, the Royal Canadian Mounted Police (RCMP), and James, Madeleine, and Anne McNamee;

c) the destruction of Kevin Annett's doctoral program by the United Church and its agents at the University of British Columbia between September 1, 1995 and March 31, 1998;

d) the destruction of Kevin Annett's professional ordination in the Unitarian Universalist Church by officials of the United Church and the Unitarian Church during 1996 and 1997;

e) the sustained physical, financial, and psychological warfare waged against Kevin Annett between August 1, 1992 and the present through a systematic "black operation" initiated and funded by the United, Catholic, and Anglican Churches, the RCMP, the governments of Canada and China, the Crown of England, the Weyerhaeuser and Pfizer corporations, the Vatican agency known as Santa Alleanza, and Karol Wojtyla, Joseph Ratzinger, and Jorge Bergoglio (*aka* Popes John Paul II, Benedict XVI, and Francis I); and a public misinformation and sabotage campaign directed against Kevin Annett and his associates by these same corporate bodies and individuals, from August 1, 1992 to the present;

f) the assassination of Krista Lynn, John Sargent, Mark Angus, Karl Angus, Willie Sport, Archie Frank, Harriett Nahanee, Louis Daniels, William Combes, Johnny "Bingo" Dawson, Harry Wilson, Ricky Lavalley, Edna Philips, Ron Barbour, and Pamela Holm by these same corporate bodies and individuals between March 3, 1995 and September 23, 2019;

g) the chemical poisoning of Kevin Annett during 2021, and his assassination on or before February 21-22, 2022, by agents of the RCMP, Pfizer Ltd., the Vatican agency Santa Alleanza, the Papal Nuncio to Canada, by order of Jorge Bergoglio, *aka* Pope Francis;

h) the planned assassination of officers of the Court following the commencement of its proceedings on September 15, 2021, by order of Jorge Bergoglio, *aka* Pope Francis.

**8. It is the Sentence of the Court** that the Defendants will immediately issue to Kevin Annett and to the families and estates of the persons named in point (f) above, a complete, unconditional, public admission of guilt and full acceptance of responsibility for their actions in relation to Annett and these persons, and for any other losses, damages, and suffering caused to them by the Defendants. Such an admission by the Defendants shall constitute under the law an unqualified acceptance of legal and moral responsibility for these crimes.

**9. It is the Sentence of the Court** that the Defendants and especially the aforementioned officers of the United Church of Canada and any of their agents shall publicly acknowledge the unlawful, fraudulent, and covert nature of the "delisting" hearing that expelled Kevin Annett from his profession as a United Church minister, and the participation of United Church officers in the planned, systematic destruction of Annett's livelihood, marriage, family, public reputation, university studies, vocational retraining, and employment.

10. **It is the Sentence of the Court** that the Defendants shall financially compensate Kevin Annett for all his denied income and his financial expenses and losses arising from their personal and fiduciary actions, or their association with the said Criminal Conspiracy. These reparations will total no less than \$2.5 million for general expenses and lost income, employment, and benefits, and no less than \$25 million for personal grief, losses, suffering, expenses, and damages caused to Kevin Annett and his children by the Defendants.

11. **It is the Sentence of the Court** that the Defendants shall financially compensate each of the families and estates of the persons named in point (f) above an amount totaling no less than \$25 million for personal grief, losses, suffering, and other damages caused by their targeting, harassing, and murder by the Defendants.

12. **Accordingly, the Court authorizes** through its appended Warrants the immediate arrest of the Defendants, and the seizure and expropriation of the assets and properties of the Defendants and their respective Bodies Corporate, in order to provide these funds and reparations to Kevin Annett and to the families and estates of the persons named in point (f) above, in accordance with the lawful Verdict and Sentence of the Court.

13. **Finally, it is the Sentence of the Court** that all governments, public health agencies, and medical personnel or companies are prohibited, on pain of being charged as accessories to a crime, from buying, promoting, or using the COVID "vaccines" and other products of medical genocide and mass murder issued by the convicted Bodies Corporate known as Pfizer Pharmaceuticals and Glaxo Smith Kline Pharmaceuticals, which are guilty of Crimes against Humanity, and as transnational criminal organizations are lawfully disestablished.

**This Verdict and Sentence is made and issued unanimously by the Magistrates of the International Common Law Court of Justice, Case Docket No. 09152021-A001, on this Fifteenth Day of January in the year 2022. It has the full force and effect of the Law.**

  
Chief Magistrate

  
Clerk of the Court

**Submitted to and entered into the public record of the International Common Law Court of Justice as Case Docket No. 09152021-A001, on this day, January 15, 2022**

## **ARREST WARRANT**

**Issued by the Court in accordance with its lawful Verdict and Sentence**

**In the Matter of Case Docket No. 09152021-A001**

**The Court authorizes its Sheriffs and their appointed deputies to immediately detain and deliver for the execution of their Sentence the persons named in this Warrant.**

**The Sheriffs and their deputies are empowered to call upon other police forces to aid in the detaining and transporting to imprisonment of the sentenced persons named in this Warrant, employing necessary and reasonable force.**

**THIS WARRANT HAS THE FULL FORCE AND EFFECT OF THE LAW.**

**IT IS A CRIMINAL OFFENSE AND AN OBSTRUCTION OF JUSTICE FOR ANYONE TO INTERFERE WITH THE EXECUTION OF THIS WARRANT.**

**Issued on the Fifteenth Day of January in the year 2022.**

**Chief Magistrate of the Court**

**Clerk of the Court**

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Dear Ms. Kahler,

I have not received a response back to one of my listed questions.

This was in regard to the technical advisory group on immunization.

"Who is the board sponsor? How do we contact the board sponsor the be included in the TAG. As a trained scientist in Toxicology and community member, I want to be considered for inclusion on the TAG board."

If you are not the person to answer this question, could you direct me to the right person?

Very Respectfully,

Xavier A. Figueroa, Ph.D.

Dear Ms. Kahler,

I wanted to follow-up on the agenda for the January 12th BoH meeting.

I recently submitted, on behalf of Informed Choice Washington, a petition to adopt changes to the state administrative rules.

I have not received any communication from the Washington State government offices that this petition will be discussed at the meeting and I have only seen the item 11 on the agenda (Notice of Public Meeting, Wednesday, January 12, 2022 - 11. Rulemaking Petition – Chapter 246-105, WAC, Immunization Criteria, Child Care and School Entry — Possible Action) published, but have not received communications that it will be this specific petition. Could you confirm that the petition I submitted will be discussed in item 11 of the draft agenda? I have included the petition for your reference.

I would also like to receive clarification on the TAG board. In the PROCESS FOR REVIEWING ANTIGENS FOR POTENTIAL INCLUSION IN WAC 246-105-030, Section 2 states the following:

"2. If the Board determines that the assumptions above have been met, the Board will establish a TAG to review the antigen against the nine criteria below. For antigens that are part of a combination vaccine, each antigen will be considered separately against the criteria. The TAG must include representatives from the fields of public health, primary care, epidemiology, medical ethics, and representatives of diverse communities in Washington State. At the discretion of the Board sponsor, the TAG can also include consumers (parents); community members with diverse perspectives on immunizations; and representatives from the fields of school health, school administration, child care, child advocacy, immunization administration, and others important to the discussion and review. In addition to providing the TAG with current literature and other relevant information such as survey data, the Board will ask the Department of Health to supply current information about the antigen that is specific to Washington State."

Who is the board sponsor? How do we contact the board sponsor to be included in the TAG. As a trained scientist in Toxicology and community member, I want to be on the TAG.

Finally, I am making a request to extend the time for item 11 and to include a presentation for item 11.

Very respectfully,

Xavier A. Figueroa, Ph.D.

Good evening,

I just completed the survey and appreciate the opportunity to provide feedback. I will keep this short as I am sure you are inundated with messages. I beg and plead of you and the Department not to move forward with this mandate. As a parent, please do not move forward with this reckless process. I have two children who love their school, their teachers, their friends and that is all at risk for a vaccine that is neither proven to be safe for their age group or effective at reducing the spread of COVID-19. Give parents the choice on this vaccine at this time when so many questions are left unanswered. Think about all the childrens' lives this will affect. For once, I would like to see this state think about its citizens first. At least children, can we do that? Can we at least put our children first, ahead of politics?

The Washington State Board of Health is inviting parents and caregivers of school age children to complete a survey to provide input that will be shared with a Technical Advisory Group the Board has convened to assess COVID-19 vaccine for inclusion in chapter 246-105 WAC. The TAG will utilize the 9-criteria framework  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsboh.wa.gov%2FPortals%2F7%2F>  
established by the Board to assess and evaluate the COVID-19 vaccine for consideration in chapter 246-105 WAC.

The Board is seeking input from parents and caregivers as it relates to Criteria Nine: "The burden of compliance for the vaccine containing this antigen is reasonable for the parent/caregiver."

To provide input, please complete the survey below:

\* English language survey  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fforms.office.com%2FPages%2FReLQEU4mCkCLOffcwSfXLT2Pur8KuHhPgr4pnygk7IxUQklaTUhYTVBXNUdJOTQ3TFpQRlpCOUdCRC4u&data=04>

\* Spanish language survey

> (Board) has the authority to create immunization requirements for child care and/or  
school entry. Since 2006, the Board has relied on multi-disciplinary technical advisory  
groups (TAG) to review vaccines against nine criteria to recommend to the Board  
whether an immunization should be added to the list of requirements for school entry.  
The Board recently directed its staff to work with the Department of Health to begin the  
process to collect the information necessary to convene a TAG to evaluate COVID-19  
vaccine. The TAG will consist of representatives from schools, childcares, public health,  
healthcare providers, tribes, community members who identify and/or directly serve  
communities disproportionately impacted by COVID-19; and parent representatives.

Thank you,

Dear Board of Health members,

I understand you are still considering the addition of COVID-19 injectables to the Washington State childhood vaccine schedule. I have enclosed an article you may find informative, and which may illustrate some of the reasons many people find the addition of these substances to the children's vaccine schedule abhorrent. The first paragraph is as follows...

"In a stunning 46-page legal filing to the International Criminal Court on December 6, an intrepid attorney and seven applicants accused Anthony Fauci, Peter Daszak, Melinda Gates, William Gates III, and twelve others of numerous violations of the Nuremberg Code. These included various crimes against humanity and war crimes as defined by the Rome Statutes, Articles 6, 7, 8, 15, 21, and 53."

I pray you consider that there are many effective treatments for COVID-19. We don't need to use experimental drugs on our kids and as adults we have a responsibility not to. The Frontline Covid Critical Care Alliance is wonderful, and has been using effective protocols since 2020. Their information is sound. I know 15 people who have used their recommendations after contracting COVID-19, and every one of them (including myself and my son) has recovered quickly and completely. Are you aware that many people in congress have followed their recommendations?

This is their website: <https://covid19criticalcare.com/>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fcovid19criticalcare.com%2F&data>

Thank you for reviewing this information.

Sincerely,

Katherine Adams

## Gates, Fauci, and Daszak charged with Genocide in Court Filing

by Justus R. Hope, MD

Dec 20, 2021

The Nuremberg Trial

In a stunning 46-page legal filing to the International Criminal Court on December 6, an intrepid attorney and seven applicants accused Anthony Fauci, Peter Daszak, Melinda Gates, William Gates III, and twelve others of numerous violations of the Nuremberg Code. These included various crimes against humanity and war crimes as defined by the Rome Statutes, Articles 6, 7, 8, 15, 21, and 53.

<https://www.riotimesonline.com/brazil-news/modern-day-censorship/covid-19-pharmaceutical-giants-gates-fauci-uk-officials-accused-of-crimes-against-humanity-in-international-criminal-court-complaint/>

<https://dailyexpose.uk/2021/12/10/uk-team-file-complaint-of-crimes-against-humanity-with-the-international-criminal-court/comment-page-1/>

<https://leohohmann.com/2021/12/17/whistleblower-activists-file-complaint-with-international-criminal-court-alleging-big-pharma-gates-fauci-uk-officials-committed-crimes-against-humanity/#more-8418>

Besides the four kingpins, twelve others were named, including the CEOs of the leading vaccine corporations and the health leaders held accountable for the United Kingdom.

- Albert Bourla, CEO of Pfizer
- Stephane Bancel, CEO of Moderna
- Pascal Soriot, CEO of Astra Zeneca
- Alex Gorsky, CEO of Johnson and Johnson
- Tedros Adhanhom Ghebreyesus, Director-General of the WHO
- Boris Johnson, UK Prime Minister
- Christopher Whitty, UK Chief Medical Adviser
- Matthew Hancock, former UK Secretary of State for Health and Social Care
- Sajid Javid, current UK Secretary of State for Health and Social Care
- June Raine, UK Chief Executive of Medicines and Healthcare products
- Dr. Rajiv Shah, President of the Rockefeller Foundation
- Klaus Schwab, President of the World Economic Forum

<https://docdro.id/WUjv6iw>

Dr. Rajiv Shah, having worked for the Gates Foundation since 2001, was named a World Economic Forum “Young Global Leader” in 2007. He now presides over the Rockefeller Foundation, a group funding ID2020 along with the Gates Foundation.

<https://norberthaering.de/en/power-control/id2020-immunization-passes/>

<https://youtu.be/r32OutVAPiw>

Klaus Schwab, a wickedly intelligent, perhaps diabolical German with double doctorate degrees in Economics and Engineering, is the founder of the World Economic Forum, a club for the wealthiest percentile of the world’s corporate and political elite. He is a power broker who has groomed many

presidents, prime ministers, and tech CEOs who now view him with reverence and unswerving loyalty.

Schwab, an economist, and technocrat has befriended many nations, most significantly China's Xi Jinping, who delivered a key speech at Davos. He praised his vision of a New World Order. On January 25, 2021, Klaus Schwab vowed his support for Xi Jinping with these words, "Mr. President (Xi Jinping) I believe this is the best time to reset our policies and to work, jointly, for a peaceful and prosperous world. We all welcome now, his excellency, Xi Jinping, President of the People's Republic of China." See mark 2:26.

<https://youtu.be/fp0HXMISTBA>

Many consider Schwab the mastermind behind the current movement towards cryptocurrency, universal identification, and a one-world (fascist) government to be run jointly, in totalitarian fashion, with China.

[https://conservapedia.com/Klaus\\_Schwab](https://conservapedia.com/Klaus_Schwab)

Attorney Hannah Rose and seven applicants brought the Nuremberg action on behalf of the victims, the entire population of the United Kingdom. She filed the legal proceeding with the International Criminal Court located at The Hague. The Hague is notable for its long history in helping victims seek redress for war crimes and defining appropriate ethical guidelines for conduct during war.

Following the Nazi atrocities committed during World War II, the war crime trials were held in Nuremberg, Germany. Following these, a set of principles was developed, which ultimately led to the development of the Nuremberg Code.

These principles essentially meant that anyone, no matter how wealthy or powerful, even a head of state, was not above the law. The fact that the law of their home nation would permit their action would not relieve the person from justice under international law.

In particular, the medical experiments conducted by the Nazi doctors led to strict rules and ethical principles regarding future human scientific trials, including the doctrine of necessary informed consent and freedom from coercion or threat in submitting to experimental drugs.

As we all know, before receiving a surgical procedure, there is a legal and ethical requirement that the patient be apprised of any significant potential risks, including infection, bleeding, nerve damage, or even death. The patient usually signs the consent form following this explanation. And as we all know, whenever we receive prescription medication, we are notified of the potential risks on a package insert and usually a discussion with the Pharmacist.

The vaccines should be no different, yet they are. A person about to receive the jab is rarely told that there are risks of blood clots, bleeding, cerebral thrombosis, myocarditis, and death, yet those risks exist. See mark 12:58 to 17:40.

<https://www.totalhealth.co.uk/blog/are-people-getting-full-facts-covid-vaccine-risks>

Attorney Hannah Rose notes in Point 40 of her brief that the ethical standards of the Nuremberg Code amount to an obligation on physicians and pharmaceutical manufacturers to abide by its principles. Accordingly, any physician or research scientist found to have breached any of the ten principles of the Nuremberg Code would face criminal liability.

<https://docdro.id/WUjv6iw>

She notes in Point 42, "The first principle of the Nuremberg Code is a willingness and informed consent by the person to receive treatment and participate in an experiment. The person is supposed to activate freedom of choice without the intervention, either through force, deceit, fraud, threat, solicitation, or any other type of binding or coercion."

<https://docdro.id/WUjv6iw>

In Point 43 she argues, "When the heads of the Ministry of Health as well as the Prime Minister presented the vaccine in the United Kingdom and began the vaccination of United Kingdom residents, the vaccinated were not advised, that in practice, they would be taking part in a medical experiment and that their consent is required under the Nuremberg Code. This as a matter of fact is a genetic medical experiment on human beings performed without informed consent under a severe and blatant offense of the Nuremberg Code."

In addition, Rose argues under Point 44 that there is an obligation for alternative treatments to be discussed, including the risks and benefits of such alternatives. She notes that these were never discussed despite the fact alternative treatments have been proven to be safe and effective "with up to a 100% success rate."

<https://docdro.id/WUjv6iw>

<https://www.zerohedge.com/covid-19/indias-ivermectin-blackout-secret-revealed>

A key principle of the Nuremberg Code requires that a scientist must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill, and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

<https://encyclopedia.ushmm.org/content/en/article/the-nuremberg-code#permissible-medical-experiments-1>

In Point 46, she argues, "It is known that the mRNA 'vaccination' treatments have caused the death of many as well as injury and severe damage (including disablement and paralysis) after the 'vaccine' was administered. Despite this fact, the government did not instruct the initiation of an investigation into the matter. It is also questionable that given the experimental nature of these vaccinations, that there are not any full reports available of the numbers of dead or injured, as may be expected in such a medical process for the benefit of the public participating in the experiment."

<https://docdro.id/WUjv6iw>

The reader is reminded that Nazi physicians conducted experiments on human beings in concentration camps without informed consent, leading to horrific suffering and death.

<https://encyclopedia.ushmm.org/content/en/article/nazi-medical-experiments>

<https://www.pbs.org/wgbh/nova/holocaust/experiside.html>

To dramatically underscore the relevance of Nuremberg to the horrific deaths we now see related to the experimental mRNA 'vaccination' program, Rose, in Point 34a, included a statement from a group of Holocaust survivors, those who experienced first-hand both the Nazi experiments and today the vaccine experiment. This is an excerpt from their unique perspective:

*We, the survivors of the atrocities committed against humanity during the Second World War, feel bound to follow our conscience...Another holocaust of greater magnitude is taking place before our eyes. We call upon you to stop this ungodly medical experiment on humankind immediately. It is a medical experiment to which the Nuremberg Code must be applied.*

<https://docdro.id/WUjv6iw>

Holocaust survivor Vera Sharav issued a statement in Points 34b and 34c:

*The stark lesson of the Holocaust is that whenever doctors join forces with government and deviate from their personal, professional, clinical commitment to do no harm to the individual, medicine can then be perverted from a healing, humanitarian profession to a murderous apparatus...What sets the Holocaust apart from all other mass genocides is the pivotal role played by the medical establishment, the entire medical establishment. Every step of the murderous process was endorsed by the academic, professional medical establishment.*

<https://docdro.id/WUjv6iw>

As a direct result of the Nuremberg World War II experience, the United Nations asked the International Law Commission to develop the Nuremberg Principles, the key standards to avoid the Nazi doctors' atrocities. Unfortunately, as Hannah Rose pointed out, many of these ten principles of the Nuremberg Code were systematically violated by the United Kingdom and many other countries during the COVID-19 pandemic.

<https://encyclopedia.ushmm.org/content/en/article/the-nuremberg-code#permissible-medical-experiments-1>

International Criminal Court

In addition, a permanent international criminal court was established for investigation and enforcement - known as The International Criminal Court. The ICC began full-time operations in 2002 and currently has 123 member nations that have explicitly agreed to be bound by the Rome Statutes.

The United Kingdom is a member while the United States is not. However, under article 12(3) of the Rome Statute of the International Criminal Court, even a state that is NOT a member may exercise jurisdiction "by declaration lodged with the Registrar," meaning that any nation may be subject to the ICC depending upon the circumstances, member nation or not. Keep in mind that Nazi Germany had not consented to jurisdiction.

The ICC bills itself as a "court of last resort" meaning that claims should be decided in the perpetrator's home nation whenever possible. However, the core principle of impunity drives the ICC, the belief that no one who commits war crimes should enjoy freedom from criminal responsibility. Therefore, the ICC operates as an impartial and omnipotent arbiter of world human rights and will aggressively step in when it sees flagrant Nuremberg-type atrocities without consequence.

That is precisely what Hannah Rose has identified in her legal brief in Point 2,

"We have tried to raise this case through the English police and the English Court system without success, we have been unable even to get the case registered either with the police or with the court after several attempts...This is such a case which is why we are addressing the ICC directly."

Attorney Rose relied partly upon the expertise of Dr. Michael Yeadon, a research-based PhD in respiratory pharmacology and former Vice President and Chief Scientist at Pfizer.

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

In the background section of the brief, she writes in Point 5:

"The Covid-19 'vaccines' do not meet the requirement to be categorized as vaccines and are in fact gene therapy (Appendix 8)...Dr. Mike Yeadon, a joint applicant on this request, asserts that claims calling the Covid-19 injections a 'vaccine' is public manipulation and misrepresentation of clinical treatment.

"It's not a vaccination. It's not prohibiting infection. It's not a prohibiting transmission device. It's a means by which your body is conscripted to make the toxin that then allegedly your body somehow gets used to dealing with it, but unlike a vaccine, which is to trigger the immune response, this is to trigger the creation of the toxin.'

"MRNA uses the cell's machinery to synthesize proteins that are supposed to resemble the SPIKE protein of the virus, which is what it uses to enter cells via the ACE2 receptor. These proteins are then identified by the immune system, which builds antibodies against them. The real concern is that these proteins could accumulate in the body, especially in regions of high concentration of ACE2 receptors, such as the gonads. If the immune system then attacks the location where they accumulate, then you could be dealing with an auto-immune condition."

<https://docdro.id/WUjv6iw>

Dr. Yeadon mentions, in an interview, that our governments have grossly exaggerated the entire threat of COVID-19. He notes that COVID-19 represents a slightly greater risk than influenza if you are older than age 70 but a much lower risk than the seasonal flu if you are younger. See mark 31:00.

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

"So it's just absurd that you should be happy or willing to let your economy and civil society be smashed for something which represents for almost everyone working a lower risk than influenza - but that's true," Yeadon said in the interview.

"Given this virus represents at worst a slightly bigger risk to the old and ill than does influenza, and a less risk than for almost everyone else who's younger and fit, it was NEVER NECESSARY for us to have done anything.

"We didn't need to do anything, lockdowns, masks, mass testing, vaccines - there are multiple therapeutic drugs that are at least as effective as vaccines are...an off-patent drug called Ivermectin, one of the most widely used drugs in the world, is also able to reduce symptoms at any stage of the disease including lethality by about 90%.

<https://www.amazon.com/Ivermectin-Freedom-Justus-R-Hope-ebook/dp/B09M95F8NF>

<https://www.amazon.com/Ivermectin-World-Justus-R-Hope/dp/1737415909>

<https://covid19criticalcare.com/wp-content/uploads/2021/08/SUMMARY-OF-THE-EVIDENCE-BASE.pdf>

"So you don't need vaccines and you don't need any of the measures that have been introduced at all," Yeadon concluded. See mark 31:15.

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

For any reader still under the illusion that these mRNA covid vaccines have helped, please read the following article comparing the countries without vaccination to those with it. The most vaccinated nations have deaths per million up to 100 x greater than the least. Always question what the government tells you.

[https://www.thedesertreview.com/opinion/columnists/vaccines-work---for-smallpox-and-measles/article\\_978543f2-56c2-11ec-af20-5ff179ad7b93.html](https://www.thedesertreview.com/opinion/columnists/vaccines-work---for-smallpox-and-measles/article_978543f2-56c2-11ec-af20-5ff179ad7b93.html)

Yeadon goes on to explain that people need not worry about variants. He explains that our immune system is easily able to deal with ALL mutations of SARS-CoV-2 and explains that 18 years after the first SARS, those people are still protected by their immunity - and this immunity even extends to immunity against SARS-CoV-2, a virus 80% similar but 20% different than the original SARS.

Yeadon's major point is that if survivors of SARS some 18 years later have immunity against the new virus, which is 20% different, why would we believe that a current viral mutant only 0.3% different would be a threat? See mark 35:40.

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

"So when your government scientists say that a variant that's 0.3% different from SARS could masquerade as a new virus and be a threat to your health, you should know, and I'm telling you, **THEY ARE LYING**. If they're lying and they are, why is the pharmaceutical industry making top-up vaccines? They are making them," Yeadon said. See mark 35:55

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

"You should be terrified at this point. I am, because there is absolutely no possible justification for their manufacture. But they're being made, and the world's medicine regulators have said...we won't be asking them to do any clinical safety studies. Let me just say again, the variants are not different enough to represent a threat to you so you do not need top-up vaccines..., Yeadon said.

"The regulators have waved them through. I'm very frightened of that - there's no possible benign interpretation of this. I believe they are going to be used to damage your health and possibly kill you. Seriously. I can see no sensible interpretation other than a serious attempt at mass depopulation.

This will provide the tools to do it and plausible deniability - because they will create another story about some sort of biological threat, you'll line up and get your top-up vaccines, and a few months or a year or so later, you'll die of some peculiar, inexplicable syndrome, and they won't be able to associate it with the top-up vaccines." See mark 36:05 to 37:15.

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

Yeadon follows this up with his conclusion, "This system (mandatory vaccine passports) is being put in place using lies, and it's being put in place for some purpose, and I believe that purpose is complete totalitarian control, and I think the purpose of that is going to be mass depopulation." See mark 45:40.

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

"Do not allow it to be an interoperable global fixed-format database because that will be the end of human freedom, and I see no way of recovering from that once the system's up and running." See mark 46:30

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

Yeadon explained that few people will hear his words and that this fraud was perpetrated on the world's population through censorship, fear and propaganda. Dr. Yeadon, an insightful man, notes that the perpetrators have exhaustively planned this all, and they have considered how people might respond. Yeadon notes that if we all respond as expected, we will lose.

"Collectively, we need to do something unexpected." See mark 48:43.

<https://rumble.com/vg4inv-michael-yeadon-full-interview-planet-lockdown.html>

However, it is likely they didn't plan on the International Criminal Court coming after them. They also didn't plan on Dr. Reiner Fuellmich, an experienced trial lawyer licensed in Germany and California who founded the Berlin Corona Committee, which heads a group of attorneys with global reach dedicated to dragging this deadly conspiracy into the open and suing it into oblivion.

[https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English\\_BestCut:e](https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English_BestCut:e)

Fuellmich does an excellent job in this interview of exposing the actions of Klaus Schwab and the World Economic Forum, WEF, also known as Davos. The WEF has as its goal the establishment of a New World Order, with the globe to be run by self-selected technocrats like Bill Gates, himself, and other members of Davos.

In 1971 Schwab founded what was to become the WEF in 1987. It has 1,000 members. In general, qualification requires a business to have more than 5 billion dollars per year in revenue. The theme of WEF and Klaus Schwab has recently been "The Great Reset," which essentially means a new world order. In the following video, Klaus Schwab can be heard discussing this with Henry Kissinger. We hear Dr. Kissinger praising China's Xi Jinping's speech and the formation of a new international order. See mark 2:50 to 4:00.

<https://youtu.be/Apjzjsa8Alg>

Schwab himself sums up the 2017 Davos Meeting with the following statement, "What a wonderful opportunity to conclude our week here with such concrete proposals and ideas of how we can really create a New World Order." See mark 26:40.

<https://youtu.be/Apjzjsa8Alg>

Professor Andreas Oehler aptly describes the agenda of Schwab and the WEF, "The World Economic Forum seems to be the driver behind and organizer of the global population control operations, be it pandemics, biometric IDs, Great Reset, or public-private partnerships in name of the "common good" (fascist corporatism)." See the following article, "The Four Horseman of the Apocalypse identified, along with the Apocalypse itself."

<https://live2fightanotherday.substack.com/>

Professor Oehler of the University of Bamberg is widely published in credit, banking, finance, and investor protection. He believes that Klaus Schwab and his WEF members, including Bill Gates, planned the COVID-19 pandemic by sponsoring Event 201, a coronavirus pandemic simulation exercise held in New York City on October 18, 2019. WEF has been a proponent of digital biometric identity systems to make societies "more efficient and productive" (and easier to control).

<https://www.centerforhealthsecurity.org/event201/>

Oehler wrote, "WEF collaborates with the ID2020 alliance, funded by the Gates and Rockefeller foundations to run a program to 'provide digital ID with vaccines.' In particular, ID2020 sees the vaccination of children as 'an entry point for digital identity.' In reality, this means that anything a person does or is allowed to do (employment, travel, commerce, health care...) will be linked to the person's digital ID. This will remove any privacy and take total control over each and every activity of any individual on earth."

<https://live2fightanotherday.substack.com/>

For readers who may doubt this, read Klaus Schwab's book, *The Great Reset*. One of his chief goals is to have perfect monitoring ability of every human being and to be able to regulate all behavior, even to the point of complete totalitarian control.

<https://www.amazon.com/COVID-19-Great-Reset-Klaus-Schwab/dp/2940631123>

The WEF sees times of great turmoil or catastrophes as ideal opportunities to implement this reset, such as during the financial crisis of 2008, and now the COVID-19 pandemic, which Dr. Reiner Fuellmich feels created a perfect opportunity for the WEF to execute its plan. Fuellmich, a world-renowned trial attorney, refers to Schwab and his henchmen collectively as "Mr. Global."

"Klaus Schwab spells this out in his book, *The Great Reset*, and demands... a World Government under the UN, which has been brought under control by the WEF. This is to be achieved by creating as much worldwide chaos as possible in the form of pandemics, wars including civil wars and natural disasters so that the world population becomes convinced that the national governments are overwhelmed, and only a world government can help.

At the same time, Schwab calls for the shifting of all wealth to Mr. Global so that in 2030, no one, except Mr. Global, will still own anything, and we will supposedly be happy with that. Cash is to be abolished and replaced by a digital currency. This will be allocated to or taken away from every person in the world who can then also be found anywhere and at any time by various tracking systems. This is to be done by a single central world bank." See mark 32:45 to 33:56.

[https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English\\_BestCut:e](https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English_BestCut:e)

Fuellmich and Oehler both describe a series of puppets that the WEF has trained to help carry out these missions under the WEF "Young Global Leader" program, which started in 1993. Such people have gone on to become Presidents, Prime Ministers, and CEOs. These include some of the key players in this pandemic and vaccination effort:

- Microsoft founder **Bill Gates** (1993)
- California Governor **Gavin Newsom** (selected in 2005)
- **Pete Buttigieg** (selected in 2019, candidate for US President in 2020, US secretary of transportation since 2021)
- **Stéphane Bancel** (Moderna CEO; selected in 2009)

- Facebook founder and CEO **Mark Zuckerberg** (2009)
- Facebook COO **Sheryl Sandberg** (2007)
- Google co-founders **Sergey Brin** and **Larry Page** (2002/2005)
- Covid Twitter personality **Eric Feigl-Ding** (a 'WEF Global Shaper' since 2013)
- New Zealand Prime Minister **Jacinda Ardern** (since 2017, selected in 2014)
- Australian Health Minister **Greg Hunt** (selected in 2003; former WEF strategy director)
- Canadian Deputy Prime Minister **Chrystia Freeland** (selected in 2001; former managing director of Reuters)
- Canadian Prime Minister **Justin Trudeau** is a WEF participant but is not a confirmed Young Global Leader
- German Chancellor **Angela Merkel** (selected in 1993, 12 years before becoming Chancellor)
- Current German Health Minister Jens Spahn and former Health Ministers Philipp Roesler and Daniel Bahr
- EU Commission Presidents Jose Manuel Barroso (2004-2014, selected in 1993) and **Jean-Claude Juncker** (2014-2019, selected in 1995)
- French President **Emanuel Macron** (since 2017, selected in 2016),
- Former French President **Nicolas Sarkozy** (2007-2012, selected in 1993),
- Austrian Chancellor **Sebastian Kurz**
- Former Italian Prime Minister Matteo Renzi (2014-2016, selected in 2012),
- Former Spanish Prime Minister Jose Maria Aznar (1996-2004, selected in 1993)
- **Dr. Rajiv Shah**, President of the Rockefeller Foundation

<https://live2fightanotherday.substack.com/>

When we notice the harsh authoritarian and mandatory lockdowns of Australia, Austria, and Canada, perhaps it begins to make better sense when we factor in the names of those in the WEF Young Global Leadership program. See mark 34:25 to 34:58.

[https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English\\_BestCut:e](https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English_BestCut:e)

Now, against our seemingly hopeless situation, Reiner Fuellmich gives us all every reason to be optimistic:

"Against this background, which increasingly more people are recognizing, very large legal disputes have been set in motion in India, South Africa, the US, Canada, and France. Their goal is to hold those responsible accountable under both civil and criminal law. This also includes that the assets that have been taken away by Mr. Global from the world's population...are returned...In particular, Anglo-American Law with its powerful tools of class action, pre-trial discovery, punitive damages...provides the tools for very effective justice." See mark 35:00.

[https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English\\_BestCut:e](https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English_BestCut:e)

Reiner mentions that he has developed very good evidence that the PCR test was fraudulently used to grossly exaggerate the number of true COVID cases and the courts in Portugal, Austria and Germany, have set excellent precedents in their rulings to that effect.

Fuellmich concludes, "The Berlin Corona Committee already now has extremely incriminating evidence proving that this Corona 'pandemic' NEVER had anything to do with health; rather Mr. Global's actions are aimed solely at these goals:

- #1. Destruction of regional economies to make the population dependent on Mr. Global's global supply chains.
- #2. Shifting the wealth of the world's populations from the bottom to the top - to the super-rich - to Mr. Global.
- #3. Population reduction - you can call it genocide.
- #4. The installation of a World Government under the UN which is now under the control of the WEF." See mark 36:13 to 36:56.

[https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English\\_BestCut:e](https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English_BestCut:e)

He reminds us that we are dealing with megalomaniacs and sociopaths, those who lack a conscience. Fuellmich reminds us that while the mainstream media may censor, hundreds of thousands of people hear the message anyway; they are taking to the streets in protest in England, Germany, Australia, Brazil, etc. Civil servants, medical doctors, lawyers, politicians, nurses, and police officers are refusing the job.

Key elements include those of compassion and spirituality, as this has indeed become an epic struggle between right versus wrong. Reiner tells the story of a doctor who walked into a bank and was accosted by a person afraid because he was not wearing a mask. He hugged the individual who began to weep because they had not been held in more than a year. Fuellmich reminds us that we can all laugh, cry, and feel while they (the sociopaths) cannot.

Attorney Rose, now a heroic icon, asked the ICC to take immediate action by way of legal injunction in Points 128 and 153:

*It is of the utmost urgency, that ICC take immediate action, taking all of this into account, to stop the rollout of covid vaccinations, introduction of unlawful vaccination passports and all other types of illegal warfare mentioned herein currently being waged against the people of the United Kingdom by way of a court injunction.*

<https://docdro.id/WUjv6iw>

In closing, Reiner Fuellmich asked us to remember spirituality. We must celebrate our humanity. Like those in the Nazi concentration camps, who remembered to sing and praise God in the face of the most extreme adversity, we too must cling to our roots in religion and love for one another.

Fuellmich is confident that we will prevail. See mark 38:40.

[https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English\\_BestCut:e](https://odysee.com/@Corona-Investigative-Committee:5/Reiner-Fuellmich-Introduction-English_BestCut:e)

*That's what this is all about, humanity versus inhumanity. We are human. We can laugh, cry, sing, dance and hug. The other side, Mr. Global and his puppets can't do that. They can only fake feelings and have no empathy at all. This is because the other side has no access to the spiritual side. The US Constitution starts with the words, 'We the People.' And when the wall came down between East and West Berlin, 33 years ago, it was the East German people chanting – We the people – that brought it down. Mr. Global's house of cards will come crashing down the very same way. Without a doubt in my mind, Mr. Global and his puppets will lose this war of good against evil – they will lose their insane war against life and creation itself. There is no other way.*

After hearing him speak, I am confident as well. Dr. Pierre Kory once told me, "This situation seems backward. The doctors were the corrupt people who caused this mess, but the lawyers are those with ethics who will save us."

Pierre Kory, as usual, is correct. Someday, today's youth will become senior citizens. They will remind their society of today's Nuremberg II trials, and how they helped stop the largest con job ever perpetrated on the world. It is time to end the lockdowns, the vaccination mandates, the censorship, and the propaganda.

The media will resume reporting real news and cease fear-mongering. Then, journalists will return to what they do best – proper investigative reporting. And the International Criminal Court will most assuredly continue what it does best – bringing cold-blooded mass murderers to justice.

*MMWR Weekly* / November 13, 2020 / 69(45);1675–1680  
Rebecca T. Leeb, PhD<sup>1</sup>

# Spring 2020: ADOLESCENT MENTAL HEALTH CLAIMS DOUBLED

- In March and April 2020, **mental health claim** lines for individuals aged 13-18, as a percentage of all medical claim lines, approximately **doubled** over the same months in the previous year.
- All **medical claim** lines however, **decreased** by approximately half
  - At Advocates for Children, office visits decreased to as much as 42-65 percent from prior year visits

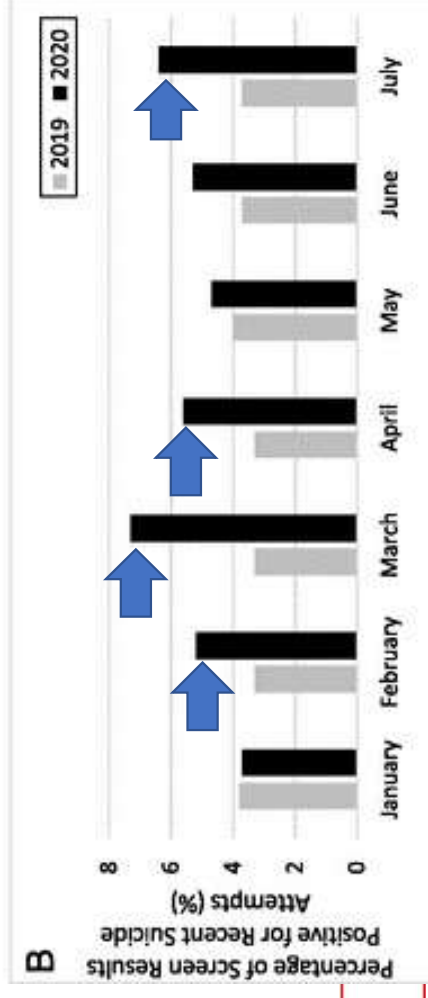

## Ages 6-12

- Spring to November 2020, claim lines for **obsessive-compulsive disorder and tic disorders increased** as a percentage of all medical claim lines from their levels in the corresponding months of 2019. •
- April 2020, claim lines for **generalized anxiety disorder increased 93.6 percent** as a percentage of all medical claim lines over April 2019
- **Major depressive disorder claim lines increased 83.9 percent**
- **Adjustment disorder claim lines 89.7 percent.**

# Suicide Ideation and Attempts in a Pediatric ER Before and During COVID-19

- Suicide attempts began rising in February 2020
- In March suicide attempts were double the previous year
- Attempts stayed elevated through the summer

# What happens when you put elementary school kids in front of computers for a year?

(Onyema, Edeh. "Impact of Coronavirus Pandemic on Education." *Journal of Education and Practice*, vol. 11, no. 13, May 2020, 10.7176/jep/11-13-12. Accessed 2 June 2020.)

- The switch from in person learning to online classes was hampered by poor infrastructure (network access, poor digital skills, and power problems).
- In addition, online learning was employed in age groups developmentally unable to master the technology being utilized.

# Brown University Study

Impact of the COVID-19 Pandemic on Early  
Child Cognitive Development: Initial Findings in  
a Longitudinal Observational Study of Child  
Health

Sean CL Deoni, Jennifer Beauchemin, Alexandra  
Volpe, Viren D'Sa, the RESONANCE  
Consortium

medRxiv 2021.08.10.21261846; doi:  
<https://doi.org/10.1101/2021.08.10.21261846>

- Leveraging a large on-going longitudinal study of child neurodevelopment, we examined general childhood cognitive scores in 2020 and 2021 vs. the preceding decade, 2011-2019.
- We find that children born during the pandemic have **significantly reduced verbal, motor, and overall cognitive performance compared to children born pre-pandemic. Moreover, we find that males and children in lower socioeconomic families have been most affected.**
- Results highlight that even in the absence of direct SARS-CoV-2 infection and COVID-19 illness, the environmental changes associated COVID-19 pandemic is significantly and negatively affecting infant and child development.

## Red flag for concern about early infant cognitive and social/emotional development

ELC = early learning composite

...we find mean ELC values from 2011 to 2019 ranging from 98.5 to 107.3, with standard deviations of 15.2 to 19.7 ([Fig. 2](#)), in general agreement with the expected mean of 100 and standard deviation of 15. Means and standard deviations for 2020 (March to December) and 2021 (January through Aug) were: **86.3+/-17.9 and 78.9+/-21.6**, respectively.

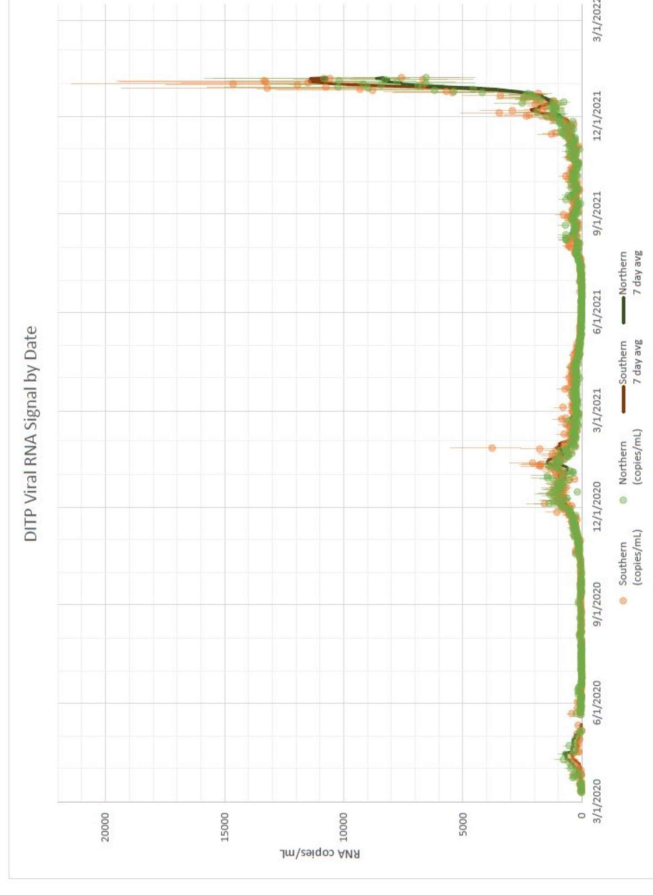

# WHAT IS THE RISK OF OMICRON TO KIDS?

- **Headlines**
- Omicron cases up 60%
- Hospitalizations up 14%
- Booster doses approved for 12 and older
- **Thoughtful analysis**
- 70% decrease ER visits omicron vs. delta
- 55% decrease hospitalizations
- 66% decrease ICU admissions

# Omicron more infectious

- R naught: how many people are you likely to infect?
- Alpha: 1-3
- Delta: 4-5
- Omicron: 7-10

Viral load: waste water in Boston

In many US states, ICU patient numbers are already approaching record levels as Omicron takes off

# HYDROXYCHLOROQUINE

- **Pre-exposure prophylaxis:**
  - The National Institutes of Health (NIH) COVID-19 guidelines recommend against the use of any drugs for SARS-CoV-2 pre-exposure prophylaxis, except in the setting of a clinical trial.
- **Postexposure prophylaxis:** The NIH COVID-19 guidelines recommend against the use of hydroxychloroquine for SARS-CoV-2 postexposure prophylaxis.
- **Treatment:** An emergency use authorization for hydroxychloroquine in the treatment of COVID-19 was issued by the FDA in March 2020 and subsequently revoked in June 2020 due to safety concerns and lack of efficacy (FDA 2020). [NIH](#) and Infectious Diseases Society of America COVID-19 guidelines recommend against the use of hydroxychloroquine, with or without azithromycin, for the treatment of COVID-19
- Safe dosing for **Systemic lupus erythematosus (SLE)**: Children and Adolescents: 4 to 6.5 mg/kg/day in 1 to 2 divided doses up to 400 mg/d
  - Maximum daily dose: 400 mg/day
    - (EULAR [Fanouriakis 2019]; Marks 2010; Thorbinson 2016);
  - Based upon data in adults, some experts recommend a maximum of 5 mg/kg/day to mitigate risk of retinal toxicity
    - (AAO [Marmor 2016]); Costedoat-Chalemeau 2019; EULAR [Fanouriakis 2019]; Fanouriakis 2020).

- Optimal range: 50-80 ng/dl
    - Adjust doses with testing prn
  - Doses: depends on latitude, skin color, sun exposure, etc.
    - Infants: 400-800 IU/d
    - Toddlers: 1000-2000 IU/d
    - Elementary: 2000-4000 IU/d
    - Adolescents: 4000-5000 IU/d

# Components of CHILD CARE

- **C:** Chronic conditions should receive optimal management
- **H:** hydroxychloroquine
- **I:** Ivermectin
- **L: Lifestyle**
- **D:** Vitamin D
- **C: Vitamin C**
- **A:** Vitamin A
- **R: Recovery**
- **E:** Et cetera: Zinc, Saccharomyces boulardii, Quercetin, Melatonin, Famotidine

# VITAMIN C: conservative guidelines vs. Geniuses collecting data

- The Dietary Guidelines for Americans recommends that babies receive the following amount of vitamin C each day
  - **0–6 months of age:** 40 milligrams (mg)
  - **6–12 months:** 50 mg
- Possible side effects associated with overconsumption of vitamin C include kidney stones, nausea, and diarrhea
  - Ascorbic acid is water soluble and children usually have great kidneys
- The U.K.'s National Health Service (NHS) only advises that vitamins and mineral supplements be given to infants 6 months of age or older

# RECOVERY: mortality data kids

Survival rate: 99.998%

- Rate of MIS-C
- Cohort study of 248 persons with MIS-C, MIS-C incidence was 5.1 persons per 1 000 000 person-months and 316 persons per 1 000 000 SARS-CoV-2 infections in persons younger than 21 years.

Payne AB, Gilani Z, Godfred-Cato S, et al. Incidence of Multisystem Inflammatory Syndrome in Children Among US Persons Infected With SARS-CoV-2. *JAMA Netw Open*. 2021;4(6):e21116420. doi:10.1001/jamanetworkopen.2021.16420

## Multisystem Inflammatory Syndrome

- “The syndrome is an inflammatory reaction in the body about four weeks after infection with the SARS-CoV-2 virus.
- The initial symptoms often include fever, rashes, red eyes, diarrhea and vomiting, and may get worse over a few days.
- The inflammation can affect the heart, blood vessels and other organs, which can make some children very ill and in need of urgent care.”

*Johns Hopkins parent education*

# Hospitalizations in kids: for COVID or with COVID?

Positive PCR tests in children hospitalized; high rates of false positives

- In the 117 pediatric hospitalizations
  - 39.3% were asymptomatic,
  - 28.2% had mild to moderate disease,
  - 7.7% had severe illness, and 15 (12.8%) had critical illness.
  - 12% patients had MIS-C.

Kushner LE, et al. “For COVID” or “With COVID”: Classification of SARS-CoV-2 Hospitalizations in Children. *Hosp Pediatr.* 2021; doi: 10.1542/hpeds.2021-006001

“45% of admissions were categorized as unlikely to be caused by SARS-CoV-2” Yet hospital records from around the country may reflect positive test status without this type of analysis about the true cause of the hospitalization.

# Prior medical conditions increase risk death 8.8 times

- In this study, we link pediatric population–based data from the US Center for Disease Control and Prevention to COVID-19 hospitalization and in-hospital death.
- In 27,045 US children with confirmed COVID-19, we demonstrate that **African American** [OR 2.28 (95% CI: 1.93, 2.70)] or **mixed race** [OR 2.95 (95% CI: 2.28, 3.82)] and an **underlying medical condition** [OR 3.55 (95% CI: 3.14, 4.01)] are strong predictors for hospitalization.
- Children with a prior medical condition had an increased odd for death [OR 8.8 (95% CI: 3.7, 21.1)].

Published: 20 January 2021, European Journal of Pediatrics  
Demographic predictors of hospitalization and mortality in US children with COVID-19

# Hard to find healthy kids who die from COVID

- Marty Makary, MD, from Johns Hopkins collaborated with nonprofit FAIR Health to analyze approximately 48,000 children under 18 diagnosed with Covid.
- They looked at health-insurance data from April to August 2020.
- Report found a mortality rate of zero among children without a pre-existing medical condition such as leukemia.
- In March 2021 the CDC reported that 78% of Covid hospitalizations were among overweight or obese patients.

The Flimsy Evidence Behind the CDC's Push to Vaccinate Children By Marty Makary

# IgA: in respiratory and GI secretions

- SARS CoV2 enters respiratory, cornea and GI tract
  - Sungnak et al. SARS-CoV-2 entry factors are highly expressed in nasal epithelial cells together with innate immune genes. *Nat Med*2020;26:681-7. doi:10.1038/s41591-020-0868-6 pmid:32327758
- Immunoglobulin A is the primary immunoglobulin expressed at these entry points
  - Corthesy. Multi-faceted functions of secretory IgA at mucosal surfaces. *Front Immunol*2013;4:185. doi:10.3389/fimmu.2013.00185 pmid:23874333
- IgA antibodies specific to SARS CoV2 have been found in saliva, breastmilk and serum
  - Fox A, Marino J, Amanat F, et al. Evidence of a significant secretory-IgA-dominant SARS-CoV-2 immune response in human milk following recovery from COVID-19. *medRxiv* 2020
  - :2020.2005.2004.20089995. [Preprint.] doi:10.1101/2020.2005.2004.20089995

# Actions of *Saccharomyces Boulardii*

- Non-pathogenic
- Transient
- Increased intestinal brush border enzyme activities
- Enhances short chain fatty acids that nourish colonic mucosal cells
- Increased secretory IgA secretion
- Decreases diarrhea
- Acts as prebiotic and probiotic
- Decreased adhesion of pathogenic species

# SB information to explain to parents: from Sidney M. Baker

- Saccharomyces (sugar fungus) is the genus name of common yeasts such as *Saccharomyces cerevisiae* (baker's and brewer's yeast). *S. boulardii* is a closely related yeast whose exact classification and distinction from *S. cerevisiae* is debated, but which clinically acts as if it kills off pathogenic yeast and supports the development of normal gut flora.
- Taking *S. boulardii* may result in the three main initial results (intense initial aggravation of symptoms – so called “die off” or nothing happens all, or marked benefit) that can be expected with any antifungal, except that the intensity of the die off may be more than with any other antifungal. Charcoal, see below, is the answer to such a die off and usually quenches it to make it stop or become tolerable.
- Apart from die off reactions it has no toxicity. It resides in one's gut where it joins the other flora until shortly after discontinuation and then disappears. While you are taking it a stool culture may grow out a yeast identified by the lab as *S. cerevisiae*, because the lab cannot distinguish between these two strains.
- *Saccharomyces boulardii* (S.b) dosage can be increased safely to multiples of the original dose to explore the possibility of overcoming partial resistance of the targeted fungus. The option of switching to other “systemic” antifungals such as terbinafine (Lamisil), ketoconazole (Nizoral), itraconazole (Sporanox) and fluconazole (Diflucan) is remarkably safe but cannot compete with the complete safety of S.b.
- This trial should not be undertaken without first achieving control of constipation, usually with magnesium citrate capsules (150 mg) or CALM powder or liquid such as is found in 10 oz bottles provided as a cathartic but can be portioned out to be taken “to bowel tolerance.” Bowel tolerance is achieved by increasing the daily dose – usually taken in the evening but can be spread out over the day – until the effect produced is just short of risking an embarrassing urgency of bowel movements. As that dose is approached the idea is to back off until reliable daily bowel movements are achieved with a frequency of at least once, preferably twice or three times.

# ZINC: why not?

- Chiang KC, Gupta A. To zinc or not to zinc for COVID-19 prophylaxis or treatment?. *J Med Microbiol*. 2021;70(9):001299. doi:10.1099/jmm.0.001299
- Randomized controlled trials are urgently needed to test the efficacy and safety of zinc in patients with COVID-19,
- *NIH: Last Updated: April 21, 2021 - Recommendations*
  - There is insufficient evidence for the COVID-19 Treatment Guidelines Panel (the Panel) to recommend either for or against the use of zinc for the treatment of COVID-19.
  - The Panel **recommends against** using **zinc** supplementation above the recommended dietary allowance for the prevention of COVID-19, except in a clinical trial.

**Ionophore:** a substance which is able to transport particular ions across a lipid membrane in a cell.

**Helpful effects**

Anti-inflammatory  
Antioxidant  
Induction of metallothionein  
Complement activity  
NK cell activity  
Phagocytosis

**Harmful effects**

Zinc toxicity  
Copper deficiency

**Zinc in  
Covid-19**

## Behavioral effects of zinc on prisoners with violent behavior

Decreased aggression in prisoners  
and young males:

Physiology & Behavior, Volume 82, Issue 5, 2004, Pages 835-839, ISSN 00319384, <https://doi.org/10.1016/j.physbeh.2004.06.023>.

# QUECERTIN

- Food sources: fruits, veggies, seeds, grains, kale, red onions
  - Rapidly cleared with 1-2 hour half life after food
- Mast cell stabilizer: role in allergic, inflammatory and autoimmune diseases which release IL 8 & TNF alpha
- Also, anti-clotting mechanism
- Therapeutic effects enhanced when given with Vitamin C
- Doses:
  - Toddlers: up to 250 mg bid
  - Elementary: up to 500 bid
  - Adolescents 400-600 mg up to tid

# MELATONIN

- Beyond sleep – excellent anti-oxidant (independent of M1 and M2 receptors that are important for sleep induction)
- Regulation of mood, learning, memory and immune activity
- Doses:
  - Not recommended in babies who are still establishing sleep/wake rhythms
  - most toddlers do well with between 0.5 and 3 mg
  - In special circumstances, we use 5-10 mg
- Pediatric limitations on long acting forms
  - If kids cannot swallow pill without chewing, hard to use long acting forms
  - Some kids have rebound waking between 2-3 am – vivid nightmares

# FAMOTIDINE: H2 receptor antagonist

- Approved in infants down to 1 month of age
- Dose 0.5 – 1 mg/kg/day q day or divided bid
- Caution with alpha gal patients: pill form has mag stearate, which sometimes has mammal products, sometimes not
- Caution in pregnancy and breastfeeding but good R:B ratio IMO
  - Pregnancy: animal studies showed problems only at >250 times human doses
  - Breastfeeding: animal studies showed growth suppression at 600 times human doses

# John Steinbeck's cottage

## COVID-19 Treatment and Vaccine Decisions from a Pediatric Perspective:

*Evaluating the risks and benefits for your child or adolescent beyond CDC, FDA or WHO proclamations*

By the Children's Health Defense Team

# The Biology of Trauma

The brain is not structurally complete at birth.

- Myelination, proliferation of synaptic connections, and development of glial and circulatory support systems all continue long after a child has entered the world.
- Nature gives children a chance to adapt to the specific needs presented by the environment into which they have been born.
  - Opportunities for optimal development:
    - Adequate nutrition vs. school closures during COVID
    - Avoidance of toxins like lead, mercury, alcohol, artificial spike proteins
    - Nurturing, loving and stimulating environment; development of the ability to “read” faces
    - Caregivers present, attentive and consistent vs. COVID trauma to adult population

# Science is incomplete & ever evolving

# Wisdom vs. Knowledge

It ain't what you don't  
know that gets you into  
trouble. It's what you  
know for sure that just  
ain't so.

**Mark Twain**  
*American Author and Humorist*

Subject: Commit to no COVID vaccine mandates on children

External Email

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Please enter your comments or questions in the space provided below:

---

To Whom It May Concern, I am writing to you in objection for you to require school aged children to be vaccinated with the mRNA jab for Covid-19. This shit is the equivalent to a flu shot. I believe you will be hard pressed to provide enough evidence that supports the requirement. This particular shot is still under EUA by the FDA and has not had long term studies of the effects of children or adults for that matter. Please stay away from require this shot.

3.

I know are all concerned about the health and safety of everyone; but I wouldn't want to see mandates for our children. Not enough research has been done on the long-term effects of the vaccine.

As reported by KIRO

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.kiro7.com%2Fnews%2Flocal%2Fstate-board-health-considers-making-covid-19-vaccine-requirement-students%2FS5X2R7YPNZFLXFMJBKQF2WGXIE%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7Cd3d97>>  
7 on January 24, 2022 , I understand that WSB OH is considering making the COVID-19 vaccine a requirement for all school students.

I strongly urge the board to decide against this policy. Children are at extremely low risk for Covid and the vaccines are still only emergency authorized only.

Thank you for your consideration.

Sincerely,

Katherine Jones

Subject: Info for Technical Advisory Group for Covid Vax mandates for schools

External Email

Hello TAG,

I am a very concerned WA parent and it is Alarming that you are even considering adding the Covid shot to the vaccine list for children. I am reaching out to make sure you get balanced information.

Can you please respond so that I know that this email was received and read?

I watched your TAG meeting on 12/29/31 and it seems your only concerns were about how parent/caregivers were going to get kids to the shots and how the schools/child cares would keep accurate vaccine records.

What about Safety and the fact that kids do Not need these shots? Kids have 99.98% survival rate with Covid. The Covid shot it by far More Risky to kids than Covid. Where there is risk there Must be Choice.

The main reason it seems that government and Big Pharma want the Covid Shots on the required list for school entry is Not for the benefit of children but to ensure that Big Pharma has No Liability for the harm the Covid shots are doing to many people. And who knows what the long term impacts of these shots may be? Only time will tell. CDC, FDA, NIH and Big Pharma cannot be trusted. They have way too many conflicts of interest and all are profiting financially from the Covid shots.

Look at who is truly benefiting most for these vaccines...Follow the Money.

If you really care about children and making the right choice please watch the following video on the Pfizer vaccine trials. This Truthful info is not covered on the main stream media because it may cause vaccine hesitancy.

Factually Scientific video by Canadian Covid Care Alliance on Pfizer vaccine trials (30 min) <https://rumble.com/vqx3kb-the-pfizer-inoculations-do-more-harm-than-good.html> <<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Frumble.com%2Fvqx3kb-the-pfizer-inoculations-do-more-harm-than-good.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C54fbb33ec6a34ea274e208d9e0885f47%7C11d>

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Subject: Mandating Covid-19 vaccine for children

External Email

Hello,

As a mother, grandma and pediatric occupational therapy assistant I would like to express my disapproval of mandating Covid-19 vaccine for children. I believe that this medical decision should be left up to the parents and the child's physician. There are many factors that go into the decision to get this vaccination and I believe it would be an overstep by the government to mandate the vaccine and a direct hit on our freedom of choice concerning this matter.

I would ask that this topic be removed from any further meeting agendas and the choice left up to parents.

Thank you for your time and consideration to listen to my concerns.  
Loretta Longsine

Hello,

I am adamantly against mandatory Covid-19 vaccination of Washington state students. It is unconstitutional, unsafe, unethical, and ineffective.

There have been several precedents of Covid-19 vaccination mandates being deemed unconstitutional. WA school districts do not have the right to mandate these vaccinations.

There is insufficient clinical data that could support these vaccinations as being a safe medical injection, particularly when it comes to youth.

Forcing an experimental vaccination on children is unthinkable and ethically reprehensible.

Children do not have high risk of severe reaction to Covid and the vaccinations have not proven effective at preventing its spread.

There is no justification for mandating these vaccinations and many strong arguments against. Please do not support any policies to mandate Covid-19 vaccinations in Washington students.

Sincerely,

Clinton Newcombe

To whom it may concern,

Do not mandate Covid vaccines for our children in any age group. The medical care/provision should now and always be the parents decision.  
I am completely against any vaccine mandates for anyone. This is complete government overreach , period!

Hello, Washington State Board of Health,

I am writing to you to request you not to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. You know that what you are requiring is against the constitution and against science. You know you are pushing this is against people's will. You know the Covid-19 vaccine is not a true vaccine and it has caused many injuries in young people and killed many. And you know that you are still pushing it is for your own benefit!!!! The blood will be on your hands if you continue participating in this evil.

Subject: Public Comment Regarding Vaccine Mandate for Children to attend school

External Email

Dear Washington State Board of Health,

Thank you for serving on the State Board of Health. I appreciate your service to our state.

I am a parent of two elementary age students. Please humbly consider my perspective on the issue of Vaccine Mandates for public school attendance.

Please do not make the Covid - 19 vaccine mandatory for school attendance.

I am vaccinated, but I do not want my children vaccinated. I do not think the data supports the need for children to be vaccinated.

1. Covid is very low risk for children. It is more likely for my child to die in a car accident than to die from Covid. I believe the risk of the vaccine is equal to or greater than the risk of actually getting Covid. (My husband looked this up on the CDC web site)

2. Children also do not fill hospital beds. The child Covid hospital rate is very low. (checked this on the CDC website)

3. The mandate will force kids out of the school system.

I WANT both of my children to stay in school. They are learning and happy, we love the school. I also don't believe this vaccine is in the best interest of my children. This puts me as a parent in a horrible position. I have to choose against my intellect and conscience to vaccinate them and keep them in school OR I have to take my kids out of school. Please, consider the thousands of parents like me who DO NOT want to leave the school system and also DO NOT want to vaccinate.

I don't believe the vaccines are in the best interest of my children so I will choose to not vaccinate. But please don't put parents in this position. Parents can decide what is right for their own children.

Best Regards,

Julie Paris

Subject: Covid-19 vaccine requirement

External Email

Dear Washington State Board of Health,

I am writing to ask that you NOT put the experimental Covid-19 vaccine as a requirement for children to go to school. This vaccine continues to be classified as experimental as we do not know about the long term effects. Children are at very low risk of injury or harm from Covid-19 but more evidence is coming in that the risk of the vaccine may be greater than having the disease for children. Most children that I know have already been exposed and/or had Covid 19, which gives them better immunity than the vaccine yet we are not considering those who have natural immunity. All the cases of Covid-19 in children that I've seen were very mild. Do NOT recommend that this Covid - 19 vaccine be required for children!

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Subject: K-12 Covid Vaccine Requirement - WAIT

External Email

More and more is coming out about concerns over the safety of the experimental (emergency use) vaccines and their unknown long-term side effects. The effectiveness of these vaccines and boosters is also being questioned. Despite this, WSBOH is rushing to require students of all ages be vaccinated for COVID or not be allowed to attend school. There is not enough data/studies to warrant this decision. Other mandatory school vaccinations involve vaccines that were studied for years before they were believed to be safe. These COVID vaccines may be posing more danger to the students than COVID itself. So the science is still out on the effectiveness and safety of these vaccines. Please don't ban children from school merely because a parent has concerns over the vaccines and chooses not to have their children vaccinated. Those who want to vaccinate would still be free to do so.

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Hello:

My name is Katherine Karr-Cornejo and I live in Spokane. I am writing to express my support for including vaccination against COVID-19 on the list of required childhood immunizations for school and day care entry in Washington state. With the current Omicron wave we have all seen the vulnerability of our schools and daycares with a majority of children unvaccinated, or not yet eligible to receive a vaccination. Despite rhetoric to the contrary, as of January 19 COVID has taken the lives of 862 people in the United States aged 0-18. The vaccines have been tested and are both safe and important for reducing severe illness and death. As we enter the third year of this pandemic I urge you to recommend the inclusion of these vaccines in requirements for school and day care. This is both to protect children and their families and to protect and value those who work in schools and day cares. Thank you.

Subject: Potential Vaccine Mandate for schools

External Email

To Whom It May Concern:

I'm sending this email as a concerned parents with a teenage daughter and the potential Covid vaccine mandate for next school year. This potential mandate is absolutely ridiculous. Follow the science everyone says; the need for continuous boosters shows that the science isn't working, that the vaccine isn't working. I have known more people who have gotten the vaccine to have severe side effects from it or end up with COVID after being fully vaccinated and boosted, than those without and/or with natural immunity. So, why should I put something into my child that doesn't seem to work. In my opinion, the vaccine was rolled out way to quickly for a vaccine to work properly it needs more time to be developed and tested and that's what we are seeing now, oh get the vaccine you won't get COVID, oh sorry you'll need a second dose in order not to get COVID oh now we know there needs to be a booster and a booster most likely every 6 months in order for it to work(so like getting a flu shot every year), oh but it won't work against this strain of COVID and even if you're vaccinated and have the booster you still have the chance of getting COVID...so you're telling me that this vaccine doesn't work at all and you're more likely to get COVID?!?! Since Jan 1, 2021 to Jan 9, 2022 according to the DOH in WA state COVID deaths in children have been 11 and those kids had other underlying conditions so most likely COVID was not the main cause of death for them and most likely the vaccine wouldn't have helped them. The CDC and media don't want to release the data of children/youth who have had severe reactions to the vaccine because that would hurt the big pharma's who are distributing the vaccine but the news does talk about it. My daughter has a higher chance of having a severe reaction to the vaccine then catching COVID itself and if she has had COVID then she has the perfect vaccine who own immunity to fight the virus. Oh that's the other thing it's a virus and I've been told by healthcare professionals that there's nothing they can do for a virus just rest and hydrate, prime example my daughter was sick about 3 years ago for 3-4 days I took her in to see her doctor, I'm told she has a virus and there's nothing that can be done just have her rest. So, why is something that doesn't seem to work being pushed so hard? The supreme court has blocked the vaccine mandate so how can this group go against that and mandate it for schools? The kids have already lost out on so much because of this pandemic and now you're going to make it even tougher on them and you're going to have upset parents as well who will pull their kids out of school. Also, apparently the pandemic is to end by April/spring time according to the news so why are we pushing this vaccine? Can this group guarantee that my daughter won't have an adverse reaction to the vaccine (since I am allergic to the ingredients in the COVID vaccines), can this group guarantee that she won't have any health problems in the future, that she can reproduce a child at a later time? I've known more women who have received the vaccine and have had their menstrual cycle effected because of it. Last time I checked this group was not the one raising my daughter and doesn't have a say in what she can or can't do or what she can or can't put into her body, it's not your choice and yes we have talked with our daughter about the vaccine and she's done her own research about it and she does not see the point of getting it when it doesn't seem to work. She's also seen first hand from her friends who have gotten the vaccine and what it has done to them. How about we let the flu/cold do what it has done in years past and make its way through people get sick take care of themselves and move on those who want the flu shot/vaccine get it that's their choice but it's also the choice of those who don't want it and leave it at that. Let's see the numbers of those who have died from heart attacks,

cancer, car accidents, suicide, lung disease in the same period for COVID, I bet those numbers are a lot higher than those who past or got COVID.

This vaccine is as useless as wearing a mask.

Thank you  
Sara Halvarson

Tumwater, WA 98501

Sirs:

This message is sent in advance of your January 12, 2022, Board meeting, to inform your Board members of my family's STRONG PROTEST AGAINST your proposed revision of WAC 246-100-040, and/or inclusions in WAC 246-105-030, that include COVID protocols under the State's "Communicable and Certain Other Diseases Act" that empowers your agency and law enforcement to place individuals and families in "Internment Camps."

This is nothing less than full-blown Gestapo, KGB, Maoist, and Fascist tactics! How can you in good conscience even consider these totalitarian measures that violate our U.S. and State Constitutions, let alone violating our *WA Health Insurance Portability and Accountability (HIPAA)* rights, and the International *Nuremberg Code*? In our opinion, you are violating all of these statutes and civil rights by even convening to consider such proposals or revisions. All such earlier WAC's that have been enacted that are aligned with these proposed revisions are unconstitutional as well and are in violation of our personal civil liberties.

In our opinion, the very 'science' that you and our fascist governor continually use to shut down our schools, our economy, our religious freedoms, and forced 'mask' mandates among other measures, fails to support you taking such extreme measures and forced lockdowns.

The Center for Disease Control (CDC) nationwide statistics consistently show that COVID survival rates for people between the ages of 1 and 69, is 99.997%. People ages 70+ have a 94.6% survival rate nationwide. Compare this with about a 5% annual death rate for influenza and pneumonia nationwide for ALL ages. (Note: one cannot readily find statistical data for influenza mortality rates for 2020 or 2021 ... quite curious).

You all are supposed to be 'public servants,' not dictators. Please STOP this nonsense at once.

Richard S. Evans

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Copied from a Nurse.

"Among all the vaccines I have known in my life (diphtheria, tetanus, measles, rubella, chickenpox, hepatitis, meningitis and tuberculosis), I want to also add flu and pneumonia. I have never seen a vaccine that forced me to wear a mask and maintain my social distance, even when you are fully vaccinated. I had never heard of a vaccine that spreads the virus even after vaccination. I had

never heard of rewards, discounts, incentives to get vaccinated. I never saw discrimination for those who didn't. If you haven't been vaccinated no one has tried to make you feel like a bad person. I have never seen a vaccine that threatens the relationship between family, colleagues and friends. I have never seen a vaccine used to threaten livelihoods, work or

school. I have never seen a vaccine that would allow a 12-year-old to override parental consent. After all the vaccines I listed above, I have never seen a vaccine like this one, which discriminates, divides and judges society as it is. And as the social fabric tightens... It's a powerful vaccine! It does all these things except IMMUNIZATION. If we still need a booster dose after we are fully vaccinated, and we still need to get a negative test after we are fully vaccinated, and we still need to wear a mask after we are fully vaccinated, and still be hospitalized after we have been fully vaccinated, it will likely come to "It's time for us to admit that we've been completely deceived."

I believe that science and common sense both indicate that we will be safer overall if more of us are vaccinated against COVID 19, so I support all efforts to increase vaccination rates, including helping our children stay healthy by adding this to the list of shots required for kids in school. Thank you for all you do to help Washingtonians stay healthy!

Hello All,  
This communication is to be forwarded to Jay Inslee by the Lieutenant Governor. Thanks in advance.

As you all may be aware, the world is now fully aware of what you are doing. Why is not the CDC VAERS numbers part of your agenda and daily narrative? Currently VAERS is reporting over 22,000 deaths and over 1 million injuries from the needle poison that you people are still pushing. Seriously ... how many people must die before you stop your campaign of maiming and genocide.

WHERE DID THE FLU GO?

You all need to cease and desist your genocidal campaign of poking people with needle poison, that you incorrectly label a vaccine. Your campaign needs to stop NOW until the VAERS numbers have been investigated and verified.

Please watch the attached video and then look in the mirror ask yourself how can you continue what you are doing to people. Seriously ... We ALL know its all about your paychecks ... so disgusting. You are destroying people's lives so you can continue to get that paycheck.

Subject: Please Don't Require Schoolchildren to Have the COVID Vaccine

External Email

Hello.

Today, when people ask me, "Are you vaccinated?" I reply by saying, "That's irrelevant." I know many people, most of whom vaccinated, who have contracted COVID and become ill from it, with symptoms. The vaccine does not prevent one from getting COVID. Furthermore, the CDC estimates that if 100,000 children are vaccinated against COVID, approximately five to seven of them will develop cases of myocarditis. I know "5 to 7" is a small number, but it's too big for my liking. COVID is not life-threatening to children. Why would we risk a few children getting myocarditis by requiring vaccines? That requirement does not make sense. I will remove my child from public school if the vaccine mandate goes through. Please respect parents' medical choices and honor the fact that they are afraid of their children developing complications from the COVID vaccine - please do not require the COVID vaccine of schoolchildren.

External Email

As a parent with 3 kids, two currently in elementary and one in middle school, I wanted to be clear that requiring my children to get the vaccine will result in us deciding to home school them and I know I am not the only one.

All three of my children have had Covid-19 already with zero symptoms.

At the very least you should consider including those who have gotten natural immunity through infection, but I highly recommend not trying to segregate the school in this way or there will be a lot of very vocal and unhappy parents.

Subject: Covid Vaccine mandate for schools?

External Email

To Whom It May Concern,  
Please do not make the Covid Vaccine a requirement for students. First, this vaccine is only a couple years old compared to MMR and the like. Second, children are the least likely to have severe symptoms and like the flu they recover. Third, I personally know five people that have had severe reactions to the vaccine and my daughter's high school teacher has two close friends whose otherwise healthy mothers in their fifties pass away after the second shot. She herself refused the vaccine for religious reasons and the fact that she was terrified. It is not mandated in most states. Please don't go that route or more parents will be pulling their children from schools. I have four friends who have sent their kids to private schools because of the issues surrounding this.

Sincerely,  
Deborah Sweeney  
Former elementary teacher and mother of five children.

Dear Marysville School District & WA State BOH,

Our children should not be required to wear masks in school or any where for that matter. Neither should adults. The science & facts prove that masks don't work & actually cause more health issues rather than help.

Please review the attached link with many studies & information on masks.

Parents should be able to make that choice for our children.

We would like to see your science, facts & proof for masks & everything you do. We would like you to discuss & debate independent scientists, experts & doctors that are representing us.

Please remember, they are our children.

Sincerely,

#WeThePeople & Parents of our children.

Mandating vaccines for school children is a completely unnecessary overreach of power and will harm many children physically and emotionally. It is discriminatory in nature and I will have no part of it. I will remove my child from school and the school will lose the funding provided for them. Many will follow suit. If you impose these mandates for an untested and unsafe vaccine you will one day regret your actions. You will have to live with the knowledge that children that die or get sick from the vaccine will have done so because of YOUR action or lack thereof. Please make the right choice and stop this madness.

Hello,  
Washington State Board of Washington

I am writing to you to request you not to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. You know that what you are requiring is against the constitution and against science. You know you are pushing this is against people's will. You know the Covid-19 vaccine is not a true vaccine and it has caused many injuries in young people and killed many. And you know that you are still pushing it is for your own benefit!!!! The blood will be on your hands if you continue participating in this evil.

Sincerely,

T.Riley

Subject: Vaccine Mandate Feedback

External Email

Hello, I am a Washington resident and would be strictly opposed to vaccinating my 9 year old child for several reasons.

We see strong evidence that Omnicron, the most common strain is far less lethal, even for those in higher risk groups. Additionally, data shows a sharp decline in the vaccines effectiveness with Omnicron. Research also suggests there is high transmissibility now among vaccinated and the predominate current benefit of "reducing serious illness or death" is statistically almost zero now with healthy kids.

Also, while this vaccine is FDA approved, it is relatively new, particularly as it relates to the technology applied to this vaccine. While we can draw conclusions based upon what we know from other scenarios, we simply cannot say (and nobody will) with 100% certainty it will not have long term negative effects.

While the known risks are very rare, data shows they do exist particularly with younger boys and myocarditis which cases outpace the even more rare death rate among healthy children. The other concern there is accepted theory right now is nobody fully understands why this happens which is problematic in itself or potentially how that could present long term.

I believe there is a time and place for putting common community good among parental rights, but the bar should be extremely high and taken with extreme caution and consideration. I do not believe the current situation with what we know would warrant a mandated vaccine to attend public schools for children. This would be highly inappropriate at present and a serious overreach in my view.

Regards,

Chris Ball

Subject: Please do not mandate Covid vaccinaton in WA students

External Email

Hello,

I am a pediatric nurse in WA, currently working as a school nurse in the Edmonds School district. I urge you to please refrain from requiring Covid vaccination for WA students.

I am adamantly against mandating Covid vaccination for WA school-age students for the following reasons:

1. Covid vaccination does not prevent a person from getting or spreading Covid (CDC). "People who are fully vaccinated still get Covid-19" (CDC). Covid case rates from January 2022 demonstrate that schools are seeing record numbers of positive Covid cases despite high vaccination rates among students and staff. Current trends and record-high case rates highlight the ineffectiveness of Covid vaccination in preventing Covid-19 in schools.

2. Many people vaccinated against Covid still get sick with breakthrough infections (CDC). "Vaccine breakthrough infections are expected" (CDC). "People with vaccine breakthrough infections may spread Covid-19 to others" (CDC). WA schools are currently seeing the highest rates of Covid cases since the onset of the pandemic. Current evidence does not support that Covid vaccination is helpful in reducing the spread of Covid-19 and instead is showing an alarmingly clear positive correlation between vaccination rates and Covid cases.

3. The purpose of the Covid vaccine is to prevent severe disease, hospitalization, and death (CDC). The majority of school-age children have a very low risk of severe disease, hospitalization, and death from Covid-19 (CDC). In fact, the overwhelming majority of children hospitalized with Covid-19 had underlying medical conditions such as obesity and asthma (CDC). Additionally, Fauci recently reported that most of the children hospitalized with Covid-19 were not hospitalized because of Covid-19 and were actually hospitalized for conditions unrelated to Covid-19 such as bodily injury and drug overdoses. WA school students should not be forced into taking the Covid vaccine because most school-age children do not pose any statistically significant risk for hospitalization, severe disease, and/or death from Covid-19. Since most WA students are not at risk for severe Covid disease and can still get and spread Covid after vaccination, mandating Covid vaccination in all students would be unwarranted and unnecessary.

4. Covid vaccination is still undergoing clinical trials (Pfizer). Therefore, safety data of Covid vaccination and results of these trials have not yet been released to the general public (Pfizer). Forcing unwilling individuals to participate in medical experiments is unethical, illegal, and in direct violation of the Nuremberg Code for medical experimentations (HHS).

5. Very few (only 3014) children ages 5-17 are enrolled in Pfizer's Covid vaccine trials (Pfizer). Therefore, very little safety data exists regarding Covid vaccination in children (Pfizer). Since the Covid vaccines are new to the market and still in experimental stages, there is no long term data that demonstrates the long-term safety and efficacy of these vaccines in the pediatric population (Pfizer). Requiring an experimental therapeutic that lacks safety data for all WA students would not only be illegal and unethical, it would be reckless, inappropriate, potentially dangerous, and a gross overreach of state.

6. The American Nurses Association and the American Medical Association state that healthcare providers have a legal and ethical responsibility to obtain informed consent regarding all aspects of patient care and to protect patient's autonomy at all times. Forcing Covid vaccination on all WA students would be a violation of their ethical and legal rights to autonomy and informed consent. Forcing unwanted medical treatments such as mandating Covid vaccination in all students is unlawful and would be a gross violation of the ethical code.

I urge you to please refrain from mandating covid vaccination in WA students. Please consider the legal and ethical consequences related to mandating an experimental vaccination and the significant damage that may result from forcing children to receive an experimental drug that lacks long-term safety data and has not been extensively studied in children. I urge you to please consider the fact that Covid vaccination does not

prevent infection nor prevent one from spreading the virus to others. Please consider that the record high numbers of Covid cases currently happening in our schools is clear evidence that increasing Covid vaccination rates in school age children is showing a direct positive correlation with increased covid cases in our schools.

Finally, please be cognizant of a parent's legal and ethical right to informed consent and individual autonomy regarding their child's health care. Parents should be able to choose for themselves what they feel is best for their child and should never be coerced and forced into giving their child an experimental therapeutic that lacks safety data in children and is proving to be ineffective in reducing rates of Covid-19 in our schools.

Millions of Washingtonians are counting on you to do the right thing for our students and not require Covid vaccination for children to attend school. Please refrain from making the illegal, unethical, and immoral decision to force this experimental vaccine on our students. Our future generation is depending on you.

Please. I beg you: do not mandate Covid vaccination in our children. Thank you for your consideration.

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

**By Registered Mail: RB 530 816 989 US**

Dear Michelle Davis, All Washington State Board of Health Members and Executives,

On January 6, 2022, I sent you an email as a written Verbal Notice of Liability for Washington State Board of Health. (see attached)

Under Federal Rules of Evidence 902 once I record this Notice it is self-authenticating. Your failure to rebut is admission to the truth of the Affirmations and judgment on the Remedy contained therein without your or your agent's objection due to estoppel by acquiescence.

Every policy that you have enacted or enabled under the guise of COVID-19 that denies people - living men, women, boy and girls - equal access to public accommodations unless they submit to long-term wearing of masks, invasive diagnostic testing, or injections of gene-modification therapies is unlawful.

First, people are divine creations and are only bound by divine law, not by man's law. The first sentence of the first law of this country, the Declaration of Independence, states this clearly: "Men [and women] are endowed by their Creator with unalienable rights." These are absolute and unconditional. What is given by our Creator cannot be taken away by you. The supreme court has upheld this countless times. Your coercive policies violate our unalienable rights under the pretense of law.

Second, all three of these policies involve medical procedures. In 1947 civilized society declared in Article 1 of the Nuremberg Code that this type of coercion is everywhere and always a crime against humanity.

Policies relating to COVID-19 are violations of the 1st, 4th, 5th, and 9th Articles of the Bill of Rights and are by definition Rape, Bodily Invasion, Abduction, Abuse, Molestation and Maltreatment at the very least.

This is a betrayal of your allegiance to the Constitution for the united States of America, and thus to us, it's beneficiaries. Your polices, therefore, are a breach of fiduciary duty and treason.

You have not been granted permission to pass such mandates as proposed.

I do not grant you permission to proceed with passing such mandates.

If you do not comply with the direction, you have just been given, I will hold each and every one of you accountable for these deprivations of rights, crimes against humanity, and treason.

Please understand that I have every remedy available to me.

Your individual liability is unlimited.

You have now been offered lawful Notice of due process.

**You have a further ten (10) business days from the date of this Notice to cure your breach of Notice of Liability and to do so by January 25, 2022.**

If you do not, I will immediately provide you and all the members of the Washington State Board of Health with the following, without limitation:

1. Complaints against your faithful performance bonds
2. Criminal referrals under Title 18 US code 241-242
3. Civil action for deprivation of rights
4. Demand for a common law grand jury dependent upon the results of the foregoing.

I reserve all rights and remedies available to me in any jurisdiction or venue.

By: alissa karin ray-keough

Subject: Re: Board Mtg of Jan 12, 2022 esp K-12 Required Covid Vaccine

External Email

Greetings to the Board Members,

I am responding to both the January meeting and the notice in last Sunday's paper for input on the advisability of requiring K-12 Covid Vaccine to attend school in the State of Washington.

I am a grandmother and great grandmother who is blessed with a family that I love and want them to have the best.

My concerns regarding requiring the Covid vaccine are two fold at this point:  
One, this virus has mutated twice now and this last variant seems to be less life threatening, but like a common cold is very contagious no matter one's vaxxed status. If the virus mutates again how will requiring a vaccine developed for the Alpha strain make sense with another variant?. (Yes, I have read that the pharmaceutical companies are striving to create a vaccine that would be effective on current and future variants, but we aren't there yet.)

Next, the studies that have come out of Norway and Israel with a more robust sampling seem to indicate some concern for medical issues with young males. I have also read that some younger women (early to late teens) who get the vaccine have heavier periods than before. I haven't seen a study on this yet and note that young women are often reluctant to share information about their menstrual flows with the medical community. Hence lack of study.

In short, at this point, it would seem best from both a medical and safety standpoint to allow parents and their doctors to decide what's best for their child(ren) regarding getting the Covid vaccine.

Thank you for your time and consideration of this issue. Please know I am praying for the board and the Technical Advisory Committee. You are important to all of us.

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Re: Comment on Proposed Vaccines and Detention Camps for Unvaccinated Washington Residents

(January 7, 2022; 11:30 am)

Dear Board of Health:

Your proposed rule to alter the WAC, so that Washington residents would be forceably vaccinated and detention camps for those who are unvaccinated is outrageous and totally illegal! You do not have the legal authority to force anyone in Washington to take the Covid vaccine and you do not have the authority to force anyone who is not vaccinated into detention camps. See:

<https://komonews.com/news/local/new-lawsuit-challenges-wash-states-face-mask-mandate> and  
<https://www.msn.com/en-us/news/politics/hundreds-join-lawsuit-challenging-washington-s-vaccine-mandate-for-state-healthcare-workers/ar-AAOJ3Ct>

In the retirement area where I live in Olympia, there are about 50 residents who have taken the Covid vaccine. Of these people 18 have already died from the vaccine, and I expect more people to die during this winter from the negative effects of the vaccine in the coming months. This has resulted in a 30 percent death rate in just the last six months.

In Seattle, where Mayor Jenny Durkan has employed the Fire Department to forceably vaccinate all nursing home residents, there is also a thirty+ percent death rate among all nursing home residents, with many thousands of people death, disabled, or dying from the Covid vaccines.

None of the Covid vaccines were tested on humans before they were released for "Emergency Use Authorization", but the Pfizer vaccine was tested on animals, and when they were, all of the animals died as a result.

Scientific studies have documented how dangerous these so called "vaccines" are. For example, a shocking new study reveals covid vaccine terminates 4 out of 5 pregnancies – see:  
<https://www.brighteon.com/89677c54-51e3-4139-9af1-093fe160a3a1> According to this article, "a shocking new study published in the New England Journal of Medicine reveals that when pregnant women are given covid vaccinations during their first or second trimesters, they suffer an 82 percent spontaneous abortion rate, killing 4 out of 5 unborn babies. Out of the 127 women receiving vaccines during their first or second trimesters, 104 spontaneous abortions occurred before their pregnancies hit the 20-week mark. All this means that live births may plummet by 3.2 million over the next year, in the USA alone, if every pregnant woman is vaccinated during the first 20 weeks of pregnancy. The number of unborn babies being murdered in the womb, in this case, is reaching "holocaust" levels, which is why this is being called a medical "atrocitiy."

In Turkey, babies born of parents who have taken the so called “vaccine” are having babies born without normal eye pupils – the babies have black eyes because they do not have any soul, and hence, they have no compassion, no love, and no emotions. See: <https://thebiblefiles.com/2021/10/01/hybrid-transhuman-black-eyed-babies-pandemic-babies/> Other babies from vaccinated parents are being born with dog tails and up to five or six arms and legs, and they resemble octopuses. (See attached picture)

I have enclosed the following list of the following medical and scientific studies, which all indicate that the Covid vaccines are dangerous (see studies below in Appendix A).

In 1917 Rudolf Steiner Foresaw a Vaccine that Would ‘Drive All Inclination Toward Spirituality Out of People’s Souls’ – May 29, 2020 – see: <http://www.renegadetribune.com/in-1917-rudolf-steinerforesaw-a-vaccine-that-would-drive-all-inclination-toward-spirituality-out-of-peoples-souls/> All the Covid vaccines separate the soul from your physical body. The vaccines also shut down all of people’s eight Chakra’s and destroys the pineal gland, so they cease to be human. People who take the vaccines become biological robots, unable to have any compassion. Pfizer is now targeting children with their Covid vaccines so they can not only kill these poor children, but also turn them into biological robots without any compassion, or connection to spirituality or God. Rudolf Steiner wrote, “. . . a way will finally be found to vaccinate bodies so that these bodies will not allow the inclination toward spiritual ideas to develop and all their lives people will believe only in the physical world they perceive with the senses. . . . [P]eople are now vaccinated against consumption, and in the same way they will be vaccinated against any inclination toward spirituality”.

In 2021, according to Nobel Peace Prize Laureate Luc Montagnier stated that all vaccinated people would die within 2 years. Nobel laureate Luc Montagnier has confirmed that there is no chance of survival for people who have received any form of the vaccine. In the shocking interview, the world’s leading virologist stated bluntly: “There is no hope and no possible treatment for those who have already been vaccinated. We must be prepared to cremate the bodies.” The scientific genius backed up the claims of other eminent virologists after studying the ingredients of the vaccine. “They will all die from antibody-dependent enhancement. That is all that can be said.” <https://coe-llc.com/2021/05/22/covid-vaccinated-people-within-2-years/>

In fact, Covid vaccines have now killed more people than the atomic bombing of Hiroshima. See: <https://newslettercollector.com/newsletter/covid-vaccines-have-now-killed-more-people-than-the-atomic-bombing-of-hiroshima/> (Natural News August 9<sup>th</sup>, 2021)

According to the article, “When the US government dropped an atomic bomb on a mostly civilian population of women and children in World War II, it proved that the United States government is willing to commit mass killings of targeted ethnic groups to achieve its strategic goals.

The internment of Japanese Americans in U.S.-based concentration camps is yet another crime against people of Japanese descent, and it proves again that the United States government is ready and willing to throw its own citizens into concentration camps in order to achieve its own strategic aims.

Remember this: If the US government was willing to throw people into war-time concentration camps based on the color of their skin, it is also willing to throw people into covid camps based on the status

of their vaccine passports. Today's feature article and podcast delve into the how covid vaccines have already killed more people than the bombing of Hiroshima, and the world's vaccine zealots are just getting warmed up". See:

<https://newslettercollector.com/newsletter/covid-vaccines-have-now-killed-more-people-than-the-atomic-bombing-of-hiroshima/> (Natural News August 9<sup>th</sup>, 2021)

This is a state where we still have Second Amendment rights, and if you authorize law enforcement to come to the doors of the people who live here to forceably vaccine people (or move them into detention camps), you may be met with force. I want you to know the people of Washington will fight you because most know that these Covid shots are nothing more than an agenda to kill off most people with a depopulation program. It is NOT about health – it is about DEATH and MURDER! And this is what you are really doing if you force people in this state to get the poisonous vaccine. We will fight you. And the people will win.

I have a radio show with over 25 million listeners in over 100+ countries, and I will be sure to discuss your proposal on my next show tomorrow. The name of my show is called "Out of this World Radio" – see: [www.outofthisworldradio.net](http://www.outofthisworldradio.net) If you would like to listen, please go to this link:

<https://bbsradio.com/outofthisworldradio> and click on the purple "Listen Live" button for BBS Radio One at 10 am Pacific Time tomorrow on Saturday, January 8th, 2022. You can also listen to past shows by clicking on the "Archives" at the bottom of the page.

Sincerely,

Ted Mahr

(15) What happens energetically after the Covid vaccination? A message from France - the experiences of a French energetic healer: Natalie Schaevers, [03/23/2021 at 8:39 pm] "The scariest thing was when I was working on the heart chakra, I connected with her soul: it was detached from the physical body, it had no contact and it was, as if it was floating in a state of total confusion: a damage to the consciousness that loses contact with the physical body, i.e. with our biological machine, there is no longer any communication between them ... There was another change, and again a deterioration, both in severity and in the energy that its energy field transmits, but most importantly, there was a very marked decrease in frequency". See: [https://www.reddit.com/r/conspiracy/comments/mvpjd7/what\\_happens\\_energetically\\_after\\_the\\_covid/](https://www.reddit.com/r/conspiracy/comments/mvpjd7/what_happens_energetically_after_the_covid/)

(16) The mRNA vaccines from Pfizer and Moderna completely change your DNA forever to become subservient and to obey government and authority. The vaccines also completely destroy of of your eight Chakras and your pineal gland, destroying your God gene and making it impossible to connect with God and become spiritual. The current plans by Pfizer, Moderna, AstraZenica, and Johnson and Johnson to vaccinate children is an attempt to stop children from becoming spiritual and believing in God or the Supreme Being. The mortality or death rates from these vaccines will ultimately be greater than 50 percent within the next three or four years, with only 15 or 20 percent surviving. Of those who survive, they will be controlled by nanobot technology where they will lose their free will & become robots without any emotion or compassion. This is the future for those who take the vaccine – death (up to 80 percent), and for those who survive, a future where people lose their humanity.

To whom it may concern:

I am a mother of 4, a pediatric nurse and a supporter of the public schools in my neighborhood. It has come to my attention that there is a consideration of adding the latest covid vaccine to the list of required vaccines for school attendance. This is of great concern to me because this vaccine and its side effects have not been properly tested especially on children. It is known that children while just now are testing positive for Covid more often it is a very mild case for 99% of them. It has also been shown that children aren't giving it to adults rather it's the adults giving it to children. Their immune systems are proving to be robust enough to handle it. We do not know or understand the longterm effects this vaccine will have on them. To add it to the list of required vaccines for school attendance seems outrageous! I understand for an illness with my higher percentages of death but for something that is no more than the common cold for these kids it's reckless. Dr Malone who was the inventor of the MRNA technology himself recommends against kids getting vaccinated stating it is dangerous to their growing and developing brains and organs. He wrote a paper and had 16,000 drs worldwide sign it asking for them to not allow these vaccines to be given to kids. He stated it's one thing for adults and the elderly to get the vaccine but it is dangerous for children. Now you are wanting parents to choose whether to risk taking an experimental gene therapy or sending their kids to school. Public school where their tax dollars are going but they won't be able to use them. Public school that guarantees a free and appropriate education to all students regardless. There are children who can't get vaccinated, their are children whose families have religious convictions about vaccines what about those children?? I am asking you to please allow parents the right to choose what is best for their children and do not mandate these vaccines for school attendance in the state of

Washington.

Thank you, Ruth Walker

Dear Washington State Board of Health,

I strongly OPPOSE WAC 246-100 Rulemaking that would expand any authority to involuntarily quarantine individuals.

I also oppose adding a C-19 vaccine to the WAC 246-105 schedule of required vaccines for children to attend school.

Please consider long & hard the ramifications of passing these rules.

Sincerely,

Julie Kongs

To the Washington State Board of Health,

I am writing to you to request you not to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State.

You know that what you are requiring is against the constitution and against science.

You know you are pushing this is against people's will.

You know the Covid-19 vaccine is not a true vaccine and it has caused many injuries in young people and killed many.

And you know that you are still pushing it is for your own benefit!!!!

The blood will be on your hands if you continue participating in this evil. Katie Bachand - Doula - Serving families in birth and Kathleen Bachand

You know the Covid-19 vaccine is not a true vaccine and it has caused many injuries in young people and killed many. And you know that you are still pushing it is for your own benefit!!!! The blood will be on your hands if you continue participating in this evil.

My brother died at the age of 29 from cardiomyopathy. This is one of the biggest side effects of the shots in children. Do you honestly think I can give that to my child knowing that it could kill them? You don't butt in with other parenting things that you should so leave me alone and let me parent my child and choose what is best for my child as I have her whole life. I beg you to stop this.

Thank you,

External Email

Hello, Washington State Board of Health,

I am writing to you to request not to require a Covid-19 Vaccination for children to go to school in Washington State. Enacting such a measure is against the constitution and science. This is against the will of WA state citizens. The Covid-19 vaccine is not a true vaccine and has caused many injuries in young people, and killed many. Do not enact such a measure, a decision to vaccinate school age children should be left up to parents, not an arm of the state.

Thank you.

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Queries to: ricoh@doh.wa.gov

To Whom It May Concern:

Advise to consider in your upcoming COVID-19 actions.

Enclosed are copies of the following:

- \*Comment of Concern in the 41st District of the State of Washington
- \*Notice of Official Misconduct by our Governor Jay Inslee
- \*Notice of Illegal Conduct of Businesses for Breach of Contract and Discrimination
- \*Copy of posted Notice of Detainment
- \*Concerns pertaining to rules being discussed without full disclosure regarding proposed Detainment. Your actions may be emboldened by the EUA that keeps getting extended, but applying temperance would be advisable, because an emergency this is not! Instead this appears as urgency to cover government overreach.
- \*Tread carefully people are taking note...show us you are going to do what's right!

Please distribute a copy as addressed to each of the following:

Thank you!

Concerned in 41st District of the State of Washington

**STOP Immediately!**  
**Informed consent and personal choice for**  
**medical intervention is essential....**  
**NEVER MANDATED!**

*When collaborative efforts masquerade as a noble cause,  
beware the packaged lies and deceit,  
regardless of your awareness!*

NO ONE has the right to impose, coerce or mandate anything, *especially within their body* against their will...EVER!!!!

Please consider the following:

1) This "vaccine" is being ushered in under the Emergency Use Act and has not completed safety trials...any and all deaths and adverse events will fall on all that participate in its administration...regardless of who told you to carry out this program or your financial accountability. Blind trust is not wise!

2) Many are unaware the vaccine product inserts are intentionally left blank therefore, NO ONE administering these products can advise of risks vs. benefits in order to give or obtain informed consent....including doctors, nurses, hospitals or pharmacies. This is the same tactic used by a mafia, gang or any corrupt organization...getting others to carry out their nefarious acts. Don't let a suit, white coat, popular official or their financial status fool you!

3) Ask yourself...Are you engaging in medical rape, potential murder, assault with a deadly weapon, psychological torture and abuse?

Why are these horrors recognized when blatant  
...yet not even considered when the result is delayed or not obvious?

4) Is it more selfish...of an individual to say NO to being the subject of an experiment? Or is the individual demanding you do something to ease their fear, regardless of potential consequences, the selfish one?

5) Choosing a paycheck to provide for your family at the expense of someone else's family will be the boomerang you face!

6) If you have received funds that have strings attached...**return the money!** You will gain respect and support by doing what is right!

Anything that bypasses our natural defense system is invasive and extremely risky.

Fact: medical mandates violate natural law...everywhere!  
Our health is our responsibility not the governments!

Please take time for "CORRECTIVE perception"...question and investigate a deeper causation for the current situation:

Are patients being diagnosed accurately?

Is the diagnostic tool accurate and reliable?

Are treatments adjusted to the patient?

Is the patient treated in a timely fashion?

If diagnostics are great, how would it be wise to treat everyone the same?

What then would be the purpose of a test or consultation of any sort?

What approach would be recommended for someone that has no symptoms?

Some patients have deficits, others have excess...a patient with symptoms is out of balance!

***This is why one size does not fit all....EVER!***

Holding a government position where funds (taxes) are collected to support programs with potential to harm...if uncontested equates your participation!

\* Is the program you're supporting targeting the people you can potentially harm? \* Coercive compliance of anyone by means of detainment for surveillance under the guise of an emergency is beyond

reprehensible! Understand this scenario leaves everyone vulnerable to the force of others...including you!

\* If you do not understand a program...doesn't quite make sense or your gut is uneasy...PAUSE!!! Do not proceed without clarification and clear conscience.

***Do not close a blind eye to this! YOU will be found complicit!***

Final Note: Regardless of your opinion of "vaccines" ... we are currently engaged in the experimental test trials of humans!!! Collateral damage of a test trial is neither safe or effective...it is CRIMINAL!

Concerned in the 41st District of the State of Washington

**MASKS ARE NOT REQUIRED BY LAW AND GOVERNOR JAY INSLEE IS GUILTY OF RCW 9A.80.010 OFFICIAL MISCONDUCT AND 9A.72.020 PERJURY OF HIS RCW 43.01.020 OATH OF OFFICE FOR FRAUDULENTLY ISSUING AN EXECUTIVE ORDER THAT EVERYONE IS REQUIRED TO WEAR A MASK IN VIOLATION OF THE SEPARATION OF POWERS DOCTRINE; WASHINGTON STATE CONSTITUTION, ARTICLE III, SECTION 1; ARTICLE XI, SECTION 5, ARTICLE 1, SECTION 11; RCW 74.09.190; RCW 70.83.020; RCW 28A.210.090; RCW 70.02.270; RCW 43.20.215; 43.70.210; 42 U.S.C. § 1396f**

It is undisputed pursuant to CR 8(d) that the Washington State Legislature has NEVER passed any laws requiring anyone to wear “face masks” in public and it is also undisputed that Governor Jay Inslee has no authority to make any “Face Mask Wearing Laws” on his own authority and therefore, Governor Jay Inslee is guilty of RCW 9A.80.010 Official Misconduct and RCW 9A.72.020 Perjury of his Oath of Office at RCW 43.01.020 for fraudulently issuing an Executive Order requiring everyone to wear a Face Mask in violation of the “Separation of Powers Doctrine”, Washington State Constitution, article III, section 1; article IV, section 1; article XI, section 5; State v. Osloond, 60 Wash. App. 584, at 587, 805 P(2d) 263 (1991); State v. Blilie, 132 Wash.2d 484, 489, 939 P.2d 691 (1997); Carrick v. Locke, 125 Wash.2d 129, 134-35, 882 P.2d 173 (1994); State v. Moreno, 147 Wn.2d 500, 505, 58 P.3d 265 (2002); People v. The Municipal Court for the Ventura Judicial District, 27 Cal. App. 3d 193, 103 Cal. Rptr. 645 (1972); People v. Smith, 53 Cal.App.3d 655 at 660; 126 Cal.Rptr. 195 (1975); In re Petition of Padget, 678 P.2d 870 (Wyo. 1984); Myers v. United States, 272 U.S. 52, 47 S.Ct. 21, 71 L.Ed. 160 (1926).

The constitutional structure of the United States, as well as the State of Washington, requires a tri-partite form of government. This form maintains the independence between the legislative, the executive, and the judicial branch. “If there is a principle in our Constitution, indeed in any free Constitution, it is that which separates the Legislature, Executive, and Judicial powers.” Myers

v. United States, 272 U.S. 52, 47 S.Ct. 21, 71 L.Ed. 160 (1926). This separation of powers and independence of all branches is a “**security for the people**” in the preservation of liberty. Myers, 272 U.S. at 116. **Rule of law is preserved under this system by requiring that the people who make the law differ from those who execute and apply the law.** Myers, 272 U.S. at 123.

Governor Jay Inslee’s fraudulent Order also violates RCW 49.60.030; RCW 49.60.215; Matthew 9:12; Mark 2:17; Luke 5:31, article 1, section 11 of the Washington Constitution and the 1<sup>st</sup> Amendment of the U.S. Constitution and the CrR 1.1 decisional laws of the State of Washington.

“Now when Jesus heard it, he said it unto them, The whole need not the Physician, but they that are sick. **Matthew 9:12; Mark 2:17, and Luke 5:31.** See also **2 Corinthians 3:12 to 3:18.**

“**SECTION 11 RELIGIOUS FREEDOM.** Absolute freedom of conscience in all matters of religious sentiment, belief and worship, shall be guaranteed to every individual, and no one shall be molested or disturbed in person or property on account of religion . . .” **Article 1, section 11 of the Washington Constitution.** See also RCW 43.20.215 and RCW 43.70.210

“Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.” **Amendment 1, U.S. Constitution.**

“Religious beliefs need not be acceptable, logical, consistent, or comprehensible to others in order to merit First Amendment protection. Thomas v. Review Bd., 450 U.S. 707, 714, 67 L. Ed. 2d 624, 101 S. Ct. 1425 (1981). Courts “have nothing to do with determining the reasonableness of the belief.” State ex rel. Bolling v. Superior Court, 16 Wn.2d 373, 384, 133 P.2d 803 (1943) (quoting Barnette v. West Va. Bd. Of Educ., 47 F. Supp. 251, 253 (S.D. W. Va. 1942), *aff’d*, 319 U.S. 624, 147 A.L.R. 674 (1943)). The trial court held that Dr. Backlund’s beliefs are sincere. Dr. Backlund’s beliefs, being sincere, warrant First Amendment protection.” Backlund v. Board of Commissioners, 106 Wn.2d 632, at 640, 724 P.2d 981 (Sept. 1986); Malyon v. Pierce County, 131 Wn.2d 779, at 784-785, 935 P.2d 1272 (April 1997); Perry v. School Dist. No. 81, 54 Wn. (2d) 886, at 897-898 (October 8, 1959); Southcenter Joint Venture v. NDPC, 113 Wn.2d 413, at 438-439, 780 P.2d 1282 (Oct. 1989). Free exercise clause forbids government from adopting laws designed to suppress religious belief or practice. American Life League, Inc. v. Reno, 47 F3d 642 (4th Cir. 1995); Protection of free exercise clause extends to all sincere religious beliefs; courts may not evaluate religious truth. Ferguson v. C.I.R., 921 F2d 588 (5th Cir. 1991).

If Washington Governor Jay Inslee entered or filed any False Proclamation containing any materially false statements in the Office of the Secretary of State as required by RCW 43.06.210, he could be charged with RCW 9A.72.030 Perjury in the second degree, RCW 9A.72.040 False Swearing; RCW 40.16.030 Offering False Instrument for Filing or Record or filing a False Report in violation of RCW 42.20.040. Call Luis Ewing at home office phone: 1 - (360) 335-1322 or cellular phone: 1 - (253) 226-3741 or <[rcwcodebuster@gmail.com](mailto:rcwcodebuster@gmail.com)> or <[rcwcodebuster@aol.com](mailto:rcwcodebuster@aol.com)>

**ALL PRIVATELY OWNED STORES AND BUSINESSES INCLUDING COSTCO HAVE NO LEGAL RIGHT TO REFUSE ACCOMMODATION, ENTRANCE OR SERVICE FOR NOT WEARING A MASK OR FOR REFUSING TO WEAR A MASK PURSUANT TO FEDERAL LAW AS CODIFIED AT 28 CFR § 36.202; 13 CFR § 112.6, AND CAN BE SUED FOR BREACH OF CONTRACT AND RELIGIOUS DISCRIMINATION FOR VIOLATING THE CIVIL RIGHTS ACT OF 1964 UNDER 42 U.S.C. § 1983**

To whom it may concern, no business public or private, including Costco has the Right to Refuse Accommodation, Entrance or Service to anyone for NOT wearing a Mask on the False Premise that they are a privately owned business or membership only. It is undisputed that Costco is . . . **"A STATE LICENSED CORPORATION"** . . . , that was issued . . . **"A FEDERAL TAX ID NUMBER"** . . . , by all the Corporate States in which they reside, therefore, all Costco's are **"Political Subdivisions"** and **"Instrumentalities"** of the State and/or the Corporate United States as contemplated by **"26 U.S.C. 3401(23)(c)."** **COSTCO**, is in fact . . . **"A UNITED STATES CORPORATION"** . . . and . . . **"A PUBLICLY TRADED CORPORATION"** . . . that is listed on the "Nasdaq" Exchange, selling currently at \$356.12/Common Share (As of Wed. Close Feb 10th, 2021). Every Privately Owned Business Signed an Application for a Master Business License Contract and Agreement with the State promising to abide by all State and Federal Laws, which includes the United States Constitution, and all Fifty (50) State Constitutions, and their Equal Protection of the Law Clauses and their Religious Clauses. **THE LICENSE IS A PRIVILEGE!**

It is undisputed that all State Licensed Businesses, whether Public or Private are deemed to be . . . **"PUBLIC ACCOMMODATIONS"** . . . under Federal Law at (CFR) Code of Federal Regulations, at Title 28 - Judicial Administration > CHAPTER 1 - DEPARTMENT OF JUSTICE > PART 36 > NON DISCRIMINATION ON THE BASIS OF DISABILITY BY PUBLIC ACCOMMODATIONS AND IN COMMERCIAL FACILITIES > Subpart B - General

Requirements > § 36.202 Activities.

28 CFR § 36.202, reads:

**“§ 36.202 Activities.**

**(a) Denial of participation. A public accommodation shall not subject an individual or class of individuals on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements, to a denial of the opportunity of the individual or class to participate in or benefit from the goods, services, facilities, privileges, advantages, or accommodations of a place of public accommodation.**

**(b) Participation in unequal benefit. A public accommodation shall not afford an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements, with the opportunity to participate in or benefit from a good, service, facility, privilege, advantage, or accommodation that is not equal to that afforded to other individuals.**

**(c) Separate benefit. A public accommodation shall not provide an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements with a good, service, facility, privilege, advantage, or accommodation that is different or separate from that provided to other individuals, unless such action is necessary to provide the individual or class of individuals with a good, service, facility, privilege, advantage, or accommodation, or other opportunity that is as effective as that provided to others.**

**(d) Individual or class of individuals. For purposes of paragraphs (a) through (c) of this section, the term “individual or class of individuals” refers to the clients or customers of the public accommodation that enters into the contractual, licensing, or other arrangement.” And;**

The United States Supreme Court has held that when a state law conflicts with federal law, that state law is “without effect.” Cipollone v. Liggett Group, Inc., 505 U.S. 504, 516 (1992); M’Culloch v. Maryland, 17 U.S. 316, 427 (1819); In cases where federal preemption is found, **the federal law will supercede the state statute** to the extent necessary to protect the achievement of the aims of the [federal enactment]. Merrill Lynch, Nevada, Fenner & Smith, Inc. v. Ware, 414 U.S. 117, 127, 38 L. Ed. 2d 348, 94 S. Ct. 383 (1973). **Federal regulations (28 CFR § 36.202 and 13 CFR § 112.6), have the same preemptive effect as federal statutes.** Fidelity Fed. Sav. & Loan Ass’n v. de la Cuesta, 458 U.S. 141, 73 L.Ed. 2d 664, 102 S. Ct. 3014, 3022 (1982).

# WA COVID DETAINMENT EMERGENCY

On January 12th at 9:30 AM – 3:30 PM,  
the WA State Board of Health will discuss applying  
current infectious disease WAC codes  
to include Covid-19 for all WA State residents.

See the listed below policies:

1. Allowing local health officers to use law enforcement  
(WAC 246-100-070) to force an emergency order  
to involuntarily detain a person or group of persons (families)  
to be isolated in a quarantine facility (WAC 246-100-045)  
following refusal to voluntarily comply with requests for  
medical examination, testing, treatment, counseling,  
vaccination (WAC 246-100-040).

These specifics come from (WAC 246-100).

2. Including the Covid-19 injections as part of  
school immunization requirements using WAC 246-105.

See description for more information  
and contact info for WA State Board of Health.  
Comments on this must be made by Friday, January 7th at noon.

# Refusal to voluntarily comply?

*Refusal to comply is anything but voluntary!*

Subjecting yourself to medical examination, testing, treatment, counseling, vaccination?

We are not lab rats...whether you agreed to sell us out or not!

If you want to participate in these games to belong to "the club" go ahead, volunteer, sign up...your choice! Submission to psychopaths, sociopaths and others wanting to control, is not only incredibly insecure but results in signing up for your own demise.

Anyone that becomes useful in this scheme will be used! Think about it!

Restriction of anyone from access to food, supplies, holding a job or to engage in activities essential for living...is a lethal game!

If you are part of the scheme to track and prey upon others...BEWARE for a trap is being set for you! That is how predators work.

The twisted logic of the narrative is utterly astounding:

Why would someone with difficulties be great candidates for another obstacle or potential assault to overcome?

Why would you recommend intervention of young children...unless the point is to alter natural development...what kind of sick game is being proposed?

How would any physical exercise I engage in make another person fit?

Would it help a diabetic if I took their insulin?

If someone is dehydrated they need to be rehydrated...you can't do it for them!

If every living thing reproduces...savings and investments should multiply, children grow and learning should increase knowledge and wisdom, plants and trees increase in size producing more. Literally everything living becomes more...Not less!

So exactly what is happening to what should have increased and created surplus beyond our comprehension? Taxes collected (never enough), social security (vanished), stagnant or diminished incomes, deposits of "money" (missing), home values (a manipulated source to create more funds), harvest and seed collections (sterile or stolen), decreased fertility, increased cancer, disabilities, illness, fatigue?

Do you see a common theme? Are those given position inept?

Are they plundering everything they pretend to protect including our very lives?

Effective stewardship applies to everything...optimal health, financial well being, abundance of food, services and supplies...the result should bear the fruit of excellent care!

Food for thought 🍽️

\*\*\*Let's try to entertain the possibility that vaccine passports...a plan in the works...

are meant to replace the fingerprints of our physical body. Between the 14 - 16th week of conception we receive our unique fingerprints which have been recognized through all of history. NO fingerprints are the same!

Is it possible the vaccines are meant to create a new GMO fingerprint read through bio circuitry transmitted to an electronic device? Try to observe the bigger picture of what is going on. All living things harvested to alter humanity..then repackaged and sold back to us as new and improved! Beware these manipulations are patented for financial gain.

Woe to those that want to gain the whole world and lose their very soul!

I think there should be no Covid vaccine mandates for school children. It is still in emergency use, children who get Covid have a 99.995% recovery rate, and the risk of death or adverse reaction. Is higher to the vaccine than it is to Covid. Also parents shouldn't be mandated what should be parental health decisions.

Thank you,

@TylerGMiller

Where are the "journalists"??? Why are you not calling out this hypocrisy??? If the tests are unreliable, then how can we say that we know how many cases we have?

@BrandiKruise @toddeherman @jasonrantz  
@thehoffather @dorimonson @KatieDavisCourt  
@TuckerCarlson

- **"no quantified virus isolates of the 2019-nCoV are currently available"** to begin with a full 124 days after a pandemic is declared according to CDC documents (2 pdf files & a letter see back for source), and over a month before the pandemic is declared a test the "RT-PCR Diagnostic Panel, the assay first introduced in February 2020 for detection of SARS -CoV-2 only"(CDC).

**SEE HOW THAT WORKS: RT-PCR TEST FEB 2020 > PANDEMIC DECLARED MAR 11, 2020 > NO VIRUS ISOLATE JULY 13, 2020.**

- <https://z3news.com/w/video-the-pcr-rt-is-a-process-it-does-not-tell-you-that-you-are-sick-the-late-dr-kary-mullis-nobel-laureate-and-inventor-of-the-pcr-rt/>

The RT-PCR tests is **"misuse"** in a variety of ways pre and post COVID-19 injections:

<https://www.bitchute.com/video/vsKaBsWhC3CQ/>

Kary Mullis (Nobel Peace prize Laureate and

inventor of PCR test) said, **"PCR is a Process.**

**It doesn't tell you that you're sick".**

<https://twitter.com/VolkersBram/status/1388600264576339968>

Bram Volkens  
@VolkersBram

Replying to @AlexBerenson and @CDCgov

rt-PCR is NOT a "test" and cannot be used as such. It is a multiplying machine for pieces of RNA or DNA. SARS-cov-2 does not exist, it is a computer made sequence. Without the abuse of the rt-PCR machine there is no "pandemic".

2:04 PM · May 1, 2021 · Twitter Web App

## New Zealand Doctors Speaking out with Science

Reading the **WHO's case definition document** makes it clear that a confirmed "case" is simply, "a person with a positive Nucleic Acid Amplification Test (NAAT)" (i.e. a positive PCR test). The other test used is the SARS-CoV-2 Antigen-RDT, is tied to the PCR and has zero established diagnostic specificity regarding a clinical condition known as "COVID-19. It must be kept in mind that indirect molecular detection tests do not require the presence of a virus or any infectious agent to be "positive".

Updated CDC Guidance for Specimen Submission for Surveillance of SARS-CoV-2

Thank you for your continued participation, support, and ongoing public health service in the National SARS-CoV-2 Strain Surveillance (NS3) System.

Appendix 1: National SARS-CoV-2 Strain Surveillance (NS3) Submissions to CDC for SARS-CoV-2 Positive Specimens

5. Considerations for selecting NS3 specimens:

- The quality of the specimen directly affects sequencing and virus culture success. Ideally, specimens should have an RT-PCR Ct value of ≤28. If Ct values are not available, specimens that are positive/strong positive for SARS-CoV-2 may be sent (avoid weakly positive samples).

Section 3. Enhanced Surveillance - Potential Vaccine Breakthroughs (Updated 4/7/2021)

ES21-04 Vaccine Breakthroughs

CDC is currently defining suspect vaccine breakthrough cases as a U.S. resident who has SARS-CoV-2 RNA or antigen detected on a respiratory specimen collected ≥ 14 days after completing the full series of an FDA-authorized SARS-CoV-2 vaccine (e.g., two doses of the Moderna or Pfizer vaccine, one dose of Johnson and Johnson vaccine). Acceptable specimens are the same as those listed above in Appendix 1.

A case will be excluded from further investigation if: 1) the patient received a COVID-19 vaccine that is not authorized by FDA; 2) the respiratory specimen that was positive for SARS-CoV-2 RNA or antigen was collected < 14 days after completing vaccination; or 3) the patient had a previous positive test for SARS-CoV-2 RNA or antigen on a specimen collected < 45 days prior to the most recent positive test and prior to vaccination or < 14 days after completing the full vaccination series.

1. On Monday, January 25, 2021, CDC began accepting potential vaccine breakthrough specimens based on the guidance below.

Hey Jay, we know that you know that we know:

- no virus isolate (in itself), and inadequate test means there was/is no pandemic
- the tests was/is never about health
- it is not too late to do the right thing, and don't want to be like your friends Bill (didn't go quickly), Andrew, and Gavin at realrawnews.com
- "nothing can stop what is coming". NOTHING.

**Hey Gov. Jay Inslee, we are sure that you know that we surely know that:**

- masks don't work (A. Fauci, the box, and real science clearly state so)
- masks may contain graphene oxide
- masks may contain ethylene oxide, and what it can do to you (cancers)

From: Fauci, Anthony (NIH/NIAD) [E]  
Sent: Wed, 5 Feb 2020 03:48:11 +0300  
To: Sylvia Burwell  
Subject: RE: A couple of quick questions.

Sylvia:

Masks are really for infected people to prevent them from spreading infection to people who are not infected rather than protecting uninfected people from acquiring infection. The typical mask you buy in the drug store is not really effective in keeping out virus, which is small enough to pass through the material. It might, however, provide some slight benefit in keep out gross droplets if someone coughs or sneezes on you. I do not recommend that you wear a mask, particularly since you are going to a very low risk location. Your instincts are correct, money is best spent on medical countermeasures such as diagnostics and vaccines.

Safe travels.

Best regards,

Tony

**Graphene Oxide has now been confirmed to be found in masks.**

<https://www.cancer.gov/about-cancer/causes-prevention/risk/substances/ethylene-oxide>

### **What is ethylene oxide?**

At room temperature, ethylene oxide is a flammable colorless gas with a sweet odor. It is used primarily to produce other chemicals, including antifreeze. In smaller amounts, ethylene oxide is used as a pesticide and a sterilizing agent. **The ability of ethylene oxide to damage DNA makes it an effective sterilizing agent but also accounts for its cancer-causing activity.**

### **How are people exposed to ethylene oxide?**

The **primary routes of human exposure** to ethylene oxide are **inhalation** and **ingestion**, which may occur through occupational, consumer, or environmental exposure.

**The general population may also be exposed through tobacco smoke and the use of products that have been sterilized with ethylene oxide, such as medical products, cosmetics, and beekeeping equipment.**

Washington State Board of Health – Technical Advisory Group  
PO Box 47990  
Olympia, WA 98507-7990  
[wsboh@sboh.wa.gov](mailto:wsboh@sboh.wa.gov)

Dear Washington State Board of Health Board - Technical Advisory Group Members

This letter is to express my strong opposition to inconceivable thought of adding Covid-19 to Washington State's list of required immunizations for school entry.

As of date, FDA has not approved the Covid-19 vaccinations for adults much less for children ages 5-11. More and more research is coming out revealing the dangerous effect of this vaccine. Per the CDC & FDA sponsored VAERS (Vaccine Adverse Event Reporting System) reports, as of Dec 24, 2021, there have been over 1,000,277 adverse events reported following injection with Covid-19 vaccines. These vaccines cause multiple reactions from deaths, myocarditis/pericarditis, miscarriages, heart attacks, to Bell's Palsy and permanent disabilities. You can verify this on a VAERS website <https://openvaers.com/covid-data>. If this is what is happening to adults, what will happen to children?

Dr. Robert Malone invented the mRNA technology, which has been used to create the Pfizer and Moderna COVID vaccines. He has been speaking out about the dangers of the COVID shot, such as the damages the Corona-virus spike protein causes in the body. Dr. Robert Malone calls for a stop of COVID vaccines. He explains that the COVID vaccine can cause enhanced immune response, which creates a worse reaction when exposed to the natural corona-virus. He says that it can create autoimmunities in the the body. Dr. Robert Malone also that the spike protein is the most dangerous part of the virus (which is in the COVID vaccine) is similar to spike proteins in our bodies, and can open up (not just pass through) the blood brain barrier. This has very dangerous implications for the human body, and why there have been so many adverse reactions to the COVID vaccine. Please take the time to listen the interview with Dr. Robert Malone: [thehighwire.com/videos/mrna-vaccine-inventor-calls-for-stop-of-covid-vax/](https://thehighwire.com/videos/mrna-vaccine-inventor-calls-for-stop-of-covid-vax/)

Other well know researchers and experts in their field of science are Dr. Sherri Tenpenny- Osteopathic PHD, Dr. Simone Gold-PHD/lawyer, Dr Peter McCullough-American Cardiologist.

You, as the advisory group to Washington State Board of Health, have a tremendous responsibility to review all facts affecting our children in the school system. Please review and do your own research in order to make well-informed recommendations to the Washington State Board of Health.

As I have done my own research, I strongly urge you not to include the Covid-19 vaccine as a requirement with the other standard school vaccines.

External Email

I am asking you to NOT put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. What you are requiring is against the Constitution and against science. This goes against the people's will. The Covid-19 vaccine is experimental and there are reports of injuries and deaths. The covid vaccines are not approved by the FDA, and therefore no government or state agency or actor can mandate it. Also, children under the age of 18 have a 99.995% survival rate from covid. Since children have a higher chance of death or bad reactions to the covid vaccines than getting covid itself, you are intentionally ruining lives by knowingly injuring or murdering them by making this into a requirement.

Sincerely,

Elaina Chin

Hello,

I am writing in regards to the new change for high-impact indoor sports. The testing requirement has been removed because it required too many tests. But it was replaced with the requirement to wear masks during practice?! Masks for children during the day are abusive enough but during physical activity?

Studies have been performed and published in 2020 demonstrating markedly increased levels of carbon dioxide inside masks (400% increase) and a decrease in oxygen levels seen in a second study published this year while wearing masks. There have also been reports of athletes collapsing on the sports fields because of these pathophysiologic changes.

The health and future of Washington state's children is in your hands. Do the right thing and remove these mask mandates!

External Email

I am writing to you to request you not to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. You know that what you are requiring is against the constitution and against science. You know you are pushing this is against people's will. You know the Covid-19 vaccine is not a true vaccine and it has caused many injuries in young people and killed many. And you know that you are still pushing it is for your own benefit!!!! The blood will be on your hands if you continue participating in this evil.

I am writing you as a mother of three school-aged (elementary) children. Since the shots were for covid were made available, only 20% of elementary aged children have been vaccinated. This should speak volumes. We do not want this vaccine for our children as it is only approved for emergency use and we do not know the long term effects.

If this "vaccine" is added to the school immunization schedule, we will be pulling our two elementary children from Wa state public schools and we will not enroll our third child into kindergarten.

Respectfully,

Lori VanRoeyen

When is someone going to acknowledge what is happening in the VAERS system? And don't hide behind the excuse that it is raw uncollated data so it is invalid...

When we have averaged 30K reports and 137 deaths PER YEAR for 30 years and only one variable is changed(covid MRNA therapy) and have a literal explosion in death and serious injury reports, that "raw data" becomes extremely significant.

This therapy has not been studied thoroughly enough and nothing is known about the long-term ramifications. Based on some of them I would hazard a guess that the treatment would kill more healthy kids than the virus...

Then there is the issue of efficacy. This treatment has done NOTHING to halt the spread of this virus and as demonstrated worldwide, has virtually no effect whatsoever on Omicron, even amongst quadruple vaxxed Israel. You would be more effective placing "virus free zone" signs at all school entrances...

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

REFUSE to make COVID vaccinations/shots mandatory for children of Washington State for childcare and school admission. Due to the following reasons:

1. COVID vaccines remain under Emergency Use Authorization
2. Children under the age of 18 have a 99.995% survival rate from COVID infection
3. Children have a higher chance of death or adverse reaction to COVID vaccines than COVID-19

Do the right thing drop the mandate vax idea. Lawsuits will be filed if you try to force children to get the jab.

Dear Mr. Thai,

Thanks for the great SBOH Technical Advisory Group meeting on 1/12/2022.

After the meeting, I notice SBOH put out a survey at:

[https://forms.office.com/Pages/ResponsePage.aspx?id=F-](https://forms.office.com/Pages/ResponsePage.aspx?id=F-LQEU4mCkCLOFfcwSfXLT2Pur8KuHhPgr4pnygk7IxUQklaTUhYTVBXNUdJOTQ3TFpQRlpCOUdCRC4u)

[LQEU4mCkCLOFfcwSfXLT2Pur8KuHhPgr4pnygk7IxUQklaTUhYTVBXNUdJOTQ3TFpQRlpCOUdCRC4u](https://forms.office.com/Pages/ResponsePage.aspx?id=F-LQEU4mCkCLOFfcwSfXLT2Pur8KuHhPgr4pnygk7IxUQklaTUhYTVBXNUdJOTQ3TFpQRlpCOUdCRC4u)

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fforms.office.com%2FPages%2FRe-LQEU4mCkCLOFfcwSfXLT2Pur8KuHhPgr4pnygk7IxUQklaTUhYTVBXNUdJOTQ3TFpQRlpCOUdCRC4u&data=04>

in an effort to continue collecting public comments, which is also great.

However, it has come to my attention that a Chinese anti-vaxxer has been organizing a flooding of fake data against the survey in an effort to mislead the health opinions of the general public to try to influence the public policy maker.

This person's online Telegram name is: □□□□, and he is agitating all his 12.2k followers all around the world to storm this survey with anti-vaxxing responses in order to cause WA BOH to make ill-formed decisions.

According to the published public comments, I notice this person also sent several emails to you before the 1/12 meeting:

From: rudolphwest17

Sent: 12/28/2021 11:39:43 PM

Subject: Attention: Please do not add Covid19 vaccine to "required" list of child vaccination

From: rudolphwest17 <[rudolphwest17@protonmail.com](mailto:rudolphwest17@protonmail.com)

)

And I would try to translate it for you:

1/21 In the evil state of Washington, last week, the Board of Health failed to include "Use law enforcement to detain the unvaccinated" and "vaccination mandate in school" in their agenda. But they would not accept their failure. They know there are all kinds of left-wing White, Black, Yellow, Spanish here, so they put out an online survey, in an effort to support their "adding COVID-19 vaccine as a requirement for school entry" proposal.

NO MATTER WHERE YOU ARE, I want you to help me fill this out which can be done in just 1 minute. Your small effort will help me bring debacle to these evil fake health officials' attempt to harm my children. Join us, let your voice be your weapon.

As far as the first question is concerned, just use "Washington School District".

Obviously, he is encouraging 12k people, many of whom are not even living in the US, let alone WA state residents, to flood the survey with faked WA residents data, which obviously pose a serious threat to the public health of the community and commit a

crime. In the screenshot, you can also see he is openly asking people (including non-US citizens) to submit the survey more than once and in vulgar languages.

In particular, his agitation scheme to sway health official opinions could result in tremendous health risk consequences to the millions of children in Washington state.

Please ask the appropriate department to step in, investigate and defeat this egregious cyber attack! At the minimum, denounce such fraud in your next public meeting with this evidence.

Thanks to you for keeping the Washington state communities and children healthy!

Zhouzi

---

No elementary school covid vaccine mandates. This is an experimental rushed medication that does not have verifiable efficacy. Mandating this on developing children is criminal. And you need to have public hearing on this. This is not your decision to make alone. I didn't elect any of the current appointed health authorities. Enough is enough.

Copied from a Nurse.

"Among all the vaccines I have known in my life (diphtheria, tetanus, measles, rubella, chickenpox, hepatitis, meningitis and tuberculosis), I want to also add flu and pneumonia. I have never seen a vaccine that forced me to wear a mask and maintain my social distance, even when you are fully vaccinated. I had never heard of a vaccine that spreads the virus even after vaccination. I had

never heard of rewards, discounts, incentives to get vaccinated. I never saw discrimination for those who didn't. If you haven't been vaccinated no one has tried to make you feel like a bad person. I have never seen a vaccine that threatens the relationship between family, colleagues and friends. I have never seen a vaccine used to threaten livelihoods, work or

school. I have never seen a vaccine that would allow a 12-year-old to override parental consent. After all the vaccines I listed above, I have never seen a vaccine like this one, which discriminates, divides and judges society as it is. And as the social fabric tightens... It's a powerful vaccine! It does all these things except IMMUNIZATION. If we still need a booster dose after we are fully vaccinated, and we still need to get a negative test after we are fully vaccinated, and we still need to wear a mask after we are fully vaccinated, and still be hospitalized after we have been fully vaccinated, it will likely come to "It's time for us to admit that we've been completely deceived."

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

## DECLARATION, CEASE AND DESIST AND NOTICE OF LIABILITY

### **WORLD COUNCIL FOR HEALTH CALLS FOR AN IMMEDIATE STOP TO THE COVID-19 EXPERIMENTAL "VACCINES"**

#### **A. CONSENSUS OF WORLD'S FOREMOST EXPERTS**

Globally renowned experts, including Dr. Paul Alexander, Dr. Byram Bridle, Dr. Geert Vanden Bossche, Prof. Dolores Cahill, and Drs. Sucharit Bhakdi, Ryan Cole, Richard Fleming, Robert W. Malone, Peter McCullough, Mark Trozzi, Michael Yeadon, Wolfgang Wodarg, and Vladimir Zelenko, among many others, consistently warn the world about the adverse effects resulting from Covid-19 experimental injections; they also warn about their long-term effects, which cannot be known at this time since most clinical trials will be not completed until 2023, and some as late as 2025.

In June 2021, Dr. Tess Lawrie, co-founder of the World Council for Health and member of the Council's Steering Committee, courageously described the global crisis and called for urgent action: *"There is now more than enough evidence on the [UK] Yellow Card system to declare the COVID-19 vaccines unsafe for use in humans. Preparation should be made to scale up humanitarian efforts to assist those harmed by the COVID-19 vaccines and to anticipate and ameliorate medium to longer term effects."*

#### **B. DECLARATION**

The World Council for Health declares that it is time to put an end to this humanitarian crisis. Further, the Council also declares that any direct or indirect involvement in the manufacturing, distribution, administration and promotion of these injections violates basic principles of common law, constitutional law and natural justice, as well as the Nuremberg Code, the Helsinki Declaration, and other international treaties.

#### **C. UNCENSORED FACTS**

We now know that children are over one hundred times more likely to die from these experimental injections than Covid-19. Injected athletes, globally, are collapsing before our very eyes. In spite of the fact that reporting systems are limited and passive, millions of adverse effects have been recorded, which include death, paralysis, blood clots, strokes,

myocarditis, pericarditis, heart attacks, spontaneous miscarriage, chronic fatigue and extreme depression.

See: <https://coronavirus-yellowcard.mhra.gov.uk/>

See: <https://vaers.hhs.gov/>

See: <https://www.ema.europa.eu/en/human-regulatory/research-development/pharmacovigilance/eudravigilance>

See: <http://www.vigiaccess.org/> (search covid-19 vaccine)

#### D. VICTIM TESTIMONIES

The World Council for Health acknowledges and respects the experiences and testimony of the victims of this worldwide medical experiment. We also declare and confirm that safe, effective and affordable treatments for Covid-19 exist and should be made available to all who need them.

See: <https://www.wewanttobeheard.com/>

See: <https://nomoresilence.world/>

See: <https://www.vaxtestimonies.org/en/>

#### E. NOT SAFE, NOT EFFECTIVE

Recent studies confirm the risks associated with Covid-19 experimental injections. Emerging research establishes that the injections are neither safe nor effective, and, in fact, are toxic. While some of the known ingredients of the injections cause biological harm, it is even more concerning that the unknown and undisclosed ingredients may present an even greater threat to human health.

#### F. CEASE AND DESIST

The World Council for Health is ethically and lawfully bound to issue this Declaration, demanding that governments and corporations cease and desist from direct or indirect participation in the manufacturing, distribution, administration or promotion of Covid-19 experimental injections.

The Council declares that every living man and woman has a moral and legal duty to take immediate and decisive action to halt this unprecedented medical experiment, which continues to cause unnecessary and immeasurable harm.

**G. NOTICE OF LIABILITY**

The right of bodily integrity and the right to informed consent are inalienable and universal human rights, which have been trampled by government mandates and corporate imperatives. Thus, the World Council for Health declares that any person or organization directly or indirectly participating in the manufacturing, distribution, administration or promotion of Covid-19 experimental biologics will be held liable for the violation of principles of justice grounded in civil, criminal, constitutional and natural law, as well as international treaties.

Dear Board of Health,

I'd like to let you know that as a mother of school age children, I do not agree with mandating the Covid vaccine for children in order to attend school.

That should be left up to the parents.

Thank you,  
Megan Nichols  
Arlington, WA

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Re: COVID-19 Vaccine Mandate  
K-12 Public School Students

Dear Governor Inslee and Washington State Board of Health,

The Mead School District Board of Directors wrote to you on August 19, 2021, and requested transparency and metrics for local decision making around COVID related to mask mandates. Under threat of losing state funding, we indicated we would comply with the mask mandate even though a large majority of our community disagreed with the mandate.

To date, our request for metrics has received no response. It remains unclear whether such metrics simply do not exist, or the State has elected to not share them with its citizens. Either case is problematic and prompts great concern now that even more impactful decisions are being made/considered regarding vaccination requirements for K-12 public school students.

This brings us to the current discussion regarding the possibility of a vaccine requirement for school children ages 5 and up. To be clear, a vaccination requirement for K-12 public school students would be devastating for the Mead School District.

First, the COVID-19 vaccine mandate clearly does not pass the State Board of Health's nine criteria required when Reviewing Antigens for Potential Inclusion in WAC 246-105-030. We do not take issue with the vaccine itself, and in fact continue to support vaccination in our community. Our lack of support for the mandate stems from the following not being met under Section II and Section III on the list of required criteria:

II. Disease Burden Criteria

5. The vaccine containing this antigen prevents disease(s) that has significant morbidity and/or mortality in at least some subset of the population.

***The vaccine has been directly available to every vulnerable subset of the population for some time.***

6. Vaccinating against this disease reduces the risk of person-to-person transmission, with transmission in a school or childcare setting or activity being given the highest priority.

***It is widely proven that vaccinated individuals can and do continue to transmit the virus. We know this because this was the science used to justify mask mandates. Masks are mandated in schools already, regardless of vaccination status, to prevent the vaccinated from transmitting the virus.***

### III. Implementation of the Criteria

7. The vaccine containing this antigen is acceptable to the medical community and the public.

***While the vaccine may be acceptable to the medical community (although we will note that even within the medical community the vaccine adoption rate was not acceptable enough to preclude a forced mandate), we cannot gloss over the fact that public acceptance does not even represent a strong majority.***

- ***Under 51% of Spokane County residents are vaccinated. (srdc.org)***
- ***Less than 40% of children ages 12-17 are vaccinated. (srdc.org)***
- ***Only 36% of the entire black community in Spokane County is vaccinated and it is reasonable to assume this number is far lower among children ages 12-17. A vaccine mandate in schools would disproportionately affect students of color in our community. (srdc.org)***

8. The administrative burdens of delivery and tracking of vaccine containing this antigen are reasonable.

***Our administrators and nurses have already provided feedback that a vaccine mandate for K-12 public school students would create an unreasonable and insurmountable administrative burden.***

9. The burden of compliance for the vaccine containing this antigen is reasonable for the parent/caregiver.

***As stated above (vaccination statistics), parents are choosing not to vaccinate their children. Forcing them to do so (as with other segments of our society who were forced under the threat of losing their jobs and livelihoods) does not fall within a reasonable burden of compliance. It does not seem logical to vaccinate a group (ages 0-19) with such a low, even insignificant, rate of hospitalization or***

***death, while claiming that will protect a more vulnerable group (ages 50-90) with a dramatically higher rate of vaccination (62%-82% based on age). It defies logic that our state would propose forcing vaccination on those who do not need it to protect those who are already vaccinated or could easily become vaccinated.***

***The vaccine is now widely available to any age group. Vaccination rates reflect individual health choices that must be protected. We must recognize that individuals have the right make their own health decisions for themselves and their families. There simply is not a case to be made for forcing someone to get vaccinated to protect someone else who can easily get vaccinated themselves.***

Second, a COVID-19 vaccine mandate for school age children, without an exemption for personal reasons, would result in irreparably broken trust - trust that is essential between a community and its public schools. While education can be a great equalizer, a COVID-19 vaccine mandate will further breed distrust and diminish support for our institutions, negating our equalization efforts.

Trust in our public schools is already severely strained. Since the very beginning of the pandemic state regulations have been mandated, placing much of the burden for communication, implementation and enforcement entirely on principals, teachers, staff, administrators and local school boards. Thus, school boards and administrators have been left to manage the very real frustrations of large portions of our public. This has taken time and focus away from our critical mission of serving students and supporting teachers and staff.

Further, a vaccine mandate, in addition to resulting in decreased enrollment, will further erode public trust and undoubtedly lead to the community refusing to support local levies. The resulting lack of trust and loss of support from taxpayers will do far more harm to our ability to educate and meet the needs of students than the threat COVID-19 poses.

***We've surveyed our Mead School District community and asked the following four questions. There were 2,978 responses. Here are the results***

Are you in favor of a COVID Vaccine requirement for children ages 5 and up to attend school?

**ANSWER CHOICES**

**RESPONSES**

Yes	25.35% 755
No	70.01% 2,085
Unsure at this time	4.63% 138
TOTAL	2,978

If the Governor mandates that children 5 and up must be vaccinated to attend school, will you vaccinate your children?

**ANSWER CHOICES**

**RESPONSES**

Yes	31.81% 947
No	61.00% 1,816
Unsure at this time	7.19% 214
TOTAL	2,977

If the mandate includes an exemption process, will you seek to obtain an exemption for your child?

**ANSWER CHOICES**

**RESPONSES**

Yes	49.11% 1,462
No	37.99% 1,131
Unsure at this time	12.90% 384
TOTAL	2,977

If there is a vaccine mandate for students, what will be your course of action?

ANSWER CHOICES	RESPONSES
I will vaccinate my student(s) in accordance with the mandate.	31.85% 948
I will seek an exemption from the vaccine mandate in order to keep my student(s) in the Mead School District.	11.73% 349
If there is no exemption process from the vaccine mandate, I will still not vaccinate my student(s) even if this means withdrawing from Mead Schools.	50.60% 1,506
Unsure at this time	5.81% 173
TOTAL	2,976

***Therefore, as the elected representative voice in our community, we support vaccination but stand firmly against a COVID-19 vaccine requirement for K-12 public school children.***

However, should the State Board of Health decide to move forward and create a supportive structure for public schools, we respectfully request the following:

1. Engage the public in a transparent and coherent manner by clearly reinforcing that the authority over these mandates lies with the state. Additionally, clearly inform the public on how they can engage with the correct decision makers in these matters.
2. Maintain the medical, religious and personal exemptions with regard to any COVID-19 vaccination requirement. It is essential that we honor the voices of our parents.
3. Clearly identify what benchmarks must be met to end universal masking in schools/classrooms.

In the Mead School District, we believe it is critically important to provide safe, in-person instruction for our students. We want to return to the business of educating our students in the safest and most effective manner. Our student, our educators and our community need your support to make that happen.

In conclusion, as the representative voice in the Mead School District community, we support vaccination, but stand firmly against a COVID-19 vaccine requirement for K-12 public school children.

Sincerely,

Mead School District Board of Directors

As the original covid 19 and Delta variants are not dominant and the Omicron variant does not pose the same risk to children, a vaccine mandate at this time is not warranted, as vaccines are readily available and those who are at risk can take the same action as they would during flu season.

The vaccines do in fact pose risk as well, and unlike the original and Delta, the risk of Omicron vs taking the vaccine for some, is not overwhelming enough to impose a mandate.

The fear of a new variant that does not yet exist does not warrant a mandate.

Vaccines come with side effects and risk. Please remember this when considering the real risk of omicron in children, most of whom are vaccinated or previously infected at this point.

Today is not two years ago, thank goodness.

Lynette Rennalls  
Parent

Subject: Washington state COVID Isolation Policy

External Email

To Whom it may concern,

Request a copy of the state of Washington's mandatory isolation policy, which I was told was signed into law by Governor Inslee.

I ask because My daughter was forced to take 14 days off from her schooling because she is not vaccinated and came into contact with a vaccinated person who tested Positive for Covid.

I find it odd that my daughter was not given the opportunity to show a negative Covid test and was automatically placed on a 14 day leave of absence, while the actual person who has covid only had to isolate for 5 days before being allowed back into the classroom because she is vaccinated.

According to the School, they are following Washington State Policy.

Respectfully request a copy of the state guidance the school stated it was following.

Assistance Greatly appreciated

Very Respectfully,

Jim

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Intro: Steve Kirsch is a former high tech executive from Silicon Valley who left his job in order to devote full time to fighting the mandates.

Hi. I'm Steve.

I am not a doctor. I'm worse. I'm an engineer with two degrees from MIT.

I look at data. I make decisions based on what the data says, not on what people tell me to think.

After 3 relatives of a friend of mine died right after being vaccinated, I started looking at the data from the clinical trials, from studies, from the government, and from doctors.

What the data said was troubling. Very troubling.

First of all, this entire pandemic was completely avoidable.

We had an early treatment protocol in March of 2020 developed by George Fareed and Brian Tyson. Nobody dies on their protocol if they get treated early. Zero. And only a few people got hospitalized. Yet today, the NIH is saying nothing about this protocol.

That is ridiculous. If they are going to mandate anything, they should mandate you get this protocol if you get COVID. But they don't. Instead, doctors can have their licenses revoked if they prescribe early treatment drugs like ivermectin and flu

We don't need masks, we don't need vaccines, we don't need mandates, and we don't need lockdowns. We never did.

What we need to do is to start listening to the doctors who have treated thousands of COVID cases with no deaths. Is that too much to ask?

But the NIH refused to listen to these doctors. And instead, they focused on the creation of a vaccine which the evidence shows is making things worse. Much worse. COVID cases are at an all time high.

We are being mandated to take a vaccine for a societal benefit without ever being shown the risk-benefit analysis.

There is a reason for that. The benefit is negative. According to over 12 studies, the vaccines are killing at least 15 people for every life that the vaccines were projected to save. And we are permanently disabling even more. For kids, I've seen a risk benefit analysis showing we kill over 100 kids to save 1 kid from COVID.

NOBODY has the right to MANDATE that I must risk my life to save other people I don't know. That's unethical and immoral. I would not voluntarily choose to deprive my kids of their father.

NOBODY has the right to mandate that I take a vaccine which is likely to double my chances of being infected. The data now coming out of the UK and Scotland clearly shows this. In Study after study, the more you vaccinate, the more likely you are to be infected. Precisely the opposite of what we were told.

This is why Boris Johnson in UK recently dropped all COVID restrictions. "We will trust the judgment of the English people." he said. Finally.

Why can't we do that here?

People look to their doctors for advice on whether to take the vaccine. But doctors cannot speak the truth. If they do, they will have their licenses revoked for spreading misinformation. So they remain silent. This isn't about what is best for patients. This is about silencing trusted professionals through intimidation tactics. That's wrong.

The other thing that I found particularly troubling was the lack of transparency and accountability.

Nobody at the CDC, FDA, or NIH wanted to answer any of my questions on camera.

My member of Congress is Anna Eshoo. She refuses to meet with me or answer any of

my questions. Not a single person in Congress who I have supported over the years will answer a single question I have.

So I offered \$1M to the members of the outside committees of the FDA and CDC if they would meet with me just so I could ask a few questions on camera. They all refused.

I've published my questions

on my substack: [stevekirsch.substack.com](https://stevekirsch.substack.com). I hope that you will go there and read the list. Ask your school boards, your member of congress, and your state legislators. Demand answers.

I'd like to share just a few of my questions with you today. If you like these questions, you'll like the list of questions

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2F2HbjczSf0k9VJ5eZ-zCPeUT7OnguQ1Rjx3MBGeZQVEyOQOkMfgjdRaacEZ8UZ4pqUmoYxzBthsWA3mA8h-TGtwFkOK7w-hOynIYmzvwnh7mfRM-U0MKmlddqpIXmq-WVsDx8gOjDwA\\_IMEqhFsS93LqPG\\_-sVbBKj5CLW9pyTAWte7QubVXaazNKM-8Dysu\\_NLjA2fgUsXnaOjA1NpZnDRQMp5xTxjvWCSWGlrDcyEkxOrNJAdWTb7W1w5ea003Q7c7\\_mZF5XCekqNfa3Zx7q3IwY8R4h2WsFfWPCi-wY13iFCrtT9aNGwXvBBYH6QvdAXhcpNKKmo7gWptj7Vr2j-JP8F0kaS4g&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C8b17f3308c8640cc916908d9de8ed6f5%7C11](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2F2HbjczSf0k9VJ5eZ-zCPeUT7OnguQ1Rjx3MBGeZQVEyOQOkMfgjdRaacEZ8UZ4pqUmoYxzBthsWA3mA8h-TGtwFkOK7w-hOynIYmzvwnh7mfRM-U0MKmlddqpIXmq-WVsDx8gOjDwA_IMEqhFsS93LqPG_-sVbBKj5CLW9pyTAWte7QubVXaazNKM-8Dysu_NLjA2fgUsXnaOjA1NpZnDRQMp5xTxjvWCSWGlrDcyEkxOrNJAdWTb7W1w5ea003Q7c7_mZF5XCekqNfa3Zx7q3IwY8R4h2WsFfWPCi-wY13iFCrtT9aNGwXvBBYH6QvdAXhcpNKKmo7gWptj7Vr2j-JP8F0kaS4g&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C8b17f3308c8640cc916908d9de8ed6f5%7C11)>  
on my substack even more.

1. There are over 9 studies that show the vaccines make it MORE likely (not less likely) you'll be infected from COVID. Did they make a mistake in all 9 studies?
2. My neurologist has 20,000 patients and 2,000 vaccine injured. She's been in practice for 11 years w/o a vaccine injury. This vaccine is over 20,000X worse than other vaccines. If the vaccine is so safe, how do you explain a 10% injury rate?
3. There are now over 1M adverse events reported in the VAERS system. Using CDC's methodology, we know VAERS is ~40x underreported. That's 40M adverse events and > 5,000 conditions that are significantly elevated. How can the CDC not spot a single safety signal (other than myocarditis)?
4. Maddie de Garay was injured in the Pfizer phase 3 trial. She's paralyzed. why didn't the FDA investigate? That's clinical trial fraud. Why aren't we telling people that based on the clinical trial, there is a 1 chance in 1,000 your child could be paralyzed too?
5. If the vaccines are safe and effective, then why do the manufacturers need liability protection?
6. If the vaccines are so safe, Why aren't any of the organizations that mandate vaccines accepting liability?

Nobody wants to answer any of these questions. I have over 100 on my substack

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2F2HbjczSf0k9VJ5eZ-zCPeUT7OnguQ1Rjx3MBGeZQVEyOQOkMfgjdRaacEZ8UZ4pqUmoYxzBthsWA3mA8h-TGtwFkOK7w-hOynIYmzvwnh7mfRM-U0MKmlddqpIXmq-WVsDx8gOjDwA\\_IMEqhFsS93LqPG\\_-sVbBKj5CLW9pyTAWte7QubVXaazNKM-8Dysu\\_NLjA2fgUsXnaOjA1NpZnDRQMp5xTxjvWCSWGlrDcyEkxOrNJAdWTb7W1w5ea003Q7c7\\_mZF5XCekqNfa3Zx7q3IwY8R4h2WsFfWPCi-wY13iFCrtT9aNGwXvBBYH6QvdAXhcpNKKmo7gWptj7Vr2j-JP8F0kaS4g&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C8b17f3308c8640cc916908d9de8ed6f5%7C11](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2F2HbjczSf0k9VJ5eZ-zCPeUT7OnguQ1Rjx3MBGeZQVEyOQOkMfgjdRaacEZ8UZ4pqUmoYxzBthsWA3mA8h-TGtwFkOK7w-hOynIYmzvwnh7mfRM-U0MKmlddqpIXmq-WVsDx8gOjDwA_IMEqhFsS93LqPG_-sVbBKj5CLW9pyTAWte7QubVXaazNKM-8Dysu_NLjA2fgUsXnaOjA1NpZnDRQMp5xTxjvWCSWGlrDcyEkxOrNJAdWTb7W1w5ea003Q7c7_mZF5XCekqNfa3Zx7q3IwY8R4h2WsFfWPCi-wY13iFCrtT9aNGwXvBBYH6QvdAXhcpNKKmo7gWptj7Vr2j-JP8F0kaS4g&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C8b17f3308c8640cc916908d9de8ed6f5%7C11)>

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

9.

Do you have any special expertise relevant to this topic?

2. No

10.

Are you testifying on a specific proposal under consideration by the board?

1. Yes

---

The board is considering mandatory immunization for COVID within schools

11.

Are you Pro or Con on the proposal?

2.                      Con

---

Our children do not need to be used as labrats for the monetary gain of billion dollar pharmaceutical companies. Moderns has recently been discovered to be ineffective at combating new strains of COVID. I recently read an article where Chris Reykdel said "It's important that we all get out of the way, let the experts do their work and make a recommendation one way or the other, and honor that based on the science they come up with," Science they come up with? What is that nonsense? Science is a constant just as math is period. Any science that has to be come up with is not science at all and I for one will not go along with made up science, especially when it comes to the care of my children. We will not vaccinate our kids.

Hello there,

I am a concerned grandparent, looking at the possibility of the covid vaccine, becoming a required immunization for children entering the public school system. As a 25 year veteran of the school system myself, I am confounded that this would actually be considered, with all the most recent data pointing to covid becoming an endemic, like the flu. We will all be getting it. Not to mention that this emergency use vaccine has been shown to have some very harmful side effects for our young. Vaccination for 'at risk' groups...yes...but for the young people who rarely get anything serious and are not the disease vector previously thought, no. This is a terrible legacy that we would do this to our children, and thus, should be a personal decision for parents and caregivers....do not get the state involved. Please, look at the data, and do not follow the flawed and misinformed current storyline that keeps the news cycle spinning.

Thank you,

A Vaccinated Grandparent

Amy Link

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Subject: RE: Commit to no COVID vaccine mandates on children

While it appears to be a template, if the sender or email of the sender is different then that represents a person who is sending in their comment, and we must retain those as public comments. The template is not the determining factor, it's the email/sender address that determines the public comment as not a duplicate. Hope this helps. Let me know if you have any questions. Thanks!

Subject: FW: Commit to no COVID vaccine mandates on children

Hey Kelie and good morning!

I've noticed today and the past week this same email template is being sent to the Board's inbox. It's being sent by different people – we're already up to a thousand so far of this same email. Would we count these as duplicates that don't need to be tracked since they're from different people? Or should they still be counted and rolled up as individual comments.

Subject: No Vaccine Mandates for Children OR Adults!

External Email

Hello,

Please add our emails to your Interested Party List: [clairegger@gmail.com](mailto:clairegger@gmail.com)  
<<mailto:clairegger@gmail.com>> & [edwardegger@gmail.com](mailto:edwardegger@gmail.com)  
<<mailto:edwardegger@gmail.com>>

We are parents & professionals living in King County, we would like to state on record that we are very much against vaccine mandates for children & adults.

Please consider this feedback as input to ongoing discussions of WA State DOH requirements.

Should vaccine mandates be allowed, our children and all possible funding & all donations will be withdrawn from public institutions and we will seek alternative solutions.

Thank you for your consideration. We believe you will make the right choice and honor our rights to make the informed & best choice for our children & our bodies.

Best Regards,

Clair & Edward Egger

VEHEMENTLY AGAINST REQUIRING MY CHILDREN TO BE VACCINATED for Covid

I am vaccinated as well as my wife. However we have NOT done our jobs well as of yet, I understand everyone wants the pandemic to be over but not having a stable vaccine, let alone one that isn't breaking through people vaccinated.

Pfizer just announced an omicron variant of the vaccine. I will not stand by and allow my children, who are in the minority of severe cases, to be experiments for this. Too many breakthrough vaccine cases, and too few children with severe cases, this shouldn't be a conversation until we have a stable vaccine with a reduction of breakthrough infections.

Dustin Walker  
Father of 3  
16,12,9

Mother was first person to survive the final ventilator in Tennessee from Covid, we had made plans for her funeral march of 2020.

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

The following survey response is submitted:

1.

Please select one:

Other

2.

Please enter your comments or questions in the space provided below:

---

You should not be mandating that children get the COVID vaccine. It is a decision that should be left up to the parents. The vaccine has not gone through the usual rigorous lab testing prior to use. You have no idea what the long term effects will be. Please don't mandate something that may end up like DDT and Thalidomide from the last century. They were short sighted then. Don't be short sighted now.

3.

You can take your covid-19 vaccine mandate for children and shove it up your f\*\*\*\*\* ass you evil psychopathic pieces of s\*\*\*.

I will be pulling my children out of your f\*\*\*\*\* government indoctrination camps. You make me sick. Mandating and experimental medication with zero long-term data for children who are statistically not being affected by said disease you people are f\*\*\*\*\* insane and I hope you f\*\*\*\*\* burn in hell you evil human piles of garbage. Do us all favor and kill yourself

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Important updates for Washington State Board of Health  
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.facebook.com%2Fn%2F%3F>  
 's Page

To continue managing this Page, you need to review some changes.

<[https://scontent.xx.fbcdn.net/v/t39.2365-6/55354304\\_2249691298613464\\_3569447221197799424\\_n.jpg?\\_nc\\_cat=110&ccb=1-5&\\_nc\\_sid=ad8a9d&\\_nc\\_ohc=XvmcNJYRdBkAX8e5Pme&\\_nc\\_ad=z-m&\\_nc\\_cid=0&\\_nc\\_ht=scontent.xx&oh=00\\_AT\\_i6QcvXL2NsjdUIfbvsges4JwgCgNX0rqs4b3W-AxzNw&oe=61F3A2ED](https://scontent.xx.fbcdn.net/v/t39.2365-6/55354304_2249691298613464_3569447221197799424_n.jpg?_nc_cat=110&ccb=1-5&_nc_sid=ad8a9d&_nc_ohc=XvmcNJYRdBkAX8e5Pme&_nc_ad=z-m&_nc_cid=0&_nc_ht=scontent.xx&oh=00_AT_i6QcvXL2NsjdUIfbvsges4JwgCgNX0rqs4b3W-AxzNw&oe=61F3A2ED)>

Hi WashingtonState,

A Page you manage was updated to a new experience.

Since you were an analyst  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.facebook.com%2Fn%2F%3F>  
of this Page, you'll continue to have partial access to it and be able to manage the same  
things, but where you manage them has changed.

## What is partial access?

With partial access, you can manage specific things that an owner of the Page gives you access to.

## Where can you manage this Page?

You can't manage this Page directly on Facebook, but you can use other tools from Facebook. We recommend managing this Page on a computer, where you can use Creator Studio or Ads Manager. From a phone, you can only use Pages Manager App.

Thanks,  
The Facebook Business Team

Subject: Masks for children in school

External Email

Please recommend that masks are not needed at school for our children. They are hurting our children's education and their social skills. They are being taught to stay away from each other. They need to socialize and play!

Kindergarten students are struggling with speech and pronunciation because they can see their teachers face.. there is a lot you can tell from a students face if they are understanding a concern or not but when half of the face is hidden you can't tell what information the student is taking in or if they are pronouncing the words correctly or the letters. This will hinder their reading skills. We need to unmask our children.

Thank you, your very hard working teacher.

Good morning,

Hope this message finds you well. As a parent I do not support mandatory covid or flu vaccines for children. Particularly when the covid vaccine only has emergency approval.

I have chosen to vaccinate my older children but will not vaccinate my youngest child for many years. Every parent should be able to choose whether or not to give their children the covid vaccine. Vaccinated people are spreading covid just like those that are unvaccinated.

Do not mandate it.

Thank you,

Erika Whalen

Subject: Addition of a Vaccine for Public School Attendance

External Email

Members of the board,

As a grandfather and a father of two daughters who did get vaccinated to attend public schools, please read my comments below related to the existing COVID vaccine. I'm not a never vaxxer. The flu vaccine was offered at work and I was in line every year. I'm assuming that the J&J and Moderna vaccines are out of your consideration due to existence of multiple issues as documented by the CDC and NIH.

Based on the criteria as published in WAC 246-105-030, I have comments noted below on the first 4 of the 9 criteria. These comments are based on NIH/CDC and Pfizer documentation which you have access to, as well as peer reviewed studies/papers from the UK:

I. Criteria on the effectiveness of the vaccine

1. A vaccine containing this antigen is recommended by the Advisory Committee on Immunization Practices and included on its Recommended Childhood & Adolescent Immunization Schedule.

I'm assuming that the recommendation has yet to be made. If not, I apologize.

2. The vaccine containing this antigen is effective as measured by immunogenicity<sup>2</sup> and population-based prevention data in Washington State, as available.

As the prevention afforded by this vaccine is now under question based on the national trend of fully vaccinated persons being hospitalized, the efficacy of the vaccine is now questionable. Also, as a matter of record, it has not been marketed as preventing or spreading the virus, just alleviating symptoms. As such it does not meet this criteria.

3. The vaccine containing this antigen is cost effective from a societal perspective.

No argument. It is available to everyone.

4. Experience to date with the vaccine containing this antigen demonstrates that it is safe and has an acceptable level of side effects.

Per the VAERS database, this vaccine has more side effects, most debilitating, than any other vaccine in history (>1,000,000+). The number of deaths documented has reached over 20,000. I'm sure you're well aware that VAERS is extremely underreported. If only by 10%, these numbers are staggering. Please consider the reporting by all of our scientific and medical community before subjecting children to a potentially debilitating vaccine.

As a side note, I was born and raised here. I've lived in this state all of my 67 years. My grandparents were immigrants and were proud of becoming American citizens. I love this state, the beauty of our natural resources, and the people. Please consider my comments carefully, this is too important.

Respectfully,

Paul Jacobsen

Please see attached letter re 11. Rulemaking Petition. I believe your website informed the public that there has been misinformation, however, the concerned parent that I am, I would like to voice my opinion anyways.

Have a good meeting.

Please Do Not require  
the Covid vaccine on school  
children. Myocarditis, blood clots,  
death are all more severe than  
a child getting Covid and then  
receiving natural immunity.  
This is still only under emergency  
use!

2008

1

1/24, 2022

Please uphold your oath to both the WA state & US Constitution. We are built on freedom. I will continue to raise my children in the spirit of this country, despite our government's attempt to strip away our medical freedom & physical freedom. Remember We The People! ~LEO in Spokane

1/24, 2022

What happened to the oath taken by all our elected officials to uphold our constitution? These mandates are not Constitutional. Please vote to stop this madness. This is going to drive so many people out of our state and so many parents already plan to pull their kids from school if these pass. Isn't there enough division between us already? Please stand up for us and our rights.

A Very Concerned WA Citizen

# Please Stop THE Madness

1/24, 2022

What Happened To my  
Body my Choice? I Believe  
That everyone should Have The Right  
To Choose what is Best for  
Them! Now As far as the  
Kids go you need to Stop  
we Are The Parents we made them  
they Are our DNA Not yours!

1/26, 2022

when you make your vote it  
should be for all of the people  
who voted you in and have  
faith in you. Freedom & Liberty are  
priceless. 1.1 million Veterans  
have fought for those freedoms.

- Rachel

1/24, 2022

Please be the person  
who support the people  
who need you to vote  
for our children to  
not to get vaccine. Vote  
in behalf of the Jema camp  
to shut down. Help the  
people. Carla

I am a resident of Asotin County in the state of Washington and I am contacting you to let you know that I am very much against mandating this vaccine for our school children. I feel it is a huge over reach. What goes into a child's body should be the parents choice. I am urging you to not add this to the already long list of vaccines children are expected to have.

Thank you for your attention to this matter.

Please enter your comments or questions in the space provided below:

---

There is no reason to subject our children to an experimental vaccine for something that is totally ineffective on stopping the spread, in order to attend school. If you choose to make this a requirement, I will pull my kid out of school the same day, along with many other parents just like me. I do not suggest taking these extreme measures. You will regret it.

Subject: Concerns regarding Covid-19 vaccinations as a school requirement

External Email

Dear Board Members,

I am writing to you to express my utmost deepest concern about mandating Covid-19 vaccinations as a school requirement. Mandating these vaccines would be inhumane, unjust and many young lives may be put at risk.

Senator Ron Johnson hosted a Covid-19: A 2nd Opinion Roundtable in Washington D.C. this morning, 1/24/2022. This panel consisted of Senators, Lawyers, Scientists, Nurses, Doctors; Cardiologists, Pathologists, Epidemiologists, Virologists, Biologists, as well as Victims. These people are world-renowned. These people are medical experts. These people are Heroes. These are the people everyone should be made aware of and should listen to what they are saying and what they are fighting for.

The discussion is long, please don't let that intimidate you. Please listen from beginning to end. Their message is clear. This may be the most important panel discussion you listen to in your lifetime. <https://rumble.com/vt62y6-covid-19-a-second-opinion.html>  
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Frumble.com%2Fvt62y6-covid-19-a-second-opinion.html&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C40ee87b2e1cd4dad537b08d9df9fa283%7C1>>

- \* Covid-19 vaccines do not prevent infection, viral replication, or transmission of the virus.

- \* Covid-19 vaccine efficacy has continued to decline.

- \* Myocarditis, pericarditis, miscarriages, menstrual cycle disruptions, Guillain Barre Syndrome, neurological disorders – these are just a few of proven adverse effects being experienced, including death, among many young people.

- \* Covid-19 is treatable. There are safe and effective drugs available, but they are being censored.

- \* The risk of the vaccine is higher than the benefit.

- \* Young children, athletes, many people are suffering from side effects and many have died from complications of the covid-19 vaccine all over the world. This is being censored.

- \* There are many papers published in medical journals and studies showing that natural immunity is far superior to vaccine immunity.

- \* Many other countries recognize natural immunity, our country refuses to recognize or acknowledge natural immunity.

- \* The CDC admitted that they cannot provide any evidence/data showing someone with natural immunity getting reinfected and subsequently transmitting the virus to others.

- \* There are studies showing strong evidence that covid recovered people who take the vaccine have an increased risk of ending up in the hospital.

- \* The Covid-19 vaccines are NOT completely safe and effective as advertised.

The Covid-19 vaccines should NOT be mandated as a school requirement for K-12 or as a

requirement for colleges/universities. These vaccines should be optional, just as the flu vaccine is. Children/adolescents/people should not be forced or bribed to take them.

Sincerely,

Rebecca Salkin

Advocate for my children and others in the Community

From: Ted Cooke  
Sent: 1/26/2022 10:08:51 PM  
To: DOH WSBOH  
Cc:  
Subject: The experimental therapies cause myocarditis in children

External Email

My name is Ted Cooke, my ZIP Code is 98042

I am strongly against forcing the experimental therapies on our children. First of all only handful of children in the US have actually died from coronavirus and I believe every one of them had numerous comorbidities, children historically are not at risk. And VAERS shows that when children undergo the experimental therapies a significant number of them experience heart issues. Mandatory experimental therapy would be insanity. Israel has one of the higher vaccination rates on earth right now and I believe they just had one percent of their population infected in a day. These experimental therapies are not working and the risk is much worse than any potential reward. Please insist on actual science based in the scientific method directly, with real numbers. Right now what little there is indicates saying no to such a policy.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2FzubSSWPNePxL\_n5GNVTdMEd9p7T1CLmee4gkTKoBrWGWrgVDLnhEsL9xAxRY5sjRxttYQuXIANBS0UR6GMH-Yqbe3zrnOSWkWRhH-k8CfYSLvwQ9n92sZ\_uGUrp1ZKcTypum5qbWnLOzP37nOy3KBWTnNd0MW8I9noRx\_Mv522foHQXq1imKBOxH-XxtJUfxTX4\_VLbuwntluPH9fSatRXNjltLRNjB2EHYdXxi0hqvaeBS6oXYx5wxWtJ1G7ohrkqxIk5b4f9-yRgiW6t6AQqbbvXA9IU21HKT21EKPecgadEafwLVT198Ic4rkDAYv\_Cc6qj5BIfYcTw\_CPCT38MiqedtXEOso8s7M

The most troubling part of the pandemic to me is the lack of transparency and accountability. The authorities love to create mandates we must follow, but they refuse to be held accountable.

Here's a list of questions that you can ask your doctor, local, state, and federal lawmakers and health authorities. I haven't had any luck getting any of these questions answered on camera so I can share the answers with you. Perhaps you will have better luck.

There aren't 100 questions here yet, but there will be when I'm done with this. Check back in a few days for the update. Hyperlinks will be added later to all the references.

## General questions

### 1. Incriminating Evidence

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2Fvp87mTCfSTFsqZIjsSxd47I6Fpha41K6mrW9Uyn\\_oxEq3oF5PjQWw\\_hsVbzH4LV4WSrVCSzaYFzbHFQVmJo6trT0YD-cpWDL0onhugdhi5pz39BCfD\\_gqJ-UiPX1Mdq7SMaSM9lnZbS3SXq4PNvrVh7JAmD7o5d3VjnkDHIDXIHgJS6igQi0QVQcNOGtxxGrtRAfT6B-SrxP8a86i-V7T7iIBUafL7fu7mO1LXI\\_g89ITwGEhd3PIN843mX6iQLFgdj1mUzcSOuBcNVrDbftCq5VqRS1Zmeu2UhXMH6u](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2Fvp87mTCfSTFsqZIjsSxd47I6Fpha41K6mrW9Uyn_oxEq3oF5PjQWw_hsVbzH4LV4WSrVCSzaYFzbHFQVmJo6trT0YD-cpWDL0onhugdhi5pz39BCfD_gqJ-UiPX1Mdq7SMaSM9lnZbS3SXq4PNvrVh7JAmD7o5d3VjnkDHIDXIHgJS6igQi0QVQcNOGtxxGrtRAfT6B-SrxP8a86i-V7T7iIBUafL7fu7mO1LXI_g89ITwGEhd3PIN843mX6iQLFgdj1mUzcSOuBcNVrDbftCq5VqRS1Zmeu2UhXMH6u)>  
is a collection of counter-narrative evidence. Can we go through that one piece at a time and can you explain how these are all wrong? Or conversely, perhaps you can find just one document that you can show is wrong in that article?

## Censorship

1. President Biden has a Disinformation Dozen list. Why not debate these people instead of censoring them? Is it right for the leader of the free world to proudly proclaim a censorship list?
2. Facebook has removed vaccine victim support groups with over 200,000 users. Why was this done? Why didn't the medical community say a word in protest? How is removing a support group for vaccine injured a benefit to society?
3. Will you sponsor a law allowing people who have had life saving content removed from large social media platforms to sue for statutory damages?

## Accountability

1. Why won't any member of the FDA/CDC outside committees debate me for \$1M just to show up at the debate table?
2. Why are people trying to censor the doctors instead of debating them? Why weren't any of the 270 signers of the letter asking Spotify to censor Joe Rogan willing to debate Malone on the issues they objected to?
3. Why won't any local, state, or federal lawmaker or official agree to answer any of these questions in a live recorded video interview?
4. How can the CDC not find a single safety signal with these vaccines other than minor symptoms? It was the DoD who found the myocarditis signal.

- ## Pandemic response

- ## Vaccine efficacy

- ## Vaccine safety

1. Why do 13 different methods show that over 150,000 Americans have been killed by the vaccines?
2. Why did the Pfizer trial report 24% more deaths in the vaccine arm than the placebo arm? Isn't it supposed to be the other way around? Why weren't there autopsies in any of those deaths? How can Pfizer be certain those deaths weren't caused by the vaccines?
3. My neurologist has 20,000 patients and 2,000 vaccine injured. She's been in practice for 11 years w/o a vaccine injury. This vaccine is over 20,000X worse than other vaccines. If the vaccine is so safe, how do you explain a 10% injury rate?
4. There are now over 1M adverse events reported in the VAERS system. Using CDC's methodology, we know VAERS is ~40x underreported. That's 40M adverse events and > 5,000 conditions that are significantly elevated. How can the CDC not spot a single safety signal (other than myocarditis)?
5. There are over 5,000 significantly elevated adverse events in the VAERS system. How come we aren't giving people a list of these? If they weren't caused by the vaccines, then what were they caused by?
6. How can the CDC not find any deaths caused by the vaccines, yet top pathologists like Ryan Cole and Sucharit Bhakdi claim that over 90% of the deaths within 60 days post-vaccination were likely caused by the vaccine. One of the world's top pathologists, Peter Schirmacher, also found results consistent with their findings. Why should we trust the CDC? Did these pathologists make a mistake?
7. Why is the CDC "still investigating" all the cases where the autopsy showed the person was killed by the vaccine?
8. Why isn't the CDC requiring that autopsies be done by pathologists trained in spotting COVID vaccine injury if the death was within 30 days of the vaccine?
9. If the risk of myocarditis is only "slightly elevated" due to the vaccine, then how do you explain this chart from Jessica Rose's paper?

<[https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2F31KuTjPkz079St9pppwVkeiOATfS2iN0FxxfXcKFOFNIyRaMEw9zkeVO2HnYPDHLb1rFDSCCWz-9bRQrBCK8cWmDSMSKpqG0ZoAJzE-PhA62OenpT\\_GwrVXP\\_zHIPD\\_H1gJ\\_IOb826bApo3s1bltKKCw4UcGRsnueWNrk7QE\\_ft-O-Jq2zzf\\_OA973KZIKYU3IXjKRHupuCIAnSTqpCnGHu5FJR9rYspaZ2RtEUUthaa6U9zU6K0AS1p3RjZJNLjg323F7AFzz1sJHTCmWq3hFu08DK2UEVxWhddvpWrty27f9Aoxuec\\_rZ\\_GBA&data=04%7C01%7Cwsboh%40sboh.w](https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Femail.mg2.substack.com%2F%2F31KuTjPkz079St9pppwVkeiOATfS2iN0FxxfXcKFOFNIyRaMEw9zkeVO2HnYPDHLb1rFDSCCWz-9bRQrBCK8cWmDSMSKpqG0ZoAJzE-PhA62OenpT_GwrVXP_zHIPD_H1gJ_IOb826bApo3s1bltKKCw4UcGRsnueWNrk7QE_ft-O-Jq2zzf_OA973KZIKYU3IXjKRHupuCIAnSTqpCnGHu5FJR9rYspaZ2RtEUUthaa6U9zU6K0AS1p3RjZJNLjg323F7AFzz1sJHTCmWq3hFu08DK2UEVxWhddvpWrty27f9Aoxuec_rZ_GBA&data=04%7C01%7Cwsboh%40sboh.w)

10. Ryan Cole has been a pathologist for 26 years. He's seen nearly 500,000 patients and done 550 autopsies. He recently found a saphenous vein in a patient's leg 4 feet long that was SOLID with clots. He's never seen anything like that in his entire career. Others in the patient were 6 to 24 inches long. This was in a patient who died just 3 days after a booster shot. If it wasn't the vaccine that caused this, then what did?
11. If myocarditis after the vax is so rare, then how do we explain at least 4 myocarditis cases in a small private school (Monte Vista Christian School) among fewer than 400 boys?
12. Why are there so few autopsies?
13. Shouldn't a 3 year old dying from cardiac arrest just one day after being

vaccinated set off alarm bells? Does anyone care?

14. If the vaccines are so safe and effective then why do surveys of firemen and airline pilots show that 80% would choose not to be vaccinated if they weren't forced to?

#### Biased news coverage

1. People who die within 60 days of the vax are 90% likely to have died from the vaccine. How come we never talk about when they were vaccinated in their obituary? Why are there so few autopsies in these cases?

2. Why does Jake Tapper use ad hominem attacks against Robert F. Kennedy, but will not debate him? Isn't this unfair?

#### Corruption

1. Why did FEMA make a cash offer to Ernest Ramirez to declare his son's death a COVID death? Did they have evidence the coroner got it wrong?

2. Maddie de Garay, who was 12 at the time, was injured in the Pfizer phase 3 trial. She's paralyzed. She's now becoming a quadriplegic. Why didn't the FDA, CDC, or NIH investigate? That's clinical trial fraud. Why aren't we telling people that based on the clinical trial, there is a 1 chance in 1,000 your child could be paralyzed too?

3. Why aren't any coroners trained on how to spot death from COVID vaccines?

4. Why aren't all deaths within 4 month of vax being autopsied to see if the vaccine caused the death? Even if we just did this for 1 day?

5. Why is there no stopping condition? How many kids have to die from cardiac arrest before we stop the vaccines?

6. Why refusing to fill valid ivermectin prescriptions protecting health? What studies show that the risks outweigh the benefits? Don't you have to cherry pick studies to show that?

7. Why was every single early treatment protocol using existing drugs/supplements suppressed by the NIH?

8. Why is ivermectin so expensive? One vaccine injured patient must pay \$220 for 20 pills. Why is this not covered by insurance?

#### Intimidation tactics

1. If doctors are free to practice medicine, then why is only one doctor in California willing to write medical exemptions from the vaccine?

#### Mandates

1. Is it ethical to mandate a vaccine that is more likely to kill people than to save

them?

2. Is it ethical to mandate a vaccine where most all of the vaccine injured cannot be cured?
3. Is it ethical to ever mandate any vaccine ever?
4. If the mandates are to protect society, why isn't there a risk benefit analysis anywhere?
5. Why it is ok to mandate vaccination for kids when the data shows we kill over 100 kids to save 1. Was there an error in Dr. Toby Rogers' analysis?
6. If you want to mandate something, why not mandate that everyone with COVID get early treatment ?
7. Why won't anyone with a mandate accept liability?
8. Why must I be vaccinated to watch my daughter graduate from college? Why is testing not sufficient?
9. If you die from the vaccine, many insurance companies won't pay for it since you opted for an experimental treatment forced by your employer. Is it right for the burden to be on you?
10. If the vaccines are as safe and effective as claimed, why do we need mandates?

## Masks

1. Why are masks mandated when every randomized controlled trial shows that cloth and surgical masks are completely useless against COVID.
2. Can anyone show a study showing the risk reduction from an N95 mask varies over time within a room? It goes to zero after a short amount of time. What is it?
3. Why are we not educating the public about P100 respirators? Don't we want to protect people?

## Social distancing

1. Where is the study showing that 6 feet results in a benefit? How does that benefit decay over time?

## Testing

1. Since there is no evidence of asymptomatic spread, why are we testing people who are asymptomatic?
2. Since there is no evidence the naturally recovered can infect others, why are we testing these people and requiring them to be vaccinated?

## Liability

1. If the vaccines are safe and effective, then why do the manufacturers need liability protection?
2. If the vaccines are so safe, why aren't any of the organizations that mandate vaccines accepting liability?

Note: This is just an initial list. I'll add more over time, but this should be a good warmup set of questions.

Subject: Covid Vaccine Requirements for Children

External Email

I am beyond disgusted that you are pushing this idea that perfectly healthy children should be required to take an experimental vaccine. I will, in addition to all the other parents, see that you are all turned in to the Hague for "Crimes against Humanity" if any of you participate in pushing this vaccine on any child or adult. This is not lawful to require & we will see you all apprehended & sentenced for the criminal actions for which you are participating in relative to this plandemic!

At no time in history has anyone in the US or possibly the world ever been required to take a vaccine & now that this is occurring it's not even an approved vaccine & you are still not using common sense or the brain that God provided you with to recognize this is illogical & unjust for anyone to be pushed to be a Guinea pig. We are human beings & constitutionally not bound by the President or anyone else to be experimented on! Not now or ever!!!

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Subject: No to Vaccine Mandates for children K-12

External Email

Hello Washington State Board of Health,

My name is Martha Bayisa and I am a senior at Kentridge High School. Many of my peers have been absent from contracting covid or isolating from possible exposure. This is a trend we can see throughout Washington and there have been some schools that already switched to virtual learning. Students and teachers don't want to go back to virtual learning but we also recognize the covid situation is getting worse.

On January 12 the WSBOH held a webinar to discuss many issues at hand, one being the progress of TAG. TAG has been tasked to make criteria for Covid immunization in K-12 schools. I don't believe that making the covid vaccine mandatory for students in K-12 schools is the best way to manage the spread of Covid in schools. The mask mandate and social distancing is already somewhat effective.

I believe mandating new protocols would be helpful. Some things that should be included in a new protocol is daily temperature checks, weekly covid testing in schools, and symptom check-in with students directly. I believe it's more important to check in with the student because some parents may lie in order to send their students to school. That is what happened in my sister's sixth grade class and she, and many other students in her class, were infected and had to miss two weeks of school right before winter break.

We also shouldn't have to go straight to virtual learning unless there is an outbreak at a school, in that case it should be a change made on a case by case basis. These suggestions would be more effective and better received by students and their families rather than mandating vaccines for the children.

Thank you,

Martha Bayisa

Hello, Washington State Board of Health,

I can't believe that my former employer, Dept. of Health, (Office of shellfish and water safety) is behind this extraordinary requirement. I am shocked and ashamed.

I'm writing to you to request you not to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. !!

You know you are pushing this is against people's will. It's not beneficial to these young ones. Please don't make this a required shot for young children!!

This is extreme and ridiculous!!

It has caused many injuries in young people and not worth the risks involved.

My 3 grandsons' families will be moving out-of- state if passed, along with many more families.

Thank you for your consideration!

Vickie Carper

Subject: Re: Parents and Caregivers: Provide Feedback to the TAG Through a New Survey - WA State BOH

#### External Email

2. Would adding COVID-19 vaccine as a requirement for school entry make you more or less likely to get your child vaccinated?

My response: 0 - Not at all likely

3. How burdensome would an additional immunization requirement for school entry be for you and your family.

My response: 10 Extremely burdensome.

4. What are some barriers you face to getting your child vaccinated against COVID-19?

My response: Lack of information regarding current clinical trials on children age 5-11 and censorship regarding the adverse effects/or death after receiving COVID-19 vaccination. It has been proven that you can still suffer from covid-19 and its severe symptoms after the vaccination.

5. What are some of the benefits you see to vaccination? Do the possible benefits of vaccinating your child against COVID-19 reduce the impact of identified burdens of obtaining the vaccine?

My response: I do not see any benefits to this current vaccine.

Serious adverse events reported to CDC: Anaphylaxis, Thrombosis with thrombocytopenia syndrome, Guillain-Barre Syndrome, Myocarditis and pericarditis, Reports of death - 11,468.

There have also been reports on 69 athletes who have collapsed in one month and many dead. Information revealed through an email to DPBH StateBOH (Nevada)

Some include the following:

Martin Lefevre - 16 FC Agneaux - collapsed with a stroke - October 2, 2021

Niels de Wolf - 27 - from the Belgian football club White Star Sombeke - cardiac arrest - October 3, 2021

Timucin Sen - Collapses 10 minutes after game

Elias Abou Nassif - Cardiac arrest at gym - Cleveland, OH

Pompeo Tretola - 18 soccer player from FC Matese- collapses

Mayor Guillermo Mercado - 50 died of cardiac arrest after participating in the long-distance run "Aventura de Cereza"

Ferran Duran - suffered cardiac arrest 5 times during a game on October 12, 2021

Joe Plant from Whitby - suffers from cardiac arrest

Mario Mingarelli - Sports teacher and soccer coach in Nocera Umbra, Italy, suffered from fatal cardiac arrest during his team's game, on October 24, 2021 - age 69

6. Do you believe adding COVID-19 vaccine as an immunization requirement for school entry is reasonable? Why or Why Not?

My response: I do not believe that adding the COVID-19 vaccine as an immunization requirement for school entry is reasonable. It is the parent's right and a parent's choice whether they choose to covid-19 vaccinate their child or not. The parents should not have to give the school a reason for what medical choice they make for their child. The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is a federal law that requires the creation of national standards to protect sensitive patient health information from being disclosed without the patient's consent or knowledge. The three major components of the HIPAA rules and regulations are: The HIPAA Privacy Rules, Security Rules, and Breach Notification Rules.

Every child has the right to learn. Every child has the right to education, regardless of their covid-19 vaccination status. My daughter is 4 years old. Each year, she has her Well Child Exam, she receives all of the recommended vaccines, including her flu shot -- but I will not have her get the covid-19 vaccine.

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

You reap what you sow  
Invest in the Children's future

Info/intel thus eliminating any misinformation/mendacity The use of clinical applied psychology and propaganda techniques via a subservient media to obtain compliance with harmful policies is an aggravating feature of the offense which is serious misconduct in the public office.

I merely hope to share irrefutable facts to enable the ordinary decent honorable people to help others from making a preventable unforgivable mistake, being fully informed with the consent of facts truths enable better choices for present & future generations, The Children rely upon the more senior above teenage years aged persons to better guide them much the same as a magnetic compass point North they can traverse in life with better info/intel.

I try my best to save/prevent any of our countries Governments in regards being directly/indirectly complicit with Democide/Genocide/irrefutable evidence of the Manslaughter once they started with the Children our future generations all bets are off The Children are what they grow up with they deserve nothing less than parents love dignity nurturing & guidance by definition the dictionary definition of the word Retard is to hold back to hinder my goodness they certainly have been held back for the past 22 months ongoing, I do this for their sake. as best as can do to help other people.

An investment with dignity or rehabilitation non-essential citizens

All Integrity lacking Government department personnel & members of Congress & the Medical Management who are primarily supposed to work for the citizens of The U.S.A & Canada have arterial motives interests, they act accordingly with very vigorous intent clearly & obviously have as much freedom as a prisoner they take their orders instructions much the same as a lower-ranking police officer or member of all the military armed services as saying for instance puppets at the detriment of the entire citizenry populations very existence freedoms otherwise known classed labeled as essential & non-essential citizens in there own wording legislation's laws & actions.

If only the Government would be able & or willing to consider this part of their overall job create an "economy" that lets us actually take care of the people who are taking care of us, (Via opening up the in their own words non-essential businesses the workers) People not being treated as prisoners in isolation would instead be flourishing with the obvious outcome of many of peoples mental health improvements over time is this not worthy of investment with dignity instead of the present circumstances?.

Rehabilitation (noun) I personally wonder if any of the individuals within the Government know exactly what the word means?

Do you?

The unabridged Webster's dictionary says it comes from the Latin word Abilis Ibilis  
the definition is "To invest again with Dignity"

Suffix

1-able; able or worthy to be (the recipient of an action).

<https://www.wordsense.eu/-abilis/>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.wordsense.eu%2F-abilis%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c08d9e10688b2%7C11d>

Definition of rehabilitation

: the action, process, or result of rehabilitating or of being rehabilitated: such as

a: restoration especially by therapeutic means to an improved condition of physical function

MCL injuries alone rarely necessitate surgery and heal with rest and rehabilitation.

— Shira Springer

The handsome barn-style building is used as a wildlife rehabilitation center, so you'll see mending hawks, eagles, or owls perching.

— Lora J. Finnegan

also: the process of restoring a person to a drug- or alcohol-free state

... the tabloid feeding frenzy surrounding his drug bust and ensuing rehabilitation for heroin addiction last year.

— Joyce Millman

b: the process of restoring someone (such as a criminal) to a useful and constructive place in society

the rehabilitation of prisoners

a prison rehabilitation program

c: the restoration of something damaged or deteriorated to a prior good condition

the rehabilitation of the neighborhood

the rehabilitation of a person's reputation

<https://tinyurl.com/3hdyp2kt>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftinyurl.com%2F3hdyp2kt&data=0>

Investing in the overall population (via opening up the in their own words non-essential businesses the workers) the populous start to create an "economy" that lets us actually take care of the people who are taking care of us, is this not worthy of investing with dignity?

If only the Government considered this part of their job "To invest in the economy via its treatment of all citizens with Dignity" instead of the entire country being treated like isolated prisoners.

Inspired by the 1962 Movie Birdman of Alcatraz Run time 2h 27m

## Storyline

A surly convicted murderer held in permanent isolation redeems himself when he becomes a renowned bird expert.

In 1912, the notorious and violent prisoner Robert Franklin Stroud is transferred to the Leavenworth Prison convicted for murdering a man.

When a guard cancels the visit of his mother, Elizabeth Stroud, due to a violation of the internal rules, he stabs and kills the guard and goes to trial three times.

He is sentenced to be executed by the gallows, but his mother appeals to President Woodrow Wilson who commutes his sentence to life imprisonment.

However, the warden, Harvey Shoemaker, decides to keep Stroud in solitary for the rest of his life.

One day, Stroud finds a sparrow that has fallen from the nest in the yard and he raises the bird until it is strong enough to fly.

Stroud finds a motivation for his life raising and caring for birds and becomes an expert in birds.

He marries Stella Johnson and together they run a business, providing medicine developed by Stroud.

But a few years after, Stroud is transferred to Alcatraz and has to leave his birds behind.

Stroud was a difficult person who did not treat other people decently.

That much was true of the real Stroud and that is shown in the film.

It is an example of a kind of film-making that is sadly lost today.

The film attempts a serious discussion of serious issues: the value of a man, the death penalty, the role of prisons, their wardens and guards, the possibility of human connection, even under conditions of relative isolation.

Stroud makes some human contact with his guard, and with a fellow inmate, he communicates with via tapping.

## Birdman of Alcatraz

[https://www.imdb.com/title/tt0055798/?ref\\_=nv\\_sr\\_srsq\\_1](https://www.imdb.com/title/tt0055798/?ref_=nv_sr_srsq_1)

"It betrays the utter contempt that the Government has for the populace under its charge ..."

I think to consider it merely to be contempt is to miss the vital importance of what it really is, which is a total, unbridled malice borne towards the general public by an elite that exists in a personality-disordered thought-bubble.

Over the last 30 years or so, political zealots have used the methods of confidence tricksters to install an overreach that is way beyond where the boundaries of social acceptability would lie if the politics of the period had instead been an honest and collaborative venture between the governors and the governed. We have reached where we are only as a result of the zealots promising us that we were heading somewhere else, and unless this deception can be reintroduced into the minds of the general public there will be an almighty explosion.

"....riddled with condescension, insult, fear, and opaque threats." You forgot infantilization

Be not intimidated nor suffer yourselves to be wheedled out of your liberties by any pretense of politeness, delicately or decency these as they are often used, are but three different names for hypocrisy chicanery & cowardice:- John Adams

"The welfare of humanity has always been the alibi of tyrants":- Albert Camus

"Don't judge each day by the harvest you reap but by the seeds that you plant.":- Robert Louis Stevenson

A simple explanation of why our Politicians/Congress All need to be replaced....

You start with a cage containing four monkeys, and inside the cage, you hang a banana on a string, and then you place a set of stairs under the banana.

Before long a monkey will go to the stairs and climb toward the banana.

You then spray ALL the monkeys with cold water.

After a while, another monkey makes an attempt. As soon as he touches the stairs, you spray ALL the monkeys with cold water.

Pretty soon, when another monkey tries to climb the stairs, the other monkeys will try to prevent it.

Now, put away the cold water. Remove one monkey from the cage and replace it with a new monkey.

The new monkey sees the banana and attempts to climb the stairs.

To his shock, ALL of the other monkeys beat the crap out of him. After another attempt and attack, he knows that if he tries to climb the stairs he will be assaulted.

Next, remove another of the original four monkeys, replacing it with a new monkey.

The newcomer goes to the stairs and is attacked.

The previous newcomer takes part in the punishment – with enthusiasm — because he is now part of the “team.”

Then, replace a third original monkey with a new monkey, followed by the fourth. Every time the newest monkey takes to the stairs, he is attacked.

Now, the monkeys that are beating him up have no idea why they were not permitted to climb the stairs. Neither do they know why they are participating in the beating of the newest monkey?

Having replaced all of the original monkeys, none of the remaining monkeys will have ever been sprayed with cold water. Nevertheless, not one of the monkeys will try to climb the stairway for the banana.

Why, you ask?

Because in their minds, that is the way it has always been!

This is how all Integrity lacking Whitehall/Congress Government department personnel & members of parliament/Congress & the NHS/Medical Management operates, and this is why, from time to time, ALL of the monkeys need to be REPLACED AT THE SAME TIME!

DISCLAIMER: This is not meant as disrespect to any monkeys in the slightest at all ever, after all, they have a far more flourishing nature displaying such positive enthusiasm integrity honor compassion & humor & are willing to work for peanuts & Bananas.

Children Learn What They Live

by Vic

Children learn what they live is a classic list of principles for parents on how to raise children who are emotionally balanced and confident with a healthy self-esteem. This is the period where the foundation is set for their belief and value system and their image of themselves.

Emotional health is vital for our all round physical health. A positive and confident outlook on life does lead to better health and increase the likelihood to have stable relationships. High self-esteem makes us emotionally and psychologically stronger with an ability to take the knocks on our life's path and bounce back.

All of us have some talents, but there is nobody who good at everything. Unfortunately our school systems tend to focus on a child's weaknesses and not build on their strengths. Choosing to concentrate on our strengths is a great confidence boost and

something we should not neglect.

Many of the children who end up in an orphanage, foster care or are adopted as young children (not as infants) have had a bad start with criticism and often got put down.

If that has happened to you and you are an adult, you can make the decision to heal your soul and change your perception of yourself. We can all have a good dose of self-esteem, but it does take a decision and some effort. It is always worth the effort.

A good start to begin with is mindfulness meditation to wind down and learn to relax. Follow this with a course in positive affirmation. Confidence and self-esteem are the result of a state of mind, which we can all attain.

If we have children then we have a responsibility in raising them to be balanced, harmonious and with high self-esteem. This is the greatest gift we can give them. A healthy self-esteem is more important to success in adult life than good grades at school. A famous piece describing how to do this was written by Dorothy Nolte in 1972: "Children Learn What They Live."

This is as relevant today as it was forty years ago.

#### Effect of Negative Statements

If children live with criticism,  
they learn to condemn.

If children live with hostility,  
they learn to fight.

If children live with fear,  
they learn to be apprehensive.

If children live with pity,  
they learn to feel sorry for themselves.

If children live with ridicule,  
they learn to feel shy.

If children live with jealousy,  
they learn to feel envy.

If children live with shame,  
they learn to feel guilty.

#### Effect of Positive Affirmations

If children live with encouragement,  
they learn confidence.

If children live with tolerance,  
they learn patience.

If children live with praise,  
they learn appreciation.

If children live with acceptance,  
they learn to love.

If children live with approval,  
they learn to like themselves.

If children live with recognition,  
they learn it is good to have a goal.

If children live with sharing,  
they learn generosity.

If children live with honesty,  
they learn truthfulness.

If children live with fairness,  
they learn justice.

If children live with kindness and consideration,  
they learn respect.

If children live with security,  
they learn to have faith in themselves and in those about them.

If children live with friendliness,  
they learn the whole world is a nice place in which to live.

It is in your home where your child can live in this way. Where they learn:

- \* Respect,
- \* Justice,
- \* Truthfulness,
- \* Generosity,
- \* Appreciation,
- \* Patience,
- \* Love and
- \* Confidence

Children Learn What They Live

If children live with criticism, they learn to condemn.

If children live with hostility, they learn to fight.

If children live with ridicule, they learn to be shy.

If children live with shame, they learn to feel guilty.

If children live with encouragement, they learn confidence.

If children live with tolerance, they learn to be patient.

If children live with praise, they learn to appreciate.

If children live with acceptance, they learn to love.

If children live with approval, they learn to like themselves.

If children live with honesty, they learn truthfulness.

If children live with security,

they learn to have faith in themselves and others.

If children live with friendliness,

they learn the world is a nice place in which to live.

OneAmerica Life Insurance data confirms Covid-19 Vaccinated 18 to 64-year-olds are 50% more likely to die than Unvaccinated people

BY THE EXPOSE ON JANUARY 9, 2022

[HTTPS://DAILYEXPOSE.UK/2022/01/09/LIFE-INSURANCE-DATA-PROVES-VACCINATED-MORE-LIKELY-TO-DIE/](https://DAILYEXPOSE.UK/2022/01/09/LIFE-INSURANCE-DATA-PROVES-VACCINATED-MORE-LIKELY-TO-DIE/)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdailyexpose.uk%2F2022%2F01%2FINSURANCE-DATA-PROVES-VACCINATED-MORE-LIKELY-TO-DIE%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c08d9e10688b2%7C11d0>>

There are several sources for Covid-19 and overall mortality data. There is the government. There are the funeral directors. There are the churches and there are the life insurance companies. Out of all of these sources the most professional and the most accurate should be the life insurance companies because life and death are their entire business model and if they get those figures wrong they lose money.

By a concerned reader

Therefore I read with great interest that Scott Davidson, the CEO of the 100 Billion dollar US life Insurance company OneAmerica is amazed at the 'huge, huge, huge' rise in the mortality rate for 18 to 64 year olds in the US in the last 6 months.

The Center Square carried the story, which is restricted the UK perhaps to prevent us from drawing the conclusion that vaccines are lethal. But an American friend of mine sent me a copy of the Centre Square article directly. Here it is...

(The Center Square) – The head of Indianapolis-based insurance company OneAmerica said the death rate is up a stunning 40% from pre-pandemic levels among working-age people.

"We are seeing, right now, the highest death rates we have seen in the history of this business – not just at OneAmerica," the company's CEO Scott Davison said during an online news conference this week. "The data is consistent across every player in that business."

OneAmerica is a \$100 billion insurance company that has had its headquarters in Indianapolis since 1877. The company has approximately 2,400 employees and sells life insurance, including group life insurance to employers in the state.

Davison said the increase in deaths represents “huge, huge numbers,” and that’s it’s not elderly people who are dying, but “primarily working-age people 18 to 64” who are the employees of companies that have group life insurance plans through OneAmerica.

“And what we saw just in third quarter, we’re seeing it continue into fourth quarter, is that death rates are up 40% over what they were pre-pandemic,” he said.

“Just to give you an idea of how bad that is, a three-sigma or a one-in-200-year catastrophe would be 10% increase over pre-pandemic,” he said. “So 40% is just unheard of.”

Davison was one of several business leaders who spoke during the virtual news conference on Dec. 30 that was organized by the Indiana Chamber of Commerce.

Most of the claims for deaths being filed are not classified as COVID-19 deaths, Davison said.

“What the data is showing to us is that the deaths that are being reported as COVID deaths greatly understate the actual death losses among working-age people from the pandemic. It may not all be COVID on their death certificate, but deaths are up just huge, huge numbers.”

He said at the same time, the company is seeing an “uptick” in disability claims, saying at first it was short-term disability claims, and now the increase is in long-term disability claims.

“For OneAmerica, we expect the costs of this are going to be well over \$100 million, and this is our smallest business. So it’s having a huge impact on that,” he said.

He said the costs will be passed on to employers purchasing group life insurance policies, who will have to pay higher premiums.

The CDC weekly death counts, which reflect the information on death certificates and so have a lag of up to eight weeks or longer, show that for the week ending Nov. 6, there were far fewer deaths from COVID-19 in Indiana compared to a year ago – 195 versus 336 – but more deaths from other causes – 1,350 versus 1,319.

These deaths were for people of all ages, however, while the information referenced by Davison was for working-age people who are employees of businesses with group life insurance policies.

At the same news conference where Davison spoke, Brian Tabor, the president of the Indiana Hospital Association, said that hospitals across the state are being flooded with patients “with many different conditions,” saying “unfortunately, the average Hoosiers’ health has declined during the pandemic.”

In a follow-up call, he said he did not have a breakdown showing why so many people in the state are being hospitalized – for what conditions or ailments. But he said the extraordinarily high death rate quoted by Davison matched what hospitals in the state are seeing.

“What it confirmed for me is it bore out what we’re seeing on the front end,...” he said.

The number of hospitalizations in the state is now higher than before the COVID-19

vaccine was introduced a year ago, and in fact is higher than it's been in the past five years, Dr. Lindsay Weaver, Indiana's chief medical officer, said at a news conference with Gov. Eric Holcomb on Wednesday.

Just 8.9% of ICU beds are available at hospitals in the state, a low for the year, and lower than at any time during the pandemic. But the majority of ICU beds are not taken up by COVID-19 patients – just 37% are, while 54% of the ICU beds are being occupied by people with other illnesses or conditions.

The state's online dashboard shows that the moving average of daily deaths from COVID-19 is less than half of what it was a year ago. At the pandemic's peak a year ago, 125 people died on one day – on Dec. 29, 2020. In the last three months, the highest number of deaths in one day was 58, on Dec. 13. – (The Center Square – no link, the article is restricted to the US)

So at last we have found a source of accurate mortality figures which is not politically motivated and is independent of government and main stream media manipulation. If life insurance actuaries get their figures wrong, their company loses money. So these guys should have their figures right! So the truth must be that all cause mortality in 18-64 year olds has gone up by 40% in the last two quarters from July to December 2021.

Now lets have a look at what the wonderful CDC Wonder database tells us. This database is very well presented and very accessible. You can make a request and download the results here

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwonder.cdc.gov%2Fcontroller%2F>

The US CDC wonder database shows that 702,757 Americans died aged 18-64 in 2019. And of those 351,102 died in the last 6 months. So the deaths were evenly split between the first 2 quarters and the last 2 quarters at 351k per half year.

The total deaths for 2019 were 2,854,838 from a US population of 328,239,523

So an increase of 40% in deaths amongst 18-64 year olds in the last 2 quarters would have meant 140,441 more deaths, making a total of 491,543 deaths.

The CDC Wonder database gives total deaths for 18-64 year olds from July to December, 2021 as follows...

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fi0.wp.com%2Fdailyexpose.uk%2Fcontent%2Fuploads%2F2022%2F01%2Fimage-42.png%3Fssl%3D1&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c08d9e10688>

The CDC figures for the whole year are –

<<https://i0.wp.com/dailyexpose.uk/wp-content/uploads/2022/01/image-43.png?resize=639%2C238&ssl=1>>

The CDC is saying that more 18-64 years olds died in the first half of 2021 than in the last half, the precise opposite of what OneAmerica is saying.

The CDC is saying that mortality in 18-64 year olds in the last 2 quarters of 2021 has risen by 21.5% (426,507/351,102) not 40%, the figure seen by OneAmerica.

And the CDC is saying that the rise of 75,405 deaths over the 2019 figure (426,507 – 351,102), is less than the number of Covid-19 deaths at 81,258, which means that there is less than zero room for vaccine side effect deaths. Yes folks, the vaccines killed

absolutely nobody at all. Not even 1 person. Because all the excess deaths and more than those too, were caused by Covid-19 according to the CDC.

Whereas OneAmerica figures show that the majority of the 40% excess deaths were did NOT have Covid-19 on the death certificate.

So it is easy to see what has happened here. Politicians at the CDC have halved the excess mortality and attributed it all to Covid-19 in order to hide the vaccine side effect deaths. The CDC figures could not be clearer. They say categorically that the vaccines kill nobody. They are fully politicised figures. They are figures from politicians not from scientists. And OneAmerica has caught them out cold.

In the UK, the situation is clearer still, thanks to the brilliant journalism of Fraser Nelson the editor of the Spectator. In a twitter conversation with Prof Graham Medley, from the London School of Hygiene and Tropical Medicine, who chairs the SAGE Modelling Committee, Fraser managed to get him to admit that SAGE deliberately publishes the most gloomy scenarios and ignores less alarmist ones, despite the fact that the less alarmist ones have always proven to be more accurate. He then gets Prof Medley to explain why: He admits that he models what will be useful to his paymasters. He models what he is instructed to model. So as Fraser Nelson himself puts it

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.telegraph.sage-covid-modeller-twitter-quite-revelation%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c>, the government is acting "not on evidence-based policymaking, but policy-based evidence-making." Here is the revealing conversation they had...

<https://i0.wp.com/dailyexpose.uk/wp-content/uploads/2022/01/image-44.png?resize=639%2C739&ssl=1>  
<https://i0.wp.com/dailyexpose.uk/wp-content/uploads/2022/01/image-45.png?resize=639%2C764&ssl=1>  
<https://i0.wp.com/dailyexpose.uk/wp-content/uploads/2022/01/image-46.png?resize=639%2C707&ssl=1>

You can read Fraser Nelson's account of his conversation in the Spectator [here](#)

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.spectator.co.uk%2Farticle%2Ftwitter-conversation-with-the-chairman-of-the-sage-covid-modelling-committee&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c08d9e10688b2%7C11>

So there you have it. SAGE is exposed as a PR department for the government and nothing more. Yes it is mathematically possible that we will all catch Covid-19 tomorrow. The chances of that event occurring are less than 1 in a quadrillion. But it is mathematically possible. So if the government instructed SAGE to model that scenario in order to justify a certain political action, SAGE would go ahead and do it and fail to disclose that the chances of that scenario actually occurring are infinitesimally small. In the meantime they would not model the most likely outcome – which is that infections have reached their peak and that hardly anybody would die of covid-19 at all if doctors were allowed to treat the disease as they see fit rather than having treatment protocols dictated to them by government departments which are every bit corrupt as SAGE has publicly admitted that it is.

Make no mistake. the CDC, the UKHSA, the ONS, PHS in Scotland, the RKI in Germany and indeed all Western Government departments involved in this pandemic will be suffering from SAGE scenario syndrome, where they present not the truth, but the government narrative in figures. If they do not do that in the UK they have: The Office of Statistical Regulation to answer to. That is why absolutely nobody who has consented to take the gene corrupting vaccines has ever given an informed consent. Every consent has been as misinformed as the government scientists, the main stream media, the

medical profession and government regulators have made it.

Before the vaccines were introduced we know that overall mortality did not rise due to Covid-19. In fact, before vaccination, the average age of a covid-19 death in the UK was 83 in circumstances where the average life expectancy in the UK was 82. Boris himself commented on this.

"I must say I have been rocked by some of the data on Covid fatalities. The median age is 82-81 for men and 85 for women. That is above life expectancy. So get Covid and life longer" – message to Dominic Cummings on 2020October15.

That was just before the vaccines. But now, a year after vaccination began, mortality has risen by 40% for 18-64 year olds and the majority of those do not have Covid-19 on their death certificates. So it is apparent that the vast majority of these excess deaths are due to vaccination since such deaths did not exist prior to vaccination which began in December 2020.

But not all 18-64 year olds have been vaccinated in the US. The figures at the end of September 2021 (in the middle of the last 2 quarters – from the CDC Wonder database) were...

<<https://i0.wp.com/dailyexpose.uk/wp-content/uploads/2022/01/image-47.png?resize=514%2C216&ssl=1>>

So 62.8% of the people are causing a 40% mortality rise. So those 62.8% must be suffering a 64% mortality rise in order to bring the overall figure up to 40%.

So OneAmerica figures show that doubly vaccinated people between 18-64 are let us say conservatively 50% more likely do die from all cause mortality than unvaxxed in circumstances where a 10% increase in all cause mortality for that age range is a three sigma (3 standard deviation) one in 200 year event.

"So if you are between 18 and 64 and would like a totally unprecedented 50% greater chance of dying according to life insurance actuarial figures for the last 2 quarters of 2021, then get vaccinated twice – and buy a lot of life insurance"

The black death has nothing on these jabs!

## Addendum on the RKI 'correction'

The expose showed that Omicron is 8.1x more likely to infect vaccinated Germans

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdailyexpose.uk%2F2022%2F01%2Fgov-data-suggests-fully-vaccinated-developing-nations-have-higher-death-rates-than-unvaxxed-Germans-using-German-Government-data-from-the-Robert-Koch-Institut>

In the RKI report there were 186 unvaxxed and 4020 vaxxed who were infected with Omicron.

These data as originally published would have finished genetic vaccination are a means of controlling Omicron. The Expose article was starting to go viral and was translated into German and sent to politicians. The response was swift. The following alteration was made to the report.

<https://i0.wp.com/dailyexpose.uk/wp-content/uploads/2022/01/image-48.png?resize=639%2C251&ssl=1>

How strange that the unvaxxed figure was wrong but the vaxxed figure was completely

correct?.

What German mistakes 1097 for 186 knowing the consequences of such an error? But gets the other figures 100% correct. Someone needs to do a Freedom of Information Request on this. Of all the figures in the entire report, only the unvaxxed figure was incorrect?

So is it a correction or is it a corruption? Were the first figures correct or are the second figures correct? Given the comments by Prof Medley and given the totally corrupt CDC Wonder data, and given the dressing down that the Office of Statistical Regulation gave to the UKHSA when their figures proved conclusively that vaccines cause a from of VAIDS

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdailyexpose.uk%2F2021%2F11%2Fgov-lying-and-hiding-the-fact-covid-19-vaccinated-are-developing-ade%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c08d9e10688b2%7C11d>, the writer suspects the latter.

There is NO EXPLANATION given as to how this mistake occurred, why it occurred, how it was discovered, or why it was corrected so quickly. Who found the extra 911 unvaxxed people? Was it the German emergency services? Was it a statistician or was it a politician with a sense of humour given the medical emergency we created for the vaccine pushers! Government statistics outfits do not do things quickly without an enormous amount of pressure from above.

If the Expose had not published the article would the alteration have ever occurred? Poll reveals how many Germans trust official Covid data – Poll reveals how many Germans trust official Covid data

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.rt.com%2Fnews%2F545067-over-half-germans-distrust-covid-data%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c08d9e10688b2%7C11d>

More than half of Germans no longer trust official Covid-19 statistics issued by the country's disease control and prevention authority, the Robert Koch Institute, a new poll has found. A whopping 57% of those surveyed said they didn't trust the data, while 32% still deem government figures on the spread of Covid credible, according to a poll commissioned by the newspaper Bild. The widespread skepticism is perhaps not all that surprising, given that Germany's health minister, Karl Lauterbach, himself admitted last week that the dynamics of the Omicron spread were "not being depicted accurately in the official figures because of false negatives by testing as well as delays in reporting new cases."Conclusion

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.rt.com%2Fnews%2F545067-over-half-germans-distrust-covid-data%2F&data=04%7C01%7Cwsboh%40sboh.wa.gov%7C67252441b0e34e66da1c08d9e10688b2%7C11d>

Poll reveals how many Germans trust official Covid data

More than half of Germans no longer trust official Covid-19 statistics issued by the country's disease control a...

So here is the dilemma for all readers to consider: Was the 185 correct or is the 1097 correct?

Which number should we believe?

Does the German government wish to inform its nationals with the truth or does it wish to coerce them by any means into vaccination?

Since the answer to the latter question is that they wish to coerce vaccination by any means and since the second number is coercive to vaccination, the first number is correct.

This question gets to the heart of what this pandemic response is all about. Do you trust your government to tell you the truth for the benefit of your health if it means they lose their pandemic power?

If you trust politicians to put health over power then the figure you believe is 1097, 911 more than 186

If you understand that politicians are the kind of people who put power before health then you believe 186.

Hello, Washington State Board of Health,

I am writing to you to request you not to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. You know that what you are requiring is against the constitution and against science. You know you are pushing this is against people's will. You know the Covid-19 vaccine is not a true vaccine and it has caused many injuries in young people and killed many. And you know that you are still pushing it is for your own benefit!!!! The blood will be on your hands if you don't stop it right now.

Dear Board Members, Please do not mandate Covid vaccinations for children to attend public school. I will never vaccinate my children with an experimental vaccine. Contrary to popular information you cannot get the approved Pfizer Comirnaty vaccine today only the Emergency Use Authorization version. Compelling anyone to take EUA medicine is explicitly against the Nuremberg Code. Second this experimental vaccine is for the Alpha variant of Covid and is not very effective against Omicron, future variant will most likely totally evade any protections the vaccine offers. Third children especially boys have a greater risk of being hospitalized than non vaccinated boys have of being hospitalized by Covid (granted the risk is low either way). Our school system is already losing money due to parents homeschooling, I want to support our public schools and teachers but I will homeschool if you try to coerce my family. The science if you truly look at it does not support masking or vaccination for children. Please do the right thing and stand for medical freedom and against mandates!

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State

Re: Development of Rules and Regulations for State Covid Vaccinations for School Age Children

Dear Sirs;

There are several glaring problems with the SBOH and the Technical Advisory Board attempts to set rules for Covid Vaccination Mandates for children age 5 and older.

In your zoom meeting on December, 29, 2021, it was stated that you want subject matter experts. It is important that experts for and against vaccine mandates be shared. One of the glaring problems with your TAG is that there are no school board members with a diverse representation across the state on your committee. There are also no parents on this committee represented from across the state.

1). There needs to be a thorough risk assessment between the risk of harm to school age children from covid verses the risk of harm to school age children from the vaccine. Data is readily available showing the risk of harm of covid to school age children is negligible. For example, King County Dashboard shows 1 death or 0.4 deaths per 100,000 and 112 hospitalizations or 44 per 100,000 in the 0-9 age group. There are 6 deaths or 2.3 per 100,000 and 154 hospitalizations or 60 per 100,000 in the 10-19 age group.

CDC has reported that all deaths in these age groups had comorbid conditions such as leukemia, obesity, or other conditions.

Children 5 and under, are more likely to be taken to a hospital by concerned parents than older children, due to their obvious vulnerability. This must be considered in hospital data numbers. Additionally, Dr. Fauci recently reported that hospitals are "over counting" children as covid. Could there be a monetary reason for them to do so. This could also subtly suggest a glaring conflict of interest by much of the health care industry. This "overcounting" could skew the data used to base mandates or rules thereof.

This is all over nearly a two- year span with most of the incidences early in the pandemic. In December 2021, there have been no deaths and only 9 hospitalizations in these age groups in the last 30 days, which suggests that the variants are less lethal.

3). There is a lack of definitive data on vaccination studies. The pharmaceutical companies have legal immunity for law suits for 70+ years. There is also evidence that the CDC wants to hide post-licensure safety data for 75+ years.

What can be found on a clinical trial is reported in a mayoclinic.org article. In this article, it was reported that In the 5-11 age group, there were 3100 children that got the vaccine, and 1500 got the placebo. In the 12-15 age group, 1100 got the vaccine and 1100 got a placebo. It is curious that only a portion of the children in each age group were monitored for two months after the second dose. It was reported that side effects were mild to moderate. However, there were severe side effects on children that went unreported or simply omitted. There was also a reported increase in myocarditis and pericarditis after the vaccine, particularly in males 12-17. One study showed 5.4 cases of myocarditis or pericarditis per 100,000. Because covid vaccine clinical trials only began in the summer of 2020, it was stated in the article, "it is not clear if the vaccines will have long term side effects". (The early trials were only on adults; the children trials are even more recent!)

In summary, definitive vaccine data is hard come by and there is effort to suppress it. This lack of definitive data does not justify a mandated vaccine or a need to adopt any rules except voluntary vaccination for children. The testing of children also lacks definitive results as it is a well-known fact that test procedures are incorrect or inaccurate.

4.) Future implications need to be considered. Are you willing to answer to parents whose children become disabled or permanently harmed by not understanding the risk of the vaccine?

5). Regarding the transmission of COVID, children do not present a significant risk to society. Most children are asymptomatic and asymptomatic transmission is not proven and in fact, transmission by children may be weak because their viral load is low. They DO NOT represent a threat to society as a whole and therefore, does not justify a mandate or the need to develop rules for the vaccine in children.

6.). All pandemics have a three-year cycle. We are already in the second year and as in other pandemics, the variants are becoming less lethal. By the time the vaccine rules are implemented, the pandemic will be over. The expense of implementation and risk of harm to children will be unnecessary.

In summary, the board of health and the rules committee are jumping the gun when there is such a paucity of definitive data and a combined ignorance of vaccine risk. This committee should stop their proceedings immediately.

Sincerely,  
Mary Sizer

Washington State Board of Health

I am writing to you to request you NOT put the Covid-19 "Vaccination" as a requirement for children to go to school in Washington State. What you are requiring is against the constitution and against science. This is against the people's will!!!!!! The Covid-19 "vaccine" is experimental and there are reports of injuries and deaths.

I am afraid kids will be pulled from schools if this goes through - it should be the choice of the parent to get this shot or not.

Subject: No to Covid-19 Vaccine Mandates for Children

External Email

Hello,

My name is Shannan Jones, and I am writing today to express my concern with a potential Covid-19 vaccine mandate for children to be able to attend a public school in Washington State. As a parent of two children, I firmly stand by parent choice and allowing parents to make health decisions for their own children. Please know that I am pro-vaccine and understand the importance of vaccinations to public health. After a great deal of research, and after considering the risks versus benefits, I have also personally chosen the Covid-19 vaccine for myself. However, I am opposed to vaccine mandates, and vehemently opposed to a Covid-19 vaccine mandate for children, particularly to attend school or play sports. Particularly for this vaccine, that is so new and does not have a long term safety profile, parents must be able to choose. It is well known from scientific data in this country, and around the world, from hospitals in this state and all over the country and from WA's own board of health that children are the least at-risk from serious complications from Covid-19. It is also now well known that the Covid-19 vaccine does not prevent spread so mandating this vaccine for a child to attend school or play sports, and to remove a parent's ability to make this important medical decision for their child, is absolutely unacceptable. Quite frankly, I am appalled that this is even on the table for our children to be able to attend school or play sports. There are millions of families across this state that simply want the ability to choose whether the Covid-19 vaccine is right for their child(ren). We are one of those families. If WA State mandates the Covid-19 vaccine for our children to attend school, our children will be pulled from the public school system and there are many, many families who will choose to do the same.

I'm respectfully asking you to consider the many families you would harm by instituting such a mandate for our children, including the many families who will feel no other option but to pull their children from school and the education they deserve. Please do the right thing and allow parents the ability to choose what is best for their children. Please do not mandate the Covid-19 vaccine for our kids.

Respectfully,  
Shannan Jones

Subject: Sweden decides against vaccinating kids for covid

External Email

Sweden, one of the least corrupt countries in the world, has read the data and researched the science, and has reached the logical and correct decision not to vaccinate kids aged 5-12. Why is this so hard for people in our own country to do? Could it be the incredible amount of influence that the big pharma corporations have over our media, politicians, and the major health providers?

This is a huge development. Please don't be the last government agency to "get the memo."

Subject: NO Statewide Mandatory Covid Vax for children

External Email

Hello, Washington State Board of Health,

I am writing to you to request you not to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. You know that what you are requiring is against the constitution and against science. You know you are pushing this is against people's will. You know the Covid-19 vaccine is not a true vaccine and it has caused many injuries in young people and killed many. And you know that you are still pushing it is for your own benefit!!!! The blood will be on your hands if you continue participating in this evil.

Thank you,  
Christine

Subject: Regarding childhood covid-19 vaccination

External Email

To whom it may concern,

I am a parent of two school aged children, and these last 2 years have been extremely taxing for my family. While we know of a small number of adolescents who have tested positive for covid-19 by test only, not diagnosis by a physician, none have become seriously ill. In fact, it would appear that the typical cough, cold, flu, sore throat, and other common ailments are in fact more concerning, and cause more absences from school than covid-19. In that respect, I am dismayed at how the state is using covid-19 "cases" as the pretext to add new vaccinations to the childhood schedule.

Emergency use authorization aside, the currently available covid-19 vaccines are in fact gene therapies, as openly admitted by the pharmaceutical industry. The safety, efficacy, and long term risks are simply unknown. This is obvious, as they came out of "operation warp speed," the industry has yet to disclose meaningful amounts of study data, and the industry enjoys legal immunity from any adverse events. I encourage you to review the open VAERS database and see for yourself that adverse reactions are at an all time high.

In conclusion, I strongly oppose adding a covid-19 vaccination as a condition of participation in any part of public life, including schools, public events, health care settings, surgical procedures, travel, voting, shopping, entertainment or cultural events, religious practice, etc.

If you are truly concerned about public welfare, particularly of children, I strongly suggest that you rediscover the idea of whole body health, and not fixate on one condition. Obesity, mal-nutrition, social isolation, anxiety disorders, drug and alcohol abuse, suicide, etc, these conditions will negatively impact FAR MORE than covid-19. You could stand to regain public trust and confidence by returning to a more balanced approach to promoting public health.

Thank you.

I am writing to you to request you NOT to put the Covid-19 Vaccination as a requirement for children to go to school in Washington State. You know that what you are requiring is against the constitution!! You are pushing this against people's will.

STOP!! YOU KNOW BETTER!

Do not mandate the Covid shots for children.  
They are not getting real sick and the studies shows that the shots do  
not prevent the recent Omicron variant.  
Giving them the shots puts them at more risk from more serious illness than  
the Covid variant.  
To mandate these shots would not be the right thing to do.

Sincerely,

Subject: COVID vaccine requirement

External Email

Dear State Board of Health Members,

Please heed the request of so many parents not to require this vaccine for school attendance. The past month has proven that vaccinated and unvaccinated students alike contract and transmit this virus and that for almost all children it is less of a nuisance than a cold. All 4 of my children have had COVID in the past week...1 had a fever of 100 degrees for one day, 2 had no symptoms, 1 had a mild headache and a semi-stuffy nose for a couple of days. My husband and I are both vaccinated and had no symptoms, but didn't test so may have had it. However, for these mild symptoms and a positive test all the kids missed at least 6 days of school, 1 missed 3 out of the last 5 remaining high school basketball games for his team as well as the team picture, on top of having missed 3 weeks of school in the fall because a sibling tested positive. This is unacceptable and this is just one family. The vaccines do not stop the transmission and the virus is very mild for the vast majority of adults and children. There are plenty of options for people who feel more at risk. STOP PUNISHING CHILDREN AND FAMILIES WITH MANDATES AND RESTRICTIONS!!!!

Thank you,

Carly Greenland

I strongly urge the board to decide against this policy. Children are at extremely low risk for Covid and the vaccines are still only emergency authorized only. Currently, the latest Covid strand, Omicron, is so minor that its symptoms are either the common cold or none at all (asymptomatic).

Dear Washington State Board of Health,

Our state government should NOT be mandating Covid vaccines on our children. Children are at extremely low risk for Covid and these medical decisions should be left in the hands of parents.

Sincerely,

The Citizens of Washington State
