Subject: request for amending of WAC 246-100-036

External Email

Hello Ms. Thompson:

This email is to request that the Health Department change WAC 246-100-036 so that local health officers are made subject to the oversight of local health boards, including the power to veto an officer's policies by a board vote. The continued Covid state of emergency shows that the public needs to have a mechanism for input and control over local public health measures. This change would create such a mechanism.
