Subject: Regarding School Mandates for COVID Shots

External Email

Dear Washington Board of Health,

I am contacting you to state that I am opposed to any liability-free COVID-19 products mandated for our children.

The information of documented risks and injuries of the COVID-19 products to our children is ample.

I urge you to read ICWA Review of COVID-19 Shots by ICWA April 27, 2022.

<https://informedchoicewa.org/news/icwa-review-of-covid-19-shots/>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Finformedchoicewa.org%2Fnews%2Freview-of-covid-19-shots%2F&data=05%7C01%7CWSBOH%40sboh.wa.gov%7Cba7a5107fecf478202b408dac0fd2771%7C110>>

I have included two references from the review:

Colette Martin, an RN of 17 years, testified in front of the Louisiana House about the harms of vaccine reactions that she has witnessed. She also stated that more children have died from the vaccine than from covid itself. Louisiana House of Representatives Health and Welfare Committee Hearing, December 6, 2021,

https://www.house.louisiana.gov/H_Video/VideoArchivePlayer?v=house/2021/dec/1206_21_HW

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.house.louisiana.gov%2FH_V
(begin at 6:54:00)

Vaccines and Related Biological Products Advisory Committee member Dr. Cody Meissner stated “[F]our per million [pediatric hospitalizations] certainly does not constitute an emergency, and there are significant questions about the safety of this product.” June 10, 2021, VRBPAC meeting transcript, p. 62.

<https://www.fda.gov/media/150815/download>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.fda.gov%2Fmedia%2F150815>>

The following adapted excerpt is from the Association of American Physicians and Surgeons <https://aapsonline.org/alert-no-routine-covid-shots-for-kids/>
<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Faapsonline.org%2Falert-no-routine-covid-shots-for-kids%2F&data=05%7C01%7CWSBOH%40sboh.wa.gov%7Cba7a5107fecf478202b408dac0fd2771%7C11d0>>

“There is no rational reason for kids to be subject to potential vaccine mandates, often driven by CDC guidance, for diseases like COVID that pose little risk to pediatric populations, especially when the available vaccines have poor or even negative efficacy for reducing infection. In light of the fact that almost 9 out of 10 kids have a degree of existing immunity, and factoring in the risk of severe adverse reaction to the shots that are becoming increasingly apparent, a decision to add COVID vaccines to WA immunization schedules makes even less sense. The only entities that would benefit from such a recommendation would be the vaccine manufacturers themselves. Not only would their revenue increase, but liability protections that unfairly shield manufacturers from being held accountable for unsafe products would be made permanent. In summary, I urge the committee members to vote down recommendations that would push more children to receive COVID shots that they do not need.”

Respectfully,

Kathleen Nelson

Subject: No COVID shots

External Email

Dear members of the Washington State Board of Health (BOH),
Please Vote NO to adding COVID shots to "immunization requirements" for Washington's daycare and K-12 children.

Books by Robert F. Kennedy, Jr., Dr. Malone and Dr. Paul Alexander build the case for criminal charges against the public-private partnership of the medical industrial complex. There is no justification for putting hundreds of thousands of children at risk of short- and long-term harm from mandated shots for COVID in order to attend school. Please Do Not share in causing medical harm and death of our innocent children, our next generation.

The CDC has long declared the COVID shot's ineffective, because mounting evidence shows that the vaccine does not prevent infection, transmission, hospitalization, or death.

Commenting on [the CDC's unanimous] vote, Robert F. Kennedy, Jr., chairman of the board and chief legal counsel for Children's Health Defense (CHD), said: "This reckless action is final proof of the cynicism, corruption and capture of a once exemplary public health agency. ACIP members have again demonstrated that fealty to their pharma overlords eclipses any residual concerns they may harbor for child welfare or public health. This is an act of child abuse on a massive scale' ...

Robert Kennedy, Jr., continues, "While the COVID jab makers get a permanent liability shield through the addition of the jabs to the childhood vaccination schedule, those injured by these mRNA shots will not get compensation through the National Vaccine Injury Compensation Program (VICP), which covers nearly every other vaccine on the schedule.

Dr. Robert Malone, vaccinologist and inventor of the mRNA technology, strongly opposes mandated shots for children, who have the strongest immune systems and are least at risk for harm from COVID. There are no long-term safety studies of mRNA COVID jabs, nor have they been evaluated for carcinogenic or mutagenic potential or for impairment of fertility. There is increasing evidence of myocarditis risks to children and big pharma documents prove that they knew it.

Dr. Eads said COVID jab is not a vaccine. This a bioweapon. Whistleblowers in big pharma are revealing that this statement is true.

Dr. Joseph Mercola reports a "Record Surge of Infections in Children".

<https://www.lewrockwell.com/2022/11/joseph-mercola/record-surge-of-infections-in-children/>, 11/5/22 article.

Dr. Mercola reports that ample evidence shows that COVID jabs causes innate immune suppression, which makes you more susceptible to all kinds of infection, not just COVID, as well as any number of chronic diseases. The more jabs you take the more ill you become.

Adding the COVID-19 shots means 18 more shots — one per year between the ages of 6 months and 18 years — will be added to the schedule, according to Toby Rogers, Ph.D. 'So overnight the childhood schedule would go from 54 injections (72 antigens because of combined shots like MMR) to 72 injections (90 antigens),' Rogers said. 'This has absolutely nothing to do with health — it's all about profit and power' ...

Brian Hooker, Ph.D., P.E., told The Defender, 'Given the high risk of vaccine injury for a product that provides little or no benefit to children, this represents a criminal enterprise solely to ensure a revenue stream for COVID-19 vaccine manufacturers' ...As of Oct. 7 [2022], the VAERS data for 6-month-olds to 5-year-olds who received a COVID-19

vaccine showed reports of 4,279 adverse events, including 182 cases rated as serious and 7 reported deaths. For 5- to 11-year-olds, there were 14,622 reports of adverse events, including 692 rated as serious and 29 reported deaths."

Please Do NOT add COVID shots to "immunization requirements" for Washington's daycare and K-12 children.

Thank you.

Hello,

Thank you for reaching out to the Office of the Secretary of Health. We have received your email regarding COVID- 19 mandates and have forwarded it to the State Board of Health to be able to best assist you with this concern.

If there is anything else that we can assist you with, please let us know.

Thank you very much.

Subject: COVID vaccines kids

External Email

Good afternoon,

I am writing this in regards to the CDC last month saying they recommend adding the COVID vaccine to a required vaccine list for school.

I am against mandating this vaccine for children to go to school. This needs to be the choice of the parent. We all know that this vaccine does not prevent spread of COVID nor does it stop someone from catching COVID as I have known numerous people get COVID multiple times even though they were vaccinated and multiple booster shots. This needs to be a parents choice.

I know many on the health board are just chomping at the bit to force this vaccine on children. If you do then I will fill out exemption paperwork, if this is denied then I will pull my kids from the school and move to a free state where they are not forcing children to get this vaccine. Even democrat Governor from Colorado has already said they will Not mandate this vaccine.

This COVID vaccine madness needs to end. The shot is practically useless, has really only made Big Pharma executives more rich and just creates more division in the country through appointed committee mandates. Please do the right thing and let parents make these choices for their children.

Best regards,
Brian Burley

Subject: No Culpability, No Confidence

External Email

Good Day,

The level of effectiveness and/or failure of our COVID management could be argued indefinitely. It is now very evident that most approaches taken were not only ineffective, but counterproductive. Not as argument, but as evidence, I offer some positions such as: denial of natural immunity, denial of safe and effective repurposed drugs, ineffectiveness of masking, distancing and public access denial, loss of jobs and freedoms, a doomed to failure Hospital treatment protocol, promotion of experimental drugs as stopping transmission and contraction of the virus and current denial of the horrific adverse reactions. I am ever so disappointed that my earlier associated efforts, messages and warnings were never acknowledged. That said; a head hunt or some form of persecution is not my goal. However; if some level of COVID management accountability and failure is not acknowledged, there is little to no hope of the constituency following any future public health advice. Even those most prone to lemming like behavior will not follow. The Washington State Governor, Board of Health and in my case North Olympic Peninsula Health District must publicly display some form of contrition, if there is to be any future confidence in our Health management. The acknowledged failure/s can be word smithed however you like, but absent that acknowledgement, who would follow failed leadership. My desire is that our health management be both successful and inspire confidence. Our COVID management experience does not support that confidence. Doubling down, (again), on these leaky, dangerous and ineffective experimental drugs would likely destroy public health management. I implore you to and optimistic that you will all humble yourselves a bit and advise Washington State of your regret and promise to do better.

Sincerely,

Garry Blankenship

Subject: Public Comment on Vaccine Requirements

External Email

The COVID shot should not be mandated to children. According to CDC numbers, children are at very low risk of severe illness or death. They are more susceptible to the common flu, for which vaccination is not required for school.

I encourage you to consider that the Infection Fatality Rate (IFR) is very low, near 0.1% for general population and less for our children. Also the average age of a covid victim is between 78 and 81, according to the only two studies I could find that published that data. This is not far off from the average life expectancy in the regions where these studies took place.

Lastly, most of these treatments are still only authorized under EUAs. This no longer feels like an emergency, and if it weren't for the news it never would have felt like one to me or my network. This pandemic is now endemic, and I am against any further medical mandates as they fly in the face of facts and science. (I am happy to cite the studies that have informed my opinion, as well as debate the smartest and most informed person you can find who would recommend this shot be required for children.)

Even if there were a significant danger, I still believe in my freedom to manage my own health and that of my family, and I prioritize liberty over safety. It's one thing that sets us apart in this world, and if we continue to give it up little by little, we will soon have little left.

Thank you for hearing my comment.

You have a tough job and I wish you the best,

To WA Department of Health (DOH), Vaccine Advisory Committee (VAC), and Washington State Legislators, agencies and officials;

I am writing to voice, we do NOT want COVID shot mandates in our state and certainly NOT for the "pediatric immunization requirements" of Washington's children, daycares, and K-12 school requirements.

There has been more and more evidence becoming available regarding the lack of safety, harm, and ineffectiveness of the COVID-19 products. This is a grave concern and is a threat to our state's children and families of Washington.

Please do NOT vote to recommend adding vaccines to daycare and school requirements, just as you did not vote to last winter 2021, when BOH convened a Technical Advisory Group (TAG), to consider whether to require Covid shots for Washington's school kids. Thank you for listening to all of the 40,000+ constituents who voiced their opposition to having covid shots for children.

We stand for health, freedom & informed choice for Washington State.

Sincerely,

Michael Johnson

Dear Board of Health,

Here is one more article detailing some of the latest research findings relating to cardiac injury indicator and excess death post covid-19 injection. Here are a few excerpts:

"The latest evidence comes in a study from Switzerland, which found elevated troponin levels – indicating heart injury – across all vaccinated people, with 2.8 percent showing levels associated with subclinical myocarditis."

"Dr. Eyal Shahar looked at the Israeli deaths data for all ages and estimated "a plausible range of the booster fatality rate in Israel in August 2021" of 8–17 deaths per 100,000 vaccinees.

As to cause, Dr. Michael Palmer and Dr. Sucharit Bhakdi at Doctors for Covid Ethics have set out what they deem "irrefutable proof of causality" that mRNA vaccines are causing vascular and organ damage."

Washington State Board of Health, Public Comment, November 9, 2022
From: Bill Osmunson DDS MPH

Dear Board Members,

I am uncertain how to communicate with the WSBH because you do not comment or respond unless I request a rule change. Is that your preferred method of communication?

Researchers are raising cautions, fluoride ingestion may cause more developmental neurotoxicity than lead.

The WSBH MUST STOP AND CONSIDER: An infant consuming 3 cups of reconstituted formula made with the WSBH's recommended fluoridated water lost 8.8 IQ in Till's study, see below.

June 15,2022, I made a public records request for evidence the Board has used to make a cost-effectiveness-risk analysis to continue medicating everyone with additional fluoride, community water fluoridation, CWF.

The WSBH sent 16,417 pages, but I could not find cost effectiveness studies nor any inclusion of the costs to treat the harm from fluoridation the WSBH has done or relying on. Fluoridation costs far more in damage and harm than the alleged savings, I treat dental fluorosis. However, the WSBH has no records on the cost of treating harm.

The vast majority of evidence in the WSBH's possession, reports harm and is about 10 to 20 years old. New research confirms serious harm. The Board does not have answers or empirical evidence for the following questions.

The only clear concise document to questions was the Board of Pharmacy's statement that fluoride is a drug. The WSBH is dispensing a drug which has not gone through the US Food and Drug Administration's approval process, is contaminated and adulterated, administered without individual consent or known dosage.

The WSBH does not have documentation on how much the harm costs to treat; both cosmetic and functional dental fluorosis. Treating the toxic effect to the brain is unknown.

The WSBH does not appear to know how much fluoride infants may receive without harm when on formula made with fluoridated water or any randomized controlled trials of desired dosage. Formula made with fluoridated water is about 140 times more than mother's milk.

The WSBH does not know the dosage of fluoride mothers are ingesting or how much they should ingest, if any. Concentration in water is not a dosage administered to the patient. Some drink much more water than others. Dosage is not controlled. The WSBH does not know how much the lower IQ from excess fluoride ingested is costing individuals or the state in lost productivity.

The WSBH does not know how much it costs to treat thyroid damage, bone fractures, tooth fractures or cancer from excess fluoride.

The WSBH does not have a Dose Response Analysis or Relative Source Contribution of fluoride that I could find.

The WSBH trusts "others" to read the research but I could not find primary research the Board has reviewed. Those promoting or profiting from fluoride may not be the most objective evaluators of science and policy.

Would the WSBH like me to send primary research so you can review empirical? Here are two studies which the Board must evaluate if your intent is to protect the health of the public.

Green R, Lanphear B, Hornung R, et al. Association Between Maternal Fluoride Exposure During Pregnancy and IQ Scores in Offspring in Canada. *JAMA Pediatr.* 2019;173(10):940–948.

<https://jamanetwork.com/journals/jamapediatrics/fullarticle/2748634>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fjamanetwork.com%2Fjournals%2>

"Results . . . A 1-mg higher daily intake of fluoride among pregnant women was associated with a 3.66 lower IQ score (95% CI, -7.16 to -0.14) in boys and girls."

And:

Till C, Green R, Flora D, Hornung R, Martinez-Mier EA, Blazer M, Farmus L, Ayotte P, Muckle G, Lanphear B. Fluoride exposure from infant formula and child IQ in a Canadian birth cohort. *Environ Int.* 2020 Jan;134:105315.

<https://pubmed.ncbi.nlm.nih.gov/31743803>

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fpubmed.ncbi.nlm.nih.gov%2F31743803/>

"Results: . . . A 0.5 mg increase in fluoride intake from infant formula corresponded to an 8.8-point decrement in Performance IQ (95% CI: -14.18, -3.34) and this association remained significant after controlling for fetal fluoride exposure (B = -7.62, 95% CI: -13.64, -1.60)."

The WSBH MUST STOP AND CONSIDER: An infant consuming 3 cups of reconstituted formula made with fluoridated water lost 8.8 IQ in Till's study.

And would the WSBH like a copy of the NTP's studies they reviewed?

The National Toxicology Program's 2019 (NTP) review of fluoride's neurodevelopmental and cognitive health effects. The NTP review included 159 human studies, 339 non-human studies, 60 in vitro, and many other publications.

The research is reasonably consistent and the few outliers should also be reviewed. Community water fluoridation is harming millions in Washington State.

Sincerely,
Bill Osmunson DDS MPH

Hello, I understand you are considering requiring the Covid 19 Vaccine for children to attend school and/or daycare. If you decide to do this please be ready to show what data you will be basing your decision on. From the data I have seen the vast majority of children are not at risk. Please also be ready to offer informed consent meaning, be able to give a full list of what is in the injections and what the risks are to parents before they have their children vaccinated. From what I can see, the risk/ benefit ratio exposes that children should in no way be taking this therapy unless they have leukemia or other serious disease.

It is incumbent upon you to make sure that the decision you make here does not prove harmful to our children.

If you decide to go forward with this, please send me an informed consent form.

Thank you,

Elaine Fosness

On Saturday, November 5, 2022 at 03:21:57 PM PDT, Nola Coston <govstf@icloud.com> wrote:

Dear members of the Washington State Board of Health (BOH),

Please Vote NO to adding COVID shots to "immunization requirements" for Washington's daycare and K-12 children.

Books by Robert F. Kennedy, Jr., Dr. Malone and Dr. Paul Alexander build the case for criminal charges against the public-private partnership of the medical industrial complex. There is no justification for putting hundreds of thousands of children at risk of short- and long-term harm from mandated shots for COVID in order to attend school. Please Do Not share in causing medical harm and death of our innocent children, our next generation.

The CDC has long declared the COVID shot's ineffective, because mounting evidence shows that the vaccine does not prevent infection, transmission, hospitalization, or death.

Commenting on [the CDC's unanimous] vote, Robert F. Kennedy, Jr., chairman of the board and chief legal counsel for Children's Health Defense (CHD), said: "This reckless action is final proof of the cynicism, corruption and capture of a once exemplary public health agency. ACIP members have again demonstrated that fealty to their pharma overlords eclipses any residual concerns they may harbor for child welfare or public health. This is an act of child abuse on a massive scale' ...

Robert Kennedy, Jr., continues, "While the COVID jab makers get a permanent liability shield through the addition of the jabs to the childhood vaccination schedule, those injured by these mRNA shots will not get compensation through the National Vaccine Injury Compensation Program (VICP), which covers nearly every other vaccine on the schedule.

Dr. Robert Malone, vaccinologist and inventor of the mRNA technology, strongly opposes mandated shots for children, who have the strongest immune systems and are least at risk for harm from COVID. There are no long-term safety studies of mRNA COVID jabs, nor have they been evaluated for carcinogenic or mutagenic potential or for impairment

Subject: Personal comment on potential covid vaccine requirements

External Email

Hello,

I am writing to submit a personal comment on the subject of covid vaccine requirements for children. In my view and many others, children should not be required to take covid shots in order to attend schools.

I ask that you please consider ALL the objective evidence about the risks vs. benefits of covid vaccinations for children. The covid vaccines are in no way necessary for children's health and safety. Covid poses very little risk, if any, to children, and the vaccines are completely ineffective at preventing the spread of coronavirus anyways.

There is no logical basis for mandating a vaccine for children that doesn't prevent the transmission of the infectious agent.

From a moral perspective, human beings absolutely have the right to choose which medical interventions they wish to engage in for their health. Vaccines are no exception.

Finally, please keep in the mind the staggering number of "adverse reactions" (injuries, deaths) that have resulted from people taking these shots. The side effects of these shots can be extremely severe and damaging. Why risk injecting children with them when it provides no real benefit anyways?

Thank you for reading my comment.

I have seen for real, the CDC has seen for real, pfizer and Moderna have seen, FDA has seen, many doctors and nurses around the country have seen ... Seen adverse effects, illness, other sideeffects from this shot related to the covid virus. for absolutely no reason washington state wants to shoot our children with a risky drug. Why?????
We've all had covid, and with the right medications it was not a big deal
There is NO evidence that young healthy children are in danger.
Does Washington State have too much extra money to spend? Is that the reason?
Im almost POSITIVE there are real problems to spend money on.

Subject: Vaccine Mandates in school

External Email
Hello all,

I know I am a little late in voicing my opinion, but felt it was necessary to let you know how I and most of the people I know feel about vaccine mandates for children.

First, there is a plethora of information available about the possible dangers of the vaccine. This information is not from quacks, but from very reputable Doctors, some of whom have worked on various stages of development of the Covid19 vaccine technology. There are many people speaking out against the efficacy and safety of the vaccine. Until further testing is done and we know our children are safe, this fact alone should stop any mandates.

Aside from that there is the fact that as parents we should get to say what goes into our kids bodies. Parental rights are being usurped by government and that is just plain wrong. We should all be able to decide what is best for our own bodies as well as that of our children. WE are responsible for their care and safety, not some government agency.

There is also the element of freedom. In America we are supposed to have religious freedom as well as personal freedom to make our own decisions. That means if our religion or our personal preferences prevent us from using any type of medicine, be it vaccines, drugs, blood transfusions, etc - as a free society we should have the right to do as we see fit for our own health. It is not the right of the health agencies, government, drug companies or anyone else to make those decisions for us.

I do not know the outcome of your meeting this week, but regardless, you must respect individual freedoms and rights or the very fabric of the founding of this country will be destroyed. Whatever else some want to say is the foundation of this country - freedom is at the top of the list. Freedom of speech, freedom to own land, freedom to pursue happiness (not necessarily have happiness) and freedom to work and live as we please. We do NOT have the freedom to impose restrictions or limitations on others or infringe on another's rights or freedoms if they are law-abiding citizens. Anything short of that results in a totalitarian government.

Regards

Ronne

To whom it May Concern,

Many studies have been released in the last 1 1/2 years from reputable medical researchers stating that the Covid 19 vaccine is DANGEROUS and UNSAFE for children and adults. The number of deaths from unknown causes or cardiac issues has increased substantially in ways never seen before in our history! (Who ever heard of Sudden Adult Death Syndrome??) Go talk to a funeral home embalmer and the life insurance agents who see the increased death statistic daily in their positions.

Vote "NO"!! Do NOT add this onto the schedule for our children. Do NOT harm our youngest people.

I cannot believe that after 32 months we're still having this conversation.

Everyone on this board knows that these vaccines were not vetted appropriately, that every single one of the pharmacy companies have fudged the data to push this out.

We are seeing permanent medical injuries to children and adults from the side effects of the vaccines. With the CDC's horrible decision they have voided any individual's ability to sue these companies for their malpractice.

Absolutely shameful.

We are a Constitutional Federal Republic - that means you work for the people. The people have made it very clear - medical decisions are personal and not to be regulated or strong-armed by any government.

I'll leave you with a quote from Abraham Lincoln

'We the people are the rightful masters of both Congress and the courts, not to overthrow the Constitution but to overthrow the men who pervert the Constitution'

Your decision will impact every child in this state and put the nail in the coffin for public education.

Subject: VOTE NO! WA Board of Health (BOH) meeting on Wednesday, November 9

External Email

Dear members of the Washington State Board of Health (BOH),

Please Vote NO to adding COVID shots to "immunization requirements" for Washington's daycare and K-12 children.

Books by Robert F. Kennedy, Jr., Dr. Malone and Dr. Paul Alexander build the case for criminal charges against the public-private partnership of the medical industrial complex. There is no justification for putting hundreds of thousands of children at risk of short- and long-term harm from mandated shots for COVID in order to attend school. Please Do Not be part of causing medical harm and death to our innocent children, our next generation. This is not a time to be stubborn; it is a time to listen to the people AND see that what is happening in the courts, which is going in favor of parents and employees who lost their jobs, having to fight this would be a stain on your reputation....especially when you know factually that the vaccine does NOTHING to stop the spread. People get COVID with or without the vaccine. And children are the LEAST problematic. Don't follow the crowd. Use your common sense, please.

The CDC has long declared the COVID shot's ineffective, because mounting evidence shows that the vaccine does not prevent infection, transmission, hospitalization, or death.

Commenting on [the CDC's unanimous] vote, Robert F. Kennedy, Jr., chairman of the board and chief legal counsel for Children's Health Defense (CHD), said: "This reckless action is final proof of the cynicism, corruption and capture of a once exemplary public health agency. ACIP members have again demonstrated that fealty to their pharma overlords eclipses any residual concerns they may harbor for child welfare or public health. This is an act of child abuse on a massive scale' ...

Robert Kennedy, Jr., continues, "While the COVID jab makers get a permanent liability shield through the addition of the jabs to the childhood vaccination schedule, those injured by these mRNA shots will not get compensation through the National Vaccine Injury Compensation Program (VICP), which covers nearly every other vaccine on the schedule.

Dr. Robert Malone, vaccinologist and inventor of the mRNA technology, strongly opposes mandated shots for children, who have the strongest immune systems and are least at risk for harm from COVID. There are no long-term safety studies of mRNA COVID jabs, nor have they been evaluated for carcinogenic or mutagenic potential or for impairment of fertility. There is increasing evidence of myocarditis risks to children and big pharma documents prove that they knew it.

Dr. Eads said COVID jab is not a vaccine. This a bioweapon. Whistleblowers in big pharma are revealing that this statement is true.

Dr. Joseph Mercola

Subject: Covid vaccines for kids - NO WAY

External Email

None of us got the vaccine and we are ALL healthy - kids and elderly to boot including an elderly person with immune deficiency. Nearly everyone that I know that got the vaccine is now having health issues. Kids don't need it. Don't be lackeys for big pharma and the new world order or whoever it is that thinks covid vaccines for kids is a good idea. If you mandate it in the schools, we WILL pull our kids out. Utter garbage that this has gotten this far. Sell outs. Liars. Or at best, stupid or deceived. Quit messing with our perfectly adequate natural immune systems. Allow we the people the choice. YES, I'm extremely angry about you trying to force this garbage vaccine on everyone. No, I'm not a Republican. The two party system is garbage also. And yes, I DO understand science - I have a science degree from UC Davis. I've read the science and the vaccine is NO BUENO.

Subject: Vaccine Advisory Committee

External Email

Vaccine Advisory Committee,

I'm writing to voice my vehement opposition to even the idea of including the Covid 19 "vaccine" into the vaccine schedule for school children. Based on the low risk to children of serious illness due to Covid 19 and the known negative side effects of this treatment, at the very least it would be negligent to include the mRNA shot into the kids vaccine schedule. In fact it would be a despicable act of authoritarianism that runs counter to the desires of parents for our children. Each and every negative side effect caused by this unproven treatment, any damage or harm caused to an innocent child due to this requirement would fall squarely on your shoulders.

I urge you to consider the statement recently adopted by this Orange County school board:

"The Board stands side-by-side with Orange County residents against mandatory vaccinations, particularly of school-age children. Schools are for inculcating facts and knowledge, and not advancing vaccination mandates for children who are at very little risk of the COVID-19 pathogen."

For any one email you receive condemning this mandate there are hundreds who feel the same but have not spoken up.

I humbly ask that you stand up and protect our children from the interests of big pharma and corporate greed.

Thank you,

To whom it may concern

I am a substitute teacher, parent and aunt with kids in both public and private schools. It's alarming that after 2 years you would consider putting the C-19 vaccine on the immunization requirements for school aged children. Don't you think that parents should make the choice to get this for their child, if they think its necessary? Does this "disease" still have a 99% survival rate? It just doesn't make any sense to me. Our children are already over-vaxed as it is. Please stop this madness. Stop trying to take control from parents. You saw the number of enrollment drop since this all began....I can't imagine it making things any better if you do this.

Thank You for for your time.

Dear board,

You are not an elected board, but appointed and are making huge decisions that will affect families. Families need the information and the ability to make their own decisions. Please release the side effects to these recommendations before any change to the CDC guidelines. I am against adding any MRna ingredients to already recommended vaccinations.

I ask that you do not increase the vax burden on children or any system that has to monitor them.

Schools are to educate not mandate. No one should be forced to take into their bodies anything they believe will harm their children. I vote NO.

Please be assured if you make any mandatory, responsibility free COVID vaccines to school children for their ability to attend school, MANY PARENTS WILL PULL THEIR KIDS. If you continue forcing this issue, more people will stand against this unconstitutional, unconscionable requirement that is now sending our young into the hospitals. If you do not stop playing the "science misinformation" game many more will wake up and take back our God given rights. Be wise, don't force vaccines.

Thanks for the preapproved and canned response from a nameless faceless bot. Why is there no man or woman standing in honor behind this message being conveyed? Without a name, this message is meaningless dribble from a registered for-profit corporation trying to cover their behinds from liability. That same corporation will not be protecting its employees (you) from liability for crimes on humanity. You will stand alone, facing your accusers.

Dear: Tao Sheng, Jamilia Sherls-Jones, Heather Drummond, Umair Shah, Melinda Flores, Elisabeth Crawford, Temple Lentz, and any other agents or principals in this WADOH and VAC Board decision process.

Notice to principals is notice to agents, notice to agents is notice to principals.

Nothing here is intended to intimidate or harass. The serious nature of these claims is just that. Genocide is a serious matter and has serious consequences.

I am re-addressing each of you, as notice. I intend to follow up with a physical notice, including a fee schedule to which I intend to file liens against the men and women named through a UCC claim, should the covid vaccine be added to the immunization schedule. You will not wash your hands of any liability if you continue to participate in the coercion and pure assault and murder of American people, of Washingtonians! All of you, are being noticed within your private capacity. No agency or corporation will shield your willful participation. Government atrocities continue, so long as you continue to carry them out. "Just doing your job:" is not a valid plea! That has been solidified in world treaties born from the Nuremburg trials. Let's not forget how the Informed Consent clause of that treaty was also gleefully violated by, you, people employed and voted into the Washington State and State of Washington agencies.

My message stands! You did not address a single concern from my original letter. Should you move forward to approve this biological weapon, parading as a protective covid vaccine, to be added to the Washington childhood immunization schedule or even encourage, coerce, or allow for extortion of mothers and fathers to jab their kid, or target childrens' psyche with advertisements for this experiment that has PROVEN dangerous, that does not prevent infection nor transmission, for a mild cold that has a .035% chance of death in people already dying, you will be held accountable to the fullest extent of the law. The U.S. courts are slow, and if you allow this to go to U.S. Courts, the damage

you'll have caused will be irreparable and tribunals will follow. *please note that military tribunals are law... If you add this jab to the schedule, we are talking world court, tribunals, and actual law persecuting for crimes on humanity and treason! The handlers that initiated these crimes are already begging for amnesty while their mercenary soldiers (you) continue to carry out the original orders. Asking for amnesty while you are still actively committing the crimes will not bode well in the tribunals. Early redemption is required for mercy to be considered. Your message below makes it clear that your current target is the poor community once Fauci's extortion budget has dried up! "As federal funds for COVID-19 vaccination are expected to run out in the next year, the CDC's recommended vaccination schedule will also be important for the uninsured and underinsured populations. The immunization schedule provides guidance to insurance providers, which tend to cover vaccines on the list. "

This pre-print recent study shows that covid-19/corona virus is/was FAR less dangerous than the truth sharing community claimed. Niel Ferguson and the Imperial College of London shut down and set the world on fire claiming this would result in a 3.5% death rate. The truth sharing community had calculated a .27% chance of death and overshot reality as well, but still, to a degree that it should not be considered a pandemic. Again, it killed people that were already dying. They placed fear in you simply to play a control game with you. They fast tracked a vaccine and told you that they would not know the true implications for a couple of years. The jab you are promoting has killed, with a 40% increase in mortality since its release. Killing people with a vaccine is the emergency!!! The blood analysis study depicted in the images below shows that in reality it was a .035% chance of death from covid. One stands a better chance of choking on a doughnut and dying, and I know that you are not about to outlaw doughnuts, because this is not really about health!

Total number of VAERS reports since 1990 is 2,339,393

of which 1,447,520 are submitted as reactions to the covid jab and of which 31,696 were reports of covid vaccine death. This jab is pure genocide and all the CDC's excuses as to why we should not depend on VAERS are simply attempts to keep you doing their dirty work. Harvard Pilgrim Medical, the creators of VAERS, attempted in 2010 to correct the underreporting issue with the VAERS system and the CDC ghosted them. CDC paid (under court order) Harvard Pilgrim Medical \$1Mil to complete the 3-year study where they concluded that less than 1% of vaccine injuries are reported to the system. Nurses trying to submit reports on the covid jab are being fired and healthcare systems refuse to encourage the use of VAERS, as it would create vaccine hesitancy. Truth is, their products are killing people and they want to keep the population controlled and culled while they collect the monies from the implied mandatory coerced and extorted products developed at taxpayer expense and then sold to said taxpayers and their insurance providers (also paid by the same people that were taxpayers) by way of premiums. There are probably a ton other wealth streams, such as Wallstreet, stocks, etc...

Covid is a nothing burger, but the mass erection of kidney dialysis centers just before the pandemic tells me they had already planned for the mass rush from Remdesivir induced kidney failure. This drug was trialed and failed many times prior to assigning it to murder covid patients. In Washington state, coincidentally, the Emissions testing stations in THE state known for climate pledges were all shut down allowing them to become drive-thru PCR testing stations. The creator of the PCR test unexpectedly, months prior to the pandemic died of pneumonia. Kerry Mullis had many video testimonies to the fact that his nobel prize winning PCR invention was not a tool to diagnose infection or disease. Yet mass nose and brain rape took place all over the planet at the direction of Kerry Mullis' arch enemy, Anthony Fauci!

jurisdictions make their own rules about which vaccines are required for school attendance. In fact, there are vaccines included on the schedule now, such as the seasonal flu vaccine, that many jurisdictions don't require for children to attend school. This is not a new recommendation, the COVID-19 vaccine has been recommended and available to people 6 months of age and older since June 2022.

The Washington State Board of Health considered this issue earlier this year, and voted to not include COVID-19 immunization in the list of those required for school entry.

Therefore, COVID-19 vaccination is not required for school entry in Washington State.

More information is available on this State Board of Health Webpage: April 13 Meeting

<<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fdoh.wa.gov%2Fvaccine-advisory-committee-vac&data=05%7C01%7Cwsboh%40sboh.wa.gov%7C9a0e3c763822404e789308dabeb12cf8%7C11d0e217>>

As federal funds for COVID-19 vaccination are expected to run out in the next year, the CDC's recommended vaccination schedule will also be important for the uninsured and underinsured populations. The immunization schedule provides guidance to insurance providers, which tend to cover vaccines on the list.

Thank you,

COVID-19 Vaccine Public Response
Prevention and Community Health Division

Subject: REGISTERED FOR MEETING AND RECIEVED A BAD ZOOM LINK - Nov 3 Meeting,
VAC - Covid19 Vaccine on Childhood Immunization Schedule

External Email

I registered for today's meeting and asked to speak, yet, I was emailed a bad, corrupt, non-functioning ZOOM meeting link. "Bad Gateway, error 502." Correlation is not causation, but the coincidences are plenty to have suspicion of censorship.

At my core, I believe each (wo)man, serving on the Vaccine Advisory Committee believes in their heart that they are doing what is right for the children, History should be enough to show how most often, when government usurps unalienable rights, atrocities occur. This is most true in medicine. History has shown us that men and women that blindly follow government, are most often led to have deep regrets. No doubt, everyone here wants what is best for the children. It's just that we don't agree on what that is. Let's say we leave it up to the mother and father of each child and redirect our focus on real scientific data and the unfolding Pfizer trial data dumps to LEARN what efforts went into developing this new product.

Take a look at the source of the information you are about to weigh, in order to make your determinations.

When I phoned the WADOH summer '21 to ask for citations of the science they claim to leverage, after much painstaking teeth pulling, I was referred to a Google search and the CDC circular website, linking to propaganda, that linked right back to the initial propaganda. There was no informational links to any science. When I told the women speaking for WADOH this, she resigned from her defensive posture and told me that they get their direction from the Governor's office. I asked where he gets his medical information, because, on the television, Governor Inslee claims to have consulted with the experts at (WADOH). I was shut down and told to contact the governor's office. I was referred to the Governor's office for Health Science. Please let that sink in. If it was just once, we could chalk it up to the person answering the call, not equipped to handle these questions about source citing, but I got the same response from King and Pierce County DOH. As if it was a scripted protocol. Washingtonians pay taxes to hire great scientific and medical minds to make independent research and opinions that they and we can then collaborate with worldwide professionals. We are meant to prove or disprove our conclusions or theories. We were never meant to have top-down decision making regarding "public health." If the system was working, we'd all be collaborating rather than labeling opposing viewpoints as conspiracy theories and domestic terrorism. Since so many parties, persons and corporations have claimed immunity from liability for the damage caused by these for-profit products... Each man or woman, in their private capacity, voting here today will be held accountable, liable, and morally, ethically and consciously have to live with the damage they cause. The people harmed, will pursue remedy and they will pursue it as gross negligence for some blind and faithful belief that science is somehow an authoritarian body owned by Fauci's unlimited extortion budget. Ask your local county and state medical scientists to independently review the data and to speak with those perceived opposition professionals to understand concerns around injecting our children. That should be a very minimum effort. I should not even have to

ask for that to occur. It's the ethical path!

Historically, this committee has followed top-down style of guidance throughout Wa-VAC's existence. They've ignored the independent medical professionals for a century. It's not new, you are not special, but you can be, simply by giving dissenting voices your consideration.

The covid vaccine trial data that was obtained through a lawsuit after FDA and Pfizer resisted releasing the data, shows there were no safety or efficacy studies performed! It also showed massive harm to test participants. The side effects from the initial phases of the trial were not tracked in the realtime trial that we are living in, using the new V-Safe Ap. Instead, v-safe asked meaningless questions. The harmed test participants that speak up, having lived (or died) from these side effects, are deleted from the internet, gaslighted into silence, left to find and fund their own recoveries or worse, suicide. Pfizer and the compromised FDA wanted 75 years to release this damning data. The list here, are the side effects they found especially concerning, yet the V-Safe asked very benign questions that would not track these events.

Insurance actuaries have reported a 40% increase in life insurance claims among those 18-64 years old, since the vaccine rollout. That is a 40% increase in deaths, from all causes... like heart attacks, strokes, cancer... The social security administration will support that claim. There was no increase in overall mortality before the covid vaccine, when covid was "raging" through our country. Now you have met to discuss the culling of our children, not your children, OUR children, and sent out bad links to the meeting where these atrocities are being committed. The well-placed ads depicting the normalization of heart problems in children is quite disgusting, please see it for what it is. Indoctrination of a new normal being created for you. They are leading you to accept death, and they claim we have a climate catastrophe. *Learn, and we can create a clean planet. We aren't trying to burn oil and coal for the rest of time. The earth can provide, clean and abundantly, without government police state surveillance.

These jabs are not effective at preventing infection, not effective at preventing transmission nor are they effective at preventing hospitalization. Covid is not deadly to those not already dying. Vents and Remdesivir did that! Even though Rochell Wolenski of the CDC, Tedros of the WHO, Deborah Birx, Tony Fauci and the like have admitted that these shots don't work, way too many billions of dollars have been used to create a media propaganda campaign and to pay off the media and tech platforms to quash any opposing voices around this mass genocide. Anchors literally sit at their news anchor desk, tell us about the failure, and then finish with how important it is to take this risky product. It is psychotic.

Did you know, during the initial lockdown phase when babies and toddlers were unable to get to their Well Baby Check appointments, coincidentally, SIDS cases went down 30%. Now after this vaccine release, we are supposed to blindly accept SADS as a new reality. Correlation is not causation and claiming there is no evidence is a tired diversion tactic. There is no evidence, because the correlations were intentionally ignored by those top-

down authorities this committee and too many Washington politicians have placed blind faith trust in. Industry paid science will always support the industries' agendas. Listen to the brave and independent medical professionals. Just hear them, research what they claim. Anyone that has given an honest look has become skeptical of the jabs.

EPOCH TIMES: LAWYERS PREPARE TO SUE ANY STATE THAT REQUIRES COVID 19 VACCINE TO ATTEND SCHOOL

<<https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fparacom.paramountcommunication.com>

The legal cases against mandating this, will win all over the united states. Washington is more programmed/indoctrinated than many other states. Help prove me wrong!!! Do the hard work of looking at the real numbers, the real stories, and making better decisions. There are so many support groups for vaccine injured people who are ignored, ghosted, and deleted to a greater degree than Vietnam vets. The callous disregard for actual factual science and statistics is getting mass numbers of people injured and killed.

So many doctors are speaking out, despite state's health departments threatening their licenses and livelihoods. Bureaucrats continue to bull them over with their special form of retaliation and without giving their statements of fact any consideration. This is a tactic to instill fear to speak out in otherwise compliant corporate doctors. The State DOH's are attacking the licenses of doctors speaking of real scientific data and pointing out relevant data that sows doubt in anyone's mind. California has enacted legislature around this, making this form of unlawful fascism a part of their legal structure. Where is medical science supposed to come from, if not the front lines where patients are treated? When the government gets it wrong, who is left to correct them?

The children of Washington need us to stand up for their health and future. The pharma industry and the compromised (bought) agencies that are meant to regulate them from harming people, do not care about health. I understand the question, "why would "they" do that." The real question is, Why are YOU allowing them to do that? Let's stop the genocide, and then we can have a discussion about why they are doing it.

Anyone supporting this jab going forward is complicit in genocide. Anyone supporting mandating this jab going forward will have devastated families holding each man/woman personally accountable for gross negligence, if not full-blown treason, genocide, and crimes on humanity.

Please, begin to independently educate yourself. Listen to those that you believe through HEAVILY funded propaganda smear campaigns to be dangerous spreaders of misinformation. Hundreds of billions of dollars can persuade a lot of people. Be smarter, more intelligent, curious, intuitive than to fall for their extensive web of coercive propaganda. Don't believe me, rather go look for the science they claim exists. Does the data they reference truly support what they claim it does?

Here are a ton of links that can serve as launch points for investigating and finding your truth. It's just information. Nothing to fear in learning new things, especially new health things, when you are the arbiters of health things. in our majestic Washington.
